American Tranche

NOTICE OF REDEMPTION

To Holders of the American Tranche of the above-described Bonds:

NOTICE IS HEREBY GIVEN that in the exercise of the rights reserved under Article 6 of the General Bond of the above Loan, the Government has elected to redeem on June 1, 1935 all Bonds of the American Tranche then outstanding. All such Bonds are hereby called for redemption as of June 1, 1935 and will be redeemed and paid on and after that date at 100% of the principal amount thereof upon presentation and surrender of such Bonds, together with all coupons due December 1, 1935, and subsequently, attached, at the office of Messrs J. P. Morgan & Co., 23 Wall Street, New York City, New York. The coupon due June 1, 1935 on such Bonds will be paid upon presentation and surrender at the said office on and after that date. Interest on all such Bonds will cease to accrue June 1, 1935 and all coupons thereof nominally payable after such date will be without force or effect.

The Government is giving notice of redemption of all outstanding bonds of the other tranches of the Loan other than the Spanish Tranche.

THE GOVERNMENT OF THE FEDERATION OF AUSTRIA

By EDGAR PROCHNIK, Austrian Minister.

Dated, November 30th, 1934.

Dividends

OMMERCIAL INVESTMENT RUST CORPORATION

Convertible Preference Stock, Optional Series of 1929, Dividend

A regular quarterly dividend on the Convertible Preference Stock, Optional Series of 1929, of COMMERCIAL INVESTMENT TRUST CORPORATION has been declared payable July 1, 1935, to stockholders of record at the close of business on June 5, 1935, in Common Stock of the Corporation at the rate of 5/208 of 1 share of Common Stock per share of Convertible Preference Stock, Optional Series of 1929, so held, or at the option of the holder (exercisable in the manner stated in the Certificate of Designation, Preferences and Rights of the Convertible Preference Stock, Optional Series of 1929, in cash at the rate of \$1.50 for each share of Convertible Preference Stock, Optional Series of 1929, so held.

The Corporation at least five days before such

Series of 1929, so held.

The Corporation at least five days before such record date will mail to Convertible Preference Stockholders notice of this dividend together with a form of written order which must be executed and filed with the Corporation on or before June 15, 1935 by any Convertible Preference Stockholder desiring that his dividend be paid in cash rather than in Common Stock. The transfer books will not close. Checks, stock certificates and scrip will be mailed.

Regular Common Stock Dividend

A regular quarterly dividend of fifty cents per share in cash has been declared on the Common Stock of COMMERCIAL INVESTMENT TRUST CORPORATION, payable July 1, 1935, to stockholders of record at the close of business June 5, 1935. The transfer books will not close. Checks will be mailed.

JOHN I. SNYDER, Treasurer

May 16, 1935.

The Financial Situation

WO ideas which can be reconciled only with difficulty, if at all, have for some time been gaining headway in the financial world. Their growth has been rather marked during the past week, and at times they seem to intermingle strangely in the same minds. One of them is the old notion that the Administration is "turning to the right," and henceforth, when laying out national policies, will take greater pains to observe what are known as the orthodox laws of economics. By some process of reasoning that is beyond us, many of those who are inclined to this view have found in the radio address of the Secretary of the Treasury early in the week

evidence of this trend of ideas within Administration circles. Enhanced demand for the best type of bonds and dividend paying stocks has seemed to bear witness to conclusions of this sort in the minds of some investors for a good while past.

The other idea is that the often-predicted and much-discussed era of what is popularly known as inflation is upon us. The highly uncertain state of the bonus question in Washington, and persistent reports that further increases in the official price of silver are in the offing, have been lending strength to this general trend of thought of late. "Inflation stock market sessions," during which we are beginning again to hear of individual issues moving rather violently upward because this, that or the other group of operators are "accumulating lines," are apparently one of the outward manifestations of this conception of the present situation and the out-The inconsistency

involved in concomitant "booms" in "inflation" and "non-inflation" securities is a subject of mild comment here and there, but does not seem to have taken much hold in the public mind.

A Hazardous Combination

It seems to us that a serious danger lurks in this situation. These two streams of thought could in intermingling combine to form a dangerous explosive. Mr. Aldrich, in his testimony on the proposed Banking Act of 1935, very clearly described the fundamental credit and monetary conditions that have been brought into existence, and which under appropriate conditions could be depended upon to cause highly destructive disturbances in the securities markets, in industry and quite possibly in the price structure. They have not done so yet, largely for the reason that conservative men in the business community have naturally been fearful of what all this would bring forth, and the rank and file of the public have also been too uneasy to proceed vigorously as they otherwise would, or else have not had the means to purchase freely. If presently the repeated misuse by public officials of such terms as "sound currency," and continuous propaganda apparently designed to give the impression of greater conservatism and more thorough understanding of the real needs of the situation than actually exist, should succeed in overcoming the natural reluctance of con-

servative people to make commitments, and if a growing exuberance among those who believe in inflation were at the same time to inspire unwarranted faith in the breasts of the rank and file, the consequences would be unfortunate indeed.

We must, however, in candor express a greater skepticism than appears to exist in some quarters that we are at present upon the threshold of a period in which sensible business men will fall victims to delusions of conservatism on the part of public officials whose records disclose little to indicate that they have either the inclination to follow welltrodden paths of tested common sense or the understanding that would enable them to do so, if they really desired such action. At the same time, the fact may as well be recognized that extraordinarily hazardous conditions now exist whose danger increases in proportion to the loss of uneasiness about them.

"We Must Not Delude Ourselves"

"We must not delude ourselves. The three efforts (of the Administration) to accomplish a higher price level by manipulating credit and the currency have failed. But they have left behind them a vast amount of explosive material which some future effort may set off. The potentialities are so vast and the restraints are so few that should some one of their efforts succeed the result would most likely not be an isolated detonation but a vicious and perhaps uncontrollable flagration."

With these words Winthrop W. Aldrich, Chairman of the Chase National Bank, in the course of a strong attack upon the pro-posed Banking Act of 1935, speaks the plain truth about the open market purchases of Government obligations by the Federal Re-

serve banks, the devaluation of the dollar, and our silver buying policy.

Mr. Aldrich has here pointed to the con-sequence of our blunders of the past as a good reason why we should not commit another of first magnitude, the proposed banking bill. Others have seemed to suppose that these mistakes acted as a sort of letter of indulgence to sin as much as we please against the dictates of common sense and ordinary prudence.

Mr. Aldrich is of course right. We must not delude ourselves—least of all at a time like the present when mountainous excess reserves, unprecedentedly large amounts of idle funds, banks loaded to the gunwales with illiquid Government obligations, and several other factors combine to create a situation that tempts fate to visit disaster

upon us

Mr. Aldrich is the third well-known metropolitan banker to speak plainly about the extraordinary hazards embodied in the proposed Banking Act of 1935. We hope others will follow the example set, and that in this way the country may be aroused to the true significance of this measure before it is too

No Change in Public Policies

As a matter of fact, not a great deal of realistic analysis of the facts is required to show how baseless is the idea that there has been any change of importance in the trends of Administration thought. Take for example the radio address of the Secretary of the Treasury, which seems to us more of an apologia pro vita sua than anything else. The reader looks in vain for definite indications of any willingness whatever on the part of the powers that be to take the steps essential to stable international currency relationships. Mere reiteration of naive assertions that ours is the soundest money in the world is without meaning. It is likewise without significance unless it is to be interpreted to mean that since past policies of the Administration have brought this soundness

into being no change in these general policies need be expected—an inference hardly affording support to hopes of greater conservatism in the future. Vague assurance that this country will not stand in the way of stabilization if other countries desire to establish such relationships is to our mind hardly more important in the circumstances.

Mr. Morgenthau's message is the subject of a special discussion appearing on another page of this issue, and for that reason we shall not dwell on it here. We think it well, however, to remind the reader at this point of the prerequisites of external currency stabilization in the hope that they will be borne carefully in mind when considering the words of the Secretary of the Treasury. Currencies of course are not stabilized by proclamation. Neither can they be permanently stabilized through manipulation such as our stabilization fund was designed to effect. Contrary to what appears to be the popular conception, the mere return to a permanently fixed gold content for the dollar with free redemption would be far from a complete solution of our existing problems. The enormous flow of gold to our shores, which has now again become active in important proportions, ought to warn us of such fallacies. The currency ratios of the world will largely stabilize themslves when the interchange of goods is permitted to go on with reasonable freedom, and when international trade and the flow of so-called invisible items are in equilibrium. It will be difficult to obtain and maintain stable ratios until such consummations are effected.

This obviously means that the problem of stabilization involves adjustment of debtor-creditor relationships where necessary, substantial reductions in the barriers that have been set to prevent international trade, and in our own case either very drastic alteration in existing price levels or an equally drastic upward revision of the parity value of the dollar in terms of other currencies. It also means that our budgetary deficits must be brought vigorously under control. When these problems have been faced and solved it will be practicable and exceedingly helpful to have the world, including ourselves, return to the old-fashioned gold standard and the orthodox system of automatic adjustments in foreign exchange rates. Manipulation and other artificial devices so dear to the hearts of the advocates of managed money will not then be in the least necessary, except possibly as a purely temporary expedient to tide us over a period of drastic readjustment. But where, either in Mr. Morgenthau's pronouncements or elsewhere, is to be found any indication whatever of a willingness on the part of the Administration to take the lead in such a really constructive program as this? The answer is obvious. There is none.

Unchanged Agricultural Policies

IF WE turn to the recent acts and utterances of the President himself we find about an equal lack of evidence of alterations of policy. Perhaps we should view his remarks to the Coxey's army of farmers gathered before the White House during the past week as excusable in the light of the circumstances in which they were uttered. But whether excusable or not, they seem to place the Chief Executive on record as determined to continue the course of his agricultural policies without important change. His hard, wholly discourteous and unwarranted references to

those who have had the courage to oppose hopelessly unsound agrarian programs seem to show him quite indifferent to the counsels of able men of long experience. His exposition of agricultural economics, or what sometimes passes as such, reveals the same fundamental fallacies that are responsible for the AAA program, and indicate, so far as they are to be taken at their face value, no regeneration of thought or spirit.

The Inflationists

S FAR as the claims of the inflationists are con-A cerned, it seems to us that the fundamental situation in this regard is just what it has been for a good while past. The enormous budgetary deficit continues and is being and doubtless will be met, in the future, in large part by sales of Government obligations to the banks. It is possible, as reports have it, that steps will be taken in the near future, particularly if the Administration succeeds in placing the proposed Banking Act of 1935 upon the statute book, to increase the rate at which this latter type of inflation proceeds. The Administration may find itself virtually obliged to do so if the vast sums appropriated for expenditure during the next 12 months are actually disbursed. But excess reserves, already in existence for months past, would support a volume of additional credit running to 15 to 20 billions of dollars. Passage of a bonus measure requiring the issue of more than \$2,000,000,000 in fiat notes is still a possibility. Reports have had it, with what authority we of course do not know, that the President would not be greatly displeased with such an eventuality despite strong language from the White House and the promise of a vigorous veto Such a measure would approximately double excess reserves of member banks, but after all, comparison of infinite quantities is not very profitable. The probability of early inflation in the sense in which the word is popularly used seems to us to depend largely upon whether we permit ourselves to become hypnotized by such easy reasoners as the British "economist" who during the past week has again attracted attention as a prognosticator of American developments.

Congress

THE situation in the Senate appears to be about as difficult to appraise as it has been for some time past. The action of this body in defying the President by prolonging the NRA in modified form for only 10 months is encouraging as far as it goes. The reaction of such sturdy leaders in the upper chamber as Senator Borah to the more recent efforts of the President to force Congress to do his bidding on this question is likewise heartening. We earnestly hope that they will stick to their guns and succeed in blocking a longer continuance of this thoroughly undesirable legislation. On the other hand the ease with which the exceedingly drastic and dangerous Wagner Labor Disputes Bill has obtained approval in the Senate, and the apparently authentic current reports that it will find the going equally as smooth both in the House and the White House, are certainly not conducive to hope concerning social legislation in general, including not only this particular measure, but likewise the proposed social insurance legislation which in our judgment is perhaps the most hazardous of the current New Deal proposals. Apparently the time has not come when hope must be abandoned of blocking passage of the worst provisions of the proposed Banking Act of 1935 or of some further modification of the holding company bill, but the outlook is hardly to be described as particularly encouraging despite some

apparent progress during the past week.

The fact that despite all this the rate of current business activity is maintaining itself considerably better than had been generally expected is in some respects rather remarkable. Just how much of this is to be ascribed to the natural vigor of American business, which has often revealed an ability to make progress against great obstacles, and how much is to be attributed to purely artificial circumstances, it is hard to determine, although the latter are obviously playing an important role at present. Possibly the extended publicity given to promised work relief expenditures is having a temporarily stimulating effect. The business community should, however, not forget the difference between allotments and actual expenditures. Funds are already being allotted freely under this new law, as witness the action of the President on Thursday in allocating more than \$1,000,000,000 to various types of projects, but the question still remains as to how fast the work on the projects concerned will or can proceed under the arrangements now in effect.

Federal Reserve Bank Statement

N THE banking statistics this week the figures relating to available but unused credit resources of the country continue their monotonous advance to ever higher levels. The reserve deposits of member banks with the Federal Reserve System moved to a new record, and the excess reserves over requirements likewise attained a new high. Holdings of gold certificates by the System moved up \$26,-020,000, although the monetary gold stocks of the country advanced only \$9,000,000. Both the certificate holdings and the aggregate of monetary gold registered new levels, above anything heretofore reported. There is, moreover, a large flow of gold now coming this way from Europe and fresh additions to the monetary gold base already are assured. The excess reserves over requirements currently are estimated at approximately \$2,350,-000,000, and in coming weeks the excess is quite likely to increase materially, not only because of the gold flow but also because of the preliminary discharge of bank liability for National bank notes. Now that the question of currency stabilization again has been raised, it is well to remember that the American Exchange Stabilization Fund holds another \$2,000,000,000 of gold, almost all of which is likely to be merged eventually with the ordinary monetary gold stocks. In the light of the present lack of demand for credit, it may be idle to view such figures with too much alarm, but it is well to remember that they are a plain invitation to an unparalleled speculative debauch.

Gold certificates held by the Federal Reserve banks increased to \$5,791,839,000 on May 15 from \$5,765,819,000 on May 8, and total reserves advanced almost equally to \$6,047,883,000 from \$6,023,541,000. Member bank deposits with the System on reserve account were no less than \$4,822,322,000 on May 15 against \$4,757,608,000 a week earlier. Treasury deposits on general account and other deposits declined, so that total deposits increased only to

\$5,124,166,000 from \$5,085,913,000. Federal Reserve notes in actual circulation receded only to \$3,154,374,000 from \$3,160,066,000, although a sharper decline is normal for this season of the year. Although deposit liabilities increased, note liabilities declined, and since reserves were up the ratio of total reserves to liabilities moved up to 73.1% from 73.0%. In other respects the combined statement of the 12 Federal Reserve banks is quite routine. Discounts were a little higher at \$6,655,000 on May 15 against \$5,960,000 on May 8. Industrial advances, after the slight recession noted a week ago, again moved upward to \$26,546,000 from \$26,-410,000. Open market bill holdings of the System increased \$7,000 to \$4,705,000, while holdings of United States Government securities were up \$110,000 to \$2,430,355,000.

The New York Stock Market

CTIVE trading and advancing prices were the rule this week in the New York stock market, partly because of a general increase of optimism and partly because fears of inflation again prevailed and caused many investors to purchase equities as a hedge against such possibilities. Sustained activity in the motor industry, better prices for various metals and other commodities, and improved oil company earnings all contributed to the increased optimism. Also important was the continued divident rate of the American Telephone & Telegraph Co. Although Secretary of the Treasury Henry Morgenthau Jr. suggested on Monday that the United States Government is prepared to stabilize, apprehensions regarding inflation were in evidence owing to passage by Congress of the Patman bonus bill, which provides for \$2,000,000,000 of fiat currency. Statements that President Roosevelt will veto the bonus bill did not allay the apprehensions entirely, as it was also made known that a great effort to pass the measure over the veto will be made. In these circumstances stocks moved jerkily higher, with profit-taking causing occasional recessions. The movement, however, carried general levels to the highest figures of the current year. Activity was well sustained, with the trading on the New York Stock Exchange well over 1,000,000 shares in each of the first three sessions of the week, while the 2,000,000-share figure was exceeded Thursday and nearly attained yesterday. A transfer of a seat was effected last Monday at \$105,000, up \$10,000 over the last previous sale, and another transfer on Thursday was accomplished at \$104,000.

Movements on Monday were somewhat irregular, with motor stocks in best demand, while utility shares suffered a modest recession. Attention was centered on the address which Mr. Morgenthau was to make that evening, and which was expected to be in favor of sound money policies. Well-rated preferred stocks moved materially higher for that reason. In Tuesday's trading oil, motor and railroad stocks were in fair demand and better figures were attained. A little liquidation appeared in other departments of the market, and the closing was slightly uncertain. The speech by Mr. Morgenthau took an unexpected turn, since he suggested currency stabilization, but it failed to affect share prices to any degere. Movements on Wednesday were toward better levels in most groups. Rumors that the Patman bonus bill might be passed over a Presidential veto stimulated some buying in this session. Oil, railroad and utility stocks were in best demand, while small declines occurred in steel stocks and the shares of motor companies. Widespread gains appeared in Thursday's trading, which was the most active in almost a year. Virtually all groups of issues participated in the advance, with steel, copper, silver, motor, oil and railroad stocks in the van of the movement. There were few changes of any importance yesterday. Some profit-taking was in evidence, but it was well absorbed in most instances, and the market showed a sprinkling of small gains at the close, along with the somewhat more numerous fractional recessions.

United States Government securities and the best rated corporate bonds were dull in the listed bond market. Main movements in Treasury obligations were toward lower levels, but there were periods of recovery and changes were small for the week. Speculative bonds, on the other hand, engaged in a spirited advance, with the bonds of sugar and oil companies even more in demand than second-grade railroad obligations. Foreign dollar securities were Commodity price fluctuations tributed much to the gains in some stocks and bonds. Although grains were not much changed, advances occurred in lead, copper, rubber, silk and other items, while gasoline price increases also were noted. In the foreign exchange market sterling advanced, owing to large transfers of funds from countries on the European continent, where inflation fears were rife. The United States dollar was firm in relation to the French and Swiss francs and guilders.

Corporate dividend actions of particular interest the present week included the resumption of dividends by the Intertype Corp. on its no par common stock by the declaration of 20c. a share, payable July 1 next; this represents the first distribution on this issue since Aug. 15 1931, when 25c. a share was paid. The National Biscuit Co., unlike the former company, took unfavorable action on its \$10 par common stock by reducing the quarterly disbursement to 40c. a share, payable July 15, as against 50c. a share paid in each of the four preceding quarters.

On the New York Stock Exchange 247 stocks touched new high levels for the year and 24 stocks touched new low levels. On the New York Curb Exchange 161 stocks touched new high levels and 19 stocks touched new low levels. Call loans on the New York Stock Exchange closed yesterday at ½%, the same as on Friday of last week.

On the New York Stock Exchange the sales at the half-day session on Saturday last were 634,680 shares; on Monday they were 1,125,110 shares; on Tuesday, 1,207,805 shares; on Wednesday, 1,053,130 shares; on Thursday, 2,421,700 shares, and on Friday, 1,821,600 shares. On the New York Curb Exchange the sales last Saturday were 185,180 shares; on Monday, 254,500 shares; on Tuesday, 265,600 shares; on Wednesday, 202,625 shares; on Thursday, 399,323 shares, and on Friday, 336,845 shares.

With inflationary implications overshadowing the market and a more general spirit of confidence abroad, stocks in most sessions the present week maintained a fairly even strength. On Thursday trading volume showed a perceptible increase, and prices rose briskly, many to new high levels. Yesterday the market suffered somewhat as a result of profit-taking, but closed the day in most instances

higher than on Friday of last week. General Electric closed yesterday at 25% against 24¾ on Friday of last week; Consolidated Gas of N. Y. at 23 against 24%; Columbia Gas & Elec. at 6¾ against 6¾; Public Service of N. J. at 30 against 30; J. I. Case Threshing Machine at 58% against 58%; International Harvester at 42½ against 41¾; Sears, Roebuck & Co. at 39¾ against 387%; Montgomery Ward & Co. at 26¾ against 26¾; Woolworth at 60 against 59¾; American Tel. & Tel. at 120¾ against 119½, and American Can at 125½ against 122.

Allied Chemical & Dye closed yesterday at 149% against 148 on Friday of last week; E. I. du Pont de Nemours at 99¼ against 98%; National Cash Register A at 15¼ against 15; International Nickel at 28¾ against 27%; National Dairy Products at 15¾ against 14¾; Texas Gulf Sulphur at 35 against 33½; National Biscuit at 26¾ against 26¾; Continental Can at 76 against 74¼; Eastman Kodak at 142½ against 138½; Standard Brands at 15 against 14¾; Westinghouse Elec. & Mfg. at 48% against 46¼; Columbian Carbon at 84% against 83; Lorillard at 20½ against 21¾; United States Industrial Alcohol at 42% against 42¼; Canada Dry at 10½ against 10¾; Schenley Distillers at 25¾ against 24, and National Distillers at 25¾ against 24.

The steel stocks moved upward the present week. United States Steel closed yesterday at 34% against 32% on Friday of last week; Bethlehem Steel at 27¾ against 26½; Republic Steel at 13¾ against 131/8, and Youngstown Sheet & Tube at 171/4 against 161/4. In the motor group, Auburn Auto closed yesterday at 211/2 against 201/2 on Friday of last week; General Motors at 32% against 31%; Chrysler at 48% against 441/8, and Hupp Motors at 15/8 against 15%. In the rubber group, Goodyear Tire & Rubber closed yesterday at 19 against 19 on Friday of last week; B. F. Goodrich at 9 against 9, and United States Rubber at 13½ against 125%. railroad shares also benefited by the forward movement of the market, and closed yesterday at higher levels than on Friday of last week. Pennsylvania RR. closed yesterday at 21½ against 21 on Friday of last week; Atchison Topeka & Santa Fe at 42 against 403/4; New York Central at 165/8 against 16½; Union Pacific at 96½ against 90½; Southern Pacific at 17 against 1534; Southern Railway at 103/4 against 103/4, and Northern Pacific at 171/8 against 161/8. Among the oil stocks, Standard Oil of N. J. closed yesterday at 46% against 45% on Friday of last week; Shell Union Oil at 10 against 85%, and Atlantic Refining at 263/4 against 257/8. In the copper group, Anaconda Copper closed yesterday at 171/4 against 151/4 on Friday of last week; Kennecott Copper at 20% against 191/8; American Smelting & Refining at 461/4 against 455/8, and Phelps Dodge at 191/4 against 185/8.

Industrial indices this week were more favorable than otherwise, especially when seasonal factors are taken into consideration. Steel-making for the week ending to-day was estimated by the American Iron & Steel Institute at 43.4% of capacity against 42.2% last week. Production of electrical energy for the week ended May 11 was reported by the Edison Electric Institute at 1,701,702,000 kilowatt hours against 1,698,178,000 kilowatt hours in the preceding week. Car loadings of revenue freight for the week to May 11 totaled 575,185 cars against 569,065 cars in the preceding weekly period, the American Railway Association indicates.

As indicating the course of the commodity markets, the May option for wheat in Chicago closed yesterday at 90%c. against 94%c. the close on Friday of last week. May corn at Chicago closed yesterday at 87%c. as against 88%c. the close on Friday of last week. May oats at Chicago closed yesterday at 44½c. as against 47¼c. the close on Friday of last week.

The spot price for cotton here in New York closed yesterday at 12.50c. as against 12.40c. the close on Friday of last week. The spot price for rubber yesterday was 12.08c. against 11.56c. the close on Friday of last week. Domestic copper closed yesterday at 9c., the same as on Friday of last week.

In London the price of bar silver was 35 pence per ounce as against 33 pence per ounce on Friday of last week, and spot silver in New York closed yesterday at 77c. as against 72½c. on Friday of last week. In the matter of the foreign exchanges, cable transfers on London closed yesterday at \$4.91 as against \$4.85½ the close on Friday of last week, and cable transfers on Paris closed yesterday at 6.58¾c. as against 6.59½c. the close on Friday of last week.

European Stock Markets

RICE trends were irregular this week on stock exchanges in the leading European financial centers, with the changes rather wide on occasion. Most securities were stable on the London market, while some groups enjoyed good advances. Monetary uncertainty again played an important part in the trading on the Paris Bourse, especially in the later sessions of the week, and the dealings were characterized by liquidation of fixed-interest issues and buying of equities and foreign securities. Movements at Berlin were quite uncertain, with the recessions more pronounced than the gains, owing to growing fears of increased taxation to support the German rearmament program. The situation on currency matters was entirely confused. The suggestion for currency stabilization made last Monday by Secretary of the Treasury Henry Morgenthau Jr. heartened the Continental markets for a time. A favorable impression also was created by the reductions in the Dutch and Belgian bank rates. But devaluation fears soon were revived, owing to the difficulties facing the French Government and the impending national plebiscite in Switzerland. Belgium undertook late last week what amounts to a forced conversion of all internal obligations of that Government into a 4% loan, and this measure caused unsettlement. Domestic trade reports in Great Britain continue to reflect improvement, with growing bank deposits the latest manifestation of a return to normal. Preliminary figures on the April foreign trade of the United Kingdom likewise reflect improvement. But reports from the Continental countries are less optimistic.

Generally firm conditions prevailed on the London Stock Exchange in the initial session of the week. Although the volume of trading was small, fractional gains were recorded in British funds and in most industrial stocks. The so-called commodity issues and oil stocks were in greatest favor. Gold mining securities and most international issues likewise advanced. The good tone was maintained in another quiet session on Tuesday. British funds moved forward more easily, with a good deal of the buying traceable to foreign investors who appar-

ently were seeking safety. Industrial stocks were steady, despite the appearance of some profit-taking. In the international section movements were irregular, with changes small. The London market was impressed on Wednesday by increased dividends of important oil companies, and wide gains were recorded in oil shares and the stocks of rubber companies. British funds moved slightly lower, while profit-taking caused small recessions in most industrial stocks. International securities tended to ease. Movements on Thursday favored the holders in almost all groups. British funds reflected excellent buying, as did the industrial section. Oil stocks were marked sharply higher, and favorable overnight reports from New York caused advances in Anglo-American trading favorites. Some of the gold mining issues failed to join in the general upward trend. In a quiet session yesterday British funds held their gains while good advances were recorded in industrial and international securities.

On the Paris Bourse a downward movement occurred early last Monday, owing to Communist gains in the final municipal elections which were held the previous day. Rentes were quite weak for a time, but they rallied in the later dealings and closed with only small net recessions. French equities showed only nominal changes, while international securities enjoyed a good advance. There was little activity at Paris on Tuesday, but a better general tone. The speech by Secretary Morgenthau occasioned more monetary confidence and rentes improved, although best figures were not maintained. French banks and industrial stocks were uncertain, and international issues also reflected some liquidation. After a firm opening on Wednesday, monetary uncertainty again spread in Paris, and there was a fresh wave of liquidation in rentes, while equities and international issues were in de-Commodity stocks moved sharply higher. In Thursday's trading the monetary aspects were accentuated. Rentes lost ground steadily throughout the session, and the liquidation of fixed-interest securities was paralleled by persistent buying of French equities and international stocks, which advanced even more sharply than rentes declined. The contrary movements again were in evidence yesterday. Rentes fell sharply, but equities and international issues improved.

Irregular conditions prevailed on the Berlin Boerse during the first session of the week. Various heavy industrial stocks moved lower on rumors that heavy taxes would be imposed in support of the national export program and the rearmaments expenditures. But some issues managed to improve despite such factors. Trading was quiet on Tuesday, with movements small and in both directions. The export subsidy program and its costs again caused many rumors and a little selling of stocks. Mining issues made a little progress. Activity increased on Wednesday, with public interest greater than in some weeks. The trend was upward in all groups, but shares of corporations producing raw materials gained more than others owing to the impression that the concerns will be very actively engaged soon in supplying German requirements. Advances of 2 to 4 points were registered in some securities. A good tone again was in evidence Thursday, with the situation much like that of the previous day. The gains were large in potash, chemical

and utility issues, but only fractional in mining and other stocks. Activity increased yesterday, and gains were general.

International Monetary Stability

WO events contributed this week to a fresh examination in all world financial centers of the practical aspects of currency stabilization, but it would be idle to pretend that any prospects are seen of early action toward that end. In a radio address last Monday, Secretary of the Treasury Henry Morgenthau Jr. discoursed at length on a few aspects of American monetary policy, and he concluded with an assurance that Washington will not prevent stabilization when the rest of the world is ready. The annual report of the Bank for International Settlements, issued the same day, contains a profound study of all the problems involved in currency stabilization. In this document it is urged earnestly that stabilization should be effected with the least possible delay, as an aid to world business recovery. But neither Mr. Morgenthau's declarations nor the recommendations of the B. I. S. appear to have advanced the matter. It was intimated months ago that the United States would look kindly on stabilization efforts, and the statements now made by the Secretary of the Treasury merely emphasize this view. Officials of the World Bank are opposed as a matter of course to monetary tinkering and they have seized every suitable occasion to urge stability in monetary relationships.

The defense of American monetary experiments made by Mr. Morgenthau related largely to his assumption that dollar devaluation aided American exports and American recovery. In his apology for the measures adopted by the Roosevelt Administration no mention was made of the silver policy, and the intentions of the Secretary were further emphasized by inaccurate statements regarding gold movements and misleading comparisons of the measures adopted by the Hoover and Roosevelt regimes. Of genuine importance in the address was only the concluding declaration that Washington will not be an obstacle, when the world is ready to seek foreign exchange stabilization. But before we make any commitments, we must be sure that we will not lose what we have just regained, Mr. Morgenthau added. "We are not unwilling to stabilize," he remarked. "However, if the great trading nations elect to continue under the present absence of rules we are no longer at a disadvantage. We revalued our currency no more than was necessary, and we can go either way. Our hands are untied."

Leon Fraser ended his term of office as President of the Bank for International Settlements with the preparation of the annual report submitted at the stockholders' meeting last Monday, but the document naturally reflects the views of all central bank heads. A general return to the gold standard probably would operate at this time to raise, rather than lower, the level of prices, the report suggests. The attitude was taken that stabilization should be the first step toward world recovery. Much of the gold production of recent years has been hoarded as a result of monetary instability, it is pointed out, and release of this metal on the restoration of confidence would add materially to the credit base, already enhanced by currency devaluation in Great Britain, the United States and elsewhere. An increase in the volume of world commerce also could be expected

to follow stabilization, it is argued, as instability made most of the quotas, restrictions and tariff increases necessary. In the post-war period, stabilization of the currencies then off gold preceded tariff reductions, the report indicates. Because of these circumstances, no merit is found in the argument that the relinking of currencies to gold may cause a fall in prices and necessitate deflationary measures. Some attention is paid in the report to the American silver policy, but the B. I. S. officials apparently find that policy quite as mysterious as it is to everyone else, with the exception of the group of silver fanatics in Washington. Had there been any demand for silver internationally, as there is for gold, there would have been no need of the adoption of special measures in the United States to help silver, it is remarked. The bank meeting was the last over which Mr. Fraser will preside. It was routine and the usual 6% dividend was declared.

The British view on currency stabilization is well known, as Chancellor of the Exchequer Neville Chamberlain has declared on many occasions that sterling stabilization depends on a better relationship of the French franc and the United States dollar, increase of world trade and an adjustment of the war debts. No official comment was made on the address by Secretary Morgenthau, but Mr. Chamberlain alluded to the subject of stabilization again in a speech before the British Bankers Association, Thursday. "All I can say is that stabilization is one of our ultimate objectives," the British Chancellor said. "We are now watching and shall continue to watch the situation with a view to taking action at any time that it seems to us the action is likely to bring about useful results." Mr. Chamberlain made it clear that the British Government is well aware of the need for currency stability and the difficulties faced by business men everywhere in the present situation. "But exchange rates cannot be controlled without reference to other economic factors," he remarked. "Exchange rates are the outcome of the exchange of goods and of capital transfers; and, just as it is no use to try to anchor a ship if the anchorage is always shifting, so it seems to me it would be futile to attempt to bring about stabilization in that way until we can see some prospect of stability of conditions after that stabilization has been effected."

Of more importance than all the stabilization arguments are some of the factors that are now imperiling the monetary standards of the three countries that are still on the gold standard in the traditional sense. The French Parliament will meet again on May 28, and it would appear that the fate of the franc may easily be settled in the early days of the session. The Flandin Government is expected to present a program calling for economies, additional borrowing powers and various emergency authorizations. If the requests are not granted, fall of the Cabinet is held likely and the fate of the franc may be endangered. The Swiss people will vote June 2 on a national program for halting wage reductions, lowering interest rates and other measures that may involve devaluation of the Swiss franc. Although the florin has weathered the recent attacks, the currency of The Netherlands has been weakened and also is considered in danger. Italy this week made preparations to introduce various forms of registered lire, for tourist and other uses, which are to be made available at rates far under the nominal international value of the Italian unit. Rome also prohibited, last Monday, the exportation of silver in any form whatever.

European Diplomatic Maneuvers

IPLOMATIC discussions again were pursued actively in Europe this week, with a view to formulating new accords and alliances. Although more than two months now have passed since Chancellor Adolf Hitler issued his rearmament declaration, Germany's intentions remain the dominant factor in the European situation. The current maneuvers, however, are more in the nature of usual diplomatic endeavors and the peoples of Europe are less troubled by war apprehensions than they were in the trying period of the Stresa conversations and the special League of Nations Council session. Pierre Laval, Foreign Minister of France, concluded last Saturday his long scheduled journey to Poland, and he promptly went on to Moscow for further conversations with Russian officials. His reception in Warsaw was cool, but it is quite possible that the illness of the Polish Marshal, Joseph Pilsudski, contributed to the brevity and official correctness of the meeting. It does not appear, on the other hand, that M. Laval made much progress in Poland. Franco-Russian relations probably were cemented to a degree by the official visit of M. Laval to Moscow, but the treaty signed just before the visit doubtless represents the real official nature of the rapprochement. Ministers of the Balkan Entente, which includes Rumania, Yugoslavia, Greece and Turkey, conferred at Bucharest, late last week, on problems peculiar to all of them. The Italian and Austrian Premiers held long conversations about the same time at Florence, Italy, but the substance of those talks has not been revealed. The next move in this situation apparently will be made by Herr Hitler, who is to address the Reichstag next Tuesday on German foreign policy. Early in June a Danubian conference will be held at Rome.

The visits paid by M. Laval to Warsaw and Moscow overshadowed other European incidents. The Polish drift toward Germany and away from French influence had caused much apprehension in western Europe, and it was generally accepted that M. Laval would attempt to bring Warsaw and Paris closer in their diplomatic views. On his arrival in the Polish capital, M. Laval was greeted rather stiffly by a small group of officials. Long conversations were held May 10 and 11, and when they ended an official communication was issued which indicates merely that the two Governments are agreed on the necessity of maintaining peace and security by widespread international co-operation. It was stated in Warsaw dispatches that M. Laval sounded out Foreign Minister Joseph Beck on the possibility of concluding eastern European pacts on non-aggression, such as Germany prefers in place of the proposed Eastern Locarno, which would make mutual assistance mandatory. M. Laval is said to have indicated that the new Franco-Russian pact would not affect the Franco-Polish alliance in any way, and this is believed to have induced greater warmth in the Warsaw conversations. The shadow of death hovered about Marshal Pilsudski while the talks were in progress, and they must have been affected by that circumstance, but the public was apprised of this only later, when the Marshal died.

M. Laval arrived in Moscow last Monday, and his

conversations with Russian officials were concluded Wednesday, when an official statement was issued which leaves no doubt of the friendly atmosphere that prevailed. The visit was essentially one of good-will, since the possibilities of a Franco-Russian accord had been explored previously and given expression in the pact of May 2, which binds the two countries to mutual assistance under League of Nations auspices and with due regard to the Locarno treaty. Every effort was made by the Russian authorities to show their friendly spirit toward The diplomatic business in hand, however, appears to have concerned chiefly the current endeavors to gain German support for an eastern European pact or series of pacts. In the joint statement which was issued on Wednesday, satisfaction over the accord of May 2 again was expressed. Careful study was given not only the questions of Franco-Soviet interest, but the entire European situation, it was stated. "It was especially recognized," the communication said, "that the conclusion of a pact of mutual assistance between the Soviet Union and France in no way diminishes their interest in seeking without delay the realization of a regional pact in eastern Europe that would join parties originally taken into consideration in this regard, in an agreement based on engagements of non-aggression, consultation and non-assistance to an aggressor. The two Governments will continue to join their efforts to bring this about through the most appropriate diplomatic procedure."

The Balkan Entente conference at Bucharest opened on May 10 and closed last Monday, after the Ministers of the four countries concerned had given careful attention to the rearmament demands of Bulgaria and Hungary and to some of the many economic problems with which they are confronted. It was admitted that Bulgaria and Hungary already are rearming clandestinely, and active preventive steps were considered inadvisable. Instead, an effort is to be made to bring these countries into a non-aggression treaty embracing southeastern Europe. As the conference was closing on Monday, Turkey served notice of her intention to demand the right to fortify the Dardanelles, "purely as a measure of international peace." Premier Benito Mussolini and Chancellor Kurt Schuschnigg conferred at Florence last Saturday, and only a brief and uninformative communication marked the termination of the discussion. It appears, however, that the Austrian rearmament demands and the proposed Hapsburg restoration occupied the two Premiers. Herr Hitler originally intended to address the German Reichstag yesterday on German foreign policy, but the meeting was postponed until next Tuesday because of the death of Marshal Pilsudski and the national funeral that was held in Poland yesterday.

Marshal Joseph Pilsudski

CONJECTURE in recent years frequently has turned on the question of the possible effect of the elimination, by death, of one or another of the dictators who now hold the fate of so many large nations in their hands. That question apparently will receive an early answer, so far as Poland is concerned, owing to the death last Sunday of Marshal Joseph Pilsudski, who ruled his country in recent years with an iron hand. Cancer of the stomach and liver caused the death of the Marshal in his sixty-eighth year, and his passing proved a

shock to the world, since only vague intimations of his illness had been permitted to reach the public. Present-day Poland owes more to Marshal Pilsudski than to any other individual. With indomitable spirit he planned and worked for the freedom of his country. Exile in Siberia and imprisonment in Germany failed to dampen his enthusiasm, and his hopes were realized after the World War ended. When Poland again became a nation, Marshal Pilsudski took an ever-increasing interest in the political affairs of the country, and the coup by which he made himself dictator was executed just nine years before his death. All public offices of any importance in Poland have been held at one time or another by Marshal Pilsudski, but he gave them all up and preferred to direct the destinies of his country from the seclusion of his home in Warsaw. Domestic and foreign policies alike were directed entirely by the dictator.

Proclamations were issued in Warsaw late last Sunday informing the people of the death of their leader, and all of Poland has been in mourning all this week. A national funeral was given the Marshal yesterday. The questions that now arise relate not only to the effect of his death on the internal political situation, but also on the tangled threads of European international relations. In the last year or two Marshal Pilsudski held sway largely by virtue of his achievements and prestige, and his towering presence made internal strife unlikely. Whether this situation will continue is a matter on which best informed opinion differs in London, Paris. Washington and other international nerve centers. Even more anxiety is displayed with reference to the possible international repercussions of his death. Poland dislikes and fears both her powerful neighbors, Russia and Germany, and has pursued under the aegis of Marshal Pilsudski an exceedingly realistic policy toward both. Whether the delicate balance that Pilsudski maintained now will be upset is a matter that is receiving the keenest study at present. The alliance with France apparently was confirmed in the visit paid to Warsaw this week by Foreign Minister Pierre Laval, but Polish-German relations also appear to be excellent. The future policy doubtless will depend in large part on the leadership that soon will emerge in Poland. Messages of condolence poured into Warsaw this week from all other capitals.

War Looms in Ethiopia

HAT Italy and Abyssinia soon will become engaged in a struggle involving the independence of the ancient Ethiopian kingdom now is the firm conviction of observers in London, Paris and other European centers. Premier Benito Mussolini strengthened the belief this week by calling additional hundreds of thousands of Italian troops to the colors, and by warning the rest of the world not to interfere in the developing conflict. Even if the Italian Government wished to reverse its position, war might easily be forced by the assiduous propaganda of recent months in Italiy and all but universal expectation there of new conquests in Africa. A retreat by the Italian Government now would involve a decided loss of prestige, and it is quite unlikely that Signor Mussolini will take any such risks. The Abyssinian Government is well aware of the implications of recent developments and is taking what steps it can to obtain a hearing before the League Council, but European reports suggest that Italy will refuse to recognize the League's rights in this matter. Troops in vast numbers already have been sent to the Italian colonies contiguous to Abyssinia, and it was recently indicated that they will be increased to 200,000 soon. Because of the difficulty of landing troops during the monsoon, these troops had to be dispatched during the spring and early summer, although weather conditions make it altogether unlikely that hostilities will occur before the autumn.

The Italian war preparations reached a high pitch when mobilization notices were posted last Monday for the 200,000 soldiers of the class of 1912, and to certain groups of the 1911 class. These measures caused much anxiety throughout Europe, and it was rumored that Great Britain and France might make representations at Rome against any "punitive expedition" by Italy against Ethiopia. Premier Mussolini set all such rumors at rest Tuesday with a firm declaration before the Senate in Rome. After pointing out that more workmen than soldiers so far have been sent to the Italian colonies in Africa, Signor Mussolini added emphatically that "all the soldiers we believe necessary will be sent out." And no one, he added "can take upon himself the intolerable presumption to dictate to us concerning the character and volume of our precautionary measures." Only Italy can judge this "delicate matter," the Italian dictator declared, and he denied categorically the reports that England and France are taking diplomatic steps in the premises. "The very word 'step' is extremely distasteful," he continued, "and although some people beyond our frontiers would have desired it, the truth is that no step has been taken up to the present." Cordial relations between Italy and the other great European Powers make it quite improbable that any steps will be taken, the Italian Premier added. The well-controlled Italian press, with its accustomed unanimity, declared on Wednesday that imposition of a "new organization" upon Ethiopia is necessary, and this appears to mean civil or military control by Italy. A decree appropriating 302,700,000 lire of "extraordinary credits" for use in the Italian colonies in Africa also was published Wednesday.

The Abyssinian Government, alarmed by the steady Italian preparations, has urged the League of Nations to take action, but European dispatches already have outlined a course of delay that will give Premier Mussolini ample time to decide upon his intentions and to carry them out without any real interference. The League Council is to consider the dispute next week. It appears, however, that Italy is ready to name arbitrators, and it is accepted as a foregone conclusion that the Council will accept the Italian suggestions for conciliation by such means. The Italian conciliators can make the dispute with Ethiopia just as lengthy as Premier Mussolini wants it, one Geneva report remarks, significantly. In this connection it is recalled that the Council sidetracked the entire matter in its January meeting, obviously as the result of a definite understanding among the French, British and Italian representatives. Ethiopian authorities, meanwhile, are preparing general mobilization orders and are importing some modern arms. Emperor Haile Selassie declared late last week that his country never will submit to becoming another Manchuria. Official circles in London and Rome

are said to view the whole affair with much concern, but Signor Mussolini's declaration of Tuesday is a sufficient indication of the real attitude of the British and French Governments. Dispatches from Aden, Arabia, state that the British have concentrated a number of large airplanes there in order to evacuate Britons from Abyssinia with the greatest dispatch in the event of hostilities.

Discount Rates of Foreign Central Banks

THE Netherlands Bank on Wednesday lowered its discount rate from $4\frac{1}{2}\%$ to 4%, the former rate having gone into effect on April 9, at which time it was raised from 4%. The National Bank of Belgium on the same day reduced its rate to 2% from $2\frac{1}{2}\%$. The $2\frac{1}{2}\%$ rate has been in effect since Aug. 28 1934, at which time it was reduced from 3%. Present rates at the leading centers are shown in the table which follows:

DISCOUNT RATES OF FOREIGN CENTRAL BANKS

Country	Rate in Effect May 17	Date	Pre- vious Rate	Country	Rate in Effect May 17	Date	Pre- vious Rate
Austria	4	Feb. 23 1935	436	Hungary	436	Oet. 17 1932	5
Belgium	2	May 15 1935	236	India		Feb. 16 1934	4
Bulgaria	7	Jan. 3 1934	8	Ireland		June 30 1932	314
Canada	236	Mar. 11 1935		Italy	314	Mar. 25 1935	4
Chile	4	Jan. 24 1935	436	Japan	3.65	July 3 1933	3

Foreign Money Rates

IN LONDON open market discounts for short bills on Friday were 9-16% as against 9-16% on Friday of last week, and 9-16@5/8% for three-months' bills as against 9-16@5/8% on Friday of last week. Money on call in London on Friday was 1/2%. At Paris the open market rate remains at 21/4%, but in Switzerland the rate was raised on Wednesday from 2% to 21/4%.

Bank of England Statement

HE Bank of England statement for the week ended May 15 shows a gain of £64,530 in gold holdings and this, together with a contraction of £3,929,000 in circulation, resulted in reserves increasing £3,993,000. Public deposits rose £119,000, while other deposits fell off £1,072,988. The latter consists of bankers' accounts, which decreased £1,550,993, and other accounts, which increased £478,005. The reserve ratio rose to 42.31% from 39.37% a week ago; last year it was 50.19%. Loans on Government securities decreased £5,570,000, while those on other securities went up £639,816. securities include discounts and advances and securities. The former decreased £90,692, while the latter increased £730,508. The discount rate remains unchanged at 2%. Below are the figures with comparisons of previous years:

BANK OF ENGLAND'S COMPARATIVE STATEMENT

	May 15 1935	May 16 1934	May 17 1933	May 18 1932	May 20 1931

Bank of France Statement

HE Bank of France weekly statement dated May 10 reveals another decline in gold holdings, the loss this time being 343,586,129 francs. Gold holdings now aggregate 80,283,158,011 francs, which compares with 76,607,962,159 francs last year and 80,904,169,894 francs the previous year. A decrease also appears in French commercial bills discounted of 43,000,000 francs, in bills bought abroad of 1,000,000 francs and in advances against securities of 57,000,000 francs. The Bank's ratio is now 80.10%, which compares with 78.26% a year ago and 78.08% two years ago. Notes in circulation show a decline of 632,000,000 francs, bringing the total of notes outstanding down to 82,651,618,950 francs. A year ago circulation stood at 81,087,-644,580 francs and the year before at 84,024,305,370 francs. The item of creditor current accounts registers an increase of 282,000,000 francs. Below we furnish a comparison of the various items for three years:

BANK OF FRANCE'S COMPARATIVE STATEMENT

	Changes for Week	May 10 1935	May 11 1934	May 12 1933
	France	France	France	France

Bankers' Acceptances

'HE market for prime bankers' acceptances has been extremely dull during the week, due to the shortage of high-class bills. Quotations of the American Acceptance Council for bills up to and including 90 days are 3-16% bid and $\frac{1}{8}$ % asked; for four months, $\frac{1}{4}\%$ bid and 3-16% asked; for five and six months, 3/8% bid and 5-16% asked. The bill buying rate of the New York Reserve Bank is $\frac{1}{2}\%$ for bills running from 1 to 90 days, $\frac{3}{4}\%$ for 91- to 120-day bills, and 1% for 121- to 180-day bills. The Federal Reserve banks' holdings of acceptances increased from \$4,698,000 to \$4,705,000. Their holdings of acceptances for foreign correspondents, however, remain unchanged at \$16,000. Open market rates for acceptances are nominal in so far as the dealers are concerned, as they continue to fix their own rates. The nominal rates for open market acceptances are as follows:

8	POT	DELIVE	RY

Eligible member banks						% % bid
Eligible non-member banks						% % bld

New York Money Market

DEALINGS in the New York money market were entirely routine this week, with changes in rates lacking. The supply of funds outstripped the demand to a greater degree than ever, and excess reserves of member banks mounted to a new high. The wave of Federal Reserve rediscount rate reductions was reflected in the lowering of the figure by the Minneapolis institution on Monday to 2% from 2½%, but this was only of distant interest to the New York market. Like other reductions recently effected elsewhere, it has no significance, since no

borrowing is being done from the Reserve institutions in any event. The Treasury sold last Monday an issue of \$50,000,000 discount bills due in 272 days, and awards were made at an average rate of 0.143%, computed on an annual bank discount basis. Call loans on the New York Stock Exchange were ¼% for all transactions, whether renewals or new loans, while time loans were again arranged at their range of ¼@38%. There were no changes in bankers' bill or commercial paper rates.

New York Money Rates

DEALING in detail with call loan rates on the Stock Exchange from day to day, ¼ of 1% remained the ruling quotation all through the week for both new loans and renewals. The market for time money shows no change this week, no transactions having been reported. Rates are ¼% on all maturities up to three months and 3/8% for longer maturities. Trading in prime commercial paper has been moderately active this week. Paper has been in good supply and the demand has held up fairly well. Rates are 3/4% for extra choice names running from four to six months and 1% for names less known.

Discount Rates of the Federal Reserve Banks

THIS week—May 13—the Federal Reserve Bank of Minneapolis lowered its rediscount rate from $2\frac{1}{2}\%$ to 2%, effective May 14. The $2\frac{1}{2}\%$ rate of the Bank had been in effect since Jan. 8 1935, when it was lowered from 3%. There have been no other changes this week in the rediscount rates of the Federal Reserve banks. The following is the schedule of rates now in effect for the various classes of paper at the different Reserve banks:

DISCOUNT RATES OF FEDERAL RESERVE BANKS

Federal Reserve Bank	Rate in Effect on May 17	Date Established	Previous Rate
Boston New York Philadelphia Cleveland Richmond Atlants Chicago St. Louis Minneapolis Kansas City Dallas Ban Francisco	2 1 1/4 2 1 1/4 2 2 2 2 2 2 2 2 2 2	Feb. 8 1934 Feb. 2 1934 Jan. 17 1935 May 11 1935 May 9 1935 Jan. 19 1935 Jan. 19 1935 Jan. 3 1935 May 14 1935 May 10 1935 May 8 1935 Feb. 16 1934	2 16 2 16 2 16 2 16 2 16 2 16 2 16 2 16

Course of Sterling Exchange

STERLING exchange is firmer than it has been in many weeks against both dollars and French francs, and also with respect to all other currencies. The range for sterling this week has been between \$4.86 and \$4.92\% for bankers' sight bills, compared with a range of between \$4.83\% and \$4.85\% last week. The range for cable transfers has been between \$4.86\% and \$4.92\%, compared with a range of between \$4.85\% and \$4.85\% a week ago.

The following tables give the mean London check rate on Paris from day to day, the London open market gold price, and the price paid for gold by the United States:

PRICE PAID FOR GOLD BY THE UNITED STATES (FEDERAL RESERVE BANK)

Saturday, May 11 \$35.00 | Wednesday, May 15 \$35.00 | Monday, May 13 \$35.00 | Thursday, May 16 \$35.00 | Thursday, May 17 \$35.00 | Friday, May 17 \$35.00

The most significant development of the week in foreign exchange was the radio address of Secretary of the Treasury Morgenthau on Monday. Comments on the address by Secretary of State Hull and by Mr. Leon Fraser, retiring President of the Bank for International Settlements, strongly endorsing Mr. Morgenthau's announcement that the United States would not "be an obstacle to stabilization," also had a marked influence on the course of the market. The Secretary of the Treasury's address and the more important comments on it are fully discussed elsewhere in this issue. There can be no doubt that market operators everywhere, partly, perhaps, as the result of the statements of these three high officials, have taken a bullish position on sterling.

The attitude of the market appears to be a complete acceptance of the idea that the London monetary authorities will be the determining factor in all monetary and currency alignments which the future, whether near or remote, may disclose for international trading operations. British Imperial policy has doubtless already been formulated and regardless of whether or not a conference is held on currency and economic problems, such policy will be given full force and effect. The foreign exchange market apparently has not forgotten the solemn statement of the British Treasury authorities that the Imperial Government "will have no commitments" with any other nation on monetary and currency matters. This impression was heightened by the conferences held this week between Professor Harry White, of the University of Wisconsin, acting as semi-official representative of the President, and Sir Frederick Leith-Ross, economic adviser to the British Government, in which it was made clear that the British Government considers a definitive settlement of the war debt question essential before an understanding can be reached on stabilization. A prolonged period of de facto stabilization at s'ight'y below \$4.86 to the pound is considered advisable by the British before concluding formal accords, in order to test the effectiveness of this parity, in view of their conviction that the gold bloc countries must inevitably devaluate.

Whatever the terms "stabilization," "devaluation" or "revaluation" may mean, some eminent banking authorities seem to be of the opinion that no matter what a future international conference may accomplish, Great Britain will not in any predictable period return to the free gold standard as it existed before the war. It seems to well-informed London authorities unlikely that the Bank of England will pay out gold coin or bullion for the regulation of exchange as long as gold commands the present high prices induced by the universal spread of hoarding in the Occidental world. The price of gold must fall before Great Britain will again return to anything like a free gold standard. According to responsible heads of South African and other mining companies, as judged by announcements made to their shareholders during the past year, the price of gold is not expected to decline much below 140 shillings an ounce for some years. But whether or not these prognostications, based upon motives of self-interest, prove correct in the long run, it is well to consider in connection with stabilization projects that the gold holdings of the Bank of England are carried at the statutory rate of 84 shillings an ounce.

It is believed by competent authorities in Great Britain and elsewhere that when the present business depression has passed and confidence in international trade has been more generally restored throughout the world, there will be a widespread movement of money into investment channels, and as this trend gains in strength the price of gold will reach decidedly lower levels, which will be more in equilibrium with general commodity prices, though such a level may conceivably be higher than 84 shillings an ounce. Meanwhile, any claims which may arise in any part of the world on London may be satisfied in gold through the London open market, without recourse to the Bank of England.

Shortly after Great Britain abandoned the gold standard in 1931, the British Parliament passed a resolution making the gold holdings of all claimants inviolable in the London market. This fact explains the huge volume of gold held in the vaults of the London banks for account of foreign holders. It should be remembered that a great part, if not the major part, of these London hoards is owned by industrial and commercial companies which have large international dealings and draw upon these gold holdings from time to time in order to use the metal whenever gold is required in settlement of their balances.

In brief, it is thought that Great Britain, as the world's leading international commercial power, is determined that the sterling group, including all the British Commonwealths, the Scandinavian countries and numerous other nations, must prevail and that other currencies, however they may be valued, must

be brought into harmony with sterling.

Money continues in abundant supply in London and British banks are still experiencing difficulty in making use of their funds. Deposits increased more than £1,700,000 in April to £1,940,000,000, which was £8,800,000 higher than a year ago. Security holdings rose by £3,418,000 to a new high record of £617,800,000, while bill holdings declined further by £7,590,000. Advances reflect recovery in trade, having risen nearly £8,000,000 in April. The "Financial News" index of 30 industrial shares, based on the average of 100 in 1928, was 96.9 on May 9, against 92.4 a month earlier and 90 a year ago. The high record was 97.1% on Jan. 23 last and the low record 51.3% at the end of May 1932.

In the London open market money rates continue to reflect the abundance of available funds. Call money against bills is in supply at $\frac{1}{2}\%$. Two months' bills are 9-16%, three and four months' bills 9-16% to $\frac{5}{8}\%$, and six months' bills $\frac{5}{8}\%$ to 11-16%.

All the gold available in the London open market was as usual taken for unknown destinations, generally understood to mean for account of private hoarders. On Saturday last there was so taken £170,000; on Monday, £290,000; on Tuesday, £297,000; on Wednesday, £235,000; on Thursday, £228,000, and on Friday, £467,000.

The gold movement at the Port of New York for the week ended May 15, as reported by the Federal Reserve Bank of New York, was as follows:

GOLD MOVEMENT AT NEW YORK, MAY 9-MAY 15, INCLUSIVE

Imports \$2,935,000 from Holland 1,678,000 from Canada 9,000 from Guatemala

Exports

\$4,622,000 total

Net Change in Gold Earmarked for Foreign Account
Decrease: \$111,000

Note—We have been informed that approximately \$384,000 in gold was received from China at San Francisco.

The figures given above are for the week ended Wednesday. On Thursday there were no imports or exports of the metal or change in gold held earmarked for foreign account. On Friday \$9,587,600 of gold was received from France. There were no exports of the metal or change in gold held earmarked for foreign account.

Canadian exchange this week went to a premium in terms of the United States dollar. On Saturday last Montreal funds were quoted from par to a premium of 1-16%; on Monday from par to a premium of 1/4%; on Tuesday from a discount of 1/8% to par; on Wednesday from a discount of 1/8% to par; on Thursday at a premium of 1-16%, and on Friday

from par to a premium of 1-16%.

Referring to day-to-day rates, sterling exchange on Saturday last was firm in dull trading. Bankers' sight was \$4.86@\$4.863/8; cable transfers, \$4.861/8@ \$4.86½. On Monday sterling was in demand in many markets. The range was \$4.871/4@\$4.885/8 for bankers' sight and \$4.873/8@\$4.887/8 for cable transfers. On Tuesday sterling was still in demand but slightly easier. Bankers' sight was \$4.87@ \$4.873/4; cable transfers, \$4.871/8@\$4.88. On Wednesday sterling was irregularly firm. The range was \$4.86\\(^3\)4@\$4.87\(^3\)4 for bankers' sight and \$4.86\(^3\)6@ \$4.87\% for cable transfers. On Thursday the pound continued firm against all other currencies. The range was \$4.881/4@\$4.891/2 for bankers' sight and \$4.88\[\sigma_8 \alpha \stack \sigma_4 \sigma_8 \alpha \sigma_1 \ sterling rose sharply, the range was \$4.901/2@\$4.921/4 for bankers' sight and \$4.905/8@\$4.923/8 for cable transfers. Closing quotations on Friday were \$4.905/8 for demand and \$4.91 for cable transfers. Commercial sight bills finished at \$4.905/8; 60-day bills at \$4.90; 90-day bills at \$4.895/8; documents for payment (60 days) at \$4.90, and seven-day grain bills at \$4.90½. Cotton and grain for payment closed at \$4.905/8.

Continental and Other Foreign Exchange

RENCH francs have been under considerable pressure since Thursday of last week. Funds have been moving out of Paris to London and a considerable quantity of gold was engaged for shipment from Paris to New York. The agitation for devaluation of the French franc under the leadership of M. Paul Reynaud, former Finance Minister, seems also to be gaining in force and contributes largely to the weakness in the unit. The franc is easier not only in terms of the dollar and of sterling, but also in terms of Holland guilders, the Swiss franc and the belga. Most of the gold already taken from Paris was engaged when the franc was around 6.59. A rate of about 6.5834 cents was considered necessary a short time ago in order to make shipments at a profit. At present the lower rate is still the only practicable one for all New York banks but a few with exceptional facilities.

The movement of funds away from Paris also reflects largely a movement away from other European countries by way of Paris, and is due to the fact that a great many Europeans are suffering renewed anxiety concerning the prospects of devaluation, not only of the franc but of other currencies, and do not consider themselves safe unless all possible of their available funds are converted into gold. This hoarding, motivated by the desire for personal security, accounts for much of the London open mar-

ket gold purchases, as well as for the transfer of French gold to this side.

French banking interests seem to have derived no encouragement from Secretary Morgenthau's radio address, though most of the Paris newspapers interpreted his remarks as a clear invitation to Great Britain to initiate a stabilization move. "L'Information," a financial paper, commented as follows: "America having astonished the world by depreciating her currency in record time, now wants to astonish with her anxiety to stabilize." Another financial commentator observed: "As a historian, he is distinctly mediocre. The devaluation of the dollar, according to him, was a consequence of attacks by foreign speculators. In saying this he forgets that the devaluation was, above all other things, a political manoeuvre designed to satisfy America's debtors and producers."

The Belgian situation is showing marked improvement. Funds have been flowing back to Antwerp at such a rate that they are now in great abundance, with the result that the Belgian National Bank reduced its rate of rediscount, effective May 15, to 2% from 2½%. The latter rate had been in effect since Aug. 28 1934, when it was reduced from 3%. On Monday the Belgian Government announced the conversion of the Belgian rentes to a 4% basis. offer to convert all 5% and 6% rentes, amounting to 14,500,000 francs, into a consolidated 4\% issue, Finance Minister Gerard said, would break the vicious circle in which the national economy has been enclosed. He argued that the high long-term money rates crush production, discourage the spirit of enterprise, keep unemployment high, hamper exchanges, and immobilize capital. Premier Van Zeeland made the claim that the first financial battle of Belgium has been won, pointing out that rentes have advanced 15% within a few days. It would seem that the Belgian stock markets are active, Government funds have risen, there is considerable dehoarding, retail buying is active, and improvement is seen in almost every branch of Belgian industry, due to increased home and to some extent foreign demand. improvements are attributed to the 28% devaluation of the belga. However, it cannot be denied that despite many grave obstacles a general business recovery is in progress throughout the world, in which Belgium, of course, finds its share.

On Monday, May 13, the Italian Government passed a decree prohibiting the exportation of silver from Italy in any form. Export of the metal in ingots, lumps, powder or pieces, such as jewelry and money, is strictly forbidden. Travelers going abroad will be permitted to take out not more than 50 lire (about \$4) in silver. This decree can be only partly ascribed to American silver purchase policies. Before the Italian silver currency could be melted to take advantage of high world silver prices, the quotation would have to reach approximately \$3 an ounce. No explanation is given for the decree, but banking circles in Rome feel that in part at least it is due to the fact that Italy would need much silver to finance her African military and colonial operations.

The following table shows the relation of the leading European currencies still on gold to the United States dollar:

	Old Dollar Parity	New Dollar Parity	Range This Week
France (franc)		6.63	6.58% to 6.59%
Belgium (belga)	. 13.90	16.95	16.91 to 16.93
Italy (lira)		8.91	8.20 to 8.2434
Switzerland (franc)	19.301	32.67	82.3014 to 32.34
Holland (guilder)	40.20	68.06	67.65 to 67.78

The London check rate on Paris closed on Friday at 74.69, against 73.65 on Friday of last week. In New York sight bills on the French center finished on Friday at 6.58½, against 6.59 on Friday of last week; cable transfers at 6.5834, against 6.591/8; and commercial sight bills at 6.56½, against 6.565%. Antwerp belgas finished at 16.91½ for bankers' sight bills and at 16.92½ for cable transfers, against 16.91 and 16.92. Final quotations for Berlin marks were 40.25 for bankers' sight bills and 40.26 for cable transfers, against 40.20 and 40.21. Italian lire closed at 8.21½ for bankers' sight bills and at 8.22½ for cable transfers, against 8.211/4 and 8.221/4. Austrian schillings closed at 18.80, against 18.81; exchange on Czechoslovakia at 4.17, against 4.17½; on Bucharest at 1.01, against 1.011/4; on Poland at 18.85, against 18.86, and on Finland at $2.16\frac{1}{2}$, against 2.15. Greek exchange closed at 0.93 for bankers' sight bills and at 0.93½ for cable transfers, against 0.93 and $0.93\frac{1}{2}$.

EXCHANGE on the countries neutral during the war is generally firmer. The Scandinavian units reflect the firmer tone of sterling. Holland guilders have been gaining in strength for several days and have been especially strong in terms of French francs, with the result that shipments of gold from Paris to Amsterdam have been in prospect all week. The trend was reversed on Friday, when a selling movement sent guilders down 10 points to 67.65. Quotations in the forward market are nominal. The guilder is still relatively easy in terms of the dollar, due partly to the fact that there has been a considerable flow of Dutch funds to the New York security market.

The improvement in the Dutch situation is reflected in the fact that the Bank of The Netherlands reduced its rediscount rate on Wednesday, May 15, to 4% from 41/2%. Only recently the Dutch central bank, confronted with a drain on its gold reserves, raised its rediscount rate from $3\frac{1}{2}\%$ to $4\frac{1}{2}\%$. The loss of gold was attributed chiefly to a flight of capital caused by doubt as to the ability of the bank to maintain the present gold standard. The drain has now ceased, though the gold lost has not been replaced. In some banking circles it is thought that the present reduction is merely a gesture to instil confidence. Bank of The Netherlands statement as of May 13 showed gold stocks unchanged from the previous week at 645,300,000 guilders. The gold cover is now 71.7%.

The Swiss franc is only slightly firmer in the general foreign exchange market. The firmness abroad is chiefly a reflection of the present bear attack upon the French franc. On the other hand, the Swiss radical parties have apparently decided to oppose the Swiss "New Deal" plebiscite which is to take place on June 2. This opposition, if successful, may offset the influences now working for devaluation of the unit. The plebiscite vote, if carried, will effect an amendment to the Swiss constitution. It is termed by its proponents "crisis initiative." The amendment provides for the adoption of measures to fight the depression through raising salaries, wages and farm prices; increasing employment; lightening debt service; formulating methods of unemployment insurance; controlling export of capital; regulating financial markets; and controlling trusts and combines.

Bankers' sight on Amsterdam finished on Friday at 67.68, against 67.67 on Friday of last week; cable transfers at 67.69, against 67.68; and commercial sight bills at 67.66, against 67.65. Swiss francs closed at 32.31 for checks and at 32.32 for cable transfers, against 32.32 and 32.33. Copenhagen checks finished at 21.91 and cable transfers at 21.92, against 21.68 and 21.69. Checks on Sweden closed at 25.31 and cable transfers at 25.32, against 25.03 and 25.04; while checks on Norway finished at 24.66 and cable transfers at 24.67, against 24.40 and 24.41. Spanish pesetas closed at 13.64½ for bankers' sight bills and at 13.651/2 for cable transfers, against 13.65 and 13.66.

EXCHANGE on the South American countries presents mixed trends. The Argentine peso is firm in keeping with the generally higher rates quoted for sterling exchange. For a long time the Buenos Aires authorities have looked toward London for guidance in determining Argentine rates. The unofficial or free peso is steady and firmer, showing a range this week of between 25.75 and 25.80, whereas last week the range was between 25.16 and 25.80, with the average rate around 25.55. In contrast to the firmness in Buenos Aires the Brazilian milrei, which for several years has moved somewhat more independently of London, is now showing considerable weakness, a condition which is disturbing to business men in Rio de Janeiro, who fear the results of protracted difficulties in the exchange situation. Various reasons are assigned for the present softness in the milrei. Some attribute the weakness to diminished exports, which have resulted in fewer available export bills. Some important interests in Brazil are urging that the Government should cease foreign debt payments temporarily and use the service money required by the debts to pay for imports. It is asserted in other quarters that the weakness is due in part at least to the Brazilian-German trade agreement, which stipulates that Brazilian exports are to be paid in German blocked marks.

Argentine paper pesos closed on Friday, official quotations, at 32½ for bankers' sight bills, against 32.37 on Friday of last week; cable transfers at 323/4, against 32½. The unofficial or free market close was 25¾@25¾, against 25.65@25¾. Brazilian milreis, official rates, are 8.18 for bankers' sight bills and 81/4 for cable transfers, against 8.07 and 81/4. The unofficial or free market close was 55%, against 534. Chilean exchange was nominally quoted on the new basis at 5.20, against 5.20. Peru is nominal at 23¾, against 23.42.

XCHANGE on the Far Eastern countries con-L tinues to be seriously affected by the derangement of the leading foreign exchanges and by the uncertainties of the world silver situation. Owing to the increased firmness which developed in the silver market in London on Wednesday, the Far Eastern silver currencies moved higher, though the Shanghai dollar is less responsive than formerly to advances in the price of silver. The Indian rupee, being legally attached to sterling, reflects the generally higher level of the chief exchange. The same is true of the Japanese yen, which is kept in alignment with sterling as a fixed policy of the Japanese exchange control under the guidance of the Bank of Japan.

In connection with the United States silver purchase policies and their relation to Far Eastern ex-

change, it is of interest to note statements made by Chang Kia-ngau, General Manager of the Bank of China, at the annual meeting of the shareholders at Shanghai on March 30. "It has been argued by those in favor of a higher price for silver that this would increase China's purchasing power abroad, but that this is not so is shown by the fact that, despite the higher price of silver last year, China's imports decreased by \$316,000,000. Is it that the United States Government are so ignorant of China's position with respect to silver, and so ill-informed as to the economic situation in this country, that they do not understand the source of China's purchasing power, or is it their deliberate intention to force up the value of China's currency in order to decrease our exports and facilitate American competition in this market? It is earnestly to be hoped that the United States legislature will appreciate that a rise in the price of silver will be beneficial to China as a silver standard country only to the extent that commodity prices also rise, that no stability in the price of silver can be possible without the co-operation of the silver-using countries, and that the United States trade in the Far East will be benefited to a much greater extent through a strengthening of financial conditions in this country, which has a population of more than 400,000,000, than through the present silver purchase policy."

Closing quotations for yen checks yesterday were 28.88, against 28.63 on Friday of last week. Hong Kong closed at $61\frac{1}{4}@61$ 9-16, against $58\frac{1}{4}@58$ 9-16; Shanghai at $41\frac{3}{4}$ @ $41\frac{7}{8}$, against 41@ $41\frac{1}{8}$; Manila at 49.85, against 49.95; Singapore at $57\frac{1}{2}$, against 567/8; Bombay at 37.20, against 36.73, and Calcutta

at 37.20, against 36.73.

Foreign Exchange Rates

DURSUANT to the requirements of Section 522 of the Tariff Act of 1922, the Federal Reserve Bank is now certifying daily to the Secretary of the Treasury the buying rate for cable transfers in the different countries of the world. We give below a record for the week just passed:

FOREIGN EXCHANGE RATES CERTIFIED BY FEDERAL RESERVE BANKS TO TREASURY UNDER TARIFF ACT OF 1922 MAY 11 1935 TO MAY 17 1935 INCLUSIVE

a These are the gold holdings of the Bank of France as reported in the new form of statement. b Gold holdings of the Bank of Germany are exclusive of gold held abroad, the amount of which the present year is £1,090,090.

Secretary Morgenthau on Finance and Stabilization

The radio speech which Secretary Morgenthau delivered on Monday night, widely heralded in advance as an explanation and defense of the currency policy of the Administration, falls into two unequal parts. The first, in length about five-sixths of the whole, is a running account, highly laudatory in tone, of the monetary performances of the Administration, mixed with some severe criticism of the policies of the Hoover Administration from whose unhappy consequences and serious perils Mr. Roosevelt had to rescue the country. The second is a brief reference to stabilization, coupled with an intimation that the United States is not unwilling to help in bringing stabilization to pass. A good many members of the radio audience doubtless felt, as their first impression, that the monetary policy of the Administration had been set in a good light, that currency tinkering was a thing of the past, and that the United States was now ready, if other nations were, to join in an international effort for stabilization and, presumably, to re-establish a gold standard on a satisfactory basis. A careful reading of the address discloses some curious omissions in the defense that greatly weaken its force, and an attitude toward stabilization which appears in fact to be little more than a gesture.

Secretary Morgenthau began by reviewing the course of world trade and the international movement of gold over a number of years preceding 1932, and the difficulties which nations which went off gold found in getting dollars with which to pay for American products. The beginning of withdrawals of gold "in alarming amounts" in January 1932 was "fair notice to all concerned that our turn was coming next," but although "the panic was knocking at our door . . . nothing effective was done to avert it," and "within a few months our financial structure was in a state of collapse." In February and the first few days of March 1933, withdrawals from the banks aggregated about \$500,000,000 in gold and nearly \$2,000,000,000 in currency, and banks were closing "not individually but by whole States at a time." The domestic emergency was met by President Roosevelt by closing the banks, thus ending the run, and ordering gold "into the custody of Uncle Sam under penalties," while an embargo on gold exports stopped the outward flow.

This action, Secretary Morgenthau continued, "effectively took us off the old gold standard, and

the dollar began to adjust itself to the realities of the world situation." The United States, he took pains to say, did not lead in the abandonment of the gold standard; it was not the first but the thirtyfirst State to take that course. "The operation was completed in January of 1934 when the dollar was revalued and set at 59.06% of its former gold content," and "since that time we have enjoyed the soundest currency in the world." Various figures were cited to show the extent to which "our new dollar" has helped American foreign trade. Looking at the future, Secretary Morgenthau saw "many indications that world trade will continue to increase," but "our monetary policy in relation to foreign trade is not intended to capture business, but merely to protect our normal share." "We may as well face the question, however," he said, "whether we wish to sell abroad vast quantities of goods that the buyers cannot pay for unless we lend them the money." Under its present monetary policy the United States has been receiving "large shipments of gold and silver," but "we are not stripping the world of gold" because world production of gold is increasing, and "surely some of it can be used to pay balances." To the objection that the gold and silver are sterilized by being locked up in the Treasury, Secretary Morgenthau replied that "at least it goes to swell our monetary reserves," that "loans in default are not very good backing for currency," and that "if we must choose between the two, this Administration elects payment of international balances in monetary metals."

Turning finally to the question of stabilization, Secretary Morgenthau declared that "the world should know that when it is ready to seek foreign exchange stabilization, Washington will not be an obstacle. Our position was that of an innocent bystander who suffered in a fight that he did not start, and from which he could not escape. Why should we be singled out and admonished that the moral duty to restore order is primarily ours? Before we make any commitments, we must be sure that we will not lose what we have just regained. We are not unwilling to stabilize. However, if the great trading nations elect to continue under the present absence of rules we are no longer at a disadvantage. We revalued our currency no more than was necessary and we can go either way. Our hands are untied."

It was quickly pointed out that Mr. Morgenthau, in essaying a graphic description of the panic conditions with which the Roosevelt Administration coped, omitted some details which materially altered the picture. Ogden L. Mills, President Hoover's Secretary of the Treasury, called attention, in a statement issued on Tuesday, to the fact that while from the end of September 1931, to the end of June 1932, the country lost some \$800,000,000 in gold, from July 1932 to January 1933 gold came back to the amount of over \$500,000,000, that the return continued in January, and that while some losses were registered in February and March, there was actually an increase in the monetary gold stock in April, the month in which the gold standard was abandoned. The New York "Times" pointed out editorially on Wednesday that the loss of gold in February 1933 "was not at all the result of foreign withdrawals; on the contrary, we imported in that month \$8,800,000 more gold than we exported. The drain on the Reserve banks' gold was wholly a consequence of domestic hoarding, and the reason for that was fear that the United States would 'go off the old gold standard.'"

So much of Mr. Morgenthau's speech as is now history is important at the moment chiefly as showing that official claims, and the figures adduced to support them, cannot safely be taken without examination. The greater significance of the speech lies in what was said about stabilization and American foreign trade.

It is graitfying, no doubt, to be told that the Administration has any interest at all in stabilization, but a less hearty expression of interest, or one less likely to encourage a favorable response from Europe, could hardly have been framed. The Administration "will not be an obstacle" to stabilization of exchange, it is "not unwilling to stabilize," but it washes its hands of any responsibility for present exchange disorders, and apparently takes no stock in the notion that, in Mr. Morgenthau's words, "other nations would certainly follow if we took the lead." There will be no commitments unless we are "sure that we will not lose what we have just regained." If other nations choose to let the matter slide "we are no longer at a disadvantage," for "we revalued our currency no more than was necessary and we can go either way." In other words, not only is stabilization of no practical concern to the Administration unless some other Government brings the question up, but it is ready to revalue the dollar again, and either up or down, whenever it thinks it well to do so. Instead of announcing that currency tinkering was at an end, Mr. Morgenthau makes it clear that the Administration is quite ready to have more of it.

As a declaration of financial policy this is certainly disappointing enough. Yet one may well wonder why Mr. Morgenthau should even have hinted at the possibility of stabilization when, as everybody knows, the primary conditions of stabilization for the United States are lacking. It is not possible to stabilize the dollar without a balanced Federal budget, and the budget is not balanced and no thought, apparently, is being given to balancing it. There can be no stabilization until Government expenditures are curbed and new appropriations are offset by new taxes or other revenue, but expenditures which have already reached astronomical figures are still mounting, borrowed money takes the place of new taxes, the Treasury deficit topped \$3,000,000,000 on Wednesday, and currency inflation looms. The Government control of banking and credit which the pending Banking Act would fasten upon the country will do nothing to aid stabilization, and the accumulation of silver, to which Mr. Morgenthau accorded only two or three lines in his radio speech, is a positive hindrance. Professor Kemmerer, testifying on Monday before the Senate subcommittee on banking and currency, put the case in words which may well become classic when he said that "if the President of the United States would make a declaration that there was going to be no further reduction of the gold content of the dollar, if Congress would fix the value of the dollar at 59 cents, if the President would say that all influences of the Government would be used to keep the gold standard, if the Government practiced economy and set up a balanced budget, you would see such a revival of confidence as we have never seen," but no

trace of a suggestion of any of these necessary things appears in Mr. Morgenthau's airy remarks.

What was said about foreign trade is of a piece with the allusions to stabilization. Mr. Morgenthau declared that "we are not stripping the world of gold," and pointed to an annual increase of about \$1,000,000,000 in world gold production as evidence, apparently, that there is quite enough gold to go around. But he also, by clear implication, opposed the export of American capital, and insisted that foreign trade balances due to the United States shall be paid in gold or silver. The effect of this policy in the present disordered condition of foreign exchange, and of the high tariff policy with which it is linked, is to deplete the monetary supplies of countries whose gold supplies are small, and draw into the American Treasury a more than fair proportion of the new gold that is produced. It is no wonder that foreign nations, faced with this menace, are increasingly seeking trade connections elsewhere or reducing the total volume of world trade by striving for economic self-sufficiency.

We are unable to agree with those who see in Mr. Morgenthau's speech a "strong statement" of American monetary policy. The statement is strong only in its unequivocal announcement of the purpose of the Administration to continue tinkering with the currency to any extent it thinks desirable, and of a readiness to revalue the dollar either up or down as it may deem expedient. There is nothing in such a policy to encourage international action to stabilize exchange, and hence nothing to brighten the outlook for American foreign trade. With nearly 40% of the world's supply of monetary gold, and \$185,000,000 reported engaged abroad or actually shipped since April 5, the Administration sits tight and watches the stream flow on.

Italy, Poland and the European Concert

Just as the war tension in Europe seemed to be relaxing a little notwithstanding the continuance of war preparations, the death of Marshal Pilsudski, dictator of Poland, followed quickly by Premier Mussolini's warning that Italy claimed a free hand in its dealings with Ethiopia, has suddenly revived some old anxieties and awakened new ones. Unrelated as the two events appear to be on the surface, both of them affect the concert of the Powers on which the peace of Europe to a considerable extent depends. A change of policy in Poland, such as seems inevitable now that the long-time dictatorship of Pilsudski has ended, may profoundly affect the immediate future of Germany and greatly alter the influence of the Little Entente and France in Eastern Europe. A decision by Italy, on the other hand, to brook no interference with its Ethiopian program not only raises the old and vexed issue of European expansion in Africa, but cannot fail also to affect, for better or worse, the position of Italy as a political and military force in Europe.

The Italian warning followed close upon the report, on Monday, that soldiers of the class of 1912 (men, that is, born in that year), in number about 200,000, had been mobilized and preliminary notices sent to members of the class of 1911. The report coincided in date with an appeal of Ethiopia to the Council of the League charging Italy with failure to appoint arbitrators, as it had agreed to do in January and

April, to arrange for settling the controversy between the two countries, and calling upon the Council "to see that the territorial integrity and political independence of Ethiopia," which is a member of the League, were "respected and preserved against aggression." The Italian arbitrators, as it happened, had in fact just been chosen, and it was accordingly expected that the censure of Italy by the Council, in which Great Britain and France might reluctantly have felt compelled to join, had been averted, to the great relief of the Geneva organization.

On Tuesday, however, in a speech in the Senate which was loudly applauded, Mussolini made clear his purpose to act according to his own discretion. Referring to the fact that more workmen than soldiers had thus far been sent to East Africa, "I wish to add immediately, in the most explicit and solemn manner," he declared (we quote from his speech as transmitted to the New York "Times"), "that we will send out all the soldiers we believe necessary. And no one can take upon himself the intolerable presumption to dictate to us concerning the character and volume of our precautionary measures. No one can judge this most delicate matter except Italy who has in her history a dramatic, sanguinary and not forgotten experience in this regard." He denied that there had been any British or French diplomatic steps at Rome, and thought that, owing to Italy's relations with those Powers, there would be none. To those who had feared that an African campaign might weaken Italy's military strength, he replied that "it is precisely because we wish to be tranquilly secure in Europe that we intend to be well guarded in Africa." Between 800,000 and 900,000 troops were available, fully equipped with arms of Italian manufacture, and with this guarantee of national security Italy would continue to collaborate with all European Powers in the interests of peace.

Mussolini's outspoken language was not needed to remind European chancelleries of the gravity of the situation. It has for some months been widely and generally believed that Italy, with imperialist expansion and an outlet for its increasing population in mind, was fomenting a controversy with Ethiopia over the boundary dispute between that country and Italian Somaliland as a preliminary to war, and while the number of Italian troops in East Africa is still too small for an aggressive campaign, reinforcements and supplies have been steadily increased. Ethiopia, on its part, has also been pushing actively its war preparations, and with the memory of a crushing defeat inflicted upon an Italian force by King Menelek in 1896, has shown no fear at the prospect of another invasion. It is this defeat that Mussolini presumably had in mind when he referred to "a dramatic, sanguinary and not forgotten experience" of Italy. As the Ethiopians, besides knowing intimately their rugged country and being inured to its trying climate, are also furious and relentless fighters, their resistance to invasion can apparently be counted upon to be stubborn and bitter.

The announcement that Italy claims a free hand, however, greatly complicates the situation. The "concert of the Powers" would be more than ever an empty phrase if Italy, bent upon colonial expansion, were left free to act in Ethiopia without regard to what other Powers might think of its motives or acts, for although freedom of action might be claimed

as a matter of right, a concerted policy would require other Powers to concede the claim. Great Britain, in particular, is not likely to view with unconcern the establishment of a new Italian outpost in northeastern Africa, near to the Suez Canal, but it could hardly close the Canal to Italian war vessels, even with the approval of other Powers, without making itself to some extent a party to the conflict. The League of Nations is involved because Ethiopia has from the first insisted that Italy is the aggressor, and the question of determining the truth of the charge and, if it is sustained, calling Italy to account and perhaps imposing sanctions upon one of the dominant members of the League, will confront the unhappy Council at the meeting shortly to be held. Neither France nor Great Britain desires to see Italian prestige either enhanced or impaired by an African war, since if Italy were defeated, or succeeded only at disastrous cost, the dreaded spectre of an African revolt against European domination would almost certainly be raised, while if Italian arms were victorious the political and military prestige of Italy on the Continent would be immensely increased.

Mussolini and not Hitler, accordingly, may turn out to be the one who is "rocking the boat" of peace. That he is able, with an overwhelming force and abundant modern arms, to bring Ethiopia to terms, seems probable if other Powers do not intervene. Intervention of any kind, however, would jeopardize the European concert and perhaps fix more firmly the determination of Italy to prepare for the day when it can accomplish its "mission." It may be that dictatorship and war are not inseparable, but something more thrilling than a peaceful daily routine of work and play is necessary to keep up the national enthusiam and unquestioned obedience with which dictatorship builds its power. The gravest element in the present situation is the suspicion that Mussolini, secure at the moment in his control of the Italian State, feels the need of an African war to maintain his hold, and that diplomatic representations or League protests may only increase his determination to go on, be the results what they may.

With Italy preparing enthusiastically for a military crusade whose outcome may greatly alter its position in Europe, the effect of political changes in Poland becomes more than ever a matter of general concern. Pilsudski's supremacy in Poland was due to his labors and sufferings for Polish freedom, which made him a national hero, his great abilities as a soldier, and his ruthless treatment of whomever or whatever opposed his will. Of no other European ruler during the past decade could it so truthfully be said as of him that he himself was the State. His personal ascendancy, however, did not mean that Polish opinion was unanimous in accepting his opinions and prejudices. There were good historical reasons why the Poles, like Pilsudski, should profoundly dislike and distrust Russia and Bolshevism generally, but Pilsudski's friendliness for Nazi Germany has been by no means universally shared, and there is more regard for France and Great Britain than Pilsudski himself apparently felt. Pilsudski's foreign policy, like that of most other statesmen who have power in their hands, was determined by Poland's peculiar situation. With the exception of Germany, the surrounding States were ones whose professions of friendship he took with much allowance, and with them, accordingly, he pursued as far as possible an

independent course. It is significant of his realistic attitude that he kept Poland aloof from membership in the Little Entente, cultivated with reserve the Baltic States, except Lithuania, as a buffer against Soviet Russia, and contrived with some success to placate German resentment over the existence of the Polish corridor.

It seems inevitable that the political atmosphere should now change. Foreign Minister Laval of France, who halted at Warsaw last week on his way to Moscow, was received with formal diplomatic propriety but with no outward evidence of cordiality, but it is now reported that his visit did something to improve Franco-Polish relations. If such is the case, the French alliance may turn out to have more favor in Polish public opinion than has lately appeared. The diplomatic question of most importance at the moment is that of a multilateral pact to which Poland, Soviet Russia, the Baltic States and Germany should adhere, binding the parties to nonaggression and to consultation in the event of danger from without, but lacking the pledge of mutual assistance to which Germany has objected. If such a pact were concluded it might, perhaps, be expected to contribute to the maintenance of peace in Eastern Europe, although it cannot be said that any European country has to-day much faith in any agreement which is not in fact an offensive and defensive alliance.

Of at least equal importance is the question whether Poland, having prospered under a dictatorship, will elect to continue under that system or seize the opportunity to return to parliamentary government. The Constitution which was adopted last March, but which is not yet operative, does little more than preserve some parliamentary forms while actually making the President a dictator. If dictatorship continues, the European trend toward dictatorship as a permanent policy will be strengthened; if genuine parliamentary government is sought, there is little in recent Polish history to encourage belief that the change will be made without disorder. Poland, in short, like Italy, has suddenly become a danger spot. A ground of hope seems to lie in the fact that while it must solve its domestic problem by its own efforts, it cannot alter fundamentally its foreign policy without some regard for the welfare of the Continent as a whole.

Shall We Have a Banking Commission?

By H. PARKER WILLIS

The so-called "Eccles Bill", for the amendment of the Federal Reserve Act, has passed the House of Representatives, with but little change. The lower chamber was not willing to accept in toto the project which had been formulated for compelling the State banks to become members of the Federal Reserve System. In all other respects, the House has, however, given its assent to the far-reaching proposals contained in the Eccles Bill. Accordingly, the measure has now gone to the Senate where hearings have been begun before a sub-committee of the Committee on Banking and Currency. It is reported that that Committee has a considerable calendar of witnesses before it; and yet, the time cannot now be long before a vote must be had upon the question of reporting the measure in its present or in an amended form, and shortly thereafter the Senate Committee on Banking must reach a parallel conclusion. When it does do so, this all-important meas-

ure will go to the floor, there to be adopted or rejected, as the case may be. Without doubt Congress and the President are now on the verge of making a decision in one way or the other upon the most significant financial measure that has come up for discussion since the close of the Civil War. The situation is one which calls for very careful thought and for a definite review of the conditions that make for and against the whole proposal. Such a review, as briefly as possible, it is sought to present in this

The Meaning of the Eccles Bill

A student of the Eccles Bill must not allow his attention to be diverted by the multitude of suggestions and proposals which it contains. First of all, and before all else, it is essential to try to understand the ultimate purposes that are held in view by the measure. These are presented in three or four very definite and distinct aspects by its authors and sponsors:

(1) As a completion and logical application of the ideas embodied in the Federal Reserve Act, but

never fully worked out in practice;

(2) As a rectification or corrective of faults and defects in the actual working of the Reserve system, which have been noted as the result of experience and which call for modification or alteration, if our present banking system is to be successful in its functioning;

(3) As a great advance above anything that has been attempted heretofore in the "supply and control of money", by permitting the Federal Reserve Board to vary the amount of "money" in the country in such a way as to permit "planning", or a "planned economy";

(4) As a means of guarding against the arrival of panic conditions or excessive "inflation", such as may easily result, it is asserted, from the present surplus of credit now found on the books of our banks and Federal Reserve banks;

(5) As a way of developing needed centralization in the control of banking, in order to prevent conflict of method and purpose and to bring about unification and consistency in the development of banking policies.

Before attempting the analysis of any of these ideas, it is worth observing that the great powers that are conferred by the Eccles Bill upon the Federal Reserve Board would also, incidentally, provide for the accomplishment of the following objects:

(1) The further and, if necessary, the exclusive use of the resources of the banks for the purchase of Government bonds and obligations in the endeavor to provide funds needed in carrying out the existing program of the Administration for money spending;

(2) The more or less complete crushing of any independence in banking—the combination of all banks, whether chartered under Federal or State

law into one centrally-controlled system;

(3) The withholding of credit from various types of business or enterprises, and the feeding of other businesses and enterprises with a smaller amount of credit which they would otherwise probably not be able to obtain;

(4) Particularly, the upbuilding of the mortgage market and the development of real estate financing, by devoting the resources of our commercial banks to that end;

(5) The reestablishment of the joint operation of investment and commercial deposit banking which had prevailed before 1929 and which was partially corrected by the Banking Act of 1933.

That there are many other incidental provisions and objects which are made or served in this inclusive measure is, of course, obvious. The foregoing brief survey merely assists in focusing attention upon those that seem most outstanding.

The Attitude of the Public

It would naturally be expected that so great a measure as this would and should receive the careful attention of the public, with a view to its improvement, or to the reaching of a decision whether it should be adopted, or not. Some study of it has undoubtedly been given by the public. This study has resulted in three major suggestions:

- (1) That of a special committee of the American Bankers Association which is apparently disposed to accept the bill very largely as it stands in its essentials, but which asks for some important modifications,—the chief being, a division of power in regard to central banking functions which will leave to the bankers of the country a distinctly larger share than that which is allotted by the provisions of the new bill;
- (2) That of the special committee of the New York Chamber of Commerce, subsequently ratified by the New York Chamber of Commerce itself for the appointment of a commission, to look over the entire situation and see what is needed in connection with banking;
- (3) That of some outstanding figures in the financial and banking world who have thought best to express themselves with a degree of frankness, either in personal interviews, testimony before committees or "circulars", or other utterances issued by their respective banks.

The reader who surveys these definite pronouncements must necessarily come to the conclusion that only in a very few instances has any positive position been assumed in regard to the proposed bill, whether for or against it. The American Bankers Association report, for example, tacitly assumes that the general idea of the bill is to be accepted but merely indicates changes that are thought to be necessary in connection with the administrative working of the measure. The various utterances of outstanding bankers and financial authorities have been concerned with much the same sort of questions as was the Committee of the American Bankers Association. For the most part, effort has been made to select provisions that were clumsily written, partisan in nature, inclined to favor this, that, or the other scheme, or to render impossible, this, that, or the other operation, which was thought by the authors of the bill to be desirable. In hardly any of them has there been a careful review of the underlying philosophy of the whole measure. A dilettante writer of money and banking makes the following statement:

"The fundamentalists of the pre-war Federal Reserve system . . . did not believe that the volume of money can or ought to be deliberately controlled. . . . They thought that the supply of money should contract or expand automatically in accordance with the needs of industry and the imports and exports of gold. They are opposed . . . to the whole philosophy of the system

in the post-war era. . . . Those who hold this view are in a very small minority."

This cavalier dismissal of the issues involved in the subject referred to would not deserve any notice if it did not represent notions that are being taken for granted by a good many hasty observers. There is, of course, nothing about "money", its "supply", or its "control" in the Eccles bill, nor is there the slightest warrant for identifying bank deposits with money. To do so is like the statement said to have been found in the introductory paragraphs of an Alice in Wonderland algebra that "in this book we shall regard the signs plus and minus as identical". Bank credit is not money and never can be made such, and what is really under discussion in this whole matter is, whether there is any such thing as credit and any such function, desirable or otherwise, of testing the soundness and truthfulness of credit. What the Eccles Bill seeks to do is to bring about a complete transformation of the underlying ideas of banking (whether pre-war or other) and to revise the entire banking system accordingly. Unfortunately this undiscriminating attitude is pretty generally accepted by the public itself, including some bankers who have been disposed to regard the controversy about the Eccles Bill as little more than a debate as to whether the "money of the country" should be under the "control" of the bankers or of the politicians. This issue, if it can be called such, is, however, an exceedingly small phase of the real questions raised by the Eccles Bill. The proposals made in the Eccles Bill go far beyond the mere question of controlling money or credit and they raise the issue, whether there is any such thing as credit at all and whether it is, or is not, identical with money.

In contrast with this attitude of limited understanding of, and partial acquiescence in, the Eccles measure, we have the proposals included in (2) above, which merely ask for a study of the entire proposal. The argument in favor of this latter proposal is as follows:

- (1) There is no emergency to-day recognized that would warrant a hasty enactment of any banking measure whatever. The Comptroller of the Currency has emphatically stated that in his opinion, the banking crisis is over and the community well on the way back toward a normal condition. In his last annual report, he said, "There is little evidence remaining of the collapse in March 1933 of the banking structure of the nation. The entire system has been rebuilt." Practically the same statement has been made by the Secretary of the Treasury, and either directly or by implication in the public utterances of the President. Judged by its own expressions, the Administration recognizes that there is no call for any emergency action.
- (2) There are enough observers who have expressed the greatest anxiety about the effects of the Eccles Bill to make it evident that the measure should not be regarded as a mere routine proposal to be passed as a matter of Executive recommendation and without study.
- (3) If for no other purpose then than for that of reconciling conflicting views and obtaining the maximum amount of support for a far-reaching proposal, we undoubtedly ought to have a non-partisan investigation of the ideas contained in the Eccles Bill.

(4) Moreover, as is generally conceded, the Eccles Bill, even taking it at its face value, just as it stands, by no means covers the field of desired banking legislation. There is a well-nigh universal recognition among students of American banking that a fairly complete "codification" of American banking law is needed, and with a Commission of the kind referred to, if composed of men of standing and probity, they would be able to lay down the lines along which such work ought to proceed and to assure a satisfactory result of the investigation when completed.

This is the case, then, as between hasty enactment of the Eccles measure, and the proposal to entrust it to a non-partisan commission. As to the contention that such commissions in the past have often times been non-committal, inclined to waste money and disposed to delay action, the answer is perfectly plain. All this depends on the kind of commission that is selected. It might well be a commission serving without pay, and ordered to turn in its report within a very short period of time. In any case, there is no reason whatever to suppose that unconscionable delay and unreasonable expense need necessarily be involved in the effort to get thorough and scientific advice about a matter of utmost importance. The public has not studied the subject; is in no position to do so, and is only conscious of the fact that a great technical problem is before it. What is most urgent is to afford leadership and to grant time for the careful and discriminating presentation of argument under conditions that will permit of arrival at some safe set of conclusions. To drive such a measure through Congress with "whip and spur" at the present time would be unpardonable, since there is no possible basis upon which to defend, less to justify it.

"Eccles Bill" and the Federal Reserve Act

It is now desirable to devote some attention to the various arguments that have been presented for the immediate enactment of the Eccles Bill, despite the general considerations that have just been presented. Among these, one of the most frequently cited is that which has been noted as coming from the advocates of the measure itself -- that it completes the ideas of the Federal Reserve Act and carries the views of its framers to a satisfactory, logical conclusion. As to this, an immediate answer may be returned on the basis of general historical knowledge. This is, that there is no respect whatever in which the content of the Eccles Bill can be regarded as in any sense completing the Federal Reserve Act or carrying it to its natural and logical conclusion. The obvious attempt of the Eccles Bill is to overset most of the notions of the Federal Reserve Act and to make it impossible for that Act to function in the way that was intended by its original framers. The Federal Reserve Act, for example, had as a definite underlying conception, the notion that the desirable outgrowth of a central banking system was an "elastic currency" and that the attainment of such a currency should be a major object in the development of banking. The Eccles Bill, on the other hand, holds that there is no relationship whatever between the volume of business is a reflection on the volume of media of exchange; while it erroneously contends that "deposits" are "money" and should be "controlled" in their amount with reference to what is considered the ideal volume of business. The two measures are thus radically

opposed to one another, without the slightest integral connection. The Federal Reserve Act, moreover, in its original drafts sought to place the management of banking in the hands of bankers, simply giving to the Government the opportunity to be present at all deliberations, know what was going on, and express opinions or have an adequate voice in determining conclusions. "Politics" forced a compromise between the friends and opponents, of political control at a very early date, with the result that the Federal Reserve Board became a distinctively political body, while the choice of its successive members became a matter to be determined by purely political considerations—a decidedly diametric contravention of the original purpose of the Reserve measure. The Eccles Bill places the control of Reserve credit entirely in the hands of the Federal Reserve Board, makes that board merely a group of marionettes, dominated by a governor who is merely the political puppet of the President, and takes away all possibility of self-government from banks and bankers.

This review of the essential features of the proposed Eccles Bill is sufficient to show abundant reason for thinking that there not only is no furtherance or completion of Federal Reserve ideas in the Eccles Bill but that, on the contrary, the adoption of the Eccles Bill would be a radical defeat of the major underlying motives or principles upon which Reserve legislation was founded. The effort to make capital out of regard for the Reserve system and its record is thus wholly unwarrantable, without the most remote basis in fact.

Is the Eccles Bill a New Philosophy of Money?

In counter-distinction to those impressions which represent the Eccles Bill as merely a further working out of the Federal Reserve ideas, we have the proposed suggestion that it is a very original proposal whose adoption would take the Reserve system out of the rut into which it has fallen, and give it a new and proper application. Let us see upon what this contention is based. Apparently the idea of the Eccles Bill is to centralize the discount and open market powers in the hands of the Federal Reserve Board, or of institutions or organizations closely connected with it. Thus, the various forms of the bill already available, contemplate the placement of the open market powers in the hands of a committee consisting of some members of the Board and certain governors of the Reserve banks, with the Governor of the Reserve Board as the chief factor in the organization. This open market group is to decide upon the policy to be pursued in buying and selling Government bonds or acceptances—the staple of open market operations. The Eccles Bill, furthermore, goes on to give to the Reserve Board the power of initiating rates of rediscount, instead of waiting for them to be proposed by the several distinct banks, later to be approved or disapproved by the Board itself and by this latter means to be harmonized Finally, the Eccles bill authorizes the Federal Reserve Board to determine the amount and composition of Reserves that would be exacted from member banks, by compelling the banks—and for that matter the Reserve banks as well-to carry larger or smaller reserves, or to change the composition of such to regulate the supply of credit available. The latter proposal has been endorsed by Mr. Eccles himself as being a weapon which the Board could use to very great advantage in cutting off or reducing the

danger of uncontrolled "inflation" or expansion which, it is alleged, exists in very serious form at the present moment.

Here we have a proposal not to introduce anything new but to use familiar methods and factors in a way to bring about an unaccustomed result through the application of a familiar technique. Suppose that the Federal Reserve Board, under the new bill, should determine that it was desirable to raise reserves to 100 per cent of outstanding demand deposits. Certainly there is much reason to suppose that such a step might be ordered. Representative Goldsborough, one of the chief proponents of the measure in the House of Representatives, has expressly said that, while he would not wish to see such a change ordered, by a step that would cause any disorganization or disturbance to our banking system, he would look forward to an ultimate introduction of the notion under the provisions of the Eccles measure. Advisers of the Reserve Board have strongly advocated the application of the 100 percent reserve requirement, both in public and in private. Governor Eccles himself, it is understood, has disclaimed any present intention of calling it into effect, but much of his testimony and general philosophy points strongly to such a measure as the inevitable outcome of what he says he wants to do under the terms of the measure. If banks were to be ordered thus to increase their reserves against demand deposits to 100 percent of the face of such deposits, they would evidently have to displace other assets such as corporation bonds, in order to draw in claims upon banks from the buyers of such bonds, and these buyers would have to provide themselves as they could; perhaps by further discounting with banks, eventually giving rise to new credits with the reserve banks, or in some similar fashion. The banks themselves were they to try to comply with the requirement would, of course, find that they could do so only by rediscounting with Reserve banks, and in order to get the material for such rediscounting would have to buy Government bonds since commercial paper is not available in any such quantity. An easier way to apply the meaning of the proposed provisions then, would be to require that 100 percent be held in reserve credit plus government bonds, in which case the banks would have to buy the additional government bonds as they were issued, giving credit on their own books and then immediately discounting the new bonds with the Reserve system, or they would have to (as before) get the funds with which to pay for them by disposing of their corporate bond holdings and using the funds to build up their reserves, or would have to obtain the government bonds by what amounts to an exchange of corporate issues for governments, so that eventually they would become the holders of the amount of government bonds needed to equal (with their reserve credits and cash) the amount of their demand deposits. In these ways, unquestionably, several "birds could be killed with one stone"the government bonds could be sold in new and huge amounts as a practical necessity on the part of the banks to acquire them; while the theoretic desire to rebuild the reserves of the banks to this "100 percent money" would be attained. On the other hand, such a policy would satisfy the demands of the numerous Congressmen who have asked that government bonds shall be made convertible directly into paper currency. This policy, said to have been

seriously considered in connection with the new bill, might, of course, be subject to more or less modification;—the point is, that it has been thought of, and is being considered by authoritative persons, and represents what must be regarded as unquestionably the gravest of dangers—the development of a situation in which the assets of the banks consist practically wholly of government bonds, while the banks themselves become merely agencies for the making of loans stated in terms of government paper. That such a policy would infinitely transcend in danger the issue of more "greenbacks" needs no argument, and yet, it seems to be a measure which either by actual design or as the result of policies inevitably resulting from what has already been attempted, would necessarily come into use.

We have here the crux of the situation which is raised by the Eccles Bill. Is that bill, either directly or indirectly, the means of still further devoting the assets of the banks to the purchase of government bonds, thereby enlarging the potential field for bond issues and thereby enabling the government to go on with deficit financiering for a considerably longer time, without, perhaps, bringing about an immediate crash in our financial structure? The general philosophy underlying such measures would be the same as that which Mr. Eccles outlined in his testimony before the Senate commission investigating economic affairs in the spring of 1933. It cannot be possible that his opinions and views about banking have been very greatly changed in the two years that have elapsed since that time—especially when we know his advocacy of the proposed measure and the easy way in which its terms allow themselves to produce some such outcome. The underlying notion—that the government and its credit should contstitute the foundation of the credit of the nation and that advances made by the government for whatever purpose, should constitute the basis of the currency rather than to use for that purpose resources or wealth originating through private investment or business enterprise, the latter being necessarily reduced in importance as the scope of government lending enterprises grow—is the inevitable outcome of what is now urged. Probably there are very few in the community who have seriously contemplated the practical application of any such theories as these, partly because they are so foreign to those which have underlain the education of bankers heretofore, and partly because of the disastrous consequences that must ensue from them to the business of a country that is not completely governmentalized or communized. We must, in short, conclude on this one ground alone that the basic thoughts of the Eccles bill not only are not a completion or further working out of Federal Reserve conceptions, and not only are far from being merely a wider application of governmental supervision of banking in order to secure greater honesty and sincerity, but are also something very much broader—the embodiment of the idea of public credit as a substitute for private credit. It was Lenin who, in discussing the subject of banking, made it clear that in his opinion the first approach to a communized State must be found in complete national control of the monetary and banking system; and in this he followed other authorities of equal standing among communists. The Eccles bill, as now termed, does not confessedly purport to aim at any such ideas, and it would be impossible to find a specific recognition of them

in any section of the measure. They are present, however, by implication in the ways that have just been indicated; and even though they may not be extensively put into effect upon the adoption of the bill, would always remain as an imminent possibility in connection with its application.

Panics and Depressions

By an amendment to the Eccles bill which was proposed in the House of Representatives, provision was made for instructing the Federal Reserve Board to use its credit powers as a means of bringing about a balanced or "planned" economy, in the nation at large. The thought underlying this amendment was that since the granting or withholding of credit greatly facilitates, if it is not absolutely necessary to, the investment of capital in the development of an industrial enterprise, the granting of power to withhold such credit must make it possible for the credit-granting authority to deprive undesirable enterprises of funds, while at the same time encouraging those that are thought to be desirable to proceed with their plans. Eccles himself, in commenting upon the interpretation of the House proposal, has expressly stated that the Eccles bill does not give to the Federal Reserve Board any power over credit that it does not already possess, and has asserted that the new measure would not in any way whatever enable the Board to deprive a given enterprise of the credit which would otherwise be granted to it. Probably a case can be made out for the technical accuracy of these assertions. It remains true, however, that the proposal must have had some meaning, and that if it had any meaning, it was intended to indicate that the centralized credit power of the community was to be used in checking or advancing the general activity of business so far as any such policy could check or advance that activity. Indeed, much of the testimony of Mr. Eccles himself is based upon the thought that it is possible in this way to further or advance business. In his speech at Columbus, Ohio, shortly after the Eccles bill was first made public, the Governor of the Federal Reserve Board asserted that he did not suppose it would be possible by the use of reserve credit completely to smooth out the business cycle, but he thought that progress might be made in that considerable direction.

How would such a result be attained? Obviously by making it harder or more expensive for business to expand under such a policy, when thought necessary, or by rendering it easier for the business to expand when that policy was desired. It may be remarked parenthetically that this is a power which, in the older thinking on banking, was regarded as a fundamental function of banking, and which when judiciously exercised tended to prevent the overexpansion of industry leading it to so-called "booms" followed by "panic" conditions. It also has underlain the whole philosophy of "easy money" often advocated by the Federal Reserve Board, as may be proven by any number of citations from their reports of recent years. What is proposed, then, is evidently to centralize in the hands of the Board, bank powers in relation to business which have heretofore been resident in the individual banks, or in those banks with the aid and oversight of the Federal Reserve banks. There is probably nothing in the Eccles bill which would authorize the Board to prevent the First National Bank of any given place

to continue making loans to, let us say, the automobile industry, or that would compel it to cease making such loans; but there is ample provision in the Eccles bill which would make it possible for the Board to cut off such a bank from rediscount facilities or to render rediscount facilities more available to it. The germ of such authority, undoubtedly, exists in the present Federal Act, but subject to a system of checks and balances which control it, just as the checks and balances of our Constitution prevent the exercise of despotic power by an Executive.

The Eccles bill eliminates many of these checks and balances, and thus renders what under proper conditions of use is a beneficial authority, a potential instrument of despotic financial power. It is also a fact that such a power can be wisely used only locally, and that it cannot ordinarily be used to good purposes as a general policy to be applied over a large competitive area. It is seldom true that in any given line of business all concerns are overexpanding, or the reverse, and the direction of industry by means of general loan regulations is correspondingly difficult. Desirable as it may be to employ banking as a means to bring about conservatism in business enterprise, such means certainly cannot be relied upon unless those who use them are far more fully informed and far more trustworthy in their use of such powers than those to whom the authority has, in fact, been committed. The Eccles bill, therefore, would largely take away the powers spoken of from those who have heretofore been entrusted to use them, and would vest them in political or governmental authorities, whose knowledge of their use—as the Reserve Board has heretofore been constituted—must be very seriously questioned. We cannot, therefore, give any credence whatever to the hope expressed by Mr. Eccles and others, that the proposed measure would result in a saner, more conservative, more restrained use of credit for the purpose of preventing the development of "inflationary" or over-expanded industrial conditions, and we must fear that mistakes of judgment in the application of such centralized credit would tend to aggravate danger which might otherwise be self-corrective.

Before leaving this subject it should be carefully noted that by no means all economists are inclined to the opinion that any use of bank credit, however wisely made, can exert any such effect upon the development of business or the arrival of "booms" or in curing of depressions, as is thus alleged. A very large school of thought holds that bank credit is the outcome or reflection of business conditions and by no means the motivating cause of changes therein. If the views of this latter school hold good, the use of powers such as those advocated by Mr. Eccles would be likely to eventuate merely in the "pegging" of enterprises that had become greatly expanded, as in the case of the Reconstruction Finance Corporation. The result in such a case would be nothing more than to divert the resources or credit of the community into the support of unproductive undertakings, or undertakings that are uneconomically operated, with the corresponding loss and disadvantage of the business community

The Question of Needed Centralization

A very strong point has been made in connection with the Eccles bill of the fact that under existing conditions it is unsafe or unwise to leave a large local latitude in the use of financial assets to banks

which might, or might not, employ it wisely. Unwise use of such power has been pointed out as being a major and exciting cause of bank failures, the latter to be viewed as the result of hasty or ill-judged credit manipulation, resulting in stimulating or depressing industry or in "tying up" individual bank offices, by giving to the Federal Reserve Board and its affiliate enterprises of deposit guaranty, &c., the authority to simplify control and improve bank examinations, while rendering them less onerous and less expensive. Here is a proposal which naturally appeals to many bankers who have found the present agencies of supervision incompetent, self-contradictory, and costly; but would centralize control bring about the desired result? There is no definite reason to suppose so. Experience in the past has shown that bank examination is essentially a matter which must be carried on locally by men familiar with local paper and with local conditions. The condition of banks cannot be judged by rigid standards. Many a bank is in a sound enough condition for its own locality and for the community which it serves, which would be anything but satisfactory in another place a thousand miles away. Whatever faults there are in the present examination and oversight system can be easily "ironed out" without any application of broad powers that have nothing to do with the problem of supervision to a Federal body.

There are many bankers in the United States who from the very beginning of the Federal Reserve System have felt that the organization of that System upon a district footing was unwise. Many influential bankers opposed the Federal Reserve Act on that account, and said that it would never be possible under any circumstances successfully to build up efficient discount markets on a local basis. They, therefore, antagonized the underlying thoughts of the original Federal Reserve Act. While perhaps a majority of such former advocates have changed their attitude, and since then have become advocates of the district system, by no means have all done so. It seems fairly clear that the proposal made in the Eccles bill to diminish the importance or authority of the several Reserve banks in order to add to that of the Federal Reserve Board has met with some approval. Just here it should be noted that this attitude on the part of some bankers is entirely based upon the thought that the centralization desired was to take place under banking supervision and self-government. Were they convinced that the centralized system now proposed would never be developed or operated upon a basis that was more truly financial than the present, it may well be doubted whether they would advocate the change.

Probably a good many have felt that the proposed system would gradually develop into a plan whereby the great powers vested by it in a political organization would be gradually taken over by some one of the Reserve banks—say by the Reserve Bank of New York—just as the latter had during the pre-1929 period succeeded in taking to itself much more than its normal share of influence in the System. The question whether any such development could be counted upon is necessarily more or less conjectural, but there are abundant reasons for believing at the present time that the political organization at Washington will not be likely to part with the authority that it acquires, unless compelled to do so by some general collapse. The hope, therefore,

of reaching the development of a genuine bankers' central bank controlled by bankers and centralized through the membership of some institution situated, perhaps, in New York, must be regarded as without adequate foundation. There is not enough basis for it to warrant those who believe in that form of transformation of our banking system to trust themselves to the indicated method of attaining it. Even if the proposed measure worked at its best, the kind of financial centralization thus hoped for would probably be rendered more distant, rather than less. If the proposed measure should lead to the disasters which may foreshadow for it, the cost of bringing about the desired consummation would be far too great to be thought of.

Do We Want a Banking Commission?

Enough has been said to indicate, entirely free from any partisanship for or against the Eccles bill, two things:

(1) There is a large field for difference of opinion about the actual effects of the Eccles bill and about the theories which underlie it. It undertakes to do many thinks that have heretofore been regarded as "unsound," dangerous and contemplated to disturb the entire basis of modern business.

(2) There is a feeling of distrust and doubt about the proposals that exist not only among the banking community, but also among business men, without regard to party, and which must necessarily make adoption of the measure unwise, especially in our present economic situation and necessitating its serving as a cause of disturbance in financial and economic relationships.

In as much as it is agreed on all hands that no emergency exists or, at all events, is admitted, which calls for the prompt adoption of such a measure, it would seem to be only the part of common wisdom to obtain the verdict of non-partisan and capable men, viewed by the country as worthy of confidence, before any irrevocable step is taken. The plain dictate of common sense would be, therefore, the remedy which has been suggested by the New York Chamber of Commerce and by other agencies of equal weight, in the appointment of a satisfactory commission to look quickly over the entire field of banking legislation and to indicate what is needed. Such a commission need not spend much time in purely technical discussion; it could safely leave that to expert advice, to be rendered to committees of Congress or to be obtained in some other way. But there is the most cogent reason, before taking radical and extreme steps, such as are proposed in the Eccles bill, to ask for a careful weighing of the general considerations that underlie the institution of banking, with a view to focusing upon the proposals the sanest opinion in the community —if for no other purpose than that of obtaining popular assent to, or support for, whatever may be adopted.

Every modern country has followed this plan before making any far-reaching change in its banking system. It is the method which was employed by Great Britain in the appointment of the Macmillan Committee; in Germany, by the institution of the Reichsbank Enquete, and elsewhere by appropriate bodies vested with the necessary powers. We shall act recklessly and unwarrantably if we fail to follow the example of human experience.

Gross and Net Earnings of United States Railroads for the Month of March

There has been little comfort for holders of railroad securities lately in the financial statistics of operations, and our compilation of gross and net earnings for the month of March, presented here with, again fails to reflect any change for the better. The tendency, in fact, is rather decidedly adverse. In comparison with the same month of 1934, both gross and net income of the carriers declined sharply during March. A year ago it was possible to record distinct improvement over the parlous early months of 1933, when the bank holiday finally was found necessary in March and all business was suspended. Far from maintaining the improvement, earnings of these great properties sank during March of this year to levels that offer eloquent testimony of the need for drastic remedial measures. It is clear that a prompt start could and should be made in the direction, for instance, of regulating competing modes of transportation. All authorities appear to be agreed on the advisability of such action, which was advocated, among other things, by Joseph B. Eastman, Federal co-ordinator of Railroads, in the report submitted to President Roosevelt and Congress last January.

Our compilations show that gross earnings of United States railroads last March aggregated only \$280,492,018 against \$292,798,746 in March of last year. This trend is sufficiently perturbing in itself, but even more disheartening is an increase of operating expenses at the same time that gross revenues are declining. This means, of course, an even sharper curtailment of net earnings, which actually fell to \$67,659,321 in March against \$83,942,886 in that month of 1934. Putting the matter another way, we find gross income off 4.20% in this comparison, while net revenue shows the prodigious drop of 19.40%. The higher costs of operations under which the railroads are struggling were raised higher still on April 1 last, when the final 5% of the temporary 10% wage reduction was restored. It is true that some emergency increases in freight rates also were granted the carriers, but the serious depletion of net earnings shows that far more should be done if the railroads are to bear the burdens of the completely restored wage levels, which were not yet reflected in the current compilation of earnings for March. The room for improvement is best shown, meanwhile, by the fact that gross and net earnings alike, last March, were hardly more than half the figures for March 1929.

Month of March-	1935	1934	Inc. (+) or 1	Dec. (-)
Miles of 144 roads	238,011	239,246	-1.235	0.52%
Gross earnings	\$280,492,018	\$292,798,746	-\$12306,728	4.20%
Operating expenses	212,832,697	208,855,860	+3,976,837	1.90%
Ratio of exps. to earnings	75.88%	71.33%	+4.55%	
Net earnings	867,659,321	\$83,942,886	-\$16283,565	19.40%

Although the record with regard to the railroads has been dismal of late, there has been at least one ray of light. We allude, of course, to the Supreme Court opinion of May 6, in which the railroad pension law was held unconstitutional in a five-to-four decision. It is also necessary to note, however, that Administration spokesmen promptly served notice of their intention to draft a new law along lines that might escape such judicial condemnation. Returning to the record of gross earnings of the railroads last March, we find that carriers in all sec-

tions of the country with the single exception of the Central Western region found their revenues reduced as against March of 1934. More dismal still is the comparison of net earnings, for no single section of the country escaped the unfortunate tendency. Although the automobile industry and a few others were more active this year than last, it is evident that the poor showing of the railroads is due to the impoverished state of general business.

Taking first the production of automobiles, here we find a large increase in the output of motor vehicles as compared with March a year agonamely, 429,830 cars as against only 338,434 cars in March last year. This compares, moreover, with only 115,272 cars in March 1933; 119,344 cars in 1932; 276,405 cars in 1931, and 396,385 cars in 1930. Back in March 1929, however, no less than 585,455 automobiles were turned out. For the three months ending with March, according to the Bureau of the Census, the number of new cars added in 1935 was 1,063,139 as compared with 724,356 cars turned out in the first quarter of 1934 and 349,544 cars in the first quarter of 1933. This compares with 355,721 cars in the first three months of 1932; 668,193 cars in the first three months of 1931; 1,003,023 cars in the first three months of 1930 and 1,452,910 cars in the first quarter of 1929. Improvement, though of no such marked degree, was also shown in the iron and steel industry. According to the statistics compiled by the "Iron Age," the production of pig iron in the United States in March the present year was 1,777,028 gross tons as compared with 1,619,534 gross tons in March 1934; 542,011 tons in 1933, and 967,235 tons in March 1932. Going back to earlier years, however, we find that in March 1931 the output of pig iron was 2,032,243 tons; in March 1930, 3,246,171 tons, and in March 1929, 3,714,473 tons. In the case of steel, the American Iron and Steel Institute reports that the production of steel ingots in the country during March 1935 reached 2,830,700 tons as against only 2,761,438 tons in March last year. In March 1933 the output was only 909,886 tons, and in March 1932 only 1,403,723 tons. But in March 1931 steel production was 2,993,590 tons; in 1930, 4,254,331 tons, and in 1929, no less than 5,058,258 tons.

Turning now to the production of coal, here we find that while the production of bituminous coal was somewhat larger than in March a year ago, the output of anthracite was on a greatly reduced scale -in fact, was not equal to one-half the amount produced in March 1934. The quantity of bituminous coal mined in the United States in March 1935 was 38,848,000 net tons as compared with 38,470,000 net tons in March a year ago. Comparison, however, is with only 23,685,000 tons in March 1933; 32,250,000 tons in March 1932; 33,870,000 tons in March 1931, and 35,773,000 tons in March 1930. Back in March 1929, however, the quantity of coal mined was 40,068,000 tons. On the other hand, the production of Pennsylvania anthracite was only 3,082,000 net tons in March 1935 as against 6,418,000 net tons in March 1934; 4,519,000 tons in March 1933; 4,789,000 tons in March 1932; 4,745,000 tons in March 1931; 4,551,000 tons in March 1930, and 4,859,000 tons in March 1929.

Needless to say, activity in the building industry was at a low ebb. According to the compilations of the F. W. Dodge Corp., construction contracts awarded in the 37 States east of the Rocky Mountains during March the present year involved a money outlay of only \$123,043,500 as compared with \$173,345,300 in March 1934, or a falling off in excess of 30%. It is proper to state, however, that in March 1933 the money value of the construction contracts dwindled to \$59,958,500, and in March 1932 it was only \$112,234,500. Going still further back, however, we find the amount involved in March 1931 was \$369,981,300; in March 1930, \$456,119,000, and in March 1929, \$484,817,500. The lumber trade, as it usually does, reflected the falling off in the building industry. The National Lumber Manufacturers Association reported that the production for an average of 971 identical mills during the four weeks ended March 30 1935 was only 685,005,000 feet as against 727,107,000 feet in the corresponding period of 1934. This is a decrease of 6%, but 62.5% above the record of comparable mills during the same period of 1933.

As it happens, too, the grain traffic over Western roads was of very small proportions. The March receipts at the Western primary markets have been diminishing in recent years, and in March the present year reached a new low level. We deal with the Western grain movement in a separate paragraph further along in this article, and will, therefore, only say here that for the five weeks ended March 30 1935 the receipts at the Western primary markets for wheat, corn, oats, barley and rye, combined, reached only 21,718,000 bushels as compared with 34,198,000 bushels in the same five weeks of 1934; 34,145,000 bushels in the same five weeks of 1933; 35,664,000 bushels in the same period of 1932; 65,175,000 bushels in March 1931; 56,158,000 bushels in March 1930, and no less than 76,286,000 bushels in the corresponding period of 1929.

It is, however, in the statistics showing the loading of revenue freight on all the railroads of the United States that the composite result of all that has been said above is most clearly seen. For the five weeks of March 1935 the loading of revenue freight comprised 3,014,609 cars as against 3,067,612 cars in the same five weeks of 1934; 2,354,521 cars in the same period of 1933; 2,825,798 cars in March 1932; 3,664,780 cars in March 1931; 4,423,792 cars in March 1930, and 4,795,792 cars in the same five weeks of 1929. It will be seen that the figures for March this year are more than 1,780,000 cars less than in March 1929.

In what has been said above, ample evidence is furnished going to show how the large decrease in traffic and revenue of the railroads of the country during the month under review has come about. In dealing with the separate roads and systems the showing is the same as in the case of the general totals, and the reasons for the decline are likewise the same. Only four roads, we find, are able to record an increase in both gross and net earnings in amounts in excess of \$100,000. Heading the list so distinguished is the Southern Pacific System, which reports an increase in gross of \$859,587, accompanied by an increase in net of \$197,839. The others are the Detroit Toledo & Ironton, with an increase of \$303,118 in gross and of \$191,327 in net; the St. Louis Southwestern, with \$170,097 gain in gross and \$155,978 in net, and the Bessemer & Lake

Erie, which, with \$123,796 gain in gross, reports an increase in net of \$134,558. The list of roads, on the other hand, showing decreases in both gross and net is a long one and embraces practically all classes of roads and in every section of the country. To name these roads separately with their losses, even the most conspicuous of them, would involve a needless loss of time and space, and we will therefore only mention a few. The New York Central, with a loss in gross of \$2,225,952, reports a decrease in net earnings of \$1,951,593. These figures cover the operations of the New York Central and its leased lines. Including the Pittsburgh & Lake Erie, the result is a decrease of \$2,296,476 in the gross and a decrease of \$2,036,084 in the net. The Reading, with a decrease of \$1,436,660 in gross, reports a decrease in net of \$1,117,485; the Erie (two roads), with a loss of \$1,042,508 in gross shows a loss of \$845,513 in net; the Pennsylvania reveals \$888,304 decrease in gross accompanied by \$383,631 loss in net, and the New York New Haven & Hartford with \$875,944 decrease in gross, reports a loss of \$369,961 in net. In the following table we show all changes for the separate roads for amounts in excess of \$100,000, whether increases or decreases, and in both gross and net:

PRINCIPAL CHANGES IN GROSS EARNINGS FOR THE MONTH OF MARCH 1935

,	JF MARCE	1 1930	
n	Increase	la	Decrease
Southern Pacific (2 rds.).		Southern	\$399,767
Illinois Central		N. Y. Ont. & Western	373,086

N. Y. N. H. & Hartford	369.961		102,210
Union Pacific (4 roads)	359,679	Total (49 roads)	15,989,501

a These figures cover the operations of the New York Central and the leased lines—Cleveland Cincinnati Chicago & St. Louis, Michigan Central, Cincinnati Northern, and Evansville Indianapolis & Terre Haute. Including Pittsburgh & Lake Erie, the result is a decrease of \$2,036,084.

When the roads are arranged in groups or geographical divisions, according to their location, the unfavorable character of the showing as compared with March a year ago is brought out very strikingly by the fact that all the different districts—the Eastern, the Southern and the Western—as well as all the various regions grouped under these districts, with the single exception of the Central Western region, show decreases in gross earnings, and that all three districts together with all their regions

reveal losses in the case of the net. Our summary by groups is as below. As previously explained, we group the roads to conform with the classification of the Interstate Commerce Commission. boundaries of the different groups and regions are indicated in the footnote to the table:

—Our grouping of the roads conforms to the classification of the Interstate ce Commission, and the following indicates the confines of the different

EASTERN DISTRICT

Comprises the New England States.

New England Region—Comprises the New England States.

Great Lakes Region—Comprises the section on the Canadian boundary between New England and the westerly shore of Lake Michigan to Chicago, and north of a line from Chicago via Fittaburgh to New York.

Central Rastern Region—Comprises the section south of the Great Lakes Region east of a line from Chicago through Peoria to St. Louis and the Mississippi River to the mouth of the Ohio River, and north of the Ohio River to Parkersburg, W. Va., and a line thence to the southwestern corner of Maryland and by the Potomac River to its mouth.

SOUTHERN DISTRICT Southern Region—Comprises the section east of the Mississippi River and south of the Ohio River to a point near Kenova, W. Va., and a line thence following the eastern boundary of Kentucky and the southern boundary of Virginia to the Atlantic.

Pocahonias Region—Comprises the section north of the southern boundary of Virginia, east of Kentucky and the Ohio River north to Parkersburg, W. Va., and south of a line from Parkersburg to the southwestern corner of Maryland and thence by the Potomac River to its mouth.

WESTERN DISTRICT

Northwestern Region—Comprises the section adjoining Canada lying west of the Great Lakes Region, north of a line from Chicago to Omaha and thence to Portland and by the Columbia River to the Pacific.

Central Western Region—Comprises the section south of the Northwestern Region west of a line from Chicago to Peoria and thence to St. Louis, and north of a line from St. Louis to Kansas City and thence to El Paso and by the Mexican boundary to the Pacific.

Southwestern Region—Comprises the section south of the Northwestern Region was considered to the Pacific.

Southvestern Region—Comprises the section lying between the Mississippi River south of St. Louis and a line from St. Louis to Kansas City and thence to El Paso, and by the Rio Grande to the Gulf of Mexico.

As we have already indicated, the grain movement over Western roads in March the present year not only fell far below that of March 1934 but was the smallest recorded for the month in all recent years. With the single exception of rye-the receipts of which were very much larger than in March a year ago-all the different cereals in greater or less degree contributed to the shortage, the falling off in the case of wheat and corn having been particularly pronounced. The receipts of wheat at the Western primary markets for the five weeks ended March 30 reached only 5,813,000 bushels as compared with 11,069,000 bushels in the corresponding five weeks of 1934; the receipts of corn but 9,012,000 bushels as compared with 14,912,000 bushels; of oats, 3,353,000 bushels as against 3,469,000 bushels, and of barley, 2,872,000 bushels as against 4,385,000 bushels. Adding rye, the receipts of which aggregated 668,000 bushels as compared with only 363,000 bushels, the receipts of the five staples, wheat, corn, oats, barley and rye, combined, for the five weeks of March 1935 were only 21,718,000 bushels as compared with 34,198,000 bushels in the same five weeks of 1934; 34,145,000 bushels in the five weeks of

March 1933; 35,664,000 bushels in 1932; 65,175,000 bushels in March 1931; 56,158,000 bushels in March 1930, and no less than 76,286,000 bushels in the corresponding five weeks of 1929. The details of the Western grain movement, in our usual form, are set out in the following table:

The Western livestock movement also appears to have been much smaller than in March a year ago. At Chicago the receipts comprised only 6,714 carloads in March 1935 as against 9,814 carloads in March 1934, and at Omaha only 2,035 carloads as against 2,707, though at Kansas City the receipts reached 3,316 carloads as compared with only 3,207 cars.

As to the cotton traffic over Southern roads, this was on a greatly reduced scale as compared to March a year ago, both as regards the overland shipments of the staple and the receipts at the Southern outports-in fact, in the latter case it was the smallest for the month in many years. Gross shipments overland of cotton were only 62,258 bales in March 1935 as against 79,540 bales in March 1934, but comparing with only 26,825 bales in March 1933 and 43,122 bales in March 1932. In earlier years the March shipments were 88,796 bales in 1931; 58,147 bales in 1930, and 80,093 bales in 1929. At the Southern outports the receipts of the staple were only 124,670 bales during March the present year against 322,514 bales in March 1934; 318,080 bales in March 1933; 644,554 bales in March 1932; 348,114 bales in March 1931; 204,092 bales in March 1931, and 375,133 bales in March 1929, as will be seen from the subjoined table:

Results for Earlier Years

It has already been shown that the falling off in March the present year of \$12,306,728 in gross earnings and of \$16,283,565 in net earnings follows an increase last year of \$75,002,520 in gross and of \$41,492,272 in net, and that this increase. in turn, came after a long series of poor or indifferent results in March of the years immediately preceding. In March 1933 our tabulation showed \$69,022,941 loss in gross and \$25,256,013 in net, which was on top of \$85,983,406 shrinkage in gross and \$17,035,708 in net in March 1932, which came after \$76,672,852 shrinkage in the gross and \$16,893,267 in the net in 1931, while in 1930 there was \$64,-595,796 shrinkage in the gross and \$38,262,064 shrinkage in the net, this last reflecting the first results of the trade collapse which came as a sequel to the stock market crash in the autumn of the preceding year. In March 1929 increases appeared, but they were very moderate in amount, namely. \$10,884,477 in gross and \$7,516,400 in net, and, moreover, succeeded heavy losses in gross and net alike in March 1928, though the recovery would doubtless have been somewhat greater except for the fact that the month contained one less working day than in the previous year, due to there having been five Sundays in the month, whereas March 1928 had contained only four Sundays. For March 1928 our tables registered no less than \$26,410,659 decrease in gross and \$4,034,267 decrease in net. Nor was the showing for March 1927 anything to boast of, the comparisons then having revealed relatively trifling increases \$432,616 in gross and \$1,627,348 in net. It is not until we get back to 1926 that we strike periods of marked improvement in results. In March 1926 the showing was strikingly good, with noteworthy improvement in gross and net alike. Our compilations for March 1926 recorded \$43,668,624 gain in gross, or 8.99%, and \$24,561,652 gain in net, or 221/2%. The fact is to be borne in mind, however, that these gains in March 1926 followed losses in both the years immediately preceding. Thus for March 1925 our statement registered \$18,864,833 decrease in gross and \$5,447,665 decrease in net, while for March 1924 the loss in the gross reached \$30,628,340, though the loss in the net was no more than \$2,514,076, owing to the reductions in expenses, reflecting growing efficiency of operations. This growing efficiency in operations was a feature at that time, and the further back we go the more striking the record becomes in that respectbarring 1923, when weather conditions were extremely unfavorable, and a gain of \$59,806,190 in gross brought with it and addition of only \$3,419,324 to net earnings-which last, however, was the reverse of what happened in 1922, when a gain of \$16,059,426 in gross was attended by a reduction of \$38,577,773 in expenses, yielding \$54,637,199 gain in net, and the reverse also of what happened in 1921, when, though the gross revenues showed a decrease of \$1,483,390, the net recorded an improvement of \$18,656,316. All this merely indicates that as the country got farther and farther away from the period of Government control of the railroads, with its lavish and extravagant administration, railroad managers once more succeeded in obtaining control over the expenditures of the roads and were able to effect important economies and savings.

Weather conditions are not, as a rule, a great drawback to railroad operations in March (January and February being the bad winter months), and in 1934, as in 1933, 1932, 1931 and 1930, there were few complaints on that score, though in 1931 some heavy snowstorms in the early part of the month, and again in the closing part, were reported in the Rocky Mountain areas and the adjoining Prairie States, with the Oklahoma Panhandle especially hard hit, and likewise heavy snowdrifts at different times during the month in the Adirondacks and northern New York. In 1929 the drawbacks were only such as followed as the result of the severe cold and heavy falls of snow experienced by some of the Far Western roads in January and February. In 1928 the weather was not an adverse influence anywhere. 1927, likewise, the weather did not exert any serious adverse influence except in several of the Rocky Mountain States, more particularly in Colorado and Wyoming, where repeated snowstorms occurred all through the winter months of 1927, making railroad operations difficult, and where even towards the middle of April an unusually severe spring blizzard was encountered, seriously interrupting traffic. The latter extended also into South Dakota and into western and northwestern Nebraska. In 1926, too, the winter for the country as a whole did not interfere with railroad operations to any great extent, temperatures then being mild and the season far in advance of the ordinary. In 1924 the weather was also mild and the roads suffered no setback on that account. Back in 1923, on the other hand, weather conditions in March were extremely unfavorable. It was because of this that out of \$59,806,190 increase in

gross earnings in March 1923, \$56,386,866, as already stated, was eaten up by augmented expenses, leaving only \$3,419,324 increase in the net.

It has already been noted that the loss in the net in 1925 and 1924 came after four successive years of increase. On the other hand, prior to 1920, March net had been steadily dwindling for a long period past, until the amount had got down to very small proportions. For instance, in March 1919 there was a loss in net of no less than \$52,414,969 in face of an increase of \$10,676,415 in the gross earnings, and furthermore, March 1919 was the third successive year in which the March expenses had risen to such an extent as to wipe out the gains in gross receipts—hence producing a cumulative loss in net. In the following we give the March totals back to 1909:

Manch		Mileage				
Month of March	Year Given	Year Preceding	Inc. (+) or Dec. (—)	Per Cent	Year Given	Year Preced'g

The Course of the Bond Market

Hesitation has characterized the bond market this week, including perhaps a slight easing off among high-grade issues and a firming of lower grades. Railroad issues of lower quality reversed last week's trend and rose almost to the heights of three weeks ago, after two weeks of declining prices. This volatile group has shown wide fluctuations since the first of the year and is now at an intermediate position between the year's high and low. Speculative utility bonds have not fluctuated widely, remaining at the year's high.

U. S. Government bonds have been virtually at a stand-still as to price. The Treasury is about to abandon its policy of selling \$50,000,000 of bills each week against \$75,-,000,000 of maturing obligations and will now issue \$100,-000,000 in order to build up the cash on hand. June fianancing plans must take care of about \$416,000,000 of 3% notes and the unexchanged portion of called 1st Liberties, the latter having been largely exchanged for the new notes and bonds. The Treasury will also need new funds soon, as the work relief program gets under way, and an offering of bonds for this purpose is expected, perhaps in connection with the June 15 financing.

Price irregularity has been general throughout the list of high-grade and medium-grade railroad bonds. Baltimore & Ohio 1st 4s, 1948, closed at 101½, compared with 101¼ last Friday; Union Pacific 1st 4s, 1947, at 110¾, were down 1½; Illinois Central ref. 4s, 1955, advanced 2¼ points to 71½. Lower grades, on the other hand, enjoyed substantial price advances. St. Paul gen. 4s, 1989, closed at 46, up 1½ points; Great Northern gen. 4½s, 1977,

advanced 21/8 to 771/4; Louisiana & Arkansas 1st 5s, 1969, gained 31/2 points, closing at 66; Southern Pacific deb. 41/2s,

1981, closed at 671/2, up 21/2.

Utility bonds moved within a narrow range in the early part of the week, high grades easing somewhat and lower grades strengthening. On Thursday a broad upward movement took place affecting all classes. Among the more speculative bonds to show material gains were Central Illinois Public Service 4½s, 1981, which closed at 89½, gaining 31/4 points for the week, Gatineau Power 6s, 1941, which advanced 2 to 75, Birmingham Gas 5s, 1959, which gained 21/2 to 73, and Postal Telegraph & Cable 5s, 1953, which at 321/2 was up 21/2. Holding company issues have been quite firm and fairly strong in certain cases.

The industrial list has been relatively quiet this week. One exception was the Baldwin Locomotive 6s, 1938, with warrants, which advanced vigorously to 441/4, for a gain of 61/4 points. Oils have been moderately firm whereas most of the steels gave ground fractionally. The Vanadium 5s, 1941, made a 6 point gain to 82. Other metal and coal issues did little, with the exception of Philadelphia & Reading Coal & Iron 6s, 1949, which dropped 2 points to 371/2. Among building issues the Certainteed Products 51/2s, 1948, acted well, rising 21/4 points to 761/4. Rubber issues have

been quiet as a group.

The foreign bond market has displayed irregular tendencies. On the up side, Belgium's issues gained following an announcement of an internal debt conversion program. Japanese and Uruguayan issues have been strong. Declining tendencies are found particularly among Italian issues, and among French bonds, which are lower in sympathy with weakness of the franc. Considerable declines have also been seen in Danish bonds. Argentine, German and Polish issues sold lower.

The following is the list of bonds included in bond yield averages classified according to current ratings by Moody's Investors' Service:

^{*}These prices are computed from average yields on the basis of one "ideal" bond (4¾% coupon, maturing in 31 years) and do not purport to show either the average is or the average movement of actual price quotations. They merely serve to illustrate in a more comprehensive way the relative levels and the relative movement of a averages, the latter being the truer picture of the bond market. For Moody's index of bond prices by months back to 1928, see the issue of Feb. 6 1932, page 907, ectual average price of 8 long-term Treasury issues. †† Average of 30 foreign bonds but adjusted to a comparable basis with previous averages of 40 foreign bonds.

Indications of Business Activity

THE STATE OF TRADE—COMMERCIAL EPITOME

Friday Night, May 17 1935.

Trade showed some improvement throughout the country with retail and wholesale business larger and industrial operations running along at about the same pace as a week ago. Steel production showed a rise of 2.8% for the week but continued under the level of the same week in 1934. Electric output too, increased 0.2% over the previous week and was 3.5% over the same week last year. Carloadings were larger and the daily average production of crude oil increased sharply, exceeding the Federal allowable. Cool weather helped the movement of spring merchandise and although disappointment is general because retail business does not increase at a faster pace, sales for the week, covering the country as a whole were 5 to 10% larger than in the same week last year. Gains were largest in the Middle west and Northwest. The advance in gold and silver prices and the more favorable crop outlook were the factors attributed to the improvement in those sections. In the districts of the Pacific Coast not affected by labor difficulties there was an increase in sales of 4 to 8% but here in the East and throughout New England gains were very small. Household requirements sold on a larger scale and cool weather stimulated the sales of women's suits, dresses, millinery, shoes, dress materials and dry goods. Wholesale business was larger than expected owing to the low temperatures. Mail order business increased and there was a better demand for hardware, groceries, drygoods and hosiery. Increased orders for shoes and a freer movement of paints, wallpaper, plumbing supplies and building materials all helped to swell the wholesale volume. The demand for farm implements and electric refrigerators continued on a large scale. Automobile production was curtailed by labor troubles, but the May output is expected to compare favorably with the April total. Cotton goods continued quiet and the demand for gray goods was very small. Cotton was not very active but prices show a rise for the week of several points owing to pool buying and further talk of inflation. Grains showed little activity. Wheat, oats and rye are lower than a week ago but corn showed independent strength due to unfavorable weather which delayed planting operations. Hides were rather active but showed little change from a week ago. Rubber was more active and higher. Sugar and coffee were slightly lower and trading fell off somewhat. Cocoa was quiet and showed little change in prices. Silk was fairly active and higher.

Last Friday night and Saturday morning a hail storm hit Nebraska doing much damage to crops and property. The hail in some places was piled into drifts more than eight feet high. Chicago, Ill. on the 12th inst. had the heaviest rainfall in 62 years. A four hour electrical storm accompanied the rain. Farmers feared for their corn and wheat crops in the Middle west because of the heavy downpours. In the Northwest good soaking rains sent the spirits of farmers booming. Welcome widespread and generous rains fell in Missouri and Kansas early in the week. In New York it was generally clear with abnormally low temperatures. To-day it was fair and warm here, with temperatures ranging from 49 to 68 degrees. The forecast was for fair to-night and Saturday. Moderate temperature. Sunday showers. Overnight at Boston it was 46 to 66 degrees; Baltimore, 52 to 60; Pittsburgh, 48 to 64; Portland, Me., 46 to 64; Chicago, 44 to 52; Cincinnati, 44 to 58; Cleveland, 46 to 54; Detroit, 46 to 62; Charleston, 58 to 68; Milwaukee, 48 to 56; Dallas, 58 to 62; Savannah, 60 to 86; Kansas City, 50 to 58; Springfield, Mo., 50 to 58; Oklahoma City, 54 to 62; Denver, 50 to 70; Salt Lake City, 46 to 68; Los Angeles, 52 to 68; San Francisco, 52 to 60; Seattle, 50 to 64; Montreal, 42 to 62; and Winnipeg, 40 to 62

Colonel Ayres of Cleveland Trust Co. Maintains Three Automobile Producers Contributed Mostly to Business Recovery of Past Two Years

Stating that most of the business recovery in the United States in the past two years has been contributed by three industrial corporations, Col. Leonard P. Ayres, Vice-President of the Cleveland Trust Co., of Cleveland, Ohio, said that "they are the three leading producers of auto-mobiles who manufacture most of the cars and trucks that are made in this country." In the bank's "Business Bulletin" May 15, Colonel Ayres continues:

All the net gain in the volume of industrial production from 1933 to 1934 was equal to that made by the automotive industries, and the suppliers of its materials, and the gains so far in the production of 1935 over 1934 have been mostly due to the same factors.

These astonishing results are a striking tribute to the ability of those producers to improve the quality of their goods, and to decrease their prices, in spite of higher wage rates and shorter hours. They also constitute vivid testimony of the insistent desire of the American people for new and better individual and family transportation. Nevertheless the sustained vigor of automobile manufacturing does not furnish an adequate basis for general business recovery. We need an expanding recovery spreading from one industry to another and another like a beneficient contagion that will effectively absorb unemployment.

Apparently as a Nation we are far more willing to spend our money for new automobiles than iwe are to make any other important kinds of purchases, either of goods or of investments.

It seems likely that automobile production has passed its peak for this year, but it is probable that it will hold up relatively well during the rest of the year. The most hopeful additional factor in the outlook is to be found in the current figures for new construction which are showing increases. If the construction industry could offer increasingly better values at progressively lower prices, so that each purchaser would be confident that he had secured a real bargain, as the automobile industry succeeds in doing, our recovery problems would find rapid solution.

Colonel Ayres had the following to say as to unemployment:

We still have about 11 millions of unemployed workers, and the number has not greatly changed during the past year and a half. Under normal conditions something more than half of them would be busy producing goods, while the rest would be engaged in providing services. The key to our depression problem of unemployment is in the idleness of the producers of goods, for it is because there has been a great reduction in the output of goods that there is much unemployment among the providers of services. One half of the unemployment causes most of the other half of it. If we could put all the producers back at work, and keep them profitably employed, the problems of the providers of services would solve themselves, and the depression would be over. . . .

"The old law that supply will respond to demand has been suspended so far as new capital issues are concerned," Colonel Ayres said, adding in part:

The evidence that this is so is to be found in the fact that abnormally high prices for existing bonds do not succeed in calling forth an increased supply of new bonds. The demand for investment bonds of good quality is so great that price quotations for them have advanced to new high levels, and for some classes of bonds the prices have risen to levels higher than any ever reached previously. Meanwhile the supply of new issues does not increase in response to this unusual demand. There is no precedent for this anomalous condition.

Revenue Freight Car Loadings Gain 6,120 Cars

Loadings of revenue freight for the week ended May 11 1935 totaled 575,185 cars. This is a gain of 6,120 cars or 1.1% from the preceding week, but a decline of 27,613 cars or 4.6% from the total for the like week of 1934. The comparison with the corresponding week of 1933 is more favorable, the present week's loadings being 40,379 cars or 7.6% higher. For the week ended May 4 loadings were 6.0% under the corresponding week of 1934, but 8.0% above those for the like week of 1933. Loadings for the week ended April 27 showed a loss of 8.3% when compared with 1934 and an increase of 3.7% when the comparison is with the same week of 1933.

The first 17 major railroads to report for the week ended May 11 1935 loaded a total of 268,980 cars of revenue freight on their own lines, compared with 265,357 cars in the preceding week and 287,654 cars in the seven days ended May 12 1934. A comparative table follows:

The Association of American Railroads in reviewing the week ended May 4 reported as follows:

week ended May 4 reported as follows:

Loading of revenue freight for the week ended May 4 totaled 569,065 cars. This was an increase of 10,179 cars above the preceding week, which included Easter Monday, but a reduction of 36,181 cars below the corresponding week in 1934. It was, however, an increase of 41,947 cars above the corresponding week in 1933.

Miscellaneous freight loading for the week ended May 4 totaled 231,479 cars, an increase of 530 cars above the preceding week, but a decrease of 9,604 cars below the corresponding week in 1934. Compared with the corresponding week in 1933, it was an increase of 32,830 cars.

Loading of merchandise less than carload lot freight totaled 161,844 cars, an increase of 2,349 cars above the preceding week but reductions of

cars, an increase of 2,349 cars above the preceding week but reductions of 4.641 cars below the corresponding week in 1934 and 2,789 cars below the me week in 1933.

Coal loading amounted to 84,330 cars, an increase of 219 cars above the preceding week but a reduction of 27,803 cars below the corresponding week in 1934. It was, however, an increase of 6,672 cars above the same week in 1933.

Grain and grain products loading totaled 25,608 cars, a decrease of 1,379 cars below the preceding week, 1,483 cars below the corresponding week in 1934 and 13,941 cars below the same week in 1933. In the Western Districts alone, grain and grain products loading for the week ended May 4 totaled 16,000 cars, a decrease of 1,053 cars below the same week in 1934.

totaled 16,000 cars, a decrease of 1,053 cars below the same week in 1934.

Live stock loading amounted to 14,094 cars, an increase of 164 cars above the preceding week but reductions of 2,658 cars below the same week in 1934 and 3,840 cars below the same week in 1933. In the Western districts alone loading of live stock for the week ended May 4 totaled 11,431 cars, a decrease of 2,100 cars below the same week in 1934.

Forest products loading totaled 27,378 cars, an increase of 602 cars above the preceding week, 2,380 cars above the same week in 1934 and 7,959 cars

above the same week in 1933.

Ore loading amounted to 19,189 cars, increases of 7,396 cars above the preceding week, 9,338 cars above the corresponding week in 1934 and 13,421 cars above the corresponding week in 1933.

Coke loading amounted to 5,143 cars, an increase of 298 cars above the preceding week but a decrease of 1,710 cars below the same week in 1934. It was, however, an increase of 1,635 cars above the same week in 1933.

All districts account the Northwestern and Contral Western reported de-

All districts except the Northwestern and Central Western reported decreases in the number of cars loaded with revenue freight for the week of May 4 compared with the corresponding week in 1934. All districts except the Southwestern reported increases compared with the corresponding

Loading of revenue freight in 1935 compared with the two previous years

	1935	1934	1933

Total	10,382,849	10,510,874	8,801,977

In the following table we undertake to show also the loadings for separate roads and systems for the week ended May 4 1935. During this period a total of only 47 roads showed increases when compared with the corresponding week last year. The most important of these roads which showed increases were the Southern Pacific RR. (Pacific Lines), the Great Northern RR. and the Union Pacific

Net Operating Income of Class I Railroads During First Three Months of 1935 Below Similar Period of 1934

Class I railroads of the United States for the first three months of 1935 had a net railway operating income of \$84,773,560, which was at the annual rate of return of 1.69% on their property investment, according to reports recently filed by the carriers with the Bureau of Railway Economics of the Association of American Railroads, and made public May 6. In the first three months of 1934 their net railway operating income was \$112,696,133, or 2.24% on their property investment. In its announcement of May 6 the Association also said:

Property investment is the value of road and equipment as shown by the books of the railways, including materials, supplies and cash. The net railway operating income is what is left after the payment of operating expenses, taxes and equipment rentals, but before interest and other fixed charges are paid.

This compilation as to earnings for the first three months of 1935 is based on reports from 145 Class I railroads, representing a total of 238,092

Gross operating revenues for the first three months of 1935 totaled \$800,057,121, compared with \$799.672,358 for the same period in 1934. Operating expenses for the first three months of 1935 amounted to \$626,-358,362, compared with \$593,742,384 for the same period in 1934, or an increase of 5.5%.

Class I railroads in the first three months of 1935 paid \$60,028,778 in taxes, compared with \$62,537,112 in the same period in 1934, or a reduction of 4%. For the month of March alone the tax bill of the Class I railroads amounted to \$20,203,275, a reduction of 5.9% under March 1934.

Fifty Class I railroads failed to earn expenses and taxes in the first three months of 1935, of which 11 were in the Eastern District, 10 in the Southern and 29 in the Western District.

Class I railroads for the month of March alone had a net railway operating

class I railroads for the month of March alone had a net railway operating income of \$37,850,965, which for that month was at the annual rate of return of 1.89% on their property investment. In March 1934 their net railway operating income was \$52,217.083, or 2.60%.

Gross operating revenues for the month of March amounted to \$280,-898,558, compared with \$293,200,602 in March 1934, a decrease of 4.2%. Operating expenses in March totaled \$213,278,032, compared with \$290,373 expenses in March 1934, or an increase of 1.9%. \$209,270,377 in the same month in 1934, or an increase of 1.9%.

Eastern District

Class I railroads in the Eastern District for the first three months in 1935 had a net railway operating income of \$66,798,404, which was at the annual rate of return of 2.81% on their property investment. For the same period in 1934 their net railway operating income was \$73,925.476. or 3.11% on their property investment. Gross operating revenues of Class I railroads in the Eastern District for the first three months in 1935 totaled \$424.208.793, compared with \$424.360,673 in the corresponding period in 1934, while operating expenses totaled \$313,445,334, an increase of 2.9% above the same period in 1934.

Class I railroads in the Eastern District for the month of March had

a net railway operating income of \$26,373,970, compared with \$33,345,968

Southern District

Class I railroads in the Southern District for the first three months Class I railroads in the Southern District for the first three months of 1935 had a net railway operating income of \$12.516,359, which was at the annual rate of return of 1.47% on their property investment. For the same period in 1934 their net railway operating income amounted to \$19.705,048, which was at the annual rate of return of 2.31% on their property investment. Gross operating revenues of the Class I railroads in the Southern District for the first three months in 1935 amounted to \$106,616,308, a decrease of 2.2% below the same period in 1934, while operating expenses totaled \$83.899.762, an increase of 7.2%.

Class I railroads in the Southern District for the month of March had not return of the course of \$5.878.806, compared with \$8.137.274

net railway operating income of \$5,878.806, compared with \$8,137,274 in March 1934.

Western District

Class I railroads in the Western District for the first three months in Class I railroads in the western District for the first three moins in 1935 had a net railway operating income of \$5.458,797, which was at the annual rate of return of 0.31%. For the same three months in 1934 the railroads in that District had a net railway operating income of \$19,-065,609, which was at the annual rate of return of 1.06%. Gross operating revenues of the Class I railroads in the Western District for the first three months' period in 1935 amounted to \$269,232,020, an increase of 1.1% above the same period in 1934, while operating expenses totaled \$229,013,-

266, an increase of 8.6% compared with the same period in 1934.

For the month of March alone the Class I railroads in the Western District reported a net railway operating income of \$5,598,189, compared with \$10.733.841 for the same roads in March 1934.

Moody's Daily Index Approaches Year's High Level

Basic commodities advanced sharply last week carrying the Index to 159.8 compared to 157.4 on Friday a week ago and 160.0 on January 9, the high for the year. Unlike the advance of last summer, which was largely in droughtaffected commodities, the recent rise from the March 18 low for the year of 148.4 has been general, with minor exceptions, throughout the list of commodities used in the Index.

Of the commodities comprising the index, advances have been registered during the week by eight commodities, namely, top hogs, wool, silver, rubber, hides, cotton, lead and silk. No changes for the week were shown by cocoa, copper, coffee and sugar. Wheat, corn and scrap steel declined.

The movement of the Index number during the week, with

compa	erisons, is as follows:	
Fri., Sat., Mon., Tues.,	May 10	2 Weeks Ago, May 3156.8 Month Ago, Apr. 18157.3 Year Ago, May 18134.2 1933 High, July 18148.9
Wed., Thurs., Fri.,	May 15	Low, Feb. 4 78.7 1934-5 High, Jan. 8 '35160.0 Low, Jan. 2 '34126.0

Decrease Noted in "Annalist" Weekly Index of Wholesale Commodity Prices for Week of May 14

Reflecting especially the reaction in the grains, the "Annalist" Weekly Index of Wholesale Commodity Prices declined 0.2 point to 126.4 on May 14 from 126.6 May 7. The "Annalist" added:

Other commodities, lower prices for which contributed to the decline, included steers, butter and eggs, oranges, potatoes and pig iron. Advances that partly offset these losses were reported for hogs and lambs and the meats, lard, silk, gasoline, rubber, lead and tin.

THE ANNALIST WEEKLY INDEX OF WHOLESALE COMMODITY PRICES Unadjusted for seasonal variation (1913=100)

Slight Decreases in Wholesale Commodity Prices During Week of May 11 Reported by United States Department of Labor

For the second week the trend of wholesale commodity prices showed a downward tendency, Commissioner Lubin of the Bureau of Labor Statistics, U. S. Department of Labor, announced May 16. "The combined index of all commodities decreased 0.2% and reverted to the level of one month ago," Mr. Lubin said, adding:

It now stands at 79.9% of the 1926 average. Although the recent downward trend in commodity prices has brought the index 0.5% below the high point of the current year, it is 8% above a year ago, when the index was 73.8, and 28% above two years ago, with an index of 62.3.

The decline in the general index was again caused by falling prices of farm products and foods. Minor decreases, however, were also recorded for building materials and chemicals and drugs. Hides and leather products was the only group which registered an increase. We change in average

was the only group which registered an increase. No change in average prices was recorded for the groups of textile products, fuel and lighting materials, metals and metal products, housefurnishing goods, and miscellaneous commodities. The large group of "All Commodities other than Farm Products and Foods" also remained at the level of the previous week.

Although the downward trend in the general index during the past two weeks has been caused primarily by the reaction in market prices of farm products and processed foods, these two groups are still 1% and 5%, respectively, above the general index. As compared with the group of "All Commodities other than Farm Products and Foods," farm products are

4% and foods nearly 8% higher. Six of the 10% major commodity groups included in the index—farm products, foods, hides and leather products, fuel and lighting materials, building materials, chemicals and drugs—are above the level of the first week of the current year, ranging from 0.1% for building materials to 7% for farm products and foods. Miscellaneous commodities have receded 2.8% from the Jan. 5 level. Textile products are down 1.9%, and metals and metal products and housefurnishing goods are approximately 0.5%

Compared with the corresponding week of last year, six of the 10 commodity groups show decreases. Textile products lead the list with a decline of 6.5%. Metals and metal products are down 4%; building materials. 3%; miscellaneous commodities, 2%; and hides and leather products and housefurnishing goods, 1%. Contrasted with these decreases over the 12 month period, farm products are up 33.6%; foods, 25%; chemicals and drugs, 7%; and fuel and lighting materials, approximately 2%

From an announcement issued by the Department of Labor we take the following:

Group index numbers for the week of May 11 1935, as compared with Jan. 5 1935, and May 12 1934, are shown in the following table.

Commodity Groups	May 11 1935	Jan. 5 1935	Percent of Change	12	Percent of Change
All Commodities	79.9	77.9	+2.6	73.8	+8.3
Farm products	80.8	75.6	+6.9	60.5	+33.6
FoodsHides and leather products	84.1 88.1	78.5 86.8	+7.1 +1.5	67.3 89.3	$+25.0 \\ -1.3$
Textile products Fuel and lighting materials	68.7	70.0	-1.9 +0.4	73.5 73.0	-6.5 + 1.9
Metals and metal productsBuilding materials	85.2 84.7	85.6 84.6	$\frac{-0.5}{+0.1}$	88.8 87.4	-4.1 -3.1
Chemicals and drugs	80.7	79.1 82.3	+2.0	75.3 83.0	+7.2
Housefurnishing goods	68.9	70.9	-2.8	70.1	$-1.2 \\ -1.7$
All commodities other than farm products and foods	77.5	78.0	-0.6	79.1	-2.0

Wholesale food prices dropped nearly 1% during the week due to a decline of approximately 4% in the sub-group of fruits and vegetables, 2.4% in butter, cheese and milk, 0.6% in cereal products, and 0.1% in The sub-group of other foods, including coffee, lard, and tallow, on the other hand, was up 0.1%. Higher prices were also reported for rye flour, rice, bacon, and fresh pork. The index for the foods group, 84.1, was 25% above a year ago and 42% above two years ago, when the indexes were 67.3 and 59.1, respectively.

Farm products, with an index of 80.8, declined 0.4% from the level of the previous week. An increase of 1.2% in livestock and poultry was more than offset by a decrease of 2.3% in grains and 0.7% in other farm products. Price increases were reported for rye, cows, steers, hogs, poultry, eggs,

apples, hops, and tobacco. Average prices of barley, corn, wheat, calves, ewes, lemons, oranges, seeds, onions, and white potatoes, on the other hand, were lower. The level for the group as a whole is 33.6% above a year ago with an index of 60.5 and nearly 65% above two years ago with an index of 49.0.

Lower prices for lumber were again responsible for a decrease of 0.2% in building materials. The subgroups of brick and title, cement, paint and paint materials, structural steel, and other building materials were

Minor increases in drugs and pharmaceuticals, fertilizer materials, and mixed fertilizers were more than offset by decreases for chemiclas with a result that the index for the chemicals and drugs group declined fractionally.

Hides and leather products was the only group that registered an increase. This was due to higher prices for hides, skins, and leather. The subgroup of other leather products remained unchanged at the low point for the year, while shoes were unchanged at their high.

A decrease of 0.7% in silk and rayon and a smaller decrease in woolen and worsted goods was offset by strengthening prices for cotton goods and other textile products, including burlap, raw jute, and manila hemp with the result that the index for the group of textile products remained at 68.7. No fluctuations were recorded in average prices of clothing and knit goods.

In the group of fuel and lighting materials a sharp drop in prices of anthracite coal was counterbalanced by higher prices for gas and petroleum products. Bituminous coal and coke were unchanged. The index for the fuel and lighting materials group remained at 74.4% of the 1926 average.

A slight decline in agricultural implements was not reflected in the general level for the group of metals and metal products. The index remained at The subgroups of iron and steel, motor vehicles, non-ferrous metals,

and plumbing and heating fixtures were unchanged.

The index for the group of housefurnishing goods remained unchanged at 82.0. Average prices of both furniture and furnishings were stationary.

In the group of miscellaneous commodities falling prices of cattle feed

and crude rubber were offset by rising prices of paraffin wax and resulted in the index for the group as a whole remaining unchanged at 68.9. The subgroups of automobile tires and tubes and paper and pulp likewise were

The index of the Bureau of Labor Statistics is composed of 784 price series weighted according to their relative importance in the country's

markets and based on average prices for the year 1926 as 100.

The following table shows index numbers for the main groups of commodities for the past five weeks and for the weeks of May 12 1934, and

INDEX NUMBERS OF WHOLESALE PRICES FOR WEEKS ENDING MAY 11, MAY 4, APRIL 27, APRIL 20, AND APRIL 13, 1935, AND MAY 12 1934, AND MAY 13 1933

Slight Increase in Wholesale Commodity Prices During Week of May 11 Reported by National Fertilizer Association

The level of commodity prices was slightly higher in the week ended May 11, according to the index of The National Fertilizer Association. This index advanced to 78.3% of the 1926-1928 average, from 78.1 in the preceding week. During the past five weeks the index has fluctuated in a very narrow range, the highest point reached in this period being 78.3 and the lowest 78.1. A month ago the index was 78.3 and a year ago 71.5. In noting the foregoing, an announcement issued by the Association May 13 also said:

Six of the 14 component groups, including the five most heavily weighted groups, advanced last week and two declined. Although the general level of prices was higher, reflecting in part the effect of inflation talk on important sitive commodities, the trend of prices was mixed during the week. In the fats and oils group, for instance, four commodities advanced and four declined; in the foods group there were five advances and five declines; six commodities in the grains, feeds, and livestock group advanced and nine declined. Textile prices, however, were generally higher, with six items in the group moving upward and only one declining. The textiles group index was at the highest level since March 9. The foods group index reached the highest point yet attained in the recovery

Twenty-eight commodities in the index, including many of the more heavily weighted items, advanced in price last week, while 24 commodities declined. In the preceding week there were 19 advances and 27 declines; in the second preceding week there were 27 advances and 18 declines

The index numbers and comparative weights for each of the 14 groups listed in the index are shown in the table below.

WEEKLY WHOLESALE PRICE INDEX—BASED ON 476 COMMODITY PRICES (1926-1928=100)

Retail Food Prices Up 0.8 of 1% During Two Weeks Ended April 23 According to United States Depart-ment of Labor

An 0.8 of 1% rise in retail food prices during the two weeks' period ended April 23 brought the food index back to the level of March 15 1931. Commissioner Lubin of the Bureau of Labor Statistics of the United States Department of Labor announced May 7. He said:

Food prices are now 17% below the lowest April average for the years 1925-1930, inclusive.

Seventeen of the 42 foods included in the index accounted for the increase in the index. Ten foods fell in price and 15 showed no change.

There were price advances in four of the six commodity groups into which see foods are classified, the cereals and dairy products showing the only price declines.

Increases occurred in 43 of the 51 reporting cities. The greatest incre $4.1\,\%,$ was reported for Richmond. Negligible decreases were reported for eight cities scattered throughout the five geographical areas.

The current index, 125.2 (1913=100.0), is 8.0% higher than on Jan. 2 1935, and 16.7% higher than a year ago. It is 22.9% lower than in April 1926, the April peak for the past 10 years.

Cereals moved downward 0.1 of 1% due to decreases in the prices of corn

Meat prices rose 1.7%. All items in this group, with the exception of leg of lamb and sliced ham played a part in this advance. Meats are now higher than at any time since January 1931.

Dairy products fell 1.2% due to a break of 3.5% in butter prices

Eggs advanced 3.8% and are 28% higher than at this time last year. Fruit and vegetable prices showed a gain of 4.3%. This increase is largely due to a seasonal advance in the price of potatoes, which amounted argery due to a seasonal advance in the price of potatoes, which amounted to 11.1%. Cabbage prices, which have been higher than at any time since June 1927, fell 3.5%. The upward movement in onion prices was retarded. Oranges advanced 5.5%.

Miscellaneous foods showed an increase of 0.1 of 1%. Lard prices remained unchanged, after registering an increase of 28% since Nov. 6 1934. Other fats and oils continued their price advance.

INDEX NUMBERS OF RETAIL PRICES OF FOOD (1913=100.0)

	1935				1934	1933	1930	
		Apr. 9 2 Weeks Ago					Apr. 15 2 Years Ago

In reporting the foregoing, an announcement issued by the Department of Labor, continued:

Prices used in constructing the weighted index are based upon reports from all types of retail food dealers in 51 cities and cover quotations on 42 importance food items. The index is based on the average of 1913 as The weights given to the various food items used in constructing the index are based on the expenditures of wage earners and lower-salaried

The following table shows the percentages of price changes for individual commodities, covered by the Bureau for April 23 1935, compared with April 9 and March 26 1935, April 24 1934, April 15 1933 and April 15 1930:

Decrease in Business Activity During April Shown by Monthly "Annalist" Index

Business activity showed a further decline during April as a result of decreases in the daily average output of leading industries, said the "Annalist" in issuing its monthly index of business activity. It continued:

Average daily freight-car loadings, pig iron production and cotton consumption showed contrary to seasonal decreases, and average daily steel ingot production, electric power production and silk consumption recorded greater than seasonal declines. There was a further increase in average daily automobile production, but the gain was less than seasonal. Average daily zinc production, after allowance for seasonal variation, increased slightly. As a result of these decreases The "Annalist" index of business activity declined 2.3 points. The preliminary figure for April is 79.0, as compared with 81.3 for March, 83.0 for February and 83.8 for January. The combined index has now declined 4.8 points from the year's high of 83.8 for January. Whether the decline since January is the start of another minor cycle remains to be seen. It is interesting to note, however, that she here the Fall of 1932 the formation of the curve of the combined index has been very regular. The amplitude of fluctuations has varied, but the number of months ratio of 1932, the formation of the curve of the combined index has been very regular. The amplitude of fluctuations has varied, but the number of months between each peak is approximately the same. We have had minor cycles of approximately nine months in length. The length and the extent of the current decline, may largely depend on the rapidity with which the Government gets its works relief program under way.

Table I gives the combined index and its components, each of which is adjusted for seasonal variation and, where necessary, for long-time trend, for the last three months. Table II gives the combined index by months back to the beginning of 1930.

*Subject to revision. †Based on an estimated output of 7,749,000,000 kilowatthours, as against a Geological Survey total of 7,973,000,000 kilowatt-hours in March and 7,443,000,000 in April, 1934. ‡Based on an estimated output of 477,550 cars and trucks, as against Department of Commerce total of 451,805 cars and trucks in March and 373,108 cars and trucks in April 1934.

Increase from March to April in Department Store Sales Reported by Federal Reserve Board

Department store sales increased from March to April by considerably less than the estimated seasonal amount. Federal Reserve Board's index, which makes allowance for differences in the number of business days, for usual seasonal movements, and for changes in the date of Easter, was 74 in April, on the basis of the 1923-25 average as 100, compared with 82 in March and 75 in February. In an announcement issued May 11 the Board further said:

Total dollar volume of sales in April was larger than a year ago by 12% reflecting chiefly the influence of the later date of Easter this year and of the larger number of working days. The aggregate for the first four months of this year was 3% larger than for the corresponding period a year ago.

April figures preliminary; in most cities the month had one more business day sear than last year.

Retail Prices Unchanged from April 1 to May 1 According to Fairchild Publications Retail Price Index

For the first time since October, retail prices have shown no change for one month as compared with the previous month, according to the Fairchild Publications Retail Price After declining for six consecutive months, prices on May 1 showed no change as compared with April 1, although showing a decrease of 3.5% under May 1 a year ago. Prices have been sagging steadily since the April 1 1934, high. An announcement issued May 13 by Fairchild Publications also said:

The decline in piece goods quotations during April of 1.6% was sufficient to offset the fractional increases, particularly in home furnishings and nfant's wear. Women's apparel showed no change during the month. The decrease in the index as compared with a year ago has been largely due to the lower prices recorded for both piece goods and women's apparel. The other three water subtligitions recorded to the lower prices are subtligited to the lower prices are subtlighted to the lower prices are subtligited to the lower prices are subtlighted to the lower prices are subtligited to the lower prices are subtlighted to the lower prices are subtligited to the lower prices are The other three major subdivisions showed only fractional changes as compared with a year ago. Each of the major five groups declined as compared with the high.

The unfavorable textile situation is reflected in the lower prices during the month as compared with the previous month. The decline in silk items, in particular, has been note-worthy. Most of the items included in the home furnishings group showed gains. Floor coverings, particularly, continued their recent upward trend.

Sales of 25 Chain Store Companies Show Increase of 17.02% for April 1935

According to a compilation made by Merrill, Lynch & Co., 25 chain store companies, including two mail order companies, reported an increase in sales of 17.02% for April 1935 over April 1934. The compilation further showed:

Sales of chain stores for the months of March and April separately are not readily comparable with the corresponding months of last year because Easter this year came in April while last year Easter was in March. Therefore, to compare the sales, the months of March and April was taken together, showing that sales of 25 chains, including two mail order companies, increased 10.40% over the corresponding two months of 1934. Excluding the 2 mail order companies, 23 chain store companies for the same period showed an increase in sales of 4.96%.

	1935	1934	P.C. Change
Sales—April— 23 Chain store companies 2 Mail order companies	\$146,147,047 57,006,290	\$128,996,073 44,603,406	+13.29% +27.80%

Electric Output in Latest Week Shows Gain of 3.5% Over Like Week a Year Ago

The Edison Electric Institute, in its weekly statement, discloses that the production of electricity by the electric light and power industry of the United States for the week ended May 11 1935 totaled 1,701,702,000 kilowatt hours. Total output for the latest week indicated a gain of 3.5% over the corresponding week of 1934, when output totaled 1,643,433,000 kilowatt hours.

Electric output during the week ended May 4 1935

Electric output during the week ended May 4 1935 totaled 1,698,178,000 kilowatt hours. This was a gain of 4% over the 1,632,766,000 kilowatt hours produced during the week ended May 5 1934. The Institute's statement

7ote—The monthly figures shown above are based on reports covering approximately 92% of the electric light and power industry and the weekly figures are ed on about 70%.

Business Conditions in Boston Federal Reserve District March Level of General Business Activity Below

The Federal Reserve Bank of Boston states, in its "Monthly Review" of May 1, that "during March the level of general business activity in New England was slightly lower than in February, when allowance for customary seasonal changes had been made, although an increase of 1% as recorded in the number of persons employed in Massachusetts.' tinuing, the Bank said:

Department store sales in this District during March were approximately 15% lower than in the corresponding month a year ago, but the earlier date of Easter had considerable influence upon March sales last year, while in 1935 this influence came in April.

Production of poots and shoes in New England during March was estimated to have been about 4% less than in the corresponding month last year. Since production during January was about 10% above the January output a year ago and during February in both 1934 and 1935 production was in approximately the same volume, total production of boots and shoes during the first quarter of this year was about $1\frac{1}{2}\%$ larger than in the first quarter a year ago.

During the first quarter of 1935 the amount of raw cotton consumed by New England mills was approximately 240,700 bales, while in the similar period a year ago the mills consumed 273,800 bales, a difference of about 33,000 bales, or 12%. Consumption of raw wool by mills in this District was greater in March and in the first quarter of 1935 than in the

Retail sales of 1,009 concerns in Massachusetts during March 1935, amounted to \$19.927.291, or 11.5% less than the total of \$22,525,914 for March 1934. Large decreases occurred in three of the major groups, general merchandise, apparel and coal. Of the total number of concerns, 34% reported a gain, 62% a decrease and 4% reported no change.

Business Conditions in Cleveland Federal Reserve District-Little Change Noted in Industrial Activity in Late March and First Three Weeks of April

"Industrial activity in the Fourth (Cleveland) District in late March and the first three weeks of April," said the Federal Reserve Bank of Cleveland, "was little changed from the preceding four-week period. Increases in some lines were offset by declines in others, particularly when allowance is made for seasonal variations," the Bank stated. In its "Monthly Business Review" of April 30 the Bank also had the following to say:

On the whole, however, the results of first quarter operations were rea ably satisfactory and compared very favorably with the corresponding period of 1934. In the case of automobiles it was thought that the first quarter increase was largely an early spring seasonal expansion, but the fact that retail demand has held up so well that factories have increased assembly schedules in each week of April indicated something more than an early sonal improvement.

Strike threats caused production of rubber tires and bituminous coal to ning of April were somewhat abnormal. Tire stocks in hands of manufacturers on March 1, the latest figure available were 7.5% larger than a year ago and represented 3.5 months' supply in terms of current consump-With the strike threat at least temporarily removed and the need for maintaining large stocks no longer exsiting, tire prices were sharply reduced by the granting of large discounts first to fleet owners and then generally in an effort to reduce stocks. These discounts were somewhat reminiscent of former tire price wars.

In the coal industry, extension of the existing wage agreement to June 16 was followed by a very sharp drop in coal production (about 70%) in the first week of April. Some recovery occurred in the following week, but large coal stocks above ground, built up in anticipation of the strike, retard production which in March was higher than since March last year when output was abnormally high. .

Retail sales generally, as reflected by reports from department stores in leading cities of the district, were 8% smaller in March than a year ago, but when allowance is made for seasonal variations and fluctuations in the Easter date, the index of daily average sales was higher than since 1931. Preliminary reports on April sales were not encouraging. In the first quarter dollar sales, with no allowance for Easter, were 0.2% larger than in the same period of 1934, and current retail prices were slightly under a year ago.

Employment in this section increased more than seasonally in March and further improvement was indicated by reports covering the first half of April. In Ohio the employment index was 5% higher in March than a year ago. Payrolls showed a larger increase because of the higher wage year ago. Payrolls showed a larger increase because of trates and also the increase in the number of hours worked.

Business Conditions in Richmond Federal Reserve District—Trade Reported at Seasonal Level

The Federal Reserve Bank of Richmond, in its "Monthly Review" of April 30 (compiled April 20) said that "the lateness of Easter this year retarded business in several lines in March, but if this adverse influence is taken into account, trade last month was up to seasonal level." The Bank continued:

Employment conditions appear to have become somewhat worse on the whole between the middle of March and the middle of April, due to restrictions in operations in textile mills and some other scattered industrial plants, which more than offset seasonal increases in employment in construction and farm work. Coal production in March on a daily basis showed an increase over production in February, perhaps due to increased demand from such customers as the automobile industry. Textile mills in the Fifth District, especially those manufacturing print cloth, curtailed production about 25% on April 1, and plan to continue the restriction in output two months.

held up in March, cigarette production exceeding that of March 1934, but cigar and smoking tobacco production was less. Retail trade as reflected in department store sales was in less amount than in March last year, but was better than seasonal average in consideration of Eastern dates last year and this. Wholesale trade in three of five lines for which data are available was below the volume of trade last year, but all lines showed increased sales over February. . . .

Winter crops are in good condition, and there is plenty of moisture in the ground to promote growth of spring crops. Spring planting is backward in most of the district, due to wet and cold weather, but the delay is not yet serious. Cold weather in the first half of April damaged peach and some other fruit prospects, but apparently did not do serious harm to apples. Fertilizer sales have been good in the district, and farmers have been financially able to acquire a number of mules and some new machinery.

Increase of 1% from March to April in Cost of Living of Wage-Earners Noted by National Industrial Conference Board

After a temporary halt in March, the cost of living of After a temporary halt in March, the cost of living of wage-earners advanced again, rising 1.0% from March to April, according to the National Industrial Conference Board. "The increase," the Board said, "was due to substantial rises in food prices and rents; on the other hand, clothing prices and coal prices declined. The cost of living in April was 6.1% higher than a year ago, and 16.4% higher than in April 1933, when the low point during the depression was reached. It was 16.0% lower than in April 1929." The Board on May 13 further announced:

Food prices rose 2.5% from March to April; they were 16.2% higher than in April 1934 and 38.0% higher than in April 1933, but 17.7% lower than

Rents have increased 1.2% since March, 7.8% since April 1934, and 7.3%since April 1933, but they were 25.4% below the April 1929 level.

Clothing prices continued their downward trend which has been noted since last September; they declined 0.8% from March to April and were 3.2% lower than a year ago. Since April 1933, however, there has been an increase of 24.2% and since April 1929, a decline of 23.7%.

Coal prices decreased seasonally from March to April, 1.9%, to a level approximately the same as a year ago but 5.0% higher than in April 1933 and 8.0% lower than in April 1929.

Sundries did not change in cost since March. In April they were 0.6% higher than a year ago and 4.1% higher than in April 1933, but 6.6% lower than in April 1929.

The purchasing value of the dollar was 120.2 cents in April as compared with 121.4 cents in March 1935, 139.9 cents in April 1933 and 100 cents in 1923.

Lumber Movement Declines Due to West Coast Strike

Production at the lumber mills during the week ended May 11 1935, dropped to the lowest point since January and was

23% under last year's week; new business was below that of the preceding four weeks and shipments were less than during the preceding seven weeks. The drop was due to the strike in West Coast mills, nearly all other regions showing appreciable gains. In the West Coast region, production dropped 53% and orders 44% from their high record of the previous week. Total new business booked in all regions was 54% production and 28% above that of the correspondthe previous week. Total new business booked in all regions was 54% production and 28% above that of the corresponding week of 1934. These comparisons are based upon telegraphic reports to the National Lumber Manufacturers Association from regional associations covering the operations of 1,010 leading hardwood and softwood mills. In the week ended May 11, these produced 134,365,000 feet; shipped 189,792,000 feet and booked orders of 206,534,000 feet. Revised figures for the preceding week were mills, 1,039; production, 190,506,000 feet; shipments, 266,582,000 feet; orders received, 253,450,000 feet. The Association's feet; orders received, 253,450,000 feet. report further showed: The Association's

All regions but Northern Pine and Northeastern Hardwoods reported orders above production during the week ended May 11. Total softwood orders were 58% above output; hardwood orders, 4% above hardwood production. Total shipments were 41% above production. All regions but West Coast, Southern Cypress and North Central Hardwoods reported orders above those of corresponding week of 1934. Total softwood orders were 26% above those of last year's week; hardwood orders were 55% above

in similar comparison.

Unfilled orders on May 11, as reported by 1,255 mills were 827,256,000 feet and gross stocks, 4,364,075,000 feet. Identical softwood mills reported unfilled orders on May 11 as the equivalent of 28 days' average production and stocks of 132 days' production, compared with 27 days' and 150 days on similar date of last year.

Forest Products carloadings totaled 27,378 cars during the week ended May 4 1935. This was 602 cars more than during the preceding week; 2,380 cars above the same week of 1934 and 7,959 cars above corresponding

Lumber orders reported for the week ended May 11 1935, by 847 softwood mills totaled 195.781,000 feet; or 58% above the production of the same milles. Shipments as reported for the same week were 178,326,000 feet, or 44% above production. Production was 124,035,000 feet.

Reports from 190 hardwood mills give new business as 10.753,000 feet.

4% above production. Shipments as reported for the same week we 11,466,000 feet, or 11% above production. Production was 10,330,000

Unfilled Orders and Stocks
Reports from 1,255 mills on May 11 1935, give unfilled orders of 827. 256,000 feet and gross stocks of 4,364,075,000 feet. The 738 identical softwood mills report unfilled orders as 657,664,000 feet on May 11 1935, or the equivalent of 28 days' average production, compared with 635. 237,000 feet, or the equivalent of 27 days' average production on similar date a year ago.

Identical Mill Reports

Last week's production of 745 identical softwood mills was 122,765,000 feet, and a year ago it was 162,088,000 feet; shipments were respectively 176,441,000 feet and 141,096,000; and orders received 192,967,000 feet, and 152,750,000 feet. In the case of hardwoods, 177 identical mills reported production last week and a year ago 10,100,000 feet and 10,005,000 feet; shipments 11,260,000 feet and 9,300,000 feet and orders 10,638,000 feet

Further Decline in Farm Exports During March Reported by Bureau of Agricultural Economics

Farm exports in March were 45% of pre-war volume, according to the Bureau of Agricultural Economics, United States Department of Agriculture. This compared with 75% in March a year ago, and with 67% in March two years ago. An announcement issued May 6 by the Department of Agriculture continued:

Exports of cotton, it is stated, were the smallest in a decade. During the nine months ended March 31, cotton exports totaled 4,068,000 bales compared with 7,176,000 bales in the corresponding period of 1933-1934.

The Bureau points out, however, that the decrease in value was less than that in volume, on account of higher prices this season.

Foreign countries took 1,502,000 bushels of United States wheat and flour—practically all in the form of flour—in March. This was 17% of the pre-war volume. Total exports of wheat and flour for nine months d March 31 were 17,632,000 bushels, or 36% less than in the corresponding period of 1933-1934.

Exports of fruits, dairy products and eggs increased in March compared with February, with March a year ago, and with March two years ago.

Farm Income During First Quarter of 1935 Above Same Quarter of 1934 According to Bureau of Agricultural Economics

Farmers in 32 States received more income from sales of principal farm products and Government rental and benefit payments in the first quarter of 1935 than in the same period in 1934; farmers in 15 States received less, and income of farmers in Texas was about unchanged, according to the Bureau of Agricultural Economics, United States Department of Agriculture. A gain of 12% is reported for all States combined. An announcement issued May 8 by the Department of Agriculture further said:

Largest increases this year over last were in Indiana and surrounding States where feeding conditions have been relatively more favorable this year, and where the increase in rental and benefit payments was largest. Heaviest decreases in income were in North Dakota where wheat marketings were greatly reduced, and in Maine where potato prices were less than one-

third those of a year ago.

The bureau says that in all regions except the South Atlantic and South Jentral States income in the first quarter of 1935 was higher than for any similar period in the last four years. In the South Atlantic States receipts were below either the first quarter of 1934 or the first quarter of 1932. In South Central States receipts were below 1934 and above 1932.

New England States, except Maine, show an increase of 12 to 20% in income the first quarter of this year compared with last, due chiefly to higher prices of dairy products. There were moderate gains in the Middle Atlantic States where larger income from dairy products more than offset reduced income from crops.

East North Central States enjoyed a marked increase in income the first quarter of this year, largely because of heavier feeding of livestock during the past winter. Supplies of feed grains were reduced by last summer's drought in this area, but much less so than in other principal feeding areas. Also, hog prices the first quarter of this year averaged more than twice those of a year ago; marketings of higher priced cattle were larger than usual, and rental and benefit payments were considerably incres

West North Central States show a marked variation in percentage cha in income. North Dakota farmers had less income despite higher wheat prices; Nebraska had less income from wheat and corn, about the same inprices; Nebraska had less income from wheat and corn, about the same income from livestock as a year ago, and larger rental and benefit payments. Other States in this area had somewhat larger incomes despite the sharply reduced crop production. Higher prices of hogs.and dairy products more than offset smaller marketings, and rental and benefit payments were larger.

Maryland, Delaware and West Virginia are the only States in the South Atlantic group to show increased income in the first quarter of this year. The decrease in the remaining States is attributed to less money from tobacco and cotton due to earlier marketings. In Kentucky and Tennessee, higher tobacco prices maintained the income from tobacco despite smaller

higher tobacco prices maintained the income from tobacco despite smaller production; income from livestock feeding was increased; and rental and

In the remaining South Central States, except Texas and Oklahoma, income was somewhat less this year than last on account of smaller marketings of cotton and smaller rental and benefit payments. In Texas and Oklahoma, increased income from livestock marketings and emergency sales of

livestock to the Government about offset the reduced income from crops.

Receipts in Western States, except California, Utah, and Nevada were about the same or lower this year than last. Montana, Idaho and Arizona had smaller receipts, but Utah and Nevada had larger income. California income was 37% more than in the first quarter last year, due largely to marked gains from citrus fruits and truck crops.

Automobile Financing During March 1935

A total of 269,989 automobiles were financed in March on which \$100,041,834 was advanced, compared with 187,566 on which \$69,873,418 was advanced in February, the Department of Commerce reported on May 3.

Volume of wholesale financing in March was \$149,002,399, as compared with \$108,656,597 in February.

Monthly statistics on automobile financing, based on data reported to the Bureau of the Census by 456 identical organizations, are presented in the first table below for January to March 1935, January to December 1934 and July to December 1933; and in the other table for 282 identical organizations for January to March 1935 and January to December 1934 and 1933.

World Coffee Stocks March 1 Below Feb. 1 According to New York Coffee and Sugar Exchange

World stocks of coffee, including interior stocks in Brazil, decreased 270,830 bags, or about 1% during February, totaling 25,632,872 bags on March 1, against 25,903,702 on Feb. 1, according to the New York Coffee and Sugar Exchange. This is the smallest March 1 stock since 1929. The Exchange said on May 10 that 19,156,000 bags of the total were in interior warehouses in Brazil, of which 11,114,-000 bags were pledged against the 1930-40 coffee loan, 1,-050,000 bags owned by the National Coffee Department in addition to the pledged stocks and 6,992,000 bags owned privately awaiting shipment to ports.

April Consumption of Beet Sugar in United States Reported Above Year Ago

Beet sugar consumption in the United States as measured by distribution showed an increase of 24,127 long tons, raw value, in April 1935, compared with the same month of last year, according to B. W. Dyer & Co., sugar economists and brokers, from a report released by the United States Beet Sugar Association. A total of 152,137 tons were consumed during April 1935 compared with 128,010 tons in April of 1934. Total consumption for the first four months of 1935, the firm said, amounted to 522,597 tons compared with 473,624 tons for the same period of 1934, an increase of

Sugar Consumption in 14 European Countries September 1934 Through March 1935 Reported 3% Above

Like Period of 1933-34 Consumption of sugar in the 14 principal European countries during the first seven months of the current crop year, September 1934 through March 1935, totaled 4,316,391 long tons, raw sugar value, as against 4,188,893 tons consumed during the similar period last season, an increase of 127,498 tons, or a little over 3%, according to European advices received by Lamborn & Co. Under date of May 11 the firm also announced:

The 14 countries included in the survey are Austria, Belgium, Bulgaria, Czechoslovakia, France, Germany, Holland, Hungary, Irish Free State, Italy, Poland, Spain, Sweden, and the United Kingdom.

ar stocks on hand for these countries on April 1 1935 approximated

4.411.509 tons as compared with 4.090.420 tons on the same date last year, an increase of 321,089 tons or approximately 7.8%.

Sowings of sugar beets for these countries during the current season are placed at 3.486,600 acres as against 3,652,200 acres last season, a decrease of 165,600 acres, equivalent to 4.5%. Last year's acreage yielded a best sugar crop of 6,405,000 long tons, raw sugar value.

Entries of Sugar into United States Against Quotas Under Jones-Costigan Sugar Act Totaled 1,898,320 Short Tons During First Four Months of 1935— Report of AAA

The quantity of sugar entered for consumption in the United States during the first four months of this year from United States during the first four months of this year from Cuba, the Philippines, Puerto Rico, the Virgin Islands, and Hawaii totaled 1,898,320 short tons, raw value, without polarization and final out-turn adjustments. This quantity has been charged against the 1935 quotas for the areas indicated, the Sugar Section of the Agricultural Adjustment Administration announced May 6. The report covering entries of sugar from Jan. 1 to May 1 shows that the quantity entered represented 42.6% of the total 4,454,019 tons admissible from those areas under the quotas established for missible from those areas under the quotas established for 1935 by general sugar quota regulations, series 2. The quotas for 1935 were given in our issue of Jan. 12, page 222. Such quotas, the announcement of May 6 said are subject to change under the Jones-Costigan Act if consumption increases, and certain pending changes in the quotas were announced by the AAA on April 6 1935, as the outcome of an investigation of importations of sugar from the various producing area in the so-called "basic" years.

The quotas of raw direct-consumption sugar admissible into the United States for 1935 from the Philippine Islands and Puerto Rico have been filled, the Sugar Section announced May 15, adding:

Raw direct-consumption sugar is raw sugar which is used in certain products without further processing. The quota of this type of sugar admissible in 1935 from the Philippine Islands was 9,996 short tons raw value, and the quota of the same type of sugar for entry from Puerto Rico was 9,590 short tons raw value.

Under the quota provisions of the Jones-Costigan Act, when the quota for any type of sugar for any area is filled, no more of that type of sugar can enter the United States from that area during the current calendar year unless it is stored in bond in accordance with special regulations of the AAA.

The report for Jan. 1 to May 1 is the fourth such to be issued; a previous report, covering the first quarter of 1935, was given in these columns of April 27, page 2774. As to the latest report issued May 6 the announcement by the AAA also said:

In addition to giving the record of sugar entries from the areas mentioned above, the report presents a summary of the quantity of sugar entered and certified for entry from all foreign countries.

This report includes all sugars from Cuba, the Philippines, Puerto Rico, the Virgin Islands, and Hawaii recorded as entered and certified for entry or certified for entry upon arrival from those areas prior to May 1 1935. The statistics pertaining to full-duty countries include, in addition to the sugar actually entered before May 1 1935, all quantities certified for entry, including quantities in transit on May 1 1935, prior to that date.

The figures are subject to change after final outturn-weight and polariza-

tion data for all importations are available

The status on May 1 1935, of the principal quotas established under general sugar quota regulations, series 2, for 1935, is as follows: x

[Tons of 2,000 pounds—96 degree equivalent]

Area	Qantity of Sugar Which May be Admitted for 1935 z	Amounts Charged Against Quotas	Balance Remaining
Cuba Philippines Puerto Rico Hawaii Virgin Islands	1,857,022 918,352 779,420 893,884 5,341	723,503 453,929 422,985 297,903	1,133,519 464,423 356,435 595,981 5,341
Total	4.454,019	1,898,320	2,555.699

g Under General Sugar Quota Regulations, series 2

In addition to the sugar charged against the quotas for Cuba and the other insular areas, a large part of the sugar which may be admitted from full duty countries was entered or certified for entry during the first four months of the year. The following table shows, in pounds, the amount of sugar which may be admitted in 1935, the amount charged against quotas during January, Feoruary, March and April, and the amount which may be admitted during the remainder of the year from the areas specified:

[Pounds-96 Degree Equivalent]

Area	Quantity Which May Be Admitted for 1935	Charged Against Quota	Balance Remaining
Belgium	194,462	194,462

Total	18,391,295	15,658 495	2.732.800

x This does not give effect to pending readjustment of quotas referred to in the press release of April 6 1935.

The announcement of the AAA of April 6, as to certain pending changes in the off-shore areas, was reported as follows in Washington advices to the "Wall Street Journal" of April 8:

A realletment of the 1934 and 1935 sugar quotas to off-short areas will be made by the AAA, adjustments for both years to be made in 1935 shipments.

The AAA announced preliminary findings of a more detailed investigation of consumption of sugar from the various areas during the base period, 1930 to 1933, on the basis of which "it is contemplated that, following final vertification of the results of the investigation, the present quota regulations will be revised to give effect to the necessary adjustments."

regulations will be revised to give effect to the necessary adjustments."

Under the total adjustments for both years, Hawaii will be allowed to ship 66.173 short tons more into the United States this year than under the present quota for that territory, while Cuban shipments will be cut 55.844 short tons. Puerto Rico will be allowed an increase of 7.394 tons, while the Philippines and the Virgin Islands will be cut 17.468 and 255 short tons, respectively.

Total amount of sugar to be allowed into the United States will remain the same for both years.

the same for both years.

Results of the AAA's investigation which will be used as the basis for the readjustments in the quotas, are as follows:

	1934

\$10,803,196 Paid to United States Sugar Beet and Sugar Cane Producers Co-operating in Sugar Adjustment Programs, According to AAA

Adjustment payments totaling \$10,803,196 have been paid to date to Continental United States sugar beet and sugar cane producers co-operating in the sugar adjustment programs, the Agricultural Adjustment Administration announced May 9. Payments made to date are the first adjustment payments on the 1934 crop, the Administration said, adding:

The first 1934 payment on the sugar beet program is at the rate of \$1 a ton of beets on each producer's estimated production, based on average yields and actual planted acreage. The first 1934 sugar cane payment is at the rate of \$1 a ton of sugar cane on each producer's base production. The final adjustment payments on the 1934 crop, the rate of which depends in part upon the returns received from the sale of the crop, will be made when producers have compiled with the terms of their contracts regarding acreage for the 1935 crop and other requirements. Sugar cane compliance work is near completion in Louisiana and preparations for this work are well underway for the sugar beet districts.

Cotton Producers' Pool to Resume Sales in Limited Amounts—Sales to Be Replaced with Futures Contracts

Following repeated requests from mills and merchants for certain grades of cotton for immediate consumption, Oscar Johnston, manager of the 1933 Cotton Producers' Pool, announced May 8 that beginning immediately limited amounts of pool cotton would be available to the trade. The announcement issued in the matter by the Agricultural Adjustment Administration said:

After the market decline of March 11 the policy of selling stocks from the cotton pool and replacing these stocks with futures contracts was discontinued. Recently, according to Mr. Johnston, the demand for certain grades of cotton has become strong because of limited amounts of these grades in the hands of the mill and the trade. The cotton pool will supply these demands for cotton on the prevailing basis, replacing the sales of actual cotton with futures contracts in order to maintain the net position of the pool.

In announcing that sales of spot cotton would be resumed, Mr. Johnston made the following statement:

Beginning at once, cotton will be sold to the trade at the prevailing basis and in accordance with the usual terms with which the trade is familiar. These stocks will be sold in limited quantities when the cotton is intended for immediate consumption or export. Against all sales, the pool manager will simultaneously purchase futures contracts, distributing these purchases at his discretion through the months of May, July and December 1935 and January and March 1936.

December 1935 and January and March 1936.

It will be the purpose to conduct these transactions without market disturbance; to bring the futures contracts as nearly as possible to a level with the prevailing spot market, and to raise contract prices for the months of October, December, January and March (new crop months)

with a view to bring new crop contract prices to a more satisfactory level.

To protect the near crop months, the pool manager will demand and take delivery of actual cotton against May and July contracts, if such action shall become necessary to protect the contract against undue depression.

The trade is further advised that while efforts will be made to legitimately improve the market price for cotton, nothing will be done to bring about any abnormal market situation. It will be the purpose to promote orderly marketing in accordance with sound principles.

Mr. Johnston pointed out that on March 9 middling %-inch cotton was quoted on the 10 designated spot markets of America at 12.21c. per pound; on March 14, following the break of March 11, this price had declined to 11.46c., and went as low as 11.37c. Since that time there has been a substantial recovery which has carried the spot market to an average of 12.41c. per pound. Pool cotton may now be sold at a price sufficiently above 12c. per pound to take care of accrued carrying charges.

Census Report on Cotton Consumed and on Hand, &c., in April

Under date of May 15 1935 the Census Bureau issued its report showing cotton consumed in the United States, cotton on hand, active cotton spindles and imports and exports of cotton for the month of April 1935 and 1934. Cotton consumed amounted to 462,844 bales of lint and 70,268 bales of linters, compared with 481,135 bales of lint and 66,754 bales of linters in March 1935 and 512,594 bales of lint and 67,479 bales of linters in April 1934. It will be seen that there is a decrease in April 1935 when compared with the previous year in the total lint and linters combined of 46,961 bales, or 8.09%. The following is the statement:

APRIL REPORT OF COTTON CONSUMED, ON HAND, IMPORTED AND EXPORTED, AND ACTIVE COTTON SPINDLES [Cotton in running bales, counting round as half bales, except foreign, which is in 500-pound bales)

Note—Linters exported, not included above, were 15,657 bales during April in 1935 and 15,452 bales in 1934; 146,032 bales for the nine months ending April 30 in 1935 and 128,140 bales in 1934. The distribution for April 1935 follows: United Kingdom, 4,089; Netherlands, 929; Belgium, 384; France, 3,651; Germany, 2,964 Italy, 178; Canada, 784; Japan, 2,478; South Africa, 200.

WORLD STATISTICS

The world's production of commercial cotton, exclusive of linters, grown in 1933, as compiled from various sources was 25,451,000 bales, counting American in running bales and foreign in bales of 478 pounds lint, while the consumption of cotton (exclusive of linters in the United States) for the year ending July 31 1934, was 25,-324,000 bales. The total number of spinning cotton spindles, both active and idle, is about 157,000,000.

Petroleum and Its Products—Administrator Ickes
Moves to Bar Two Companies from Government
Business—Texas to Seize "Hot Oil" Stocks—
A. J. Byles Asked Minimum Federal Regulation—
Oil Allowable Increased—Pennsy Grade Crude
Prices Cut—Production Exceeds United States
Quota

Administrator Ickes on May 12 disclosed that he had requested all Government organizations to refuse bids on

petroleum products by the Texas Co. and the Continental Oil Co. because of alleged violations of labor provisions of the National Recovery Administration petroleum code.

"That both of these companies have failed to comply with decisions of the Petroleum Labor Policy Board, approved by the Administrator, which established violations by them of Section 7-A of the National Industrial Recovery Act as embodied in Article 11, Section 7 of the petroleum code, is the basis upon which this request is made

"The Texas Co. was found to have illegally imposed a company union upon its employees at its West Tulsa refinery against the wishes of employees; while the Continental Oil Co. in its operations at Hominy, Okla., was found to have illegally discharged several of its employees for union activities."

Governor Allred Monday signed the two acts passed by the Governor Alired Monday signed the two acts passed by the Texas Legislature late last week designed to stop "hot oil" production and increase revenues of the State enforcement bodies by raising oil taxes. The latter act increases a former tax of ½ cent a barrel to 3-16 cent a barrel, the increased revenues to provide funds for employing oil field enforcement staffs for the Railroad Commission, the Attorney-General and State Labor Department.

Designed originally to stop movements by truck of "hot oil"

Designed originally to stop movements by truck of "hot oil" products in intra-State traffic through fines and confiscation of the seizures, an amendment was added to the first act which provided for the confiscation of an estimated total of 3,000,000 barrels of "hot oil" already in storage in East Texas. The measure defined "hot oil" and products as any and all oil and oil products manufactured from petroleum produced in violation of Railroad Commission allowables, or in violation of Railroad Commission regulations.

At the same time he signed these bills, Governor Allred disclosed that Laten Stanberry, chief of the oil and gas division of the Commission, had notified him that no East Texas refinery was running on "hot oil." One was opened on May 12, Mr. Stanberry said, but it was quickly closed and its operator and his employees isiled.

and its operator and his employees jailed.

The Railroad Commission has set hearings for May 24 at which new rules and regulations authorized under the laws will be enacted, with Attorney-General McGraw announcing that he intends to act immediately under his increased authority. He added that with "hot oil" stocks in East Texas rising rapidly in recent weeks, the seizure and sale of this oil at this time will mean more than \$1,000,000 revenue for Texas.

A total of more than 350,000 barrels of crude oil stored in earthen pits in the East Texas area was washed away last Saturday and Sunday by a Sabine River flood. The Attorney-General's department has obtained a Court order prohibiting storage of oil in open earthen pits, and has a temporary restraining order against such storage in power against two producers. Oil control and other States against against two producers. Oil control and other State agencies were planning to eliminate the fire hazard caused by the

washing of the crude into the Sabine River, it was announced.

A new permanent proration plan will be worked out for the Panhandle district, the Railroad Commission announced Wednesday following receipt of protests from operators in that area. One plan under consideration proposes that 90 days after the completion of a well the potential given by the Commission is to be cut 12½% on all wells 500 barrels and under. It provides that wells with a potential of 500 barrels and up to 3,000 barrels are to be cut on a graduated scale up

to 60%. Under the terms of a State Supreme Court ruling handed down in Austin Wednesday, hundreds of oil and gas lease holders of State public school lands will have to pay into the State treasury 50% of all back and future rentals, bonuses and royalties. The decision was in a case in which Magnolia Petroleum sought to compel the State Land Commissioner to reinstate a lease which he had forfeited because the company had failed to pay the State one half of this income

sioner to reinstate a lease which he had forfeited because the company had failed to pay the State one-half of this income. A total of approximately \$1,500,000 will be collected on outstanding leases immediately under the decision which held that the State has title to all minerals in 3,900,000 acres of public school lands, forfeited and repurchased from the State under the Act of 1925, and is entitled to 50% of the rentals, horses and revealing rentals, bonuses and royalties.

The petroleum industry is responding "wholeheartedly" to the American Petroleum Institute's stand for a minimum of Federal regulation and supervision, Axtell J. Byles, President, told delegates attending the midyear meeting of the Institute at Tulsa in mid-week.

'We are not opposed to some governmental aid," he atinued. "We favor the Government's help in conservation measures, but believe that the Connally bill provides necessary regulation and do not feel that more is needed."

Opposition to Federal regulation of the industry was voiced by Walter C. Teagle, President of the Standard Oil Co. of New Jersey, in the company's annual report.

"Proposals continue to be made contemplating the more or less complete regimentation of the industry under Federal control, the conversion of the industry to public utility. control, the conversion of the industry to public utility status by Congressional fiat, and the like," he said. "It is believed that such measures are unsound both legally and economically, and that the petroleum industry presents no problem which requires a departure from established constitutional principles or justifies its being singled out for treatment different from that accorded to other great private businesses.

"We look to our stockholders to support us in our conviction that the public welfare will best be served by the preservation of private ownership and private management

preservation of private ownership and private management, with open competition and the minimum of governmental domination," he concluded.

Administrator Ickes Thursday increased the June allowable production of crude oil 89,800 barrels daily to 2,651,000 barrels, against 2,561,200 barrels in May in order "to permit higher gasoline allowables to balance the seasonal increase in demand." Most changes in State allowables were increased, Texas being given an increase of 26,500 barrels in its quota, and California being lifted 18,500 barrels.

Changes in the allowable for June by States compared as follows:

Arkansas, up 400 to 30,700 barrels; California, up 18,500 to 512,700; Colorado, up 100 to 4,000; Illinois, off 300 to 10,700; Indiana, up 300 to 2,300; Kansas, up 5,900 to 154,300; Kentucky, up 200 to 14,700; Louisiana, up 20,100 to 132,300; Michigan, up 2,500 to 36,800; Montana, up 300 to 11,300; New Mexico, up 3,500 to 55,000; New York, off 900 to 11,000; Ohio, no change, 11,300; Oklahoma, up 14,000 to 514,200; Pennsylvania, off 1,800 to 42,700; Texas, up 26,400 to 1,059,300; West Virginia, no change, 11,000; Wyoming, up 600 to 36,700.

Reductions of 15 cents a barrel in Bradford and Allegheny grade crude and 10 cents in other Pennsylvania grade crude oils was posted Wednesday, the first reduction to be posted this year. In announcing the cut the South Penn Oil Co., the Tidewater Pipeline Co. and other buyers notified Bradford and Allegheny producers that takings under the ratable contracts are to be reduced to 90% of the stipulation. For several months, the buyers have been taking the full 100% allowed under the contracts.

allowed under the contracts.

Under the new price schedule, Bradford and Alleghany are posted at \$2.20 a barrel, effective May 16; Pennsylvania grade in Southwest Pennsylvania pipelines, \$1.92; in Eureka lines, \$1.87, and in Buckeye lines at \$1.77.

The United States cannot afford to waste its known reserves in competitive drilling or "uneconomic" production methods if it is to maintain its pre-eminience as a world producer, the "Lamp," house organ of the Standard Oil Co. New Jersey, says in its current issue. While this country still leads as an oil producer, its position is rapidly becoming less important. The 1934 contribution of the United States to the world output of approximately 60% was the lowest in 28 years, it was pointed out.

"An interesting factor," the organ continued, "is the appearance for the first time of Iraq, though its bulks small on the 1934 production chart. The famous pipe line from Kirkuk to the Mediterranaen was not complete until the latter part of the year, but in 1935 the output of Mosul

oil fields will be something to watch.
"While the slash in the United States' share in world oil markets was inevitable with the imposition of the oil import

markets was inevitable with the imposition of the oil import tax in June 1932, the present trend should give the industry something to think about," the magazine pointed out.

Spurting 125,700 barrels, daily average crude oil production in the United States for the week ended May 11 of 2,619,800 barrels was 58,600 barrels in excess of the Federal allowable of 2,561,200 barrels, reports made public by the American Petroleum Institute disclose. A year ago, output was 2,522,950 barrels for the like week.

Oklahoma and California led in the unturn, showing gains

Oklahoma and California led in the upturn, showing gains 64.250 and 56,600 barrels, respectively. Production of of 64,250 and 56,600 barrels, respectively. Production of 522,850 barrels in the former State compared with a quota of 500,200 barrels, while California output of 513,300 barrels compared with an allowable of 494,200. Texas was 600 barrels under its quota at 1,032,300 barrels despite an increase of 7,300 barrels.

Crude oil price changes follow:

May 15—A reduction of 15 cents in Bradford and Alleghany grade crude and 10 cents a barrel in other Pennsylvania grade crude oils was posted, effective May 16. Under the new schedule, Bradford and Alleghany are posted at \$2.20 a barrel; Pennsylvania grade in southwest Pennsylvania pipe lines at \$1.92; in Eureka lines at \$1.87, and in Buckeye lines at \$1.77

REFINED PRODUCTS-STANDARD OF INDIANA SEEKS TO BAR STANDARD OF JERSEY FROM ITS MARKETING TER-RITORY-SOCONY ADVANCES GAS IN METROPOLITAN YORK-JUNE GASOLINE ALLOWABLE RAISED-MOTOR FUEL STOCKS INCREASE

Feature of the week in refined petroleum markets was the suit filed by the Standard Oil Co. of Indiana against the Standard Oil Co. of New Jersey in Federal District Court in St. Louis seeking to bar the latter company from offering refined petroleum products for sale under the name of "Esso" in the 14 States in which Standard of Indiana markets its products

Indiana markets its products.

Pointing out that for 40 years it has sold petroleum products under the trade names "Standard," "Soco," "So" and others, and that it has expended millions of dollars in advertising to identify its products with the consuming public, Standard of Indiana charged that Standard of

Jersey, in placing the name "Esso" on its stations and products in St. Louis is seeking to take advantage of its advertising work.

Standard of New Jersey has proceeded to "appropriate, without expense, fraudulently and unfairly, the good-will, reputation, celebrity and public confidence which the plaintiff has built up," Standard of Indiana contended in its bill. The bill pointed out that the term "Esso" is merely a spelling of the letters "S" and "O" (ess and o), and whether spelled out as "esso" or written as the letters S-O, are identical in sound and meaning and that they are the initials of Indiana Standard's trade mark

the initials of Indiana Standard's trade mark.

Standard of Indiana Standard's trade mark.

Standard of Indiana also filed an objection to the fact that Standard of New Jersey is using red, white and blue as colors for its buildings, equipment and containers—the same color as it uses. While the suit is aimed primarily at the St. Louis situation (Standard of Jersey recently opened three service stations in that city), Standard of Indiana explained that it is seeking a restraining order for the 14 explained that it is seeking a restraining order for the 14

States in which it operates.

In the sixth consecutive advance since early in April, Socony-Vacuum Oil Co. Tuesday posted an increase of 0.3 cents a gallon in the retail price of gasoline in Greater New York, Long Island and Westchester County. The advance, effective May 15, lifted the service station price in Manhattan to 18.3 cents a gallon, State and Federal taxes included. The same level prevailed in Long Island but Brooklyn was 0.5 cent a gallon lower. The increase brought

Brooklyn was 0.5 cent a gallon lower. The increase brought the cumulative markup since April 10 when the movement started to 2.8 cents a gallon.

The company also lifted the tank-car price of gasoline 1/4 cent a gallon in New York City, which brought it to 63/4 cents a gallon for branded gasoline. The ocean terminal quotation at Bayonne, N. J., held unchanged at 61/2 cents. The advance was necessary to bring prices in line with the level maintained by Standard Oil Co., New Jersey, and covers the cost of moving the gasoline into New York City and nearby points for distribution.

Other markets continued strong although the anticipated advance in the Gulf Coast market has failed to develop as

advance in the Gulf Coast market has failed to develop as In the Midwest, the bulk gasoline market is strong with kerosene also in good shape in Chicago, due to well sustained demand for fuel for tractors planting late spring crops. Low-octane gasoline is well held at 45% to 43% cents a gallon, with regular posted at 53% to 5½ cents a gallon, refinery.

An increase of 1,070,000 barrels in the June gasoline allowable ordered by Administrator Ickes Wednesday lifted the total for next month to 37,490,000 barrels from the current 36,420,000 barrel level. Refinery gasoline inventories should be reduced 2,000,000 barrels during the month, the Bureau of Mines and Petroleum Administrative Board advised Administrator Ickes in recommending the

increased allowable. This order shall cease to be effective on June 16 in the event that legislation extending the effective period of the National Industrial Recovery Act is not enacted," Mr.

Ickes ruled.

Stocks of gasoline showed a contra-seasonal advance of 858,000 barrels to 53,880,000 during the week ended May 11, reports to the American Petroleum Institute indicated. In the previous week stocks dropped nearly 2,000,000 barrels. Reporting refineries operated at 69.6% of capacity, against 66.6% in the previous week, with daily average runs of crude oil to stills rising 114,000 barrels to 2,371,000 barrels

Representative price changes follow.

May 14—Socony-Vacuum Oil Co. advanced retail prices of gasoline 0.3 cents a gallon in Greater New York, Long Island and Westchester, effective May 15. The company also lifted New York City tank car prices ¼-cent to 6¾ cents a gallon, refinery.

May 17-Atlantic Refining Co. increased tank car prices of gasoline 14-cent a gallon at Philadelphia to 61/4 cents, refinery, for featured brand.

Crude Oil Production Rises 125,700 Barrels During

Latest Week The American Petroleum Institute estimates that the daily ave age gross crude oil production for the week ended May 11 1935 was 2,619,800 barrels. This was a gain of 125,700 barrels from the output of the previous week, and

was also above the Federal allowable figure of 2,561,200 barrels which became effective May 1. Daily average production for the four weeks ended May 11 1935 is estimated at 2,566,400 barrels. The daily average output for the week ended May 12 1934 totaled 2,522,950 barrels. Further details as reported by the Institute follow:

Imports of petroleum at principal United States ports (crude and refined oils), for the week ended May 11, totaled 966,000 barrels, a daily average of 138,000 barrels, compared with a daily average of 152,142 barrels for the week ended May 4 and 141,893 barrels daily for the four weeks ended

Receipts of California oil at Atlantic and Gulf Coast ports (crude and refined), for the week ended May 11, totaled 176,000 barrels, a daily average of 25,143 barrels, compared with a daily average of 16,714 barrels for the week ended May 4 and 16,071 barrels for the four weeks ended May 11.

week ended May 4 and 16,071 barrels for the four weeks ended May 11.

Reports received from refining companies owning 89.5% of the 3,806,000 barrel estimated daily potential refining capacity of the United States, indicate that 2,371,000 barrels of crude oil daily were run to the stills operated by those companies and that they had in storage at refineries at the end of the week, 34,949,000 barrels of finished gasoline; 5,970,000 barrels of unfinished gasoline and 96,426,000 barrels of gas and fuel oil. Gasoline at bulk terminals, in transit and in pipe lines amounted to 18,931,000 barrels.

Cracked gasoline production by companies owning 92.5% of the potential charging capacity of all cracking units, averaged 497,000 barrels daily

a Amount of unfinished gasoline contained in naphtha distillates. b Estimated. Includes unblended natural gasoline at refineries and plants; also blended motor fuel at plants. c Includes 34,782,000 barrels at refineries and 18,240,000 barrels at bulk terminals, in transit and pipe lines. d Includes 34,949,000 barrels at refineries and 18,931,000 barrels at bulk terminals, in transit and pipe lines.

April Anthracite Shipments 63.12% Above Preceding Month but 0.11% Below April 1934

Shipments of anthracite for the month of April 1935, as reported to the Anthracite Institute, amounted to 4,168,364 net tons. This is an increase as compared with shipments during the preceding month of March of 1,613,104 net tons, or 63.12%, and when compared with April 1934 shows a decrease of 4,746 net tons, or 0.11%. Shipments by originating earriers (in net tons) are as follows:

	A pril 1935	March 1935	A pril 1934	Матсh 1934

March World Lead Production Higher

World lead production during March totaled 128,169 short tons according to figures recently released by the American Bureau of Metal Statistics. During the preceding month—February—a total of 125,554 tons were produced while during March 1934 output reached 127,938 short tons.

The average daily world output during March 1935 was estimated at 4,134 short tons. This compares with 4,484 tons daily in February and 4,140 tons daily in March last year

The following table gives in short tons lead production of the world allocated so far as possible to country of origin of the ore.

	March 1935	Feb. 1935	March 1934
United States	30.118	25,103	31,379

Soft Coal Production Up 5.3% in Week—Anthracite Continues Decline

The Weekly Coal Report of the United States Bureau of Mines stated that the total production of soft coal during the week ended May 4 is estimated at 5,086,000 net tons, an increase of 256,000 tons, or 5.3% over the output in the preceding week. This is in comparison with 6,174,000 tons produced during the corresponding week in 1934.

Production of anthracite in Pennsylvania during the week ended May 4 is estimated at 909,000 net tons. Compared with the output in the preceding week, this shows a decrease of 180,000 tons, or 16.5%. Production during the week ended May 5 1934, amounted to 1,361,000 tons.

During the calendar year to May 4 1935 a total of 135,-564,000 net tons of bituminous coal and 18,582,000 net tons of anthracite were produced. This compares with 132,530,000 tons of soft coal and 24,178,000 tons of hard coal produced in the same period of 1934. The Bureau's statement follows:

ESTIMATED UNITED STATES PRODUCTION OF COAL AND BEEHIVE COKE (NET TONS)

a Coal taken from under the Kentucky mountains through openings in Virginia is credited to Virginia in the current reports for 1935, and the figures are therefore not directly comparable with former years. b Includes operations on N. & W.; C. & O.; Virginian; K. & M., and B. C. & G.; and on the B. & O. in Kanawha, Mason and Clay Counties. c Rest of State, including Panhandle District and Grant, Mineral and Turker Counties. d includes Arizona, California, Idaho and Oregon. e Includes Sullivan County, washery and diedge coal, local sales and

colliery fuel and coal shipped by truck from established operations. Does not include an unknown amount of "bootleg" production. f Average weekly rate for the entire month. p Preliminary. r Revised. s Alaska, Georgia, North Carolina and South Dakota included in "other Western States."

Steel Rate Is Off but Scrap Advances Again

The May 16 issue of the "Iron Age" stated that steel production and scrap prices have again moved in opposite directions, output declining from 45½ to 44½% of capacity and the "Iron Age" scrap index rising from \$10.58 to \$10.67 a ton. Swelling export demand, rather than domestic market conditions, accounts for the strength of scrap. Pittsburgh and Chicago prices are unchanged but at Philadelphia, closest to seaboard, the market for heavy melting steel has been lifted 25c. a ton. The "Age" further stated:

Operating trends in steel centers, notwithstanding the decline of one point in the national average, are both conflicting and uncertain. The Pittsburgh rate has been lifted one point to 36%, but the gain, which was due mainly to the rolling of the Erie rail order, is regarded as temporary. In the Chicago district, where farm equipment output is threatened by a fresh outbreak of strikes, the ingot rate is off 1½ points to 52%. In the Cleveland-Lorain area there has been a further recession of two points to 43%, and in the South operations have dipped 5½ points to 50%.

In the Valleys, where production is unchanged at 51%, and at Cleveland, operations may be lifted before the end of the week by the release of orders

In the Valleys, where production is unchanged at 51%, and at Cleveland, operations may be lifted before the end of the week by the release of orders that have been under suspension because of labor difficulties in the automobile industry. Events alone can disclose how sharp this rebound will be, since it is believed that part of Chevrolet's prospective business was lost to competitors during the strike period. It is perhaps significant that recent steel releases from both Ford and Chrysler have been larger than anticipated.

A strike at an Eastern shippard is holding up work on seven Navy vessels and one oil tanker, representing a total value of about \$40,000,000. A walkout in the Gogebic iron range which was scheduled for May 13 failed to take place. Petitions opposing the strike were signed by 96% of the miners employed by the Oliver Iron Mining Co. Steel Corp. subsidiary.

to take place. Petitions opposing the strike were signed by 96% of the miners employed by the Oliver Iron Mining Co., Steel Corp. subsidiary. The filing of iron and steel prices next Tuesday (May 21) for third quarter delivery is expected to disclose few, if any, deviations from current quotations. The view that price schedules will be generally reaffirmed rather than advanced is supported by the extension of present prices of rails and track spikes to Sept. 1 for deliveries until Dec. 31.

Tin plate mills are maintaining production at 80 to 85%. Leading can manufacturers are still planning for a peak year in packing. Domestic business in beer cans is now being supplemented by foreign demand for this new type of container. Sheet and strip mill operations are only moderately lower at 55 to 60% and 45% respectively. Pipe mills, benefiting by a gradual improvement in home building, are running at 40 to 45%. Cold-finished bar makers are booking increased business from manufacturers of machine tools and business machines.

Structural steel awards of 6,700 tons compare with 10,200 tons in the

Structural steel awards of 6,700 tons compare with 10,200 tons in the previous week and 15,250 tons a fortnight ago. New projects total 18,125 tons as against 6,000 tons a week ago. A Wabash Railway bridge will require 8,000 tons, while the Manhattan approach of the 38th St. tunnel under the Hudson will call for a total of 5,000 tons, including reinforcing bars and miscellaneous steel items. New sheet steel piling projects, at 12,000 tons, embrace 9,000 tons for the Fort Peck, Mont., dam and 1,700 tons for a sea wall at Monroe, La.

Construction steel awards to date this year, including structural steel, plates, plling and reinforcing steel, total 404,063 tons as against 468,987 tons in the corresponding part of 1934. Large Federal-aid projects, however, are now being pushed to the contracting stage.

ever, are now being pushed to the contracting stage.

Railroad buying continues to lag far behind that of a year ago, though it is hoped that the Supreme Court's decision in the pension case will cause carriers to adopt a more liberal attitude toward purchases. The Delaware, Lackawanna & Western has ordered 850 tons of tie plates.

Discounts on cap and set screws have been advanced. Boat spikes have been placed on a nail base, reducing quotations 10 to 20c. per 100 lb.

The "Iron Age" composite price for finished steel is unchanged at 2.124c. a lb. Adjustments for the freight surcharge have brought the pig iron composite down to \$17.83 from \$17.90 a ton.

The American Iron and Steel Institute on May 13 announced that telegraphic reports which it had received indi-

cated that the operating rate of steel companies having 98.7% of the steel capacity of the industry will be 43.4% of the capacity for the current week, compared with 42.2% last week, 44.0% one month ago, and 56.6% one year ago. This represents an increase of 1.2 points, or 2.8%, from the estimate for the week of May 6. Weekly indicated rates of steel operations since May 7 1934 follow:

1934-	1 1934-	1934-	1935

	% Nov. 12 27.3%	Feb. 1150.8%	

"Steel of Cleveland, in its summary of the iron and steel markets, on May 13 stated:

Notwithstanding a sharp decline in automobile output, and due mainly to recent awards for Government projects, steelworks operations last week reversed the recent trend and advanced ½-point to 44½%.

That Chevrolet not only expects to get back into production shortly, but also to recoup some of its loss, is indicated by releases to manufacture materials and parts, with instructions to hold them ready for immediate

shipment.

This, in itself, however, was not a determining factor, as sheet and strip output showed further recessions; full-finished sheets down 2 points to 56%; strip, 3 to 44. Total automobile assemblies for the week were 87,000, compared with 110,000 in the preceding week, lowest since the week ended March 9. General Motors' was off about 18,000 units; Ford, 5,000.

Little change was noted in the labor situation as it pertained to iron and steel. Strike threats were aimed at some Eastern ishipyards and at the Labo Superior from ore industry, and even one or two of the steel plants.

and steel. Strike threats were aimed at some Eastern shipyards and at the Lake Superior iron ore industry, and even one or two of the steel plants, but in general steelmakers considered these demonstrations as a gesture to coerce Congress on the Wagner and 30-hour labor bills. In industries unhampered by labor difficulties production has been going along at a fairly steady rate. Tin plate mills increased operations 5 points to 80%. Tractor plants are working on heaviest schedules since 1929.

Steelmakers are confronted with one of the most difficult price problems since they adopted a code—what to do May 21 for third quarter. Penalized by freight surcharges, affecting as many as five tons of raw materials for one ton of some finished steel products, they feel they would be justified in at least a moderate increase.

in at least a moderate increase

But after four months' operations in the profit zone, they now face the the prospect of slowly-declining activity until the Government's work gets under way in the fall—unlike last year when steelworks operations at this

time were at a strong 60%.

If prices are advanced, it is believed relatively few products will be adjusted, and not sufficiently to cause much speculative buying. Consumers undoubtedly would be determined to hold off to see if the price-control provision in the code is abolished when National Recovery Administration explaints.

ministration expires June 16.
Under the first allotment made by the President's Advisory Committee. \$400,000,000 of the \$4,800,000,000 works relief money has been set aside

for highways and grade crossings, tending to promote early action on many projects. Last week only 7,625 tons of structural shapes were awarded. Erie railroad placed 20,000 tons of rails and accessories. Rail purchases this year have amounted to 182,995 tons, little more than two-thirds tonnage in the same period in 1934, when the Government was urging loans on the carriers. Domestic freight car orders last month, 350, brought the total for four months to 1,180, compared with 20,707 in the first four last year.

Despite short-range fluctuations, steel ingot production for four months this year, 11.013.306 gross tons, holds its 12% gain over the comparable period in 1934, this percentage being almost indentical with the increase the full year 1934 showed over 1933. Daily average output in April, 100,243 tons, as well as the total for the month, 2,606,311 tons, was 7.9% below

Steelworks operations in the Chicago district last week advanced 11/2 points to 52½; New England, 16 to 46; Buffalo, 3 to 30; Wheeling, 2 to 81. Pittsburgh was down 1 to 36; Cleveland, 3 to 51; eastern Pennsylvania, 1/2-point to 28. Youngstown was unchanged at 50; Detroit, 82; Birming-

ham, 54 \(\frac{1}{2}\).

"Steel's" iron and steel price composite is up 4c. to \$32.34 due to freight surcharges and scrap; the scrap index has risen 29c. to \$10.29, while the finished steel composite remains \$54.

Steel ingot production for the week ended May 13 is placed at 45% of capacity, according to the "Wall Street Journal" of May 16. This compares with 44½% in the previous week and 46% two weeks ago. The "Journal" further stated:

U. S. Steel is estimated at 41%, against 40% in the week before, and 42% two weeks ago. Leading independents are credited with 48%, compared with 48% in the preceding week and $49\frac{1}{2}\%$ two weeks ago. The following table gives a comparison of the percentage of production with the nearest corresponding week of previous years, together with the approximate changes, in points, from the week immediately preceding:

	Industry	U. S. Steel	Independents
1935	45 + ½	41 +1	48
1934	59 + 2	45 +2	70 +2
1933	34½ +2	29½ +2	40 +3
1931	46 +1	48 +1	45 +1

d 10 Points in Week Foreign Copper Active

"Metal and Mineral Markets" in its issue of May 16 said politicians and business men, the market for major non-ferrous metals continues to give a rather good account of itself. The volume of business booked in the last week was that despite the more or less strained relations between satisfactory, and prices ruled firm. Lead quotations were

raised 10 points in the last seven days, and zinc moved up five points. Copper producers here were favorably impressed by the activity in the foreign field. Silver moved higher, following the address by Secretary Morgenthau on the American dollar. In his talk he said little about the metal, but stated that "we are also endeavoring to restore silver to greater usefulness as a monetary metal." Metal and Mineral Markets" further added:

Foreign Copper Strong

Trading in copper abroad again was active, and prices moved higher almost daily in the week that ended May 15. Compared with a week ago, "Metal and Mineral Markets" export quotation scored a net gain of 30 points. Prices, as in previous weeks, covered a wide range daily. May 15

points. Prices, as in previous weeks, covered a wide range daily. May 15 witnessed a substantial volume of selling in London that was generally attributed to profit taking. This was easily absorbed at only a moderate recession from the high for the week. Sales on May 15 were reported at prices ranging from 8.05c. to 8.15c., c.i.f. usual ports of destination. Domestic demand for copper products improved, based on sales of the metal. Sales of "Blue Eagle" copper for the week totaled 8,293 tons, against 5.416 tons in the preceding week. Brass business has been less active than earlier in the year, but the slack seems to have been taken up by moderate expansion in other lines that consume copper. Current business in copper is better than trade experts predicted. The price continued on the basis of 9c., Valley.

9c., Valley.

United States deliveries of copper averaged slightly more than 37,000 short tons a month over the first quarter of the current year. Canada's consumption of copper in the same period averaged 2,000 tons a month.

According to the Dominion Bureau of Statistics, Canada produced 37,828,906 lb. of copper during March, which compares with 33,467,044 lb. in February and 33,480,418 lb. in January. Production of copper in Canada during the first quarter of 1935 totaled 104,776,368 lb., against 81,863,027 lb. in the same period last year and 62,037,925 lb. in the Jan.-March period 1933. Output for March of this year establishes a new high monthly Output for March of this year establishes a new high monthly total for Canada.

Deliveries of copper for consumption outside of the United States and Canada averaged 82,231 metric tons a month during the first quarter of the current year, based on figures compiled by the American Bureau of Metal Statistics. This compares with a monthly average for all of 1934 of 77,345 metric tons by the same group of countries, and an average of 62,625 metric tons during 1933. Deliveries abroad, by countries, in metric tons, follow:

Great Britain France Germany Italy Japan Austria Czechoslovakia Hungary Netherlands Poland Sweden Switzerland	Average per Month 1934 18,293 7,557 18,416 5,217 9,374 1,492 718 443 903 3,061 1,207	Average Last Three Months a 18.612 9.171 17.340 8.113 10.720 1.113 1.142 1.130 168 549 3.098 1.175
Switzerland Other Europe Elsewhere	8.000 1,900	8.000 1.900
Totals	77 945	92 221

a Monthly averages in most instances refer to the first three months of 1935.

Lead at 3.85c., New York

Sales of lead during the last week showed improvement and encouraged producers to advance prices on two occasions. On May 13 sellers announced a five point advance, establishing the price at 3.80c., New York, and 3.65c., St. Louis. These prices held until May 15, when another five point advance brought the New York quotation to 3.85c., and St. Louis at 3.70c. Both revisions were first announced by St. Joseph Lead. American Smelting & Refining Co.'s published quotation for common desilverized lead was advanced on May 13 to 3.80c., New York, and to 3.85c. on May 15.

Demand was chiefly for June shipment lead, though a fair tonnage of metal for delivery this month was included in the tonnage sold. Sales for the week exceeded 5,000 tons. Corroders, battery makers, and sheet and pipe manufacturers were the most active buyers.

Zinc at 4.25c. Asked

Buying of zinc was not quite so active as in the preceding week, but suffi-cient business was booked to make sellers take a very firm view of the market. The labor difficulties in the Tri-State district disturbed some producers and served further to strengthen the situation. Sales for the week that ended May 15 totaled around 5,000 tons. Virtually all of the business was booked on the basis of 4.20c., St. Louis. On May 15's quotation there was some confusion. Most sellers advanced to 4.25c. asked early in the day, but there were others who continued to book business on the old basis. Later in the day, however, the market was 4.25c. asked all around.

Tin Market Quiet

Except for some moderate trading on the first day of the week, the market showed little change. The trend was slightly upward in London, in sympathy with other metals. Opposition to the McReynold bill is growing

in local tin-importing circles.

Chinese tin, 99%, was quoted nominally as follows: May 9th, 49.40c.; 10th, 49.55c.; 11th, 49.65c.; 13th, 49.65c.; 14th, 49.65c.; 15th, 49.80.

Emergency Crop Loans Issued to Over 250,000 Farmers, According to Norman Monaghan of FCA

Over 250,000 farmers have received emergency crop loan checks during the past 30 days, according to a statement issued in Washington, D. C., May 8, by Norman Monaghan, Chief of the Emergency Crop and Feed Loan Section of the Farm Credit Administration. Mr. Monaghan said:

The regional offices have set a new record for handling a peak number of farmers' applications within a short time, having made most of the loans within 24 to 48 hours after the applications were received. Within a little over a month after the fund was made available by Congress, the rgest part of the demand for emergency crop loans has been handled.

During the closing days of April loan checks were going out at the rate of over 20,000 a day, and the peak has now probably passed. The volume has declined to about 10,000 daily. The emergency loans are being used to meet the maximum number of needs, especially in the middle strip of States through the drought area.

The emergency crop loan fund appropriated by Congress in March is being used to make loans to farmers who do not have other sources of credit.

Current Events and Discussions

The Week with the Federal Reserve Banks

The daily average volume of Federal Reserve bank credit outstanding during the week ended May 15, as reported by the Federal Reserve banks, was \$2,485,000,000, an increase of \$14,000,000 compared with the preceding week and of \$3,000,000 compared with the corresponding week in 1934. After noting these facts, the Federal Reserve Board proceeds as follows:

On May 15 total Reserve bank credit amounted to \$2,473,000,000, an increase of \$7,000,000 for the week. This increase corresponds with an increase of \$64,000,000 in member bank reserve balances and a decrease of \$2,000,000 in Treasury and National bank currency, offset in part by an increase of \$9,000,000 in monetary gold stock and by decreases of \$2,000,000 in money in circulation, \$37,000,000 in Treasury cash and deposits with Federal Reserve accounts.

Relatively, await charges are accounts.

Relatively small changes were reported in holdings of discounted and purchased bills and industrial advances. An increase of \$11,000,000 in holdings of United States bonds was offset by decreases of \$10,000,000 in holdings of Treasury bills and \$1,000,000 in United States Treasury notes.

Beginning with the week ended Oct. 31 1934, the Secretary of the Treasury made payments to three Federal Reserve banks in accordance with the provisions of Treasury regulabanks in accordance with the provisions of Treasury regulation issued pursuant to subsection (3) of Section 13-B of the Federal Reserve Act, for the purpose of enabling such banks to make industrial advances. Similar payments have been made to other Federal Reserve banks upon receipt of their requests by the Secretary of the Treasury. The amount of the payments so made to the Federal Reserve banks is shown in the weekly statement against the caption "Surplus (Section 13-B)" to distinguish such surplus from surplus derived from earnings, which is shown against the caption "Surplus (Section 7)."

The statement in full for the week ended May 15, in com-

The statement in full for the week ended May 15, in comparison with the preceding week and with the corresponding date last year, will be found on pages 3340 and 3341.

Returns of Member Banks in New York City and Chicago—Brokers' Loans

Below is the statement of the Federal Reserve Board for the New York City member banks and also for the Chicago member banks for the current week, issued in advance of full statements of the member banks, which latter will not be available until the coming Monday. The New York City statement formerly included the brokers' loans of reporting member banks and showed not only the total of these loans but also classified them so as to show the amount these loans but also classified them so as to show the amount loaned for their "own account" and the amount loaned for "account of out-of-town banks," as well as the amount loaned "for account of others." On Oct. 24 1934 the statement was revised to show separately loans to brokers and dealers in New York and outside New York, loans on securities to others, acceptances and commercial paper, loans on real estate, and obligations fully guaranteed both as to principal and interest by the United States Government. This new style, however, now shows only the loans to brokers and dealers for their own account in New York and outside of New York, it no longer being possible to get the amount loaned to brokers and dealers "for account of out-of-town banks" or "for the account of others," these last two items now being included in the loans on securities to others. The total of these brokers' loans made by the reporting member banks in New York City "for own account," including the amount loaned outside of New York City, stood at \$826,000,000 on May 15 1935, remaining the same as the previous week. This new style, however, now shows only the loans the same as the previous week.

Complete Returns of the Member Banks or the Federal Reserve System for the Preceding Week

As explained above, the statements of the New York and Chicago member banks are now given out on Thursday, simultaneously with the figures for the Reserve banks themselves and covering the same week, instead of being held until the following Monday, before which time the statistics covering the entire body of reporting member banks in the control of the reserve the compiled. in 91 cities cannot be compiled.

In the following will be found the comments of the Federal Reserve Board respecting the returns of the entire body of reporting member banks of the Federal Reserve System for the week ended with the close of business May 8:

The Federal Reserve Board's condition statement of weekly reporting member banks in 91 leading cities on May 8 shows decreases for the week of \$171,000,000 in total loans and investments, \$171,000,000 in net demand deposits, \$17,000,000 in time deposits and \$71,000,000 in Government deposits, and an increase of \$24,000,000 in reserve balances with Federal

Loans on securities to brokers and dealers in New York declined \$62,000,-000 at reporting member banks in the New York district and at all reporting member banks; loans to brokers and dealers outside New York declined \$5,000,000 each in the Boston and Chicago districts and \$14,000,000 at all \$5,000,000 each in the Boston and Chicago districts and \$14,000,000 at all reporting member banks; and loans on securities to others declined \$8,000,-000 in the New York district, \$6,000,000 in the San Francisco district and \$21,000,000 at all reporting banks. Holdings of acceptances and commercial paper bought in open market and real estate loans showed little net changes for the week; and 'other loans' declined \$19,000,000 in the New York district. \$5,000,000 in the Boston district and \$19,000,000 at all reporting member banks, and increased \$5,000,000 in the Cleveland

Holdings of United States Government direct obligations declined \$71,-000,000 in the New York district, \$9,000,000 in the San Francisco district and \$6,000,000 in the Philadelphia district, and increased \$30,000,000 in the St. Louis district, \$14,000,000 in the Boston district, \$12,000,000 in the Dallas district and \$11,000,000 in the Chicago district, all reporting member banks showing a net reduction of \$25,000,000 for the week; holdings of obligations fully guaranteed by the United States Government declined \$3,000,000; and holdings of other securities declined \$35,000,000 in the New York district and \$25,000,000 at all reporting member banks.

Licensed member banks formerly included in the condition statement of member banks in 101 leading cities, but not now included in the weekly statement, had total loans and investments of \$1,253,000,000 and net demand, time and Government deposits of \$1,457,000,000 on May 8, compared with \$1,233,000,000 and \$1,421,000,000, respectively, on May 1.

A summary of the principal assets and liabilities of the reporting member banks, in 91 leading cities, that are now included in the statement, together

Leon Fraser, Retiring as President of Bank for International Settlements, Urges International Currency Stabilization as Step to Aid Recovery—Blames British Monetary Policy and United States Silver Program for Prolonging Uncertainties

International currency stabilization should be the first step taken to aid world recovery, Leon Fraser, President of the Bank for International Settlements, declared in the bank's annual report which he transmitted to the general assembly in Basie, Switzerland, on May 13. Mr. Fra-ser, who is retiring as head of the institution, said that under present world conditions a general return to gold would act to raise rather than to lower prices. The report sharply criticized the silver policy of the United States, but at the same time blamed the British monetary policy as the chief factor prolonging international currency uncertainties.

Mr. Fraser based his contention that a return to gold would result in rising prices on such factors as the large current annual gold production, the nominal gain in monetary gold stock serving as a credit base as a result of revalu-

ation, and the present low levels of world gold prices.

A wireless dispatch to the New York "Times" from Basle summarized other principal features of the report as follows:

The report also gives figures showing that the world's foreign debt load has been reduced 60% since the end of 1930 as regards shorter-term obligations, and "in very substantial degree" as regards long-term ones, while conversions have lightened the domestic long-term debts.

"There can be very little hope of a return to freer trade as long as the present monetary uncertainty prevails," Mr. Fraser says. "The cause of the evil must be removed before the evil itself can be overcome."

He stresses that stabilization preceded tariff reductions in post-war recovery. During the year, he reports, the world "disorder has become

recovery. During the year, he reports, the world "disorder has become intensified." Among the reasons he stresses are French and American gold hoarding, the American silver policy, the devaluation of the belga and, above all, the British pound policy. He not merely rejects the main tenets of British policy but makes a detailed technical criticism of it to show that a currency lacking in gold points is peculiarly "vulnerable." He shows in an unusually vivid graph how in every year since 1931 the pound's level has sunk.

The report, which is Mr. Fraser's farewell to the World Bank, is the strongest and most informative on the world situation that has been issued. The growth of the bank's function as a center of world information is reflected in the fact that the report devotes 57 pages and 20 tables and graphs to world problems against 36 pages, five no graphs last year, and no world tables and graphs in the 1931 report,

The contents further reflect the development of the bank's unrivaled sources of confidential information and of its own independence of view, which in a number of respects not merely shares the generally critical attitude of central bankers toward commercial bankers, but is more liberal than any of its members, whose own secrecy it criticizes.

It is noteworthy that Mr. Fraser and the bank reach the same conclu-

sion as Harold Butler, and the International Labor Office announced in a recent report that national efforts toward recovery now, to quote Mr. Fraser, "threaten to become topheavy," while the world disorder has worsened. Both use unemployment as a yardstick, Mr. Fraser saying:

Many Jobless Remain

"When the internal improvement made in some countries with depreciated currencies is summed up it will be found that the number of unemployed is still twice as high as in 1927 and 1928, when these countries, under the regime of the gold standard, enjoyed the advantage of stable foreign exchange rates."

noteworthy that Mr. Fraser also shares the view of the Economic Committee of the League of Nations that the world problem is really the problem of an Anglo-Franco-American agreement. After pointing out that now 23 currencies are kept in a stable relation to gold, against the same

now 23 currencies are kept in a stable relation to good, against number tied to sterling, Mr. Fraser says:

"For practical purposes, the main problem in bringing about further exchange stability in the world has reduced itself to the question of achieving a stable relation between sterling on the one hand and the dollar and French franc linked to gold on the other."

The report includes an illuminating study of the American silver

The report includes an illuminating study of the American silver

The report includes an illuminating study of the American silver policy, its effects and prospects, concluding:

"Had there been any genuine demand for silver internationally, as there is for gold, there would have been no need for the adoption of special action in the United States to help silver. The policy pursued may somewhat reduce the demand on the gold market, and may supplement the already high gold reserve cover for the purpose of internal expansion, but there is no evidence to justify a conclusion that such a policy would produce a fundamental change in the monetary position of silver as looked at from the international point of view."

Silver Purchase Policy

According to the report the United States has now gone only a fourth of the way she needs to go to bring silver to \$1.29 an ounce. The report holds that this is likely to involve her acquiring 1,100,000,000 ounces beyond the 317,000,000 acquired in 1934, which is nearly double the 1934 world production. It stresses that the American policy has resulted in the first real price declines experienced for generations in China, where they "consequently will have to be followed by far-reaching readjust-ments in many fields."

Among the other facts and figures with which the report is studded the following stand out:

Excluding Russia, the world gold coverage "as a result of currency depreciation" rose from 48% in 1929 to 70% at the end of 1934.

The rise of American costs and prices while those in Great Britain remained stationary has now wiped out the difference between the two levels that existed during the World Economic Conference, which the British have been urging as a reason against stabilizing at a rate of \$4.86 to the round.

"On the gold basis the present British price level is about 15% below

"On the gold basis the present British price level is about 15% below the previous lowest point ever recorded since 1800," says the report.

"Though the gold value of world trade has sunk 60% since 1929, the volume is down only 25% and still equals that of 1913.

"In 1934, for the third year in succession, the production of gold created a new record, attaining an amount estimated at 27,100,000 fine ounces. Russia nearly doubled her production and is now the world's second gold producer, a result being that Russia has reduced her short-term foreign debt from 2,300,000,000 Swiss francs [\$643,590,000] to an almost negligible amount. almost negligible amount.

"Gold now hoarded on private account throughout the world is estimated to total 7,000,000,000 Swiss francs (\$2,163,100,000)), of which half the hoard, excluding the Orient is held in London bank vaults largely for

"Heavy American capital withdrawls from Europe continued in 1934 attaining 209,000,000 marks (\$84,039,000) in Germany."

\$60,000,000 of Bonds Offered by Canada—Issue Reported Over-subscribed

An offering of \$60,000,000 of Dominion of Canada bonds, for which the subscription books were opened on May 15, was announced on May 16 by the Canadian Finance Department as having been over-subscribed. The offering was announced on May 14 by E. N. Rhodes, Minister of Finance, according to Ottawa advices to the New York "Sun" of May 14 which also said: May 14, which also said:

Investors will have the choice of two maturities, 8-year bonds due June 1 1943, or 20-year bonds due June 1 1955. The 8-year bonds will carry interest coupons at rate of $2\frac{1}{2}$ % and be sold at 99.50 and interest, yielding 2.57%. The 20-year bonds will carry interest coupons at 3% per annum and be sold at 98.50 and interest, yielding 3.10%. The 8-year bonds are noncallable and the longer-term issue callable at par on June 1 1950, or any interest payment date thereafter. Proceeds will be used for general purposes of Government.

Sir Josiah Stamp Says United States Is in Economic Jam Because It Sought to Combine Reform with Recovery—Economist Dealers Unbalanced Budget May Be Psychologically Wrong

Because the United States is attempting to combine reform with recovery, it has resulted in an "economic jam," Sir Josiah Stamp, British economist and railroad magnate, said on May 11 in an article copyright by the North American Newspaper Alliance. Americans, seeking the answer to the questions of "rescue, recovery and reform" in 1933, failed to take into account the correct timing of the measures, and

instead tried to do all these things at once, he contended.

Reform, which might better have waited until recovery had had occurred," he said, "has cluttered up the program and has made it more difficult of accomplishment." Further extracts from Sir Josiah's article are given below:

The greatest economic danger in the United States and Great Britain to-day, according to my observations is psychological. This lies in the fostering of the theory that the people should look to the Government for support. There is also a new form of economics justly called the "think up a number" theory. You think what you would like men to get and then try to give it to them. More and more promises are made to the people until they become educated to the belief that all such gifts, and more, can be delivered.

Americans are not naturally Socialists. People in this country believe in the individual motive in economics. But there is widespread belief here in the idea of "priming the pump." Our British experience has been that you must preserve a substantial differential between the wages of men on relief projects and the wages of men employed by private industry if you are to lead public relief work into the growth of private business.

In England we have found men on the dole computing the difference between their dole payments and what they would get in private work. I heard recently of a man contrasting \$15 in dole payments with \$18 for private work, and figuring: "What's the use of working for \$3?"

As for the unbalanced budget of the United States Government at present

—that would not worry me particularly. But there are two aspects to the situation. An unbalanced budget may be mechanically correct, but it may But there are two aspects to the at the same time be psychologically wrong. You can continue your unbalanced condition longer than European nations because your people are not so easily alarmed, but when your public psychology does change—

the moment you do lose—great is the fall thereof.

It is essential that you should know how long this program is to last and what it is for. You will run great risks if the program is long and indefinite.

Speakers in 5 Nations Appeal for World Peace in Inter-national Broadcast—Program Honors Jane Addams —Disarmament Held Most Important Step

An international radio broadcast, in which prominent citizens in five countries spoke in the cause of world peace and friendship, was held on May 3 in honor of Jane Addams, welfare worker, under the auspices of the Women's International League for Peace and Freedom, which was celebrating its twentieth anniversary. Mrs. Harold L. Ickes, wife of the Secretary of the Interior, opened the program. One of the speakers was Mme. Krupskaya, wife of Nicolai Lenin, first head of the Russian Soviet Union, who spoke from Moscow, and who declared that complete disarmament is the only guarantee of peace. A dispatch of May 3 to the

New York "Herald Tribune" described other parts of the program as follows:

Mme. Krupskaya was introduced from Washington by Alexander A. Troyanovsky, Soviet Ambassador, and her words were translated at Moscow by Mme. Maxim M. Litvinov, wife of the Soviet Commissar for Foreign Affairs.

The speakers in London included Viscount Cecil, who reported that a The speakers in London included Viscount Cecil, who reported that a poll of all citizens over eighteen in Britain was showing that 97% favored the League of Nations and 93% wanted general reduction of arms and opposed manufacture of arms for profit. Arthur Henderson, President of the Disarmament Conference, also in London, warned of the danger of "slipping back into the policy and methods which resulted in the great war," such as bigger and more destructive armaments. They were introduced by Sir Ronald Lindsay, British Ambassador.

Tokio Prince Asks Peace Efforts

Hirosi Saito, Japanese Ambassador here, introduced Prince Tokugawa, President of the Japanese-American Society in Japan, who called for the co-ordination of all peace movements. Jules Henry, Charge d'Affaires of the French Embassy here, introduced Senator Paul-Boncour, former Prime Minister of France, who said: "Dark clouds appear on the horizon; the disarmament conference has failed; treaties are being torn up; the armament race is being started again." He called for action to head it off. Norman Davis, American Ambassador at Large, and Josephine Roche, Assistant Secretary of the Treasury, also spoke, and Miss Addams con-

Assistant Secretary of the Treasury, also spoke, and Miss Addams concluded the program, congratulating the Women's League for its aid in trying to substitute law for war.

Belgium to Convert Government Bonds to Interest Basis of 4%

The Belgium Government announced on May 11 a conversion operation placing all Government bonds on a 4% interest basis. In United Press advices from Brussels, May 11, to the New York "Sun" of that date, it was also stated:

Holders of bonds whose issues bear a higher interest yield than the new Government rate will be compensated partially by a bonus on the basis of the difference between the interest on their present coupons and the new

Bondholders will not be compelled to accept the conversion, but all bonds, which have not been converted and stamped by the Central Bank of Belgium before next Friday will be refused trading privileges on the

Stability of the new bonds will be insured by a Government fund of 1,000,000,000 Belgian francs (approximately \$33,850,000).

The Government operation will pare the interest on 22 issues. Most of the bonds thus affected were issued after 1919, only 2 issues prior to that time having been placed at a rate greater than 4%

"Financial and Economic Review" of Amsterdamsche Bank, N. V., of Amsterdam, Holland

The forty-third issue of the "Financial and Economic Review" of the Amsterdamsche Bank, N. V., of Amsterdam, Holland, published quarterly by the bank's statistical department, was issued recently. The "Review" contains a partment, was issued recently. The "Review" contains a detailed report on all circumstances that have been of influence on the financial and economic conditions of Holland during the first quarter of the year 1935. It is, moreover, usually preceded by an article written by some authority on the subject dealt with. This time an article has been inserted written by C. J. P. Zaalberg, managing director of the Society for the Promotion of the National Shipping Interests (B. E. N. A. S.), Ltd., and member of the Economic Council of the Netherlands, entitled "Merchant Shipping in the Netherlands."

China Protests Against United States Silver Policy-Reported as Causing Severe Drain on Reserves

The Chinese Ministry of Finance said on May 12, according to Associated Press advices from Shanghai, that the silver purchasing policy of the United States is causing a severe drain on China's silver reserves and a sharp contraction of the nation's currency and credit. The advices, appearing in the New York "Times" of May 13, continued:

China's economic welfare has continued to decline since the world depression and "especially since the American silver policy raised silver above general commodity prices," said an official report on the two preceding fiscal years, signed by Dr. H. H. Kung, Finance Minister:

It painted a generally gloomy picture of China's finances. Dr. Kung disclosed that the National Government had reached "the unfortunate resistant" of beginning forced and the contract to describe the temperature.

position" of being forced each year to depend upon its borrowings to meet current expenditures.

He said military expenses took virtually half the Government's revenues. There was a deficit of nearly 100,000,000 Mexican dollars for the fiscal year 1932-33 and of nearly 150,000,000 Mexican dollars for the 1933-34 period. Dr. Kung said he feared an even higher deficit for the current fiscal year.

Exports of Silver Prohibited by Italian Decree

Exportation of silver from Italy in any form whatever was prohibited by a decree published May 13 in the official gazette, said Associated Press advices, May 13, from Rome, which

Travelers going abroad will be permitted to take out not more than 50 lire (about \$4) in silver. Sending out of the metal in ingots, lumps, powder or pieces, such as jewelry and money, is strictly forbidden.

Embargo on Gold and Silver Exports in Monetary and Ingot Form Lifted by El Salvador

El Salvador returned on May 12 to a theoretical standard when Congress lifted the embargo on the export of gold and silver in both monetary and ingot form, said United Press advices from San Salvador, May 12, which added:

The ruling was accompanied by an explanation that reserves of the central bank of El Salvador are now considered sufficient to support all of the country's outstanding paper currency.

Exports of currency or metals, it was ruled, should be handled through the central bank, which will deduct 5% for the benefit of the National University. The university will invest this money in bonds of the mort-

Pact Gives Chile Advantage Over United States in Exports of Copper to France

A Franco-Chilean pact concluded on May 15 gives Chile a distinct advantage over the United States in exports of copper to France. Advices from Paris (United Press) May 15 further reported:

Under the agreement Chilean exports of copper will pay a 2% import tax, against a 4% tax for United States exports.

Up to 50,000 tons of copper can be exported by Chile to France through the compensation office, which means Chilean sellers can dispose of the copper as they see fit. Copper shipments above 50,000 tons must have 10% of exchange value set aside for buying French goods exportable to Chile.

Both French and Chilean officials expressed satisfaction over the accord and it was believed it might be the beginning of a series of similar trade

Dr. R. Prebisch Appointed Manager of Central Bank of Argentina

The Argentine Information Bureau has announced the appointment of Dr. Raul Prebisch as Manager of Argentina's new central bank. Dr. Prebisch, it was stated, was Secretary of Finance of Argentina under the late President Uriburu, and was recently employed by the Banco de la Nacion.

The appointment of Ernesto Bosch as President of the institute was noted in our issue of May 11, page 3131.

New York Stock Exchange Amends Constitution in Accordance With Suggestions of SEC—Nominating Committee Enlarged—Arbitration Also Affected

The Governing Committee of the New York Stock Exchange, at a meeting held May 14, adopted four amendments to the constitution of the Exchange in line with the suggested 10-point program of reform for securities exchanges recently submitted to Congress. The amendments were submitted to the membership and will be effective in two weeks unless

rejected.

The first amendment increases the Nominating Committee from five to seven members, and the second requires the Nominating Committee to select 21 members as condidates for election to the next Nominating Committee. As to the

other two amendments, the Exchange said:

Amend Article X, Section 1, Second, the first paragraph. This amendment makes all claims and matters of difference between members and registered firms subject to the jurisdiction of the Arbitration Committee; allows appeals to the Governing Committee irrespective of the amount involved in the claim, and allows members of the Arbitration Committee, as well as the parties ten days or such longer time as the Arbitration Committee may grant in which to file notice of appeal.

Amend Article XI. This amendment allows a non-member complainant before the Committee on Business Conduct to appeal to the Governing Committee and provides that on all appeals a special advisory committee chosen by the appellant shall examine the record and give an advisory opinion thereon to the Governing Committee.

Charles R. Gay Elected President of New York Stock Exchange Succeeding Richard Whitney— Exchange Succeeding Richard Whitney— E. H. H. Simmons New Vice-President—Three Independents Elected to Governing Committee

At the annual election of the New York Stock Exchange held May 13 Charles R. Gay, senior partner of Whitehouse & Co., was elected President, to succeed Richard Whitney, retiring President, and Benjamin H. Brinton was elected Treasurer. Both were unopposed for office. Of four independent candidates for the Governing Committee, three were lected, along with seven of the ten nominees named by the Nominating Committee of the Exchange in the official Those elected to the Governing Committee, for a term

of four years, follow: Edward C. Fiedler W. Allston Flagg Robert W. Keelips Warren B. Nash

David W. Smyth Robert L. Stott Bertrand L. Taylor, Jr. Alfred E. Thurber

William McC. Martin Jr., was unopposed as a member of the Governing Committee for a term of one year. The Messrs. Flagg, Keelips and Taylor were the independent can-Messrs. Flagg, Keelips and Taylor were the independent candidates, defeating E. Burd Grubb, former President of the New York Curb Exchange; John W. Hanes and H. Terry Morrison, regular nominees. John F. Murray, an independent candidate, was also defeated. In addition to those elected to the Governing Committee, eight office partners of member firms were elected Governing members, a new class of officers instituted at the suggestion of the Securities and of officers instituted at the suggestion of the Securities and Exchange Commission. They are:

Governing Members

For the Term of Four Years: Howald S. Davis, Gayer G. Dominick. For the Term of Three Years: Robert A. Drysdale, Henry Rogers

For the Term of Two Years: Dr. Herman B. Baruch, Robert Vose White.

For the Term of One Year: Nelson I. Asiel, Paul H. Davis.

Also elected were Allen L. Lindley and William B. Potts as members of the Gratuity Fund of the Exchange for terms of five years and two years, respectively. Upon his election, Mr. Gay issued a brief statement as follows:

I am deeply conscious of the honor conferred upon me by the members of the New York Stock Exchange. It shall be my duty to administer its affairs with the thought always in mind that it is a national institution

aniairs with the thought always in mind that it is a national institution providing a market place vital to the welfare of industry and of the public.

During these past weeks, I have received many hundreds of letters. I have been gratified by the temperate attitude manifested by these correspondents and have endeavored to answer them all in a spirit of frankness. I shall at all times be glad to receive inquiries regarding the exchange and constructive suggestions and criticism will be welcomed and answered promptly. answered promptly.

At a special meeting of the Governing Committee held May 14, E. H. H. Simmons, a former President of the Stock Exchange for six years, was elected Vice-President, and R. W. Keelips, Assistant Treasurer. Incident to the election of Mr. Simmons, President Gay issued the following statement:

At my request Mr. E. H. H. Simmons has accepted the post of Vice-President of the New York Stock Exchange, to which post he was elected to-day by the Governing Committee. After serving for six years as President of the New York Stock Exchange, it is asking a great deal of Mr. Simmons to accept the Vice-Presidency. His consent reveals the nature of his exceptional devotion to the best interests of the Exchange.

During the years of his Presidency he fostered unity and harmony among the membership and maintained cordial and effective relations with the

press and the public. These two purposes, namely, accord within the Stock Exchange and a clear public understanding of its functions, it is my desire to continue.

The Exchange is fortunate indeed in securing as its Vice-President a man of recognized ability as a leader, of mature judgment and of rich experience.

A report issued May 14 of the tellers appointed to receive and count the votes at the annual election May, 13 showed that a total of 1,181 votes were cast with one defective. Mr. Gay received 1,131 votes for the Presidency, and Mr. Brinton, 1,152 for the office of Treasurer. The votes for the candidates for the Governing Committee were cast as follows:

\$130,015,787 of New Securities Effective During March Under Securities Act of 1933

New securities with estimated total gross proceeds of \$130,015,787 representing 27 issues registered in 24 statements became fully effective during March 1935, under the Securities Act of 1933, the Securities and Exchange Commission announced April 17. This compares with \$36,318,133 registered in eight issues (seven statements) in February 1935 (revised figures), and \$24,717,219 registered in 29 issues (23 statements) in March 1934. Effective new issues for the first three months of 1935 thus total \$177,378,325 registered in 52 issues in 44 registration statements. Included in the in 53 issues in 44 registration statements. Included in the

March effectives are the \$43,000,000 Swift & Co. 1st mortgage sinking fund 3¾% bonds, and the \$45,000,000 Pacific Gas & Electric Co. 1st and refunding mortgage 4% bonds. Continuing, the Commission's announcement of April 17

Continuing, the Commission's announcement of April 17 said:

Of the total gross proceeds of new issues declared effective during March 1935. \$5,295,000 were registered for the "account of others," \$5,000 are reserved for subsequent issuance, and \$135,000 are to be issued for various assets, leaving \$124,680,787 to be presently offered for sale by the issuers. The net proceeds from these issues, as estimated by the issuers, will amount to \$119,431,792 and the cost of selling and distributing is expected to total \$5,148,995 (4.1% of the gross proceeds).

Forty per cent of the month's total, as measured by gross proceeds, has been registered by the utilities group, through three bond issues totaling \$52,175,000; 35% of the total proceeds was registered by eight companies in the manufacturing group with securities totaling \$45,135,638; and 19% was registered by five investment trust issues totaling \$24,257,406.

The issuers, according to their registration statements, expect to sell 97.6% of their offerings through various underwriters and agents, 2.0% directly to the public and 0.4% to their own security holders.

Of the \$119,431,792 estimated net proceeds, the companies expect to use \$85,955,500 (72.0%) for the refunding of outstanding bond issues; \$7,811,-027 (6.5%) for the repayment of other indebtedness; \$22,211,927 (18.6%) for the purchase of investment securities; \$1,665,012 (1.4%) for the purchase of plant and equipment, real estate, &c.; \$366,098 (0.3%) for organization and development expenses; and \$389,678 (0.3%) for miscellaneous and unstated purposes. There will remain, according to the issuers' estimates, a balance of \$1,032,550 (0.9%) available as working capital.

In addition to the new security registrations, nine statements calling for deposit of outstanding securities and offering new securities in exchange for existing securities, became effective in March. Seven were "reorganization" statements calling for \$15,651,000 par amount of various issues having an estimated market value of \$2,711,413.

tion" statements calling for \$15,651,000 par amount of various issues having an estimated market value of \$2,711,413. Two were statements offering \$633,000 par amount of securities in exchange for certificates of deposit with an estimated value of \$322,467.

Appended are Tables I to VII, giving in detail the statistics of March

Filing of Registrations Under Securities Act of 1933

The Securities and Exchange Commission announced, May 13, the filing of 16 additional registration statements under the Securities Act. The total involved is \$81,393,720, of which \$76.418.490 represented new issues. The Comof which \$76,418,490 represented new issues. The Commission said that the total includes the following two issues (referred to in our issues of May 11, page 3135, and May 4,

page 2953, respectively):
This total includes a \$50,000,000 issue of first (collateral) mortgage sinking fund bonds, 4% series, of the National Steel Corp. (Docket 2-1413, Form A-2, included in Release No. 362).

This total also includes an issue of \$15,000,000 of 4½% debentures of the National Distillers Products Corp (Docket 2-1402, Form A-2, included in Release No. 356).

The securities involved, the Commission announced, are grouped as follows:

No. of Issues	Tupe of Issue—	Total
11	Commercial and industrial	\$73,968,490
2	Investment trusts	2,450,000
1	Voting trust certificates	4,020,230
2	Certificates of deposit	955,000

The Securities (Nos. 1401-1416, inclusive) for which registration is pending, as announced by the SEC on May 13,

American Radio & Television Corp. (2-1401, Form A-1), of New York City, seeking to issue 300,000 shares of \$1 par value common stock, to be offered at par. Joseph LaVia, of Astoria, Long Island, is President, and Stone & Co. of New York is the underwriter. Filed May 1 1935.

Keeneland Association (2-1403, Form A-1), a corporation of Lexington,

Ry., engaged in conducting horse races, seeking to issue 3,500 shares of \$100 par value preferred stock, to be offered at par, and 3,500 shares of no par common stock, to be offered at \$1 a share. H. P. Headley, of Lexington, is President. Filed May 2 1935.

Francis W. Wheeler, et al (2-1404, Form F-1), of Boston, Mass., seeking

to issue voting trust certificates for the first preferred, second preferred and common stock of the Seattle Gas Co. The certificates will represent 47,250 shares of no par \$5 first preferred stock, 27,556 shares of no par shares of no p shares have an aggregate market value of \$4,020,230. Filed May 3 1935.

American Discount Co. of Georgia (2-1405, Form A-2), of Atlanta, Ga., seeking to issue 4,000 shares of 6½% cumulative convertible preferred stock, to be offered at \$52 a share, and 18,294 shares of no par value common stock, reserved for conversion of this issue and former issue of Courts & Co., Clement A. Evans & Co., and the Equitable Co., all of Atlanta, are the underwriters. Glenn B. Ryman, of Atlanta, is President. Filed May 3 1935. General Reserves Corp (2-1406, Form A-1), of New York City, seeking to issue 5,000 shares of \$50 par value preferred stock, to be offered at par, and 25,000 shares of \$1 par value common stock, to be offered at \$2.50 a share. Horace S. Pope, of Riverside, Conn., is President. Filed May 8 1935.

Gage Protective Committee (2-1407, Form D-1), of St. Petersburg, Fla., seeking to issue \$355,060 of certificates of deposit for first mortgage gold bonds of the Soreno Hotel Co. of St. Petersburg. The market value of the bonds during the 15 days prior to the filling of the statement was \$248,500.

J. Edward Jones (2-1408, Form C-1), of New York City, seeking to issue 1,000 shares of participation trust certificates in producing oil royalties of the J. Edward Jones Royalty Trust, series M, each share to be offered at \$100. Filed May 4 1935.

Noteholders' Protective Committee for Holders of First Mortgage 5½% Real Estate Gold Notes of Huckins Hotel Co., Formed Under Noteholders' Protective Agreement Dated April 1 1935 (1-1409, Form D-1), of St. Louis, Mo., seeking to issue certificates of deposit for \$600,000 of first mortgage 5½% real estate gold notes. Filed May 4 1985.

Mo., seeking to issue certificates of deposit for \$600,000 of first mortgage 5½% real estate gold notes. Filed May 4 1935.

A & K Petroleum Co. (2-1410, Form A-1), of Oklahoma City, Okla., seeking to issue 118,898 shares of \$5 par value class A common stock to be offered at \$5 a share, and 125,000 shares of \$5 par value class B stock to be reserved for conversion. Robert S. Kerr of Oklahoma City is President, and W. Earl Phinney & Co. is the underwriter. Filed May 6 1935.

American Participations, Inc. (2-1411, Form C-1), of Springfield, Mo., seeking to register an additional issue of three types of investment contracts in a unit type of investment trust, to a total of \$2,350,000. Walter N. George, of Springfield, Mo., is President. Filed May 6 1935.

Temescal Water Co. (2-1412, Form A-2), of Corona, Calif., seeking to issue \$700,000 of first mortgage 5% sinking fund bonds, series A, due 1960. Barnes, Lester & Co., of Los Angeles, is the underwriter, and Joy G. Jameson, of Corona, is President. Filed May 6 1985.

The Glidden Co. (2-1414, Form A-2), of Cleveland, Ohio, seeking to register 104,000 shares of no par common stock, to be offered to shareholders at \$22 a share, and 46,000 shares of no par common stock, to be offered to officers and employees at a minimum price of \$22 a share,

holders at \$22 a share, and 46,000 shares of no par common stock, to be offered to officers and employees at a minimum price of \$22 a share, provided two-thirds of the shareholders release their pre-emptive rights. The net proceeds of the issue are estimated at \$3,172,800 and are to be used to reduce bank loans of \$4,985,000, and bankers' acceptances of \$428,173.94, and for working capital. Filed May 7 1935.

Oklahoma County Trust (2-1415, Form A-1), of Tulsa, Okla., seeking to issue \$7,500 shares of no par units of beneficial interest in a trust to own working interests in certain oil and gas mining leases, to be offered at \$10 a unit. W. E. Brown, of Tulsa, is President of the trust. Filed April 8 1935.

April 8 1935.

United Standard Oilfund of America, Inc. (2-1416, Form A-1), of Jersey City, N. J., seeking to issue 2,000,000 shares of 25c. par value common stock, to be offered initially at not to exceed \$1.10 per share. Lucian A. Eddy, of New York, is President. Filed May 7 1935.

In making public the above list the Commission stated:

In no case does the act of filing with the Commission give to any security its approval or indicate that the Commission has passed on the merits of the issue, or that the registration statement itself is correct.

The last previous list of registration statements appeared in our issue of May 11, page 3134.

Registration with SEC of \$25,000,000, 10-year Convertible Debentures of American Rolling Mill Co.

An issue of \$25,000,000 10-year convertible debentures of the American Rolling Mill Co. has been registered with the Securities and Exchange Commission on Form A-2 under the Securities Act of 1933, the Commission announced, May 14. Approximately \$5,000,000 will be used for new plant and equipment and \$1,625,000 will go to working capital. The balance of net proceeds will be used for refunding purposes. The Commission's announcement said:

The interest rate of the issue has not been determined, nor has the amount to be underwritten by the group of firms listed as principal underwriters. Those firms are W. E. Hutton & Co., Edward B. Smith & Co., the First Boston Corp., Brown Harriman & Co., Inc., Kidder, Peabody & Co., Field, Glore & Co., and the Lee Higginson Corp., all of New York City.

The prospectus of the company describes the purpose of the issue, in part, as follows:

part, as follows:

(a) \$13,665,300 to redeem on or about July 15 1935, the entire outstanding issue of 5% convertible notes, due Nov. 1 1938, of the company. The amount necessary to redeem said convertible notes.

\$13,332,000 principal. \$333,300 premium and \$138,875 accrued interest.

(b) \$3,659,250 to advance to Sheffield Steel Corp., a wholly owned subsidiary of the company, to be applied to redeem on Sept. 1 1935 the entire outstanding issue of first mortgage 51% gold bonds, series of 1928, due March 1 1948, of Sheffield Steel Corp. The amount necessary to redeem said bonds on said date, excluding \$15,000 principal amount thereof held in the treasury of Sheffield Steel Corp., includes \$3,485,000 principal, \$174,250 premium, and \$95,837.50 accrued interest.

(c) Approximately \$5,000,000 for the construction of a wide cold reduction mill and miscellaneous equipment, and

(d) Approximately \$1,625,000 to increase working capital. Any of such proceeds not actually applied to any such purpose will be used for general corporate purposes. It is estimated that approximately \$3,500,000 of the net proceeds will be used for the construction of the proposed wide cold reduction mill and that approximately \$1,500,000 will be used for miscellaneous equipment, which it is contemplated will include widening of a hot strip mill and possible additional stand, box-annealing equipment, light gauge cold reduction mill and other equipment.

George M. Verity is Chairman of the Board of Directors. The offices

George M. Verity is Chairman of the Board of Directors. The offices of the company are in Middletown, Ohio. The company is also registering 1,000,000 shares of \$25 par value common stock to be reserved for issuance on the conversion of the convertible debentures being offered. The consolidated total assets of the corporation and its subsidiaries were \$107,803,776.19 on Dec. 31 1934.

SEC Promulgates Form for Registration of Certificates of Deposit Issued by a Committee

Form 14 for certificates or deposit issued by a committee was announced May 13 by the Securities and Exchange Commission. This form will be applicable to approximately 65 deposit committees whose securities are listed on the various national securities exchanges, the Commission said, adding:

The form is divided into four parts. The four parts of the form are headed: (1) General Information, (2) Original Issuer, (3) Provisions of

the Deposit Agreement, and (4) Plan of Reorganization. Part 1 asks general questions as to the identity of the members of the committee, their position in the securities of the company, the expenses of the committee, and the present stage of the call for deposits. Part 2 seeks general information regarding the original issuer of the securities. Part 3 asks questions as to the rights of depositors, such as the right of withdrawal. Part 4 includes questions as to the terms under which the plan may be declared operative.

The first of these parts must be filled out by all committees. The other parts of the form may be omitted if there is a registration statement under the Securities Act or the Securities Exchange Act in effect, with respect to information which is analogous to that required by the

There are also required to be filed two financial schedules giving information concerning the receipts and disbursements, and the assets and liabilities of the committee. These schedules must be certified. The form also requires that the plan of reorganization be submitted as an exhibit.

There is also an instruction book similar to that which accompanies all other forms of the Commission under the Securities Exchange Act.

Copies of the form and the instruction book may be obtained from the office of the Commission in Washington.

Form Published by SEC for Filing of Securities of Corporations Engaged Primarily in Business of Investing or Trading in Securities

The Securities and Exchange Commission announced May 16 the publication of Form 15 and an accompanying book of instructions. This form is to be used by corporations, the business of which is primarily that of investing or trading in securities, for the registration of their securities on national securities exchanges. A further form will be published for the filing by unincorporated investment enterprises such as Massachusetts trusts. The announcement of the Commission further said:

Except for the requirements as to the financial data, this form follows closely Form 10. The deviations from Form 10, other than in the financial data, relate principally to the questions concerning the business and property of the issuer. These have been changed so as to conform to investment companies.

The financial requirements, however, differ essentially from those contained in Form 10. This was necessitated because of the difference in the nature of the operations of a financial company as contrasted with an industrial company. a In the first place, it is provided that financial statements of subsidiaries may not be consolidated with those of the company registering, unless the subsidiary is itself an investment company.

Further, it is not required that the balance sheet show a differentiation between current and fixed assets, as being unnecessary for an issuer of the kind in question.

It is required that the balance sheet show, as to all marketable securities, both cost and market. Reasonable flexibility, however, is permitted as to the manner in which the cost and market shall be shown. Reserves, if established, for the depreciation as well as the appreciation of investments, are to be shown separately in the balance sheet. If reserves for depreciation are not established, it is required that an indication be given of the adjustment necessary to reflect such depreciation in the surplus account. Earned surplus must be segregated. The balance as of Jan. 1 1925, however, may be accepted as shown in the books.

There must be made in the profit and loss statement a clear differentiation between income from dividends and interest and capital gains and losses.

A schedule containing a complete itemized list of all portfolio holdings is required. Permission is granted, under certain conditions, to carry a part of these holdings in a miscellaneous item without enumeration.

Rule Revised by SEC Respecting Confidential Data Filed Under Securities Exchange Act of 1934

The Securities and Exchange Commission announced May 15 that it has revised its Rule UB2 relating to the treatment of confidential data filed under the Securities Exchange Act. The Commission stated:

The rule as revised eliminates the necessity of filing copies of such data with the exchanges on which the securities are listed, but provides for filing additional copies with the SEC. It also provides that upon determination of the Commission that it is not in the public interest to keep such data confidential, the additional copies filed with the Commission will be forwarded to the exchanges.

Upon such determination by the Commission, a 10-day period shall elapse before the information is made available to the public. During that period the person requesting confidential treatment may notify the Commission that he intends to seek review of the Commission's determination. Upon such notification, the Commission will withhold the information from the public for a period of 60 days, or until the petition for review has been disposed of.

When the Commission denies a request for confidential treatment of material filed with an application for registration of securities, permission is granted to withdraw all papers within 10 days.

Opening of Regional Office of SEC at Fort Worth, Tex.

That its regional office in Fort Worth, Tex., would open on May 13 was announced by the Securities and Exchange Commission on May 11. O. H. Aldred has been appointed regional administrator. Personnel numbers approximately eight, including, among others, an oil royalty expert.

Federal Reserve Bank of Minneapolis Reduces Rediscount Rate from $2\frac{1}{2}\%$ to 2%

Following the action taken last week by the Federal Reserve Banks of Dallas, Richmond, Kansas and Cleveland (noted in our issue of May 11, page 3136), the Federal Reserve Bank of Minneapolis, effective May 14, lowered its rediscount rate from $2\frac{1}{2}\%$ to 2%. The reduction was announced on May 13 by the Federal Reserve Board. The $2\frac{1}{2}\%$ rate of the Minneapolis Bank had been in effect since Jan. 8, this year, at which time it was reduced from 3%.

Receiverships of Eight Insolvent National Banks Terminated During March—Report of Comptroller of Currency

The Comptroller of the Currency, J. F. T. O'Connor, announced May 13 that hereafter monthly statements would be issued showing the receiverships closed during the month. During the past two years monthly statements were issued showing the opening of conservatorship banks. The last conservatorship bank was opened in February 1935.

last conservatorship bank was opened in February 1935.

During the month of March 1935, the Comptroller's report said, the receiverships of eight insolvent National banks were finally closed, reducing the number of National bank receiverships to 1,539 as of the close of business March 31 1935. The eight banks were listed as follows:

The First National Bank of Ansonia, Ohio, was placed in receivership on Aug. 15 1933, and all depositors and other creditors were paid 100% principal with interest in full at the legal rate, amounting to an additional dividend of 5.776%. Total payments to creditors, including offsets allowed, aggregated \$85,534, and the stockholders received \$7,210, together with the assets remaining uncollected.

The First National Bank of Beason, Ill., was placed in receivership on the stockholders and the stockholders receivership on the stockholders are receivership on the stockholders.

The First National Bank of Beason, Ill., was placed in receivership on Sept. 29 1933, and all depositors and other creditors were paid 100% principal, with interest in full at the legal rate, amounting to an additional dividend of 5.413%. Total payments to creditors, including offsets allowed, aggregated \$102,636, and the stockholders received \$3,934, together with the assets remaining uncollected.

The Kosse National Bank of Kosse, Tex., was placed in receivership on Sept. 18 1933, and all depositors and other creditors were paid 100% principal, with interest in full at the legal rate, amounting to an additional dividend of 10.84%. Total payments to creditors, including offsets allowed, aggregated \$24,314, and the stockholders received \$5,368, together with the assets remaining uncollected.

gether with the assets remaining uncollected.

The Farmers' National Bank of Trafalgar, Ind., was placed in receivership on Sept. 23 1931, and all depositors and other creditors were paid 100% principal, with interest in full at the legal rate, amounting to an additional dividend of 6.95%. Total payments to creditors, including offsets allowed, aggregated \$107,643, and the stockholders received \$1,669, together with the assets remaining uncollected.

The First National Bank of Blythe, Calif., was placed in receivership on Aug. 12 1931, and disbursements, including offsets allowed, to depositors and other creditors aggregated \$232,436, which represented 61.61% of the total liabilities at date of failure. However, secured and preferred creditors received a considerable portion of these disbursements, and dividends paid unsecured depositors amounted to 9.42% of their claims.

The First National Bank of Sanborn, N. Dak., was placed in receivership on April 10 1929, and disbursements, including offsets allowed, to depositors and other creditors amounted to \$71,871, which represented 91.23% of the total liabilities at date of failure. Unsecured depositors in this case received dividends amounting to 86% of their claims.

The First National Bank of Malvern, Iowa, was placed in receivership on Dec. 10 1926, and disbursements, including offsets allowed, to depositors and other creditors aggregated \$228,221, which represented \$2.32% of the total liabilities at date of failure. Unsecured depositors received 73.76% of their claims.

received 73.76% of their claims.

The First National Bank of Berwyn, Okla., was placed in receivership on Nov. 6 1930, and disbursements, including offsets allowed, to depositors and other creditors amounted to \$38,434, which represented 78.90% of the total liabilities at date of failure. Unsecured depositors received 30.7% of their claims.

Deposit Insurance Law Chief Factor in Aiding Banking Rehabilitation, According to Comptroller of Currency O'Connor—Says Position with Respect to Credit Expansion Possibilities Was Never so Strong

Banking recovery in the United States during the last two years has been due in large part to the enaction of legislation providing for deposit insurance, J. F. T. O'Connor, Comptroller of the Currency, told a meeting of the North Carolina Bankers Association at Pinehurst, N. C., on May 10. Mr. O'Connor's speech dealt largely with banking conditions in North Carolina, but he also reviewed banking activities in the nation as a whole, and cited statistics which he said showed that by the end of the second year of the Administration the rehabilitation of the national banking system was practically completed.

"Depositors," Mr. O'Connor said, "have regained confidence in the nation's banks, and have manifested this confidence with an enthusiasm surprising to the most optimistic. Deposits are increasing rapidly, and the general

"Depositors," Mr. O'Connor said, "have regained confidence in the nation's banks, and have manifested this confidence with an enthusiasm surprising to the most optimistic. Deposits are increasing rapidly, and the general average of deposits per bank is now higher than at any other period in the history of the country. The position of the nation's banking system with respect to possible credit expansion, therefore, has never been so strong, and our banks represent a powerful factor in the restoration of the industrial and commercial life of the nation"

industrial and commercial life of the nation."

Summarizing the work of the Administration in banking rehabilitation, Mr. O'Connor said, in part:

The most pressing problem confronting the Roosevelt Administration was the rehabilitation of the National and State banking systems. An Emergency Bank Act was passed without a dissenting vote, and under this Act, funds were made available to strengthen the capital structure of banks and to provide for a wide distribution of dividends.

The success of the program is eloquently attested by the phenomenal recovery of the National banks from their very low state in March 1933. Since that date the number of active National banks, including savings banks and trust companies in the District of Columbia, increased from 4,522 to 5,467 on Dec. 31 1934, and deposits in these banks increased during the same period from \$16,315,586,000 to \$\$21,676,303,000, or a net gain of 945 active banks and of \$5,360,717,000 in deposits. Meanwhile, only one National bank failed during the year 1934, as compared with 161 suspensions in 1930, 409 in 1931, and 276 in 1932.

only one National bank failed during the year 1934, as compared with 161 suspensions in 1930, 409 in 1931, and 276 in 1932.

Deposits in National banks on Dec. 31 1934 exceeded by more than one billion dollars deposits in these banks on June 30 1926, which is now currently referred to as a hormal year, and the total is now fast approaching the peak reported for Dec. 31 1928. This striking evidence of recovery is also true with respect to all banks in the country.

Mr. O'Connor pointed out that insurance of deposits has been made compulsory for all banks which are members of the Federal Reserve System. He then added:

As of Oct. 1 1984 the insurance system embraced 5,450 National banks nd 969 State banks which are members of the Federal Reserve System. The benefits of insurance, however, were extended to such State banks as might voluntarily apply, and there were included in the insurance system as of Oct. 1, 7,706 banks which had voluntarily applied, making a total of 14,125 insured banks. In these banks the Federal Deposit Insurance Corporation has an insured deposit liability of \$16,452,433,000, representing the deposits of 51,245,242 depositors, 98.39% of whom are insured in full

Guaranty Trust Co. of New York Attacks Adminis-tration's Banking Bill—Says Measure Would Aid Inflation and Place Politicians in Control of Nation's Banking System—Other Criticisms of Bill Made in Financial Circles

The Administration's banking bill which was approved May 9 by the House of Representatives (as referred to in our issue of May 11, page 3141), would, if enacted into law, place control of the Federal Reserve banks in the hands of political appointees and would remove "the last barriers to inflation," the Guaranty Trust Co. of New York said in a pamphlet which was sent to stockholders on May 13. This statement, signed by William C. Potter, Chairman of the Board, was regarded as the opening of an intensive campaign against the measure by bankers.

Mr. Potter said that the principles of the bill are "fundamentally at variance with the original conception of the functions of our Federal Reserve System and of central banking in general," and if the measure were enacted in its present form "the consequences would run through the entire economic fabric of the nation." One of the most dangerous features of the bill, the statement said, is that which would permit National banks to make long-term real estate loans up to 60% of their time deposits or 100% of their capital funds. Extensive real estate loans, the bank pointed out, have been one of the primary causes of past bank failures.

The result of the bill, the statement continued, would be to increase the danger of inflation by removing some of the existing checks to credit expansion and substituting politi-

Mr. Potter's letter followed a speech on May 11 by George C. Cutler, Vice-President of the Guaranty Trust Co., in which he told the New York State Bankers Association that Title II of the bill would place the country's money structure in the control of politicians and the Government. The "vice" of this control is two-fold, he said, and added:

First, it enables the Government to get money altogether too easily and removes a much-needed brake upon extravagance; and second, instead of having the Board (Federal Reserve Board) operate a somewhat complicated credit structure pursuant to sound banking practices, the product of long experience, it will be operated to conform to changing political theories primarily formulated to get votes.

Leaving aside for the moment the ideal system and leadership which I do not believe to be politically possible to-day, we can strive for one or two objectives. First, we can seek to scrap Title II entirely, which would leave a political Board without the greatly enlarged powers of the bill; or, two, we can set up a system of checks and balances, which is fundamental in our system of Government, and particularly highly desirable in this case.

The Hartford, Conn., Chamber of Commerce on May 10 telegraphed to President Roosevelt and several members of Congress a denunciation of the banking bill. Its provisions, the telegram said, are "revolutionary in character and make sweeping and fundamental changes in our Federal Reserve System which are dangerous and unwarranted.'

A press release issued by the Guaranty Trust Co. on May 13 quoted from its communication sent to stockholders on that date, in part, as follows:

For some time there has been a general drift of the Federal Reserve System from a reserve banking institution, whose primary interest was serving the credit needs of business and agriculture, into a credit reservoir for the Government. Already the Federal Reserve banks hold \$2,430,000,000 of Government obligations, contrasted with some \$34,000,000 of commercial and industrial paper. The provisions of this bill would open the way for the further extension of credit to the Government

by the Reserve banks.

The bill would make the credit policy of the Federal Reserve System subject to the dictation of a Board consisting entirely of political appointees. Subject to the 40% reserve requirement, this Board would have complete control over the issue of Federal Reserve notes, which constitute the most important part of the country's circulating currency. present emergency power to raise or lower the reserve requirements of member banks would be broadened and made permanent. It is important to observe that this sweeping extension of political control over the banking system would occur at a time when the Government is under great political pressure by advocates of inflation, when the Federal budget is far out of balance, and when the Treasury depends largely on the banks for its current funds.

Inflationary Possibilities

It would perhaps be unfair to imply that it is the deliberate intention of the sponsors of the bill to convert the Federal Reserve System into an agency of inflation. But the result of the bill would be to increase the danger of such a development by removing some of the existing checks to credit expansion and substituting political control. In practice, the assumption of control over any central bank by any Government, particularly at a time of financial pressure on the public treasury, has repeatedly resulted in the subjection of banking policy to the fiscal needs of the Government, and the eventual outcome has been outright inflation, with its attendant debasement of currency and credit. This is the fundamental objection to Government control of central banking.

The most sweeping extension of political influence would come about through the additional powers of the Federal Reserve Board to dictate the policy of the entire system in open market operations, including the purchase and sale of Government securities. At present no Federal Reserve bank can be compelled to participate in open market operations against its own will; but no Reserve bank can engage in such operations in accordance with an open market policy approved by the Federal Reserve Board. The Board, therefore, now has legal power to affect the open market operations of the Reserve banks only in a negative way through the exercise of the veto power.

General Charles G. Dawes Has Settled Personal Liability as Stockholder of Closed Chicago Bank, According to RFC Attorneys

General Charles G. Dawes, Chairman of the Board of the General Charles G. Dawes, Chairman of the Board of the City National Bank of Chicago, has settled his personal liability claimed by the Reconstruction Finance Corporation in its suit to collect \$14,000,000 from stockholders of the old Central Republic Bank and Trust Co. by paying the bank's receiver \$6,800, it was disclosed on May 7 by RFC counsel as arguments were made against the dismissal of the suit in the Chicago Federal Court. Attorneys opposing the Government in its suit charged that the Government was seeking to impose unjust discrimination against the dewas seeking to impose unjust discrimination against the defendants under the Illinois law of double liability of bank shareholders. Associated Press advices from Chicago May 7 noted the proceedings on that date as follows:

Harold Rosenwald, Associate Counsel for the RFC, told of the Dawes payment protesting dismissal of the suit.

"General Dawes may have paid his personal stockholders' liability, but we represent the Dawes company, with its stockholders, and with a liability that may run to \$1,000,000," Harold Beacom, whose law firm has led the fight against the RFC suit, declared.

The RFC counsel also argued that the stockholders' liability was part of the security considered by the RFC in granting the Central Republic

Bank two loans totaling \$80,000,000.

Officials said the hearing on motion to dismiss the RFC suit would probably be concluded to-morrow.

New York State Mortgage Commission to Get Control of 21 Concerns—To Assume Rule of Title Companies Now Under Jurisdiction of Superintendent of Insurance

The State Mortgage Commission, headed by Wendell P. Barker on May 13 took steps to assume control of all underlying properties on which certificates were issued by the twenty-one title companies now under the control of Louis H. Pink, newly appointed Superintendent of Insurance of the State of New York.

The Commission on May 10 served notice in the matter of the New York Title & Mortgage Co. and the Bond & Mortgage Guarantee Co. When the Commission on May 13 served notice on Mr. Pink of its intended action of completed the steps necessary in taking over the certificated mort-gages of all companies under the aegis of the State Insurance Department,

which has been acting as rehabilitator since August 1933.

Under the first operation the Commission assumed control of underlying properties amounting to \$509,963,526 which with the May 13 total will

each \$271,940,580, making a grand total of \$781,904,106.

The notice served May 13 concerned the following companies:

State Title & Mortgage Co. of Brooklyn.

Title & Mortgage Guaranty Co. of Sullivan County,
Westchester Title & Trust Co.
Union Guarantee & Mortgage Co. National Title Guaranty Co. of Brooklyn.

National Title Guaranty Co. of Brooklyn.
Lawyers Mortgage Co.
Hudson Title & Mortgage Co. of White Plains.
Hempstead Bond & Mortgage Guarantee Co.
Fidelity Title & Guarantee Co. of Mount Vernon.
Mortgage & Title Co. of America, in Brooklyn.
Mortgage Guarantee & Title Co. of New York, in Brooklyn.
Lawyers Title & Guaranty Co.
National Mortgage Corre

National Mortgage Corp.
Title & Mortgage Guarantee Co. of Buffalo.
Mineola Bond & Mortgage Guaranty Co.
First Mortgage Guaranty & Title Co. of New Rochelle.
Home Title Insurance Co., Brooklyn.

Long Island Title Guarantee Co., Brooklyn.
Lawyers Westchester Mortgage & Title Co., White Plains.
Greater New York-Suffolk Title & Guarantee Co., of Jamaica.
Lehrenkrauss Mortgage & Title Guarantee Co. of Brooklyn.

The Commission also served notice on the State Superintendent of Banks in regard to the certificated mortgages issued by the Nassau-Suffolk Bond & Mortgage Guarantee Co., Mineola, the Westchester Bond & Mortgage Corp., Mount Vernon, and the Guaranteed Mortgage Co. of New York

Books to Close May 23 on Tresaury's Exchange Offering of 21/8% Treasury Bonds of 1955-60 for Called First Liberty Loan Bonds—\$1,541,000,000 of Liberties Tendered to May 11 for Bonds and 15/8% Notes

Announcement was made on May 14 by Henry Morgenthau, Jr., Secretary of the Treasury, that the subscription books for the Treasury's offering of 2½% Treasury bonds of 1955-60, issued only in exchange for called First Liberty Loan bonds, will close at the close of business May 23, with subscriptions placed in the mail before midnight May 23 being considered as having been entered before the books closed. The bonds, originally issued at par, have, as indicated in our issue of May 11, page 3136, been issued at 100½ since May 8.

Included in this refunding operation of the Treasury was an issue of 15%% Treasury notes of Series A-1940, issued also only in exchange for the called First Liberty Loan bonds. Of the Liberty bonds called for redemption June 15 1935 in amount approximating \$1,933,000,000, Secretary Morgenthau announced May 12 that \$1,541,000,000 of 80% had

been tendered up to May 11 for the new bonds and notes. The Secretary's announcement follows:

Secretary of the Treasury Morgenthau announced to-day that subscriptions aggregating \$678.000,000 had been received up to the close of business Saturday (May 11) for the 2½% Treasury bonds of 1955-60, offered only in exchange for First Liberty Loan bonds of any series. With 863,000,000 of the First Liberty Loan bonds exchanged for Treasury notes of Series A-1940, the total of Firsts exchanged to date is approximately \$1,541,000,000, or about 80% of the outstanding First Liberty Loan.

The Treasury's intention to close the books for the issue of 21/8% Treasury bonds on May 23, was made known in the following announcement issued May 14 by the New York Federal Reserve Bank:

FEDERAL RESERVE BANK OF NEW YORK

Fiscal Agent of the United States [Circular No. 1543 May 14 1935]

Subscriptions Books to Close May 23 1935

On Offering of United States of America 2 %% Treasury Bonds of 1955-60 In Exchange for First Liberty Loan Bonds

To all Banks and Others Concerned in the Second Federal Reserve District:

Following is a copy of a statement which we have received from the Treasury Department regarding the closing of the subscription books for the current offering of Treasury bonds of 1955-60:

secretary of the Treasury Morgenthau announced to-day (May 14) that the subscription books for the current offering of 2½% Treasury bonds of 1955-60, in exchange for First Liberty Loan bonds called for redemption on June 15 1935, will close at the close of business May 23 1935. Subscriptions placed in the mail before 12 o'clock, midnight, Thursday, May 23, will be considered as having been entered before the close of the subscription books.

As announced, about 80% of the outstanding First Liberty Loan bonds have already been exchanged. The subscription books are being kept open for the additional period in order that all holders of the called bonds, and particularly the small holders, may have ample opportunity to take advantage of the exchange offering.

The subscription books at this bank for the offering will close accordingly. GEORGE L. HARRISON,

Tenders of \$160,256,000 Received to Offering of \$50,-000,000 or Thereabouts of 272-Day Treasury Bills—\$50,255,000 Accepted at Average Rate of 0.143%

Of tenders totaling \$160,256,000, \$50,255,000 were accepted to the offering of \$50,000,000 or thereabouts of 272-day Treasury bills, dated May 15 1935, maturing Feb. 11 1936, Secretary of the Treasury Henry Morgenthau, Jr., announced May 13. The tenders were received at the Federal Reserve banks and the branches thereof up to 2 p. m. Eastern Standard Time, May 13. Reference to the offering was made in our issue of May 11, page 3136. In his announcement of May 13 Secretary Morgenthau said:

The accepted bids ranged in price from 99.902, equivalent to a rate of about 0.130% per annum, to 99.889, equivalent to a rate of about 0.147% per annum, on a bank discount basis. Only part of the amount bid for at latter price was accepted. The average price of Treasury bills to be issued is 99.892 and the average rate is about 0.143% pre annum on a bank discount basis.

The average rate of 0.143% compares with previous rates at which recent issues of Treasury bills sold of 0.152% (dated May 8); 0.153% (dated May 1); 0.169% (dated April 24), and 0.176% (dated April 17 adn April 10).

New Offering of Two Series of Treasury Bills in Amount of \$100,000,000 or Thereabouts—Both to Be Dated May 22 1935—\$50,000,000 of 133-Day Bills Offered and \$50,000,000 of 273-Day Bills

and \$50,000,000 of 273-Day Bills

The Secretary of the Treasury, Henry Morgenthau, Jr., announced on May 16 a new offering of Treasury bills in two series, both to be dated May 22 1935, to the aggregate amount of \$100,000,000 or thereabouts. One series will be 133-day bills, maturing on Oct. 2 1935, to be offered in amount of \$50,000,000 or thereabouts, and the other series will be 273-day bills, maturing Feb. 19 1936, also to be offered in amount of \$50,000,000 or thereabouts. The face amount of the bills of each series will be payable without interest on their respective maturity dates.

amount of the bills of each series will be payable without interest on their respective maturity dates.

Tenders to the bills will be received at the Federal Reserve banks, or the branches thereof, up to 2 p. m., Eastern Standard Time, Monday, May 20, but will not be received at the Treasury Department, Washington. Both series will be sold on a discount basis to the highest bidders. Secretary Morgenthau requested that the bidders specify the particular issue for which each tender is made. An issue of bills in amount of \$75,168,000 will mature on May 22. In his announcement of May 16 Secretary Morgenthau said:

The bills will be issued in bearer form only, and in amounts or denominations of \$1,000. \$10,000, \$100,000, \$500,000, and \$1,000,000 (maturity

No tender for an amount less than \$1,000 will be considered. Each tender must be in multiples of \$1,000. The price offered must be expressed on the basis of 100, with not more than three decimal places, e. g., 99.125. Fractions must not be used.

Tenders will be accepted without cash deposit from incorp and trust companies and from responsible and recognized dealers in investment securities. Tenders from others must be accompanied by a deposit of 10% of the tace amount of Treasury bills applied for, unless the tenders are accompanied by an express guaranty of payment by an incorporated bank or trust company.

Immediately after the closing hour for receipt of tenders on May 20 1935. all tenders received at the Federal Reserve banks or branches thereof up to the closing hour will be opened and public announcement of the acceptable prices for each series will follow as soon as possible thereafter, probably on the following morning. The Secretary of the Treasury expressly reserves the right to reject any or all tenders or parts of tenders, and to allot less than the amount applied for, and his action in any such respect shall be final. Any tender which does not specifically refer to a particular series will be subject to state of the to rejection. Those submitting tenders will be advised of the acceptance or rejection thereof. Payment at the price offered for Treasury bills allotted must be made at the Federal Reserve banks in cash or other immavailable funds on May 22 1935.

The Treasury bills will be exempt, as to principal and interest, and any gain from the sale or other disposition thereof will also be exempt, from all taxation, except estate and inheritance taxes. No loss from the sale or other disposition of the Treasury bills shall be allowed as a deduction, or otherwise recognized, for the purposes of any tax now or hereafter imposed by the United States or any of its possessions.

The Treasury has, since the beginning of April, sold bills in amount of \$50,000,000 weekly. As to the increase to \$100,000,000 in the instance of the bills dated May 22, special advices from Washington, May 16, to the New York "Times" of May 17, said:

Beginning May 22, the Treasury will market \$100,000,000 in bills weekly for an indefinite period in order to refund maturities of \$75,000,000 and to supply \$25,000,000 each week in new money to the general fund.

It is believed that in this way sufficient money will be made available, in addition to tax payments and other receipts, to handle comfortably all

current expenditures until June 15.

On the latter date it is now indicated that a substantial offering in notes or bonds, or both, will be made to replenish the Treasury's supply of cash necessary for future financing of the relief program. There will also be an exchange offering on June 15 to refund about \$416,000,000 of Treasury notes, which mature on that date.

Except for the sale of short-term Treasury bills on a discount basis and of the so-called "baby bonds," there has been no sale of Government securities for cash since December 15, when the Treasury offered \$900,000 in bonds and notes. Other bond and note offerings since that time have been for the conversion of outstanding securities.

The Treasury has held down its new cash financing since that date in order to leave the way free for the large refunding operations later. From February 27 to April 3 it sold weekly \$100,000,000 of Treasury bills to meet weekly maturities of \$75,000,000 and apply new cash, but on the latter date dropped the total of these issues to \$50,000,000 a week. dropped the total of these issues to \$50,000,000 a week.

Work Balance 762,158,988

That step has called for the payment each week of \$25,000,000 out of the general fund to meet maturing bills in excess of the new ones marketed. Since that time the general fund's working balance has declined rapidly

and on May 14 was only \$762,158,988. In addition to this, however, the Treasury can employ temporarily money deposited by banks for the retirement of national bank notes.

Treasury Sold \$21,990,000 of Government Securities **During April**

Net market sales of Government securities for Treasury investment accounts for the calendar month of April, 1935, amounted to \$21,990,000, Secretary Morgenthau announced

May 16.
During March, as noted in our issue of April 20, page 2627, the Treasury purchased \$41,049,000 of securities.

Federal Deficit \$2,768,461,126 for First Ten Months of Fiscal Year—Compares with \$3,334,444,123 Year Ago—New Treasury Financing Before June 15 **Believed Unlikely**

Treasury expenditures for the first ten months of the current fiscal year were \$2,768,461,126 above receipts in the same period, as compared with a deficit of \$3,334,444,123 same period, as compared with a deficit of \$3,334,444,123 in the similar period of the preceding fiscal year, it was revealed by figures made public on May 2. The gross public debt at the end of April totaled \$28,668,106,390, as against \$26,118,280,752 on April 30 1934. Despite the large Treasury deficit, it was believed that the Treasury is not likely to seek-"new money" in the open market before June 15. A dispatch of May 2 to the New York "Times" from Washington discussed the state of Federal finances in part as follows:

More than a month ago the Treasury found its cash balance much higher than necessary, so a portion was employed in the retirement of securities, with a consequent reduction in the debt. A portion of the Fourth Liberty Loan was paid off in cash without recourse to borrowing.

Officials pointed out that it was necessary to carry a large cash balance, now about \$1,934,000,000, because of uncertainty as to demands for

emergency purposes

Total expenditures of the Government for the ten-month period were \$5.859.078,116, compared with \$5.822,427,211 in the same period last year. The mergency expenditures were \$2.893.538,327, compared with \$3.230,-588,750; the general expenditures were \$2.965.539,789, as against \$2.591,-

Trust funds, increment on gold and silver seigniorage showed an excess of receipts over expenditures of \$167,336,743 for the ten-month period,

of receipts over expenditures of \$167,336,743 for the ten-month period, as against \$834,263,433 last year.

The general and special funds showed receipts of \$3,090,616,990, as compared with \$2,487,983,087 for the first ten months of 1934.

During the ten months there were new issues in the public debt amounting to \$10.755,376,934, as against \$9,140,411,957 in retirements. The principal new issues were \$3,256,300,000 in bills, \$3,722,146,900 in notes and \$2,870,686,050 in heads. \$2.879.686.950 in bonds.

Various Securities Retired

The chief retirements were \$2.667,139,000 in bills, \$1.520.875.800 in certificates of indebtedness, \$1,023,519,450 in First Liberty bonds and \$2,995,751,950 in Fourth Liberty bonds.

The Treasury's principal receipts for the ten months were summarized

	1935	1934
Source-	(10 Months)	(10 Months)
Income taxes	8822,230,464	\$605,278,951

Receipts of Newly Mined Silver by Mints and Assay Offices from Treasury Purchases—Totaled 686,-929.75 Fine Ounces During Week of May 10

In accordance with the President's proclamation of Dec. 21 1933, which authorized the Treasury Department to absorb at least 24,421,410 fine ounces of newly mined silver annually, the Department during the week of May 10 turned over the Department during the week of May 10 turned over 686,929.75 fine ounces of the metal to the various mints. A statement issued by the Treasury on May 13 showed that of this amount 499,829.57 fine ounces were received at the Philadelphia Mint, 182,088.18 fine ounces at the San Francisco Mint, and 5,012 fine ounces at the Mint at Denver.

The Treasury's statement of May 13 indicated that the total receipts from the time of the issuance of the proclamation and up to May 10 were 35,480,000 fine ounces. Reference to the President's proclamation was made in our issue of Dec. 31 1933, page 4441. The weekly receipts are as follows (we omit the fractional part of the ounce):

Silver Transferred to United States Under Nationaliza--5,311 Fine Ounces During May 10

Announcement was made by the Treasury Department on May 13 that 5,311 fine ounces of silver were transferred to the United States during the week of May 10 under the Executive Order of Aug. 9 1934, nationalizing the metal. Total receipts since the order of Aug. 9 (given in our columns of Aug. 11, page 858) was issued, amount to 112,733,192 fine ounces, the Treasury announced. During the week of May 10 the silver, according to the Treasury's statement, was received as follows by the various mints and assay offices:

Philadelphia....

New York
San Francisco
Denver

May 22 Proclaimed National Maritime Day by President Roosevelt in Memory of Savannah Sailing

President Roosevelt on May 15 issued a proclamation establishing May 22 as National Maritime Day, in commemoration of the sailing on that date in 1819 of the steamship The Savannah from Savannah, Ga., on the first successful transoceanic voyage under steam propulsion. The text of the proclamation follows:

Whereas, on May 22 1819, the steamship The Savannah sailed from Savannah, Georgia, on the first successful transoceanic voyage under steam propulsion, thus making a material contribution to the advancement of ocean transportation; and

Whereas, Public Resolution 7, Seventy-third Congress, approved May 20 1933, provides, in part: "That May 22 of each year shall hereafter be designated and known as National Maritime Day, and the President is authorized and requested annually to issue a proclamation calling upon the people of the United States to observe such National Maritime Day by displaying the flag at their homes or other suitable places, and government officials to display the flag on all government buildings on May 22 of nt officials to display the flag on all government buildings on May 22 of

Now, therefore, I, Franklin D. Roosevelt, President of the United States of America, do hereby call upon the people of the United States to observe May 22 1935 as National Maritime Day by displaying the flag at their homes or other suitable places and to direct government officials to display the flag on all government buildings on that day.

President Roosevelt Signs Treasury-Post Office Depart-

ment Appropriation Bill \$905,000,000 Treasury-Post Office Department appropriation bill was signed by President Roosevelt on May 14. In reporting the signing of the measure, Associated Press advices from Washington, May 14, said:

Signing of the measure gave several hundred employees of the Internal Revenue Bureau about 24-hours in which to take examinations for reinstatement. They were retired last December under terms of the McKellar act which required about 1,200 employees of the Treasury Department,

including the old prohibition force, to take special examinations.

Several hundred failed or declined to take the tests on the ground their civil service status was not in doubt. They were automatically dropped from the pay roll December 1. The present bill gives them back pay up to May 15, and allows those who have passed the required examinations to continue

Rural Electrification Administration Created by President Roosevelt—Morris L. Cooke Named to Head New Agency, with Broad Powers to Develop Elec-trical Distribution Throughout United States

President Roosevelt, in an Executive Order issued on May 11, created a Rural Electrification Administration with broad powers to construct, or assist in the building, of electrical generation, transmission and distribution facilities throughout the rural United States. Two days later (on May 13) the President cent to the Secretary to the reministration of May 13) the President sent to the Senate the nomination of Morris L. Cooke of Pennsylvania to be Administrator of the Rural Electrification Administration.

The President's order allocated for the administrative expenses of the new body the sum of \$75,000, and said that future allocations will be made for definite authorized pro-It was indicated that the rural electrification develop-

ment would begin in Virginia and Indiana.

The Executive Order conferred on the REA power to "initiate, formulate, administer and supervise a program of approved projects with respect to the generation, transmission and distribution of electric energy in rural areas."

The Administrator was authorized to acquire "by purchase that the power of emirant demain any area. or by the power of eminent domain any real property or any interest therein and improve, develop, grant, sell, lease (with or without the privilege of purchasing) or otherwise dispose of such property or interest therein."

The complete text of the Executive Order is given below:

By virtue of and pursuant to the authority vested in me under the Emergency Relief Appropriation Act of 1935, approved April 8 1935 (Public Resolution No. 11, 74th Congress), I hereby establish an agency within the Government to be known as the "Rural Electrification Administration," the head thereof to be known as the Administrator.

I hereby prescribe the following duties and functions of the said Rural Electrification Administration to be exercised and performed by the Administrator thereof to be hereafter appointed:

To initiate, formulate, administer and supervise a program of approved projects with respect to the generation, transmission and distribution of electric energy in rural areas.

In the performance of such duties and functions, expenditures are hereby

authorized for necessary supplies and equipment: law, books and books of reference, directories, periodicals, newspapers and press clippings; travel expenses, including the expense of attendance at meetings when specifically authorized by the Administrator; rental at the seat of government and else where; purchase, operation and maintenance of passenger-carrying vehicles

printing and binding, and incidental expenses; and I hereby authorize the Administrator to accept and utilize such voluntary and uncompensated service and, with the consent of the State, such State and local officers and employees, and appoint, without regard to the provisions of the Civil Service laws, such officers and employees, as may be necessary, prescribe their duties and responsibilities and, without regard to the classification act of 1923, as amended, fix their compensation; provided, that in so far as practicable, the persons employed under the authority of this executive order shall be selected from those receiving relief.

To the extent necessary to carry out the provisions of this Executive Order the Administrator is authorized to acquire, by purchase or by the power of eminent domain, any real property or any interest therein and improve, develop, grant, sell, lease (with or without the privilege of purchasing),

or otherwise dispose of any such property or interest therein.

For the administrative expenses of the Rural Electrification Administration there is hereby allocated to the administration from the appropriation made by the Emergency Relief Appropriation Act of 1935 the sum of \$75,000. Allocations will be made hereafter for authorized projects. FRANKLIN D. ROOSEVELT.

The probable activities of the new Government agency were discussed as follows in a Washington dispatch of May 11 to the New York "Herald Tribune":

Three methods of electrifying rural United States are open to the new

Through direct Federal operations.

Through loans to or in co-operation with State or local agencies or local

In collaboration with existing utilities.

It is believed that all methods may be used. Where satisfactory agreements can be negotiated with existing utilities for the extension of their lines, it is believed that this method will be resorted to. The failure of many companies to pursue rural electrification more aggressively is attributed to the fact that they are afraid that they will not begin to get an adequate return on the additional investment for several years—until after consumption has been built up. The Federal Government is prepared to take a longer risk and may assist private utilities in doing so.

The second plan, of using State or local agencies, is the one which Public Works Administration authorities have been working toward. Several States have peared legislation authorities the vertices of State or local

States have passed legislation authorizing the creation of State or local rural electrification authorities and local co-operatives. Under such arments, a rural project might be built by a State or local authority with the aid of Federal funds, or it might be built by the Federal Government and leased, when completed, to the State or local body.

Direct Operations Planned

To what extent direct Federal operations will be resorted to is expected to depend on the lack of other means of getting the job done quickly.

In so far as it is economical, it is anticipated that the work will be con-

centrated on the building of rural distribution lines. However, where electricity is not available from existing sources at a low enough price, resort may be had to the construction of generating and transmission facilities. Such generating units would be small, perhaps of the Diesel

President Roosevelt Defends AAA Against "Lies" of Its Critics—Tells 4,500 Farmers Visiting Washington that Government Will Continue Crop Restriction Policy—Penics Program Contemplates -Denies Program Contemplates striction Policy-Destruction of Crops

The Government plans to continue the Agricultural Ad-The Government plans to continue the Agricultural Adjustment Administration program of crop restriction, despite the "lies" of its "high and mighty" critics, President Roosevelt on May 14 told a delegation of 4,500 farmers who came to Washington from 25 States to thank him for benefits received under the AAA and other New Deal policies. Speaking from the south portico of the White House, the President asserted that the Government was still with the farmers "who were once forgotten men." Recalling the fact that it was almost exactly two years ago that the law was enacted, he said that the farmers had ample evidence of the benefits that had come as the result of the Administration of this law. tration of this law.

"Because your cause is so just," he said, "no one has the temerity to question the motives of your 'march on Washington.' for Government, for business, for bankers and for the city dwellers that the Nation's farmers are becoming articulate and that they know whereof

In speaking of gains made under the AAA, the President compared the sheriff's sales, the six-cent cotton and the 35-cent wheat of 1932 with conditions as they are to-day. He denied that the AAA program contemplated the destruction or the plowing under of crops.

The complete text of President Roosevelt's address to the farmers is given below:

the farmers is given below:

I am glad to welcome you to the National Capital. We can think of this occasion as a kind of surprise birthday party, for it was just two years and two days ago that the Agricultural Adjustment Act became a law. And I well remember the fine group of representatives of farmers from every of the Union who stood around me on that occasion when I signed

In record time you and thousands of other farmers took hold and set up the machinery to control your own affairs and put the new law to work

I remember, too, the many high and mighty people who said you could not do it—that it was no use for you to try—intimating clearly that their only remedy to improve your situation was to let the Sheriff's sales go on.

That was the old and very familiar way—the high and mighty balanced farm production with demand. Those people did not understand and many of them do not understand to day, that, if the farm population of the United States suffers and loses it purchasing power, the people in the

cities, of necessity, suffer with them.

One of the greatest lessons that the city dwellers have come to understand in this past two years is this: Empty pocketbooks on the farm don't

turn factory wheels in the city.

Go back for a minute to the spring of 1933—when there was a buge carry-over of almost 13,000,000 bales and a price, because of that carry-over, of 6 cents a pound. You and I know what 6-cent cotton means over, of 6 cents a pound. You and I kn to the purchasing power of the cotton belt.

There was a huge carry-over of tobacco and the price of tobacco during the preceding six months was the lowest on record for many years. Wheat with a carry-over of nearly 400,000,000 bushels and a price of 35 cents on the farm; corn, with a price of 15 cents a bushel on many farms; hogs, selling at 3 cents a pound.

You and I know what that meant in the way of purchasing power for

40,000,000 people.

When we came to Washington we were faced with three possible programs. The first involved price-fixing by Government decree. This will discarded because the problem of over-oprduction was not solved thereby.

The second was a plan to let farmers grow as much as they wanted to and to have the Federal Government then step in, take from them that portion of their crop which representated the exportable surplus and, in their name, on their behalf, dump this surplus on the other nations of the

That plan was discarded because the other nations of the world had already begun to stop dumping. With increasing frequency they were their tariffs, establishing quotas and clamping on embargoes against

just that kind of proposition.

Therefore, we came to the third plan—a plan for the adjustment of totals in our major crops so that from year to year production and consumption would be kept in reasonable balance with each other to the end that reasonable prices would be paid to farmers for their crops and to the end that unwieldy surpluses would not depress our markets and upset the balance. We are now at the beginning of the third year of carrying out this policy. You know the results thus far attained. You know the price of cotton, of wheat, of tobacco, of corn, of hogs and of other farm products to-day.

Further comment on the successful partial attainment of our objective up to this time is unnecessary on my part. You know.

I want to emphasize that word "adjustment." As you know, a great many of the high and mighty—with special axes to grind—have been deliberately trying to mislead people who know nothing of farming by misrepresenting—no; why use a pussyfoot word—by lying, about the kind of a farm program under which this nation is operating to-day.

A few leading citizens have gone astray from ignorance. I must admit. For example: The prominent city banker who was driving through up-State New York with me four or five years ago in the late Fall. Everything was brown. The leaves were off the trees. We passed a beautiful green field. He asked me what it was. I told him it was Winter wheat. He turned to me and said: "That is very interesting. I have always wondered about Winter wheat. What I don't understand is how they are

ble to cut it when it gets all covered up with snow."

The other was the editor of a great metropolitan paper. He visited me down in Georgia when the cotton was nearly grown but before the bolls had formed. Looking out over the cotton fields, he said to me:

What a great number of raspberries they grow down here! Raspberries was right. At 41/2 cents a pound for cotton, his mistake was, perhaps, a natural one.

I was speaking of adjustment. It is your duty and mine to continue to educate the people of this country to the fact that adjustment means not only adjustment downward, bur adjustment upward.

you and I agree on a correct figure for a normal carry-over it means that if we have a bumper corp one year we will, by mutual consent, reduce the next year's crop in order to even up that carry-over.

At the same time, if we get a short crop in a given year, you and I agree to increase the next year's crop to make up the shortage. That is exactly

what we are doing to-day in the case of wheat.

It is high time for you and for me to carry, by education, knowledge of the fact that not a single program of the AAA contemplated the destruction of an acre of food crops in the United States, in spite of what you may read or be told by people who have special axes to grind.

It is high time for you and me to make clear that we are not plowing under cotton this year—that we did not plow it under in 1934 and that we only plowed some of it under in 1933 because the Agricultural Adjustment Act was passed after a huge crop of cotton was already in the

It is high time for us to repeat on every occasion that we have not wastefully destroyed food in any form. It is true that the Relief Administrator has purchased hundreds of thousands of tons of foodstuffs to feed the needy

and hungry who are on the relief rolls in every part of the United States.

The crocodile tears shed by the professional mourners of an old and obsolete order over the slaughter of little pigs and other measures to reduce surplus agricultural inventories deceive very few thinking people, and least of all the farmers themselves.

The acknowledged destiny of a pig is sausage, or ham, or bacon or pork. In these forms millions of pigs were consumed by vast numbers of needy

people who otherwise would have had to do without.

Let me make one other point clear for the benefit of the millions in cities who have to buy meats. Last year the nation suffered a drought of unparalleled intensity. If there had been no Government program—if the old order had obtained in 1933 and 1934—that drought on the cattle ranges of America, and in the corn belt would have resulted in the mar-keting of thin cattle, immature hogs and in the death of these animals

on the range and on the farm. Then we would have had a vastly greater shortage than we face to-day. Our program has saved the lives of millions of head of livestock. They are still on the range. Other millions are to-day canned and ready for this country to eat.

I think that you and I are agreed in seeking a continuance of a national policy which on the whole is proving successful. The memory of old conditions under which the product of a whole year's work often would not bring you the cost of transporting it to market is too fresh in your minds to let you be led astray by the solemn admonitions and specious

lies of those who in the past profited most when your distress was greatest.

You remember, and I remember, that not so long ago the poor had less food to eat and less clothes to wear, and that was at a time when you had to practically give away your products. Then the surpluses were greater and yet the poor were poorer than they are to-day when you farmers are getting a reasonable, although still an insufficient price.

I have not the time to talk with you about many other policies of your Government which affect the farm population of the country. I have not the time to go into the practical work of the Farm Credit Administration which, in all of its ramifications, has saved a million farms from foreclosure and has accomplished the first great reduction in exorbitant interest rates that this country has ever known.

no one has the temerity to question the Because your cause is so just motives of your "march on Washington." It is a good omen for Government, for business, for bankers and for the city dwellers that the nation's farmers are becoming articulate and that they know whereof they speak.

Seeing your I hope you have enjoyed your stay in Washington. ernment at first hand, you may have a better idea why its efforts at times seem lumbering and slow and complicated.

On the other hand, you may have seen that we are moving faster and accomplishing more practical results than you have been led to believe by the high and mighty gentlemen I have spoken of.

I want to thank you for your patience with us. I want to pledge our whole-hearted co-operation as you go forward.

We also quote from a Washington dispatch of May 14 the New York "Times" regarding other activities of the to the New farmers in Washington on that date:

Prior to visiting the White House, the farmers heard themselves described as "lost men" who had found themselves through the assistance of "a great President." They heard Secretary Wallace and Chester A. Davis, AAA Administrator, condemn critics as "privileged classes" who wanted to keep the farmer in want and destitution, and they heard their own members assail the "big fellows" who sought to wreck the AAA

Two sessions were held in Constitution Hall during the day, both amid the most colorful scenes staged in the Capital in many years. Leaders roused delegates to cheers that brought merriment and also embarrassment and individuals interjected provoking remarks.

"Come here, you razorbacks," a farmer from Arkansas shouted to his delegation.

delegation.

"We got no Governor, but we are here," a Georgian shouted.

Some one asked where Huey Long was, and the reply was a series of boos.

Secretary Wallace Hurls Tariff Charge President Roosevelt was not alone in applying epithets to his critics. Secretary Wallace declared that "damnable lies" had been circulated about Iowa by individuals who would protect high tariffs. He said that persons in his home State had been raised in the belief that their fathers had died in the Civil War because the fight was to protect the tariff, "which they put next to God.

President Roosevelt Plans Forceful Argument in Veto-ing Patman Bonus Bill, White House Announces— Hopes Congress Will Sustain Veto

President Roosevelt intends to veto the Patman President Roosevelt intends to veto the Patman "green-back" bonus bill in the most forceful language he can command, it was announced officially at the White House on May 16. This announcement, issued by Stephen Early, a Secretary to the President, was made after rumors had been circulated that the President, for political reasons, would not be displeased if Congress should override his veto, when given. Mr. Early explained that not only will Mr. Roosevelt veto the bill, but he hopes that the veto will be sustained. "I will say as definitely as I can," Mr. Early stated, "that the President is not interested in the bonus question because of political reasons or political expediency. He will yeto

of political reasons or political expediency. He will veto the bonus bill and his message on it will present as forceful an argument as he can on the subject."

The Patman bonus bill was sent to the White House yesterday (May 17), after Vice-President Garner had completed the final formality of affixing his signature to the measure. The President planned to write his veto message over the week-end, an it was thought that he would returned the vetoed bill to Congress on Monday. The bill will first to to the House, where Administration leaders believe it will be overriden. The most severe test is expected in the

Senate, around the middle of next week.

The rumors regarding the President's attitude on the The rumors regarding the President's attitude on the bonus issue arose most strongly after it was intimated that Vice-President Garner had told some Senators that Mr. Roosevelt would not be displeased if the Senate failed to sustain his veto. Other Administration advisers, including Jesse Jones, Chairman of the Reconstruction Finance Corporation, and Marriner S. Eccles, Governor of the Federal Reserve Board, have recently made statements in which they expressed their belief that payment of \$2,000,000,000 in new currency as the soldiers' bonus would not impair the Nation's credit position Nation's credit position.

Meanwhile Senators and Representatives favoring the Patman bill delayed in sending it to the White House this week in the hope that their forces would gain sufficient strength to enable them to override a veto. Compromise proposals, in the event that a veto is sustained, have also been suggested. These were discussed as follows in United Press Washington advices of May 15:

An attempt will be made to jam a compromise bill through Congress as an amendment to some routine appropriation measure if the Senate sustains the expected veto of the inflationary Patman bill, it was learned tonight. Veterans' leaders in Congress are prepared to sponsor a plan to give the

President an alternative of three ways of paying the bonus.

A group of veterans' leaders which is directing the bonus strategy met to-day in the office of Senator Elmer Thomas (Dem., Okla.) without reaching an agreement on the next move. The conferees said, however, that they generally favored a plan which would give President Roosevelt

an opportunity to study the measure over the week-end.

"There will be no opportunity for a vote to override the veto before the middle of next week," said Senator Thomas.

He declined to discuss reports of the proposed compromise and insisted it was not revived at to-day's meeting. From other sources, however, it was learned that various factions interested in the payment of the adjusted service certificates have revived the compromise turned down last week when Senator Thomas and his colleagues chose to make a straight-out

fight for the Patman measure. Alternatives Outlined

The proposal favored by Senator Bennett C. Clark (Dem., Mo.), who is engaged in behind-the-scenes maneuvers and who offered the Vinson plan as a substitute for the Patman bill in the Senate, would permit the President to pay the bonus: By a bond issue. By issuance of currency, By taking part or all of the \$2,250,000,000 out of the \$4,000,000,000 work relief fund.

Senator Clark declared such a compromise would win at least six more votes than the Patman bill on the question of overriding a veto. polls indicate a veto of the Patman bill would be sustained in the Senate by three votes.

Senators Thomas and Pat McCarran who are directing the strategy for the Patmanites, were said to-night to feel that they would be able to muster their full strength early next week to attempt to override the certain White House veto of the measure.

The passing of the Patman bonus bill by the Senate on May 7 was noted in our issue of May 11, page 3139.

President Roosevelt Determined that Utility Holding Company Bill Pass in Original Form, According to T. N. McCarter—Head of Edison Electric Institute Tells Savings Bankers President Has "Obsession" on Subject.

The public utility industry has been "singled out for destruction as part of a plan of national recovery," and President Roosevelt has an "obsession" in this respect, Thomas N. McCarter, President of the Edison Electric Institute, told more than 1,000 savings bankers, members of the National Association of Mutual Savings Banks, at their annual convention in New York City on May 8. Mr. McCarter spoke in place of Frank R. McNinch, the Chairman of the Federal Power Commission, who was forced to cancel a scheduled address because of illness. He declared that, so far as he is able to learn, the President is determined that the Rayburn-Wheeler bill providing for the elimination of utility holding companies shall pass Congress in its original form. He proved his audience to every effort original form. He urged his audience to exert every effort to prevent the passage of this measure.

Mr. McCarter's remarks were reported as follows in the New York "Times" of May 9:

"I cannot understand," he asserted, "why an industry like this should be suddenly singled out for destruction as a part of a plan of national recovery. It has been my duty to confer with the President on more than one occasion with reference to this situation. Far be it from me to speak disrespectfully of Congress and much less of the President of the United States, but I don't think I am overstating it when I say that, for some reason unknown to me, the President has an obsession on this subject. It is a condition of mind that even many of his closest associates in Washington do not understand.

"After heaping burden after burden on the public utility industry and taking away right after right, there has now gone to the extent of intro-ducing into Congress the Rayburn-Wheeler bill [to abolish holding companies and to give the Federal Power Commission extensive powers over utility operating companies].

"I have nothing on which to predicate a definite statement, but my belief is that the bill will be greatly modified from the form in which it has been introduced, either in the House or in the Senate, before it is passed." Report Backs Opinion

The bankers interrupted Mr. McCarter's observations with applause. They had heard an earlier committee report that said the outcome of the

Rayburn-Wheeler bill was uncertain.
"I am confident," Mr. McCarter continued, "that the opposition which developed during the hearing on the bill converted the majority of the members of the Congressional committees to the point where they are not in sympathy with the bill as written. But those of us who have practical experience in politics know that states of mind disappear when the political lash or the threat of defeat in the next election makes an appearance.

'So far as I know, the President is still completely determined, and so far as he can control, the bill will pass in its original form as introduced. No one objects to reasonable control. We have been under control generally for 25 years. But why the public utility industry should be singled out for destruction is beyond my comprehension. Gentlemen, we must not have that bill passed in Washington."

Senator Thomas Introduces Resolution Urging President Roosevelt to Take Lead in International Currency Stabilization—Asks World Conference When Dollar Adjustment is Completed

A resolution "requesting" President Roosevelt to suggest to other nations the advisability of preparing for early concerted action in stabilizing currencies, and asking him to summon a world conference when the value of the dollar had been satisfactorily adjusted and regulated, was introduced in the Senate on May 14 by Senator Thomas of Oklahoma. This resolution followed Secretary of the Treasury Morgenthau's radio address in which he said that when the rest of the world is ready to seek stabilization "Washington will not be an obstacle." The text of Mr. Morgenthau's

speech is contained elsewhere in this issue of the "Chronicle." Senator Thomas's resolution, however, stated that the United States "can and should take the lead in this necessary movement." A Washington dispatch of May 14 to the New York "Herald Tribune" quoted from the resolution as follows: follows:

President Roosevelt, under the Thomas resolution, would be requested to take steps toward the "adjustment and regulation of the dollar" that it may serve the best interests of the people, with proper consideration being given to the following conditions:

"The amount of the annual total tax bill of our several units of government.
"The amount of the annual total public and private interest items.
"The amount of the consolidated or massed debts, public and private, owed by the several units of government, corporations and the people jointly and severally."

Senator Thomas, an ardent inflationist and also a friend of silver, included in his resolution the mandate to the President to suggest "the advisability of considering the use of both gold and silver at an agreed and fixed ratio as a form of specie to be secured and held as the basis of the currencies" of the nations.

Naval Appropriations Bill Increased by \$11,690,000 in Senate Committee—Measure as Favorably Reported Carries Total Allotments of \$459,606,846

The Senate Appropriations Committee on May 9 favorably reported the Navy appropriation bill of 1936 totaling \$459,606,846, and providing for the construction of 24 new vessels. The Committee amended the House bill in several important particulars, including an increase of \$11,690,000 in the item for new building. In this action, the Committee followed recommendations of the Navy Department for the development of a treaty navy on the basis of the Vinson-Trammell authorization approved by the last Congress. The bill, as reported to the Senate, allots \$100,000,000 for

the construction of two cruisers authorized in 1929, and one aircraft carrier, 15 destroyers and six submarines authoraircraft carrier, 15 destroyers and six submarines authorized by the Vinson-Trammell measure. The House appropriation for new construction was only \$88,310,000, while the Senate Committee recommended that \$11,690,000 of the unexpended balances of other Navy appropriations for the current fiscal year be made available for new building.

Other details of the bill as reported by the Committee were outlined as follows in a Washington dispatch of May 9 to the New York "Herald Tribune":

The recommendation of Claude A. Swanson, Secretary of the Navy, as presented to the Committee by Admiral Land, said:

"The department had planned and the Bureau of the Budget approved an expenditure of \$23,380,000 for commencing 24 new vessels in 1936. The Committee recommended half of this amount, \$11,690,000, to the House and reduced the total for construction and machinery by this sum

to \$88,310,000.

"This cut will mean a slowing down in the construction of these vessels, particularly those allocated to navy yards. This will necessitate a delay in the completion of construction of these vessels and there will be a delay in their joining the fleet.

"In view of the fact that the 1936 appropriation for 'increase of the Navy' is the first appropriation made by Congress subsequent to the Vinson-Trammell bill, it would appear to be a very undesirable precedent for this Congress to cut in half the estimate prepared by the Navy Department and approved by the Administration. It is recommended that the total of \$88,310,000 be increased by \$11,690,000 to \$100,000,000."

Detailed Testimony Withheld

The testimony taken by the Committee and made public to-day showed that Admiral William H. Standley, chief of naval operations, appeared in behalf of the original amount. Details of the testimony were withheld from the print of the hearings as an "off-the-record" statement "concerning the international aspect, and effect of making it optional whether or not construction be begun immediately upon passage of the bill on 24 ships or only half this number."

The bill as reported to the Senate actually increased the total appropriation by only \$1,801,585. Of that amount, \$748,807 was in increased pay

Another item of increase was \$530,600 for operation of aircraft because the Navy will have more planes in service next year.

Another change which, like the ship construction amendment, does not increase the total of the bill is a recommendation that the Bureau of Aeronautics be allowed to enter into contracts for new planes up to an authorized limit of \$8,180,000 instead of \$5,000,000. This would permit the Bureau to purchase 25% spare parts instead of 10% as proposed by

Senate Votes to Extend NIRA to April 1 1936—Ignores President's Wish for Two-Year Continuation in Approving Clark Resolution—Senator Harrison Warns House Leaders to Take Similar Action— 7-Point NRA Program Has Executive Approval

Despite a demand by President Roosevelt that the National Industrial Recovery Act be continued for a two-year period, the Senate, without a record vote, on May 15 approved the Clark joint resolution which would continue the Act only until April 1 1936. The resolution would modify the NIRA in several important particulars after the expiration of the present law, on June 16. The resolution would prohibit price-fixing in codes, except those for mineral and natural resource industries, and would promineral and natural resource industries. hibit codes of fair competition for industries that are entirely intra-State. The President would be directed to review codes now in effect in order to determine whether they comply with the resolution within 30 days from June 15.

The text of the resolution as approved by the Senate

JOINT RESOLUTION

To extend until April 1 1936 the provisions of Title I of the National

Industrial Recovery Act, and for other purposes.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That Section 2(C) of Title I of the National Recovery Act is amended by striking out "at the expiration of two years after the date of enactment of this Act," and inserting in lieu thereof, "on April 1 1936."

Section 2. In the application of Title I of such Act after the date of enactment of this joint resolution and until April 1 1936, the following amendatory revisions shall apply:

(1) No price-fixing shall be permitted or sanctioned under the provisions

of any code; except that provisions for the regulation of prices under governmental control may be continued in codes for those mineral natural resource industries in which prices are now fixed pursuant to the provisions of any code and which the President finds to be so affected with a public interest that such regulation is necessary and proper in the public interest.

(2) No code of fair competition shall be applicable to any person whose

siness is wholly intra-State.

The President shall review or cause to be reviewed for compliance with the requirements of this joint resolution every code in effect on the date this joint resolution takes effect. In order to afford reasonable opportunity of such review, such codes are hereby continued in effect (subject to cancellation or modification pursuant to the provisions of this joint resolution) for a period of 30 days after June 15 1935, unless previously reviewed and superseded; but no such code shall continue in effect after the expiration of such 30-day period unless the President has reviewed such code and has approved it and finds that the code in the form so approved conforms to the requirements of this

Before the Senate vote was taken, Senator Harrison warned leaders of the House against attempting to extend the NIRA for two years. He said that as a conferee he would never agree to such a plan but would fight it desperately.

The probable length of extension of the NIRA was still in doubt late this week, in spite of the Senate's action, since President Roosevelt on May 16 approved a seven-point program providing for a two-year extension of the Act. This program is expected to be presented to the House as a substitute for the Clark resolution. The program, as made public by the NRA on May 16 with the President's endorsement, is as follows: endorsement, is as follows:

 Two-year exten ion. This time is necessary to obtain the co-operation of industry in the formulation of codes, with assurances to management and labor of reasonably permanent conditions. It is necessary to maintain an adequate personnel in the NRA; to work out problems of code administration; to strengthen enforcement through judicial approval of methods, and to prevent the entire breakdown of labor and fair trade practice provisions to prevent the entire breakdown of labor and fair trade practice provisions by chiselers who are already at work undermining the standards of fair competition. The extension of NRA for a few months will bring rapid deterioration and disintegration of the whole industrial recovery program.

2. Adequate period for the revision of codes—three to six months.

4. Jurisdiction of NRA limited to industries engaged in or substantially affecting inter-State commerce. This will prevent the NRA from taking in too much territory and will strengthen its legal authority.

in too much territory and will strengthen its legal authority.

5. Provision for voluntary codes and adequate authority for imposition of limited codes. Voluntary codes to encourage improved business practices, including appropriate labor provisions. Limited codes to insure minimum wages, maximum hours, prohibition of child labor, and Section

6. Definite authority and standards for the NRA to prevent unfair competitive practices, especially those tending to monopoly and destruction of small enterprises.

 Methods of code-making and enforcement should be further defined, with enforcement primarily through injunction or cease and desist orders. and with provision for adequate protection of individual rights and small enterprises through opportunity for hearing and judicial review, and public control of all compulsory proce

We quote, in part, from a Washington dispatch of May 14 to the New York "Times" describing the Senate action on the resolution:

Mr. Richberg, acting Chairman of the National Recovery Administration, used the words "complete folly" as he spoke at a mass meeting of NRA workers to-day relative to the policy of Congress extending the agency for only a brief time. His views were supported later in the Senate by Senator La Follette, Progressive, and Senator Shipstead, Farmer-Labor, the only Senators to raise their voices in support of President Roosevelt's two-year continuation program.

Despite the expressed attitude of the President toward the Clark resolution, Senate leaders, including the Democratic leader, Senator Robinson, and Mr. Harrison, have insisted since a conference with Mr. Roosevelt 10 days ago, that he will approve the measure if passed by both branches. Senator Harrison said that a new NRA bill would have taken weeks to enact and that it would be best to await the next session "and more clearly write a law that can be sustained by the courts."

Senator Long enid that he would not for the extension "not because I

Senator Long said that he would vote for the extension, "not because I like the NRA but because it dehorns it and gums it up." Senator Borah stated that he had a "tacit understanding" with Senator Harrison to support the resolution if it remained in its present form.

"I will vote for the resolution, but, like the Senator from Idaho, I do not want to be understood as favoring extension of the NRA for a single

not want to be understood as favoring extension of the NRA for a single minute," said Senator Glass. "If I could I would terminate it right on the spot, but I'll vote for the resolution because it perhaps is the best thing we can get."

Criticizing the Finance Committee for reporting the Clark resolution instead of a two-year extension, Senator La Follette said:

"If the resolution becomes law I venture the prediction that the NRA is as dead as a doornail. Anyone who is familiar with the administration of the NRA knows that, due to uncertainty, because of the approaching of the Naka knows that, due to uncertainty, because of the approximation of the present contract, June 16, and the legislative policy of Congress, there has been a process of rapid disintegration in NRA.

"If that uncertainty is permitted for the next 10 months, there won't be enough left of NRA to wad a shotgun. It is better for the country

and for everybody else to permit the NRA to expire June 16 than to pass this pusillanimous resolution."

Senator Nye Introduces Bill Imposing Huge War Taxes -100% Levy on Net Incomes Above \$10,000-99% on Corporate Returns Above 6%-Offered as Amendment to McSwain War Profits Bill

A bill proposing an automatic wartime tax of 100% personal net incomes in excess of \$10,000 a year, and 99% on corporate returns of above 6% was introduced in the Senate on May 3 by Senator Nye as the first of a series of measures to be proposed by his Munitions Investigating Committee to take the profits out of war.

The following further advices regarding the bill are from the Washington advices, May 3, to the New York "Times":

The bill was offered as an amendment to the McSwain war profits bill, already passed by the House, and the Munitions Committee said in its report that "it expects this anti-war profits bill to be passed."

The Committee "felt compelled" to substitute its bill for the McSwain

measure, the report said, because it believed that war profits could be curbed not by trying to fix prices "but by checking in its incipiency the thing which produces war profits, and that is war inflation." . . .

Price-Fixing Is Provided

ral income taxes, the Munitions Committee bill Besides imposing se provides for a draft of industrial management, control of commodities, control of finances and a grant of power to the President to fix prices, profits, wages and other rewards essential to war industry.

The burden of the bill, however, both in subject matter and in volumeit is 219 pages long—is the tax section. Speaking with all emphasis on the tax title, Senator Nye insisted that it was the major weapon to fight

excessive war profits in the future. "Under this bill individual incomes will be taxed so that no person will be permitted to retain more than \$10,000 for himself," he said.

does not mean that no man will be permitted to earn a large salary. He does not mean that no man will be permitted to earn a large salary. He will be entitled to all reasonable deductions, including deductions to pay interest and real estate and other taxes. The highest amount he can hold on to, after paying all his income taxes, will be \$10,000.

"Corporations will be taxed 15% on the first 2% of their earnings, 25% on everything from 2 to 6%, and 99% on everything over that.

"A Bill to End War Inflation"

"This is a bill to prevent profiteering and to protect the country from

war inflation and its evil consequences.

"The whole question of drafting man-power, drafting labor and capital, has been omitted from this particular bill because the committee is considering the War Department bill for mobilizing the man-power and capital resources for war purposes, and these questions will be dealt with in the report on that bill.

"The bill is voluminous because it is a revenue Act, along with other things. We have tried to provide a war revenue Act without disrupting the existing Treasury administration of income tax collection. Hence we have taken the existing revenue Act and woven into it our new rates and new controls, so that, in the event of war, the Treasury could shift to the new revenue plan with the least embarrassment."

Senate Passes Wagner Labor Disputes Bill 63 to 12— Amendment Defeated to Prevent Coercion of Workers—House Committee Favorably Reports Similar Measure

The Wagner labor disputes bill, designed to bring about industrial peace, was passed by the Senate on May 16 by a vote of 63 to 12. The bill, which provides for the creation of a permanent labor relations board to supervise employee elections; establish collective bargaining on the basis of majority rule, and give the board power to enforce its decisions in court, was sent to the House, where a somewhat similar measure is pending. As to the rejection of an amendment to the bill before its passage, Washington advices, May 16, to the New York "Herald Tribune" of May 17

Encouraged by the suggestion that passage of the bill to-day would mean a recess until Monday (May 20), Senators fairly raced through its provisions, pausing only to defeat an amendment offered by Senator Millard E. Tydings, Democrat, of Maryland.

This proposal, to write into the bill a provision prohibiting "coercion or intimidation from any source" in the selection of representatives for collective bargaining, proponents of the bill said, would have served to nullify the purposes of the measure. It was defeated, 50 to 21.

Except for the assistance of Senator Daniel O. Hastings, Republican, of Delaware, Senator Tydings stood almost alone in behalf of his amendment, which has been advected particularly by the automobile meanterturer.

which has been advocated particularly by the automobile manufacturers. Senator James Couzens, Republican, of Michigan, whose questions indicated that he, too, believed the Tydings program should be adopted to prevent competition among various unions for members, voted for the amendment, but later voted for passage of the bill.

The vote on the bill, 63 to 12, was cast as follows: the bill: 63, Democrats 49, Republicans 12, Farmer-Laborite 1, and Progressive 1; against the bill, 12, Democrats 4 and Republicans 8. Special advices from Washington, May 16, to the New York "Times" of May 17, in reporting the passage of the bill by the Senate, stated:

Although President Roosevelt has not declared himself directly on the Wagner bill, its sponsors say he will sign it after passage by the House, which they confidently predict. Senator Wagner, William Green, President of the American Federation of Labor, and others were said to-night to be seeking a special rule to speed the bill through the House.

Mr. Green asserted in a statement that the Senate's action would cause "general rejoicing" among workers, and that under the bill "working people may organize free from intimidation or coercion on the part of employers, may be represented by those of their own choosing in collective bargaining, and by a majority vote may select their own bargaining agency.

The bill went through the Senate with unexpected speed, as it was only brought to the floor on Tuesday, and debate upon it did not begin until yesterday. Opponents of the social legislation program seemed to feel they were unable to stop the mass progress of these proposals and that the Wagner bill was just another unit in the program.

Charges Made by Opponents

Charges were made by Senators Hastings and Tydings that the bill, if unamended, would result in coercion to join one particular labor union, but the name of this union was not specifically mentioned on the floor. However, there was no mistaking that the speakers meant the American Federation of Labor.

While the ratio of strength for the bill in this roll-call was far greater than in the vote on the Tydings amendment, only seven Democrats and 13 Republicans stood with Mr. Tydings for his recommendation, while 42 Democrats, eight Republicans and Senators La Follette and Shipstead were

pitted against him. His amendment would have written a provision prohibiting "coercion or intimidation from any source whatsoever" into the clauses permitting employees to organize for collective bargaining. He argued that it was only fair to insert this language in the bill.

He met with determined objection from Senators Wagner and Walsh, who said that the amendment had been unanimously beaten in the Labor Committee, and that to include it would thwart genuine efforts at collective bargaining by making organization moves susceptible to accusations that coercion or intimidation was being used against workers by certain unions.

When the vote came on the Tydings amendment the chair ruled that not enough Senators demanded a roll-call. Mr. Tydings protested, but the amendment was beaten in a viva voce vote. However, Senator Hastings announced that if a roll-call were not yielded, he would speak at length. Senator Johnson pleaded that in fairness to Mr. Tydings, a roll-call should be held, and he was successful.

An account from Washington, May 16, by the Associated Press reported as follows the principal features of the measure:

The principal features of the Wagner labor bill would:

Establish a permanent labor relations board of three members, a sort of quasi judicial body with power to order by secret ballot or otherwise an election to deter

mine collective bargaining representatives. Any orders promulgated by it after an election would be reviewable by the courts.

Lay down five unfair labor practices, and forbid employers from:

1. Interfering with, restraining or coercing employees in the exercise of their rights, guaranteed in another section, to organize and bargain collectively through representatives of their own choosing.

2. Dominating or interferring with the formation or administration of any labor organization or contributing financial aid or other support to it. This is what is called the company-dominated union ban.

3. Encouragaing or discouraging membership in any labor organization by discrimination in regard to hire or tenure of employment or any term or condition of employment.

rimination in regard to hire or tenure of employment of any properties of the proposed Act.

4. Discharging or discriminating against an employee for filing charges or giving satimony under the proposed Act.

5. Refusing to bargain collectively with the representatives of their employees, abject to the provisions of another section providing that bargaining representatives hosen by a majority of employees in a particular unit shall represent all the employees of such unit exclusively in bargaining on pay, wages, hours and other conditions. A minority would be allowed to present "grievances."

The last action on the House measure was taken on May 9, when the House Labor Committee voted unanimously to report the bill favorably. According to United Press advices from Washington, May 9, the bill as reported by the House committee would place the Labor Board under jurisdiction of the Labor Department, as recommended by Secretary Frances Perkins.

The Senate Committee on Education and Labor reported on the Senate bill on May 12, its report being made public the next day. This report is said to declare that "the time has come for a clean decision" to withdraw the governmental guarantee of collective bargaining contained in Section 7-A of the Recovery Act 'or implement it by effective legislation." The following further advices regarding the Senate Committee report are from Washington dispatches, May 3, to the New York "Times":

In expressing its approval of the measure as necessary because Section 7-A had broken down and because inadequate enforcement powers had been had broken down and because inadequate enforcement powers had been granted the National Labor Relations Board, the report contended that, in the opinion of the Committee, the bill was "a logical development of a philosophy and a consistent policy manifest in many Acts of Congress dealing over a period of years with labor relations."

In its analysis of the bill the Committee gave its view on provisions bitterly attacked by the employers—the closed shop, financing of so-called company unions, coercion of employees and majority rule.

The Committee inserted a provision making it an unfair practice for an

The Committee inserted a provision making it an unfair practice for an employer "to refuse to bargain collectively with the representatives of his employees."

In explaining its refusal to include in the bill a provision to ban coercion "from any source" when employees carry out their right of self-organization, the Committee pointed out that it was the "employer" who was prohibited from interfering with the right of his employees to

The corresponding right of the "employers," it was said, was that they, too, should be free to organize without interference on the part of the employees, and "no showing has been made that this right of

of the employees, and "no showing has been made that this right of employers to organize needs Federal protection against employees."

The Committee attached to the second unfair labor practice the proviso that subject to rules published by the National Labor Relations Board, "an employer shall not be prohibited from permitting employees to confer with him during working hours without loss of time or pay."

In two respects the bill was said to narrow the existing law regarding closed shop agreements. While to-day "an employer may negotiate such an agreement even with a minority union, the bill provides that an employer shall be allowed to make closed shop contracts with with a labor organization that represents the majority of employees in the appropriate collective bargaining unit covered by such agreement when made."

Objections voiced to the bill were referred to in our issue of April 13, page 2453.

Banking Unification Needed for Proper Control of Currency and Credit, Governor Eccles Testifies— Tells Senate Committee Title II of Proposed Law Should Be Enacted—Clashes with Senator Glass on Government Authority over Central Banks

Unless unification of the banking system of the United States is brought about, the effectiveness of proposed legislation designed to control the country's credit and currency needs will be distinctly limited, Governor Marriner S. Eccles of the Federal Reserve Board told the Senate Banking and Currency Committee on May 10. Governor Eccles was testifying in his first appearance before the Committee on behalf of Title II of the proposed Banking Act of 1935.

He asserted that no central bank exists to-day which is not controlled by the Government of the country in which it is situated. This statement was challenged by Senator it is situated. Glass, heading the subcommittee which was conducting the hearing. Senator Glass said that he had been told that instead of Prime Minister MacDonald directing the Bank of England what to do, it was the Bank that issued the instructions. Mr. Eccles at another time assured Senator Glass that he did not favor Father Coughlin's proposal for "central bank" because "it was not a practical arrangement.

Mr. Eccles criticized the action of the House of Representatives in eliminating from the Administration's bill a provision which would force all banks which are members of the Federal Deposit Insurance Corporation to join the Federal Reserve System by July 1937, and said that this should be restored, with the modification that all banks with deposits above \$500,000 must join the System within a year of entering the deposit insurance plan.

Governor Eccles read a long prepared statement in which he defended the provisions of Title II of the Banking Act of 1935, and said that it would provide for "public" and not 'political" control. In summarizing the reasons on which the proposed changes in the banking laws are based he

Perhaps the best way to explain the reasons for the changes proposed in this bill is to ask you to consider what kind of a system would be devised, if a plan for such a system were to be formulated at the present devised, if a plan for such a system were to be formulated at the present time. It would be considered desirable that all banks carrying deposits subject to check be members of the system. It would also be deemed desirable that the banks be supervised, but in a country the size of ours it would be undesirable to centralize in Washington all operations pertaining to individual banks. What would be done is to provide for regional Reserve banks with a large degree of local autonomy in dealing with their local member banks. It is equally clear that national monetary policies would have to be under public, not pricate or banker, control. Such policies would be placed under a body appointed by the President and confirmed by the Senate. Provision would be made to insure as far as possible that the controlling body be composed of the best talent available and that it be in a position to resist pressure to pursue policies for undesirable purposes. To this end both authority and responsibility would be concentrated in that body; its members would be made finanfor undesirable purposes. To this end both authority and responsibility would be concentrated in that body; its members would be made financially independent; high qualifications for membership and an objective toward which policy should be directed would be laid down. That body would be entrusted with sufficiently effective instruments of policy to make the system responsive to changing conditions, and would be given discretion in the regulation of bank operations.

The system, which I have ventured to suggest would be established if a new plan now being formulated, differs little from the Federal Reserve System with the changes proposed in the Banking Bill of 1935. We propose to facilitate entrance of non-member banks into the Federal

Propose to facilitate entrance of non-member banks into the Federal Reserve System. We propose to increase the regional autonomy of the Reserve banks in matters pertaining to local credit administration. We propose to increase the authority and responsibility of the Federal Reserve Board in matters pertaining to national monetary policies; to lay down qualifications for future Federal Reserve Board members; to grant to future members pensions and higher salaries. In these ways we hope to make a position on the Board more attractive to outstanding men. We suggest a specific objective of monetary policy. We propose that the system's organization be made more amenable to Federal Reserve Board policy; that the banking system be made more responsive by making it safe for the banks to meet the changing nature of the community's requirements for loans, and by liberalizing the provisions in respect to real estate loans; and, finally, we propose the removal of various impediments to effective policy, such as collateral requirements for notes.

A Washington dispatch of May 10 to the New York "Times" quoted from other portions of Governor Eccles's testimony before the Committee as follows:

Mr. Eccles's statement that there was no central bank not under con-

"On the contrary, I heard a man in New York, who is thoroughly familiar with the British system, say that the Premier of England would not dare tell the Bank of England what to do, but rather the Bank of England tells the Premier what to do."

Mr. Eccles retorted:

Mr. Eccles retorted:

"There is a very responsive co-operative relationship between the Chancellor of the Exchequer and the Bank of England."

To substantiate this statement, he read from a declaration by Viscount

Snowden, former Chancellor of the Exchequer, that no important step was ever taken without consultation between the Bank of England and the

"Are you in favor of a Government central bank?" asked Senator Glass. "No, not in the sense of transfer of ownership and creation of one bank," the reply.

"Do you favor Father Coughlin's central bank proposal?"

Mr. Eccles answered rather sharply.

"Well, why not?"

Coughlin Plan "Not Practical"

"Owner-"Well, it is not a practical arrangement," said Mr. Eccles. well, it is not a practical arrangement," said Mr. Eccles. "Ownership is not a vital matter. It makes no difference whether the Government or the banks own the stock. It seems to me that those charged with management are more important than who owns the stock."

"If it is a central bank, it ought to be a bank and have proprietary interest," Senator Courses entered the discoursion central.

Senator Couzens entered the discussion, asking: "Assuming your bill had been in force in 1928-1929, what procedure

would you have taken?"

The Reserve Governor said he could not answer this "rather broad question." Mr. Couzens insisted, however, that the question "seems important to me." Then Mr. Eccles said:

"I think the Banking Act of 1933 would have been more effective than this bill. It provides control over speculation, margins and collateral loans—it seems to deal directly with the situation."

"Then most of those abuses have been remedied by the Banking Act of 1933," Senator Couzens commented ironically.

"In so far as speculation goes, the 1933 Act takes care of it," Mr.

Eccles said.

He wished to continue with his prepared statement, but Senator Glass

asked for a reply to Mr. Couzens's question.

"The efforts of the two former Secretaries of the Treasury (Mr. Glass and Senator McAdoo, who also joined in the questioning) seem to me to estop an answer to my question," Senator Couzens put in, but Mr. Glass said he was only trying to elicit the answer.

Senator Townsend suggested that Mr. Couzens was entitled to a reply.

Finally, Mr. Eccles said the bill did not propose any new activity along the line of controlling speculation.

Hastings Resolution Intimates Administration Aided Farm "March" on Washington-Sharp Debate in Senate and House on Government's Policies

Charges that the Federal Government had financed and directed this week "march" of more than 4,000 farmers to Washington were made on May 15 in a resolution introduced in the Senate by Senator Hastings of Delaware. On the same day, in the House, Representative Fish declared that the cotton farmers were "following the New Deal Pied Pipers in a dance of death toward vanishing world markets and ruin and desolation for the South." Meanwhile many members of Meanwhile many members of the farmers' delegation that had heard President Roosevelt's address in May 14 sat in the galleries of the Senate and House and applauded as Administration leaders assailed the critics of the President and of the Agricultural Adjustment Administration.

Senators Lewis and Connally made a sharp attack on Senator Hastings' resolution, which called upon Secretary of Agriculture Wallace to furnish all correspondence concerning the farm march and all available information as to its financing. No action was taken immediately on the resolu-tion but Mr. Wallace denied that the Government had any connection with inspiring the "march." United Press Washington advices of May 15 summarized

the day's debate in Senate and House as follows:

Republicans in Congress counter-attacked to-day against President Roosevelt's charge that influential citizens are lying about the Administration's farm program.

The President's speech," said Senator Daniel O. Hastings (Rep., Del.) eminds me of a small town bully."

"reminds me of a small town bully."

"The President lost his head—and that is the mildest term that can be applied," said Representative Hamilton Fish (Rep., N. Y.), who represents the district in which Mr. Roosevelt's Hyde Park estate is situated.

The speakers referred to the President's address yesterday to 4,500 farmers who came here to indorse the AAA's crop program, and assembled on the White House lawn to hear Mr. Roosevelt say that "high and mighty persons are lying about our agricultural program."

"The President's speech," said Mr. Hastings, "reminds me of the small town bully, who boldly and courageously calls his opponents foul names when he has his own crowd about him to protect him."

he has his own crowd about him to protect him." James Hamilton Lewis, senior Senator from Illinois and Democratic whip

the Senate, defended Mr. Roosevelt. "The President is to be congratulated," he said, "May his tribe increase and his performances multiply. I pay tribute to him for yielding to the popular impulse to call slanderers of the Government that which they are—liars. Certain liars have been attempting to convince the nation that we are on the verge of inflation and others are guilty of seeking to mislead the people about the Administration's labor policies."

Senate Committee Approves Measure to Appropriate \$25,000 for ICC Investigation of Railroads

A resolution sponsored by Senator Wheeler, alloting funds for an investigation of the railroads, was approved May 15 by the Senate Audit and Control Committee after the measure had caused a long deadlock. The resolution was reported in amended form to the Senate with the recom-mendation that the \$25,000 appropriation requested be granted. The inquiry cannot begin, however, until the resolution is approved by the Senate.

The approval of this resolution on April 8 by the Senate Committee on Interstate Commerce was noted in the "Chronicle" of April 20, page 2629. A Washington dispatch of May 15 to the New York "Journal of Commerce" recorded the action of the Audit and Control Committee

as follows:

Sponsored by Senator Wheeler (Dem., Mont.) the measure already had received the indorsement of the Interstate Commerce Commission of which he is Chairman, but ran into a storm of opposition when submitted to the Audit and Control Committee for approval of the \$25,000 appropriation.

Several hearings were held by the Committee before approval was given during which Chairman Jesse H. Jones of the Reconstruction Finance Corporation and Chairman Joseph P. Kennedy of the Securities and Exchange Commission testified in executive session. They were said They were said

to be divided as to the necessity for the inquiry.

If the resolution meets with the approval of the Senate, Chairman Wheeler said to-day that his Committee would begin open hearings sometime next fall. Preliminary work in the inquiry would be conducted in the meantime by the ICC and other agencies of the Government which re directed in the amended resolution to assist the Committee.

Senate Interstate Commerce Committee Reports Modified Utility Holding Company Bill—Provisions Still Regarded as Drastic—House Group Unable to Agree on Several Features, and Changes are Indicated

The Senate Interstate Commerce Committee on May 15 made public its report on the Wheeler-Rayburn utility holding company bill. Senator Wheeler, Chairman of the Committee, indicated that he plans to bring the measure up for consideration as soon as is practicable. It is expected that the bill will be considered before the social security legislation. As reported by the Interstate Commerce Committee, the bill is a substitute for the original measure which was introduced in the Senate on Feb. 8 as an Administration proposal. While the bill in its present form contains some modifications, its provisions are nevertheless regarded as most drastic.

Leaders in the House of Representatives were reported on May 15 as having decided to speed action on the utility control bill, although it was believed that some features of the measure may be considerably changed in the House. The bill is now before a subcommittee of the House Interstate Commerce Committee, which has been unable to agree on some features-notably as to whether to indorse outright dissolution of holding companies or the regulation of such

concerns. The report of the Senate Committee on May 15 said that the purpose of the measure is the breaking up of unwieldy and concentrated political and financial power in the hands of unnecessary holding companies and the bringing of savings to consumers. Quotations from the Committee report are given below, as contained in a Washington dispatch of May 15 to the New York "Times":

Referring to Title I, which contains the dissolution requirement, the committee said:

"The title requires that a holding company be permitted to hold only a single system of operating companies in order to break down dangerous and unnecessary nation-wide financial interlockings in the essentially local operating utility business; to break down the concentration of the economic and political power now vested in the power trust; to reduce utility enterprises to a size and power which can successfully be regulated by local and Federal regulatory commissions; to rearrange the relationships between operating and holding companies on a functional basis so that intelligent regulation is possible; to confine the operations and the interest of each public utility system to a given region so that the system will have to work out a modus vivendi with the population of that region.

Called "Breeder and Bad Relations

"Private utilities, with their legalized monopolies, are chartered to serve public ends. A far-flung, disjointed system is independent and absentee so far as any particular community in its system is concerned. Its management has the problems of no one community for its exclusive consider-

"It derives a great portion of its power and its profits from outside sources over which the community has no control. It can never be suc-cessfully regulated by the community it serves. It is a breeder of bad public relations.

Recognizing the constitutional limitations upon the powers of the Senate and the exclusive right of the House to start tax legislation, the committee stopped just short of providing encouragement of holding company structure readjustments by taxation, but suggested that existing revenus laws

should be amended in this regard.

In the consideration of this matter the committee recommended that income as well as stamp and transfer taxes be utilized.

Way for Rate Action is Seen

As for the gradual integration of existing utility systems along more economic and regional lines which the bill seeks to accomplish, the report said that with consolidations limited to companies in a single territory, there would be opportunity "for the territorial raids at fantastic prices with which for fifteen years competing holding companies' systems dis-turbed the operating business."

"Essentially local systems will tend to operate utilities rather than to play with high finance; and essentially local enterprise is far less likely to accumulate a disproportionate amount of political and economic power," said the report.

Replying to arguments of opponents of the bill that prospective company reorganization would further carry down security values, the committee

"As a matter of fact the valuation which the market places on holding company securities to-day is but a rough calculation or prediction of the break-up value of an interest in the holding company's conglomeration of interests in operating properties.

"During any proces s or reorganization under this title the market appraisal of values is likely to be more accurate and reliable than at present because of the focusing of attention upon the down-to-the-rail assets which make up the real value of holding company securities."

Rather than demoralizing the market, for securities of operating companies, the net effect of changes resulting from the bill would be to strength.

en the market on utility securities generally, the committee held, "by replacing holding company securities with sound operating company

In explanation of the holding company dissolution mandate, the report said it was "simply a requirement that within five years (with certain permissible extensions) the presently existing holding companies must choose

"(a) To turn themselves into investment trusts by making legal arrangements which will deprive them of control of the management of operating companies, or (b) to rearrange or reduce their holdings in operating companies, so that each holding company will control the management of only a single system of operating companies, which single system is not mixed up with any extraneous businesses such as real estate, hotels, and operations in foreign countries, and is either predominantly intrastate, or geo-graphically and economically integrated in contiguous States, the laws of which will not permit merger into a single operating system.

Report on Personal Income Tax and Crediting Device Prepared for Interstate Commission on Conflicting

There has been issued by the American Legislators' Asso ciation, with headquarters in Chicago, a research report, prepared for the Interstate Commission on Conflicting Taxation, on "The Personal Income Tax and the Crediting Device." Regarding the study the following Regarding the study, the following summary has been made available:

The purpose of the Personal Income Tax and the Crediting Device is to examine the applicability to individual income taxes of a crediting plan similar to the one now employed in the field of death taxation. The report is divided into four parts. The first examines the conflicts between Federal and State personal income taxes and considers some of the important problems which would be raised by adoption of the crediting scheme. Among these issues are the scope of the credit, the limitations and restrictions on State freedom of action, the measures of administrative economy, the probable influence on rate and exemption conflicts, the effect of the stability and elasticity on State income tax revenues, and the extent to which double taxation as between different States would probably be eliminated.

The effectiveness of the crediting plan in eliminating double and conflicting taxation depends on the degree of State uniformity required for sharing in the Federal credit. In Part II the consequences of the various possible prescriptions which might be incorporated in a Federal statute Among these possibilities are uniform methods of dealing are examined. with the allocation of income between States, the results of unifying administrative procedure, the possible requirements respecting definitions of income, and the results which would flow from uniform rate prescriptions. The particular type of uniformity which has received most generous support, it is pointed out, is that having to do with allocation of income among the several States with particular reference to the desirability of eliminating double taxation.

In the third part the authors examine the statistical consequences for the Federal Government and the various States of adopting alternative possible crediting plans. It is shown that the distribution of the benefits of the crediting device would be erratic and that complete absorption of credits by the taxpayers of certain States would be impractical. Finally, the consequences favorable to crediting a flat proportion of the Federal tax and to crediting various proportions depending on the size of the income

The fourth part of the study is predicated on the assumption that no possibility of adopting the crediting device, without replacing the Federal revenue which would be lost, exists at the present time. The chapter is devoted to examining the alternatives available:

(a) Eliminating the exemptions or credits now allowed, for example, for corporation dividends, interest on governmental obligations, salaries of public officials and employees, and earned incomes.

(b) Reducing the personal exemptions.(c) Increasing the rates.

It is shown that the method of providing personal exemptions in 1934 resulted in a revenue loss of approximately 25.2% of the total revenue, and that still more revenue could have been raised by a disappearing exemption consistent with the theory on which exemptions are based. The consequences of revision to secure greater income tax revenues without unduly severe rates are examined.

Secretary of the Treasury Morgenthau Advocates Government Ownership of Federal Reserve Bank Stock—Urges Central Bank to Control Credit and Currency—Avoids Answering Questions on Inflation and "Sound Money" Before Senate Com-

Secretary of the Treasury Morgenthau yesterday (May 17) expressed his belief that the Government should own all of the stock of the Federal Reserve Banks, and at the same time advocated the creation of a central bank which would enable the Government to exercise rigid control of credit and currency. Testifying before a subcommittee of the Senate Banking Committee on the Administration's Omnibus Banking Bill, the Secretary strongly indorsed the measure, includ-ing Title II, which would establish Government control over the open-market operations of the Federal Reserve System. Mr. Morgenthau refused to answer questions dealing with inflation or "sound money," explaining that the pending Patman bonus bill precluded his discussing these subjects

at the present time.

Associated Press Washington advices of May 17 summarrized the Secretary's testimony in part as follows:

Senator Glass asked Mr. Morgenthau whether he had "any substantive reason to suppose that the proposed open market committee composed entirely of Federal Reserve Board members would operate more effectively than the one now established by statute." The present board is selected by governors of the reserve districts, with its action subject to the board's

Mr. Morgenthau hedged, commenting that "these various instruments of credit I believe should all be centered in one place. They should all be centered in Government authority.

After repeated efforts to get the Secretary to reply Mr. Glass observed: You didn't answer my question, but you answered it sufficiently for me to conjecture what your real judgment was."

Mr. Morgenthau grinned, then laughed, and members of the committee laughed with him as they recalled that Marriner S. Eccles, governor of the Federal Reserve Board, had advocated in the bill the concentration of the credit control authority in the board.

Mr. Morgenthau refused to define inflation or sound money for Senator McAdoo, Democrat, of California, a former Secretary of the Treasury. He said the fact that the bonus bill was pending before the President pre-

vented him from talking on that subject. "Do you consider United States notes, with a $40\,\%$ gold reserve, sound

mey?' Mr. McAdoo asked.
'I'm not very smart on those things,' Mr. Morgenthau replied. "A bill is pending before the President that involves greenbacks, and I'd rather

Mr. McAdoo said his questions did not involve the bonus bill and when Mr. Morgenthau said there were "a lot of experts down at the Treasury to discuss the theory of money," the Californian said:

"I'm talking about actualities."
"I can't talk," Mr. Morgenthau replied, "and that ends it."
At the start of the hearing, Mr. Glass asked:

"As Secretary of the Treasury you've had the cooperation of the existing open market committee?"

"I've been in the Treasury about a year and a half," Mr. Morgenthau

replied, "and it so happened that the week I came in was the last week the committee purchased any securities. "I have gotten along extremely well with the committee. I have no complaint to make as to their attitude. They have played a very unim-

portant role in the last year and half. They have turned over securities as they became due and reinvested them."

'Haven't they put any of your securities on the market?" asked Mr

'They've invested about two and half billions and kept them constant. There have been times when I thought they might have shown a little more courage toward long-term securities, but they evidently thought the shorter term ones better. As the securities became due they invested in the short

term."
"Isn't that good business?" Mr. Glass asked.
"It hasn't proven to be," the Secretary said. "Investors in longer term securities have made money out of them."

The Secretary said he favored the "same supervision over credit that the Government has over inspection of banks."

Getting back to open market policies, Senator Couzens, Republican, of Michigan, asked if it was not possible under existing law for the open market policy to run into "very definite conflict."

"Yes," the Secretary replied.
"And the purpose of this bill is to avoid that conflict?" Mr. Couzens asked.

"Couldn't the Federal Reserve System under the bill be used to finance the Government?" Mr. Glass queried.

"I'll have to take your word for that." Mr. Morgenthau said. Pressing further his elaboration on how independent the board he proposed should be of political control, Mr. Morgenthau said it should be subject to removal only by impeachment.

Secretary of State Hull Indorses Idea of World Currency Stabilization—Statement Says Secretary Morgenthau's Offer Prepares Path for Revival of Trade

Secretary of State Hull, in a statement issued on May 15, said that the speech made by Secretary of the Treasury Morgenthau on May 13, when he remarked that the United States would welcome concerted action for world currency stabilization, "pointed toward the direction toward which the world can look for further improvement of its affairs." International monetary stabilization and reciprocal nego-tiations for removing foreign trade barriers are complimentary, Mr. Hull said.

The text of Mr. Morgenthau's speech is given elsewhere in this issue of the "Chronicle." Mr. Hull in his statement said that exchange fluctuations have created a state of confusion in world markets, he believes this confusion "to be only a transient condition incidental to the re-establishment of a new and better balanced stability." Mr. Hull's statement was as follows:

The speech delivered by the Secretary of the Treasury on May 13 was timely, clarifying, and pointed in the direction toward which the world can look for a further general improvement of its affairs.

The fluctuations of exchanges have created a state of confusion in world markets, but I believe this confusion to be only a transient condition incidental to the reestablishment of a new and better balanced stability.

That international trade has been able to maintain even its present reduced volume during this period of difficulty shows that this trade satisfies genuine needs, but it has not been able to regain previous volume, and this is one of the reasons why most governments to-day still face such grave problems of unemployment and of business depression.

Our effort to rebuild American foreign trade is being carried steadily forward—with the necessary safeguards against currency fluctuations.

Signs are not lacking that other governments, finding other methods unsat-isfactory, are now disposed to direct their policy in the same direction.

All progress made in extending world trade makes it easier to regularize currency relationships. Correspondingly, all progress in this direction makes it much easier and safer for governments to arrange for an extension

These movements supplement each other. As trade grows and currencies approach a condition of stability, the rigid control over exchanges, which many governments now exercise can be lessened or abolished.

These exchange controls were imposed in many instances with a view of protecting the value of national currencies. Experience seems to show that while they may serve this purpose during critical periods, it is at the hindrance of trade interests.

Experience also seems to show that their use to gain trade advantage is short-lived and at the expense of other countries which in turn take steps to counteract that advantage. The progress of trade agreements and the expansion of foreign trade are intimately related to progress made toward a greater measure of exchange stability and a better balance of prices.

Leon Fraser Praises Morgenthau Stabilization Pronouncement—Retiring Head of Bank for Inter-national Settlements Says Responsibility for Delay Belongs to Great Britain

Secretary of the Treasury Morgenthau's statement regarding the willingness of the United States to join with other Nations to aid currency stabilization is "a splendid exposition of the American Government's attitude on monetary matters" and "places the responsibility of the delay where it probably belongs, namely, the Government of Great Britain." Leon Fraser, retiring President of the Bank for International Settlements, said on May 15. Mr. Fraser issued a formal statement in which he commented on Mr. Morgenthau's speech of May 13, and in which he declared that the United States should not yet definitely stabilize or abandon its liberty of action on the chance that other Government's might follow. Mr. Fraser's statement was as follows:

I consider Mr. Morgenthau's statement a splendid exposition of the American Government's attitude on monetary matters. He has correctly emphasized the solidity of the dollar, which, in my judgment, is the strongest currency in the world.

While I am not in agreement with some of his inferences that look like mic nationalism, I unreservedly share his view that the United States should not yet definitely stabilize or abandon its liberty of action on the mere chance other Governments may follow.

Contrarily, stabilization should come by mutual agreement beta leading powers who must tie their hands when we tie ours.

In publicly stating Washington is not unwilling to stabilize and will not be an obstacle when other governments are ready. Mr. Morgenthau has made the most constructive contribution toward bringing stabilization

to a head, thus opening the way to a general rise in prices and real world recovery, that has been made by any one.

Europe has had erroneous ideas about the American position, and Mr. Morgenthau's speech clears the air and places the responsibility for the delay where it probably belongs, namely, the Government of Great Britain.

Issuance of the text of the Morgenthau speech through the Bank for International Settlement was noted as follows in a dispatch from Basle, Switzerland, to the New York "Times" on May 15:

His statement was made for World Bank officials, who had asked their former President's opinion on the Washington move.

This followed an unprecedented step by the United States Government,

which transmitted through its Paris Embassy the text of the Morgenthau speech to the World Bank for the information of Europe's Central Bank governors, apparently thinking they were still here for the meeting of the Bank for International Settlements.

The full text served very largely to reverse the unfavorable effect which brief press summaries caused yesterday among the few bankers then still

Text Sent to Member Banks

Had it been released here simultaneously with delivery in Washington it would have reached most of the governors while they were together.

It undoubtedly would have improved the atmosphere and stimulated much in the way of exchange of views. Its lateness, therefore, is much regretted

J. W. Beyen, alternate to President Trip and in charge of the World Bank during the President's absence, set another precedent to-day by ordering prompt distribution of the Morgenthau text to all twenty-seven

ember-central banks, along with with Mr. Fraser's comment.

This is the first time the Bank has served as a distributing centre for State documents of this kind.

Ogden L. Mills Challenges Statements of Secretary
Morgenthau on Gold Policy—Former Treasury
Head Terms Abandonment of Gold Standard "Disastrous" - Criticizes Failure to Mention Balanced

The abandonment of the gold standard by the United States in April 1933 was "unnecessary and disastrous" and the country has "not begun to pay the full consequences of the step taken at that time," Ogden L. Mills, former Secretary of the Treasury, said on May 14 in a statement replying to the radio address of the preceding day by Secretary of the Treasury Morgenthau. Mr. Mills said that the facts failed to support Mr. Morgenthau's charge that the retention of the gold standard by the Hoover Administration was tion of the gold standard by the Hoover Administration was "economic suicide."

The text of Secretary Morgenthau's radio speech is given elsewhere in this issue of the "Chronicle." Mr. Mills, referring to Mr. Morgenthau's statement that gold was flowing heavily out of the country early in 1932, asked why the Secretary did not mention the "great inflow of gold during the latter part of 1932." He said that Mr. Morgenthau's expressed willingness to participate in international currency stabilization could be regarded as "distinctly encouraging," but added that he was disappointed no mention was made of "one of the indispensable elements of permanent stabilization—a balanced budget."

A part of Mr. Mills' statement is given below:

Any one listening to or reading Mr. Morgenthau's statement was led to no other conclusion than that, beginning with England's abandonment of the gold standard, the process above described was continuous, with con-stant and uninterrupted loss of gold exerting unremitting pressure, and that the obstinate refusal of the administration then in power to abandon the gold standard at once was the underlying cause of the eventual panic and of the events that preceded it.

What are the facts? From the end of September 1931, to the end of June 1932, we did lose some \$800,000,000 in gold, due principally to the withdrawal of short-term balances of the French Government and

of the Bank of France.

By July 1932, however, so effective were the policies pursued by the administration, such as unflinching adherence to payment of gold on de-mand, the securing of the Glass-Steagall measure and the determined efforts to bring the budget into balance, that the movement had definitely

spent itself. From July 1932, to January 1933, gold flowed back into this country uninterruptedly, in an aggregate amount of over \$550,000,000. In fact, taking the year 1932 as a whole, our monetary gold stock increased rather than decreased. During all of the summer and early fall of 1932 trade. business, prices and employment all turned upward. In other words, the fight for the dollar and returning confidence had done the trick.

Why did Mr. Morgenthau, in what purports to be a recital of facts, fail to tell the American people of the great inflow of gold during the latter part of 1932, of the actual increase in monetary gold stocks during that calendar year and of the sharp upturn in business during the summer of 1932? Because these facts completely destroy his case.

United States Will Stabilize Currency When Other Leading Nations Are Also Ready, Secretary of the Treasury Morgenthau Asserts—Credits Devalua-tion with Sharp Gains in Foreign Trade and Recovery—Warns This Country Can Devalue Further if Others Do

That the United States is prepared to stabilize its currency whenever other leading nations are prepared to enter an agreement for world stabilization, but it will not stabilize before such a time and lose the benefits already gained by the Administration's monetary policies was de-clared on May 13 by Secretary of the Treasury Henry Morgenthau Jr., in a radio address on "The American Dollar." Mr. Morgenthau's speech was interpreted as indicating that the United States is ready at any time to listen to stabilization proposals from Great Britain or other countries, but that it will not make the first move in this direction.

The Secretary defended devaluation of the dollar by the Roosevelt Administration, and asserted that this action has aided in reviving American foreign trade. He declared that the United States now has the "soundest currency" in the world, and said that although this country does not

intend to engage in a competitive currency devaluation race, its "hands are untied" and "we can go either way."

Mr. Morgenthau did not discuss the Administration's silver-buying policy in as great detail as some had expected, although he said that the Treasury is seeking to restore silver to greater usefulness as a monetary metal. The silver to greater usefulness as a monetary metal. The Administration gold embargo and gold seizure, he contended, rescued the United States from chaos, protected the country through the most trying recovery period, and is now acting as "the spearhead" of further recovery.

After remarking that the United States was the thirty-

first nation to abandon gold, he pointed out that Belgium had only recently taken a similar step. In his discussion possible stabilization measures, one of the most significant passages in the speech was:

The world should know that when it is ready to seek foreign exchange stabilization, Washington will not be an obstacle. Our position was that of an innocent bystander who suffered untold losses in a fight that he did not start and from which he could not escape. Why should we be singled out and admonished that the moral duty to restore order is primarily ours?

The Secretary quoted from a compilation based on statistics supplied by 29 leading American manufacturing concerns, and said that these were evidence that American foreign trade had recovered under the Administration's monetary depreciation. Export sales of these companies, he pointed out, last year were 59% above 1932, while their employees in the same period had been increased by 204,000, The same companies had an aggregate net loss of \$121,000,000 in 1932 and a profit of \$128,000,000 last year. Other figures showed that the foreign trade of the United States increased in both physical and dollar volume in 1934 as compared with the two preceding years, and also repre-sented a greater proportionate part of the world's trade. The complete text of Secretary Morgenthau's address is

given below:

The American Dollar

It is my purpose, to-night, to state a few simple facts which, I hope, will contribute to a clearer understanding of the monetary policy of the nited States. I shall not enter into complicated discussion of the theory money. I shall merely tell you what has been done, why, and the effect. In order to examine the record in logical sequence, it is necessary to

In order to examine the record in logical sequence, it is necessary to review, briefly, the background of our present problems. Foreign trade has, from the beginning, been an important factor in the business of the American people. During the 18 years immediately preceding the outbreak of the World War, we exported \$31,000,000,000 worth of merchandise, almost all of which was paid for with goods and services that we received. The net gold movement to us was relatively small, amounting to \$174,000,000. Foreigners invested in the United States, during those 18 years, \$2,000,000,000; Americans invested abroad \$1,000,000,000. At the outbreak of the World War the American people owed the world outbreak of the World War the American people owed the \$3,000,000,000 more than foreigners owed us. That was what the ledger showed on July 1 1914.

With the beginning of the World War a tremendous change took place. From July of 1914 to the end of 1922 we exported \$47,000,000,000 worth of merchandise. Much of this was paid for with goods, services and gold, but there remained due us a balance of \$19,000,000,000, for which

took mostly promises to pay.

Now note the contrast. In the previous 18-year period, with our country one of the world's attractive fields for capital investment, we drew about \$1,000,000,000 net from abroad, but when we became a creditor nation, the net outflow of capital reached \$19,000,000,000 in the eight

years between the beginning of the World War and the end of 1922.

Nor did we stop there. We continued to export more than we imported, thus accumulating an additional \$2,500,000,000 of net foreign investment

by the end of 1929.

If we deduct from the grand total of our loans and investments abroad all of the loans and credits that foreigners have here and then examine the status of our net foreign investment, we find that an amount equal

the status of our net foreign investment, we find that an amount equal to two-thirds of it is to-day in partial or complete default.

There you have the background, from an American point of view, when in 1931 things headed toward a crisis all over the world. Credit and currency difficulties which had been spreading throughout Europe came to a head in the spring of that year. On Sept. 21 1931 Great Britain suspended gold payments. Norway, Sweden and Denmark followed within a week. Japan acted in December. Other nations either went off gold or took equivalent action to control their foreign exchange.

As the retions went off gold the value of their guyrencies in interpretional

As the nations went off gold, the value of their currencies in international exchange dropped sharply, and our customers found it difficult to get dollars with which to pay for American products. They could trade with each other to some extent, but they bought from us only what they could not do without. The physical volume of world export trade dropped about one-fourth from 1929 to 1932, but our exports dropped almost one-half

During 1932 England increased her share of the world trade by 16% over the previous year, and Japan by 29%. To say that we merely shared in world-wide misfortune is not entirely accurate, because our share included an additional penalty for remaining on the old gold standard. While total world export trade declined, those countries which promptly

went off gold increased their share of what remained.

Some of the countries became alarmed because they could see the bottoms of their gold bins. They and others exerted pressure to have foreign credits called home. Sometimes these credits responded by going in the other direction just as fast as they could travel. Gold was stampeding from country to country, always leaving the place where it was needed, and doing its new hosts any good.

In January of 1932 gold began to leave the United States in alarming This was fair notice to all concerned that our turn was next. The panic was knocking at our door, but nothing effective was done to avert it. Europeans knew that we could not maintain our currency at avert it. Europeans a new that we could not maintain our currency at the old gold level without a further ruinous deflation of our prices, trade and industrial activity. Facing that crisis, the previous Administration stubbornly refused to take action, evidently under the impression that that was a proud achievement, when it was obviously economic suicide.

Foreigners had left here more than \$1,000,000,000 to enjoy our high interest rates and prospects of quick profits. Seeing what was happening, they judged that it was high time to take this money home. They did so, and the panic was on. We could not offer them their defaulted paper when they called for their money. We could not even offer them their paper that was not in default. We had let them have the money on longterm loans, and they had short-term loans here. Our long-term paper was not due, while their short-term loans could be collected and their stocks They could demand gold for every dollar due, and that is what they Thus it happened that, in the first six months of 1932, we witnessed the incredible spectacle of gold going out of the world's greatest creditor nation on every ship—nearly all of it to nations that were in our debt.

Still nothing effective was done to avert the disaster.

Stupendous as the gold movement was, we could not ship fast enough to meet the demand, and speculators took advantage of the situation to sell the dollar. They were not all foreigners, either. However, the citizenship of these snipers is not important, since their dominant trait is an utter lack of patriotism or loyalty to any nation. They would sell civilization itself short if they could, and for all they knew at that time,

they might have been doing so.

Our loss of gold, added to the calamity of declining trade, falling com modity prices, and widespread unemployment caused bewilderment and then panic. The disaster swept over our country with the fury of a hurricane. Within a few months our financial structure was in a state of collapse. In the month of February 1933 and up to the time President Roosevelt took office, about \$500,000,000 in gold and nearly \$2,000,000,000 in currency were withdrawn from our banks. They were closing, not individually, but by whole States at a time. That was the situation when this Administration came into office. On taking his oath, Mr. Roosevelt assumed both the duties of President and receiver for a concern—the richest on earth, but on that tragic day face to face with insolvency.

We were headed for disaster unless the run on the banks could be stopped and our gold reserves reassembled. Both objectives were promptly achieved. The President's proclamation closed the banks, ending the run, and the gold was ordered into the custody of Uncle Sam under penalties. Those two acts met the domestic emergency. An embargo on gold exports was declared and that ended the outward flow. This effectively took us off the old gold standard and the dollar began to adjust itself to the realities of the world situation.

In going off gold, we were not the first; we were the thirty-first. The operation was completed in January of 1934, when the dollar was revalued and set at 59.06% of its former gold content. Since that time we have enjoyed the soundest currency in the world. It is, in fact, so sound that we find gold flowing back into this country to take refuge in our dollar; not to pay balances, but to find safety. Some of the same sharpshooters who personally conducted the flight of gold from this country during 1932 and the first two months of 1933 are now bringing it back.

But let us return to the record and see what our new dollar did for our

But let us return to the record and see what our new dollar did for our foreign trade. I shall take all three of the commonly used yardsticks and apply them.

First, measured in physical volume, the United States increased its export trade during 1934 as compared with both 1932 and 1933.

Second, measured in dollar value, the United States increased its foreign

trade in 1934 as compared with 1932 and 1933.

And finally, measured by percentage share in the physical volume of total world trade, we again show an increase over both 1932 and 1933.

This is the more remarkable because the volume of our agricultural exports was declining.

In 1934 we shipped one-third less cotton than in 1932, but we got 7%

more money for it. We also got a higher price for our wheat, but the drought can account most of the increase

Our wheat exports have also been affected by quotas and embargoes. Some of our former customers prefer, for reasons of national policy, to grow their own wheat, regardless of price.

Because of these unusual factors, I cannot trace with accuracy and fairness the full effect of our monetary policy upon agricultural exports.

A better test is offered by manufactured goods.

The physical volume of all our finished manufactures exported in 1934

increased 37% compared with 1932; semi-manufactures increased 47% in the same period.

To be concrete, let us take a specific article, such as the automobile. In 1930 we exported 238,000 cars. In 1932, with our country one of the very few remaining on the old gold standard, we exported 65,000 cars. In 1933, under the Roosevelt monetary program, our exports shot up to 107,000 cars. Last year they more than doubled; they came right back

During the disastrous period of declining sales, the world still wanted American automobiles but it could not get the dollars to pay for them. Nothing startling developed in the way of foreign competition; our dollar prices had not gone up, and quality remained just as gold, or improved.

We simply had an interim during which we could not sell because the dollar was too high in relation to other world currencies; this Administration lowered the gold content of the dollar and the foreign market is being restored to our automobile manufacturers with such rapidity that the benefits are already nation-wide.

Some people have been telling you that there simply could not be any benefit in restoring trade by bringing our money into reasonable relation with the other moneys of the world. I decided to get the answer to that question from the manufacturers themselves. They ought to know best. I asked the executive heads of 29 large representative firms whose products are a cross-section of our industry to tell me:

First, whether they are getting any more foreign trade.

Second, whether employment in their plants has increased. Then I examined their published reports to find out whether they were aking any profits. Here are the combined answers: making any profits.

To the first question, whether they are getting any more foreign trade, they answer "yes." In 1934, which was the first full year under the Roosevelt monetary program, their export sales were 59% greater than

To the second question, whether the number of their employees has increased, they also answer "yes." Two hundred and four thousand more men and women were working in their plants during 1934 than in 1932, an increase of 34%.

To the third question, whether they are making any money, the and is again "yes." Their combined loss in 1932 was \$121,000,000; t is again "yes." Their combined loss in 1932 was \$121,000,000; their combined profits for 1934 were in excess of \$128,000,000. These figures include their losses and earnings on domestic sales also. Domestic sales followed substantially the same course as their foreign sales. When foreign sales hit rock botton, so did domestic sales; and when foreign sales recovered, under the Roosevelt monetary program, domestic sales recovered with them. So there you have the testimony of the best qualified

Under the monetary policy of this Administration they lifted themselves out of a deficit in excess of \$100,000,000 to earnings in excess of \$100,000,000, and employment increased by more than 200,000.

There are many indications that world trade will continue to increase. Our monetary policy in relation to foreign trade is not intended to capture business, but merely to protect our normal share. So far from engaging in a competitive devaluation race with the other nations, we hold out to them a currency of such steadiness that the normal tendency may very well be for the rest of the world to move gradually toward practical exchange stabilization. If that can be achieved, the final step should come easily and almost of its own accord. Unless somebody rocks the boat that would be the natural course.

In estimating the future of our foreign trade in relation to our monetary policy, we may as well face the question whether we wish to sell abroad vast quantities of goods that the buyers cannot pay for unless we lend them the money. Of course, if we want more paper there are plenty of international bankers to arrange the details. We felt rich on that paper during the roaring twenties. Now we know better.

place of paper, under the operation of our new monetary policy, we have been receiving large shipments of gold and silver. Some of it came to settle trade balances, and some represents capital seeking refuge in will tell you that this is likely to end our foreign trade; that first we strip the world of gold and then our foreign trade dies. But we are not stripping the world of gold. We have more gold than ever before, but the world supply of monetary gold is also increasing rapidly. Production now proceeds at the rate of about \$1,000,000,000 annually, and will continue to increase. The great nations are restoring their reserves. Meanwhile, percentages of the total held by the various nations show no slarming changes. We had 41.7% of all the monetary gold in 1922, and now we have 38.8%. France had 8.4%

in 1922 and now she has 24.8%. Great Britain lost gold heavily before she suspended gold payments in 1931, but since then has increased her share from 5.2% to 7.2%.

With increasing gold production, and hundreds of millions of dollars worth of the yellow metal being brought out of hiding, surely some of it can be used to pay balances. We are also endeavoring to restore silver to greater usefulness as a monetary metal. It is the money of a large part of the world's population.

of the world's population.

Objection to our course is sometimes based upon the assertion that we would bring vast quantities of the world's gold and silver here, only to be locked up in the United States Treasury—the phrase commonly used is that the gold and silver thus become sterile. At least, however, it goes to swell our monetary reserves. Loans in default are not very good backing for currency; indeed, they might, without undue asperity, be described as also sterile. It we must choose between the two, this Administration elects payment of international balances in monetary metals.

payment of international balances in monetary metals.

You have heard the argument that we should stabilize by declaring that we will not change the present gold content of the dollar. Some even go so far as to say that the other nations would certainly follow, if we took the lead. If we launched out alone on such a course, it would put us right back where we were in 1932, and offer a tempting invitation for the others not to follow, but again to take advantage of our disadvantage.

We realize the importance of world prosperity, and will evade no opportunity to assist in that direction, except the ever-present opportunity to

donate prosperity at our own expense.

In conclusion, I should like to summarize this statement by saying:

First, you have an absolutely sound dollar. Second, the monetary policy of this Administration rescued us from chaos; held the fort through the most trying period of our recovery program, and is now the spearhead as we advance steadily toward our goal.

Third, of the great trading nations that revalued their currencies, we

were the last, until quite recently, when Belgium joined us.

The world should know that when it is ready to seek foreign exchange stabilization, Washington will not be an obstacle. Our position was that of an innocent bystander who suffered untold loss in a fight that he did not start, and from which he could not escape. Why should we be singled out and admonished that the moral duty to restore order is primarily ours? Before we make any commitments, we must be sure that we will not lose what we have just regained. We are not unwilling to stabilize. However, if the great trading nations elect to continue under the present absence of rules we are no longer at a disadvantage. We revalued our currency no more than was necessary, and we can go either way. Our hands are

The Treasury Department on May 13 issued the following data, to which reference is made in Secretary Morgenthau's radio address of May 13:

DOMESTIC SALES, EXPORT SALES, PROFITS AND EMPLOYMENT, 1931-34 SUMMARY OF REPORTS FROM 29 COMPANIES

	Value of Do- mestic Sales (MW.8)	% of 1931	Value of Ez- port Sales (M tll.\$)	% of 1931	Total Sales (M 111.8)	% to 1931	PerCent Export to Total	Pub- lished Profits* (Mill.\$)	No. of Employees as of Dec. 31 (1,000)

The following comment on Mr. Morgenthau's speech was contained in a Washington dispatch of May 13 to the New York "Herald Tribune":

Certain questions in the forefront of financial minds concerning the future monetary policy were left unanswered.

Silver—Only mention of importance: "We are also endeavoring to restore silver to greater usefulness as a monetary metal." No mention of the situation caused by raising the domestic price of silver and no indication of the situation caused by raising the domestic price of silver and no indication. tion of what to expect in the future.

Gold—No indication whether there will be more devaluation. Officials suggest that that hinges on the stabilization outlook.

Debt-No mention of how the mounting Government debt is to be taken care of and no indication of any immediate plan to begin balancing the budget nor of the prospect of new taxation.

B. M. Anderson Says U. S. Currency Is Unsound—Also Assails Banking Bill Provisions—F. M. Law Criti-cizes Measure, but Says ABA Wishes to Help Congress

Benjamin M. Anderson Jr., economic advisor of the Chase National Bank of New York, testifying before the Senate Subcommittee on Banking and Currency on May 16 at a hearing on the Administration's Omnibus Banking Bill, declared that the present currency of the United States is unsound. The best step toward world recovery, he said, "would be to restore confidence in the gold content of the "would be to restore confidence in the gold content of the currency of Great Britain and the United States." He added that even if this country alone should stabilize its currency it would be a great economic stimulant. Mr. Anderson said that the theory behind the banking bill represents "chiropractic economics," and added that bank credit cannot be substituted for a periodic readjustment of the debt structure.

Francis M. Law, former President of the American Bankers Association, told the Committee on May 14 that although the Association is not advocating any material change in the banking statutes, "if Congress decides that Title II is necessary, we want to do something to help Congress." Mr. Law's testimony was summarized as follows in a Washington dispatch of May 14 to the New York "Herald Tribune":

The subcommittee to-day, in its slow process toward consideration of the measure, already passed by the House, heard Mr. Law protest against the set-up of the open market committee, under the House bill, and against delegating to it the powers in reference to open market operations, rediscount rates and reserves requirements. It also heard a somewhat similar protest, stressing, however, compulsory Government financing and use of "untried theories," from Edward E. Brown, President of the First National Bank of Chicago, and a statement from the National Association of Credit Men, with 18,000 members, that 75% of the membership was opposed to changes in Title I and more particularly in Title II.

Stressing particularly the opposition to making the Federal Reserve Board the only power in determining open market policy, as the House bill does, Mr. Law said that the advisory committe of governors chosen by the Federal Reserve Banks "will have no real authority." He submitted the following reasons for placing the regional governors on the Committee with full right to vote:

It is "going too far" to suddenly shift and give all the power to the Federal Reserve Board on open market operation, when now it is vested entirely in the 12 regional bank governors.

Federal Reserve Banks are owned by member banks and the funds used in open market operations are the reserves of these member banks, with the result that the Federal Reserve banks should have something to say as to how they are used.

Members of the Federal Reserve Board live in Washington 12 months of the year, while the regional governors are located in different parts of the country and are therefore more familiar with conditions.

The principle of local autonomy is important and should be maintained.

We also quote, in part, from a Washington dispatch of May 14 to the New York "Times" giving some of the principal points in Dr. Anderson's testimony:

Dr. Anderson refused to concede that currency only partially backed by gold, with no other cover, could be considered sound. He suggested a case where our existing circulation of some \$4,000,000,000 might be increased to \$12,000,000,000 backed by existing gold reserves amounting to \$8,000,-

In this event, he predicted, all of the excess currency above the \$4,000,000,0000 required for normal purposes would be turned in for redemption, thus exhausting the gold supply and leaving the rest of the currency un-

As to the Banking bill, Dr. Anderson said that the Administration now has, under various statutes, all of the powers which it is proposed to vest in the Federal Reserve Board. The Thomas amendment to the Agricultural Adjustment Act, the Gold Act of 1934 and the Silver Purchase Act,

he said, enable "the President to pursue any economic policy he wanted to."
He asked the Committee to consider the bill's statement of policy regarding the qualifications of members of the Reserve Board, to determine whether it was not the intention, to "regulate the economic life of this

He referred to the direction that the President should appoint men "well qualified by education or experience or both to participate in the formulation of National economic and monetary policy" and the proposed objective of preventing unstabilizing fluctuations in prices, trade, production and employment.

Government Ownership of Railroads Opposed by Representative Rayburn—Head of House Inter-State Commerce Committee Sayes It Would Add Million to Federal Payrolls

Sharp opposition to Government ownership of the railroads was expressed in a address last week by Representative Rayburn, Chairman of the House Committee on Inter-State and Foreign Commerce, who spoke before the Traffic Clubs of America at Virginia Beach. Mr. Rayburn took issue with some of the expressed opinions of Joseph B. Eastman, Federal Co-ordinator of Transportation, who has frankly said that he personally would favor Government ownership of the carriers.

Mr. Rayburn said that although Government ownership of the railroads may eventually come, it should be avoided as long as possible. "Knowing the power of organized minorities in the electorate," he said, "I tremble for the future of the Republic when I contemplate the addition of more than a million people to the civil rolls of the Government." The New York "Herald Tribune" of May 12 summerical Mr. Boyshurs's address as follows: marized Mr. Rayburn's address as follows:

Mr. Rayburn contended that private ownership of the carriers under proper supervision of the Interstate Commerce Commission would best serve the interest of the public and the owners of the systems. He de-clared it would be a great mistake to create any agency which would in any way duplicate or interfere with the work of the Commission. And, he averred, the Commission should continue to be as far removed from the maelstrom and melce of politics "as legislative ingenuity can devise."

Touching on the agitation which has been heard from certain railroad security owners who would have the Government take over the rail car-

riers so that they might salvage losses on securities held, Mr. Kayburn was pointed in his remarks. He led up tho this point thusly: "In the struggle to readapt equipment in accordance with modern discoveries and most economical operations, railroad managements have been somewhat hand-icapped by tradition and very much so by a financial structure imposed on their present equipment. They own so much equipment of the old type that they find it difficult to put out new sucurities and to obtain the credit to provide themselves with new equipment.

"During the last few years the situation has been aggravated by the colonged depression and the great decrease in the volume of traffic incident to the depression. During these trying years the managements have been struggling to keep their properties out of receiverships. borrowings and refundings have been with a view to escaping the sheriff.

"Panic-stricken security holders have been clamoring to the Federal Government that the taxpayers relieve them of their losses. When the railroads were prosperous these very security holders resisted every suggestion that the taxpayers should share in the profits of the railroads, but as soon as the railroads ceased to be prosperous these security holders became very vocal in their demands that the losses should be shifted to the taxpayers. "There is now a very strong movement, particularly on the part of owners of junior bonds of railroads, to have the Government take over the railroads. In my judgement the consummation of that effort would be most unfortunate, both for the railroads and the country. It would relieve the managements of the pressure to readapt their equipment so as to most higher a connection and vander that competition harmless." meet highway competition and render that competition harmless.

Governor Lehman of New York Approves Bill Appropri-ating \$300,000 for Utility Rate Investigations— Says Companies "Stubbornly Refused" to Share Cost

A bill appropriating \$300,000 for a revolving fund to meet expenses of the New York State Public Service Commission in handling rate cases was signed by Governor Lehman of New York on May 11. The Governor stated that when he recommended passage of the measure he had said that its recommended passage of the measure he had said that its enaction was necessary because some utility companies had "stubbornly refused" to accede to the provisions of a law passed last year imposing a share of the cost of rate investigations on them. The approval of the Fitzgerald revolving fund bill was interpreted in some quarters as indicating the probable approval of the \$300,000 appropriation for the small legislation of the same provided in some properties. tion for the special legislative committee which is investigating the utilities, and which is headed by State Senator John J. Dunnigan.

In approving the Fitzgerald bill Governor Lehman wrote:

This bill makes an appropriation of \$300,000 as a revolving fund to enable the Public Service Commission to engage the services and pay expenses of temporary employees to expedite investigations directed at procuring for the public lower rates for utility services. The bill provides that these special expenditures by the Commission shall be charged against

the particular utility company investigated.

This measure was recommended by me to the Legislature in a special message under date of April 9. As I here pointed out, this additional appropriation is made necessary because most of the public utility companies have been stubbornly retusing to pay to the Commission the costs that have been charged any return them. that have been charged against them

am glad to be able to approve this bill which places at dispos Public Service Commission an additional \$300,000 to carry on its efforts to protect the public interest.

Railroad Consolidation Held Urgent Need by Federal Co-ordinator J. B. Eastman-Favors Government Ownership but not at Present-Revision of Rate Structures Also Advocated

Railroad consolidation under Government ownership and management is desirable, but it presents certain "special and unusual dangers" at this time, Joseph B. Eastman, Federal Co-ordinator of Transportation, said on May 9 in an address before the Wharton School of Finance and Commerce of the University of Pennsylvania at Philadelphia. Mr. Eastman said, therefore, that he is not advocating Government ownership now, but hopes instead that consolidation into a single system or a very few regional systems will be possible under private control, with perhaps some minority participation in management on the part of the Government.

One of the most pressing needs in the transportation field, Mr. Eastman said, is for both the railroads and the public regulatory bodies to overhaul the rate structure with special emphasis on the matter of costs. Already the railroads have been forced by their competitors into much ratecutting, he said. In discussing the remedies for this situation, Mr. Eastman said:

My staff has been trying to lay the foundation for such a re-examination and revision of the freight rate structure by accumulating the necessary and revision of the freight rate structure by accumulating the necessary data, and in a report which I expect to make public before the end of the month, what they have found out will be presented to the world. It will not settle the problem, for that is much too big to be settled in any single report of this character, but I believe that it will go very far to clarify both the issues and the facts and to point the way to the action which will eventually have to be taken. In the process I also believe that it will be possible to simplify the rate structure greatly, a consummation which is devoutly to be wished, because the present structure is incredibly complex and confused. In fact, the Commission deals every year with a large number of complaints where the sole question is whether year with a large number of complaints where the sole question is whether the actual rate which was charged on a given shipment was the rate which should have been charged under the published tariffs.

The use of containers which can be transported on flat cars may furnish an answer to the question of whether service now furnished is suited to modern commercial needs, Mr. Eastman asserted. Another possible improve-ment in railroad methods described by the Co-ordinator was greater concentration on passenger business, since the automobile, although it has drawn many passengers away from the railroads, has nevertheless "tremendously increased the travel habit of the American people."

In his remarks on possibilities of railroad consolidation,

Mr. Eastman said, in part:

One of the great railroad needs is for greater co-operation and collective action on the part of the individual railroads. It is the key which will unlock the best possibilities for the elimination of waste motion, the reduction of expense, and the improvement of equipment, service, and the rate structure. Here again there are three possible ways of meeting this need. One is through a super-organization of the railroads which will the matters which are of comn ters of less general importance are left to the individual managements. This plan visualizes the railroads as parts of a national transportation system and undertakes to secure centralized handling and management of the joint and national phases of their operations without actual consolida-tion of the properties. A step in this direction has been taken in the recent organization of the Association of American Railroads, which has been given by the individual railroads more power than has ever hitherto been given to a central organization of the industry. I am glad that this

step has been taken, and entertain much hope that it will be successful, provided it has the right kind of leadership and provided it is given such aid, support and stimulation as can be given by the Government along the lines which I have been attempting to follow in the temporary office of Federal Co-ordinator of Transportation. Without any personal interest in the matter, I am confident that the Association will need such help, because it will be far from easy to bring railroad executives who have long been functioning with a great degree of independence to an appreciation of the need for subordinating their apparent individual interests to

There are many, in and out of the railroad world, who think that it will be impossible, with or without the aid of the Government, to accomplish the desired results through this first method. They see hope only in the actual consolidation of the properties or their unification in some other way which will bind them together by definite and legal processes. Between those who entertain such views, there is, of course, a sharp difference of opinion. Those who are of the conservative type wish to see the union effected under the principles of private ownership and management. What they visualize is a single system or a very few regional systems under the private aegis, but perhaps with some minority participation in management on the part of the Government. Others who are of a more radical type wish to see the union effected under Government ownermore radical type wish to see the union effected under Government ownership and management.

If I had to choose between the two, I would choose the latter alternative, but it would require an address as long as this one to tell you why. All that I need say for present purposes is that I see, or think I see, some special and unusual dangers in Government ownership and operation under present conditions, and I am not advocating it now. I hope, rather, that it will be possible to try out the first method which I have outlined to under the best possible auspices and with as much help as it is possible for the Government to give.

Holding Company Bill Would "Socialize" Operating Companies, Utility Head Charges—P. H. Gadsden Says Public Has Been Mislead as to Effect of Rayburn Measure

The Rayburn bill designed to eliminate public utility holding companies retains, in the form reported to the Senate May 14, all the "destructive features of the original draft," Philip H. Gadsden, Chairman of the Committee of Public Utility Executives, said in a statement on May 14. The measure, he declared, would either dissolve or dismember practically all utility holding companies, and in addition would mean the "socialization" of the operating companies.

Mr. Gadsden charged that the "apparently ruthless determination to rush this bill through the Senate can only determination to rush this bill through the Senate can only be explained by fear on the part of its sponsors that if the public were permitted to realize these facts the bill would not pass." He declared that while the sponsors of the measure have sought to give the impression that it would only effect holding companies, it would actually have a greatly harmful influence on operating companies as well. None of the features of the bill, he continued, if necessary to prevent abuses charged against the holding companies by the Federal Trade Commission in the period 1920-29.

Mr. Gadsden said that the major consequences of the bill would be as follows:

1. It would force a wide spread liquidation in the securities of the industry with destructive consequences upon investors and upon ge

2. It would put the entire industry (not merely the holding companies) in a strait-jacket of bureaucratic control from Washington, which will paralize private initiative and management to such an extent that the industry will become an economic ward of the Federal Government, dep upon Federal order and finance.

3. In spite of the many verbal assurances that State jurisdiction over local operating companies would be preserved, almost every term of the bill superimposes such a thorough Federal control as largely to set aside the State public utility commissions.

Administration's Banking Bill Assailed by Winthrop W. Aldrich—Tells Senate Committee It Might Produce Uncontrollable Inflation—Criticizes Three Experiments in Control of Money and Credit—Likens Provisions of Title II to Machinery Producing German and French Inflation

The proposed Administration's Banking Act of 1935 would transform the Federal Reserve System into "an instrument of despotic authority" and might result in an "uncontrollable conflagration of inflation," Winthrop W. Aldrich, Chairman of the Chase National Bank of New York, testified on May 15 before a subcommittee of the Senate Committee on Banking and Currency. Mr. Aldrich drew a close analogy between the banking machinery prodrew a close analogy between the banking machinery provided in the bill and the "machinery which was utilized at the time of the German inflation and the French inflation, with most serious consequences to business life and the welfare of the people."

In reading a long prepared statement, Mr. Aldrich took occasion to discuss three Administration "experiments which have misfired." These he listed as the purchase of Government obligations by the Federal Reserve banks, the devaluation of the dollar coupled with the purchase of gold above the old \$20.67 parity price, and the Government's silver-buying policy. None of these experiments has succeeded, he said, but he termed the gold-buying experiment

the most important.

"The three efforts to accomplish a higher price level by manipulating credit and the currency have failed," he said. "But they have left behind them a vast amount of explosive material which some future effort may set off. The potentialities are so vast, and the restraints so few, that should some one of their efforts succeed the result would most likely not

be an isolated detonation but a vicious and perhaps uncontrollable conflagration,'

Mr. Aldrich said the proposed banking measure is one "not of security, but of insecurity." He stressed the fact "not of security, but of insecurity." He stressed the fact that he is not opposed to planning, as such, but that he does oppose planning "if we mean experimentation with one powerful instrument after another upon the credit and currency of the United States, or if we mean the riding of

one superficial, simple theory after another through the vast complex of American economic life."

The banker's analysis of the Banking Act of 1935 was devoted almost entirely to Title II, which he said would create political domination of the country's financial system. In summarizing his general conclusions, he said:

I have now reached the point in my discussion where I can draw some meral conclusions based upon the analysis I have already given of Title II, section by section:

First, the principle of local self-government in Federal Reserve administration is impaired. The authority of the directors of the 12 Federal Reserve banks is much reduced. These are men of the highest standing Reserve banks is much reduced. These are men of the highest standing in their several communities, fully representative of all the parties at interest, and intimately aware of local requirements. They lose their power to determine investment policies, their right to initiate discount rate changes definitely passes out of their hands, and their authority over the administration of the banks is largely taken away. Their power

rate changes definitely passes out of their hands, and their authority over the administration of the banks is largely taken away. Their power to elect the Governor becomes merely the power to nominate, and their nominee for Governor must be approved and frequently re-approved by the Federal Reserve Board in Washington. The Governor, in this manner made subject to the Reserve Board, is also made the person to whom "all other officers and employees of the bank shall be directly responsible." Thus the way is cleared for central domination—even for central political domination—of the Federal Reserve banks, their policies and their personnel, with the directors occupying the impossible position of bystanders. Second, the Federal Reserve Board or, as the case may be, the Federal Open Market Committee which the Board is able to control, can undertake at will to force an expansion or contraction of credit. The Reserve banks can be forced to buy or sell Government obligations in the market or to buy them directly from the Treasury itself. The Federal Reserve Board can arbitrarily raise or lower the reserve requirements of member banks. Operations of either sort, depending upon the circumstances in which they are undertaken, may work as powerful levers on the supply of credit, may be perfectly futile, or may produce results of great importance but entirely unpredictable. We cannot be sure that these powers would not be used for political purposes.

Third, the standards of banking practice are lowered. Encouragement is given to banks to make a character of loans they would not ordinarily make in reliance upon the power of the Federal Reserve Board to change the eligibility rules by regulation. These regulations in turn are changeable at will. It is not only the banking structure which may thus become enfeebled. The currency itself may deteriorate, for under the terms of the bill the Federal Reserve banks may acquire not only in an emergency but at any other time a type of assets which world-wide experience has proved to

Bonus Payment with New Currency Would Be "Cal-amity," Professor E. W. Kemmerer Testifies—Pre-dicts Inflation and Flight from Dollar if Patman Measure Becomes Law

Payment of the soldiers' bonus with new currency, as proposed in the Patman bill, would be a "calamity," Prof. Edwin W. Kemmerer of Princeton University, authority on international finance, told a subcommittee of the Senate Banking and Currency Committee on May 13. The Patman bill, he said, constituted inflation of the worst type and might furnish the "added blow to break confidence and begin a flight from the dollar" which would result in a repetition of the disastrous inflation witnessed in Germany. Professor Kemmerer's views on the bonus were given in response fessor Kemmerer's views on the bonus were given in response to questions after he had testified in opposition to sections of the Omnibus Banking Bill giving the Federal Reserve Board

control over credit and monetary policies.

Referring to the Patman bill, he said that "it is one of those propositions so preposterous that I can hardly think of words to express myself."

words to express myself."

Other portions of his testimony were described as follows in Associated Press Washington advices of May 13:

Contending, in response to further questions, that the United States should return to a statutory gold standard, he added:

"If the President would make a declaration that there is going to be no further reduction of the gold content of the dollar; if Congress would fix the value of the dollar at 59 cents; if Congress would fix the value of the dollar at 59 cents; if Congress would say that all influences of the Government would be used to keep the gold standard; if the Government practices economy and sets up a balanced budget, you would see such a revival of confidence as we have never seen before."

The United States was on a kind of gold standard, but it was "administrative rather than statutory."

He testified after Governor Eccles of the Federal Reserve Board, who drafted the sections Professor Kommerce opposed, completed big statement.

drafted the sections Professor Kemmerer opposed, completed his statement on behalf of the bill with recommendations of several changes in the text approved by the House.

Middle West Will Be Vast Desert in 300 Years Unless Administration's Conservation Program is Fol-lowed, Dr. Tugwall Warns—Says Old Policies Must Be Expanded in Fight to Save Forests and Soil

Unless the Administration's program for reclaiming the ral regions of the Middle West, for conserving trees, grass and water, and for halting the loss of rich top soil by erosion is carried out, the plains of the Middle West will be a vast desert three hundred years from now, Rexford G. Tugwell, Under-Secretary of Agriculture, predicted in a speech May 15 at Albany on the celebration of the fiftieth anniversary of conservation in New York State. Mr. Tugwell, (who is director of the rural phase of the new relief program, said

that he would battle to the limit to carry out this plan without the loss of vital objectives.

Mr. Tugwell explained the purposes of the Rural Settlement Administration, which was created to improve farm management by accordinating and enlarging the work of management by co-ordinating and enlarging the work of agricultural colleges. "The most serious difficulty of all," he said, "will arise because the classic terms of conservationthe acquisition of forests, their protection from fire and their development, the building of dams for flood control and irrigation—must, if we are to progress from where we are, he expended into more controversial areas." be expanded into more controversial areas.'

Work-Relief Division of Applications and Information Gives Regulations for Seeking Allotments from \$4,000,000,000 Fund—Text of President Roosevelt's Executive Order Creating 3 Groups to Administer Program—Allocations of \$1,091,802,000 Recommended to President

mended to President

The Division of Applications and Information, one of the three bodies created by President Roosevelt on May 6 to supervise the operation of the \$4,000,000,000 work-relief program, announced on May 11 the rules of procedure under which application for work relief funds would be made. This Division, which is headed by Frank C. Walker, said that all allotment applications will come through existing agencies of the Federal Government and will reach the Division itself only after "thorough examination and review." In order to facilitate handling, the projects were divided into the following four groups: divided into the following four groups:

Federal Projects—Those which originate in departments or agencies
of the Federal Government and are entirely financed by it.
 Non-Federal Projects—Those planned by individuals, public bodies
or political subdivisions and financed by ioan or grant or both. Applica-

tions on these will come through the Public Works Administration and its State directors

3. Work Relief Projects--Those financed and carried out by the Works Progress Administration. These originate among the various political subdivisions of the country and the applications will come through the

Works Progress Administration and its local and State offices.

4. Administrative Expense Projects—Those which originate within the Federal departments and agencies and which provide for administrative

xpenses in planning, preparing and carrying out projects.

The probability that spending of the huge work-relief fund would begin almost immediately was forecast yesterday (May 17) in Washington, following the action of the Advisory Committee on Allotments the preceding day in recommending to President Roosevelt the allocation of a total of \$1,091,-802,200 in a varied list of projects. The Committee approved projects that are designed to transfer about 875,000 persons from relief rolls to Government payrolls. The plane persons from relief rolls to Government payrolls. The plans all for the following expenditures:

cui for the rollowing corporation.	
Highways and grade-crossing elimination	
Slum clearance and housing	249,860,000
Rivers and harbors	102,186,500
Rural resettlement	100,000,000
Wisconsin recovery plan	100,000,000
Colorado River project in Texas	20,000,000
Passamaquoddy power for Maine	10,000,000
New York sewage plant	
Nineteen public works projects	1.620,000
Alaska roads	
Miscellaneous	

Reference to the creation of the three divisions to administer the work-relief fund was contained in the "Chronicle" of May 11, page 3138. The complete text of President Roosevelt's Executive Order creating these bodies

Executive order establishing the Division of Applications and Informa-

tion, the Advisory Committee on Allotments, the Works Progress Administration, and for other purposes:

By virtue of and pursuant to the authority vested in me under the "Emergency Relief Appropriation Act of 1935," approved April 8 1935 (Public Resolution No. 11, Seventy-fourth Congress), and of all other authority vested in me, it is hereby ordered as follows:

1. I hereby establish within the Government certain agencies and pre-

scribe their respective functions and duties as follows:

(A) The Division of Applications and Information of the National Emergency Council, to be under the general supervision of the executive director of the National Emergency Council. Such division shall receive all applications for projects, cause the applications to be examined and reviewed, obtaining when necessary aid and assistance of governmental de-partments or agencies, and transmit such applications to the Advisory Committee on Allotments hereinafter established. The division shall furnish information to the public on allotments made and on the progress

of all projects as they are initiated and carried forward.

(B) The Advisory Committee on Allotments, which shall be composed of: (Here followed a list of those on the committee).

Such committee shall make recommendations to the President with respect to the allotments of funds for such projects covered by the applications submitted by the Division of Applications and Information as will constitute a co-ordinated and balanced program of work under the said

(C) A Works Progress Administration, which shall be responsible to the President for the honest, efficient, speedy and co-ordinated execution of the work relief program as a whole, and for the execution of that program in such manner as to move from the relief rolls to work on such projects or in private employment the maximum number of persons in the shortest time possible.

To this end the Works Progress Administration shall hav

powers and duties:

1. To establish and operate a division of progress investigation, and to co-ordinate the pertinent work of existing investigative agencies of the

Government, so as to insure the honest execution of the work relief program.

2. To formulate and, with the approval of the President, to require uniform periodic reports of progress on all projects; and, where any avoidable delay appears, forthwith to recommend to the President appropriate sures for eliminating such delay and, similarly, to recommend the

termination of projects where it develops that they are not affording the

amount of employment warranting their continuance.

3. With the approval of the President, to prescribe rules and regulations:

a. To assure that as many of the persons employed on all work projects as is feasible shall be persons receiving relief; and

b. To govern the selection of such persons for such employment.

To formulate and administer a system of uniform periodic reports of the employment on such projects of persons receiving relief.
 To investigate wages and working conditions and to make and submit

to the President such findings as will aid the President in prescribing working conditions and rates of pay on projects.

In additions to the foregoing powers and duties, the Works Progress

Administration shall:

1. Provide for the co-ordination of such data compiling projects as form a part of the work relief program and of such portions of other research activities as may be necessary or useful in carrying out such program.

2. Co-ordinate all requests for opinions and decisions addressed to the executive departments or independent establishments of the Government on questions affecting the administration of the act or of orders issued under.

thereunder.

3. Recommend and carry on small useful projects designed to assure a maximum of employment in all localities.

and the same of the same o

The Federal emergency relief administrator shall serve also as administrator of the Works Progress Administration.

2. I hereby direct:

(A) The Secretary of the Treasury (1) through the disbursing and accounting facilities under the commissioner of accounts and deposits of the Treasury Department, to make provision for all disbursements from the funds appropriated by the "Emergency Relief Appropriation Act of 1935," subject only to such exceptions as the Secretary may authorize, and to maintain a system of accounts necessary to enable the President (a) to exercise executive control over such funds, (b) to provide current financial and accounting information for governmental agencies concerned, and (c) to make a complete report to the Congress concerning expenditures made and obligations incurred, by classes and amounts; and (2) through the director of procurement, to purchase, or to provide a system for the purchase of all materials, supplies and equipment to be procured with the said funds.

(B) The Director of the Bureau of the Budget to pass upon all requests

for allotment of funds for administrative expenses.

3. All permanent and emergency agencies of the Government will afford full co-operation to the agencies herein established or designated and make available such personnel and facilities as may aid in carrying out the provisions of the said act.

visions of the said act.
4. The agencies established or designated hereunder are hereby authorized to prescribe such administrative procedures, and to submit for the approval of the President such rules and regulations as may be necessary, to carry out their respective duties and powers under the provisions of this

5. Within such amounts as may hereafter be allotted by the President, the agencies herein established or designated are authorized to employ the services and means mentioned in subdivision (a) of section 3 of said emergency relief appropriation act of 1935, to the extent therein provided, and, within the limitation prescribed by such section and at the direction of the President, to exercise the authority with respect to personnel conferred by subdivision (b) thereof: Provided, That so far as practicable the persons employed under the authority of this section shall be selected from those receiving relief.

FRANKLIN D. ROOSEVELT. The White House, May 6, 1935.

Report of Operations of RFC Feb. 2 1932 to April 30 1935

-Loans Authorized During Period Totaled \$9,-675,609,7919 \$5,116,374,670 Expended for Activities of Corporation

Authorizations and commitments of the Reconstruction Finance Corporation in the Recovery program to April 30, including disbursements of \$729,807,040 to other governmental agencies and \$1,299,982,236.77 for relief, have been \$9,675,609,791, according to a report issued May 9 by Jesse H. Jones, Chairman. Of this sum, \$829,553,434 has been canceled and \$1,056,337,102 remains available to the borrowers and to banks in the purchase of preferred stock and capital notes, the report states. The relief disburseand capital notes, the report states. The relief disburse-ments include \$299,984,999 advanced directly to States by the Corporation, \$499,997,238 to the States upon certifica-tion of the Federal Emergency Relief Administrator, and \$500,000,000 to the Federal Emergency Relief Administrator of the total disbursements, it is noted, \$5,116,374,670 was expended for activities of the Corporation other than advances to governmental agencies and for relief, and of this sum \$2,749,474,579, or approximately 54%, has been repaid. From the report of May 9 we also take the following:

Loans authorized to 7.396 banks and trust companies aggregate \$2,345,-905.765. Of this amount \$345.130,495 was withdrawn or canceled and \$142,402.848 remains available to the borrowers and \$1,858,372,423 was

\$142,402,848 remains available to the borrowers and \$1,858,372,423 was disbursed. Of this latter amount \$1,335,666,744, or 72%, has been repaid. Authorizations were made for the purchase of preferred stock, capital notes and debentures of 6,828 banks and trust companies aggregating \$1,204,489,550 and 1,065 loans were authorized in the amount of \$29,998,805 to be secured by preferred stock, a total authorization for preferred stock, capital notes and debentures in 7,090 banks and trust companies of \$1,234,488,355. \$95,462,319 of this was canceled or withdrawn and \$144,439,040 remains available to the banks when conditions of authorizations have been met. orizations have been met.

Loans have been authorized for distribution to depositors of 2,601 closed banks aggregating \$1,100,790,847. \$164,221,522 of this amount was canceled or withdrawn and \$131,924,495 remains available to the borrowers.

\$804,644.830 was disbursed and \$449.882,343 has been repaid.

Loans have been authorized to refinance 467 drainage, levee and irrigation districts aggregating \$85.552.718, of which \$1,984,865 was withdrawn or canceled, and \$60.031.740 remains available to the borrowers. \$23.— 536,113 has been disbursed.

160 loans aggregating \$16,222,275 have been authorized through mortge loan companies to assist business and industry in co-operation with the National Recovery Administration program. \$9,607,947 of this amount was withdrawn or canceled and \$1,254,843 remains available to the borrowers. \$5,359,485 was disbursed and \$371,780 has been repaid.

Under the provisions of Section 5 (d), which was added to the Reconstruction Finance Corporation Act June 19 1934, the Corporation has

authorized 902 loans to industry aggregating \$48,796,937. \$8,449,858 of this amount was withdrawn or canceled and \$26,928,562 remains available to the borrowers. In addition the Corporation has authorized, or has agreed to, purchases of participations aggregating \$7,270,435 of 149 businesses, \$836,685 of which was withdrawn or canceled and \$4,792,367 remains available

remains available.

The Corporation has purchased from the Federal Emergency Administration of Public Works 289 issues of securities having par value \$86,442,050. Of this amount securities having par value of \$54,685,600 were sold at public sale to the highest bidders at a premium of \$1,094,484; securities having par value of \$16,474,450 were subsequently collected at par and securities having par value of \$15,282,000 are still held. In addition, two issues of securities having par value of \$1,345,000 are to be purchased at par by the Corporation to be held and collected or sold at a later date. The Corporation has paid the PWA the par value of the securities purchased plus all he premiums received, together with accrued interest to the date of purchase? he premiums received, together with accrued interest to the date of purchase?

Disbursements and repayments to April 30 for all purposes were given in the report as follows:

.....491,834,980 6,914,556 458,061,572 71,444,278 Note—Loans to the Baltimore & Ohio RR. Co. outstanding amounting to \$64,-667,200 are evidenced by collateral notes of the railroad in the total face amount of \$64,802,100. Part of the outstanding loans was refunded by acceptance of the railroad's five-year 4½% secured note due Aug. 1 1939 in the amount of \$13,-490,000, at a discount of 1%, equivalent to \$134,900. In addition to the above loans authorized, the Corporation has approved in principle loans in the amount of \$22,725,000 upon the performance of specified conditions.

FCC Bars Appearance of Former Employees Until Two ears After They Leave Service

The Federal Communications Commission on May 1 adopted a resolution prohibiting all former employees of the Commission from appearing before it until the elapse of two years after they leave its employ. This resolution supplements another resolution passed in January forbidding former employees from appearance before the FCC in matters that had been before the Commission during their employment. Adoption of the resolution was noted as fol-lows in a Washington dispatch of May 1 to the New York

The former resolution had many loopholes, the Commission found, and after a search through similar regulations of other Government bodies it voted to-day to adopt substantially the Supreme Court rules which forbid employee from appearing until two years after he has left the court.

Adoption of the resolution followed criticism directed both at the Commission and the old Federal Radio Commission by Senator Wheeler when the present Commissioners were before the Senate Interstate Commerce Committee for confirmation.

It has the endorsement of Newton D. Baker, John W. Davis, William B. Guthrie, Felix Frankfurter and the Presidents of some 40 Bar Associations.

Senator Steiwer Says Administration Suppresses Criti-cal Reports of Business Advisory Council—Charges Attacks on Holding Company Bill and Banking Measure Were Not Made Public

Critical reports of the Busiress Advisory Council have been suppressed by the Roosevelt Administration, Senator Steiwer of Oregon asserted in an interview on May 11, following a White House statement of the preceding day that the Council is entirely free to publish its reports after it has consulted with the President or with the Government agencies concerned. Senator Steiwer charged that the Council had prepared unfavorable reports on the Administration's holding company and banking legislation, that these had not been made public. This information, he said, he had obtained directly from one of the Council members, who told him that the public was permitted to know only about those portions of the Administration's program which met with the Council's approval. Other remarks of Senator Steiwer were given as follows in Associated Press Washing-ton advices of May 11: The Senator said the Rayburn holding company bill and the Eccles banking bill were two measures viewed with disfavor by the Council. He added that there were other portions of the program on which the repre-

sentatives of business also were in disagreement with the Administration.

"The Council resents the suppression of those portions of the report,"
the Senator said, "and also resents the fact that only a portion of the
report was used by Administration officials as proof that business favored the New Deal and that the recent critical action by the Uhited States Chamber of Commerce was not representative of business

Competent sources said to day the Council planned to publish these and other reports after showing them to the Government agency concerned.

Future Reports of Business Advisory and Planning Council to Be Made Public After Submission to President

The Business Advisory and Planning Council has full right to make public its own reports, it was announced at the White House on May 8, following a conference between President Roosevelt and Harry Kendall, Chairman of the Council. The Council was reported to have grown restive at the thought that its findings were receiving little official consideration. It was agreed on May 8 that reports in the name of the Council would be withheld until the President and other Administration officials had been consulted. A Washington dispatch of May 8 to the New York "Herald Tribune" discussed the future program in connection with the Council's reports as follows

Once the conclusions had been laid before the President, the Council would be at liberty to make them public though without commitment of Mr. Roosevelt in any way. It was understood that the Council, before giving out its reports, would feel free to reconsider them in the light of information it received in these preliminary talks with the President and

Mr. Kendall, it is understood, agreed to this procedure as one of courtesy to the President. Subject to the approval of the full Council, the plan will supersede a resolution which the Council had just adopted to make its findings available to the appropriate Congressional committees. The resolution was adopted last week after a majority of the Council had become apprehensive that its deliberations were going for naught. The outlook changed when a delegation of the Council was brought to the White House to offset the three-day barrage from the annual convention of the Chamber of Commerce of the United States.

See Conflict with President

The conference which the President had to-day with Mr. Kendall was an outgrowth of his endeavor to mollify the restiveness in the Council and reassure the members that they were not wasting the time they were taking away from their businesses to bring their judgment to bear on New Deal problems. The uneasiness in some of the Council membership had been renewed by the widespread impression from last week's pilgrimage to the White House that Council members were seeking to curry the favor of the New Deal at the expense of their business colleagues in the Chamber of Commerce of the United States.

United States Supreme Court Not Likely to Rule on Tobacco Control Act Until Next Year—Government Program Contemplates Submission of Other AAA Legislation to Tribunal First

A final decision by the United States Supreme Court on the validity of the Kerr-Smith Tobacco Control Act will probably be delayed until some time in 1936, according to Washington reports on May 6. The Department of Justice is said to have decided upon a definite program of action, in co-operation with the legal division of the Agricultural Adjustment Administration. Cases will be presented to the Supreme Court in their regular order, and as a result the Supreme Court in their regular order, and as a result the 1933 law involving the processing taxes and the AAA voluntary program will first be submitted, to be followed by cases based upon the Kerr-Smith Act and the Bankhead cotton control measure. A Washington dispatch of May 6 to the Raleigh, N. C., "News and Observer" discussed court action with regard to the Tobacco Control Act as follows:

There have been five suits instituted attacking the constitutionality of the Kerr-Smith Tobacco Control Act, but only one of them has been decided and only two have been argued.

Reopening Appeal

Several weeks ago Judge Dawson, of Kentucky, held the Act unconstitutional and the Department of Justice is now preparing the appeal from that decision. It is anticipated that the case will be argued before the Circuit Court of Appeals for the Sixth Circuit at about the same time the cotton processing tax reached the Supreme Court.

The other case which has been argued, and one in which the Government made a much more complete record, is still being held under advisement by Judge Johnson J. Hayes, who heard arguments in the case at Greensboro during March. In case there is also an appeal from this decision, when made, the appeal would be heard first in the Circuit Court of Appeals for the Fourth Circuit, thus presenting the possibility of two decisions by two different circuit courts. The other than executive the possibility of two decisions by two different circuit courts. The other three cases attacking the Act are still in the pleading stage and have not yet been set for hearings in the district courts. Two of these cases were brought in Tennessee and one in Ohio. All three are in the Sixth Circuit and, if appealed, will go before the same circuit court as the Kentucky case already decided by Judge

No case involving the constitutionality of the Bankhead Act has yet been heard, and the first hearing of such a case is scheduled for May 28 before a district court in Mississippi.

71 Congressmen Urge President Roosevelt to Repeal Processing lax Textile Manufacturers Ask Tariff Commission to Aid in Curtailing Imports

A petition asking the repeal of the processing tax of 4.2 cents a pound on cotton, signed by 71 Representatives in Congress, was sent to President Roosevelt on May 15. the same day textile producers appeared before the United

States Tariff Commission to urge action designed to curtail

imports of foreign textile products.

The Tariff Commission began its hearings on the question of textile imports on May 14. Representatives of the domestic industry urged that the President use his authority under Section 3 (e) of the National Industrial Recovery Act to impose protective tariff rates against imports as detrimental to the success of an American industry operating under a code. Spokesmen for the industry told the Commission that production costs in the United States have advanced 66.6% since imposition of the textile code, principally as a result of sharply higher labor costs which are not encountered by Japanese manufacturers.

A Washington dispatch of May 15 to the New York

A Washington dispatch of May 15 to the New York "Journal of Commerce" summarized the testimony before the Tariff Commission, and referred to the petition sent the

President, as follows:

Ralph E. Loper, a production cost economist, told the Commission to-day that Japanese goods have a definite "edge" over the domestic textile product because of the former country's small production costs. Japanese cloths, he said, may be purchased in New York for an average of 6.25c per yard, while American mills pay production costs of 8.30c per yard for similar cloths, not including the many interest charges and profit percentage.

Sees Prices Hit

W. Ray Bell, of the New York Association of Cotton Textile Merchants, pointed to the injury suffered by the domestic price structure since the sudden increase in Japanese imports by this country. More than 2,000,000 square yards of such goods have accumulated in port warehouses, he said, and this figure is growing all the time.

Representatives of the Cotton Textile Institute appeared briefly to file data similar to that given the President's special Cabinet Committee in the investigation concluded by that body last week. The data is designed to show that American mills are not in a position to combat the lower costs

enjoyed by foreign manufacturers.

In a petition signed by 71 of his colleagues, Representative Joseph W. Martin, Jr. (Rep., Mass.) asked removal of the levy so that the textile industry may once again regain its industrial pedestal. The petition reads

"The cotton textile industry in the United States is in a very critical condition. Many mills have recently been forced to close, and many more will close in the near future unless prompt relief is given. As a result of the closing of these mills, many thousands of people have lost employment and have been obliged to seek public relief in order to live.

"The seriousness of the situation is partly due to the extremely burdensome cotton processing tax. The burden of carrying this load has proved too much for one industry, and as a result it defeats the object sought:

The recovery of the Nation.
"In view of the seriousness of the situation, we appeal to you. Mr. President, to exercise the authority vested in you and remove this tax from the textile industry."

Administrator Ickes Completes Plans for Decentralization of PWA-Miniature Offices to Be Opened in

Final plans for the decentralization of the Federal Emergency Administration of Public Works under the new program were completed recently when Administrator Harold L. Ickes approved the setting up in each State miniature PWA offices with a director and a complete staff. Simultaneously, the Administrator ordered that the pending transfer of approximately 175 lawyers, engineers and finance examiners, as well as an undetermined number of trained stenographers and clerks, to the State headquarters be accomplished as quickly as possible. In noting this, an announcement issued by the PWA also said:

Seizing the opportunity to speed up PWA procedure by putting trained personnel backed by nearly two years headquarter's experience into the field, the Administrator pointed out such action would bring closer co-operation with applicants for projects as the new program gets underway. . . . The creation of these PWA headquarters in the States, Administrator Ickes pointed out, does not mean an enlargement of PWA's staff. De-centralization is to be accomplished through the transfer of PWA employees in Washington, not through the hiring of additional workers.

The main effect of decentralization will be the removal of the congestion caused in Washington by thousands of applications for loans and grants descending upon PWA's central headquarters. Under the new system, the State headquarters will receive and examine applications and note their recommendations. With no trained force available when PWA first was set-up this work, of necessity, had to be done at Washington. Hereafter, applications will be sent to PWA in Washington with examinations already completed. In Washington they will be given a final check before being handed on to the Division of Applications and Information and from there to the Advisory Committee on Allotments.

Secretary of Agricultural Wallace Approves Ruling Permitting Making of Molasses from Surplus Philippine Sugar Cane

An administrative ruling under the Philippine sugar cane production adjustment contract, permitting producers cooperating in the sugar production adjustment program to operating in the sugar production adjustment program to convert their surplus sugar cane into molasses for sale in the Islands and in the United States as livestock feed or for distillation purposes, has been approved by Secretary of Agriculture Wallace, the Agricultural Adjustment Administration announced May 8. The ruling, administrative ruling No. 4 (Philippine sugar cane production adjustment contract), applies to the 1934-35 crop and limits the amount of molasses which may be made from surplus cane to 20,000.000 gallons. which may be made from surplus cane to 20,000,000 gallons, the AAA said, adding:

Permits for converting the surplus sugar cane into molasses may be applied for at the Manila office of the sugar section of the AAA. terms of sale of sugar cane and molasses are to be arranged among the individuals concerned, subject to review by the Secretary of Agriculture.

A similar administrative ruling has been made under the Puerto Rican

sugar cane adjustment program.

AAA Allots 1935 Continental Beet Sugar Marketing Quota to 27 Processing Companies

Allotment of the 1935 continental beet sugar marketing quota of 1,550,000 short tons to 27 processing companies after the creation of a reserve for further allotment, was announced May 13 by the Agricultural Adjustment Administration. The allotments were made by the Secretary of Agriculture under authority of the Jones-Costigan Amendment to the Agricultural Adjustment Act. Similar allotments were made for 1934. The announcement of May 13 further said:

The allotments to processors total 28,746,963 bags of direct-consumption The allotments to processors total 28,746,963 bags of direct-consumption sugar of 100 pounds each, and the reserve for further allotment and adjustments totals 225,000 bags. The 1935 allotments, which give effect to the continental beet sugar quota as announced in General Sugar Quota Régulations, Series 2, recognize the normal marketing requirements relative to new crop sugar, as well as the effective inventories as of Jan. 1 1935. The order making the allotments, Continental United States Beet Sugar Order No. 6, also provides that any processor who considers himself aggrieved because of the allotments made, may apply to the Secretary of Agriculture for a public hearing to be held with respect to the adjustment of such allotment.

of such allotment

The following are the allotments of direct-consumption sugar for 1935:

A Amendments Approved by Senate by Vote of 56 to 19—Bill Sponsored by Senator Norris Seeks to Bolster Law—Similar Measure Before House Committee

The Senate on May 14 adopted a series of amendments to the law creating the Tennessee Valley Authority, designed to meet such objections as that in which Federal Judge Grabb of Alabama ruled that the TVA had exceeded its rights in marketing electricity. The amendments were presented in marketing electricity. The amendments were presented in a bill by Senator Norris, which was approved by a vote of 56 to 19. The measure gives specific authority to the board of directors of the TVA to "provide and operate facilities for the generation of electric energy at all dams" and to "transmit and market such power." It also permits the TVA Corporation to expand its bond issuing right from \$50,000,000 to \$100,000,000. Similar legislation is now pending in the House Military Affairs Committee, which plans to resume hearings on Monday (May 20).

Passage of the amendments was noted as follows in a Washington dispatch of May 14 to the New York "Times":

Forty-six Democratic Senators voted for the amendments, together with Senators Capper, Couzens, Frazier, Johnson, Norris, Nye, Schall and Stelwar, Republicans; Shipstead, Farmer-Labor, and La Follette, Progressive. In the opposition were recorded Senators Byrd, Coolidge, Dieterich, Gerry, Gore, Lonergan, Maloney, Moore and Tydings, Democrats; Austin, Barbour, Carey, Dickinson, Hale, Hastings, Keyes, Metcalf, Townsend and White, Republicans.

Without debate, the Senate adopted a significant amendment by Senator Logan to include the Cumberland River and its basin within the provisions

of the TVA Act.

On motion of Senator Norris, sponsor of the amendments, the Senate adopted an amendment to permit the Government's experimental station

in the TVA to develop chemicals to destroy weeds.

Amother successful amendment, offered by Mr. Norris, would allow the TVA Corporation to advise and co-operate with the Federal and State governments in "readjusting the population displaced" by construction of power dams, in acquiring rights of way, &c.

An amendment by Senator Couzens making all TVA expenditures con-

form to the "uniform system of accounting for public utilities as accepted by the Bureau of Internal Revenue" was adopted.

NRA Should Be Completely Abolished, According to Herbert Hoover—Former President Says it Creates Monopolies, Crushes Small Business and Is "Un-American in Principle"

Former President Herbert Hoover said on May 15 that the complete abolition of the National Recovery Adminis-tration is "the one right answer" which the House of Representatives should give to the action of the Senate in prolonging the NRA for another ten months. The former President, in a copyright interview with the Associated Press, declared that "we cannot build a nation's economy on a fundamental error." The NRA, he said, has been crushing small business, and the entire idea of governing business through code authorities is "un-American in principle and a proved failure in practice." He charged that the NRA has saddled the American people with an era of monopolies, and has failed to increase employment.

The interview with the former President, as given in Associated Press advices of May 15 from Palo Alto, Calif., is quoted below:

The NRA has been crushing the life out of small business, he declared.

In response to a question as to what, in his opinion, Congress should do with regard to the NRA, the former President said:

"In reply to your question, the one right answer by the House of Representatives to the Senate's action extending the life of the NRA is to abolish

"Present NRA proposals are as bad, in many ways, as the original with its continuation until the next Congress; and with the Federal agents putting pressure on State Legislatures to get them to enact State laws in support of NRA, it is evident there has been no real retreat.

of NRA, it is evident there has been no real retreat.

"This whole idea of ruling business through code authorities with delegated power of law is unAmerican in principle and a proved failure in practice. The codes are retarding recovery. They are a cloak for conspiracy against the public interest. They are and will continue to be a weapon of bureaucracy, a device for intimidation of decent citizens.

"To the customary answer of 'destructive criticism,' or the other question, 'What substitute is offered?' I suggest that the only substitute for an action that rests on definite and proved economic error is to abandon it. We do not construct new buildings on false foundations, and we cannot build a nation's economy on a fundamental error.

"The beneficent objectives of a greater social justice and the prevention

"The beneficent objectives of a greater social justice and the prevention of sweating, child labor and abuse in business practices should be and can

be better attained by specific statutory law.

"There are already sufficient agencies of Government for full enforcement of the laws of the land. Where necessary those laws should be strengthened,

but not replaced with personal government.

"The prevention of waste in mineral resources should be carried out by the States operating under Federally encouraged inter-State compacts.

That is an American method of eradicating economic abuses and wastes,

as distinguished from Fascist regimentation.
"The multitude of code administrators, agents or committees has spread into every hamlet, and, whether authorized or not, they have engaged in

the coercion and intimidation of presumably free citizens.

"People have been sent to jail, but far more have been threatened with jail. Direct and indirect boycotts have been organized by the bureaucracy itself. Many are being used to-day. Claiming to cure immoral business practices, the codes have increased them a thousand-fold through 'chiseling.'

"They have not protected legitimate business from unfair competition, but they have deprived the public of the benefits of fair competition.

"This whole NRA scheme has saddled the American people with the worst era of monopolies we have ever experienced. However monopoly is defined, its objective is to fix prices or to limit production or to stifle com-

petition.
"Any one of those evils produces the other two, and it is no remedy to take part of them out. These have been the very aim of certain business elements ever since Queen Elizabeth. Most of the 700 NRA codes effect

"Exactly such schemes to avoid competition in business were rejected by my administration because they are born from a desire to escape the antitrust laws. If the anti-trust laws had not been effective in a major way, there would have been no such desire to escape them. If they do not meet modern conditions they should be openly amended, not circumvented.

"My investigations over the country show that the codes have increased

costs of production and distribution, and therefore prices. Thus they have driven toward decreased consumption and increased unemployment. They have increased the cost of living and placed a heavier burden on the

"NRA has been crushing the life out of small business, and they are crushing the life out of the very heart of the local community body. There are 1,500,000 small businesses in this country, and our purpose should be

to protect them.
"Publishers have had to resists arduously the encroachment of these
NRA codes upon such fundamental, constitutionality guaranteed American

liberties as free speech.
"The whole concept of NRA is rooted in a regimented 'economy of scarcity'—an idea that increased costs, restricted production and hampered enterprise will enrich a nation. The notion may enrich a few individuals and help a few businesses, but it will impoverish the nation and undermine the principles of real social justice upon which this nation was founded.

"If the NRA has increased employment, it is not apparent. If we sub-

tract the persons temporarily employed by the coded industries as the direct result of the enormous Government expenditures, we find that the numbers being employed are not materially greater than when it was

"NRA's pretended promises to labor were intentionally vague and have never been clarified. They have only promoted conflict without establishing real rights.

"That original ballyhoo used to hypnotize and coerce the people into into acquiescence is now gone. Most of the originally grandiose schemes now are conceded to be a violation of the spirit and the letter of the American

"Some business interests already have established advantages out of the codes and therefore seek the perpetuation of NRA. Even these interests should recognize that in the end they themselves will become either the pawns of a bureaucracy that they do not want, or the instruments of a bureaucracy the American people do not want."

"American Mercury" Cited by New York Regional Labor Board for Violating Section 7-A of NIRA— Publisher Says Issue Is Right to Discharge Employee for Inefficiency

An order of the New York Regional Labor Board, directing the "American Mercury" to reinstate seven employees and to recognize the Office Workers Union, of which they are members, was rejected on May 13 by Lawrence E. Spivak, publisher of the magazine. Mr. Spivak said that the magazine could not re-employ two of the workers, who were dismissed for alleged inefficiency on April 29. Five other employees went on strike in sympathy, contending the dismissals were for union activity. Mr. Spivak said that the only point at issue was the question whether an employer has the right to discharge an employee for inef-Officers of the Regional Labor Board said that the magazine would be cited before the National Labor Relations Board in Washington as having violated the collective bargaining provisions of the National Industrial Recovery Act.

The New York "Times" of May 14 quoted from Mr. Spivak's letter as follows:

Mr. Spivak's letter, addressed to Mrs. Elinore M. Herrick, Executive Director of the Regional Labor Board, said the "American Mercury" could not comply with the order because it was based upon erroneous findings and because the jurisdiction of the Regional Labor Board was doubtful.

"The point at issue in this case, and the only point, is whether an employer has the right to discharge an employee for inefficiency," Mr. Spivak wrote. "The owners of the 'Mercury' insist that they have this right and refuse to be coerced into renouncing it by an illegal strike, precipitately called, and ruthlessly conducted.

"The 'American Mercury,' convinced that it has violated no law, will continue to protect its independence as a business and as an organ of free speech."

At her frome last night, Mrs. Herrick said she had not yet received Mr. Spivak's letter. She was annoyed by the fact that he had released it to the press before its receipt by the Regional Labor Board, and indicated that the Board would proceed to carry out its threat of citing the "American Mercury" before the National Labor Relations Board.

Union Officials Threaten Renewal of Strike of National Biscuit Co. Workers-Claim Company Fails to Adhere to Terms of Settlement

Final settlement of a strike of employees of the National Biscuit Co., which kept 6,000 workers from their jobs since Jan. 8, was announced on April 28 by officials of the Inside Bakery Workers Union and Roy E. Tomlinson, President of the company. Striking employees in both New York and Philadelphia returned to their jobs on April 29, but a renewal of the walkout was threatened early this week, when union officials announced that officers of the comwhen union officials announced that officers of the company had failed to live up to the agreement. The union charged that the company, since the settlement, had increased the speed of operations, had reduced payrolls and wages, and had discriminated against strikers. The union on May 13 filed a complaint with the Regional Labor Board in New York.

The original settlement of the strike was brought about through the intermediation of Lewis Hines, representing the American Federation of Labor, and Charles Kutz, of the Pennsylvania State Department of Labor. The company agreed to certain concessions. The New York "Times" of April 29 noted the settlement as follows:

Under the settlement wage rates in force in the plants on Jan. 8, when the strike began, will be continued. Preference in reinstatement of employees will be given, as far as practicable, to married workers and those with family responsibilities; length of service and proficiency also to be considered.

The immediate needs of the company will govern the number of employees who are to return to work immediately. New employees engaged since Jan. 8, as well as all old employees for whom work cannot be provided at once, are to be placed on a preferential list.

The New York strike, conducted by the Inside Bakery Workers Federal Union, was called in sympathy with the union workers in the Philadelphia plant. At one time the number of strikers was 3,000. The strike was marked by many picketing demonstrations and clashes with the police and non-union employees.

Automotive Strike Ended as Chevrolet Employees Vote to Accept Peace Terms—Radical Leaders Admit Defeat—A. F. of L. Claims General Motors Corp. Made Some Concessions

Thousands of automotive parts workers, who had been on strike for more than three weeks, returned to their jobs on May 15 as the result of a settlement negotiated on May 13 when striking employees of the Chevrolet Motor Co., at Toledo, Ohio, voted by 732 to 385 to accept the terms ar-ranged at a conference between officers of the General Motors Corp. and labor leaders. The result was termed a Motors Corp. and labor leaders. The result was termed a complete defeat for the radical members on the strike committee, who denounced the peace proposal. After Francis J. Dillon, representative of the American Federation of Labor, had been refused permission to speak at the strikers' meeting on May 13, he declared that the union would be expelled from the Federation. Later, however, he addressed the strikers, and urged acceptance of the peace proposal, stating that the General Motors Corp. had made important concessions. The balloting followed his speech.

The most recent reference to the automotive strike was

The most recent reference to the automotive strike was contained in the "Chronicle" of May 11, page 3149. The Automobile Manufacturers Association on May 14 issued a bulletin summarizing the terms of settlement of the Chevrolet strike as follows:

- 1. Conforming with President Roosevelt's strike agreement of March 25 1934. by not recognizing any organization or agency as the exclusive bar-gaining agency for employees.
 - 2. No signing of any agreement with any labor organization.
- Conditions of employment are to be posted on Bulletin Board.
 Meet with employees' representatives on grievances and complaints.
 Enforcement of seniority rules established by the Automobile Labor
- Freedom from discrimination for all shop committee members.

7. Increase of 4 cents an hour.

Associated Press advices from Detroit on May 14 noted the end of the strike in the automobile industry as follows:

The threat of a widespread tie-up in automotive production faded to-day as the first of some 33,000 workers began returning to their benches under terms of the settlement ending the three-week strike in the Toledo plant of the Chevrolet Motor Co.

Confronted near the peak season of consumer demand with a mounting stack of unfilled orders, Chevrolet officials bent every effort to speed into top production the score of branch plants closed as a result of the strike.

Officials declined to say when Chevrolet output, cut from 28,700 units to 10,000 last week by the halt in production of transmissions at Toledo.

would be restored to normal, but said the Toledo plant would begin turning out transmissions tomorrow. The other plants are expected to resume operations as the parts become available.

Strikers in the Cleveland plant of the Fisher Body Co. voted to-day to return to work, and an official of the A. F. of L. union in the Fisher and Chevrolet plants in Atlanta said the strike there would be called off. The Cleveland plant will open to-measure. Cleveland plant will open to-morrow.

Death of Marshal Joseph Pilsudski, Dictator of Poland

Marshal Joseph Pilsudski, dictator of Poland, died on Marshal Joseph Flistidski, dictator of Foliand, died on May 12. He was 67 years old. An official communique, announcing the death, said that the Marshal's illness had been chronic for several months. His health had been poor for many years. The official proclamation paid tribute to the Marshal's leadership in the fight for Polish independence. Although his death was not unexpected, it caused some apprehension that it might result in a partial realignment of political influence in Europe. He died on the ninth anniversary of the 1926 movement that made him virtual dictator of Poland. A dispatch of May 12 from Warsaw to the New York "Times" commented on the political aspects of his death, in part, as follows:

Marshal Pilsudski's death left vacancies in the offices of Minister of War and Inspector-General of the Army. General Taseus Kasprzycki was appointed Minister of War and General Edward Rydz-Smigly was made Inspector-General of the Army.

The passing of the greatest man Poland has known since Prince Kosciusko The passing of the greatest man Poland has known since Prince Kosciusko and the dictator of the country since 1926 should not, it is stressed in official quarters, be expected to give rise to any change in Poland's regime. He had for a few years left the Government to others and had acted only as adviser in military and foreign affairs.

The Marshal's death was expected, and the candidates for the two important offices he held had already been chosen several weeks ago. The question of Marshal Pilsudski's successors is, therefore, formally settled.

The new War Minister was Under-Secretary for War and for some time, in fact, had been conducting the affairs of the Ministry. He is a Pilsudski legionary and is still in his forties. He is regarded as a non-political officer.

officer.

The post of Inspector-General of the Army is much more important and was created especially for the Marshal. His successor is now the most popular officer in the army. He also served in the Pilsudski Legion during the World War. He studied at the Academy of Arts in Cracow and was a painter before he entered the army. He is 50 years old.

Generals Rydz-Smigly and Krasprzycki belong to a rather small group

of Pilsudski legionary officers who never left the army for politics. As to General Rydz-Smigly's political views, it is generally held that he is inclined to support the radical and Left Wing of the Pilsudski pro-Govern-

Death of John S. Cohen, Editor of Atlanta "Journal"-Was Former United States Senator from Georgia

Major John S. Cohen, President and Editor of the Atlanta Vice-Chairman of the Democratic National Committee and former United States Senator from Georgia, died on May 13 in Atlanta. He was 65 years old, and had been in declining health for several months. A message of condolence was sent to his family by President Roosevelt, who had been a close friend for many years. An Associated Press account from Atlanta, May 13, in summarizing Mr. Cohen's career, said in part:

He was appointed to the United States Senate by Governor Richard B. Russell, Jr., in 1932 to fill the vacancy caused by the death of Senator William J. Harris, and remained in the Senate until Russell was elected nine months later. That same year Major Cohen was made Vice-Chairman nine months later. That same of the Democratic Committee.

Major Cohen became connected with the Atlanta "Journal" in 1890,

and for many years was active in political affairs in Georgia.

Major Cohen was an active leader in the movement which brought about the nomination of Franklin D. Roosevelt as the Democratic Presidential nominee at Chicago in 1932. He took an active part in the campaign and was frequently consulted by Mr. Roosevelt and other party leaders.

Close Friend of Roosevelt

He was a warm personal friend of President Roosevelt and was always a welcome visitor at the White House after Mr. Roosevelt went into office. A native of Augusta, Ga., Major Cohen entered the United States Naval

Academy in 1885, after preliminary training in Richmond Academy, Augusta, and Shenandoah Valley Academy in Virginia. He resigned from the Naval Academy in 1886 to begin his journalistic career.

He first joined the staff of the Augusta "Chronicle" and four years later became connected with the Atlanta "Journal" as a reporter.

In the interim he spent a year in Mexico with Captain William G. Raoul,

builder of the Mexican National Railroad, and was a reporter in 1889 on the New York "World."

From reporter he progressed to political writer, Washington correspondent, chief editorial writer and managing editor of the "Journal" before being elevated to President and Editor of the paper in 1917.

Senator Glass Awarded Medal for Work in Reforming Banking System—Is One of Four Americans Honored by Institute of Social Sciences

Four well-known Americans, including Senator Carter Glass of Virginia, were awarded the gold medal of the National Institute of Social Sciences in recognition of "disdinner of the Institute in New York City on May 9. Others honored were Cornelius N. Bliss, Dr. Harvey Cushing and Dr. George E. Vincent. Dr. H. Parker Willis, Professor of Banking at Columbia University, made the presentation speech to Senator Glass, and pointed out that the award was made to him "in recognition of distinguished services represented." made to him "in recognition of distinguished services rendered to humanity as one of the leaders in the planning and creation of the Federal Reserve Banking System, as Secretary of the Treasury, as United States Senator, and as one who has through a long life consistently and unsparingly devoted his abilities and energies to public service.

Senator Glass, in accepting the medal, discussed the proper behavior for a public servant, and said that the modern interpretation calling for abject subservience to the popular will was extremely distasteful to him. He added, in part:

I have a distinct distaste for a modern-day interpretation of the phrase "public servant." To me it was never intended to mean abject subservience to the popular will, however uninformed or misdirected. I prefer to think of a United States Senator as the representative of the sovereignty of his State and subject every moment of his service to the promptings of his

own conscience and the preservation of his own intellectual integrity.

He has no moral right to sacrifice either to the clamor of the multitude or to the decree of "titled consequence," wherever it may be enthroned. Long ago I learned—indeed, I did not have to learn; it is a self-evident proposition—that the public man who permits himself to pause long enough to inquire whether a thing is popular or unpopular, instead of seeking to know whether it is right or wrong, is not only useless, but dangerous to his country.

He is a coward to begin with, and a menace always.

Dennis Chavez Appointed Senator from New Mexico Succeed Late Bronson Cutting

Dennis Chavez, former Democratic member of the House of Representatives, was appointed Senator from New Mexico on May 11, to secceed the late Senator Bronson Cutting, who was killed in an airplane crash on May 6. Senator Cutting's death was recorded in the "Chroniele" of May 11, page 3150. Governor Tingley of New Mexico made the appointment of Mr. Chavez for a period extending until the 1936 general election 1936 general election.

E. L. Thurston Appointed Special Assistant to Gover-nor of Federal Reserve Board in Charge of Public

Elliott L. Thurston was appointed on May 7 by Governor Marriner S. Eccles of the Federal Reserve Board as a special assistant to be in charge of public relations. Mr. Thurston for many years was a Washington newspaper correspondent, and in recent months was on the editorial staff of the Washington "Post." In reporting the appointment, Wash-ington advices, May 7, to the New York "Times" of May 8

The appointment marks a move to bring about "a better understanding

of the purposes and activities of the Federal Reserve System."

Since Mr. Eccles became Governor of the Board last November he has arranged weekly conferences with newspaper men and has made a general effort to acquaint the public with many developments in the System.

Mr. Thurston will be the first public relations officer of the Reserve Board to go into action since the Federal Reserve Act was approved in 1912.

In 1929, when Charles R. Michelson resigned as chief of the Washington bureau to become publicity representative for the Democratic National Committee, Mr. Thurston succeeded him.

Senate Confirms Nomination of T. W. Page for Reappointment to United States Tariff Commission

Thomas Walker Page of Virginia, Vice-Chairman of the Tariff Commission, was reappointed by President Roosevelt on May 7, and his nomination was confirmed by the Senate May 10. He enters on June 17 next, on a new term of six May 10. He enters on June 17 next, on a new Years. Commissioner Page was a member of the Taft Tariff years. 1912 and was one of the Board, which was discontinued in 1912, and was one of the early appointees to the first Tariff Commission, having been named by President Wilson in February 1918 and having served as Vice-Chairman and later as Chairman of the Commission at that time. He resigned in 1923. During the interim between his resignation and respectivement to the interim between his resignation and reappointment to the Commission in 1930, he was associated with the Brookings Institution. In 1930 President Hoover named him as the senior Democratic member of the reorganized Tariff Commission, and appointed him Vice-Chairman.

Horatio B. Hackett Appointed Assistant Administrator of PWA

Announcement was made on May 12 by Harold L. Ickes, Administrator of the Federal Emergency Administration of Public Works, of the appointment of Horatio B. Hackett as Assistant Administrator. Colonel Hackett has been for the past 16 months Director of the Housing Division of the Public Works Administration, to which office he has been succeeded by Angelo Clas, formerly Assistant Director. Elevation of Colonel Hackett to the Assistant Administratorship follows the recall to the War Department of Major Philip B. Fleming, U. S. Corps of Engineers, who since last September has served as Acting Deputy Administrator of Public

New York State Chamber of Commerce Elects 13 New Resident Members

Executives of a number of leading corporations were among the 13 new resident members elected by the Chamber of Commerce of the State of New York on May 2. The new members elected were:

Fred Seymour, President American Gas & Power Co. Bernard M. Culver, President Continental Insurance Co.
George H. Clifford, President Stone & Webster Service Corp.
George W. Billings Jr., President John P. Tilden, Inc.
Edward C. Bailly, Vice-President Carolina Clinchfield & Ohio Ry. Perley Morse, Vice-President Addressograph Co. James M. Brown, of Jacquelin & DeCoppet. Dudley Cates, insurance.

Henry H. Egly, of Dillon, Read & Co. Marion L. Lewis, President American Historical Society. David S. Lobdell, of Lobdell & Co. Edmund M. Tallman, of Hagedorn & Co. Charles D. Morris, of Collier's.

A. G. Quaremba Elected Chairman of Committee of Banking Institutions on Taxation

The Committee of Banking Institutions on Taxation, which comprises representatives of National and State banks, trust companies and private banking institutions, held its seventeenth annual meeting at the Hotel Astor, New York, on May 9, at which the following officers were

Chairman, A. G. Quaremba of the City Bank Farmers Trust Co. Vice-Chairman, Edward J. O'Connor of the Guaranty Trust Co. of New

Secretary, Thomas L. Pryor of the Brooklyn Trust Co.

Members of the Executive Committee, Stephen L. Jenkinson of the
Chemical Bank & Trust Co.; Daniel O. Deckert of the Bank of the Manhattan Co.; Joseph B. Ryan of the Chase National Bank; W. B. Loery
of the Bank of New York & Trust Co., and F. K. Bosworth of the Empire

The objects of this organization, it was announced, are to co-operate in assisting in the administration of tax laws, to disseminate among its members information pertaining thereto, and to act as a clearing house for communications from Federal and State tax authorities.

Illinois Bankers Association to Hold Annual Convention at Decatur May 20 and 21—M. S. Szymczak and E. W. Kemmerer Among Scheduled Speakers

On May 20 and 21 the Illinois State Bankers Association will hold its forty-fifth annual convention at Decatur, Ill. The annual Association dinner will be held in the evening of May 20, and will be addressed by G. A. Benson, Washington correspondent for the "Minneapolis Journal," on "This Distracted World." In addition to Mr. Benson the speakers at the convention, among others, include:

M. S. Szymczak, member Federal Reserve Board.

Professor E. W. Kemmerer, Princeton University.
Ronald Ransom, Executive Vice-President Fulton National Bank, Atlanta, Ga., and Chairman Committee on Federal Legislation, American

Bankers Association.

F. Lee Major, Vice-President Boatmen's National Bank, St. Louis.

E. W. DeLano, President Allegan State Savings Bank, Allegan, Mich.

C. B. Axford, editor "American Banker," New York.

Dwight H. Green, United States District Attorney for Northern Illinois.

Annual Convention of National Association of Credit Men to Be Held in Pittsburgh, Pa., During Week of June 17

Initial arrangements being completed, announcement was made May 10 by Henry H. Heimann, executive manager of the National Association of Credit Men, that the fortieth annual convention of the Association will be held at the Hotel William Penn, Pittsburgh, Pa., during the week of June 17. Wholesale, manufacturing and banking credit executives who comprise the Association's membership of 20,000 are expected to gather from every State in the country to a total reaching 2,000 delegates. Coincident with the annual convention, Mr. Heimann further announced, the recently inaugurated Credit Congress of Industry, a successful feature for the past four years, will be held. This Congress brings together credit executives of each individual industry in special conclaves for the mutual consideration of credit problems in the individual industries represented eration of credit problems in the individual industries represented by the delegates.

Savings Banks Association of State of New York Plans Holding Next Convention in Buffalo, Sept. 26

At a recent meeting of its Executive Committee it was decided that the next convention of the Savings Banks Association of the State of New York would be held at the Hotel Statler in Buffalo, on Sept. 26 and 27, 1935. The Committee has already started to work on the program to be presented at that time. An announcement issued for release to-day (May 18) further said:

The convention for the past few years has been held in New York City and it was felt highly desirable by the Committee to have it this year at an upstate point. Members of the Association are sure of a cordial welcome from their associates in Buffalo and vicinity.

Booklet Distributed by Bank Management Commission of American Bankers Association—Aid to Banks in Analyzing Their Operating Costs

The Bank Management Commission of the American Bankers Association is distributing to all members a "Manual for Determining Per Item Costs," as booklet No. 15 in its commercial bank management series. The purpose of the book is to aid banks in analyzing their operating costs as a basis for establishing equitable services the property. basis for establishing equitable service charges. In a foreword contained in the booklet, Orval W. Adams, Chairman of the Commission, says:

Cost analysis is of prime importance in modern banking. Through it the bank can determine what part of the banking operation is responsible for losses and what must be done to eliminate them. when this study is printed and distributed. Cost analysis is not an end in itself but a means to an end. The aim is the elimination of wasteful

operations and unprofitable business through analysis of accounts and the installation of profitable service charges.

Reopening of Closed Banks and Lifting of Restrictions

The items relating to those banks closed during the banking holiday of March 1933 and which have appeared under the above head, will hereafter be found under "Items About Banks, Trust Companies, &c."

ITEMS ABOUT BANKS, TRUST COMPANIES, &c.

Following is the proposed transfer of memberships this week: May 10, Charles W. MacQuoid, deceased, to Fred R. Wolfe, at \$88,000; May 11, Russell Clark to Raymond A. Coward, at \$90,000; Coll J. Turner, deceased, to Peter J. McDermott, at \$90,000; Edward L. Norton, deceased, to Harry F. Southwood, at \$95,000; May 13, Henry D. Stoddard to Leonard W. Dangler, at \$105,000, and May 16, one, at \$104,000.

The membership of Stuart R. Patterson in the New York Cotton Exchange was sold May 13 to Philip B. Weld, for another, for \$10,900, this price being \$2,900 in advance of the previous sale.

Arrangements were completed May 14 for the sale of a membership on the Chicago Stock Exchange for \$2,400, up \$200 from the last previous sale.

William D. Hutton, resident partner of the brokerage firm of W. E. Hutton & Co., died May 12. Mr. Hutton, who was 64 years old, had been a member of the New York Stock Exchange from 1901 to 1928. Previous to coming to New York, he had served with his father's firm of W. E. Hutton & Co. from 1892 to 1901, after which he joined the firm of his cousin, E. F. Hutton, as floor partner. In 1907 he rejoined W. E. Hutton & Co., retaining up to the time of his death the office of resident partner.

Walter P. McCaffray, senior partner of the New York Stock Exchange firm of Walter P. McCaffray & Co., died May 11 at the age of 47 years. Mr. McCaffray had been a member of the New York Curb Exchange since 1917, and was a member of the Board of Governors since Feb. 1930. At the time of his death he was also a member of the Exchange's Committees on Arbitration and Listing and a subcommittee on bonds.

Harvey D. Gibson, President of Manufacturers Trust Co., announced May 16 that James L. Fozard has been elected a Vice-President of the bank.

The Manufacturers Trust Co., New York, will inaugurate a personal loan service during the early part of June. This decision was reached by the Board of Directors at their last meeting and was made public May 16 by Harvey D. Gibson, President of the bank. A careful and intensive study made during the last few months by a committee of officers has convinced the directors that the plan is both timely and practical. This personal loan service will be available at all of the 56 offices of Manufacturers Trust Co., in Manhattan, Brooklyn, Bronx and Queens, and will be extended not only to customers of the bank but also to non-customers. Applications for loans will be considered in amounts from \$60 to \$2,000. The discount rate on notes for such loans will be The Manufacturers Trust Co., New York, will inaugurate \$2,000. The discount rate on notes for such loans will be 6% per annum. The Modernization Loan Department of Manufacturers Trust Co. will be consolidated with the new Personal Loan Department, so as to bring both types of service under the same uniform procedure.

J. F. T. O'Connor, Comptroller of the Currency, has declared a second dividend of 20% for depositors in the Yardley National Bank, it was announced May 16, by George H. Younger, receiver. A dispatch in the matter from Yardley, printed in the Philadelphia "Record," also

Checks totaling about \$76,000 will be available to creditors in about three weeks. Younger said. The dividend will bring payments made to depositors to 80%.

According to Chambersburg, Pa., advices, printed in "Money and Commerce" of May 11, Jere E. Miller has been elected President of the Farmers' & Merchants' Trust Co. of that place, to succeed the late William S. Hoerner, who had the dual position of President and Solicitor. T. Z. held the dual position of President and Solicitor. Minehart was named to succeed Mr. Hoerner in the latter capacity and B. B. Holler was chosen Vice-President to succeed Mr. Miller, the new President.

In indicating that a fourth dividend was to be paid to depositors of the defunct People's National Bank of Brookneal, Va., a dispatch from that place under date of May 11 to the Richmond "Dispatch", had the following to say, in

G. H. Tucker, receiver for the Peoples National Bank of Brookneal, announces that he is ready to pay the fourth dividend to the depositors. This dividend will be 12% of the remaining amount. There have been three other payments, the first for 15%, the second for 5%, and the third

Announcement was made recently of the proposed consoli-dation of the Citizens' National Bank of Parkersburg, W. Va., with the Parkersburg National Bank, institutions which have long been affiliated and which have combined deposits of more than \$4,000,000. We quote further in part from a Parkersburg dispatch in the matter, appearing in "Money & Commerce" of May 11:

The proposed merger will form one of the largest banks in West Virginia. Notices are being published for meetings of the stockholders of each of the two banks, to be held June 6, for the purpose of voting for ratification of

Distribution of a 10% dividend to depositors of the Marion National Bank of Marion, Ohio, was scheduled to be made on May 15, according to Associated Press advices from Marion on that date. It will amount to \$79,673 and bring the total payments to 66% it was said.

Canton, Ohio, on May 7, preliminary work to a proposed plan for reopening the Central Savings Bank & Trust Co. of Canton was completed on that day when copies of the plan, together with consents, were mailed to all depositors. We quote the advices further: quote the advices further:

The reopening, if approved, will be made possible through a loan of \$280,000 by the Reconstruction Finance Corp. Favorable action has been taken on the loan application at Washington, and it has been forwarded to the Cleveland Reconstruction Finance Corp. office.

The reopening plan will enable release of $40\,\%$ of the deposits to depositors. The remaining 60% would go into a mortgage company

Liquidators of the Security-Home Trust Co. of Toledo, Ohio, were to begin payment of a 5% dividend to depositors on May 15, it was announced on May 13, following approval of their application by Judge James S. Martin in Common Pleas Court, according to the Toledo "Blade" of that date, which also said:

The dividend, the sixth since the bank was closed in 1931, will mean disbursement of approximately \$860,000. The payment will bring the total return to depositors to 35%.

Payment of a dividend of 5% to creditors of the Buckeye Commercial Savings Bank of Findlay, Ohio, was begun on May 14. In noting the matter a dispatch from Findlay printed in the Toledo "Blade" went on to say:

This brings the total paid to 80% since the institution closed five years Approximately \$150,000 is being disbursed at this time.

That the Sharon Center Banking Co. of Sharon Center, Ohio, had been closed for reorganization purposes, was reported in the following dispatch from Marietta, Ohio, appearing in "Money & Commerce" of May 11:

While final steps in reorganization are taken preliminary to reopening in about two weeks, the conserved Sharon Center Banking Co. of Sharon Center has been closed.

The Farmers' & Wabash National Bank of Wabash, Ind., which went into receivership a year and a half ago, on May 13 paid a 30% dividend to depositors, the payment representing \$369,783.70. A dispatch in the matter from Wabash to the Indianapolis "News" further stated:

At the time of the organization of the First National Bank—the only bank here at present—a dividend of 65% was paid to depositors of the & Wabash National, out of which they agreed to invest 10% in stock in the First National.

Payment of \$31,086, or 3% to depositors of the Madison Square State Bank of Chicago, Ill., was authorized on May 13 by State Auditor Edward J. Barrett and checks were to be mailed May 14. This is the first return for depositors since the bank closed June 15, 1932, and follows the compromising of \$175,000 in debts of the bank during the first three months of the vear. The Chicago "News" of May 14, authority for the above, also supplied the following details:

Receiver William L. O'Connell has wiped out \$379,309 in preferred and secured claims, but bills of \$160,000 still remain. Assets of \$831,000 still in the portfolio are valued at little more than those debts, and a sell-out loan from the Reconstruction Finance Corporation is regarded as the best chance for any further returns. The current payment is made from funds obtained in ordinary liquidation from assets not pledged against the bank's

Milton J. Hayes, recently with Moody's Investors Service and previously in the trust department of the Continental Illinois National Bank & Trust Co. of Chicago, has become associated with the American National Bank & Trust Co. of that city, and will specialize in bond investment work.

The American National Bank & Trust Co. of Chicago, Ill., on May 15 announced that Harold E. Foreman, of the Chicago banking family of that name, would become a Vice-President of the institution, according to a dispatch by the Associated Press from that city on the date named. Mr. Foreman was formerly Chairman of the Board of the old Foreman National Bank, the dispatch said.

On May 2 the First National Bank of Hominy, Okla., with capital of \$50,000, went into voluntary liquidation. The institution was absorbed by the National Bank of Commerce of Hominy.

The First National Bank of Durant, Okla., was placed in voluntary liquidation on April 24. The institution, which had a capital of \$100,000, was succeeded by the First National Bank in Durant.

The Mercantile-Commerce Bank & Trust Co. of St. Louis, Mo., has announced the appointment of James M. Decker as Assistant Vice-President. Mr. Decker assumed his new duties in the commercial banking department of the institution on May 15. The announcement by the bank

Mr. Decker is a native St. Louisan and has spent most of his business career in that city. He was for many years connected with the firm of McCluney & Co., St. Louis, commercial paper brokers, in their new business and sales departments and as Manager of their credit department. In this latter capacity he travelled extensively throughout the southwest, and is well known in that territory. In 1932 Mr. Decker became Auditor of the Shawnee Milling Co., Shawnee, Oklahoma, and remained in that office until shortly before his present appointment. While in Oklahoma he was a director of the Oklahoma Credit Men's Association.

A 20% liquidating dividend to creditors of the Lowell Bank and the Grant State Bank, both of St. Louis, Mo., will be paid shortly, according to an announcement on May 7 by Oscar Wibbing, Deputy State Finance Commissioner, in charge of the liquidation of banks, after Circuit Judge O'Malley had granted authority to make loans from the Reconstruction Finance Corporation for the purpose of making the distributions. In noting this, the St. Louis "Globe-Democrat" of May 8 furthermore stated:

Judge O'Malley granted the Lowell Bank authority to borrow \$250,000 from the RFO for the purpose of paying the dividend, while allowing the Grant State Bank permission to borrow \$160,000. Both banks have previously naid liquidating dividends of \$00%.

ously paid liquidating dividends of 30%.

M. C. Horton, connected with the Bank of Poplar Bluff, Poplar Bluff, Mo., since 1886 and its President for 15 years has been removed as head of the institution by the Board of Directors, it was announced May 9, according to Associated Press advices from Poplar Bluff on that date, which further stated that Ed L. Abington had been named President to succeed Mr. Horton, who will continue as a member of the Board.

Leonard G. Miller has been appointed an Assistant Cashier of the Mutual Bank & Trust Co. of St. Louis, Mo., according to the St. Louis "Globe-Democrat" of May 11, from which we quote further as follows:

Mr. Miller has been with the bank since it opened in April of 1934. Previously he had been a bank examiner for the Federal Deposit Insurance Corporation, and prior to that had been engaged in the banking field here for about 12 years.

Beginning May 16, the receiver of the First National Bank of Mebane, N. C., was to pay a second dividend of 30% to creditors who have proved their claims, we learn from advices from that place on May 11, appearing in the Raleigh "News and Observer," which added:

This distribution has been made possible by a loan obtained from the Reconstruction Finance Corporation. A dividend of 12½% has heretofore been paid by this trust.

Announcement was made on May 9 that the Stanly Bank & Trust Co. of Albemarle, N. C., would pay a dividend of 25% to its original depositors, beginning May 13. In noting this, an Albemarle dispatch on May 10, appearing in the Raleigh "News and Observer," added:

Approximately \$15,000 will be paid out to these depositors. the second dividend to be paid by the bank, each for 25%. The other dividend was paid several months ago. The bank has sufficient assets to pay all depositors in full, and this will eventually be done. The other

Effective April 15, the First National Bank of Pampa, Tex., with capital of \$50,000, went into voluntary liquida-tion. The institution was replaced by the First National Bank in Pampa.

It is learned from the Denver "Rocky Mountain News" of May 10 that at the regular monthly meeting of the directors of the First National Bank of Denver, Col., on May 9, J. F. Dawson was elected Cashier to succeed the late J. C. Houston. Mr. Dawson, who formerly was a junior officer, has been with the bank for many years. At the same meeting, Lee C. Ashley, John B. Welborn and Clayton O. Floyd were appointed Assistant Cashiers, it was stated.

Application of the First National Bank in Reno, Nev., to open a branch bank at Fallon, which was approved early in April of this year by the Comptroller of the Currency, resulted in the opening of the Fallon branch on May 3, according to C. F. Wente, President of the First National Bank in Reno. The San Francisco "Chronicle" of May 3, authority for this, added:

H. E. Harworth, formerly with the head office of the bank in Reno, has been selected as Manager and J. B. Koehler as Assistant Cashier.

Commercial depositors of the defunct Citizens' Bank of Ashland, Ore., were to receive a 10% dividend, amounting to \$17,000, after May 14, we learn from Ashland advices on May 7 to the Portland "Oregonian", which continuing said:

The payment will be the fifth in the commercial department of the bank, now in process of liquidation, bringing totals dividends up to 60%. Depositors in the savings department have received 65%.

The Yokohama Specie Bank, Ltd., head office Yokohama, during the second half of 1934 showed net earnings, after provision for bad and doubtful debts, rebate on bills, &c., of 7,234,380 yen, according to the report to stockholders received in New York on May 13. Inclusive of 8,256,944 yen brought forward June 30 1934, the total was 15,491,325 yen. Additions to the reserve fund totaled 1,550,000 yen and dividends 5,000,000 yen, leaving 8,941,325 yen carried forward to the next account.

THE CURB EXCHANGE

Specialties and oil stocks were in fairly heavy demand on the Curb Exchange during the early part of the week, but the oil shares gradually fell back as the week advanced. On Monday and Tuesday the volume of business was moderately heavy and the trend of the market showed a strong inclination to move to higher levels despite the fact that considerable realizing was apparent at all times. On Wednesday, following a fairly strong opening, the market turned downward though a few of the alcohol stocks showed an inclination to hold their previous gains.

Irregular price movements due to week-end adjustments characterized the trading during the brief session on Saturcharacterized the trading during the brief session on Saturday. The volume of dealings was somewhat heavier than the average half-day, the total transfers reaching approximately 185,180 shares. Gulf Oil of Pennsylvania was in brisk demand and moved forward 3½ points to 67½, A. O. Smith advanced 2½ points to 69½ and Syracuse Lighting gained 2 points on a small transaction. Other active stocks showing small gains included such market favorites as Aluminum Co. of America, Swift & Co., Technicolor, Inc., and Electric Bond & Share.

Specialties were in good demand on Monday as the market continued to move toward higher levels. Oil stocks also were in demand at higher prices despite the fact that more or less realizing was apparent throughout the session.

more or less realizing was apparent throughout the session. The best gains were registered by Aluminum, Ltd., which moved ahead 5½ points to 31, and Singer Mfg. Co. which surged forward 3½ points to 254½. Small gains were also registered by Allied Mills, Aluminum Co. of America, American Light & Traction, Creole Petroleum, Greyhound Corp., Pioneer Gold Mines of B. C., and International Petroleum

Petroleum.

The demand for high class specialties continued fairly The demand for high class specialties continued fairly strong on Tuesday, but selling pressure on the public utilities had a depressing tendency on the general list and many active stocks among the speculative favorites were inclined to sag. The volume of business was fairly large, the turnover for the day reaching approximately 255,000 shares. Commonwealth Edison yielded to offerings and dipped 8½ points to 67. Aluminum Co. of America was also under pressure and dipped about 1¼ points. Declines were also recorded by such market favorites as American Gas & Electric, Electric Bond & Share, Pioneer Gold Mines of B. C., Sherwin Williams and Technicolor, Inc.

The volume of trading was much lower on Wednesday, ard while there was some interest displayed in the alcohol stocks that carried a number of the more active issues to

stocks that carried a number of the more active issues to higher levels, there were also a number of market favorites that slipped below the previous close. Stocks showing fractional losses included among others, American Gas & Electric, Carrier Corp., Fisk Rubber Corp., Humble Oil & Refining Co., Newmont Mining Corp. and American Light & Traction Light & Traction.

Curb prices resumed their upward climb on Thursday, the volume of trading reaching the highest point touched in several months. The improvement was apparent throughout several months. The improvement was apparent throughout the list and many prominent issues registered gains ranging up to 2 or more points. Aluminum Co. of America was in sharp demand and advanced 2½ points to 59¼, Dow Chemical also attracted considerable buying and gained 2½ points to 99 and Gulf Oil of Pennsylvania moved up 2¾ points to 72. Many other outstanding stocks showed moderate gains including Carrier Corp., Creole Petroleum, Ford Motor of Canada A, Newmont Mining Corp. and Sherwin Williams Co. Co.

Opening prices were fairly strong on Friday but profit taking appeared as the session progressed and a goodly part of the gains of the previous day were cancelled. Scattered through the list were a number of preferred stocks that held a part of their advances and closed fractionally higher. The a part of their advances and closed fractionally higher. The turnover for the day was below the preceding session. As compared with Friday of last week, prices were higher, Aluminum Co. of America closing last night at 58½ against 51 on Friday a week ago, American Cyanamid B at 19½ against 18¾, Atlas Corp. at 9½ against 9½, Canadian Marconi at 15½ against 1½, Consolidated Gas of Baltmore at 68½ against 68, Distillers Seagrams Ltd. at 16¾ against 14, Electric Bond & Share at 7¾ against 7, Glen Alden Coal at 15¾ against 13¾, Greyhound Corp. at 47 against 46, Gulf Oil of Pennsylvania at 71 against 64¾, Hudson Bay Mining & Smelting at 16 against 15¼, International Petroleum at on of reinsylvania at 71 against 64%, Hudson Bay Mining & Smelting at 16 against 15¼, International Petroleum at 37% against 36, National Bellas Hess at 1¾ against 1½, Newmont Mining Corp. at 52½ against 52¼, Parker Rust Proof at 60 against 59¾, Sherwin Williams Co. at 96¼ against 94⅓, Standard Oil of Kentucky at 20½ against 19⅓ and Swift & Company at 15⅓ against 15.

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them to-day inasmuch as the week ends to-day We cannot (Saturday) and the Saturday figures will not be available until noon to-day. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results for the week previous—the week ended May 11. For that week there is a decrease of 4.6%, the aggregate of clearings for the whole country being \$5,037,961,127, against \$5,278,504,594 in the same week in 1934. Outside of this city there is an increase of 8.4%, the bank clearings at this center having recorded a loss of 4.6%. We group the cities according to the Federal Reserve districts in which they are located, and from this it appears that in the New York Reserve District, including this city, the totals show a loss of 10.9% and in the Boston Reserve District of 4.3%, but in the Philadelphia Reserve District the totals record a gain of 2.2%. The Cleveland Reserve District has managed to enlarge its totals by 3.7%, the Richmond Reserve District by 5.5%, and the Atlanta Reserve District by 9.9%. In the Chicago Reserve District there is an improvement of 15.6%, in the St. Louis Reserve District of 13.0%. In the Kansas City Reserve District the increase is 24.5%, in the Dallas Reserve District 3.5%, and in the San Francisco Reserve District 15.8%. Reserve District 15.8%.
In the following we furnish a summary of Federal Reserve

districts:

THE ENGLISH GOLD AND SILVER MARKETS

We reprint the following from the weekly circular of Samuel Montagu & Co. of London, written under date of May 1 1935:

The Bank of England gold reserve against notes amounted to £192,578,474 on the 24th ultimo, as compared with £192,556,403 on the previous Wednes-

day.

During the week about £2,900,000 gold has changed hands at the fixing and prices have been maintained at about the same premium over the gold exchange parities. There has been no fresh feature, a good general demand readily absorbing the amounts offered.

Quotations during the week:

Equivalent Value

April 25	Captarana aming and interest	Per Fine Ounce	Equivalent Value of £ Sterling

Venezuela	15,012
Other countries	30,803
	es 019 109

France	
Norway	8,680
Netherlands	3,000
Belgium	138,800
U. S. A	139,996
Venezuela	39,100
Argentine Republic	7,000

£506.045

The S.S. "Mooltan" which sailed from Bombay on the 27th ultimo carries gold to the value of about £390,000 consigned to London.

SILVER

The past week has been one of abnormal activity and violent fluctuations

The week opened with a rise of 2 1-16d, for both deliveries, heavy speculative demand following the news that the American Treasury had raised its buying price for newly-mined domestic silver from 71 cents to 77.57 cents per ounce and the statement that purchases of domestic silver would continue until the price reached \$1.29 per ounce.

A further rise of 1 1/4d. on April 26 carried quotations to 36 1/4d. for cash and 36 1/4d. for two months delivery, which were the highest recorded since July 1922. Although the market seemed firm even at this level, business being done at higher rates in the afternoon, a sharp reaction followed, the next two days seeing successive falls of 1%d. and 1%d. on heavy profit-taking sales by China. Yesterday, however, a renewal of demand by speculators and the Indian bazaars, caused some recovery, prices being fixed at 34 11-16d. and 34 %d.; to-day there was a comparatively slight fall to 34 %d. and 34 11-16d., representing a net advance for the week of 1 11-16d. and 1 %d. for the respective deliveries.

There has been no indication of buying by the United States Treasury in this market, which is at present dominated by speculators. Conditions are consequently very uncertain and wide fluctuations are likely to con-

The rapid rise in the price of silver has resulted in the Mexican Government taking measures to safeguard its currency by withdrawing from circulation all silver coinage. A decree issued on April 27 provides for the return of all silver coins to the Government within a period of 30 days.

The following were the United Kingdom imports and exports of silver registered from mid-day on the 20th ultimo to mid-day on the 29th ultimo:

ATHEOTICS	
Anglo-Egyptian Sudan	£12,000
British South Africa	9,840
Aden & Dependencies	7,327

CURRENT NOTICES

—The termation of a new firm of municipal bond dealers—Morse Bros. & Co., Inc., was announced on Wednesday by Marshall Morse, Charles Morse and Robert Morse. The firm will have its offices at 80 Broad St. and will conduct a general municipal business, specializing in high grade eral market municipals and governments.

Marshall Morse, president of the new firm, has been assistant manager of the municipal bond department of Lehman Brothers for the past thirteen years. Prior to that time, he held a similar position in the New York office of A. B. Leach & Co. Charles Morse, Vice-President, has also been associated with the municipal bond department of Lehman Brothers since 1922 years. Robert Morse, vice-president, has been with Lehman Brothers for the past several years. Robert Morse, vice-president, has been with Lehman Brothers for the past seven years and in the last few years has been in charge of the wholesale sales department. Edward M. Fitzpatrick, assistant treasurer and cashier of the new firm, has been with the accounting department of Lehman Brothers since 1928

—Announcing a substantial increase in personnel and removal to considerably larger quarters at the same address, 120 Broadway, Louis S. Lebenthal of Lebenthal & Co. said that such steps were necessary due to the greatly increased activity of the odd-lot municipal bond market. According to Mr. Lebenthal, the current interest in odd-lot municipals has never been greater at any time since he and Sayra Fischer Lebenthal pioneered in this field ten years ago. Ever since its founding in 1925, Lebenthal & Co. has been the only organization in the United States confining its operations to this type of security. Among the new members of the organization is George E. Lockwood, formerly a member of the firm of Rapp & Lockwood, and prior to that an officer of R. M. Grant & Co. Mr. Lockwood is in charge of the trading department.

-Organization is announced of a new Chicago investment firm to deal exclusively in municipal bonds under the name of A. S. Huyck & Co. A. S. Huyck, President, has had more than 35 years' experience in the purchase and sale of minicipal securities. For the past 15 years he has been Vice-President and Manager of the municipal department of A. C. Allyn & Co. in Chicago. He was a member of the committee which has just recently successfully completed the refunding of the bonded debt of Miami, Fla., totaling \$29,000,000.

Associated with Mr. Huyck in the new company will be Russell Gartley, Secretary and Treasurer who has been assistant to Mr. Huyck in the municipal department of A. C. Allyn & Co. since 1923.

-Organization is announced of the formation of the Interstate Investment Corporation to specialize in public utility securities, headed by W. W. Turner as president. Other officers include W. B. Egan, vice-president, and Wilbur Helm, vice-president and secretary. These officers hold similar positions with the Wilsey Investment Company, and both firms will maintain new quarters at 120 South La Salle Street, Chicago.

"Other cash" does not include Federal Reserve notes or a bank's own Federal Reserve bank notes.

x These are certificates given by the U.S. Treasury for the gold taken over from the Reserve banks when the dollar was on Jan. 31 1934 devalued from 100 cents to 59,05 cents, these certificates being worth less to the extent of the difference the difference the difference the difference the provisions of the Gold Reserve Act of 1934.

Weekly Return of the Federal Reserve Board

The following is issued by the Federal Reserve Board on Thursday afternoon, May 16, showing the condition of the twelve Reserve banks at the close of business on Wednesday. The first table presents the results for the System as a whole in comparison with the figures for the seven preceding weeks and with those of the corresponding week last year. The second table shows the resources and liabilities separately for each of the twelve banks. The Federal Reserve note statement (third table following) gives details regarding transactions in Federal Reserve notes between the Reserve Agents and the Federal Reserve banks. The Reserve Board's comment upon the returns for the latest week appears in our department of "Current Events and Discussions."

Weekly Return for the Member Banks of the Federal Reserve System

Following is the weekly statement issued by the Federal Reserve Board, giving the principal items of the resources and liabilities of the reporting member banks in 91 leading cities from which weekly returns are obtained. These figures are always a week behind those for the Reserve banks themselves. The comment of the Reserve Board upon the figures for the latest week appears in our department of "Current Events and Discussions," immediately preceding which we also give the figures of New York and Chicago reporting member banks for a week later.

PRINCIPAL ASSETS AND LIABILITIES OF WEEKLY REPORTING MEMBER BANKS IN LEADING CITIES, BY DISTRICTS. ON MAY 8 1935 (in Millions of Dollars)

New York Stock Exchange—Bond Record, Friday, Weekly and Yearly

On Jan. 1 1909 the Exchange method of quoting bonds was changed and prices are now "and interest"—except for income and defaulted bonds.

NOTICE—Cash and deferred delivery sales are disregarded in the week's range, unless they are the only transactions of the week, and when selling outside of the agular weekly range are shown in a footnote in the week in which they occur. No account is taken of such sales in computing the range for the year.

regular weekly range are shown in a footnote in the week in which they occur. No account is taken of such sales in computing the range for the year.

NOTICE—Cash and deferred delivery sales are disregarded in the week's range, unless they are the only transactions of the week, and when selling outside or the regular weekly range are shown in a footnote in the week in which they occur. No account is taken of such sales in computing the range for the year.

In the following extensive list we furnish a complete record of the transactions on the New York Curb Exchange for the week beginning on Saturday last (May 11 1935) and ending the present Friday (May 17 1935). It is compiled entirely from the daily reports of the Curb Exchange itself, and is intended to include every security, whether stock or bond, in which any dealings occurred during the week covered:

STOCKS	Week's Range of Prices	for A	uly 1 933 to pr 30 1935	Range Jan. 1	Since 1935	STOCKS (Continued)	Week's Range of Prices	Sales for Week	July 1 1933 to A pr 30 1935	Range Jan. 1	1935

CURRENT NOTICES

-R. B. Douglas, formerly manager of the municipal bond department of the American National Bank & Trust Co. of Chicago and prior to that with Chase Securities Corp., will become associated with John Nuveen & Co., of Chicago, it is announced. Mr. Douglas is well known in the municipal bond field. Prior to making his new connection he will take a month's vacation.

—Charles F. Henderson & Sons, members of the New York Stock Exchange, announce the opening of a new investment department to deal in both listed and unlisted securities. The department will be in the charge of Richard J. Reynolds, formerly manager of the investment department of The First Boston Corporation.

-John D. Bennett, formerly Vice-President of the Bennett Oil Co., who was elected to membership on the Commodity Exchange, will make his offices with Munds, Winslow & Potter at 40 Wall Street. He will specialize in petroleum futures.

-Outwater & Wells, 15 Exchange Place, Jersey City, N. J., are distributing their current list of New Jersey investment offerings, including available municipals yielding from 2.00% to 4.75%.

—The New York Stock Exchange firm of J. R. Williston & Co. anounces that William S. Sagar, a member of the New York Stock Exchange, has been admitted as a general partner.

-Hemphill, Noyes & Co., members of the New York Stock Exchange, announce that Charles A. Taggart has been appointed manager of the bond department of their Philadelphia office.

-John E. Sloane & Co., 41 Broad St., New York, have prepared a circular analyzing reports of important railroad companies for the first three

—Charles C. Rickard, formerly with Theodore Prince & Co., has been associated with Hardy & Co. in their railroad bond department.

Algoma Steel Corp., Ltd.—Personnel—
Sir James Dunn has been elected President and Chairman of the board of this new company (successor per plan in V. 140, p. 465, to Algoma Steel Corp., Ltd.). Three other directors have been named as follows: 1st Vice-President, W. C. Franz; 2d Vice-President and Vice-Chairman of the board, John A. McPhail; Director and General Manager, Thos. F. Rahilly Other officers will be: Secretary, William Jeffrey; Treasurers, E. W. Shell; Comptroller, E. Carey; Assistant Comptroller, W. H. Birks.—V. 140, p. 2518.

Allied Chemical & Dye Corp.—Chairman Resigns—To Apply for Permanent Registration—

The following statement was issued by the company on March 15:
"At the meeting of directors Orlando F. Weber resigned as a director and Chairman of the Board. In tendering his resignation Mr. Weber stated his action was prompted by a determination made long previously to free himself from all administrative responsibility as soon as he could do so without impairment of the efficiency of the company's management. He said that as a stockholder he would continue to give the present management his active support and assistance.

"It was decided to apply for permanent registration of the company's preferred and common stocks on the New York Stock Exchange under the provisions of the Securities and Exchange Act.
"H. F. Atherton, President of the company, was elected Chairman in

"H. F. Atherton, President of the company place of Mr. Weber, and will serve as both —V. 140, p. 3028.	, was elected Chairman an	i Chairman in d President.

Total_____x Represented by 1,088,117 no par shares. Committee Proposed for Bondholders—
G. T. Clarkson, receiver and manager, has asked bondholders of the company to meet in Toronto June 7 to pass a resolution, if thought advisable, appointing a committee to represent them in receivership proceedings. Necessity for some such move is due to the fact that under provisions of the bond deposit agreement, depositors have the right to withdraw them at any time up to June 10 1935, if no plan of reorganization has been adopted before that date.—V. 140, p. 2518.

American Crystal Sugar Co.—Recapitalization Plan—
The stockholders at the annual meeting to be held June 11 will be asked to approve a plan of recapitalization designed to take care of accumulated

dividends on the preferred stock, it was announced at the directors' meeting on May 10.

on May 10.

This proposed plan provides for the creation of new cumulative 6% preferred stock to be offered in exchange for the present 7% preferred stock on the basis of 1.6 shares of the new stock for one of the old.

Back dividends on the 7% preferred now outstanding will amount to \$63 on July 1. It is expected that a cash disbursement of \$3 a share will be authorized to complete liquidation of the arrearage.

New Directors-Charles Boettcher, 2d, and Jan Van Houton have been elected directors to fill vacancies.—V. 139. p. 917.

American Furniture Mart Building Corp. - Seeks to Modify Plan-

Modify Plan—

The corporation has petitioned the court for leave to modify the plan of reorganization, dated April 2 1935, which it has submitted to security holders and the U. S. District Court at Chicago. The proposed modifications are in substance as follows:

(1) When the bonds outstanding have been retired to \$5.500,000, thereafter and until the outstanding bonds have been retired to \$3.750,000, the rate per annum of contingent interest payable to bondholders is increased from 2% to 3% and all contingent interest, which under the original plan was non-cumulative, is made cumulative.

Unpaid cumulative contingent interest is of course added to the redemption price of the bonds. In addition to other restrictions on the distributions to stockholders, no distributions shall be made as long as any accumulations of contingent interest remain unpaid.

(2) When the amount of bonds outstanding has been reduced to \$3,-750,000, the fixed interest thereafter payable on the bonds is increased from 5% to 6% per annum.

(4(3) Further provisions are established to assure the use of funds arising from depreciation and obsolescence solely for property additions, improve-

ments, replacements, major alterations, and the retirement of bonds and scrip coupons.

The company believes that the modifications submitted, improve the plan of reorganization as originally filed, are fair, and are feasible from the point of view of sound business operation.

Digest of Reorganization Plan as Originally Submitted.

G. C. Rasmussen, reorganization manager, in a letter to security-holders says in part:
Company, in common with a great many businesses, has had difficult problems to meet in the last few years.

The result of the depression in the furniture industry has brought about an unavoidable and substantial reduction in the gross income of this company.

The result of the depression in the furniture industy has brough an unavoidable and substantial reduction in the gross income of this company.

The company found itself at the end of the year 1934 still with a continued low gross income as against its past experience, an improvement in which it is still impossible to tangibly forecast, with unpaid interest represented by coupons not exchanged for scrip, with serious omissions in making its sinking fund payments due, amounting to \$378,500, which would be increased during the year 1935 by an additional \$275,000. In addition to this, the maturities of scrip which represented postponement of interest payments, would commence in 1938. It was considered impossible for the company reasonably to expect to meet these requirements, both past and immediately in view, after making proper provision for the payment of current taxes and current operations. In view of the circumstances, the board of directors has concluded that the soundest course to pursue for the protection of the company and its various securityholders is to effect a readjustment of the financial structure of the company theorem ized to the company under Section 77-B of the Federal Bankruptcy Act. This action was approved at the adjourned annual meeting of the stockholders.

The company has voluntarily initiated this procedure, and has advanced promptly a plan in the development of which it has consulted representatives of the holders of various types of securities, including Harris Trust & Savings Bank, which, as one of the underwriters of the bonds, has approved the reorganization under the provisions of the plan.

Principal Features of Plan

Principal Features of Plan

Bonds—The bonds are extended approximately 10 years from their present maturity, to Oct. 1 1955.

The interest rate on the bonds is reduced from 6% to 5%, of which 3% is fixed and 2% is contingent upon the amount of earnings and is non-cumulative.

is fixed and 2% is contingent upon the amount of earnings and is noncumulative.

The present accumulations of sinking fund are eliminated and future sinking fund payments are based upon earnings; 80% of the available net earnings, as defined, being devoted, first, to the payment of contingent interest, and, second, to sinking fund.

Provision is made for retiring scrip at present outstanding and past-due interest coupons not converted into scrip, by partial payment in cash and conversion of the balance into non-interest-paying scrip coupons attached to and transferable with the bonds, payable in 5, 10 and 15 years.

The bonds will be redeemable on 30 days' notice at par plus accrued and unpaid fixed interest to redemption date, plus the principal amount of any unmatured and unpaid scrip coupons attached to such bonds.

Preferred Stock—Each share of 7% cumulative preferred stock now outstanding will be exchanged for (a) one share of new \$6 no par value non-cumulative preferred stock, having preference over the common stock on liquidation of \$100 per share and redeemable at \$100 per share; and (b) 1½ shares of new \$1 par value common stock now outstanding will be exchanged for one share of new \$1 par value'common stock.

Common Stock—Each share of \$5 par value common stock now outstanding will be exchanged for one share of new \$1 par value'common stock.

Voting Rights—All shares of new preferred and common stock will have voting power and upon the election of one-third of the outstanding bonds the bondholders will become entitled to vote for directors on the basis of sight votes for each \$100 par value of bonds held.

New Company—The plan will be carried out through the organization of a new corporation under the laws of the State of Delaware.

Purposes of Plan

Purposes of Plan

The plan is framed to provide for the retirement of bonds to the maximum capability of the business of the company, with a goal set at a reduction of the bonds to \$3,750,000, when normal relations of the bondholders and stockholders can be resumed, at which time (1) interest on bonds at 5% becomes fixed; (2) voting rights of bondholders cease; (3) restrictions on distribution to stockholders terminate; and (4) sinking fund is modified.

The plan affects only the company's outstanding bonds and interest thereon, whether represented by unpaid coupons or by scrip, and the preferred and common stock of the company outstanding.

Capitalization and Financial Condition

The capitalization and indebtedness of corporation as of Dec. 31 1934, giving effect to exchanges of coupons for scrip through Feb. 20 1935, is as follows:

39,178

> 503,682 32,389 17.573

Less tax warrants on hand at cost, including ac-crued interest_____

Scrip Coupons—The scrip coupons shall consist of three promissory notes of the new company attached to each bond as extended and transferable only upon transfer of the bond, payable to the registered owner of the bond, all dated Jan. I 1935, one coupon to be payable five years after date, one coupon to be payable 10 years after date, and one coupon to be payable 15 years after date, all of such coupons to be non-interest-bearing. Said coupons shall be in the amount of \$25 each with respect to bonds of \$1,000 par value and \$12.50 each with respect to bonds of \$500 par value. Scrip coupons may be issued separate from the bonds in cases where the ownership of coupons and scrip on the date of the filing of the petition of the debtor has been separated from the ownership of the bonds to which such coupons and scrip are appurtenant.

American Rolling Mill Co.—Refunding Plan—
The company on May 14 filed a registration statement with the Securities and Exchange Commission, seeking to issue \$25,000,000 10-year convertible debentures, due May 1 1945. The application also provides for registration of 1,000,000 shares (\$25 par) common stock to be reserved for issuance upon the conversion of the debentures. Interest rate on the debentures will be disclosed in an amendment to the application.

Underwriters include W. E. Hutton & Co., Edward B. Smith & Co., First Boston Corp., Brown Harriman & Co., Inc., Kidder, Peabody & Co., Field, Glore & Co., and Lee, Higginson Corp.

Proceeds from sale of the debentures will be used to redeem about July 15, \$13,665,300 5% convertible notes due Nov. 1 1938, while \$3,659,250 will be advanced to Sheffield Steel Corp., subsidiary, to be applied redeem on Sept. 1 1935, the entire outstanding issue of first mortgage 5½% bonds, due March 1 1948, of the latter concern.

In addition, approximately \$5,000.000 will be used for the construction of a wide cold reduction mill and miscellaneous equipment, while about \$1,625,000 will go to increase working capital.

Stockholders Approximation Program—

Stockholders Approve Financing Program—
The financing program was approved May 16 at the annual stockholders' meeting.—V. 140, p. 3203.

American Water Works & Electric Co.—Weekly Output

Output of electric energy for the week ended May 11 1935, totaled 38,207,000 kilowatt hours, an increase of 7% over the output of 35,691,000
kilowatt hours for the corresponding period of 1934.

stock, share for share, at any time after six months from date of issue, providing that no class A stock may be issued by conversion of class B common stock or otherwise which would make the total amount of class A stock outstanding exceed the total amount of class B common stock outstanding.

7% Cumulative Preferred Stock—Preferred as to capital and dividends; entitled to cumulative preferential dividends in priority to other classes of stock at rate of 7% per annum, payable quarterly (F. & A.), and no dividends shall be paid on other classes of stock unless all accumulated and the current quarterly dividends have been paid or set aside. Holders of the first \$3,300.000 7% cum. pref shares issued may at any time within 60 days from the date of original issue of such shares elect by notice to the company to receive payment of dividends in lawful money of the U. S. of America of nominal value equal to the nominal value of such dividends in terms of Canadian currency; until such election is changed with the consent of the directors. Dividends will be payable in lawful money of Canada unless election is made for payment in lawful money of the U. S. of America. In case of an additional issue of such pref. shares, payment of dividends may be made in lawful money of the United States or in lawful money of Canada, at the discretion of directors. Preferred shares are redeemable as a whole or in part on any div. date at \$55 per share in lawful money of Canada in case of involuntary liquidation, plus all divs. The 7% cum. pref. shares are entitled to \$35 per share in lawful money of Canada in case of involuntary liquidation, plus all divs. The 7% cum. pref. shares are entitled to 33 1-3% of the 165,000 total votes exercisable by the shares of all classes entitled to vote and each 7% cum. pref. shares are entitled to 33 1-3% of the 165,000 total vote severcisable by the shares of all classes entitled to payment thereof have been set aside in any calendar year, non-cumulative dividends on the 7% cum. pref. shares of class A

or net profits of the company further dividends on the shares of class A stock and class B common stock, but only equally and ratably as a single class.

The shares of class A stock are entitled to 10% of the 165,000 total votes exercisable by the shares of all classes entitled to vote, and each share of class A stock shall entitle its holder to the vote or fraction of a vote resulting from dividing 16,500 votes by the number of shares of class A stock at the time outstanding, provided that at elections of directors each shareholder is entitled to the number of votes accorded to his shares multiplied by the number of directors to be elected and he may cast all of such votes for a single director or may distribute them among the number to be voted for as he shall see fit. If all the 7% cum, pref. shares shall at any time be retired, the votes to which holders of such preferred shares are entitled shall be added to the votes to which holders of class B common stock are entitled. In the case of liquidation or dissolution of the company, shares of class A stock and of class B common stock shall rank equally and ratably as a single class.

Registrars—Chartered Trust & Executor Co., Montreal, and London & Western Trusts Co., Ltd. Vancouver.

Transfer Agents—Montreal Trust Co., Montreal and Vancouver.

Business and Assets—Under an agreement for sale dated April 16 1935, between National Telephone & Telegraph Corp. and the company shares in the capital stock of the company to be outstanding as above are to be issued as fully paid in consideration of the transfer of investments and properties comprising the below mentioned shares and securities.

An underwriting agreement dated March 29 1935 has been entered into with responsible British bankers covering the \$3,300,000 7% cum. pref. shares to be issued, but holders of National Telephone & Telegraph Corp.

first pref. shares resident outside of the United States of America and its possessions will be given the right, good until the close of business May 17 1935, to exchange their first pref. stock on the basis of one share thereof for one share of 7% cum. pref. stock of this company and \$4 in Canadian funds, to be provided out of the underwriting.

Holders of class A common stock of National Telephone & Telegraph Corp. resident outside of the United States of America and its possessions will be given an opportunity to receive 1 8-10ths shares of class A stock of the company for each share of class A common stock of National Telephone & Telegraph Corp. Class B common stock of the company to be outstanding as above mentioned is equal to 1 8-10ths shares for each share of class B common stock of the company to be outstanding as above mentioned is equal to 1 8-10ths shares for each share of class B common stock of National Telephone & Telegraph Corp. now outstanding.

of class B common stock of National Telephone & Telegraph Corp. now outstanding.

Assets to Be Acquired

Upon completion of the transaction the company will own 44.943 ordinary shares out of a total of 45,000 ordinary shares of British Columbia Telephone Co. and the whole of the capital stock of Point Roberts & Gulf Telephone Co. and Dominion Directory Co., Ltd., also all of the capital stock of Company amounting to \$992,000.

The company amounting to \$992,000.

The company will also control, through a holding company (Philippine Company), the majority of the shares of the Telephone Investment Corp. In addition, the company will also own all of the common or ordinary capital stock of Chilliwack Telephones, Ltd., Kootenay Telephone Co., Ltd., Mission Telephone Co., Ltd., through the ownership of 63,216 ordinary shares, being all the outstanding capital stock, of North-west Telephone Co. None of these companies has funded debt outstanding in the hands of the public except British Columbia Telephone Co., Telephone Investment Corp. and Philippine Company, which together have \$11,609,000 of bonds and notes outstanding as of Dec. 31 1934, including notes of Philippine Co. for \$1,500,000 securing indettedness to British Columbia Telephone Co. Through operation of the above subsidiary companies, the company will control over 130,000 telephone stations, together with long distance toll and wireless circuits. The population in the territory served aggregates over 3,500,000.

Descriptions of Properties

Descriptions of Properties

British Columbia Telephone Co., Incorp. by Private Act of the Dominion of Canada, is the second largest privately owned telephone operating company in Canada, operating without competition some 63 telephone exchanges and 106,562 telephones, serving a population in excess of 500,000, including the metropolitan areas of Vancouver and Victoria. Chiliwack Telephones, Ltd., Kootenay Telephone Co., Ltd., and Mission Telephone Co., Ltd., operate 3,847 telephones, serving various municipalities throughout the Province of British Columbia.

Telephone Investment Corp., through its subsidiary, operates 20,371 telephones, together with a long-distance telephone system in the Philippine Islands, serving the City of Manila and outlying territory. The Philippine system is connected by wireless telephone with the American Bell Telephone system and practically all of the telephone systems of the world and is equipped to handle wireless telephone business with the Orient. Compania Dominicana de Telefonos, C, por A,'s system is a complete national telephone system serving the Dominican Republic, operating approximately 700 miles of toil lines and 1,503 stations, serving a population of about 1,000,000, including Santo Domingo City, Santiago, San Pedro de Macoris and Puerto Plata. Wireless equipment is now being installed which will connect the telephone system of the company with the American Bell Telephone system and practically all of the telephone systems of the world. Substantially the whole system is equipped with automatic telephone equipment and represents an investment of more than \$1,000,000. Substantial toil line rentals are received from All-America Cables and the Dominican National Government. Rates are calculated in United States Government administers the customs and financial policy of the Republic.

Republic.

Associated Gas & Electric Co.—Weekly Output—
For the week ended May 4, Associated Gas & Electric System reports net electric output of 53,187,911 units (kwh.), which is an increase of 5.1% above that reported for the comparable week last year. This is the highest per cent increase reported since the week ended March 16, a period of seven weeks.

The comparatively cloudy weather this year resulted in a general increase in residential consumption and accounted for this improvement.—V. 140, p. 3204.

Associated Telephone Co., Ltd.—Transfer Agent— The company has notified the New York Curb Exchange that the \$1.50 preferred stock is transferable only at the Citizens National Trust & Savings Bank of Los Angeles, Calif.—V. 139, p. 2669.

Atlas Imperial Diesel Engine Co.—10% Stock Dividend The directors have declared a stock dividend of 10% on the class A stock, payable in class A stock on June 15 to holders of record June 5. See also V. 140, p. 2521.

Aviation Corp.—Annual Report—

L. B. Manning, President, says in part:

The corporation, connected intimately as it is with the progressive aviation industry, looks forward to the future and its opportunities rather than backward to the losses and errors of the past. Legislation adopted by the 1934 Congress has necessitated the divorcement of all parent corporations from any ownership of or control over any company holding air mail contracts.

The result is that the control over any company holding air mail

the 1854 Congress has necessitated the divorcement of all parent corporations from any ownership of or control over any company holding air mail contracts.

The result is that the corporation, which has financed and developed this business at great expense to itself and its stockholders, is no longer allowed to have any representation in the management of the air mail corporations or to hold any direct or indirect interest therein. This edict of our Government has been complied with by the resignation of all officers and directors who are connected with the management of subsidiaries holding air mail contracts and by the transfer to trustees for the benefit of the stock-holders of this corporation as of Dec. 31 1934, all of the stock of American Altilines, Inc., Canadian Colonial Airways, Inc., and 38,600 shares of the stock of General Aviation Corp. theretofore owned by this corporation.

American Airlines, Inc., was organized following the cancellation of the old air mail contracts in February 1934, and as a wholly-owned subsidiary of this corporation bid upon and obtained from the Poet Office Department, contracts for the transportation of the air mail from Chicago to New York via Detroit and Buffalo: from Boston to New York: from Newark, N. J., via Washington, Nashville, and Fort Worth, to Los Angeles: from Chicago, Ill., to Fort Worth, Tex.; from Chicago via Cincinnati to Washington; and from Boston via Buffalo and Cleveland to Nashville.

Canadian Colonial Airways, Inc., likewise controlled by this corporation, through its wholly-owned subsidiary, American Airways, Inc., had a 10-year contract for the transportation of the air mail northbound from Newark, N. J., to Mentreal, Canada.

General Aviation Corp. is not managed or controlled by this corporation, and our investment therein is a minority one. Its stock was originally acquired in 1929 when the corporation was known as Fokker Aircraft Corp. General Aviation Corp. is now being liquidated, and holders of its stock are entitled to receive as a liquidat

owned.

North American Aviation, Inc., operates air transport lines and holds air mail contracts from New York to Miami along the Eastern seaboard, and from New York to New Orleans, and Chicago to Jacksonville, Fla. Therefore, to comply with the air mail laws it seemed necessary to segregate this stock also and place same in the possession of trustees so that the rights therein to receive stock of the North American Aviation, Inc., would be held by the trustees for the benefit of stockholders of this corporation.

would be held by the trustees for the benefit of stockholders of this corporation.

The trustees selected by the board of directors of the Aviation Corporation.

The trustees selected by the board of directors of the Aviation Corporation and the benefit of its stockholders the said stock of the air mail contractors are C. R. Smith, President, and T. J. Dunnion, Treasurer, of American Airlines, Inc., and J. J. Grealis, one of the attorneys for this corporation and its subsidiaries. The instructions given to the trustees are to distribute or dispose of the stocks conveyed to them in trust in such manner as the stockholders of the corporation may determine and as required by the laws of the United States.

The directors are of the opinion that the stock of North American Aviation Inc., when received, should be sold and the proceeds of such sale distributed to the stockholders of this corporation, and that the stock of American Airlines, Inc., and Canadian Colonial Airways, Inc., should be distributed pro rata to the stockholders of this corporation at an early date.

Preliminary to such distribution that have reconvended.

date.

Preliminary to such distribution they have recommended that the certificate of incorporation of Canadian Colonial Airways. Inc., be amended and the capitalization of the corporation changed so that the outstanding stock will consist of 138,897% shares (par \$1). The outstanding stock of American Airlines, Inc., consists of 277,775 shares of stock (par \$10). The outstanding stock of Aviation Corp. is 2,777,750 shares (par \$5). The outstanding stock of Aviation Corp. is 2,777,750 shares (par \$5), It is recommended that the stockholders of this corporation approve the distribution of the stock of American Airlines, Inc., on the basis of one share of American Airlines, Inc., for every 10 shares of Aviation Corp. stock outstanding, and that the stock of Canadian Colonial Airways, Inc., be distributed on the basis of one share of Canadian Colonial Airways, Inc., for every 20 shares of Aviation Corp. stock outstanding, and that such distribution be made in the form of voting trust certificates dated July 1 1935 to the stockholders of Aviation Corp. of record May 1. It is further recommended that on July 1 1936 such stock of North American Aviation, Inc., as shall have been received, be distributed to the stockholders of record of this corporation at the close of business on May 1

1935, unless prior to July 1 1936 the stock shall have been sold or disposed of by the trustees, and that the trustees be authorized and directed, in their sole judgment and discretion, to dispose of the stock or sell the same at any time prior to July 1 1936 at such price and upon such terms and conditions as they or the majority of them may see fit, and with instructions of such sale or disposition is made, to distribute immediately the net proceeds of such sale or disposition among the stockholders of record of this corporation at the close of business May 1 1935, and if such sale or distribution of stock is not made before July 1 1936, then on such date to distribution of stock is not made before July 1 1936, then on such date to distribution of stock is not made before July 1 1936, then on such date to distribution as Aviation Corp. has no earned surplus out of which the fore-going recommended distributions can be made as an earned dividend, directors recommend that the par value of the authorized and outstanding capital stock of the corporation be reduced from \$5 to \$3 per share and the certificate of incorporation amended accordingly. Also that the net amount of such reduction in the capital account of the corporation, or \$5,555,500, being \$2 per share on the outstanding 2,777.750 shares of capital stock, be credited to the paid-in or capital surplus account of the corporation. This will permit the distribution of the shares of American Airlines, Inc., and Canadian Colonial Airways, Inc., and the stock of North American Aviation, inc., or the proceeds of the sale or disposition thereof to the stockholders of this corporation of record at the close of business May 1 1935 as a partial liquidating dividend. This reduction in the par value of the outstanding shares of the capital stock of the corporation and amendment to the certificate of incorporation was submitted to the stockholders and approved by them at the annual meeting on April 16 1935.

The appointment of C. R. Smith, T. J. Dunnion, and J. J. Grea

and Propeller Divisions of the patents, machinery, tools, dies, figs, fixtures and inventory appertaining.

Title to the purchased assets was taken in the name of a newly organized subsidiary, Aviation Manufacturing Corp., all of the perferred stock and one-half of the common stock of which is owned by the company, and payment for said assets is to be made in cash and shares of common stock of Aviation Manufacturing Corp., the sales price of the physical properties and intangible assets having been determined by the engineering firm of Ford, Bacon & Davis, Inc., as of Sept. 30 1934, and adjusted to date of purchase by Arthur Young & Co. (C. P. A.).

itself, except for the pledge of a leasehold on \$1,109,600 of said bonds, and as stated under contingent liabilities, contra), of which \$10,430,750 are past due and open mortgages, and instalments of \$195,552 and mortgages of \$2,722,250 mature in 1935, \$25,342,025. Balance as above, \$7,083,119. Contingent liabilities: (1) At Dec. 31 1934, Bing & Bing, Inc. was contingently liable on six bonds accompanying bonds and mortgages on buildings completed in 1931, as follows: (a) In the aggregate sum of \$3,000,000 on four of these bonds. Instalments have been paid in connection with two of these mortgages (including instalments since paid on March 1 1935) releasing Bing & Bing, Inc., from liability on bonds in respect to these two mortgages aggregating \$1,425,000. The remaining two bonds aggregate \$1,575,000 and will become void upon the payment of mortgage instalments amounting to \$15,750. These instalments are postponed until March 1 1941, with privilege of prepayment, but are subject to demand for payment on any interest date after Sept. 1 1936. (b) In the aggregate sum of \$200,000 on two bonds, which two bonds will become void upon the further reduction of the two mortgages by \$174,000 (including \$117,500 postponed to March 1 1941, with privilege of prepayment, but subject to demand for payment on any interest date after Sept. 1 1936) and on payment of interest on the mortgages and real estate taxes until the said \$174,000 reduction of principal is made. The postponements of instalments above referred to are conditioned upon Bing & Bing, Inc. paying no dividends on its stock until all postponed instalments have been paid.

(2) Proposed assessments of additional Federal income taxes aggregate about \$115,000 for prior years.—V. 140, p. 313.

Bush Terminal Co.—Meeting Adjourned—
Stockholders of the company (in process of reorganization under Section 77-B of the Bankruptcy Act), who gathered May 14 to conduct the annual meeting were advised by Irving T. Bush, President, that the meeting would have to be adjourned in view of the fact that C. Walter Randall and James C. Van Siclen, court trustees for the company, had applied for a temporary injunction seeking to restrain holding of a meeting.

Application had been made for an injunction before Federal Judge Robert A. Inch, Mr. Bush stated, and when the Court reserved deicsion company's attorneys had agreed to postpone the meeting. Subsequently, stockholders formally adjourned the meeting to May 28.

Mr. Bush stated that while he had not seen any earnings figures, it was indicated that the company showed a moderate upturn in earnings last year with fixed charges earned and a margin to spare. The building company he said he believed operated with a difficit.

An appeal is now pending before the U. S. Circuit Court of Appeals seeking to compel the trustees to give Mr. Bush a list of the company's stockholders.—V. 140, p. 1478.

Canada & Dominion Sugar Co., Ltd.-Pays 50-Cent Extra Dividend-

An extra dividend of 50 cents per share was paid on the no-par common stock on May 15. The dividend was paid in Canadian funds subject to a 5% tax in the case of non-residents. A similar extra dividend was paid on July 16 1934. The regular quarterly dividend of 37½ cents per share is due on June 1 next.—V. 139, p. 437.

Canadian Canners, Ltd.—Smaller Dividend—
The directors have declared a dividend of 7½ cents per share on the no-par convertible participating preference stock, payable July 2 to holders of record June 15. This compares with 12½ cents paid on April 2 and Jan. 2, last, 7½ cents per share on Oct. 1, July 2 and April 2 1934, 5 cents in each of the four preceding quarters and 10 cents per share previously each three months. In addition a bonus of 2½ cents was paid on Jan. 2 1935 and one of 10 cents was distributed on Jan. 2 1934.—V. 139, p. 3803.

x After deducting depreciation.

Usual Extra Dividend-The directors have declared an extra dividend of 50 cents per share in addition to the regular quarterly dividend of \$1 per share on the common stock, par \$25, both payable June 28 to holders of record June 7. The company has paid extra dividends of 50 cents per share in March, June and Sept. of each year from 1929 to and including 1934, and on March 29, last. Extra dividends of \$1 per share were paid in December of each year from 1929 to 1934 inclusive. In addition a special extra dividend of \$5 per share was paid on Dec. 31 1934.—V. 140, p. 1655.

Chicago Flexible Shaft Co.—10-Cent Extra Dividend—
The directors have declared an extra dividend of 10 cents per share in addition to the regular quarterly dividend of 30 cents per share on the common stock, par \$5, both payable June 29 to holders of record June 19.
An extra of 10 cents was also paid on March 30, last, at which time the regular quarterly rate was increased to 30 cents from 25 cents. See also V. 140, p. 1306 for further dividend record.—V. 140, p. 1822.

Chicago Mail Order Co.—Registrar—
The Chase National Bank of the City of New York has been appointed registrar in New York for the common capital stock.—V. 140, p. 3207.

Chicago Milwaukee St. Paul & Pacific RR.—Directorate Reduced-

The company has reduced the board of directors to ten members. No nominations were made to succeed M. J. Cleary, S. H. Fisher and Mark W. Potter, all resigned. Ten remaining members were re-elected.—V. 140, p. 3034.

a After depreciation of \$16,949,800 in 1934 and \$15,688,241 in 1933. b Represented by 1,999,970 shares (no par). c 860 shares in 1934 and 123 shares in 1933. d 14,158 shares at book value (balance of cost previously charged to surplus). e 53,347 shares common stock at \$12.50 per share.—V. 139, p. 3477.

City Gas & Electric Corp., Ltd.—Bonds Offered—An additional issue of \$613,000 6½% first mortgage bonds, due

1951, is being offered by Williams, Partridge & Co., Ltd.,

Montreal, at 98.50, yielding over 6.65%.

The amount of bonds to be outstanding on completion of this financing will be \$900.000. Shares issued comprise \$73,800 preferred and 73,533 common shares (no par).

The proceeds of the issue will be used to complete the company's gas distribution system in Three Rivers, Que., minor other improvements, to retire \$82,000 in mortgages and pay all bank and other borrowings.—V. 138. p. 3267.

Colonial Beacon Oil Co.—Bonds Called—
All of the outstanding 10-year 6% sinking fund gold debentures due
Nov. 1 1936 of the Beacon Oil Co. (predecessor company) have been called
for redemption on July 15 next at 101½ and interest. Payment will be
made at the Guaranty Trust Co., 140 Broadway, N. Y. City.—V. 140,
p. 3208.

Colorado Fuel & Iron Co.—Reorganization—

The U. S. District Court for the District of Colorado has made an order, dated May 1 1935, finding that the plan of reorganization complies with and has been duly proposed in accordance with the relevant provisions of Section 77B of the Bankruptcy Act and directing that the plan be submitted to the creditors and stockholders of the present company and the Colorado Industrial Co. for their consideration.

The Court also determined that the holders of Colorado Fuel & Iron gen. mtge. 5% bonds due Feb. 1 1943, and all other claims filed against the present company or the Industrial company are not affected by the plan. The order fixed the close of business May 25 1935, as the record date for the determination of (1) the holders of 1st mtge. 5% bonds, in registered form, of Colorado Industrial Co. and (2) the holders of pref. and common stock of Colorado Fuel & Iron Co., for the purpose of the acceptance of the plan and its confirmation by the Court.

Copies of the plan are available to any creditor, stockholder or other interested person upon application to any of the following: Arthur Roeder, trustee, Continental Oil Bldg., Denver, Colo.; W. Rice Brewster, Secy. of the committee for Colorado Industrial Co. 1st mtge. 5% bonds, 15 Broad St., New York; James D. Flaherty, Secy. of the committee for Colorado Fuel & Iron Co. gen. mtge. 5% bonds, 63 Wall St., New York; Tristan Antell, Secy. of the committee for Colorado Fuel & Iron Co. pref. and common stock, 52 Broadway, New York; J. & W. Seligman & Co., reorganization managers, 54 Wall St., New York;

A brief outline of the plan was given in V. 140, p. 1823—V. 140, p. 3035.

A brief outline of the p	ian was give	n in v. 140,	p. 1823—V.	140, p. 3033.

Philip G. Gossler, Pres	ident, savs !	n part:		

Philip G. Gossler, President, says in part:
"Early in February the P. U. Commission of Ohio handed down a decision upholding the rates asked by Logan Gas Co. in 1925. All of the several cities involved have accepted this decision. As a result, about \$2.694,000 (less taxes thereon) previously held in reserve for contingent earnings were released to surplus.
"On March 27 1935, following negotiations between the City of Cincinnati and Union Gas & Electric Co., an ordinance was passed by the City Council of the City of Cincinnati fixing a rate for gas service in that city. This ordinance became effective 30 days after its passage and, in accordance with its terms, out of about \$3,100,000 held in reserve for contingent earnings in this case, approximately \$2,100,000 will be returned to consumers of gas in Cincinnati and about \$1,000,000, less taxes thereon, will be released to surplus.
"On May 2 the P. U. Commission of Ohio handed down an order granting the application of Columbus Gas & Fuel Co., Edgewater Gas & Light Co., Springfield Gas Co. and Federal Gas & Fuel Co. to merge into Ohio Fuel Gas Co. All are wholly owned subsidiaries of Columbia Gas & Electric Corp."—V. 140, p. 3209.

Congress Hotel Co., Chicago.—Files Under 77-B—
The company on May 2 filed a petition in the Federal Court, Chicago, under Section 77B of the amended Bankruptcy Act. This action was taken to protect the interests of all creditors pending refinancing now under way, which probably will involve a \$1,000,000 mortgage loan. The hotel has no bonds outstanding, and its property is estimated to be worth \$5,000,000.—V. 136, p. 1021.

Consolidated Film Industries, Inc. (& Subs.)—Earns. Quar. End. Consolidated Mining & Smelting Co.—Quarterly Output
The company reported substantial increases in the production of lead,
zinc and gold in the first three months of the current year. James Warren,
President, in his address to the shareholders, pointed out there was, however, a decrease in production of copper and silver for the same period, as
compared with the first quarter of 1934.

Production figures for the first three months of the year were given as
follows:

follows 1934 35,370 23,816 Lead (tons)

Zinc (tons)

Copper (tons)

Gold (ounces)

Silver (ounces)

Consolidation Coal Co.—Reorganization Plan—
The plan for reorganization announced by the reorganization committee proposes a new company be formed whose securities will be exchanged for the issue of the present company on the following basis Gold Notes—\$1.000 principal amount of new notes will be given for each \$1.000 existing note.

Refunding Mortgage 4½% Bonds—\$500 in new bonds, three shares preferred and nine shares common for each \$1.000 bonds and accrued interest. First & Refunding Mortgage 5% Bonds—\$400 in new bonds, three shares preferred and 12 shares common for each \$1.000 bond and accrued interest. Preferred Stock—One share of common for each two shares of preferred and accrued dividends.

Common Stock—Warrants entitling the holder to purchase at any time within 10 years of reorganization at \$25 a share, one share of common stock of the new company for each four shares of common stock of the new company for each four shares of common stock.

stock of the new company for each four shares of common stock of the old company.

The new company will have an authorized capitalization consisting of \$4,000,000 15-year 5% gold notes, all of which will be outstanding.

\$15,000,000 25-year 5% bonds, of which \$9,192,200 will be issued in exchange for old bonds and \$1,600,000 will be issued and pledged as part collateral for the new notes.

70,000 shares of 5% non-cumulative convertible preferred stock, of which 66,393 shares will be issued in exchange for obligations of the old company.

675,000 shares of common stock of \$25 par value, of which 305,378 will be issued in exchange for existing bonds and preferred stock.

Net profit, after expenses, interest on 5% secured notes and loans, parent company's capital expenditures charged to expense in lieu of depreciation, depletion and depreciation of subsidiaries and Federal taxes, but before interest and amortization on funded debt in default, 1935, \$620,243; 1934, \$524,952.—V. 140, p. 3209.

Container Corp. of America—Bonds Called—A total of \$87,500 first mortgage sinking fund 6% 20-year gold bonds, due June 15 1946 have been called for payment on June 15, next, at 102 % and interest. Payment will be made at the National City Bank, New York City, or at the Continental National Bank & Trust Co. of Chicago, Chicago, Ill.—V. 140, p. 2702.

(W. B.) Coon Co.—Removed from Listing and Registration The New York Curb Exchange has removed from listing and registration the 7% cumulative preferred stock, par \$100, and the common stock, no par.—V. 140, p. 3038.

Corrugated Paper Box Co., Ltd.—Accumulated Dividend
The directors have declared a dividend of \$1.75 per share on account o
accumulations on the 7% cumulative preferred stock, par \$100, payablen
June 1 to holders of record May 16. This will be the first payment made on
this issue since June 1 1930 when a quarterly dividend of like amount was
distributed.
Accumulations of record May 16.
Accumulated Dividend
to have been a first payment of the June 1 dividend will amount to \$33.25
per share.—V. 139, p. 2360.

-V. 140, p. 2005. Fox Metropolitan Playhouses, Inc.—Plan Approved—Judge Julian W. Mack on May 9 approved the Weisman plan for the reorganization of the company, movie-theater chain. Milton C. Weisman, receiver for Fox Metropolitan in a proceeding under Section 77-B of the Bankruptcy Act, submitted the plan, involving between \$8,500,000 or Judge Mack stated that the plan serves the interests of bondholders and gives assurance of obtaining 75% of the dollar, with 5% interest. Judge Mack said his approval was "subject to such modifications or changes in the actual drafting of the document to be sent to the bondholders as the court may find to be fair to both sides, but in no sense molesting any of the rights of the bondholders that have been given to them."—V. 139, p. 2518.

Furness Corp.—Final Decree Signed—

A final decree approving reorganization of the corporation under Section 17-B of the Federal Bankruptcy Act was signed in Federal District Court at Camden, N. J., May 10, by Judge John Boyd Avis.

The reorganized firm. called New Process Rayon, Inc., will have outstanding 1,250 shares of 1st preferred, 2,300 of 2d preferred and 70,917 of common stock.

The new concern, headed by Paul Zens, of Edward G. Budd Mfg. Co., with Dr. Arthur Mothwuf, former President of American Nemberg Corp., as General Manager, has a cross licensing agreement with Industrial Rayon Corp. D. S. Mallory, Treasurer of the latter concern, is a member of the new firm's board of directors.—V. 140, p. 1486.

Furness, Withy & Co., Ltd.—New Director— Henry Smurthwaite has been appointed American and Canadian director, replacing H. C. Blackiston, retired.—V. 139, p. 442.

General Asphalt Co.—Options Granted—
The company has notified the New York Stock Exchange of the granting of the following options: 2,000 shares of common stock at \$13 per share flat, exercisable at any time prior to March 1 1936, and 2,000 shares of common stock at \$15.25 per share flat, exercisable at any time prior to March 1 1938.—V. 140, p. 3042.

Ceneral Motors Corp.—Overseas Sales at New High—
Overseas sales of General Motors car and truck units, from all sources, reached a new high level for the first four months of 1935. The total of 93,908 units compares with 59,817 in 1934. April sales totaled 24,599 compared with 26,696 in March and 20,201 a year ago.
These figures include sales of the corporation's American, Canadian, English and German products in the 104 countries, outside of the United States and Canada, which comprise the overseas territory.
Sales of the Vauxhall car and the Bedford truck in the British Isles, and of the Opel and Blitz products in Germany contributed substantially to the total, but the most encouraging growth has come in the instance of the Chevrolet, Pontiac, Oldsmobile, Buick, LaSalle and Cadillac products in the non-manufacturing countries throughout the world, particularly in the South American, Far Eastern, Australasian, and South African areas. It is in these territories that the American motor vehicle finds its greatest competitive strength, and it is there also that the greatest increases in total automotive consumption have occurred.
Considerable strength was also shown in Belgium during April, as a consequence of the readjustment in the internal Belgian economy, and in anticipation of the stimulus to retail volume occasioned by the new trade agreement between the United States and Belgium which went not effect on May 1.

Buick Sales Higher—

Buick Sales Higher-

Retail deliveries of Buick cars for the third 10-day period of April totaled 2.732 compared with 2.552 in previous 10-day period and approximately 1.730 in like 1934 period.

April retail sales amounted to 6.960 compared with 6.534 in March and 6.147 in April 1934.—V. 140, p. 3214

New Director, &c.—

The directors elected officers for the current year and named Arthur C. Kaufmann, Vice-President of the Philadelphia store, a director to fill a vacancy on the board.

Ellis A. Gimbel was elected Chairman of the Board, succeeding Daniel Gimbel. The latter was elected a Vice-President. Ellis Gimbel was relected President.

Mr. Kaufmann was appointed manager of the Philadelphia store, succeeding Richard Gimbel. Mr. Gimbel continued as a director, however, and the company said that he had proposed the election of Mr. Kaufmann as a director. The company's statement was as follows:

"At a meeting of the board of directors of Gimbel Brothers, Inc., adjourned from the date of the annual meeting, April 30, officers were elected for the current year. The vacancy existing in the office of Treasurer was filled by the election of Samuel Nass, heretofore Assistant Treasurer. The vacancy existing in the office of Secretary was filled by the election of Alexander B. Royce.

"On the motion of Richard Gimbel, Arthur C. Kaufmann, Vice-President in charge of the Philadelphia store, was elected a director of the company to fill an existing vacancy on the board."—V. 138, p. 2411.

Gillette Safety Razor Co.—Mistrial Declared in Suit—

Gillette Safety Razor Co.—Mistrial Declared in Suit—Federal Judge Clark at Newark, N. J., on May 17 declared a mistrial in the \$24,000,000 damage suit against the company. Counsel for the company moved for the mistrial when he learned of a conversation between a juror and a stockholder of one of the plaintiff companies.

The suit was brought by the Clark Blade & Razor Co. and the Clark Blades Selling Corp. of Newark, against the Gillette Co. and Otto Roth, Inc., a subsidiary of Gillette. The suit charged conspiracy to monopolize the razor blade business in violation of the Sherman and Clayton Anti-Trust Acts.—V. 140, p. 2706.

(Adolf) Gobel, Inc.—Court Hearing—
A hearing will be held in the Federal Building in Brooklyn May 24 in the proceedings in connection with the order entered by the U. S. District Court on the petition of company for reorganization under Section 77-B.—V. 140, p. 3215.

Goodyear Tire & Rubber Co. of Canada, Ltd.-

Call Preferred Stock-Capital Changes-

The company announced on May 16 that all outstanding preferred stock will be redeemed June 17 at \$110, Canadian funds, plus accrued unpaid

dividends.

The company will decrease capital by canceling 35,502 preferrred shares of \$100 par, leaving authorized unissued preferred shares of aggregate par value of \$8,000,000. This preferred will be split into shares of \$50 par value and each common share will be split into two common shares without par value.

Six million dollars of new preferred stock will be issued, with present preferred shareholders permitted to subscribe for not more than 60,000 shares, with 60,000 underwritten and to be offered to the public. Shares have 5% coupon, and are cumulative and redeemable at \$52.50. No increase in common dividends is contemplated.—V. 140, p. 2536.

Hotel Rueger, Inc., Richmond, Va.—Bonds Offered—Galleher & Co., Richmond, Va., are offering \$125,000 5½% 1st mtge. serial bonds at 100 and int. Bonds are offered only to residents of Virginia.

offered only to residents of Virginia.

Dated May 1 1935; due serially, 1936-1945. Principal and int. coupons payable May 1 and Nov. 1 at the office of Peoples National Bank, Charlottesville, Va., trustee. Redeemable all or any part on any int. date on 30 days' notice at 101 and int. during first five years, and thereafter at 100½ and int. Bonds in denom. of \$1,000 \$500 and \$100.

These bonds are secured by a first closed mortgage on real estate in the City of Richmond, Va., with improvements, furnishings and equipment thereon. The hotel (10 stories) contains 136 bed rooms, each with private lavatory, and 90 baths, 50 of which have combination tub and shower.

Adjoining the hotel building is the garage with capacity of 25 cars.
The land, building, furnishings and equipment have a sound depreciated value as follows: Land, \$81,866; hotel building, \$280,000; garage building, \$10,400; furniture, fixtures and equipment, \$30,040; total, \$402,306.

The bonds are guaranteed by endorsement by William Rueger Sr. and his three sons, William Rueger Jr., Louis Rueger, and Herbert E. Rueger.
The report shows that the operating income, before taking into account interest, depreciation and officers' salaries, amounted to \$446,646 for the 10-year period, or an average of \$44,665 per year, and that the amount available for interest, depreciation and officers' salaries over the past five years, 1930 to 1934 inclusive, was \$85,958, or an average of \$17,191 per year. After making deductions for officers' salaries over the past five years, 1930 to 1934 inclusive, before deducting interest and depreciation, the company would show an average loss of \$2,443 per year for this five-year, period. Officers' salaries and other salaries and wages have been reduced by approximately \$6,900 as of Jan. 1 1935. This reduction is more than the maximum interest charges on this issue. Net income for 1934 was an improvement over 1933.

Hotel St. George (Clark Henry Corp.)-Time for Deposits Extended—

Deposits Extended—
The protective committee for the 1st mtge. 5%% serial gold bond certificates, series A, is notifying holders of these bonds or certificates of deposit therefore of an extension until May 31 in the time during which holdings may be deposited under a plan of reorganization which must be consummated by July 1.

The committee reports that 79% of the total issue has been pledged in support of the plan, including 2½% on deposit with another committee which is recommending the plan. At least 90% in principal amount of the bond certificates is necessary before the plan can be declared operative. "In view of the limited time which remains," the committee's letter says, "and in furtherance of the plan, the Supreme Court of the State of New York, which has jurisdiction over the plan, by an order dated May 9 1935, has permitted this committee, as an expense of reorganization, to reimburse recognized investment dealers and brokers at the rate of \$5 per \$1,000 bond certificate for such deposits as these dealers and brokers may procure for the committee from and after May 9 1935, all pursuant to the provisions of the order of the Court, a copy of which may be obtained upon request."

R. W. Wilson is secretary of the protective committee of which Alvin J. Schlosser is chairman, other members being Joseph W. Dixon, Sylvan Gotshal, William M. Greve, William T. Hunter, George V. McLaughlin and Douglas Vought.—V. 140, p. 973.

Hotel Senator, Sacramento, Calif.—Reorganization Plan The reorganization plan presented by the bondholders' committee for the 1st mtge. 6½s provides for distribution of new first mortgage 6½% income bonds and all of the voting stock in exchange for the old bonds. Stock will be divided into two classifications, of which bondholders will get all the A, or voting stock, comprising 60% of the entire issue, and equity owners will receive the class B.

Equity owners would be given a three-year option to purchase the class A stock by paying bondholders par for total outstanding bonds plus all accrued interest and all unpaid back interest represented by scrip.

Hearing May 22

In a letter to bondholders, committee members revealed that 67% of the outstanding bonds are on deposit. The Court hearing on the proposed reorganization is scheduled for May 22.—V. 138, p. 3273.

Illinois Central RR.—Asks for Extension of Loans—
The company has applied to the Interstate Commerce Commission for authority to extend for five years from July 22 1935, a loan of \$3,783,000 from the Reconstruction Finance Corporation and for an extension from Dec. 7 and Dec. 28 1935 to Dec. 6 1940 of an RFC loan for \$4,000,000.

The road owes the RFC \$17,760,333. It has pledged with the RFC collateral which it says has a fair value of \$41,923,300. The road declares that the collateral already deposited is ample to take care of the extension.—V. 140, p. 3045.

Illinois Merchants Trust Co.—To Reorganize Mortgage—
The terms of the proposed reorganization under the amended Federal Bankruptcy Act of the \$12,583,000 issue of bonds secured by mortgage collateral in Trust No. 17440, of which Chicago Title & Trust Co. is trustee, were made public May 10. The issue, originally totaling \$17,316.580, was sold in 1926 by the Illinois Merchants Trust Co.
The plan provides for transfer of all collateral securing the bonds to a new corporation, which will issue to bondholders 5% cumulative income notes, par for par, for their present holdings, plus one share of stock for each \$500 of bonds held. The assets of the new corporation will then be deposited with a trustee. Total assets of the trust on March 15 1935 aggregated \$12,361,051.

The hearing on the plan is set for June 3 before Federal Judge James H. Wilkerson at Chicago.—V. 135, p. 2181.

New Director Elected-

Samuel G. Ordway, Secretary of the company, was elected a director on May $9.-V.\ 140,\ p.\ 2009.$

Intertype Corp.—Resumes Dividends—
The directors have declared a dividend of 20 cents per share on the no par common stock, payable July 1 to holders of record June 14. This will be the first payment made on this issue since Aug. 15 1931 when a quarterly dividend of 25 cents per share was paid. A dividend of 25 cents was also paid on May 15 1931 while 50 cents per share was distributed in each of the five preceding quarters.—V. 140, p. 3046.

Investment Corp. of Philadelphia—Extra Dividend—
The directors have declared an extra dividend of 25 cents per share in addition to a regular quarterly dividend of 50 cents per share on the no par common stock, both payable June 15 to holders of record June 1. Similar payments were made on March 15 last.—V. 140, p. 1663.

Investment Co. of America—Net Worth—
The company reports that the net worth or liquidating value of its common stock was approximately \$27.85 per share, based on balance sheet as of April 30 1935, with securities adjusted to market values at that date and with related adjustments with respect to reserves for management compensation contingently payable. This compares with liquidating value of approximately \$25.25 a share on March 31 1935, and \$27.80 on April 30 1934.

Note—At Dec. 31 1934, Islands Gas & Electric Co. was in arrears in dividends on its \$7 cumulative preferred capital stock (all owned by its parent company—Consolidated Electric & Gas Co.) in the amount of \$1.662.500.

Note—In the above statements the accounts of Gas y Electricidad, S. A., have been converted at the current monthly rates of exchange and those of Manila Gas Corp. on the basis of 2.00 Phillippine pesos to 1 U. S. dollar.—V. 139, p. 1873.

Jacksonville Gas Co.—Admitted to Unlisted Trading—
The New York Curb Exchange has admitted to unlisted trading privileges the 1st mtge. 5% sining fund gold bonds due June 1 1942 (without voting trust certificates), stamped to refer to (a) the payment of fixed unconditional interest at the rate of 3% and conditional interest at the rate of 2% and (b) the supplemental indenture executed by the company and (c) the changes and modifications effected by the plan of reorganization dated Oct. 1 1934. (See "Chronicle" Oct. 27 1934, page 2681).—V. 140, p. 1489.

Kelly Springfield Tire Co.—Goodyear Makes Offer—
The Goodyear Tire & Rubber Co. on May 14 offered to buy the Kelly company on a reorganization basis. The proposal was embodied in a plan of reorganization filed before Judge Calvin W. Chestnut in the U. S. District Court in Baltimore by Edmund S. Burke and Thomas B. Finan, trustees for

Kelly-Springfield in reorganization proceedings under Section 77-B of the

Kelly-Springfield in reorganization proceedings under Section 77-B of the Bankruptcy Act.

Under the plan a new corporation would be organized with a similar name, to which would be transferred all of the business and assets of the Kelly-Springfield Tire Co., for which there will be paid and issued to the holders of the notes and stock of the latter company cash and common stock of Goodyear Tire & Rubber Co. as follows:

To the 10-year 6% subordinate notes 75% of the par value thereof in cash. To the preference stock \$10 per share in cash and two shares of Goodyear common stock for five shares of Kelly-Springfield preferred stock.

To the common stock, \$1 per share in cash and one share of Goodyear common stock for 25 shares of Kelly-Springfield common stock.

Under the proposed plan, \$1,958,625 in cash would be paid out for the \$2,611,500 par amount of 6% notes, \$499,520 in cash and 19,980 shares of Goodyear common for the 49,952 shares of Kelly preferred, and \$741,206 in cash and 30,354 shares of Goodyear common for the 741,206 shares of Kelly common.

Goodyear common to the common for the 741,200 shall be common for the 741,200 shall be common. On this basis, acquisition of the company would cost Goodyear \$3,199,351 in cash and 50,334 shares of common stock with a current market value of about \$950,000.

The plan was not participated in by either the preferred stockholders' committee or the common stockholders' committee. A spokesman for the preferred group stated that the committee had not yet had time to examine the plan and had played no part in drawing it up.

Alternate plans may be submitted by either or both of the two committees.

Preference Stockholders Oppose Plan—
Opposition to the terms of the plan of reorganization is expressed in a letter to preference stockholders from the committee for the preference stock headed by Spruille Braden. The committee asserts that of the \$4,136,084 in cash and Goodyear common stock which would be distributed under the plan, 47.35% would go to the noteholders, 21.19% to the preference holders and 31.45% to the common holders. Under liquidation, the distribution of a similar amount after paying off 100% on the notes instead of the 75% payment proposed would leave a liquidating value of \$30.52 a share for the preference stock instead of \$17.55 a share as proposed in the plan, the letter states.

states. In asking for further deposits of stock, the letter says: "There is no time to be lost if the committee is to be placed in a position not only to block the debtors' plan or perhaps to negotiate for a change in its terms which might make it acceptable to preference stockholders, but to sumbit a fair and equitable plan of reorganization on behalf of preference stockholders."

—V. 140, p. 3217.

Kerr Lake Mines, Ltd.—10 Cent Dividend—
The directors have declared a dividend of 10 cents per share on the comon stock, par \$4. payable June 5 to holders of record May 22. A like
syment was made on Nov. 27 1934, the first distribution made since Oct. 15
27 when a semi-ann. dividend of 6 cents per share was paid.—V. 139.

(S. S.) Kresge Co.—To Sell Drugs—

The company has installed small drug departments in four of its largest stores in Kansas City, St. Louis, Cleveland and Cincinnati on an experimental basis and plans to establish departments in six other stores in the

ar ruture.
The company is selling common household drugs in made up packages prices between 10 and 25 cents under direction of registered pharmacists. o prescriptions are filled.—V. 140 p. 3218.

-V. 140, p. 2360. Kreuger & Toll Co.—Trustee's Report—

directors of the Ohio Match Co. and since then he has been and is serving in that capacity.

The trustee herein holds in his possession 60,000 shares of the common stock of Ohio Match Co. This stock was received by the trustee, subject to a lien of \$183,050 in favor of the Mutuelle Solvay Co. of America. By the application against the debt of dividends paid on the stock, the amount of the lien was reduced to \$78,050 at the time of the trutee's last report.

In July 1934 a dividend of \$30,000, and on Dec. 28 1934 a dividend of \$60,000 was paid on this stock. These dividends were used to pay the balance due to the Mutuelle Solvay Co. The remainder together with certain funds heretofore held to the credit of the Commercial & Industrial Properties Corp. (a company within the Kreuger group) amounts to \$17,397. Pending final determination as to the ownership of the Ohio Match Co. stock, it is proposed that this sum and all future dividends received on this stock shall be deposited in a joint account of that company and the truster. Diamond Match Co.—As a result of the pledge with Bankers Trust Co. National City Bank of New York, Union Trust Co. of Pittsburgh and Continental Bank & Trust Co. of Chicago, through Lee Higginson & Co. of 350,000 shares of Diamond Match Co. common stock for an indebtedness of International Match Corp. to said banks, three suits have been commenced and are now pending. They are:

(1) A suit by the trustee herein in the New York Supreme Court against the said banks and the partners of Lee Higginson & Co. for damages arising out of the suit by the developments of Lee Higginson & Co. for damages arising out of the said banks and the partners of Lee Higginson & Co. for damages for said conversion.

(3) A suit in this Court by the trustee in bankruptcy of International Match Corp. against said banks claiming, among other things, that the said pledge constituted a voldable preference.

The developments since the previous report of the trustee are briefly as follows: By an order of the Supreme Court dated March 27 1934, the first two actions were consolidated and the trustee herein was joined as a partly defendant to the interpleader proceeding. Pursuant to this order, the banks served an amended bill in the nature of interpleader on the trustee herein, the trustee of the International Match Corp. and the plaintiffs in the conversion action brought by Swedish Match Co. and the Swedish liquidators. The trustee herein moved to vacate the service of the

x Includes depletion of \$3,878. Unfilled orders on March 31 last totaled \$1,142,000 against \$1,205,000 on March 31 1934.

wm. L. Hoge, President, says in part:
Unfilled orders as of March 31 1935 were \$1,142,000.
Current position continues strong. At March 31 1935 the ratio of current assets (including cash \$851,000) to current liabilities was 8.94 to 1.

As in the fourth quarter of 1934, we were still experiencing the adverse effect of widespread violations and uncertainties of the Lumber Code. Volume was well maintained, but prices in the raw material divisions were unsatisfactory.

Application has been made to the New York Stock Exchange for the permanent registration of the company's preferred and common stocks.—

V. 140, p. 2711.

Metal Textile Corp:—Extra Preferred Dividend—
The directors have declared an extra dividend of 25 cents per share on the participating preference stock, no par value, payable June 1 to holders of record May 20. A similar payment was made on Dec. 31 1934.—V. 139, p. 3329.

Metro-Goldwyn Pictures Corp.—To Retire Pref. Stock—Directors at their meeting held May 15 voted to retire all of the company's outstanding preferred stock—146,691% shares—on June 15 1935, at par—\$25 per share, and accrued dividends. Not ice is being sent to holders of preferred stock to surrender their certificates to the Manufacturers Trust Co., Transfer Agent, 45 Beaver St., N. Y. City, on June 15 1935.—V. 140, p. 2012.

Missouri & North Arkansas Ry.—Successor—
The company, operating under receivership, turned over the road at midnight April 16 to a newly organized company named Missouri & Arkansas Ry., which had acquired the property through purchase. The matter of capitalization has not been definitely determined.
The officers of the new company are: Chairman, Frank Kell; Pres. Joe A. Kell; V.-Pres., & Gen. Mgr., L. N. Baassett; V.-Pres., Morris Wilkins; Treas., G. M. Toney; Sec., J. M. McGaughey; Gen. Aud. & Gen. Attorney, L. A. Watkins. Office, Harrison, Ark.—V. 140, p. 3050.

Minneapolis & St. Louis RR.—Sen. Bulow Places Joint Resolution Before Senate to Ban Reorganization or Dismem-

Senator Bulow (Dem., S. Dak.) May 9 introduced a joint resolution in the Senate seeking to delay any plan for the sale, dismemberment or reorganization of the road for one year. To this end he would have the Reconstruction Finance Corporation and the Interstate Commerce Commission defer approving any plan and the former to refrain from making any loans changing the present setup.

In the presmble of his resolution, Serator Bulow points out that this road now is being efficiently operated upon a lower cost basis than at any previous period and economies have been effected in the operation of the carrier which will materially aid in the present and future financial structure of the property.

will materially aid in the present and future hands and dismember the property.

Proposals have been submitted to the RFC to divide and dismember the carrier among six railroad systems, "majority of which are now financially embarrassed and are in the hands of receivers," Senator Bulow stated. Several of the proposed purchasers are indebted to the RFC, he added, "possibly beyond their ability to repay." The Minneapolis &I. Louis is not so indebted, but it has about \$10,000,000 of outstanding indebtedness in addition to about \$5,000,000 of preferred claims.—V. 140, p. 3219.

Minneapolis St. Paul & Sault Ste. Marie Ry.-

Minneapolis St. Paul & Sault Ste. Marie Ry.—Annual Report— C. T. Jaffray, Fresident, says in part:

Gross revenue during 1934 was \$12.615.805, a decrease of \$251.138, or 1.95%, compared with the previous year. Freight revenue during 1934 was \$10.801.062, a decrease of \$258.210, or 2.33%.

During the year, North Dakota, South Dakota, Northeastern Montana, and large areas along our lines in Minnesota and Wisconsin experienced the most serious drought in recent history, resulting in an almost complete failure of grain, feed, hay crops and pasturage.

As a result of these conditions and the feeding to livestock of grain carried over from the previous year, there was a large decrease in shipments of grain from our territory. There was, however, an increase in the number of cars of all agricultural products handled caused by hea. y outbound movements of distressed livestock, and inbound shipments of feed, including hay, straw and other fodder. To prevent abandonment of farms and to retain foundation herds thereon, the railroads serving the territory transported this livestock and feed at greatly reduced rates. It is estimated that rate reductions thus granted by this company amounted to approximately \$500,000 in 1934.

Shipments of grain to Minneapolis and Duluth markets from western territory tributary to our line, compared with corresponding shipments of the previous year, were as follows:

$\begin{array}{ccc} 34 & 1933 \\ 0.170 & 10.707.000 \\ 3.485 & 10.517,000 \end{array}$

Bus and truck competition has become more severe, especially as to trucks. Drastic reductions in rates have been necessary in numerous instances to hold traffic to the railroads. Efforts to secure Federal regulation of inter-State truck operators were unsuccessful in 1934 due partly to the pressure of other legislation before Congress. Joseph B. Eastman, Federal Co-ordinator of Transportation, has recently submitted to Congress specific recommendations for the comprehensive regulation of all forms of transportation, which, if enacted into law and enforced, will be helpful.

The outstanding indebtedness was decreased by various payments during the year aggregating \$1,614,964:

Non-negotiable debt to affiliated companies increased \$5,790,273.

Because of the 1934 crop failure, the company was without funds to pay the \$5,000,000 of its 2-year 6% secured notes which matured on Aug. I 1934. Being advised of the situation, the holders of \$4,923,500 of the notes have granted the company extensions to Aug. I 1936. A similar extension to that date was obtained from reconstruction Finance Corporation on its \$5,000,000 loan to the company which matured on Aug. I 1936. The Wisconsin Central properties are still in receivership; the Soo Line is still operating them as agent for the receiver; the court's decision that the Soo Line was entitled to terminate its lease of those properties still stands; and the controversy as to whether the lease was actually terminated is still pending.

The year 1934 was the most disastrous year this company has ever experienced so far as the production of grain and livestock is concerned. The severe drought and heat during the growing season resulted in almost a total failure of grain and f

Mission Corp.—Value for Income Tax Given—
In notice to stockholders regarding distribution of Mission Corp. stock March 15, last, the Standard Oil Co. (N. J.) states that this distribution constituted an ordinary dividend to the stockholder, the value of which was determined by the average market price of Mission Corp. common stock on March 15.

While Mission Corp. stock was not yet listed on the New York Stock Exchange on March 15," states the company, there were a number of over-the-counter sales on that date Based on information received from brokers dealing in the stock, it appears that the average market value for the day was \$9 4375, which we believe may be properly used for tax computation purposes."—V. 140, p. 2543.

Missouri & Arkansas Ry.— See Missouri & North Arkansas Ry. -Organized-

Missouri-Kansas-Texas RR.—RFC Loan-

Missouri-Kansas-Texas RR.—RFC Loan—
The Interstate Commerce Commission on May 15 approved a Reconstruction Finance Corp. loan to the company of \$2,300,000. less than half the \$6,000,000 sought by the road, and reducing the loan period to three years from five years.

The loan will provide funds for the M.-K. T. to meet tax and bond interest payments due by July 1. These include \$614.120 bond interest due June 1: \$230,000 in taxes during June, and \$1,458.488 due July 1.

The Commission pointed out that the carrier had no additional tax and interest payments to meet until Dec. and held that if the cash forecast submitted were reasonably reliable," it would not need additional funds this year.

As to the situation in 1936," the Commission said, we consider that the conditions are too uncertain to warrant accepting a financial forecast as the basis for determining the applicant's need for a loan at that time."

—V. 140, p. 3220.

Mobile & Ohio RR—Ask Loan Extensions—
The receivers have applied to the ICC for approval of renewal for three years of a \$877.599 Reconstruction Finance Corporation loan, due July 7 1935. Receivers' certificates will remain as security for the loan. The Mobile & Ohio estimates net income for 1935 at \$20.512. The road showed a deficit after charges for April of \$80.670.—V. 140, p. 3051.

Moreland Motor Truck Co., Burbank, Calif.-

Reorganization of the company is proposed under a plan filed with the U. S. District Court in Los Angeles which has been set for a hearing on May 27 by Judge William P. James.

Watt L. Moreland, President of the company, now acting as its receiver, was appointed as a temporary trustee pending the completion of the reorganization.

The Court was informed that the reorganization plan had been submitted to the Reconstruction Finance Corporation, the creditors of the company and to holders of a considerable amount of its stock and had met with general approval.

Loan Granted

A loan to the extent of \$125,000 has been granted by the RFC. Inasmuch as creditors have agreed to purchase \$60,000 of the notes of the company and also prior preferred stock to the extent of approximately \$60,000, all of the moneys which will be received from the RFC will be available for working capital, Mr. Moreland said.

Provision will be made for the protection of the present stockholders of the company.—V. 135, p. 143.

Mortgage Co. of Pennsylvania—Reorganization Plan—
On Sept. 14 1934 there was submitted to the holders of 1st mtge. coll.
5½% bonds for their consideration a plan of reorganization respecting the bonds, together with a copy of the petition of the bondholders' committee presenting that plan to the U. S. District Court for the Eastern District of Pennsylvania. The Court has now issued an order approving the plan of reorganization presented by the committee with certain modifications.
The Court has authorized the committee to proceed with the acceptance of deposits of the outstanding 1st mtge. coll. 5½% bonds due Oct. 1 1938 and Jan. 1 1939, pursuant to the plan which has been approved by the Court as fair and equitable to all interested parties. Accordingly, it is recommended that holders forward their bonds at once to Fidelity-Philadelphia Trust Co., 135 South Broad St., Philadelphia, Pa., for deposit.

The members of the bondholders' committee are George Ramsey, Chairman, Charles B. Roberts, 3d, and Albert R. Thayer, with Robert E. Goldsby, Sec., 100 Broadway, New York.

Digest of Plan of Reorganization

Digest of Plan of Reorganization

Digest of Plan of Reorganization

Outstanding Bonds and Securities—The aggregate principal amount of bonds outstanding is \$2,000,000, consisting of two series of \$1,000,000 each, one of which is due Oct. 1 1938 and has interest unpaid from Oct. 1 1932 and the other which is due Jan. 1 1939 and has interest unpaid from Jan. 1 1933.

On May 1 1930, the Mortgage Co. of Pennsylvania was merged with the Philadelphia Co. for Guaranteeing Mortgages and the latter assumed the liability of the former with respect to the bonds. The specific collateral for the bonds was not changed by the merger.

On Jan. 11 1933 receivers in equity for the Philadelphia Co. for Guaranteeing Mortgages were appointed by the U. S. District Court for the Eastern District of Pennsylvania.

The specific security for the collateral trust bonds issued by the Mortgage Co. of Pennsylvania is held by the Pennsylvania Co. for Insurances on Lives and Granting Annuities as successor to Colonial Trust Co., as trustee under the indenture of Oct. 1 1928.

As of July 21 1934 the trustee and the receivers held as security for the \$2,000,000 of bonds the following:

(a) \$870,936 of individual bonds and mortgages secured by 84 properties, none of which is being operated by the receivers as agent for the trustee. On these mortgages there was \$55,129 of interest in arrears and approximately \$35,000 of real estate taxes with respect to the properties were overdue.

(b) \$1,282,124 of individual bonds and mortgages secured by 100 proper-

overdue.

(b) \$1,282,124 of individual bonds and mortgages secured by 100 properties, all of which are being operated by the receivers as agent of the trustee. On these mortgages there was \$110,568 of interest in arrears and approximately \$85,000 of real estate taxes with respect to the properties were

matery \$55,000 of real cases overdue.

(c) Fourteen properties acquired at foreclosure of mortgages aggregating \$53,422 in principal amount. On these properties approximately \$1,000 of real estate taxes were overdue.

(d) \$2,468 of cash representing principal received on account of reduction in marketings.

(c) Fourteen properties acquired at foreclosure of mortgages aggregating \$53.422 in principal amount. On these properties approximately \$1,000 of real estate taxes were overdue.
(d) \$2,468 of cash representing principal received on account of reduction in mortgages.
(e) \$75,455 of cash representing the balance of income collected by the receivers on bonds and mortgages and on properties and transmitted to receivers on bonds and mortgages and on properties and transmitted to go the control of the

New York & Richmond Gas Co.—Appellate Court Holds Company Needs Commission Consent to Reclassify Stock—

Company Needs Commission Consent to Reclassify Stock—
Holding that a reclassification of 150,000 shares of stock by the company in January 1931, without permission of the New York P. S. Commission, "offends against the spirit and intent of the public service law," the Appelate Division, Third Department, on May 7, reversed an order of Justice Ellis J. Staley, of the Supreme Court of Albany, denying a motion of the Commission for judgment against the company and dismissing (the Commission's complaint.

The Appellate Division opinion, written by Justice Christopher J. Hefferman, holds that a reasonable and fair construction of the public service law "justifies the conclusion that no gas or electric corporation may issue stock for any purpose without consent of the Commission."

The New York & Richmond Gas Co. in January 1931, reclassified 150,000 shares of common stock without par value and 142,000 shares of second preferred stock. Each share of the converted stock had a stated value of \$10, the second preferred, however, having no voting right.

Justice Staley held that the company might be said to have issued new stock by its reclassification, but that such new stock was not issued for any of the purposes cited in Section 69 of the public service law and therefore that the Commission's consent was not necessary.

"In its final analysis," Justice Heffernan wrote, "such a construction of the statute simply means that the Commission has no jui sidiction to pass on the propriety or legality of stock issued by pubic utilities. We do not believe that this statute should receive such a narrow construction."

The New York Legislature this year passed the Burchill-FitzGeraid bill specifically prohibiting reclassification of utility stock without the consent of the Public Service Commission.—V. 140, p. 2365.

New York Railways Corp.—Bus Plan Delayed—

of the Public Service Commission.—V. 140, p. 2365.

New York Railways Corp.—Bus Plan Delayed—
The New York City Board of Estimate and Apportionment on May 10 removed from its calendar the petition of the Eighth Avenue Coach Corp., owned by New York Railways Corp. and Fifth Avenue Coach Co., for a 10-year franchise to operate omnibus routes following the street car routes of the Eighth and Ninth Avenues Railway.

The Railways Corp. objected to the form of contract proposed by the city, Boykin Wright, the company's attorney, asserting the contract would virtually give the Board of Estimate control over company wages.

Motorization of these routes was to follow cessation of troiley service, which the receiver for the Eighth and Ninth Avenues company has Court permission to continue only until May 31.

Removal of the franchise petition from the calendar was viewed in city circles as killing it for the time being, but it was believed the Board might entertain a petition for its restoration.—V. 140, p. 3053.

New York Title & Mortgage Co.—Trustees Take Over Management of Series F-1—

Three trustees were appointed by Supreme Court Justice Frankenthaler of New York on May 13 to take over management of the \$27.000.000 F-1 mortgage issue formerly guaranteed by the New York Title & Mortgage Co. The appointment of trustees was asked by 83% of the certificate holders of that mtge. issue. For more than a year the issue has been under the control of the State Insurance Department which took over the title company for rehabilitation. The trustees named by the Court are Aaron Rabinowitz, Lawrence N. Martin and James L. Claire.

Holders of Series C-2 Act on Reorganization-

Holders of \$24,291,143 of series C-2 certificates issued and guaranteed by the New York Title & Moregage Co. were asked on May 11 to approve a plan for reorganization. Under the plan, a voluntary committee would be formed to act in the reorganization. According to Wise, Shepard & Houghton, 30 Broad St., attorneys, the co-operation of the State Mortgage Commission and of City Chamberlain A. A. Berle Jr., will be solicited for the certificate holders.

"This plan." the letter to the certificate holders reads, "is the same as the plans which alraedy have been approved by Supreme Court Justice Alfred Frankenthaler for other series such as F-1, BX-19 and B-1. The plan expressly permits certificate holders to determine whether the Court shall appoint all three trustees, whether the certificate holders shall elect them or whether the Mortgage Commission shall be sole trustee."—V. 140, p. 2546.

New York Trap Rock Corp.—Plan Approved—
Holders of more than two-thirds of the outstanding 1st mtge. 6% bonds and holders of more than two-thirds of the company's oustanding 10-year 7% debentures have approved the plan of readjustment of the corporation's funded debt, R. W. Jones Jr., Treasurer, announced on May 15. Stockholders of the corporation had approved the plan, without a dissenting vote, at the annual meeting held in March, and the plan, therefore, has become effective.

at the annual meeting held in March, and the plan, therefore, has become effective.

Holders of both bonds and debentures who have not yet accepted the proposal, Mr. Jones stated, may become parties thereto by depositing their securities for that purpose on or before Nov. 1 1935.

Mr. Jones further stated that only those bonds and debentures which have been deposited before Nov. 1 1935 will be entitled to accumulated participations in earnings, provided in the plan of the corporation, calculated for the full period from Jan. 1 1935.

The company's announcement states that bonds stamped with participation warrants attached, as provided under the plan, will be ready for delivery on or about June 30 1935 at the offices of the Commercial National Bank & Trust Co. of New York, 56 Wall St., agent for the corporation and depositary for the bondholders.

Debentures stamped and with additional coupons attached, as provided under the plan, are expected to be ready for delivery on or about June 1 1935 at the offices of the Empire Trust Co., 120 Broadway, agent for the corporation and depositary for the debenture holders.—V. 140, p. 1839.

Nov. 1 1943 have been called for redemption on June 10 at 103 and interest.
Payment will be made at Blyth & Co., Inc., 120 Broadway, N. Y. City.
—V. 132, p. 671.

Paramount Publix Corp.—To Elect Directors—
A stockholders' meeting to elect a board of directors for the reorganized company has been called for June 3.—V. 140, p. 2366.

Pennsylvania Building (Pennsylvania Operating Corp.) -Reorganization Plan-

Following default in 1933 in the payment of interest and sinking fund on the 1st mtge. fee 6% sinking fund 15-year bonds, foreclosure proceedings were instituted in the New York Supreme Court and the mortgaged property has been operated since June 1933 by a receiver. Real estate tax arrears, including penalties as of Feb. 28 1935, were approximately \$133.500. The cash income from the property during the two-year period ended Feb. 28 1935, after operating expenses, while more than the amount of real estate

taxes applicable to that period, was substantially less than the aggregate of such taxes and interest on the bonds.

The reorganization committee has formulated a plan for the reorganization of the property for the benefit of the bondholders.

The plan provides for the organization of a new company to acquire the mortgaged property and for the issue to bondholders who assent to the plan of its income bonds and capital stock (represented by voting trust certificates), being all of the securities to be issued under the plan other than a new first mortgage to be created in an amount not exceeding \$500.000. The proceeds of such first mortgage are to be used to pay tax arrears and expenses of reorganization and to provide working capital of at least \$75,000 for the new company. Present bondholders will receive for each \$1,000 of bonds \$500 of new income bonds and 100 shares (v. t. c.) capital stock. There are now outstanding \$3,220,000 old bonds.

The protective committee for the bonds, formed in May 1933, has approved and recommended the plan, and all of its members are on the reorganization committee. The Court having jurisdiction of the foreclosure proceedings has assumed supervision of the plan and, after a hearing before John F. Keating, referee in this matter, (but without at this time passing finally on the fairness of the plan), has authorized its submission to bondholders. If and when sufficient bonds have been deposited in the opinion of the reorganization committee proposes to apply to the Court for determination as to whether the plan is fair and equitable and for approval of the terms and conditions of the issuance of the new securities.

Capitalization of New Company

Capitalization of New Company
New first mortgage bonds \$500,000 New income bonds 1,610,000 Capital stock (v. t.), par \$1 322,000 shs.
Holders of bonds may assent to the plan by depositing their bonds with Dillon, Read & Co., depositary under the plan, 28 Nassau St., New York, together with properly executed letter of transmittal.
Reorganization Committee—Edwin H. Bigelow, Chairman; Thos. F. Corrigan, Edward J. Crawford, Frederick W. Droge, Lawrence B. Elliman and Thomas F. Troxell, with R. P. Sherer, Sec'y, 65 Cedar St., New York. —V. 136, p. 3359.

Parker Wolverine Co.—50 Cent Dividend—
The directors have declared a dividend of 50 cents per share on the common stock, payable July 2 to holders of record June 10. An initial distribution of 25 cents per share was made on Jan. 2 last. The company announced that no further dividend action will be taken until next December.

Portland Electric Power Co.—Reorganization, &c.—
Subsequent to the default by the company as to payment of interest due March 1 1934 on its 6% convertible gold debentures and based upon the petition by an owner of a substantial block of the company's debentures and preferred stocks, the company was placed in receivership by order of the U. S. District Court for the District of Oregon, dated March 5 1934, Franklin T. Griffith being appointed temporary receiver.

As of Sept. 26 1934 the company made application to the U. S. District Court for the District of Oregon, to effect a plan of corporate reorganization under Section 77-B of the Federal Bankruptcy Act, as amended. As of the date of that application, the Court approved the plan and thereafter the company continued to operate as a debtor corporation under said reorganization proceedings. At a later date this plan was subject to objections on the part of holders of Willamette Valley Southern Ry. 6% sinking fund gold bonds, which bonds were unconditionally guaranteed by Portland Electric Power Co. as to payment of principal and interest relating thereto.

An amended plan was approved by said Court on Dec. 21 1934, which in brief provides for the issuance of 6% collateral trust income bonds of the company in the total principal amount of \$16,500. Of this issue, bonds of a principal amount of \$581,600 are to be deposited in serow for the purpose of satisfying any deficiency, if, as and when such deficiency may be determined, relative to payment of the aforementioned outstanding Willamette Valley Southern Ry. bonds, thereby relieving Portland Electric Power Co. of its above-described guarantee relative to the last mentioned bonds. The amended plan of corporate reorganization of the company was replaced in possession of its properties and authorized to carry out the terms of the amended plan of reorganization.

*Liabilities—7% cumulative preferred stock (\$100 par), \$5,458,000; 6% cumulative preferred stock (\$100 par), \$871,200; common stock (330,000 shares no par), \$6,000,000; long-term debt, \$10,045,000; accounts payable, \$112,049; customers' deposits, \$45,351; accrued accounts, \$491,210; miscellaneous current liabilities, \$1,221; matured and accrued interest on long-term debt (cash in special deposits), \$236,105; consignments (contra), \$225; deferred credits to income, \$527; reserves, \$1,876,747; earned surplus, \$622,684; total, \$25,760,320.

*Notation—Undeclared cumulative dividends on the 7% and 6% preferred stocks amounted to \$2.91 and \$2.50 per share, respectively, as of Dec. 31 1933. During 1934 there were declared on the 7% and 6% preferred stocks, dividends of 87 cents and 75 cents per share, respectively. No provision has been made in the above statement for undeclared cumulative dividends in the amount of \$488,384 (\$9.04 per share) on the 7% preferred stock and \$67,518 (\$7.75 per share) on the 6% preferred stock, to Dec. 31 1934.—V. 140, p. 3056.

Portland (Ore.) General Electric Co.-Changes Approved in Mortgage-

Portland (Ure.) General Electric Co.—Changes Approved in Mortgage—

Holders of the 4½% 1st & ref. mtge. bonds of the company, due in 1960, on May 1 approved a proposal to modify the mortgage and deed of trust. The changes voted will eliminate provisions requiring payment when due of all indebtedness secured by any underlying mortgage or prior lien and prohibit the extension of time of payment of principal or interest of such debt.

A total of 85½% of the \$40,000,000 of 4½% bonds assented to the plan, or slightly more than the amount required to effect the change. The action was held necessary to permit the extension of \$6,547,000 of first mortgage 5% bonds due on July 1.

An offer of extension is to be made to holders of the \$6,547,000 bonds to extend the maturity date thereof from July 1 1935 to July 1 1950, with the same rate of interest (5%) and with a sinking fund calculated to retire the entire issue on or before July 1 1950.

6% Collateral Note—The collateral note indebtedness (\$7,100,000) payable by Portland General Electric Co., matured Jan. 3 1935 and was renewed under the terms of an agreement dated Nov. 1 1934, by issuance of two notes (in the amounts of \$6,630,000 and \$470,000) maturing July 1 1937, if the company is successful in obtaining the consent of the holders of the 1st & ref. mtge. gold bonds, 4½% series and 1st mtge. 5% gold bonds for the extension of not less than 10 years of the maturity of the latter issue of bonds (\$6,547,000 outstanding) which mature July 1 1935. The company has agreed that it will not, without the consent of the holders of the notes, declare or pay dividends exceeding \$25,000, during the period from Jan. 1 1935; or exceeding \$50,000 in the year 1936; or exceeding \$50,000 during the period from Jan. 1 1935; or exceeding \$50,000, during the period from Jan. 1 1935; or exceeding \$25,000, during the period from 51, 11935, which general mortgage note of Portland General Electric Co. in the amount of \$7,500,000, due Dec. 27 1934. The two last named companies are in process

Postal Telegraph & Cable Corp.—Annual Report—Clarence H. Mackay, Chairman, and George S. Gibbs, President, state in part:

in part:

Investments in and advances to affiliated and other companies were reduced by \$1,816,881. Of this amount, \$1,000,000 represents liquidation by the International Telephone Building Corp. of the major part of its 6% demand note payable to Commercial Cable Co., \$733,637 reflects the partial retirement by the Commercial Pacific Cable Co. of its capital stock, and the balance of \$83,244 represents reductions in advances to other companies.

During 1934 Commercial Cable Co. liquidated its 4% note in the amount of \$1,050,000, payable to the Commercial Pacific Cable Co.

There was owing to International Telephone & Telegraph Corp. and associated companies the amount of \$2,513,872, on Dec. 31 1934 as compared with \$1,289,758 on Dec. 31 1933, an increase of \$1,224,114.

Postal Telegraph & Cable Corp. has no outstanding bank loans, but on Dec. 31 1934 had a contingent liability as guaranter of a note of a subsidiary company, Mackay Radio & Telegraph Co. (Del.) in the amount of \$2.660,073. Indebtedness of the latter company to Mackay companies, in the amount of \$3,040,593, is subordinated to the payment of this bank obligation.

the amount of \$3,040,593, is subordinated to the payment of this ballobligation.

Interest payments on the outstanding 5% gold bonds and debenture
stock have been made at each semi-annual coupon date since the original
issuance of the securities on July 1 1928. The year 1934, however, was the
fourth consecutive year in which corporation has faile i to earn the interest
charges applicable to these bonds and debentures. The interest has been
paid during this period by funds made available from liquidation of assets
and advances received from the International Telephone & Telegraph Corp.
Corporation has not been earning its interest charges in 1935 and the
management is giving careful consideration to what action should be taken
in light of this condition, particularly with reference to the next interest
payment which is due on July 1 1935.

Powdrell & Alexander, Inc.—Dividends Resumed—
The directors have declared a dividend of 25 cents per share on the common stock, no par value, payable June 15 to holders of record June 1. This will be the first dividend distributed since Nov. 16 1931 when 50 cents was paid and compares with 87½ cents per share paid Aug. 15 and May 15 1931 and 50 cents was paid in Feb. 16 1931.—V. 139, p. 775.

Pressed Steel Car Co.—Plan Offered—

The bondholders' protective committee has submitted a plan pursuant to direction of the U.S. Court and it is stated in order to avoid forced liquidation of the affairs of the company, providing for exchange of existing 5% bonds of 1933, dollar for dollar into new convertible collateral trust bonds, issuance of new common stock to preferred holders with privilege of subscribing to the new bonds at the rate of \$1.50 for each preferred share held and giving common holders an opportunity to subscribe to the new bonds at the rate of 75 cents for each share held.

The committee is headed by Jacques Cohen of Baar, Cohen & Co., as Chairman. John S. Johnston and R. H. Lee Martin also are on the committee, and Percival Jackson is counsel. Baar, Cohen & Co. and George A. Gaston are mentioned in the plan as reorganization managers to act under the orders of the Court. Under Judge Gibson's order, plans are to be submitted before June 1. It is understood other interests are also working on a plan of reorganization

The plan also contemplates a loan of \$2,000,000 from the Reconstruction Finance Corporation, which would be based on a mortgage on the McKees Rocks plant and the raising of \$506,301 from security holders by subscriptions as mentioned above.

The committee, which it is understood represents nearly 25% of the outstanding \$3,000,000 5% issue, states that it desires to have present legal proceedings terminated in order to avoid further legal expense and operating deficits. The committee's counsel states that copies of the plan are being sent to all bondholders who had filed claims and the cooperation of all security holders is invited.

Details of the plan disclose that bondholders would receive new 6% collateral trust bonds equal in par value to their present holdings and common stock in liquidation of past due interest and would be entitled to subscribe for any new bonds not subscribed for by preferred or common stock for each \$150 par value of bonds subscribed to.

Prudence Co., Inc.—Payment on May 1934 Coupons—

Stephen Callaghan, John A., McGrath and William T. Cowin, as trustees, announced on May 14 that payment on the May 1 1934 coupon of the company's issue of collateral trust 5½% gold bonds due May 1 1961, at the rate of \$20 on each \$27.50 coupon, is now available. Of the original issue of \$15,000.000 there is outstanding at present \$13,800.000 face amount of these bonds held by approximately 4.500 holders. The total interest distribution to the public on the May 1 1934 coupons from the 1961 issue of bonds will aggregate 253,340. Since the appointment of the trustees by Grover M. Moscowitz on Feb. 1 1935 in the U. S. District Court for the Eastern District of New York under Section 77-B of the Bankruptcy Act, 36 separate interest disbursements have been made in the amount of \$874,774.75, which includes present payments. During the same period the trustees of The Prudence Co., Inc., debtor, have paid out \$1,193,934.96 in real estate taxes.

The trustees also announce payments on account of interest on Prudence issues as follows:

Prudence certificate issue known as 31 West 72nd St., covering property at north side of W. 72nd Street 275 feet east of Columbus Ave., New York City, payment in the amount of \$10, per \$1,000, on account of the April 1 1935 interest;

Prudence certificate issue known as Vinross Realties, Inc., covering property at south west corner of Central Park West and 96th St., New York City, payment in the amount of \$10 per \$1,000 on account of the Nov. 1 1934 interest;

Prudence certificate issue known as 635 Sixth Ave., covering property at north west corner of Sixth Ave. & West 37th St., New York City, payment in the amount of \$10 per \$1,000 on account of the Nov. 1 1934 interest;

Payment of interest due July 1 1934 in the amount of \$10 per \$1,000 on Prudence bond issue known as series 6. Approximately 4,200 checks are being mailed to

Radio Corp. of America.—Statement on Television.—David Sarnoff, Pres., at the annual meeting of stockholders, May 7, said in part:

"Public interest in television continues unabated since the statement made in the annual report to the company's stockholders on Feb. 27, 1935. In that report it was stated that the management was diligently exploring the possibilities of a field demonstration, the next practicable step in the development of television, in order that subsequent plans may be founded on experience thus obtained.

"As further stated in that report, our laboratory efforts have been guided by the principle that the commercial application of such a service could be achieved only through a system of high-definition television which would make the images of objects transmitted, clearly recognizable to observers. The results attained by RCA in laboratory experiments go beyond the standards accepted for the inauguration of experimental television service in Europe. We believe we are further advanced scientifically in this field than any other country in the world.

"In the sense that the laboratory has supplied us with the basic means of lifting the curtain of space from scenes and activities at a distance, it may be said that television is here. But as a system of sight transmission and reception, comparable in coverage and service to the present nation-wide system of sound broadcasting, television is not here, nor around the corner. The all important step that must now be taken is to bring the research results of the scientists and engineers out of the laboratory and into the field.

"Television service requires the creation of a system, not merely the commercial evolutionary stages in related phases of radio communication services is outstandingly equipped to supply the experience, research and technique for the pioneering work which is necessary for the ultimate creation o

pany, the management of the RCA has formulated and adopted the following three-point plan:

The Plan

"1. Establish the first modern television transmitting station in the United States, incorporating the highest standards of the art. This station will be located in a suitable center of population, with due thought to its proximity to RCA's research laboratories, manufacturing facilities, and its broadcasting center in Radio City.

"2. Manufacture a limited number of television receiving sets. These will be placed at strategic points of observation in order that the RCA television system may be tested, modified and improved under actual service conditions.

"3. Develop an experimental program service with the necessary studio technique to determine the most acceptable form of television programs.

"Through this three-point plan of field demonstration we shall seek to determine from the practical experience thus obtained, the technical and program requirements of a regular television service for the home.

"It will take from 12 to 15 months to build and erect the experimental television transmitter, to manufacture the observation receivers and to commence the transmission of test programs.

"The estimated cost to the RCA of this project will be approximately \$1,000,000.

"While the magnitude and nature of the problems of television call for

commence the transmission of test programs.

"The estimated cost to the RCA of this project will be approximately \$1,000,000.

"While the magnitude and nature of the problems of television call for prudence, they also call for courage and initiative without which a new art cannot be created or a new industry established. Your corporation has faith in the progress which is being made by its scientists and its engineers, and

the management is exploring every path that may lead to an increasing business for the radio industry and to a new and useful service to the public."

—V. 140, p. 3228.

Rapid Transit in New York City—Riders Gain—
Total traffic for 1934 on New York City rapid transit lines, including the Independent Subway System, street surface railways, Hudson Tubes and all the bus lines which report to the Transit Commission, amounted to 2,913,600,000 passengers.

Exclusive of 119,500 000 carried by bus lines which were operating without franchises at Dec. 31 1934, and for which comparable figures for prior years are not available, the figure was 2,794,200,000, an increase of 92,300,000, or 3.4%, over 1933 and the first such increase since 1930. However, the figure is 12.5% less than the 1930 figure, The increase by quarters of the year follows: First, 36,200,000; second, 31,900,000; third 7,500,000; fourth. 16,700,000.

Rapid transit lines, including the Independent System, carried 1,817,-300,000 passengers, or 65,700,000 or 3.8% more than in 1933. This gain more than made up a loss of 48,500,000 passengers on raid transit lines in the preceding year.

Surface railway traffic decreased 2.1% to 687,200,000 passengers, due entirely, says the Transit Commission's December quarter and year-end report, to substitution of bus operation for street railway operation. Bus lines which had franchises at the year-end carried 213,300,000 passengers during the year, an increase of 23.4% over 1933. Other bus lines reporting to the Commission carried 119,500,000 passengers, against an estimate of 107,000,000 in 1933.—V. 140, p. 648.

Reliance Management Corp.—Capital Reduced—
The stockholders on May 1 voted to amend the charter of the corporation to provide that the shares of common stock, no par, shall be of the par value of \$1 and to reduce the capital to the sum of \$600,000, to be effected by changing the 600,000 shares, no par value, into the same number of shares, par \$1.

Such amendment and reduction will become effective on May 29 1935, subject to the approval of the State Tax Commission of Maryland. On and after June 5 1935 outstanding stock certificates representing shares without par value may be presented at the office of Central Hanover Bank & Trust Co., New York, or State Street Trust Co., Boston, transfer agents, for exchange for certificates represenging a like number of shares of the par value of \$1 each.—V. 140, p. 1498.

Republic Steel Corp.—Stockholders' Suit—
Counsel for three stockholders of the corporation filed suit at Cleveland May 10 for an accounting for and restitution of \$6,000,000 in company assets. The plaintiffs are Francis Whele, Warren, O.: Frances Falkenstein, Bottineau, N. D., and Iva Jensen, Cleveland Heights, O. They charge that \$6,000,000 was "dissipated, wasted and lost as a direct consequence of the mismanagement, unlawful conduct and negligence of officers and directors."

William P. Belden, counsel for the corporation, said: "The suit is entirely without merit."—V. 140, p. 3056.

Richfield Oil Co. (of Calif.)—Sale of Richfield of New York to Sinclair for \$5,100,000—

York to Sinclair for \$5,100,000—

Sale of Richfield Oil Co. of New York to Sinclair Refining Co., subsidiary of the Consolidated Oil Co., for a total consideration of \$5,100,000 was officially consummated May 14 in Los Angeles, when representatives of the Sinclair group tendered a check for this amount to W. M. C. McDuffie, receiver for Richfield Oil Co. of Calif., owner of the New York corporation.

Transfer of ownership of the eastern company immediately followed settlement with the U. S. Government of its \$9,000,000 claim against Richfield Oil Co. of California and Pan American Petroleum Co. receivership estates for oil taken under fraudulent leases from the Elk Hills Naval Petroleum Reserves. Settlement of this claim was made through payment of \$5,500,000 by receiver McDuffie to Pierson M. Hall, U. S. District Attorney representing the Government.

Although the sale of the New York Richfield had been ordered by the Federal Court several months ago, the Government had filed an appeal from the order and final consummation of the sale therefore depended upon successful settlement of the Government claim. In a stipulation signed some weeks ago the Government had agreed to withdraw its appeal from the order upon receiving \$5,500,000 in settlement of its claim against the estate. Sinclair interests were not obligated to take possession of the New York Richfield until the appeal was dismissed.—V. 140, p. 3229.

Rike, Kumler Co.—Removed from Listing and Registration.

Roanoke (Va.) Medical Building Corp.—Bonds Offered—Galleher & Co., Richmond, Va., recently offered \$200,000 5½% 1st mtge. serial bonds at prices to yield from 4% to 5%, according to maturity. Bonds were offered only to residents of Virginia.

residents of Virginia.

Dated Feb. 15 1935; to mature serially 1938-1945. Principal and intpayable Feb. 15 and Aug. 15 at the office of Mountain Trust Bank, Roanoke, Va., trustees. Denom. \$1,000 and \$500, registerable as to principal only. Red. by lot or as a whole on any int. date on 30 day's notice at 101 and int. Secured by a first closed mortgage on real estate in the City of Roanoke, Va., with improvements. Improvements consist of a modern 9-story brick, steel and concrete building with finished basement, fronting on Franklin Road, known as Medical Arts Building. The land and buildings have been appraised as follows: land, \$77,350; building, \$301,300; total, \$378,650.

Gross rentals and other income from June 1 1930, at which time the building was ready for occupany, to Nov. 30 1934, incl. \$265,776 Operating expenses, taxes, insurance, maintenance 120,386 Depreciation. %% 28,401

Roman Catholic Archdiocese of Toronto—Bonds Offered—J. L. Graham & Co., Ltd., Toronto, are offering at 98½ and int. \$1,500,000 4% 1st (closed) mtge. sinking fund bonds, non-callable until April 1 1940. Bonds are dated April 1 1935 and mature April 1 1945.

dated April 1 1935 and mature April 1 1945.

The Diocese of Toronto was created in 1841 and incorporated in 1845 by an Act of the Legislature of the then Province of Canada as the "Roman Catholic Episcopal Corp. for the Diocese of Toronto, in Canada." In 1870 it was elevated to the rank of Archdiocese, but the corporate name remained the same. It owns all the parochial assets in the Diocese with all attendant properties, such as churches, presbyteries, parish halls, &c.

The present bond issue will be a direct obligation of the corporation and will also be specifically secured by a first (closed) mortgage on several large properties in the City of Toronto (including St. Michael's Cathedral), having a total value in excess of \$3,000,000. Adequate fire insurance will be provided under the supervision of the trustee.

The proceeds of this issue will be applied to the reduction of banking indebtedness, incurred in part to pay off mortgages and bond issues due on April 1 1935.

(Joseph T.) Ryerson & Son, Inc.—Removed from Unlisted Trading-

The New York Curb Exchange has removed from unlisted trading privileges the 15-year 5% sinking fund gold debentures, due Nov. 1 1943.—V. 140, p. 1842.

Saratoga & ncampment Valley RR .-Dismissed-

The application of the company for authority to abandon its line of railroad has been dismissed by the Interstate Commerce Commission at the request of the company.—V. 127, p. 405.

St. Louis County Water Co.—Refunding—
Refunding of the company's \$2,800,000 5½s and \$1,000,000 5s with a new issue of 4% bonds is said to have been arranged privately through Edward B. Smith & Co., New York. The bonds are being called as of June 1 at 105. Interest charges under the new issue will amount to about \$152,000 annually, whereas charges under the present issue amount to

\$204,000. The company is a subsidiary of United Gas Improvement Co. —V. 140, p. 3057.

St. Louis Southwestern Ry.—Would Extend Loans—
The company has filed an application with the Interstate Commerce Commission asking authority to extend for five years from June 1 1935, \$4,500,000 in bank loans, of which \$3,500,000 is represented by a note to the Chase National Bank, New York, and \$1,000,000 by a note to the Mississippi Valley Trust Co. of St. Louis.

The road also has asked authority to repledge \$6,327,000 in general and refunding mortgage bonds and \$126,000 in Southern Illinois & Missouri Bridge Co. first 4s for the loan.

The company also has applied for approval of extension of five years.

The company also has applied for approval of extension of five years from June 1 1935 of a 17.827.000 RFC loan maturing on that date. The road offers no change in collateral from that at present deposited, plus the unconditional guarantee of the Southern Pacific Co. for collection of principal and interest of the Cotton Belt's note to the RFC.

The Cotton Belt in its application estimates valuation of its property as of Feb. 28 1935 at \$84,338,693.

Seaboard Air Line Ry.—Refunding Plan-

A plan for the exchange of equipment-trust certificates of the company for receivers' certificates and the refunding of receivers' certificates now outstanding has been forwarded to owners of these securities by Legh R.

Powell Jr. and Henry W. Anderson, receivers at the direction of the U. S. District Courts for the Eastern District of Virginia and the Southern District

Powel 97, and Henry W. Antalaster District of Virginia and the Southern District of Florids.

The plan includes a provision for the exchange of \$9,145,000 of receivers' certificates due on Feb. 1 1935, into receivers' certificates due on Feb. 1 1945, par for par.

The exchange of outstanding equipment-trust certificates, aggrezating \$12,250,000, par for par, into receivers' certificates maturing on Feb. 1 1945 also is provided for, The new certificates would bear interest at 2% from Feb. 1 1935, to Feb. 1 1938; 3% from Feb. 1 1938, to Feb. 1 1940, and 3½% thereafter to maturity.

The plan provides also for the exchange of \$4,470,000 receivers' certificates, Series B and C, into an equal principal amount of receivers' certificates, Series BX, maturing Feb. 1 1940, and bearning interest at 4% annually.

Postponement of mortgage foreclosure sales and of impounding of income by underlying mortgage trustees until Feb. 1 1940, unless required by the court, and payment of interest on certain underlying bonds are provided. Further detail will be given another week.—V. 140, p. 3230.

Sharon Steel Hoop Co.—Stock Contracts—
The company has notified the New York Stock Exchange that contracts with certain of its officers and employees call for future delivery under certain conditions of 17,900 shares of common stock at \$10 a share, in two instalments which become due on April 1 1936, and April 1 1937, respectively.—V. 140, p. 2199.

Shell Transport & Trading Co., Ltd.—Interim Div.—
The Chase National Bank of the City of New York has received information from its London office that at a meeting held on May 15 1935, the
directors of this company declared an interim dividend at the rate of 2 shillings 6 pence per British ordinary share, payable in London on July 9 1935.
This is equivalent to 5 shillings per "American share."
Further notice of the rate and date of payment of the dividend in New
York will be given by the Chase National Bank of the City of New York
at a later date.—V. 139, p. 3165.

Simms Petroleum Co.—To Sell Unit to Tide Water Oil Co.—Dissolution to Be Voted on by Stockholders—

A special meeting of stockholders will be held June 17, for the following purposes:

(a) To authorize the proposed sale by Simms Petroleum Co. to Tide Water Oil Co. (Okla.), which the board of directors deems expedient and for the best interests of Simms Petroleum Co., of all the capital stock of Simms Oil Co. owned by Simms Petroleum Co. (b) In the event of such authorization of such proposed sale, to take action upon the following resolution adopted by the board of directors of Simms Petroleum Co. by a majority of its whole board at a meeting called for that purpose and held on May 14 1935: "Resolved, that it is deemed advisable, in the judgment of the board of directors of this company, and most for the benefit of this company (provided that the proposed sale by this company to Tide Water Oil Co. of all the capital stock of Simms Oil Co. shall have been approved by stockholders of this company), that this company should be dissolved."

Edward T. Meene President in a letter to the excelled dors

Edward T. Moore, President, in a letter to the stockholders

dated May 14, states:

Edward T. Moore, President, in a letter to the stockholders dated May 14, states:

An offer has been made by Tide Water Oil Co. (Okla.) to purchase the stock of Simms Oil Co., the subsidiary owning the producing oil properties. Directors believe this offer to be an advantageous one and have accepted it, subject to the approval of stockholders.

A brief summary of the more important provisions of the agreement between the two companies follows:

(1) The purchase price is \$8,775,000 plus interest. Of this, \$4,620,000 is a fixed payment and the balance of \$4,155,000 plus interest. Of this, \$4,620,000 is a fixed payment and the balance of \$4,155,000 plus interest. Of this, \$4,620,000 is a fixed payment and the balance of \$4,155,000 plus interest. Of this, \$4,620,000 is a fixed payment and the balance of \$4,155,000 plus interest. Of this, \$4,620,000 is a fixed payment and the balance of \$4,155,000 plus interest. Of this, \$4,620,000 is a fixed payment and the balance of \$4,155,000 plus interest at 3% from May 1 1935. The notes are divided into \$1,000,000 maturing in 12 months. Instalments on the contingent payment will be paid monthly in an amount equal to one-fourth of the value of the net oil and gas produced from the properties except that for each of the first 36 months the instalment will be one-fourth of such value less \$6,250 and except as such payments may be otherwise reduced under the terms of the agreement. In addition, interest at 3% from May 1 1935 is to be paid on the outstanding unpaid principal of the contingent obligation.

(2) An escrow fund of \$500,000 will be created to provide against miscellaneous undetermined liabilities. \$400,000 of this escrow fund will be provided immediately by Simms Petroleum Co. and the remaining \$100,000 in equal monthly amounts during the first 36 months out of the instalments on the contingent portion of the sale price.

(3) The assets to be owned by Simms Oil Co. at the time of the sale will consist primarily of all its producing and undeveloped oil properties in Texa

approximately:	
Cash	\$1,056,000
Accounts, &c., receivable	438.000
Oil inventories	361,000
	\$1,855,000
Less: Current liabilities	418,000
Balance Arrangements have been made to discount the above descri \$2,000,000 of notes. There will therefore be, if the notes are discounted, immediately available from the proceeds of proposed sale to Tide Water Oil Co., approximately	so the
Making a total of	\$6,057,000 end

Commission on sale.	
Commission on safe	
	80,000
Legal fees	80,000

Commission on sale 131.625

Legal fees 80,000

This will leave net current assets of approximately \$5,445,375

The amounts available from the foregoing will be affected by the results of operations of Simms Oil Co. for the month of April. and other minor adjustments under the agreement with Tide Water Oil Co.

It is contemplated that, if the sale is approved, distribution of \$10 per share, or approximately \$4,630,000. will be made to stockholders promptly out of funds available from the foregoing sources, leaving a balance of approximately \$800,000 of net quick assets, consisting of cash, together with certain receivables and inventories to be converted into cash as promptly as circumstances permit.

The remaining fixed assets of Simms Petroleum Co. will consist generally of the producing properties at Smackover. Ark., the refineries at Smackover and Dallas, pibe lines, marketing stations, and certain minor material inventories. It is the intention of the directors to liquidate these assets as promotily as is consistent with obtaining fair values. It is no now possible to estimate with accuracy what may be obtained for these assets. In the company's annual report dated March 12 1935, it was stated that "a program for discontinuing all marketing operations was put into effect, and the two refineries were shut down." It has been the company's intention to discose of all marketing and refining assets whether or not the sale of the stock of Simms Oil Co. is consummated, as these facilities have been unprofitable for a number of years.

After the proposed initial distribution of \$10 a share, it is contemplated that further distributions will be made to stockholders, from time to time, as and when substantial funds may become available from the sources above mentioned (namely, realization from receivables and oil inventories, disposition of the remaining fixed property, receipts on account of the contingent payment from Tide Water Oil Co. and surplus available on liquidation of the escrow fund), after providing for e

Standard Gas & Electric Co.—Meeting Postponed—
The stockholders annual meeting has been postponed until June 1s to covide more time for completion of annual report which under agreement its the New York Stock Exchange must be submitted to stockholders days in advance of meeting.

Weekly Output-

Electric output for the week ended May 11 1935 totaled 80.041,600 kilowatt hours, a decrease of 3.3% compared with the corresponding week last year.—V. 140, p. 3231.

Standard Oil Co. (Ind.)-Would Restrain New Jersey Company

Company—
The company filed suit in Federal District Court, St. Louis, May 15 to enjoin Standard Oil Co. of (N. J.) from offering petroleum products for sale under the name "Esso" in the 14 States in which a Standard of Indiana markets such products. The suit is an outgrowth of recent opening of three service stations in St. Louis under the sign "Esso" by a subsidiary of Standard of New Jersey known as Esso, Inc.

The bill of complaint states in substance that for about 40 years prior to the appearance of the "ESSO" signs in St. Louis the Indiana company has sold its products under its trademarks "Standard," "SOCO," "SOC" and others and that many millions of dollars have been spent on advertising of these marks to identify them with products of the Indiana company. It charges that the term "ESSO" is being placed on the Jersey stations and products in St. Louis as part of a scheme by that company to avail itself of the benefits enjoyed by the Indiana company from its building up of the Standard Oil name and to "appropriate without expense, fraudulently and unfairly, the good will, reputation, celebrity and public confidence which the plaintiff has built up."—V. 140, p. 2881.

Standard Oil Co., Inc. (N. J.)—Report for Year Ended Dec. 31 1934—W. C. Teagle, President, and W. S. Farish, Chairman, state in part:

Standard Oil Co., Inc. (N. J.)—Report for Year Ended Dec. 31 1934—W. C. Teagle, President, and W. S. Farish, Chairman, state in part:

Company Production—Eliminating from the total auch crude oil as the production being 179,361,100 barrels, and state of the production in the total production being 179,361,100 barrels, these figures including reports total for the year of 57,130,780 barrels, these figures including reports total for the year of 57,130,780 barrels, these figures including reports of the year of 57,130,780 barrels, and going back three years—39,827,173 barrels, and the production of the year in 1,620 were gorned by the various producing units. Of these wells 8,558 were operated by the various producing units, of these operations of the Standard The company's present reserves of petroleum in the ground at bome and abroad we consider adequate for the proper carrying on of our benines. Our search for new fields continues and we confidently expect to maintain a strong reserve position.

In the foregoing figures of the proper carrying on of our benines, and the production of the production was a production of the p

for one, two and three years to a total amount of \$45,000,000 and to sell serial debentures maturing in four, five and six years to a total of \$37,000,000 the remaining \$9,800,000 to be paid out of cash. A substantial annual saving in charges results from the retirement.

MDuring the year the company paid \$9,582,021 in cash and delivered 344,743 shares of its stock obtained through market purchases to Standard Oil Co. (Ind.) in liquidation of its third installment on the purchase in 1932 of capital stock of Pan-American Foreign Corp.

MDuring the year the Humble Oil & Refining Co. called and paid off its 5% debentures outstanding in the amount of \$18,950,000. These were paid, \$5,950,000 out of the company's cash and the balance or \$13,000,000 out of bank loans running for one and two years, at an interest rate much lower than that of the bonds.

The 5½% debenture stock of the Anglo-American Oil Co., Ltd. of £1,101,950 has been called for payment on July 15 1935 at 102 and accrued interest.

Swift & Co.—Applies for New York Stock Exchange Listing G. F. Swift, President, has announced that the company is applying to the New York Stock Exchange for listing of its stock and its first mortgage 34% bonds, which latter have been sold for delivery on or about June 15 1935. Company securities have heretofore been confined to Chicago Stock Exchange, Boston Stock Exchange and New York Curb Exchange.

Refunding Approved by Stockholders—
The stockholders, by a vote of 80% of outstanding shares, on May 10 approved the proposal to issue \$50,000,000 3\fo/4\% bonds due May 15 1950, secured by first mortgage. Proceeds will be used to retire outstanding 5\% first mortgage bonds due in 1944 and 5\% gold notes due in 1940 of approximately the same aggregate amount. On March 27, \$43,000,000 of the issue was sold at par.

mately the same aggregate amount. On March 27, \$43,000,000 of the issue was sold at par.

G. F. Swift, President, said:

"Our business has been satisfactory so far this year and somewhat better than for the corresponding period last year.

"There has been some comment about volume in the packing industry and the effect it may have on results. I am glad to say there has not been much reduction in our tonnage so far, although the balance of the year will show some larger percentage of reduction. We would not expect this to have any serious effect upon our results."—V. 140, p. 2369.

United Rys. & Electric Co. of Balt.—Plan Approved— The Maryland Public Service Commission has approved the reorganiza-

tion plan.

The Commission ruled, however, that before the reorganization can become effective the U.S. District Court must rule on a series of objections filed by a stockholder.

Court Disallows Sale of Road—
Judge William C. Coleman announced in Federal District Court ,Baltimore, May 16, that the recent sale to the bondholders for \$5.595,000 would be disallowed. His statement followed the conclusion of testimony regarding reorganization plans of the company. Ratification of the Court was necessary to complete the sale made under receivership proceedings. Following the sale, the receivers brought proceedings under Section 77B of the Bankruptcy Act. The plans for reorganization were presented at the hearing.

Charles W. Chase, appointed as a special master in the case, suggested at the hearing that 25% of the gross revenues of the company be set aside for maintenance and depreciation each year.—V. 140, p. 3060.

United Stores Corp.—Meeting Postponed—
The stockholders' annual meeting has been adjourned until June 5 because of lack of a quorum to vote on proposed amendment of charter to reduce the authorized stock. While the company held proxies for a majority of the stock, it did not hold a majority of each class of stock, which is required to effect an amendment to the charter.—V. 140, p. 3061.

Viking Pump Co.—25-Cent Dividend—
The directors have declared a dividend of 25 cents per share on the common stock, no par value, payable June 1 to holders of record May 20. A similar payment was made on Dec. 20 1934, this latter being the initial distribution on this issue.—V. 140, p. 1325.

Walworth Co.-Reorganization Under 77-B Proposed-

Walworth Co.—Reorganization Under 77-B Proposed—
Plans for the reorganization of the company were announced May 10 concurrently with the filing of an application under Section 77-B in the U. S. District Court of Massachusetts in Boston.

The proposed reorganization plan has been formulated after an extensive study of the company's finances by its officers and by committees representing its bonds and debentures. Providing for a substantial reduction in fixed charges, it calls for the replacement of the present \$7,141,000 of 6% first mortgage bonds with an equal amount of 4% first mortgage bonds; replacement of the outstanding \$1,673,000 of 6\% debentures, due next October, with \$836,500 of 6\% debentures; and elimination of \$993,000 of present preferred stock, holders of which will receive common stock. Holders of common stock will retain their present holdings undisturbed. Additional common stock will be issued in payment of accrued interest on the present bonds and debentures and of accumulated dividends on the preferred stock, which aggregated \$1,581,332 on April 1 1935.

The proposed plan contemplates the following readjustments:

For each \$1,000 6\% bond and unpaid coupons, holders will receive a \$1,000 4\% bond, due 1955, and 70 shares of common stock.

For each \$1,000 6\% debenture, due 1955, and 130 shares of common stock.

For each share of preferred stock, together with accumulated and unpaid dividends, holders will receive 8 shares of common stock.

Present holders of common stock will retain the shares now held.

Upon completion of the proposed reorganization plan, the new simplified capital structure will consist of \$7,141,000 of 20-year 4\% first mortgage bonds, \$836,500 of 20-year 6\% debentures and 1,234,100 outstanding shares of no par value common stock. Under this set-up, annual fixed charges will be reduced from \$537.205 to \$335,830—approximately the amount, available for interest, earned by the company will be unaffected by the plan.

In connection with the reorganization proposals, W. B. Holton Jr., Chairman of the Executive Committee and Treasurer, said:

"The principal objects which the plan seeks to accomplish are (1) to

Treasurer, said:

"The principal objects which the plan seeks to accomplish are (1) to provide for the interest accrued and unpaid on the bonds and debentures and the payment of the debentures which are immediately payable, (2) to reduce interest charges, and (3) to extend the maturities of the funded debt. "In formulating the plan of reorganization it has been kept in mind that creditors should not be expected to give up their rights to accrued interest or to reduce the interest rates or the principal of the securities held by them and accept common stock in exchange therefor except to the extent necessary. On the other hand, it is not in the interests of any security holders that the reorganized company should be burdened by fixed interest charges or an amount of debt, or with nearby maturities, which the company probably could not pay. The present plan attempts to meet these conditions as fairly as possible.

"If earnings continue at the rate prevailing for the past 18 months the management is confident that the company will be able to meet its new interest requirements and under the plan the company will have no maturities on its funded debt for 20 years."

Reorganization Committee Appointed—

Reorganization Committee Appointed-

The company has appointed a committee on reorganization to co-operate with the bond and debenture holders' committees in seeking to obtain acceptance of the plan. Its members are Edgar C. Rust, Chairman Howard Coonley, W. B. Holton, Jr., and Walworth Pierce.—V. 140, p. 3062.

Ward Baking Corp.—50-Cent Preferred Dividend—
The directors have declared a dividend of 50 cents per share on account of accumulations on the 7% cum. prof. stock, par \$100, payable July 1 to holders of record June 15. A like amount was paid on this issue in each of the seven preceding quarters, while on April 1 and July 1 1933 distributions of 25 cents each were made, 50 cents per share paid on Jan. 3 1933, \$1 per

share on July 1 and Oct. 1 1932, and \$1.75 per share in previous quarters.

—V. 140, p. 2555.

Washington Baltimore & Annapolis Elec. RR.—Assets to be Sold-

An order appointing Louis J. Burger of Baltimore special master for the sale of the road, now in receivership, was signed May 8 by Federal Judge William C. Coleman.

Mr. Burger will appoint a date for the sale of the property which, under the Court order, will take place at the court house door in Annapolis.

COMMERCIAL EPITOME

Friday Night, May 17 1935

Coffee futures were quiet on the 11th inst., but showed gains at the close of 6 to 9 points on Santos contracts and 6 to 7 on Rio; sales 4,750 bags of Santos and 750 bags of Rio. Cost and freight offers from Brazil showed little if any change. Cost and freight offers from Brazil showed little if any change. On the 13th inst., futures closed 1 to 3 points higher on Santos contracts with sales of 11,000 bags and 5 points higher on Rio contracts with sales of 2,500 bags. Cost and freight offers were small and generally unchanged, with Santos 4s offered at 7.50 to 7.70c. The local spot market was quiet with Santos 4s unchanged at 83% to 85%c. On the 14th inst. futures closed 5 points lower to 3 points higher on Santos contracts with sales of 13,500 bags. Rio contracts were 10 points higher on May but 2 to 8 points lower on other months with sales of 3,750 bags. Cost and freight offers from Brazil were 10 points lower to 15 points higher. The from Brazil were 10 points lower to 15 points higher. The weather in Brazil was favorable. On the 15th inst. Santos contracts closed 6 to 16 points lower with sales of 18,500 bags and Rio contracts were 6 to 16 points lower with sales of 6,250 bags. A lower Brazilian exchange rate and weaker Brazilian offers accounted for the decline in futures.

and feright offers from Brazil were 5 to 10 points lower with Santos 4s offered at 7.40 to 7.75c.

On the 16th inst. futures declined 3 to 7 points on Santos contracts with sales of 16,250 bags. Rio contracts ended 3 points lower to 5 points higher with sales of 3,500 bags. The Brazilian exchange rate was 50 reis higher. Cost and freight offers from Brazil were 5 points lower. To-day futures closed 3 to 8 points higher on Rio contracts and 4 to 9 points higher on Santos contracts except on May, which was 13 higher on Santos contracts except on May which was 13 points lower. Cost and freight offers from Brazil were unchanged to 5 points lower. Sales were 31 contracts of Rio and 84 contracts of Santos.

Rio coffee prices closed as follows:

March 5.39 September 5.16 December 5.11	5.24 5.31
Santos coffee prices closed as follows:	
March 7.68 September 7.45 December July 7.50	7.58 7.64

Cocoa futures on the 11th inst. closed 2 points lower with Hedge selling exerted considerable pressure on the market but this was partly offset by a better Wall Street and trade demand. July ended at 4.57c., Sept. at 4.69c., Dec. at 4.85c. and March at 5.00c. On the 13th inst. futures closed with further losses of 2 points. Sales amounted to 38 lots. New York warehouse stocks were reduced 3,850 bags to 845,370 bags or the lowest since Aug. reduced 3,850 bags to 845,370 bags or the lowest since Aug. 1933. Sept. ended at 4.67c., Dec. at 4.83c., Jan. at 4.88c., and March at 4.98c. On the 14th inst. futures declined 3, to 4 points with sales of 1,126 tons. July ended at 4.52c., Sept. at 4.63c., Oct. at 4.68c., Dec. at 4.79c., Jan. at 4.84c. and March at 4.94c. On the 15th inst. futures were 1 point lower to 1 point higher with sales of 1,219 tons. July ended at 4.52c., Sept. at 4.64c., Dec. at 4.78c. and March at 4.94c. On the 16th inst. futures rose 8 to 9 points on sales of 1005 tons. Wall Street bought a little. July ended at 4.61c., Sept. at 4.72c., Oct. at 4.77c., Dec. at 4.87c., Jan. at 4.92c. and March at 5.02c. To-day futures closed with net declines of 2 to 3 points with sales of 37 contracts. July ended at 4.58c., Sept. at 4.70c., Oct. at 4.75c., Dec. at 4.85c., March at 5.00c. and May at 5.11c.

Sugar continued active on the 11th inst. and ended unchanged to 2 points higher on old contracts and unchanged to 1 lower on the new; sales were 17,550 tons of new and 4,400 tons of old. On the 13th inst. futures declined 2 to 4 points with sales of 4,900 tons of old and 10,600 tons of new. Yet raws remained firm and a sale of Cubas, second half June shipment was reported at 2.54c. On the 14th inst. futures closed 1 point lower to 2points higher in light trade, sales amounting to 950 tons of old contract and 5,950 tons of new. Philippines from store sold at 3.40c. and for July-Aug. shipment at 3.45c. On the 15th inst. futures ended 2 to 3 points lower with sales of 1,450 tons of old contract and 7,750 tons of new. The weakness of the market was due to a rumor that a commission house had discussed with refiners the possibility of negotiating the sale of a block of 200,000 tons of raw sugar at an average price of 2.75c. for delivery in July through December.

On the 16th inst. futures ended with old contracts 1 to 2 points higher and with new contracts 1 point higher with sales of 750 tons of old and 5,300 tons of new. The strength of the market was partly due to denials by commission house interests that they proposed selling a large block of contracts Raws were quiet but firm. To-day futures closed unchanged to 1 point ower. Raws were quiet. Trading was less active.

Prices were as follows:	
December 2.62 May 2.45 July 2.46	September2.54 January2.44

Lard futures advanced 2 to 5 points on the 11th under buying by cash interests. There was some selling by commission houses stimulated by the weakness in corn. Hogs were On the 13th inst. futures closed unchanged to 5 points There was some selling owing to the weakness in lower. There was some selling owing to the weakness in grain, but this was offset by trade buying influenced by the firm cash situation and the firmness of hogs. Hogs were up 10 to 20c., owing to light receipts. On the 14th inst. futures ended unchanged to 2 points lower. The strength of hogs offset weakness in grains. Hogs advanced 5 to 10c., owing to continued light receipts; top price, \$9.40. Cash owing to continued light receipts; top price, \$9.40. Cash lard was firm. On the 15th inst. prices rose 17 to 20 points on short covering stimulated by the firmness of outside markets. Hogs were unchanged to 5c. lower with the top markets. Hogs were uncompared was firm. \$9.35. Cash lard was firm.
On the 16th inst. futures advanced 20 to 22 points on

buying stimulated by the rise in grain and hogs. Shorts were covering. Marketings of hogs were light. To-day futures closed unchanged to 15 points lower in sympathy with grain.

Petroleum—The summary and tables of prices formerly appearing here regarding petroleum will be found on an earlier page in our department of "Business Indications," in the article entitled "Petroleum and Its Products."

Rubber futures were firmer on the 11th inst. and closed 12 to 17 points higher after sales of 940 tons. Spot ribbed smoked sheets were up to 11.69c. London and Singapore 12 to 17 points higher after sales of 940 tons. Spot ribbed smoked sheets were up to 11.69c. London and Singapore showed slight advances. May ended at 11.76 to 11.80c., July at 11.87 to 11.88c., Sept. at 12.00c., Oct. at 12.07c., Dec. at 12.23c., Jan. at 12.30c., March at 12.46c. and April at 12.54c. On the 13th inst. futures were 11 to 15 points higher with sales of 2,130 tons. Spot ribbed smoked sheets moved up to 11.88c. There were 80 tons tendered for delivery against May contracts. London and Singapore were slightly higher. May ended at 11.90c., July at 12.00 to 12.02c., Sept. at 12.14 to 12.15c., Dec. at 12.35 to 12.36c., Jan. at 12.43c., March at 12.58c. and April at 12.65c. to 12.02c., Sept. at 12.14 to 12.15c., Dec. at 12.35 to 12.36c., Jan. at 12.43c., March at 12.58c. and April at 12.65c. On the 14th inst. futures closed with net gains of 26 to 29 points; sales 5,560 tons. Spot ribbed smoked sheets were up to 12.15c. There was a better speculative and trade demand. London and Singapore were firmer. May ended at 12.17 to 12.20c., July at 12.28c., Sept. at 12.41c., Oct. at 12.48c., Dec. at 12.61 to 12.63c., Jan. at 12.70c., March at 12.86 to 12.87c. and April at 12.94c. On the 15th inst. futures closed 2 points lower to 2 points higher with sales of 3,400 tons. London and Singapore were unchanged to 1/8d. higher. Here prices closed with May at 12.19c., July at 12.28 to 12.31c., Sept. at 12.41 to 12.43c., Dec. at 12.62c., Jan. at 12.69c., March at 12.85c. and April at 12.93c.

On the 16th inst. futures rose another 10 to 16 points on sales of 3,940 tons. Spot ribbed smoked sheets advanced to 12.28c. London and Singapore were firm. May ended

at 12.33c., July at 12.43c., Sept. at 12.53 to 12.56c., Dec. at 12.76c., Jan. at 12.85 to 12.86c., March at 12.99c. and April at 13.07c. To-day futures closed 18 to 21 points lower with sales of 344 contracts. Liquidation was general. Wall Street and dealers sold. London was quiet and unchanged. May ended at 12.14c., July at 12.22c., Sept. at 12.34c., Oct. at 12.42c., Dec. at 12.57c., Jan. at 12.66c. and March at 12.81c.

Hides futures on the 11th inst. rallied after early weakness to close with net gains of 11 to 15 points. Trading was moderate, sales amounting to 960,000 lbs. June ended at 10.48 to 10.52c.; Sept. at 10.84 to 10.85c.; Dec. at 11.14c., and March at 11.42c. On the 13th inst. futures closed unchanged to 3 points lower, with sales of 5,760,000 lbs. June ended at 10.47c.; Sept. at 10.81 to 10.82c.; Dec. at 11.14 to 11.15c., and March at 11.42 to 11.50c. On the 14th inst. futures were 9 to 11 points higher with sales of 3,760,000 lbs. Closing prices: June, 10.57c.; Sept., 10.90 to 10.93c.; Dec., 11.23 to 11.25c., and March at 11.53 to 11.60c. On the 15th inst. futures ended 13 to 17 points higher or slightly under the highs of the day after sales of 11.60c. On the 15th inst. futures ended 13 to 17 points higher or slightly under the highs of the day after sales of 6,200,000 lbs. In the Chicago spot market 19,500 hides sold at advances of ½ to ¾c. Light native cows sold at 10½c. and heavy native steers at 12¾c. Some 12,000 frigorifico steers sold in the Argentine market at 11½c. Here prices closed with June at 10.70 to 10.75c.; Sept. at 11.07c.; Dec. at 11.40c., and March at 11.70c.

On the 16th inst. futures ended 3 to 4 points higher after sales of 6,400,000 lbs. In the Chicago spot market 22,600 hides were reported sold at steady prices. Light native cows sold at 10c. and heavy native steers at 12 to 12½c. In the Argentine spot market 4,000 frigorifico steers were reported sold at 11½c. Closing prices here: June 10.74 to

ported sold at 11½c. Closing prices here: June 10.74 to 10.75c., Sept. 11.10c., Dec. 11.43c. and March 11.73c. To-day futures closed 20 to 24 points lower with June at 10.50c., Sept. at 10.85c., Dec. at 11.20c. and March at 11.53c. Sales were 103 contracts.

Ocean Freights showed a little more activity with sugar,

scrap and trips to the fore.

scrap and trips to the fore.

Charters included: Sugar—two ports North Cuba and Santiago to United Kingdom-Contintent 14s.; July, Cuba, to United Kingdom-Continent, Havre Hamburg range 13s. 9d.; July, Santo Domingo to United Kingdom-Continent 12s. 6d.; June, Cuba-United Kingdom-Continent 13s.; Santo Domingo, June to United Kingdom-Continent 12s. 6d.; Cuba, June, to U.K.-Continent 13s., from Santo Domingo 12s.; one to three ports, Cuba to London-Liverpool-Greenock, May 10-25, 13s. 6d. Grain booked—15 loads to Antwerp at 5c.; 1 load to Copenhagen 9c. Time—West Indies round delivery New York, May 7, \$1.; Canada redelivery Gulf 70c.; West Indies round 65c.; prompt, two trips round, South America \$1.10; West Indies round \$1.10; same \$1.15; same \$1.05; prompt Canadian round, 90c. Scrap iron—North Atlantic, United Kingdom 11s.

Coal sales volume was only fair at best. The lessened demand was attributed to warmer weather. Bituminous production last week increased nearly 600,000 tons to 5,620,000 tons against 6,237,000 tons a year ago. For three weeks it was 15,536,000 tons and the weekly average 5,513,000 tons against 18,887,000 tons respectively in the same time last

Copper was less active in the domestic market but the demand was good abroad. Blue Eagle continued at 9c. delivered to the end of August, but prices for European destinations were at 8.10 to 8.20c. c.i.f. Hamburg, Havre and London. In London on the 16th inst. spot rose 7s. 6d. to £33 17s. 6d.; futures up 7s. 6d. to £34 6s. 3d.; sales 200 tons of spot and 3,700 tons of futures; electrolytic unchanged at £37 for spot; futures up 10s. to £37 15s.

Tin of late was advanced to 51.15c. for spot Straits owing to a stronger London market and further talk of inflation as a result of the possible passage of the soldiers' bonus bill. In London on the 16th inst. spot was 10s. higher at £227 10s. and futures rose £1 5s. to £220 10s.; Straits up £1 to £236 15s.; Eastern c.i.f. London unchanged at £228 2s. 6d.; sales 80 tons of spot and 175 tons of futures.

Lead was in good demand and higher at 3.90c. New York and 3.75c. East St. Louis. In London spot was unchanged at £14 and futures rose 1s. 3d. to £14 1s. 3d.; sales 200 tons of spot and 2,150 tons of futures.

Zinc was quiet but firm at 4.25c. East St. Louis. In London spot was down 1s. 3d. to £14 13s. 9d.; futures up 1s. 3d. to £15; sales 50 tons of spot and 700 tons of futures.

Steel operations were increased to 43.4% but they are still under the comparative level of last year. Nearly all reports indicate that there will be no general price advances for third quarter. Now that much of the labor difficulties have been settled in the automotive trade larger orders for steel are expected from this source. Thus far in May local sales have fallen behind those of the previous month and are very much less than in March. Quotations—Semi-finished billets, rerolling, \$27; billets, forging, \$32; sheet bars, \$28; slabs, \$27; wire rods, \$38; skelp, 1.70c. per pound. Sheets, hot rolled annealed, 2.40c.; galvanized, 3.10c.; strips, hot rolled, 1.80c.; cold rolled, 2.60c.; hoops and bands, 1.85c.; tin plate per box, \$5.25; hot rolled bars, plates and shapes,

Pig Iron shipments are holding up well but new business shows a marked falling off. Some attributed the falling off in demand to uncertainties over third-quarter prices and the continuance of the steel code. No change in prices is anticipated for third quarter owing to the low price levels for iron and steel scrap, and fears that imported iron would be used on a larger scale in the East. Complaints have already been

received in recent weeks that foreign iron in New England was being sold at considerably under code prices for domestic material. Consumption shows a seasonal falling off and sales of cast iron pipe have not reached the usual levels for this time of the year. Quotations—Foundry No. 2, plain, Eastern Pennsylvania, \$19.50; Buffalo, Chicago, Valley and Cleveland, \$18.50; Birmingham, \$14.50. Basic, Valley, \$18; Eastern Pennsylvania, \$19. Malleable, Eastern Pennsylvania, \$20; Buffalo, \$19.

Wool was in better demand and firmer. Boston wired a Government report on May 15 saying: "Prices are very firm on a broad movement of wool in the Boston market. All grades of territory wools are receiving a call. French combing 64s and finer territory wools are bringing 56c. to 58c. scoured basis, for short, including some clothing, 59c. to 60c. for average and 60c. to 62c. for good to choice staple. Strictly combing stable of lower grades brings 61c. to 62c. scoured basis for 58s-60s, ½-blood; 52c. to 55c. for 56s, ¾-blood, and 45c. to 48c. for 48s-50s, ¼-blood." Boston wired another Government report on May 16 which said: "The broad movement of domestic wool in Boston market includes sizable quantities of Texas wools. Average said: "The broad movement of domestic wool in Boston market includes sizable quantities of Texas wools. Average 12 months is bringing 59c. to 61c., scoured basis, good to choice lines sell at 62c. to 64c. scoured basis. Eight months' Texas wools are having a call at 55c. to 57c. scoured basis. Medium grade territory sales are increasing in volume with prices very firm on strictly combing 56s, 3/6-blood, at 52c. to 55c. scoured basis, for the bulk, and strengthening within the range of 45c. to 49c. scoured basis for strictly combing 48-50s, 1/2-blood." In London on May 13 offerings were 9,822 bales and met with a good demand from Yorkshire and the Continent: prices firm. In London on May 14 shire and the Continent; prices firm. In London on May 14 offerings of 11,150 bales met with a good general demand. Prices were firm. In London on May 15 offerings of 9,098 bales were quickly taken by Yorkshire and the Continent at firm prices. The present series of Colonial wool auctions will close on May 23 instead of May 24. In London on the 16th offerings at the Colonial auctions totaled 9,120 bales; demand active and general; prices firm. Details:

Sydney 721 bales; greasy merinos 11½ to 17½d. Queensland 15½ to 13¾d. Victoria 1201 bales; scoured merinos 15½ to 21½d.; greasy 12 to 17d.: scoured crossbreds 8 to 16d. South Australia 226 bales; scoured merinos 12 to 21d.; greasy 1½ to 13¾d. West Australia 428 bales; scoured merinos 16½ to 18½d.; New Zealand 4969 bales; scoured merinos 17½d. to 24½d.: scoured crossbreds 7½ to 23½d. Greasy 5¾ to 11½d. Cape 78 bales; greasy merinos 5¼ to 8½d. Kenya 120 bales; greasy merinos 8½ to 8½d. Kenya 120 bales; greasy merinos 8½d. Taliadas 1050 bales; greasy crossbreds 6 to 11¾d. New Zealand slipe ranged from 8½d. to 13¾d., the latter price for halfbred lambs.

Silk futures closed unchanged to ½c. higher on the 13th inst. with sales of 670 bales. Crack double extra spot fell 1c. to \$1.38½. Forty bales were tendered for delivery against May contracts. May ended at \$1.32½ to \$1.33; July at \$1.32 to \$1.33; Nov. at \$1.31, and Dec. at \$1.31 to \$1.31½. On the 14th inst. futures closed ½ to 1½c. higher on sales of 370 bales. May ended at \$1.33½ to \$1.34½; June at \$1.34 to \$1.34½; Aug. at \$1.32½ to \$1.33½; Oct. at \$1.32 to \$1.33, and Dec. at \$1.32½. On the 15th inst. futures advanced ½ to 1½c. and sales totaled 1,150 bales. Crack double extra spot rose ½c. to \$1.40½. Tenders for delivery against May contracts numbered 20 bales. May and June ended at \$1.34½ to \$1.35½; July at \$1.34½; Aug. at \$1.33 to \$1.34½; Sept. at \$1.33 to \$1.34 and Dec. at \$1.33.

On the 16th inst. futures closed with net gains of 3 to 4c. with sales of 1,450 bales. Crack double extra spot rose 2½c. to \$1.43. Some 260 bales were tendered for delivery on May contracts. Closing prices: May \$1.38½ to \$1.39, June \$1.38, July \$1.37½ to \$1.38, Sept. and Oct. \$1.36½ to \$1.37 and Dec. \$1.36½. To-day futures closed ½ to $1\frac{1}{2}$ c. lower with sales of 98 contracts. May ended at \$1.37½, June at \$1.36½, July and Aug. at \$1.36, Sept. at \$1.35½. Oct. at \$1.35 and Nov. and Dec. at \$1.35½.

COTTON

Friday Night, May 17 1935.

The Movement of the Crop, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 21,061 bales, against 21,595 bales last week and 15,791 bales the previous week, making the total receipts since Aug. 1 1934, 3,898,853 bales, against 6,996,786 bales for the same period of 1933-34, showing a decrease since Aug. 1 1934 of 3,097,933 bales.

Speculation in cotton for future delivery was on a moderate scale and prices moved over an irregular and narrow course. An early downward trend was reversed and prices wind up with net gains for the week of 6 to 13 points. Government pool buying and further inflation talk as a result of the possible passage of the soldiers' bonus bill were the bullish factors. The weather was generally favorable and considerable selling pressure developed when prices approached the 12c. level.

On the 11th inst. prices ended 1 to 5 points lower in moderate trading. As the market approached the 12-cent level selling increased slightly. Opening prices were 4 to 7 points lower on selling by foreign interests, and there was also considerable week-end liquidation and profit-taking. Some of the selling was believed to be hedging against Government cotton or cotton being released in the interior as a result of Government sales. The Government was credited with buying supposedly against sales of spot cotton out of the Producers' Pool. Demand, however, was not large but light buying by locals, short covering and trade price fixing, due to a belief that the Government will enter the market on a larger scale later to replace sales of pool

cotton, caused a late rally.
On the 13th inst. prices ended 8 to 15 points lower or at On the 13th inst. prices ended 8 to 15 points lower or at about the low of the day owing to heavy selling by foreign interests and the South. Liverpool was lower than due. Considerable resistance is encountered when prices near the 12-cent level. The trade, however, continued to give support on the recessions. Trading was of good volume but a large percentage of the day's business was exchanging from July to the new crop. There were evidences of Government buying against sales of pool cotton, but this demand was not heavy enough to lift the market. There was nothing in the news to encourage traders on either side. Worth was not heavy enough to lift the market. There was in the news to encourage traders on either side.

Street reported the market quiet but prices steady.
On the 14th inst. the ending was irregular with prices 2 on the 14th inst. the ending was irregular with prices 2 points off to 12 points up. It was an active market. The near months showed weakness, while new crop deliveries were firmer. The May contract eased off under liquidation after the issuance of 30 notices at the opening. Some were selling July and purchasing distant deliveries, but trade buying near the end brought about a partial recovery in July. The Government agency was reported to have bought new grop months. Japanese interests bought May on the new crop months. Japanese interests bought May on the declines. Liverpool was better than due. Worth Street was quiet at slightly easier prices. The weather over the belt was generally favorable.

On the 15th inst. prices moved up 3 to 12 points in very light trading. Buying of May contract by spot and trade interests sent that month up to 11.90c. March was sold in the late trading when it reached 11.98c. There was a in the late trading when it reached 11.98c. There was a good deal of switching from the nearby deliveries to later months. The trade and spot interests were buying the near months. The Government, it was estimated, bought 15,000 to 20,000 bales of the forward positions. This buying offset reports from the Middle and Far West that favorable rains had improved planting conditions. Liverpool closed firmer after opening 3 points higher to 4 points lower than due. Worth Street was still quiet but prices remained firm. On the 16th inst. March broke through This is the first time a futures contract crossed the 12c. level since the break in March. good demand for March all through the session from local and professional operators. Pool purchases were estimated at 8,000 to 10,000 bales, mostly of March. was 2 points lower to 5 points higher, with May showing the most weakness. Liverpool, after a somewhat disappointing opening, rallied to close unchanged to 1 point lower. Worth Street reports indicated no improvement in business but prices continued firm. To-day prices ended 4 to 18 points higher with nearby deliveries showing the most strength. January reached the 12c. level and March at the close was 12.07c, the high for the day. Pool buying was the dominating factor in the rise. Liverpool was on the selling side. The trade was fixing prices. Unfavorable weather reports also helped.

The official quotation for middling upland cotton in the New York market each day for the past week has been:

May 11 to May 17—

Sat. Mon. Tues. Wed. Thurs. Fri.

Weather Report by Telegraph—Reports to us by telegraph this evening indicate that the most important news of the week was the rainfall in the northwestern part of the cotton belt, which was the only section where rain was considered favorable. Planting has been completed in many areas. Temperatures have been normal to well above and rainfall has been scattered, furnishing conditions are needed to finish planting and for working fields already up.

Dallas Cotton Exchange Weekly Crop Report—The Dallas Cotton Exchange each week publishes a comprehensive report covering cotton crop conditions in Texas, Oklahoma and Arkansas. The current week's report, dated May 13, is as follows:

TEXAS

West Texas

West Texas

Abilene (Taylor County)—Have had lots of rain, week ago, cold weather following set back young cotton and delayed germination of late planting. 65% planted. Some farmers prefer part of crop planted last half of May: some few farmers beginning to plow early planting.

Ballinger (Runnels County)—The east one-half of our county is in good condition as to moisture. The west one-half sufficient moisture for bringing up cotton and feed but will need rain within 10 days to carry it on. Underground season not as good as we would like to have. Estimate 75% planted, Big Spring (Hayard County).

up cotton and feed but will need rain within 10 days to carry it on. Underground season not as good as we would like to have. Estimate 75% planted, 50% up.

Big Spring (Howard County)—Cotton planting is being rapidly completed here and in portions of the county it is coming up or is already up to a fair stand. There is some complaint of cotton not coming through the surface on account of cold weather and a few small districts which have not yet had sufficient moisture for planting purposes. We do not believe there will be any material change in acreage.

Clarendom (Donley County)—Moisture insufficient for planting. Need general soaking rains. Lands well prepared, no cotton planted yet. Ideal planting time beginning Monday. Without rains doubtful if can get cotton up to stands. Most farmers likely to wait for more rain before planting. If plant by 20th or 25th will be plenty of time as we have good ground season. Acreage most likely to be increased probably 5%.

Quanah (Hardeman County)—Weather past week has been clear with very little wind, nights are still unseasonably cold. Very little cotton has been planted so tar. Moisture in this immediate territory is adequate to start crop. On account of lack of subsoil moisture we will need rains through the season at the right time to make a normal yield. Planting seed are plentiful and mostly of good quality.

Shamrock (Wheeler County)—Warm dry weather has prevailed most of week. It is sprinkling here now (5:20 p. m. 11th). Maximum temperature this week 90 degrees, minimum 54 degrees. Total precipitation recorded in Shamrock since Oct. 1 1934 about 3.42 ins. No sub-soil moisture. A few acres of cotton planted this week but there is not sufficient moisture to sustain the plant after germination. Some hail 25 miles southwest last night. Light shower at Wellington, dust storm here.

Snyder (Scurry County)—About a week ago half inch rainfall all over the county, which was of a shower nature accompanied by high winds and dust storms. There has been no rain in this distric

No germination weather whatever, crop prospects very poor. About 25% planted, same should be replanted.

Sweetwater (Nolan County)—80% planted, 10% up. 8% increase in acreage over last year. Too cool. Spotted sections to replant as there were heavy rains this last week, however rains were not general, but this county has plenty moisture.

North Texas

Plenty moisture.

North Texas

Clarksville (Red River County)—About 55% planted. 35% up, and about 20% to be replanted. Growth is very slow, plants sickly. Crop is about three weeks late. Some overflow damage. Too much rainfall, very hard rainfall Friday. Nothing has been done in the fields this week.

Dallas (Dallas County)—Planted 50%, much replanting. Wet and cold, had good rain. Germination slow, 50% up, growth poor and plants sickly. Crop two weeks late. A few fleas.

Forney (Kaufman County)—Weather past two weeks very unfavorable for cotton, too wet and very cold for the season. 75% planted, of which 50% must be replanted account poor stands. Some cotton up is now dying due to wet and cool weather.

Greenville (Hunt County)—Cotton about three-fourths planted in blackland, and one-third in sandy land. A large amount will have to be replanted. It inches since first of year. Ground too wet to replant just now.

Honey Grove (Fannin County)—Cotton planting delayed again this week due to wet ground. Some few farmers working to-day, Saturday. 50% of the cotton already planted will have to be replanted. If weather continues fair, practically all farmers will be able to start planting Monday. Condition of soil wet and weedy.

Paris (Limar County)—Rains still delaying work, cotton yet to be planted in many parts of county. Early planted is growing but needs sunshine and cultivation. All fields too wet for work to be done and looks like won't get in fields before 15th.

Terrell (Kaufman County)—The farmers have taken advantage of the dry weather this week and have been planting where the ground was dry enough. About 70% to 75% is planted and unless we have another rainy spell, practically all will be planted within another week. Crop is two or three weeks late, so we need warm dry weather in order for them to catch up as near as possible.

Texarkana (Bowie County)—(May 9th) From north of DeKalb to Texarkana Red River estimated overflowing 75,000 acres cultivated land.

Central Texas

Central Texas

Central Texas

Caldwell (Burleson County)—We have had about 10 inches of rain in past 10 days and ground now thoroughly wet. Need dry weather to work out crop and finish planting. Crop about 90% planted with 80% up. 5% to 10% to be replanted account heavy rains. Crop in good state of cultivation except grass beginning to grow, and will need work at once.

Cleburne (Johnson County)—Planted 20%, 75% replanting, washing rains, too cold. Germination poor, 10% up, growth poor, plants sickly. Crop two weeks late, 5-inch rain.

LaGrange (Fayette County)—Farmers have been unable to get into their fields since April 19 due to intermittent rains. Fields are becoming very grassy. We need two weeks of sunshine as about 20% of cotton will have to be replanted.

fields since April 19 due to intermittent rains. Fields are recomming vary grassy. We need two weeks of sunshine as about 20% of cotton will have to be replanted.

Lockhart (Caldwell County)—(May 11). Last Sunday all creeks overflowed. Thursday this county had from one-half to two inches of rain. We need two weeks sunshine and warm nights. No one can tell anything about cotton until it is worked out. Stands are good. 5% to replant.

San Marcos (Hays County)—Too much rain and cool weather, need three weeks dry warm weather. About 5% replanting to be done as soon as fields are dry enough. Have plenty planting seed.

Waxahachie (Ellis County)—Rainfall about 4 inches over the last weekend delayed planting and caused washing in places, followed by hot dry weather, which is highly favorable. About 50% planted, 40% up, and 25% to be replanted. It will be 3 or 4 days yet before planting can be resumed, causing a delay in all of about 10 days. Fields are beginning to get grassy.

East Texas

East Texas

Longview (Gregg County)—Little change in crop conditions this week. Due to excessive rain, about 15% will have to be replanted. No cotton chopped to date due to wet ground.

Marshall (Harrison County)—Too much rain last week delayed planting and necessitated some replanting. Conditions on the whole about 10 days earlier than last year. Planting 85% complete and about 5% to replant. Stands fair to very good.

Sulphur Springs (Hopkins County)—Little change since last week; hard rains nearly every day, far too much moisture in the ground. Weather too cool. Very little cotton coming up, indicating that probably more than half of the planting will have to be done over.

Tyler (Smith County)—Replanting, due to excessive rain and high water, progressing rapidly. General conditions much better than last week, due to clear weather. Estimate of 20,000 bales for the county seems to be about correct.

South Texas

South Texas

Corpus Christi (Nueces County)—During this week-end all this territory and Valley has been covered by heavy rains. Mueces and San Patricio counties were thoroughly covered and in the view of the writer were surely of benefit as fleas were appearing on cotton and the rains washed them off, destroying them, especially as rains were followed by warm sunshine. As rule, cotton growing nicely and generally from 9 inches to about 2 feet high. Plenty of squares and occasional bloom. All this section, fields clean and looks like immease cotton crop. Some replanting will have to be done in parts of Goliad County account leafworms. The Corpus Christi sections continue to make good progress. All needed now is warm nights and plenty of sunshine.

Gonzales (Gonzales County)—About 2-inch rain this week, need dry weather. Not much work in fields this week, clear and warm to-day. Chopping and cultivating will be renewed coming week, cotton plant does not look good, nights too cool. Considerable cut-worm complaint. Some fields badly in need of cultivation and number of farmers report that they will not replant where needed, getting late to finish planting. Will possibly make about same acreage as last year.

Harlingen (Cameron County)—Weather past week has been favorable to cotton. Will need clear hot weather coming week. 100% planted, 100% up, none to be replanted. Owing to rains have some grassy cotton. We have lots of cotton with bolls on it now. Will be about 15% to 25% increase in acreage.

San Antonio (Bexar County)—During past 10 days this section has had far

acreage.

San Antonio (Bexar County)—During past 10 days this section has had far too much rain, fields are boggy and some are beginning to get grassy. Last night from 2 to 6½ inches fell throughout our whole territory, washing and drowning out much young cotton which will have to be replanted. Hail practically destroyed a strip 6 to 7 miles wide in Bexar County last night which will all have to be replanted. Cotton looks droopy, especially in low places, rains and cool nights are retarding its growth. Need dry hot weather during next few weeks.

OKLAHOMA

Cushing (Payne County)—Planting about completed in this section. Ground in fine condition. Some cotton coming up. Is on average about 2 weeks late.

Hugo (Choctaw County)—No work this week due to heavy rains. Replanting necessary in all sections of this territory. Much bottomland overflowed and uplands badly washed. In south and southeastern portion up to 40% had been planted, but further north little has been planted, and destructive rains continue.

Mangum (Greer County)—Inch rain week ago helped materially, but several inches more would be welcomed. Possibly 15% planted past week and will get in full swing the coming week. Weather is warm enough and more moisture needed our only complaint.

McAlester (Pittsburg County)—Weather past week favorable but most fields still too wet to plant from torrential rains of week before last. About 25% planted and 5% up, and that is looking yellow and sickly. Acreage will probably be same as last season.

ARKANSAS

ARKANSAS

ARKANSAS

Ashdown (Little River County)—Very little farm work this week, heavy rains over week-end and again yesterday (Friday). Quite a percent of Red River Valley as well as other streams in this section under water. Impossible at this writing to give percent to be replanted.

Convay (Faulkner County)—Still continue very late in getting started. About 20% planted. Should be two-thirds to three-fourths planted. Considerable of the planted cotton will have to be replanted. Seed scarce and inferior. Less fertilizer will be used this year than at any time since the County started to fertilize.

Little Rock (Pulaski County)—Excessive rains and subnormal temperatures of 8 to 12 degrees at close of previous week interfered seriously with planting and growth of cotton which was up. Is feared much replanting will be

necessary. Little farm work accomplished in bottom sections during week as soil continued thoroughly water-soaked, but conditions in uplands were better last three days. Planting is 2 weeks late in lowlands, 1 week behind normal in uplands. All farmers report warm dry weather for 2 weeks badly needed for completion of planting and replanting. In some sections planting is 90% completed, while others only about 40 to 50%. Excess rainfall since Jan. 1 amounts to 24 inches, however, top soil generally reported in good condition. No reports so far of inadequate supply of seed, but further destruction might become serious matter.

Pine Bluff (Jefferson County)—Have had too much rain, much replanting is going on. Weather past three days ideal. We need a month of it.

Searcy (White County)—Too much rain last of April and first week of May kept farmers from planting very-much cotton and they had very little chance between rains to prepare ground. Past three days have been real summer days and they are busy getting soil in good condition and planting.

Receipts from the Plantations—The following table.

Receipts from the Plantations-The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

The above statement shows: (1) That the total receipts from the plantations since Aug. 1 1934 are 4,139,457 bales; in 1933-34 were 7,111,389 bales and in 1932-33 were 8,159,269 bales. (2) That, although the receipts at the outports the past week were 21,061 bales, the actual movement from plantations was nil bales, stock at interior towns having decreased 24,905 bales during the week.

World's Supply and Takings of Cotton-The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Aug. 1 for the last two seasons from all sources from which statistics are obtainable; also the takings or amounts gone out of sight for the like period:

Cotton Takings, Week and Season	193	4-35	1933-34		
week and Season	Week	Season	Week	Season	
Visible supply May 10Visible supply Aug. 1American in sight to May 17. Bombay receipts to May 16Other India ship'ts to May 16. Alexandria receipts to May 15. Other supply to May 15.	6,038,219 97,843 94,000 6,000 12,000 12,000	6.879,719 8,474,403 2,144,000 673,000 1,462,200	8,335,074 143,147 60,000 23,000 13,000 11,000	2,037,000 758,000 1,657,400

* Embraces receipts in Europe from Brazil, Smyrna, West Indies, &c. a This total embraces since Aug. 1 the total estimated consumption by outhern mills, 3,825,000 bales in 1934-35 and 4,074,000 bales in 1933-34—kings not being available—and the aggregate amounts taken by Northern ad foreign spinners, 10,412,310 bales in 1934-35 and 12,456,447 bales in 933-34, of which 5,383,110 bales and 8,096,047 bales American.

b Estimated.

India Cotton Movement from All Ports-The receipts of India cotton at Bombay and the shipments from all India ports for the week and for the season from Aug. 1 as cabled, for three years, have been as follows:

May 16

1932-33

Recei	ipts at—		Week	Aug. 1	Week	Since Aug. 1	Week	Since Aug. 1
Bombay			94,000	2,144,00	60,000	2,037,00	64,000	2,262,000
Exports		For the	e Week			Since A	ugust 1	
From—	Great Britain		Jap'n& China	Total	Great Britain	Conti- nent	Japan & China	Total
Bombay— 1934-35 1933-34 1932-33 Other India—		2,000 3,000 8,000	35,000 96,000 31,000	99,000	56,000 57,000 40,000	279,000 288,000 247,000	664,000	1,374,000 1,009,000 1,213,000
1934-35 1933-34 1932-33	1,000	6,000 23,000 5,000		23,000	194,000 219,000 97,000	479,000 539,000 333,000		673,000 758,000 4 30,000
Total all— 1934-35 1933-34 1932-33	5,000 4,000	8,000 26,000 13,000	35,000 96,000 31,000	122,000	250,000 276,000 137,000	758,000 827,000 580,000	664,000	2,047,000 1,767,000 1,643,000

According to the foregoing, Bombay appears to show an increase compared with last year in the week's receipts of 34,000 bales. Exports from all India ports record a decrease of 74,000 bales during the week, and since Aug. 1 show an increase of 280,000 bales.

Alexandria Receipts and Shipments-We now receive weekly a cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years:

Alexandria, Egypt, May 15	1934-35		193	33-34	1932-33		
Receipts (cantars)— This week Since Aug. 1		30,000 10,588	65,000 8,269,807		60.000 4,848,128		
Exports (Bales)—	This Week	Since Aug. 1	This Week	Since Aug. 1		Since Aug. 1	
To Liverpool To Manchester, &c To Continent and India To America	14,000	119,359 130,937 633,107 35,062	5,000 1,000	241,720 159,943 580,311 67,821	6.000	132,746 101,606 408,803 32,389	
Fotal exports	14,000	918,465	6,000	1049795	23,000	675.544	

Note—A cantar is 99 lbs. Egyptian bales weigh about 75 ν lbs. This statement shows that the receipts for the week ended May 15 were 60,000 cantars and the foreign shipments 14,000 bales.

Manchester Market-Our report received by cable tonight from Manchester states that the market in both yarns and cloths is steady. Demand for foreign markets is improving. We give prices to-day below and leave those for previous weeks of this and last year for comparison.

BREADSTUFFS

Friday Night, May 17 1935.

Flour demand showed no improvement but prices were steady. Late in the week bakery grades were moved up 10c. per barrel locally in response to the advance in grain. Rye offerings were raised a like amount and family patents were maintained at previous levels.

Wheat after a momentary show of strength in the early trading reacted on the 11th inst. and ended ½ to 13%c. lower. The Government report showed no material improvement in crop prospects and shorts hastened to cover in the early trading but on the rise heavy liquidation set in and this with stop-loss selling caused a sharp setback. On the 13th inst. there was a further decline of 1½ to 15%c. on scattered selling and May liquidation stimulated by good scattered selling and May liquidation stimulated by good rains over the belt, particularly in the dry sections of the Southwest, where further rains were indicated. Mill buying and short covered checked the decline late in the session. On the 14th inst. prices ended 3% to 5%c. lower with the drought in the Southwest apparently broken. Rains fell over the entire winter wheat belt and in some sections of the Northwest. Winnipeg closed 3/4 to 1/8c. higher but Liverpool was weaker.

On the 15th inst. prices ended ½ to ½c. higher on buying owing to a fear that the market is oversold. There was no incentive in the news to buy. Shorts covered and flour mills were removing hedges against sales of flour. Winnipeg closed weaker and Liverpool declined ¼ to ½c. lower. Buenos Aires was steady. Foreign markets, however, had little influence on the market. Wheat planting in Canada is said to be three weeks later than normal and Argentina advices said moisture is needed to germinate the new crop advices said moisture is needed to germinate the new crop being seeded. To-day prices declined 2½ to 2½c. lower on more favorable weather and crop reports from the Southwest and Northwest. The decline in silver had a bearish west and Northwest. The decline in silver had a bearish effect. The open interest at Chicago yesterday totaled 69,736,000 bushels.

DAILY CLOSING PRICES OF WHEAT IN NEW YORK DAILY CLOSING PRICES OF WHEAT FUTURES IN CHICAGO

DAILY CLOSING PRICES OF WHEAT FUTURES IN WINNIPEG Sat. Mon. Tues. Wed. Thurs. Fri. 87½ Holi- 86½ 86½ 87½ 86% 88½ day 87% 87% 88% 87%

Corn followed the action of wheat on the 11th inst. and ended with net losses of \(\frac{5}{8} \) to 1\(\frac{3}{8} \) c. On the 13th inst. prices closed \(\frac{3}{4} \) c. lower to \(\frac{3}{8} \) c. higher, reflecting the weakness in wheat. Short covering and Far Eastern buying on the belief that continued wet weather is delaying planting in the belt caused a late rally. The visible supply in this country showed a further shrinkage of 1,392,000 bushels. On the 14th inst. prices ended \(\frac{1}{4} \) to \(\frac{5}{8} \) c. higher on buying stimulated by reports of delayed planting owing to muddy conditions of corn fields. A report from Springfield, Ill., said that it was too wet for planting operations and that about a week of sunshine was needed to enable farmers to work in the field. to work in the field.

On the 15th inst. corn showed less independence and prices closed ½ to ¾c. higher. The weather was more favorable for field work. To-day prices ended ½ to 1¾c. lower owing more to a lack of demand than to anything else. The open interest at Chicago yesterday was 39,623,000 higher holes.

Agricultural Department Report on Winter Wheat, Rye, &c.—The Department of Agriculture at Washington on May 10 issued its crop report as of May 1 1935. This report estimates the abandonment of winter wheat at 31.2% leaving the acreage remaining to be harvested at 30,497,000 acres as compared with 32,945,000 acres harvested in 1933. Last year the abandonment of winter wheat acreage was 21.3% and the 10-year average (1922-31) 12.6%. The May 1 condition is placed at 75.3% this year as compared with 70.9% of normal on May 1 1934, 66.7% on May 1 1933 and no less than 90.3% on May 1 1931, and a 10-year average condition of 81.2%. The estimated production of winter wheat is now estimated at 431,637,000 bushels, which compares with a harvest of 405,034,000 bushels last year and an average five-year (1928-32) production of 618,186,000 bushels. Below is the report:

As the planting season opens it is apparent that crop prospects in the country as a whole are much better than at this time last year, but they are still substantially below average, due chiefly to carryover effects of last year's widespread drought. Desperately dry conditions still prevail in the Southern Great Plains area, including portions of five States in the area

surrounding the western tip of Oklahoma. In the northern half of the Great Plains areas most sections have had enough rain to meet current needs, but the supply of subsoil moisture had enough rain to meet current needs, but the supply of subsoil moisture had not innely rains during the growing season. Most of the irrigation Mattee had not not meet the subsoil moisture had not not been deependent than usual on timely rains during the growing season. Most of the irrigation Mattee had had rair rains and conditions average much botter than at this time last year, but some projects still have less than the usual supply of irrigation water in reserve. In California, however, ranges and pastures are the best in many years and prospects for most field crops appear to be excellent. In the eastern half of the country crop the eason.

About 13,839,000 acres of the wheat sown last fall have been abandoned, practically all of the abandonment being in the dry Southwestern area. In other sections prospects for winter wheat are about average for this season of the year and production is expected to total 431,637,000 bushels, which would be about 7% above last year's production but about 23% below the proceeding to years. The rye crop is expected to excellent of uring the preceding ten years. The rye crop is expected to excellent of uring the preceding flory years.

The condition of farm pastures on May 1, as reported by crop correspondents, averaged 69.6% compared with 66.2 last year. With the exception of last year, the condition is lower than in any previous May in 50 years. The condition of ranges was even lower than in any previous May in 50 years. The condition of ranges was even lower than in any previous may in 50 years. A server of the country. Most of the northern range and pasture areas have been helped by rains and snows during recent weeks and need only a few weeks of warm weather to bring on the grass. Over most of the drought area, however, stands of grass in meadows, pastures and ranges have been more or less th

Wheat—Production of winter wheat, based on conditions as of May 1 1935, is forecast at 431,637,000 bushels, as compared with a production of 405,034,000 bushels in 1934 and the five-year (1928-1932) average production of 618,186,000 bushels. Of the acreage of winter wheat sown in the fall of 1934, it is estimated that 31.2% has been or will be abandoned, leaving 30,497,000 acres for harvest. The acreage harvested in 1934 was 32,945,000 acres and the five-year (1928-1932) average acreage harvested was 39,454,000 acres. Most of the abandonment occurred in the southwestern Great Plains area, where the crop was sown under unfavorable conditions which have not yet been relieved.

aroundered occurred in the southwestern Great Frams area, where the lieved.

As compared with the April forecast, reductions in prospective production are largely accounted for by deterioration in Kansas, Oklahoma, Missouri, Illinois and Indiana. The reduction in these States is partily offset by improvement in the Pacific Coast States and in the northern Great Plains. The condition of the crop remaining for harvest is reported at 75.3% of normal as compared with 70.9% on May 1 1934 and the 10-year (1923-1932) average May 1 condition of \$1.2%.

The indicated yield per acre on the area remaining for harvest does not vary materially from the average in any area except that between the Mississippi River and the Rocky Mountains. In this area, however, below average yields are in prospect in all States except Minnesota.

Rye—Rye production for 1935 is forecast at 40,356,000 bushels, compared with 16,040,000 bushels produced in 1934 and the five-year (1925-1932) average of 38,655,000 bushels. Prospective production is the highest since 1932, when it was 40,639,000 bushels.

The acreage of rye remaining for harvest, now estimated at 3,474,000 acres, compares with 1,937,000 acres harvested in 1934 and the five-year average of 3,296,000 acres harvested.

Seedings in the fall of 1934 were 13.3% in excess of the seedings of 1933 and harvested acreage is expected to oe 79% above the acreage harvested last year. Considerable acreage of rye is ordinarily used as pasturer or is turned under for soil improvement. This acreage is included in the seeded acreage, but not in the acreage for harvest.

The condition of the rye crop on May 1 was \$2.0%, compared to 67.8% a year ago and the 10-year May 1 average of 84.4%. Conditions are approximately average in nearly all States, though North Dakota, Kansas, Oklahoma, Texas, Wyoming and Colorado are notably below average.

Oats (Southern States)—The May 1 condition of oats in the South Atlantic and South Central States, reported at 68.6% of normal, is 3.5 boints below

proximately average in nearly all States, though North Dakota, Kansas, Oklahoma, Texas, Wyoming and Colorado are notably below average.

Oats (Southern States)—The May 1 condition of oats in the South Atlantic and South Central States, reported at 68.6% of normal, is 3.5 points below the figure reported on May 1 1934 and 3.7 points below the nine-year (1924-1932) average. Texas, with approximately 39% of the total acreage in the ten Southern States, has a condition of 61, which is 13 points lower than one year ago but eight points above the nine-year (1924-1932) average. Oklahoma, the next most important Southern State in acreage, has a condition of 71% of normal, two points above last year and four points lower than the nine-year (1924-1932) average.

Hay—The condition of tame hay on May 1 was 75.4% compared with 69.9% in 1934, 75.3% in 1933 and a May 1 average of 83.1% for the ten years 1923-1932. The condition of tame hay is below the ten-year average in 35 States and is 10 to 20 or more points below in much of the area between the Mississippi River and the Rocky Mountains. The only large area in which the May 1 condition of tame hay is reported above average is a strip extending from southern New England to Louisiana. The present low condition, together with the prospects of a very moderate acreage because of loss of seedings from the 1934 drought, indicates another small crop of tame hay this year.

Stocks of old hay on farms on May 1 are estimated at 4.512,000 tons—2.941,000 tons less than the quantity on farms May 1 1934 and less than half the five-year (1928-1932) average of 9.666,000 tons. In most of the Northern Plains States stocks of old hay this year are less than one-fourth of the usual stocks on May 1.

Peaches—Reports for ten Southern States on May 1 indicate a 1935 peach crop of 17.118.000 bushels in these States, 11% above the 15.415.000 bushels produced in 1934 and 22% above the five-year average (1928-1932) of 14.045.000 whels. The May 1 condition in the ten States was reported at 68.2% compared with 73.2% on April 1. The average May 1 condition for the period 1924-1932 was 59.8. Although condition declined during April, chiefly due to late freezes, a production above average is indicated in every State except Florida, Arkansas and Louisiana. Curculio infestation is reported to be unusually bad in Georgia and may cause considerable loss unless weather conditions are favorable for eradication during the rest of the season.

Definite condition reports were secured only from the Southern States. General reports available indicate that in the States north and east, starting with the Virginias, peach crop prospects are unfavorable, although more promising than in 1934. Elsewhere in peach areas of importance, prospects range from good to excellent with the exception of California, which reports much more than usual infestation from peach leaf curl. It seems evident that there will be less tonnage harvested in California than in 1934, since the extensive curl-leaf injury may result in much distorted fruit and a reduced tonnage of No. 1 fruit available for canning and market.

Early Potatoes—The condition of the early potato crop improved during April in most of the Southern States, especially in Alabama and South Carolina. There was a decline in a few States but for ten Southern States as a group the reported May 1 condition averaged 77.3% of normal compared with 76.2% on April 1. On May 1 a year ago the condition was 76.9% and the average May 1 condition from 1924 to 1932 was 75.8%.

Foreign Crop Prospects—The latest available information pertaining to cereal crops in foreign countries, as reported by the Foreign Service of the Bureau of Agricultural Economics to the United States Department of Agriculture at Washington, and given out on May 10, is as follows:

at Washington, and given out on May 10, is as follows:

Wheat—The wheat acreage for the 1935 harvest in the 25 countries for which reports are available is 172,630,000 acres compared with 175,313,000 acres for the 1934 harvest, when these countries represented about 85% of the Northern Hemisphere wheat acreage exclusive of Russia and China. The winter wheat area in Russia, which is not included in the above totals, is estimated at 31,800,000 acres compared with 29,900,000 acres last year. A reduction of about 3% is indicated in the 1935 wheat area in Canada. The spring wheat acreage indicated by reports of farmers' intentions to plant as of May 1 may be about 22,808,000 acres. The winter area remaining for harvest is estimated at 537,000 acres. If farmers carry out their intentions to plant spring wheat, the total 1935 area will be 23,345,000 acres compared with 23,985,000 acres in 1933 and 25,991,000 acres in 1933. The season is very late except in Ontario, but with two weeks of warm, clear weather prospects would be very good.

In Europe estimates of acreage, excluding Russia, are about 2% greater than last year. The crop came through the winter well in most countries. Considerable winter damage was reported in Estonia and Latvia but these countries are not important wheat producers. Crop reports from the central European and Danubian countries are generally favorable but unseasonably cool weather has retarded normal development in both the Danube and western European countries. Drought has caused considerable damage to the Spanish crop and has reduced the outlook in Italy where present prospects indicate only average yields. The sowings of all spring

crops in the Soviet Union up to April 5 were about 3,000,000 acres below last year's sowings to the same date, but exceeded the acreage seeded in any of the years 1930-1933. The smaller area sown this season is attributed to the delayed spring weather.

The wheat acreage in North Africa is approximately the same as last year, but hot, dry weather has reduced the prospects of a good harvest, especially in Morocco, where conditions are reported to be very poor and indicate a crop about half that produced last year.

The 1935 wheat crop in India is forecast at 378,896,000 bushels, which is the largest first estimate recorded since 1924. Trade reports, however, suggest that the crop is somewhat overestimated at present. The April forecast of the 1934 crop was 370,757,000 bushels but the final estimate was reduced to 349,365,000 bushels, due to the unfavorable weather conditions at harvest time.

The winter wheat acreage of China was reported to be somewhat above that of 1934, according to the Shanghai office of the Foreign Agricultural Service. Some deterioration in the crop prospects in the Yangtze Valley resulted from excessive rainfall in early April, but if good weather is experienced during the remainder of the season the crop is expected to be about average.

Weather Report for the Week Ended May 15-The general summary of the weather bulletin issued by the Department of Agriculture, indicating the influence of the weather for the week ended May 15, follows:

Department of Agriculture, indicating the influence of the weather for the week ended May 15, follows:

The weather continued cool in Northern States, especially the Northwest, but the southern half of the country had above normal warmth. Chart I shows that the weekly mean temperatures from the Ohio and lower Missouri valleys southward and southwestward ranged from 3 deg. to as much as 6 deg. above normal, except very locally. On the other hand, the Northwestern States had another abnormally cool week, averaging, over considerable areas, from 6 deg. to 9 deg. below normal temperature. The chart shows that freezing weather occurred in the interior of the Northeast, but through the Central portions of the country the freezing line was confined to extreme northern districts, except that in the Western Plains 32 deg. was reported as far south as Valentine, Neb. Chart II shows that rainfall was again widespread and mostly in substantial amounts in nearly all central and northern districts from the Plains eastward. Most parts of the northern Ohi Valley had an inch or more of rain, while in the lower Missouri Valley many stations reported from 1 to more than 3 inches. Kansas received the best rains in a long time, the eastern half of the mate having weekly totals ranging from 2 times that the state of th

SMALL GRAINS—In the Ohio Valley progress and condition of winter wheat were fair to very good, but in some places, too, rank growth was noted, while in others the crop is rather yellow due to lack of sunshine; many fields are jointing and some are heading in southern parts. Wheat made mostly fair growth in Missouri and Iowa, but it was also too rank in some sections and turning yellow. Generous rains were very helpful in Kansas and Nebraska, with the soil moisture now sufficient in the latter State, while in the former the crop is mostly in boot in the southeast, with heads forming. Winter wheat is in fair to very good condition in eastern Oklahoma and Texas, while in South Dakota the crop is reported 8 inches tall. In the dry southwestern area there was some relief by rains during the week, but in most parts little wheat remains, especially in extreme western parts of Oklahoma and Kansas, where there was nearly complete abandonment. In most of the Northwest winter grains are doing very well, although warmth would be helpful and moisture is needed locally. In most of the East grains made fair to good growth, with harvest begun in the Southeast.

In the spiing wheat region seeding made fair progress in North Dakota, while it is being rushed in South Dakota; work was delayed in Minnesota and some parts of Montans. In eastern South Dakota most grains have been planted and look fine where up; spring wheat is 5 to 6 inches tall where not pastured. In northern parts of the belt early-sown grains are mostly up to good stands and color. Spring oats are practically all up in central valleys, but growth was rather slow in places and warm, sunshiny weather would be very helpful. Winter oats are ripening in the Southeast, with harvest begun in some parts.

CORN—Because of the continued wetness of the soil, very little corn was planted during the week east of the Missouri River. In Kentu ky planting made better progress, but in the northern Ohio Valley States only local seeding was accomplished on some uplands. In Missouri

The Weather Bureau furnished the following resume of conditions in the different States:

The Weather Bureau furnished the following resume of conditions in the different States:

Viginia—Richmond: Mild temperatures and moderate precipitation, except light in southeast, favored growth and planting. Pastures and meadows excellent: winter grains improved. Planting cotton nearing completion on seaboard and well advanced in south. Potatoes doing well; transplanting tobacco and sweet potatoes begun in south.

North Carolina—Raleigh: Moderate temperatures, ample sunshine, and beneficial showers made a generally favorable week for growth of crops, though more rain needed in portions of east. Progress of cotton mostly good; blanting continues in upper sections; mostly good stands, though some replanting in east. Much tobacco transplanted; part needing more rain. Corn, potatoes and small grains doing well.

South Carolina—Columbia: Local light to heavy showers, average sunshine and normal temperatures promoted germination and growth of all crops, except in dry areas of central and northeast. Cotton stands mostly good, except in dry localities, with planting good progress in north and cultivation good elsewhere. Early corn, truck, and minor crops generally good growth.

Georgia—Atlanta: Progress of cotton and corn mostly good, with warmer weather and good rains, though moisture insufficient in a few south-central counties. Chopping cotton fair to good advance in middle and south; still planting in north. Harvesting of wheat, oats and potatoes begun. Weather very favorable for tobacco.

Florida—Jacksonville: Cotton condition and progress good; chopping fair advance. Corn growing fast; oats ripening. Potatoes and sweet potatoes fair to good. Tobacco excellent. Truck good.

Alabama—Montgomery: Soil wet first of week, but dried rapidly. Work good progress except locally slow in north. Cotton planting slow to fair advance in north, but finished elsewhere; chopping fair to good progress, while cultivation very good in middle and south; stands mostly good. Corn good stands and growth. Oats ripening; condition mostly

to fair advance in north, but finished elsewhere; chopping fair to good progress, while cultivation very good in middle and south; stands mostly good.

Mississippi—Vicksburg: Progress of corn and cotton generally poor first half of week as affected by cool nights in north and wet soil throughout; progress thereafter of germination and growth fair to very good, with condition of cultivation slow. Progress of gardens and truck fair.

Louisiana—New Orleans: No rain except local light to moderate showers in southeast, favorable, but heavy to excessive falls at end of preceding week made soil too wet for cultivation greater part of this week and much grass in fields. Some cotton replanting in north and central; condition of crop fair to fairly good. Progress of corn fair, except for previous local washing rains; condition mostly fair to very good; cultivation backward.

Texas—Houston: Averaged slightly warm, but nights rather cool. Moderate to heavy rains in central and light to moderate in extreme south and extreme northwest where badly needed; elsewhere falls light and widely scattered. Cotton made slow growth due to cool nights and much remains to be planted or replanted in northeastern quarter; fields need cultivation generally. Corn, oats, wheat and truck average fair to good, though some local damage to corn and truck by high winds and hail in south. Ranges and cattle mostly in good condition.

Oklahoma—Oklahoma City: Moderate to excessive rains delayed farm work in southeast and south-central, but will prove very beneficial in north and west portions; some crops washed out. Only fair advance in planting cotton and much remains to plant and replant; too cold for growth. Progress and condition of corn poor to fair; some replanting necessary. Oats fair to good and some heading. Some cuttings of alfalfa damaged by rain, but growing crop generally excellent. Progress and condition of winter wheat very poor to poor in much of west, but fair to very good elsewhere; heavy abandonment in northwest and extreme west, an

and truck.

Tennessee—Nashville: Farm work backward generally, but excellent progress during week, except on lowlands. Progress and condition of early planted corn excellent; mostly planted in some districts, but less than one-fourth seeded in others. Planting cotton good advance and some up to good stands; chopping fair progress; warmth favorable. Wheat heading; condition mostly very good. Setting tobacco and sweet potato plants progressing.

heading: condition mostly very good. Setting tobacco and sweet potato plants progressing.

Kentucky—Louisville: Heavy rains in northeast stopped plowing, otherwise favorable week, with general improvement in farm operations. Corn planting commenced in north and well advanced in south; retarded by necessity of preparing soil. Tobacco plants improved: some nearly ready to transplant. Progress and condition of winter wheat very good to excellent on uplands, but fair on flatlands where still rather yellow, but some improvement; heading generally in south.

DRY GOODS TRADE

New York, Friday Night, May 17 1935. While retail business early in the period under review continued to make a rather disappointing showing, later in the

week a change for the better appeared to set in. In part, the improvement was due to more favorable weather conditions but, quite likely, better reports from the security markets where a wave of inflationary sentiment has made its appearance, were a contributing factor in stimulating consumer buying. In the metropolitan district renewed complaints about the detrimental effects of the local sales tax were heard, and they were substantiated by reports that while the New York unit of one department store concern showed a decline in the dollar volume, the New Jersey establishment of the same firm recorded a small gain over last year. Sales of local stores for the first half of May are anticipated to reveal a loss of between 3 and 5%, as compared with last year but hopes are expressed that results expected for the second half of the month will more than make up this loss. Sales of department stores the country over during the month of April, according to the compilation of the Federal Reserve Board, showed a gain of 12% over April 1934, with the New York district reporting an increase of only 6%. For the first four months of the current year, a gain of 3% for all stores is shown, while New York disclosed a loss of 2% for the project.

2% for the period.

Trading in the wholesale dry goods markets continued very quiet, with retailers operating cautiously, partly on account of disappointing consumer response, and partly in view of the various uncertainties overhanging the market, such as the fate of the processing tax, the extension of the NRA and the attitude of the Government with reference to the loan policy for the next cotton crop. Orders by whole-salers were confined to minor fill-in lots. Prices in general held fairly steady, although some weakness cropped out in wide sheetings and in wash goods. With security markets reflecting a growing inflation psychology, an early turn for the better in wholesale trading is looked for, inasmuch as stocks of jobbers as well as of retailers are said to be in need of replenishment. Business in silk goods showed moderate improvement in washable sports fabrics. A slightly better call existed for greige goods for Fall shipment. Trading in rayon yarns experienced a decided turn for the better, with more inclination being shown on the part of millmen to cover forward requirements. Shipments for the current month are expected to show an increase of approximately 75% over April, and stocks of popular numbers are reported

to have undergone a sharp reduction of late.

Domestic Cotton Goods-Trading in print cloths was only moderately active, and prices of some constructions showed slight recessions. Too many major uncertainties are overhanging the market to cause either buyers or sellers to abandon their cautious attitude. While it is admitted that the threatened enactment of the Patman inflation bonus bill may result in a rapid enhancement of values, the possibility of an early demise of the NRA and that of a serious revision of the AAA policies, particularly with regard to the processing tax, were looked upon as containing decidedly deflationary implications. Little stimulus was derived from the raw cotton market, inasmuch as the strength of distant options, caused by purchases of the Government pool, was offset in part by recessions in other months. Towards the end of the week, in line with the growing inflation sentiment displayed part by recessions in other months. week, in line with the growing inflation sentiment displayed in the security markets, buyers appeared more inclined to enter into forward commitments, but the volume of sales remained limited, owing to unwillingness on the part of mills to meet their price ideas. Trading in fine goods continued dull. Moderate activity developed in semi-staple lines and further strength was shown in rayon cloths, with some styles reported in short supply. A steady call existed for curtain materials, and carded piques moved in moderate volume. Closing prices in print cloths were as follows: 39-inch 80's, 834c.; 39-inch 72-76's, 84c.; 39-inch 68-72's, 71/8c.; 381/2-inch 64-60's, 61/8c.; 381/2-inch 60-48's, 5 9-16 to 55/8c.

Woolen Goods—Business in men's wear fabrics continued to give a good account, and price advances ranging from 5 to 7½c. a yard were announced by leading sellers. Most mills are sold up until the end of July, and numerous orders mills are sold up until the end of July, and numerous orders for August and early September delivery have been received. Reports from retail clothing centers continued to make a good showing, with the result that merchants' stocks appear in steady need of replenishment. The general opening of women's wear lines for the Fall season brought a fairly encouraging response on the part of garment manufacturers, although the pending new wage agreement in the remark. although the pending new wage agreement in the women's wear trades appeared to retard business.

Foreign Dry Goods-The call for linen suitings and dress goods continued active, and reports from the retail trade stre sed the satisfactory demand for linen coats and suits. Business in household linens, on the other hand, remained Pronounced strength developed on the burlap negligible. market, and business in spots as well as in shipments expanded considerably. A number of factors were responsible for the increased activity and the rise in quotations, such as the favorable domestic consumption figures for April, reports from Calcutta stating that a virtual corner in the 40-8's existed, and news that jute sowings showed a large reduction and that rains were badly needed in the Central and North Bengal provinces. Domestically lightweights were quoted at 4-70c., heavies at 6.15c.

PUBLIC WORKS ADMINISTRATION MUNICIPAL ALLOTMENTS CHANGED

During recent months many of the municipal subdivisions which had been awarded loans and grants by the Public Works Administration found that they could float their bonds more advantageously in the open market, or that the condition of their various sinking funds warranted their application for cancellation of the loan portion of their public points and the grant sustemarily given by the allotment, utilizing only the grant customarily given by the Federal Government. Recent press releases by the Administration have been laying greater stress on these changes than on announcements of new allotments, and we therefore give below summaries of the latest changes we have received, including increases in allotments because of increased costs of construction. In each case a reduction in the allotment does not affect the amount of the grant, which remains 30% of the cost of labor and materials.

The following announcements were the latest made public by the PWA:

of the cost of labor and materials.

The following announcements were the latest made public by the PWA:

Release No. 1358

Increases in 29 previously awarded loan and grant allotments made from the old public works appropriations were announced to-day by Public World Announced for the following projects were increased:

Fredericksburg. Vs.—Loan and grant of \$380.000 allotted to the State Teachers College for construction of three dormitories and installing boilers increased to \$380.600.

Liden, Texas—Loan and grant of \$38.000 allotted to Cass County for restoring the courthouse, which was damaged by fire, increased to \$433.000.

Farwell, Texas—Loan and grant of \$22.400 for a school building increased to \$23.900 to include an allowance for equipment not provided for in the office of the courthouse, which was damaged by fire, increased to \$43.300.

St. Louis, Mo.—Grant of \$20.000 allotted to the Red River Bridge District for strengthening a bridge increased to \$20.900.

St. Louis, Mo.—Grant of \$104.000 for sewer construction increased to \$136.000 because of increased costs.

Franklin, N. H.—Grant of \$104.000 for sewer construction increased in St. Jouis and J

Release No. 1359

Reductions in 10 loans and grants allotted from the old public works appropriations were announced to-day by Public Works Administrator Harold L. Ickes. These reductions total \$699,200.

Allotments for the following projects have been reduced:
Marion Junction, S. Dak.—Loan and grant of \$24,000 for sewers and a sewage disposal plant reduced to \$22,000, the maximum amount PWA will be able to advance on this project. The town has offered to sell only \$17,500 worth of bonds to secure the loan portion.

Columbus, Ohio—Loan and grant of \$202,000 for two incinerators reduced to \$94,000 because the city has sold in the private investment market \$108,000 worth of bonds that PWA had agreed to buy.

Williamsburg, Va.—Loan and grant of \$650,000 allotted to William and Mary College for a dormitory, administration hall, students' activities building and amphitheatre reduced to \$470,000.

Lloyd, N. Y.—Loan and grant of \$161,000 for a sewer system and sewage treatment plant reduced to \$112,000 because the city has sold \$49,000 worth of its bonds in the private investment market.

Gainesville, \$Ga.—Loan and grant of \$33,400 allotted to Hall County for an almshouse at Gainesville reduced to \$33,300.

Columbus, Ohio—Loan and grant of \$1,618,000 for storm sewer construction reduced to \$1,410,000 because the city has sold \$208,000 worth of bonds in the private investment market.

Long Beach, Calif.—Loan of \$402,000 allotted to the Sisters of Charity of the Incarnate Word for a hospital building reduced to \$300,000 because plans have been modified.

Seymour, Wis.—Loan and grant of \$110,000 for water and sewer systems reduced to \$69,000 because the city now is able to contribute \$55,000 of its own funds.

reduced to \$09,000 because the city of \$16,000 allotted to Jenkins County for a bridge across the Ogeechee River at Herndon reduced to \$14,400.

Waterton, Mass.—Grant of \$15,000 for replacing 2,700 feet of water mains and laying 8,600 feet of sewers reduced to \$7,500.

Waterton, Mass.—Grant of \$15,000 for replacing 2,700 feet of water mains and laying 8,600 feet of sewers reduced to \$7,500.

Release No. 1360

Public Works Administrator Harold L. Ickes to-day announced the changing of 13 more combined loan and grant allotments for local non-Federal projects to grants only at the request of recipients, who have been able to sell their bonds in the investment market and will not need loans from the Government. All of the loans and grants involved in the changes announced to-day were made from the old public works appropriations, and not from the new work and relief appropriation.

The 13 changes announced to-day released \$651,700 for re-allotment to additional projects. A total of \$70,863,500 has been released to date by such changes and reallotted to expand the public works program.

Allotments for the following projects have been changed from loans and grants to grants covering 30% of the cost of labor and materials.

Fargo, N. Dak.—Loan and grant of \$224,000 for a sewage disposal plant changed to a grant of \$224,000. The original allotment for this project was \$785,000. The city first sold \$500,000 worth of bonds in the open market and has completed arrangements to sell the remainder of the issue, enabling PWA to change the allotment to a grant only.

Fargo, N. Dak.—Loan and grant of \$68,000 for a high school building changed to a grant of \$11,000.

Albany. Calif.—Loan and grant of \$75,000 for a school building changed to a grant of \$11,400.

Bainbridge, Ohio—Loan and grant of \$50,000 for a school building changed to a grant of \$12,400.

Bainbridge, Ohio—Loan and grant of \$33,700 for a school building changed to a grant of \$12,500.

Platte City, Mo.—Loan and grant of \$33,700 for a school building changed to a grant of \$12,000.

Dover Mills, N. C.—Loan and grant of \$27,000 allotted to Cleveland County for a new school building at Dover Mills and building an arcade to connect two buildings at Shelby changed to a grant of \$9,700.

Champaign, Ill —Loan and grant of \$83,000 for st

MUNICIPAL ALLOTMENTS RESCINDED

In line with the above changes, the Public Works Administration has been forced to rescind many loans and grants to municipal bodies for various causes, such as unsuccessful bond elections, cancellation of projects, &c. It has been our custom to publish these under their separate headings whenever reported, but for the sake of convenient reference we have gathered together the following latest reports issued from Washington.

The following are the latest announcements received:

Release No. 1362

Revocation of 11 non-Federal loans and grants awarded from the old public works appropriations was announced to-day by Public Works Admissistrator Harold L. Ickes.

Allotments totaling \$1,042,600 for the following projects have been recipied:

public works appropriations was announced to-day by Public Works Admisstrator Harold L. Ickes.

Allotments totaling \$1,042,600 for the following projects have been recinded:

Almont, N. D.—Loan and grant of \$9,400 for street improvements rescinded at the request of the applicant, Sims Township.

St. Louis Co., Minn.—Loan and grant of \$1,700 for road improvements rescinded at the request of the applicant, Beatty Township.

Fort Worth, Texas—Loan and grant of \$650,000 for a library building rescinded because the bond issue was defeated at an election.

Dudley, Mass.—Loan and grant of \$60,000 for an addition to the West Main Street school building rescinded at the request of the town.

Goldendale, Wash.—Loan and grant of \$35,000 for improving the water system rescinded at the request of the town.

Oconto, Wis.—Loan of \$28,000 allotted to the Oconto County and City Hospital Association for an addition to a hospital building rescinded at the request of the town.

Bethel, Vt.—Grant of \$1,800 for street improvements rescinded at the request of the town.

Rutherford County, N. C.—Loan and grant of \$164,700 for improving eleven school buildings rescinded because the county has not proceeded with construction.

Marysville, Wash.—Loan and grant of \$57,000 for improving the water system rescinded because the project has been abandoned.

Mirando City, Texas—Loan and grant of \$19,500 for a new school building rescinded at the request of the applicant.

Lynchburg, Ohio—Loan and grant of \$15,500 for improving the water system rescinded at the request of the village.

NEWS ITEMS

Akron, Ohio—Council Refuses Refunding at More Than \(\sigma_0\)—In connection with the Council's declaration that no refunding program which would cost the city more than 33/4 % interest annually would be acceptable to them, the Akron "Journal" of May 11 stated:

A militant Council majority had set out Saturday to settle the 1934 municipal refinancing problem at not to exceed a 3 ½ % interest bases. Finance Director Charles H. Isbell, commissionered ambassador extraordinary by this same group, is to contact the Ohio bondholders' group and attempt to work out the solution to the refunding problem.

Meanwhile, copies of the Supreme Court order calling on Akron Council and Sinking Fund representatives to appear on May 18 and "show cause why a mandamus should not issue" compelling a tax rate sufficient to produce revenue to pay the 1934 bond maturities and interest had been excepted here by Departy Secretary.

produce revenue to pay the 1934 bond maturities and interest had been served here by Deputy Sheriff George Neal on the Mayor, Councilmen and Sinking Fund Trustees.

Immediate contact is to be made by Mr. Isbell with the Ohio bond-holder spokesmen.

Other major developments in the badly snarled financial situation were:

1. Statement by Mr. Isbell to Councilmen that no additional tax would be levied in Akron if the Supreme Court should find against the city in the bondholders' litigation now on file, but that the levy to meet the bondholders' demands would come from the \$7.50 tax limit for municipal operations, crippling all municipal functions.

2. An overdraft of \$458.000 in the general fund existed as of May 1. including the \$401,000 carried over from last year, and the \$101.000 inherited from the previous Administration.

3. The statement by members of Council, after listening to letters Mr. Isbell has from bond houses and bondholders urging 4½% refinancing of the defaulted 1934 debt, that their spinal columns had been materially stiffened by the writers' opinion that were it not for the "unpleasantness" in Akron bonds could be refunded at less than 4%.

Florida—Homesteads Held Liable for Public Debts—The Tampa "Times" of May 4 carried the following Jacksonville dispatch relative to a decision by the courts that home owners could not be exempted for liability to pay taxes for retirement of public indebtedness:

retirement of public indebtedness:

Federal Judge Halsted L. Ritter to-day had joined the State Supreme Court in ruling home owners cannot escape taxation for retirement of municipal bonds under the homestead tax exemption amendment.

Judge Ritter held removal of homesteads up to \$5,000 from city tax rolls would amount to breach of contract with the bondholders, a violation of constitutional rights.

The Supreme Court recently returned, in substance, the same opinion in an appeal from Jacksonville.

The Federal concurrence came yesterday in a suit by bondholders to collect a \$145,436 judgment against the City of Fort Pierce, based on improvement bonds issued between 1925 and 1930.

Judge Ritter denied the city's motion to quash a writ of mandamus, the city contending the writ sought to compel levies on small homesteads, contrary to the exemption amendment.

"By this amendment," he ruled, "the taxation basis for these bonds has been so substantially shrunk from that existing at the time of their issuance, that wholly inadequate security remains and the impairment of the bondholders' contract is inevitable.

By a split decision in the case of Jesse Boatright vs. the City of Jacksonville, the Supreme Court recently held that where homesteads were originally subject to taxation for retirement of bonds, they could not afterward be exempted. The Court said such action would be breach of contract, a violation of both State and Federal constitutions.

Illinois—House Again Defeats Relief Bill—An Associated Press dispatch from Springfield on May 15 reported as follows on the action of the House of Representatives on that day, in defeating for the fourth time a relief bill providing for an increase in the sales tax from 2% to 3%, needed to obtain Federal aid funds:

Federal aid funds:

The Illinois relief crisis moved a step closer to what officials called "the danger line" to-night as the State House of Representatives failed for the fourth time to adopt legislation designed to end the deadlock.

While more than 2,000 jobless persons protested the relief breakdown in a mass demonstration at Chicago and crowds jammed the House galleries here, a roll call on the key measure was suspended when it became apparent the 102 votes necessary for emergency passage had not been mustered. The unofficial count stood at 90 to 56, in favor of the bill to boost the sales tax from 2 to 3% and thus provide \$3,000,000 a month as the State's share of relief costs.

The vote dashed the hopes of Governor Henry Horner and 1,200,000 relief clients for an early resumption of activities by the Illinois Emergency Relief Commission, which ceased operations Saturday after it had been cut off the Federal allotment lists May 1 because the State had made no provision for raising its relief contribution.

Taking cognizance of the fact that the needy over most of the State would have no more food after this week, Mayor Edward Kelly, of Chicago, and Patrick Nash, national Democratic committeeman from Illinois, planned to confer with the Governor, party chieftains and administration leaders here to-night on the future legislative course.

Louisiana—Special Session Acts Become Effective—New Laws Affect Control of Fund Borrowing and Bond Sales—A dis-patch from Baton Rouge to the New Orleans "Times-Picayune" of May 10 reported as follows on the taking effect of the drastic measures passed at the last special session of the State Legislature, some of which take over full control of the sale of bonds by all political subdivisions in the State, and other borrowings and expenditures by local governmental units:

units:

The Acts of the recent special session of the Louisiana Leg'slature, which, according to Senator W. Scott Heywood of Jefferson Parish, "sew up the bag which Senator Huey P. Long has filled with his dictatorial laws," become effective at noon to-morrow.

The special session of the Legislature at which the Acts were adopted was the lifth since the adjournment of the regular session in July 1934. Under the Acts which become effective to-morrow, Senator Long, through boards controlled by him, takes full control of the borrowing of funds and sale of bonds by all political subdivision in the State, full control of the expenditure of all Government funds borrowed by subdivisions of the State and full control of the election machinery.

In addition, an Act giving the State Board of Health broadened control of the New Orleans markets, an act hitting at Clerk of Court S. Y. Watson of East Baton Rouge Parish and another abolishing the office of Fred S. LeBlanc, East Baton Rouge Assistant District Attorney, also go into effect, Mr. Watson is to be allowed to spend only \$9,000 a year from approximately twice that sum collected by his office in fees. The right of the New Orleans City Commission Council to discontinue a public market is made subject to the approval of the State bond and tax board, created by another Act.

Acts Affecting City

Acts Affecting City

Acts Affecting City

The principal Acts going into effect to-morrow are:
Act. No. 3. Requiring approval by the State Bond and Tax Board of discontinuance of the operation of any public market in New Orleans. Act. No. 4. Prohibiting political subdivision of Louisiana, without approval of the Governor and Attorney-General, from applying to the Federal courts for readjustment of their finances under the Federal Municipal Bankruptcy Law and intending to make illegal any applications already filed, the Act being intended to take the New Orleans finances out of the hands of Federal authorities.

Act No. 5. Providing that the Governor shall have the right to appoint two members of the Board of Supervisors of Elections of Orleans Parish, the same as in other parishes, removing the Civil Sheriff of Orleans Parish, as a member of the board.

Act. No. 6. Creating the State Bond and Tax Board to be composed of the Governor, the Supervisor of Public Accounts, the Lieutenant-Governor, the Attorney-General and Secretary of State and requiring approval by the board of any loan on bond issue or special tax by any political subdivision of the State.

Office Abolished

Office Abolished

Act. No. 7. Abolishing the office of Fred S. LeBlanc, Assistant District Attorney of East Baton Rouge Parish.

Act. No. 8. Requiring approval by the State Printing Board of official journals selected by police juries, municipal corporations and school boards, but making no changes with respect to having printing done by contract. Act. No. 9 Amending the Tobacco Tax Law to require stamping of all tobacco and cigarettes possessed.

Act. No. 10. Requiring approval by the State Advisory Board, composed of seven State officials, the President of the Police Jury Association of Louisiana, and 11 members appointed by the Governor, of all contracts for the expenditure of funds obtained from the Government by any political subdivision and empowering the board to regulate and govern the actual expenditure.

Subdivision and empowering the board to regulate and govern the actual expenditure.

Act. No. 15. Limiting to \$9,000 the fees which S. Y. Watson, East Baton Rouge Clerk of Court, can use for the payment of office expenses.

Act. No. 16. Repealing the civil service provisions protecting warehouse employees of the New Orleans Dock Board.

Act. No. 19. Requiring municipalities to hold their elections on the same date with any parish election provided it falls within 90 days of the parish election.

Act. No. 20. Providing additional regulations for companies doing life, health and accident insurance on the co-operative or assessment plan.

Massachusetts—State Lottery Bill Defeated—A bill to establish a State lottery was killed by the House of Representatives on May 14 after lengthy debate by a tie roll call vote of 110 to 110, according to Associated Press dispatches from Boston. It is reported that Speaker Saltonstall

Michigan—Municipal Bond Refunding Bills Signed by Governor—The Detroit "Free-Press" of May 12 had the following to say regarding bills signed by Governor Fitzgerald which authorize municipalities and county road commissions to refund their bonds under certain conditions:

Action of the Logislature in blazing a trial out of the woods for debt-laden municipalities means a potential saving for taxpayers of from \$1,500,-000 to \$3.000.000 a year in interest charges, it was estimated Saturday. The total saving might reach the \$100,000,000 mark eventually if all bonds eligible for refunding at a lower rate of interest under the Reid Acts

bonds eligible for refunding at a lower late of many authorize municipalities are exchanged.

The bills, signed by Gov. Fitzgerald Monday, authorize municipalities and county road commissions to refund bond issues if the interest rate is reduced at least \(\frac{1}{2} \) of 1\(\frac{1}{2} \), and the life of the original issues not extended.

By a peculiar chain of circumstances, scores of Michigan cities and villages are in position to take advantage of the provisions of the Acts sponsored by Senator John W. Reid, Highland Park Republican. It is estimated by C. C. Wells, Secretary of the Public Debt Commission, that municipal bonds with a value of \(\frac{3}{2} \) 300.000,000 are eligible for refunding.

Better Bargain Expected

stimated by C. C. Wells, Secretary of the Public Debt Commission, that municipal bonds with a value of \$300.000.000 are eligible for refunding.

Better Bargain Expected

Should they all be refunded at an interest rate reduction of ½ of 1%, the saving would be \$1.500.000 a year. But because of the recent strength of the municipal bond market and the lack of investment outlets for credit throughout the Nation, he believes that it will be possible to drive a much better bargain in many cases. Some bond issues now bearing interest at the rate of 4, 4½ and 5% might be refunded with 3% issues, he believes.

"We can say that \$1,500.000 is the minimum potential saving on municipal issues." Wells declared Saturday. "But I would feel safe in doubling the minimum figure."

Considering the length of time which many of the bonds have to run, and the possibility of saving 2 or 3% a year on many issues, the ultimate saving of \$100.000,000 in interest is easy to envisage.

Conditions leading up to the present favorable outlook for municipalities interested in cutting down their interest burdens are highly interesting. Starting in the spring of 1932, there were scores of forced refundings. In most cases the bondholders demanded that the new issues bear the same rate of interest as the retired issues.

The Debt Commission, for its part, insisted in most cases that the refunding bonds be of callable type. That is, any number of bonds might be retired by payment of the par value and accrued interest on any interest date.

Model Tax Collection Law Drafted by National Municipal League Committee—In a recent broadcast, Mr. Arnold Frye, Chairman of a special committee, referred to the model real estate tax collection law as a composite, entirely free of innovation and experiment, of the best features of existing tax laws throughout the country, every one of which has behind it a record of successful application in some State. In this broadcast, Mr. Frye mentioned the principal features of the law as including:

principal features of the law as including:

1. A compulsory annual tax sale.
2. Appointment of a tax receiver of income-producing tax property (specifically exempting farms and homes).
3. Simplification of procedure for foreclosure of tax title liens.
4. Various measures to make tax-paying easier for the property owner. As regards the need for improved tax procedure, Mr. Frye said;
"Government exists for everybody's benefit. It is really all the people acting together for a common purpose. When, therefore, some of the people hold out on the government, which real estate speculators frequently do because they find it to their advantage in spite of penalties and interest charges, they are adding to the burdens of their neighbors. The municipality has to borrow money to take the place of that which the speculator ought to be paying. This means paying interest. Furthermore, as the ratio of tax collection goes down, the rate of interest goes up on all municipal borrowing in order to compensate for the greater risk. The total amounts to many millions of dollars a year. Who pays this extra bill? The taxpayor; particularly, the prudent man, the home-owner, who pays extra taxes to carry the speculator and the tax dodger. We need to learn that prompt payment of taxes is a matter of general community interest. Furthermore, the problem is not merely a by-product of the depression but has been with as long time."

No base key Manacical Power Pail Great Community interest.

Nebraska-Municipal Power Bill Signed-The following Lincoln dispatch appeared in the Norfolk dispatch of May 7 in connection with the signing of a bill which gives municipalities power to issue revenue bonds for the purpose of financing municipal light and power plants:

financing municipal light and power plants:

A powerful weapon to force the reduction of the electric light and power rates was given to Nebraska municipalities to-day by Gov. R. L. Cochran as he signed the controversial Howard-McGowan municipal power bill.

The measure, which goes into effect 90 days after the close of the legislative session, permits municipalities and public districts to purchase or construct power plants and transmission lines by the issuance of revenue instead of general obligation bonds.

The measure extends the power which Nebraska municipalities were given under an initiative law sponsored by United States Senator George W. Norris and adopted in 1930. The Howard-McGowan bill corrects an error in the drafting of the initiative law, which was the basis for the Nebraska Supreme Court's decision in an Ainsworth power case.

New York City—Governor Lehman Vetoes Bill to Restore City Salary Cuts—The Feld bills restoring the 1932 pay cuts City Salary Cuts—The Feld bills restoring the 1932 pay cuts of New York City teachers, police, firemen and other civil service employees of the city, which was passed by the State Legislature over the opposition of Mayor LaGuardia, were vetoed on May 12 by Governor Lehman. There were two pay restoration bills, both sponsored by Senator Feld, Democrat, of New York. They affected 60,000 city employees and it was estimated that if the Governor approved them the city budget would have been thrown more than \$13,000,000 out of balance. Albany press dispatches of May 12 commented in part as follows on the veto action of the Governor: the Governor:

the Governor:

The two Feld bills, designed to restore about \$18,000,000 in salary cuts to New York City teachers, firemen and policemen, have been vetoed, Governor Lehman announced to-night.

The Governor made known in a brief memorandum that he was disapproving the measures because of opposition of Mayor LaGuardia. The Mayor and Comptroller Frank J. Taylor had both urged the veto on the ground that the city's finances could not bear the extra burden the measures would impose.

"These bills," wrote the Governor, "provide for the repeal of the statutes of 1932 which permitted the City of New York to reduce salaries of teachers and other civil service employees in such city. The bills would put an end to the salary reductions which New York City has made pursuant to these statutes and consequently greatly increase its budget.

"The Mayor of the city had advised me that he is opposed to this legislation. I am therefore vetoing the bills."

One bill disapproved covered the salaries of teachers and this was a proposed amendment to the State-wide Education Law, since teaching is a State function. The other measure, passed amid confusion in the final stages of the legislative session, was approved by the two Houses without the special message from the Governor ordinarily required for a "home rule" measurement.

Hearing Had Been Urged

Governor Lehman, whose veto had been forecast, did not, however, take up the question of the lack of a special message on the second bill nor did he go deeply into the issues involved. The teachers and other civil service workers had been urging approval and there had been many suggestions that the Governor hold a public hearing.

It was apparent during debate on the bills that the legislators of both parties were perfectly willing to pass them and place further responsibility for the measures in the lap of the Governor. At that time he remarked: "I have a broad lap."

In vetoing the bills he assumed full responsibility for killing the salary restoration program in the face of the city government's insistence that it could not stand the extra strain.

Bill Introduced to Reneal City Inheritance Tax Aldorrespic

Bill Introduced to Repeal City Inheritance Tax—Aldermanic President Bernard S. Deutsch on May 14 introduced a bill before the Board providing for the repeal of the city inheritance tax. It provides also that all taxes which have accured since the impost was adopted last December shall be canceled and that any taxes which may have been paid under its provisions shall be refunded by the Comptroller.

The bill is said to have been referred to the local laws

New York City—Mayor Approves Repeal of City Income Tax—Before leaving for Washington on May 13 to serve as a member of the National Allotment Board in connection with President Roosevelt's \$4,800,000,000 public works program, Mayor La Guardia signed the bill repealing the city income tax. This was part of the agreement the Mayor made with Governor Lehman for the latter's approval of legislative action toward the extension of the city's emergency tax powers. No collections of the said income tax had been made. made.

New York City—Receipts for April Total \$243,393,296—Comptroller Frank J. Taylor issued a financial statement on May 15 which shows that the city's income receipts from all sources during April totaled \$208,393,296 and that during the period he borrowed \$35,000,000, making total receipts \$243,393,296. During the same month \$68,658,880 was expended for governmental purposes and \$68,908,000 was used for redemption, amortization and renewal of the city. used for redemption, amortization and renewal of the city debt. At the end of the month there were cash balances of \$215,019,632 in all the city funds, of which \$119,850,000 is pledged for redemption of certain debt, mostly covered by bankers' agreement.

bankers' agreement.

Receipts for the month included tax collections of \$167.071,659, of which \$156.745,577 was to cover the tax levy for 1935, and the balance, \$10,326,-082, was for taxes of 1934 and prior years. In addition \$7,149,349 was received from assessments for local improvements. For unemployment relief \$4,328,037 special taxes were received and the State reimbursed the city to the extent of \$14,973,495 for this purpose.

Receipts from other sources, such as water rates, licenses, fees, dock and slip rents, amounted to \$14,825,756.

Expenditures for the month consisted of \$25,969,382 for payroll purposes, \$10,049,205 for interest on the city debt, and \$12,199,000 for other debt service purposes. In addition \$1,336,739 was paid to various charitable institutions to care for city wards and \$806,849 for widows' pensions. During April \$19,921,648 was expended for work and home relief and \$3,365,720 for public improvements, such as rapid transit, water, docks, seems as seems as the service of the service o

New York State-Realty Measure on Mortgages Signed-A bill prohibiting the guaranteeing of mortgages on real estate for an emergency period ending July 1 1936, became law on May 15 when signed by Governor Lehman. The bill law on May 15 when signed by Governor Lehman. The bill was introduced by Senator Lazarus Joseph, Democrat, of the Bronx, who was chairman of the Executive Committee on Guaranteed Mortgages. We quote in part as follows from an Albany press dispatch of the 15th, commenting on the new law:

The new law provides that no corporation or association within the emergency period shall "engage in the business of guaranteeing the performance of any contract in respect to bonds, notes, and other evidences of indebtedness secured by a mortgage or mortgages upon real property, or deed or deeds of trust or similar evidence of an interest in real property, or of the guaranteeing of payment of taxes, penalties, foreclosure costs or other expenses with respect to the same."

Salaran Pill Americand An Albary staff report to the Normalian.

Salary Bill Approved—An Albany staff report to the New York "Herald Tribune" of May 16 had the following to say regarding an Act signed by the Governor the previous day which separates proposals for cuts from pension funds.

which separates proposals for cuts from pension funds.

The Governor signed a bill of Senator James J. Crawford, Democrat, of Brooklyn, providing for the separation of proposals for the reduction of statutory salaries from questions relating to pension funds in New York City referenda under the Home Rule Act.

"Under the provisions of the city's Home Rule Law," the Governor wrote in a me norandum, "if the City of New York passes a local law which reduces the salary of a city officer or employee which has been fixed by a State statute and approved by the voters, the local law must be submitted for the approval of the electors at the next general election.

"Under the provisions of the city's Home Rule law a local law changing the maintenance or administration of a pension fund or retirement system connected with the police or fire department of the city shall be subject to a referendum by the voters upon petition of at least 15% of the total number of votes cast at the last gubernatorial election in such city.

"The purpose and effect of this bill is to provide that if a proposed new charter which is submitted to the people contains provisions reducing the salary of city officers and employees which has been fixed by a State statute and approved by the vote of the people, or provisions altering the administration of the police and fire pension funds, then such provisions must be presented to the people as separate questions. In other words, this bill merely extends to the submission of the proposed new charter provisions which now exist in the city Home Rule law.

Lehman Approves 5-Cent Subway Fare Extension—The Fitzgerald oill, extending from Sept. 1 1936 to Sept. 1 1938, the period during which the New York City-owned transit system shall be operated under a five-cent fare was signed on May 11 by Governor Lehman, without comment. It ammends the Pice hill of last year which extended the five-cent fare May 11 by Governor Lehman, without comment. It amends the Rice bill of last year, which extended the five-cent fare period for two years until 1936. Under the bill the city-owned transit system must become self-sustaining after Sept. 1 1938, and all deficits up to that time must be met by taxation, or the Board of Estimate may issue temporary certificates indebtedness or corporate stock notes in exchange for

rapid transit bonds or corporate stock or serial bonds of the city maturing within 10 years after the expiration of the mandatory five-cent fare period.

New Stock Transfer Tax Bill Vetoed-The Governor vetoed a bill on May 9 which would have changed the stock transfer tax, writing: "This bill seeks to change the rate of tax on the transfer of shares of stock and other corporate certificates. It establishes a graduated rate from 1 cent to 4 cents. Apart from the merits of the proposed new rates, the bill is defective." The New York "Times" of May 10 commented on the veto as follows:

on the veto as follows:

Concurrently with Governor Lehman's veto of the Swartz bill designed to change the tax rate on stock transfers, it was learned yesterday that attorneys for a large group of member firms of the New York Stock Exchange have attacked the constitutionality of the present State transfer tax law, Gilman & Unger of 48 Wall Street, who 20 years ago succeeded in overthrowing a similar tax statute, is conducting the suit in the Court of Claims at Albany.

The present transfer tax law imposes a graduated levy from 3 cents per share on stocks selling under \$20, to 4 cents per share on those selling above \$20. Before its amendment on June 1 1933, the law called for a straight tax of 2 cents per share on all stock transfers.

The graduated tax is being attacked, Samuel P. Gilman said yesterday, on the ground that it is unequal and uneven, discriminatory, arbitrary in its classifications and supported by neither reason nor logic.

The Swartz bill which Governor Lehman vetoed yesterday would have established a graduated tax ranging from 1 to 4 cents per share which would apply only to transfers arising from sales.

Comment on Transit Unification Bill—In connection with

Comment on Transit Unification Bill-In connection with the above report on the approval of the five-cent subway fare extension we wish to point out that the Governor had signed the Burchill Transit Unification Bill on May 3, making mandatory a referdum on any plan to raise the city subway fare, and which also gives the Transit Commission the right to demand applications for certificates of convenience and necessity for extension of city transit facilities, a portion of the measure that was disapproved by the Board of Transportation of the city.

New York State—Governor Lehman Signs Utility Fund Bill—The Fitz Gerald Bill setting aside \$300,000 for a revolving fund to meet expenses of the Public Service Comvolving fund to meet expenses of the Public Service Commission in handling rate cases was signed by Governor Lehman on May 11. In his statement on approval it was pointed out by Governor Lehman that he had stressed in his recommendation for passage the necessity for the measure because some utility companies had "stubbornly refused" to accede to the provisions of law enacted last year levying a share of the cost of rate investigations on them. (This matter is treated in greater detail in our Department of "Current Events and Discussions" on a preceding page.)

North Carolina—Bond Deposits Asked by Three Local Governmental Units—The holders of bonds of Carteret County and the towns of Morehead City and Beaufort, are being and the towns of Morenead City and Beautort, are being asked to deposit their securities, following the formation of a formal bondholders' committee. W. C. Braden, of the Woodmen of the World, is Chairman of the newly formed group. The Harris Trust & Savings Bank is acting as depositary, and Chapman & Cutler, of Chicago, are counsel. The committee states that various attempts have been made by the bondholders and others to improve the situation regarding issuing governments and to rehabilitate the credit of the units but nothing has been accomplished and it now appears that "no worth-while results can be obtained in dealing with them, except by way of litigation to enforce in the courts the right of the bondholders."

North Dakota—Ex-Governor Langer Granted New Trial on Charges of Misusing Federal Relief Funds—Conviction Re-versed by Federal Court—William Langer, former Governor of North Dakota, will receive a new trial in the Federal District Court of North Dakota on a charge of conspiracy to misuse Federal relief funds, as a result of a decision handed down on May 7 by the U. S. Circuit Court of Appeals at St. Paul. Mr. Langer and four other defendants were convicted in the North Dakota Federal Court on June 17 1934, under an indictment which charged them with conspiracy to corruptly administer Federal statutes relating to the distribution of emergency relief funds. The case was remanded to the Federal District Court of North Dakota for a new trial. The decision of the U. S. Circuit Court, reversing the previous convictions, was reported in part as follows by Associated Press advices from St. Paul on May 7:

The case was remanded to the United Stated District Court of North Dakota for a new trial. The five appellants were convicted under an indictment which charged them and four others with conspiracy to administer corruptly Federal statutes relating to the distribution of emergency relief funds.

Fund Solicitation Charged

Fund Solicitation Charged

The charge grew out of alleged solicitation of political contributions from workers paid with Federal relief funds. Testimony at the original trial showed various workers had been assessed contributions of 5% of their salaries to "The Leader," Langer political newspaper.

Convicted with Langer, who was sentenced to serve eighteen months in a Federal penitentiary and pay a \$10,000 fine, were Oscar J. Chaput, Frank A. Vogel, former State Highway Commissioner; R. A. Kinzer, Secretary of the State Emergency Relief Committee, and Harold McDonald, solicitor for the leaders. Their cases also were covered by the appeal.

Mr. Langer, who was State Relief Administrator under Federal appointment at the time of the alleged violations, subsequently was removed as Governor by State Supreme Court order.

The Court in effect held the evidence presented at the trial was not sufficient to demonstrate overt acts which in themselves would constitute substantive offences.

No United States Statutes Violated

No United States Statutes Violated

"Whatever we may think of the ethics or propriety of the parctice employed by appellants to secure funds for political purposes," the Court said, "it is not a matter of concern to the Federal Government unless some lawful Government function was thereby obstructed. In other words, a conspiracy or plan to assess State employees was not an act violative of any Federal statute and hence so far as the Federal Government is concerned, not criminal. We have searched diligently for direct evidence of any plan beyond this, and counsel for the Government have called our attention to no such testimony."

Oklahoma—Deficit Refunding Bill Approved—Governor Marland is stated to have signed a bill on May 8, designed to refund the deficit of the State, which is expected to reach a total of \$10,000,000 by July 1. By the provisions of this bill the State Board of Equalization is directed to ask the State Supreme Court for instructions as to how the amount of the debt is to be determined. It is reported that when the amount is arrived at, the State will issue not to exceed

3% bonds, maturing in from 10 to 13 years.
In connection with the above report we quote ir part as follows from a news item in the Oklahoma City "Oklahoman"

of May 9:

Governor Mariand Weinesday signed the funding bond bill to provide means of retiring the current state debt, expected to be \$10,000,000 by July 1. It sets up procedure for the State board of equalization to go before the supreme Court to determine the exact amount of outstanding warrants for this fiscal year and the last fiscal year.

Upon finding of the amount, which will be after the close of the fiscal year, July 1, bonds running from 10 to 13 years may be issued to take up the outstanding warrants now drawing 6% interest. The bonds will bear not to exceed 3% and will be backed by the general revenue fund of the State. Report in the State Treasurer's office Wendesday showed 1934 warrants amounted to \$4,457,667 April 30 and 1935 warrants amounted to \$4,186,067, making a total of \$8,643,734. It was estimated the warrants will increase during the next two months to raise the total debt to more than \$10,000,000.

Texas—Road Bond Assumption Bill Passed—According to press advices of May 11 the Legislature has passed finally a bill to re-enact for two years the State bond assumption law by which the State participates in the retirement of road bond indebtedness incurred by counties and road districts in the construction of State highways. It is said that the measure would continue the diversion of one cent of the State four-cent-a-gallon gasoline tax. The present act would expire on Aug. 31 1935.

United States—Tax Reduction Program Rejected by Most State Legislatures—An Associated Pressdispatch from Chicago on May 12 carried the following report on the action of the greater majority of Legislatures in session this year toward tax reduction programs introduced for consideration:

greater majority of Legislatures in session this year toward tax reduction programs introduced for consideration:

It was almost a tight-rope-walking act for the State Legislatures, building up a purse for relief and at the same time keeping out of the red ink.

Most of the Assemblies had essayed it, but in earmarking some \$122,000.000 plus proceeds from two State sales taxes for the jobless, they generally had let any tax reduction ambitions they had cherished at the start of their sessions go by the boards, a survey to-day disclosed.

Instead they provided, in many cases, for new revenue to carry the load. In addition to the sales tax in several States, surtaxes, gasoline and income levies, increased property taxes and a tariff on liquor were used.

The States that have completed action, the amount appropriated and the method to raise the relief funds follow:

New York—\$10,000,000: \$55,000,000 tax increase through new and higher levies. A \$55,000,000 bond issue referendum was also authorized, lowa—\$4,000,000: \$9,000,000 property tax restored.

Idaho—Proceeds of a 2% sales tax.

Utah—Continued use of proceeds of its 2% sales tax and added new personal income and corporate franchise taxes.

Oklahoma—\$1,000,000: bond issue authorized with a special Assembly ordered for June to provide methods to increase revenue.

Nebraska—\$4,000,000 earmarked for the old-age pension fund; one cent added to the State gas tax for relief and a \$500,000 property tax increase.

North Dakota—\$2,000,000; 2% sales tax.

Arkansas—\$64,000; 2% sales tax.

Arkansas—\$664,000; 2% sales tax.

Maryland—\$5,000,000; in onew taxes.

Pennsylvania—\$6,000,000; surtaxes on incomes, inheritances and gifts and new taxes on utilities.

Colorado—\$3,600,000; counties must contribute \$1,000,000 for care of unemployables.

West Virginia—\$3,000,000; sales tax and surtax on industries.

Florida—\$1,000,000; no new taxes.

Oregon—\$3,500,000; country
employables.
West Virginia—\$3,000,000; sales tax and surtax on industries.
Florida—\$1,000,000; no new taxes.

BOND PROPOSALS AND NEGOTIATIONS

ABERDEEN, S. Dak.—BOND OFFERING—Both sealed and open bids will be received at 10 a.m. on May 23, by Lydia W. Kohlhoff, City Auditor, for the purchase of three issues of bonds, aggregating \$40,000, divided as follows

as follows
\$13,000 5% municipal airport bonds. Denom. \$1,000. Dated Oct. 1
1930. Due from 1936 to 1950.
15,000 4½% storm sewer bonds. Denom. \$1,000. Dated July 1 1919.
Due in 1939.
12,000 5% fire station construction bonds. Denom. \$500. Dated July 1
1930. Due from 1935 to 1950.
Interest on all issues payable semi-annually. Bonds will be sold subject to the approving opinion of Junell, Driscoll, Fletcher, Dorsey & Barker of Minneapolis. The Board of Commissioners reserves the right to reject any and all bids. (This report supplements the offering notice given in V. 140, p. 3249.)

ACADIA PARISH SCHOOL DISTRICT NO. 65 (P. O. Crowley), La.—BOND OFFERING—Sealed bids will be received until May 31, by the Secretary of the Parish School Board, for the purchase of an issue of \$120,000 not to exceed 6% semi-ann. school bonds. Due from April 1 1936 to 1947, incl. (These bonds were offered for sale without success on April 26—V. 140, p. 3080.)

AKAN, Richland County, Wis.—BOND ELECTION This town will hold a special election on May 25, when the matter of a \$40,000 bond issue will be before the voters, the proceeds to be used in surfacing town roads.

—AKELEY SCHOOL DISTRICT NO. 20, Minn.—BOND ELECTION—Clarence Sachow, District Clerk, announces that on May 20 a special election will be held to vote on the issuance of \$20,000 4% school building bonds.

The following Akron dispatch appeared in the "Wall Street Journal"

AKRON, Ohio—SOIT BROUGHT TO FORCE BOND PAYMENTS—The following Akron dispatch appeared in the "Wall Street Journal" of May 13:

"City of Akron was confronted with a new development in its financial difficulties, which have been a topic of controversy for the last six months. Mandamus suit has been filed in State Supreme Court by Henry Mezger, a bondholder, in an attempt to force the city to pay overdue 1934 maturities totaling \$3,338,891 plus \$110,000 interest accrued since October. The suit

would also force the city to repay \$401,000 to the sinking fund, which it borrowed for operating purposes. City has \$1,089,459 on hand.

"Refund bonds in the amount of \$2,249,433 were offered for sale in February but only one bid was received for part of the issue and that was withdrawn when city council voted against refunding the 1934 debt at a 4½% interest rate."

ALBANY COUNTY LIGHT, HEAT AND POWER DISTRICT (P. O. Albany), N. Y.—BILL CREATES THIS UNIT—Governor Lehman on May 12 approved the Byrne bill establishing the above district within Albany County, authorizing extension of such district and creating the Albany Light, Heat and Power Authority, a public corporation, to serve municipalities in the district, according to Albany news advices. The Act, which takes effect immediately, authorizes the issuance of bonds in an amount not exceeding \$10,000,000 by the Authority and county or either of them, the issues to be first approved by the people at a general or special election.

of them, the issues to be first approved by the people at a general of election.

The Authority is authorized to construct or acquire by purchase or condemnation gas and electric plants and to purchase gas or electricity from the State of New York.

This is seen as another move in the direction of municipally owned distributing system for the sale of power from the St. Lawrence River when, as and if the international rapids section is developed for hydroelectric power jointly by Canada and the United States.

The rates to be charged for service are to be approved by the Public Service Commission.

The bonds and other obligations of the Authority shall not be a debt of the State or of the County of Albany and the Board shall have no power to make them payable out of any funds except those of the Authority. The Board of Supervisors is given power, however, if the revenue of the Authority is insufficient to pay any bonds, whether of the Authority or county, to raise by a tax levy such moneys as may be needed for such purposes.

ALLEN COUNTY (P. O. Scottsville), Kan.—BONDS PROPOSED—

ALLEN COUNTY (P. O. Scottsville), Kan.—BONDS PROPOSED—Application for permission to issue \$25,000 in poor fund bonds has been filed with the State tax commission by the board of county commissioners.

ALL.ANCE, Neb.—BOND ELECTION PETITIONED—We learn that petitions have been circulated asking the City Council to submit a proposal to the voters for the purpose of issuing \$150,000 in bonds for building a city auditorium. The same suructure will house the City Hall, it the issue carries. A Federal grant of \$50,000 additional will be asked, if the bonds

ANNISTON, Ala.—BOND SALE DETAILS—It is stated by W. T. Morton, Jr., City Clerk, that the \$834,000 5% water system purchase bonds purchased on April 17 by C. W. McNear & Co. of Chicago—V. 140, p. 3250—was awarded for a premium of \$900, equal to 100.1079. Coupon bonds dated April 1 1935. Denom. \$1,000. Due serially. Interest payable A. & O.

ANAMOSA SCHOOL DISTR.CT, Iowa—BOND ELECTION PETI-TIONED—It is reported that petitions have been signed asking the directors district to call an election to vote the issuance of \$55,000 bonds to enlarge the school building.

ARAPAHOE COUNTY SCHOOL DISTRICT NO. 26 (P. O. Deer Trail), Colo.—BOND SALE CANCELED—It is stated by the District Secretary that the sale of the \$19,500 4 ½ % semi-annual refunding bonds to the J. K. Mullen Investment Co. of Denver, subject to an election on May 6—V. 140, p. 2573—has been canceled. Due from 1936 to 1947.

ARAPAHOE COUNTY SCHOOL DISTRICT NO. 38 (P. O. Castle Rock), Colo.—BONDS SOLD SUBJECT TO ELECTION—An issue of \$22,000 3\% % refunding bonds has been sold to the J. K. Mullen Investment Co. of Denver subject to approval at an election to be held in June. Dated May 1 1935. Due yearly as follows: \$1,000, 1936 to 1946; \$1,500, 1947 and 1948, and \$2,000, 1949 to 1952. Interest payable May and Nov.

ASBURY PARK, N. J.—\$169,000 DEBT SERVICE ITEM ELIMI-NATED FROM BUDGET—The tax rate for this city will not be more than \$6.60 instead of \$7.20 as a result of the agreement on May 10 of the committee of bondholders headed by Newark bankers to forego placing in the budget \$169,000 for debt service.

The agreement was made at a conference in Newark between Mayor Hetrick and the members of the committee headed by J. S. Rippel. The bankers were assured by Hetrick that he and his associates would do everything possible to keep down expenditures.

The inclusion of the \$169,000 item was ordered recently by the Municipal Finance Commission, which is expected to rescind its order after the agreement yesterday.

ASHLAND COUNTY (P. O. Ashland), Wis.—BONDS PROPOSED—It is reported that plans are under way for the issuance of \$150,000 road improvement bonds. Ed. H. Quinstorff is County Clerk.

ATHENS, Ohio—BONDS AUTHORIZED—An ordinance was recently passed by the City Council authorizing the issuance of \$6,985.83 5% coupon refunding bonds. Denoms. 1 for \$985.83 and 6 for \$1,000. Prin. and semi-ann. int. (Apr. 1 and Oct. 1) payable at the City Treasurer's office. Due \$985.83 Oct. 1 1937 and \$1,000 yearly on Oct. 1 from 1938 to 1943, incl.

ATLANTIC HIGHLANDS, N. J.—ADDITIONAL DETAILS—The \$140,000 not to exceed 6% refund. bonds, which may be offered for sale about June 1, as stated in V. 140, p. 3250—will mature \$7,000 yearly for 20 years. The issue is being made for the purpose of retiring the following described debt of the borough now outstanding, plus cost of refunding:

described debt of the borough now outstanding, plus cost of Tax revenue notes.

Tax title notes.
County taxes—for years prior to 1935.
State taxes—for years prior to 1935.
Amount due to Board of Education of the Borough of Atlantic Highlands on account of local district school taxes for years prior to 1935.
Water maintenance notes—for years prior to 1935.
Sidewalk improvement notes.
Street improvement notes.
Fire apparatus note. Total errued interest to March 20 1935 on above-mentioned obli-\$137,979.26 Cost of issuing refunding bonds 1,375.00

\$140,000.00 ATOKA, Okla.—BONDS AUTHORIZED—Funding bonds in the amount of \$36,121.69 for the purpose of funding a like amount of the outstanding judgment indebtedness have been authorized.

ATTICA SCHOOL DISTRICT, Kans.—BONDS VOTED—We are informed that the voters recently gave their approval to a proposal to issue \$20,000 bonds for construction of a gymnasium and auditorium.

AUBURN, N. Y.—BOND OFFERING—R. W. Swart, City Comptroller will receive sealed bids until noon (Eastern Standard Time) on May 23 for the purchase of \$166,000 coupon or registered relief bonds. Bonds are dated May 15 1935. Denom. \$1,000. Due May 15 as follows: \$17,000 from 1936 to 1941 incl. and \$16,000 from 1942 to 1945 incl. Bidder to name the rate of interest in a multiple of ¾ or 1-10th of 1%. A certified check for \$3,000 must accompany each proposal. Legality to be approved by Reed, Hoyt & Washburn of New York.

AUGUSTA TOWNSHIP (P. O. Carthage), III.—BONDS PROPOSED—A committee composed of representatives of various school districts in Augusta Township is considering the advisability of recommending for a vote a \$30,000 township bond issue for graveling the township roads.

BAGLEY SCHOOL DISTRICT, Iowa—BOND SALE—We are in receipt of a report that the Carleton D. Beh Co. of Des Moines has purchased \$8,000 3% refunding bonds of this district. Due \$1,000 yearly.

BAILEY COUNTY (P. O. Muleshoe), Tex.—BONDS PROPOSED—The County Commissioner's Court gives notice that it intends to authorize an issue of bonds in the amount of \$36,232.44 to refund outstanding road and bridge bonds. Bonds will bear 5½% int., payable semi-ann. on Apr. 15 and Oct. 15. Prin. and int. will be payable at the Central Hanover Bank & Trust Co., of New York. Due yearly on Apr. 15 from 1936 to 1954, incl.

BALDWIN FIRE DISTRICT (P. O. Baldwin), N. Y.—CREATION OF DISTRICT APPROVED—Chapter 833, Laws of 1935, validates, approves and confirms the proceedings in connection with creation of the district and

the authorization of a \$60,000 bond issue for improvement purposes. The obligations, when issued, shall constitute legal, valid and binding indebtedness of the district.

BALTIMORE, Md.—NO TAX BORROWING ANTICIPATED—As a result of the collection of 44.76% of the 1935 budgetary requirements in the first four months of the year it is virtually c. rtain that the city will be able to meet all operating expenses throughout the year without resourse to borrowing in anticipation of tax collections. Thomas G. Young, City Collector, reported on May 11 the receipt of \$11.337.796 to April 30 against fixed appropriations of \$43.199.873 for the entire year. Collections as of the same date in 1934 amounted to \$16.358.039, while the budget in that year was \$42.347.356. No tax anticipation financing was necessary last year, it is said.

BATH, N. Y.—VOTERS TO CONSIDER LOAN—The voters will shortly be asked to determine whether the city should borrow \$100,000 from the Public Works Administration for hospital construction purposes.

BAYONNE, N. J.—BONDS APPROVED ON FIRST READING—The Board of Commissioners on May 7 passed on first reading an ordinance which provides for the issuance of \$192,700 temporary improvement note funding bonds. Dated April 1 1935. To bear interest at either 4%, 4½% or 4½%.

BEAUMONT, Tex.—BOND OFFERING—Sealed bids will be received until 10 a. m. on May 21, by Raymond Edmonds, City Clerk, for the purchase of two issues of general obligation coupon bonds, aggregating \$108,000, divided as follows:

\$58,000 street and sewer bonds. Due on July 1 as follows: \$3,000, 1936 to 1938; \$4,000, 1939 to 1943; \$5,000, 1944 to 1947, and \$3,000, 1948 to 1950

\$58,000 street and sewer bonds. Due on July 1 as follows: \$3,000, 1948 to 1950.

50,000 wharf and dock bonds. Due on July 1 as follows: \$3,000, 1936 to 1958. \$4,000, 1939 to 1943, and \$3,000, 1944 to 1950.

Bidders will indicate rate of interest, with split rates premissible. Denom. \$1,000. Dated July 1 1935. Prin. and int. (J. & J.) payable at the office of the Director of Finance in Beaumont, or at the Chase National Bank in New York City, at the option of the holder. Bonds are not registerable either as to principal or interest. Purchaser shall select attorneys and bear expense for same. All printing expense to be borne by purchaser. Refunding bonds issued in lieu of certain 5% 40-year period bonds to be called as of July 1 1935. A certified check for \$2,160, payable to the order of the Mayor, must accompany the bid.

BEAVER SCHOOL DISTRICT (P. O. Beaver), Neb.—BOND SALE DETAILS—In connection with the recent report that \$56,000 of 4% bonds would be refunded through the Greenway-Raynor Co. of Omaha, at 3½%—V. 140, p. 3250—we are now informed that the bonds are dated June 1 1935, are in the denomination of \$1,000, and mature on June 1 1954, optional on June 1 as follows: \$2,000, 1936 to 1939, and \$48,000 in 1940. Legality to be approved by Wells, Martin, Lane & Offutt of Omaha.

BELLEVILLE, N. J.—BOND REFUNDING ARRANGED—The follow-

DELLEVILLE, N. J.—BOND REFUNDING ARRANGED—The following is taken from the Newark "News" of May 8:

The largest bond issue ever proposed in Belleville, \$2,500,000. was approved last night at an adjourned meeting of the Town Commission. The bonds, which bear interest at 4½% or less, make up a refinancing plan arranged by Mayor William H. Williams, head of the Revenue and Finance Department. The Town Commission agreed some time ago to support the plan outlined by the mayor.

Mayor Williams said \$700,000 of the issue is new money to be used in paying back State and county taxes in the amount of \$253,000 as well as similar taxes up to date. The remainder of the new money, all to be raised by tax anticipation notes, will go toward meeting current obligations of the town. The municipality recently went or a cash basis after having operated nearly three years on a "baby bond" plan devised by the mayor.

The finance director told the commission he expects to wipe off many book items and refund other old obligations of the town through the refunding program. A list of the accounts to be cleared or refinanced will be made public in a week or 10 days, the mayor explained.

The refunding plan is being handled by J. S. Rippel & Co. of Newark. Mayor Williams assured the commission the interest rate on the block would be below the figure stated in the ordinance. The Borough Council on the state of the accounts to the ordinance of the state of the server of the state of the state of the state.

BELLWOOD, Pa.—BONDS ELECTION—The Borough Council of

BELLWOOD. Pa.—BONDS ELECTION—The Borough Council on fay 6 voted to issue \$45,000 sewerage system bonds subject to approval of the voters at an election to be held on June 11.

BERLIN, N. H.—STATE GUARANTEES \$400,000 LOAN—City Council has contracted with Brown Co. for a \$400,000 loan on notes which will be guaranteed as to payment of prin. and int. by State of NewHampshire, according to report. In consideration of State's guarantee, the council, it is said, voted an assignment to the State of all right and title to the moneys and wood which the city holds or may hold under the contract. This protects the State with respect to its guarantee of payment of the loan.

This protects the State with respect to its guarantee of payment of the loan.

BERLIN, Md.—BOND OFFERING—Sealed bids will be received at the office of the Mayor and Council until 8 p. m. on May 27 for the purchase of \$100,000 4% coupon (registerable as to principal) sanitary sewerage system and sewage treatment plant construction bonds. Dated June 1 1935. Denom. \$1,000. Due as follows: \$2,000 March 1 1936; \$1,000 March 1 1937 and 1938, and \$1,000 Sept. 1 1938: \$1,000 March 1 1936; \$1,000 March 1 1937 to 1953 incl.; \$3,000 March 1 and Sept. 1 from 1939 to 1942 incl.; \$2,000 March 1 and \$1,000 Sept. 1 from 1943 to 1946 incl.; \$2,000 March 1 and Sept. 1 from 1943 incl.; \$3,000 March 1 and \$2,000 Sept. 1 from 1945 to 1959 incl.; \$3,000 March 1 and Sept. 1 in 1960 and 1961; \$3,000 March 1 and \$2,000 Sept. 1 1962. All of said bonds are to be retired by the first of September 1962; any or all bonds No. 81 to No. 100, incl., however, to be callable at par in inverse order, at any interest period after Sept. 1 1944, upon 30 days written notice to the registered holders thereof, and in the event said bonds are not registered, then by 30 days' notice in one or more newspapers published in Baltimore, Md. This bond issue is authorized by Chapter 6 of the Acts of the General Assembly of Maryland on April 29 1935. Said bonds to be exempted from State, County and Municipal taxation. The right is reserved to reject any and all bids. All bids should be sealed and accompanied by a certified check for the sum of \$1,000.

BETHLEHEM, Pa.—BONDS CONSIDERED—The City Council is

BETHLEHEM, Pa.—BONDS CONSIDERED—The City Council is giving attention to a proposed ordinance which authorizes the issuance of \$85,000 bonds.

BEVERLY, Mass.—BONDS AUTHORIZED—Board of Aldermen voted to issue \$60,000 bonds in order to prevent a sharp increase in the tax rate for this year and to float an issue of \$50,000 for embergency relief.

BEXAR COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 5 (P. O. South San Antonio), Tex.—BONDS VOTED—At the election held on May 10—V. 140, p. 2903—the voters approved the issuance of the \$38,000 in 6% sewer system bonds by a wide margin, according to the President of the Board of Directors. It is said that these bonds will be offered for sale shortly.

BLACK BAYOU DRAINAGE DISTRICT (P. O. Greenville), Miss.— BONDS REFINANCED—It is reported that the district has recently re-financed its bonded indebtedness through the RFC, lowering the debt to \$433,000, to be paid over a period of 38 years.

BLACKSTONE, Va.—BOND SALE—It is stated by the Town Treasurer that the \$25.000 4% coupon refunding bonds offered for sale on May 14—V. 140, p. 3080—were sold for a premium of \$702.50, equal to 102.81, a basis of about 3.75%. Dated July 1 1935. Due \$5,000 on July 1 in 1940, 1945, 1950, 1955 and 1960.

BLUE EARTH COUNTY (P. O. Mankato), Minn.—BOND RE-OFFERING—Offering of the \$54.800 ditch refunding bonds, set for May 8, has been postponed to May 27. Bids will be received until May 27 by B. E. Lee, County Auditor, for the purchase of the bonds to bear 2¼ % interest, at not Isse than par and interest. Denoms., 67 for \$500; 20 for \$1,000, and 1 for \$1,300. Dated May 1 1935. Interest payable semi-annually May 1 and Nov. 1. Due yearly on May 1 as follows: \$6,500, 1938; \$7,000, 1939 to 1944 incl., and \$6,300, 1945.

BONITA UNION HIGH SCHOOL DISTRICT (P. O. Los Angeles), Calif.—BOND SALE—The \$20,000 issue of school bonds offered for sale on May 13—V. 140, p. 3251—was awarded to Weeden & Co. of San Francisco, as 41/s, paying a premium of \$201, equal to 101, a basis of about 4.05%. Due in from 1 to 10 years.

BOONE WATER DISTRICT (P. O. Boone), Colo.—BOND ELECTION CONTEMPLATED—It is stated by the District Secretary that an election will probably be held in the near future to have the voters pass on

the issuance of \$26,000 in water system bonds to secure a grant of \$14,000 from the Public Works Administration.

BOSTON, Mass.—BUDGET DATA—OVER-SPENDING SCORED—Following is the gist of Mayor Mansfield's new 1935 budget, presented to the City Council, May 14, showing the amounts recommended for the various sections the method of raising the money, and a comparison with the budget of a year ago:

budget of a year a			Method of	Financing-
City Requirem'ts-	Amounts Recommended	Department Revenues	Loans	Tax Levy
Maintenance Debt County Requirem	40,296,169.34 11,259,753.32	5,352,000.00	8,000,000.00	26,944,169.34 11,259,753.32
Maintenance Debt	3,608,758.86 150,850.33	400,000.00		3,208,758.86 150,850.33
Maintenance Debt	1,678,051.74 104,320.00	1,678,051.75 104,320.00	*******	

Totals for 1935_ 57,097,903.59 7.534,371.74 8,000,000.00 41,563,531.85
Totals for 1934___ 56,568,570.71 6,642,329.78 3,800,000.00 46,126,240.93
In connection with the foregoing, we learn that the Boston Municipal Research Bureau, in a statement issued on May 11, deplored the policy of borrowing by the city in order to provide for budgetary appropriations and condemned the alleged failure of the State Government to compel retrenchments in municipal operating costs. Referring to the item of \$8,000,000 in the 1935 budget to be obtained through borrowing, the Bureau declared that this procedure has become a common practice and maintained that "for years for cost of government has exceeded the community's taxpaying ability."

RECOMMENDS PUBLIC OWNERSHIP OF "L"—Public ownership of Boston Elevated Ry. was recommended on May 16 by legislative committee on metropolitan affairs in a report to legislature, after several weeks consideration and a number of public hearings.

ing new schools.

CALIFORNIA, State of—BOND OFFERING—Sealed bids will be received until 10 a.m. on June 6 by Charles G. Johnson, State Treasurer, for the purchase of a \$5,000,000 issue of 3% veterans' welfare bonds. Denom. \$1,000. Dated June 1 1935. Due from Feb. 1 1937 to 1952 incl. Prin. and int. (F. & A.) payable in gold coin of the United States of the present standard of value, subject to the provisions of Public Resolution No. 10 of the 73d Congress of the United States approved June 5 1933, at the office of the State Treasurer, or at the option of the holder, at the State's fiscal agency in New York City. These bonds will be sold to the highest bidder in parcels of one or more, or as a whole. Bids for less than par must be rejected.

The maturities in detail on the above issue are as follows: \$530,000, 1937; \$270,000, 1938; \$260,000, 1939; \$280,000, 1940; \$285,000, 1941; \$290,000, 1942; \$305,000, 1943; \$310,000, 1944; \$320,000, 1945; \$330,000, 1946; \$340,000, 1947; \$355,000, 1948; \$360,000, 1949; \$370,000, 1950; \$385,000, 1951; \$10,000 in 1952.

CARSON CITY SCHOOL DISTRICT, Nev.—BOND ELECTION—It is

CARSON CITY SCHOOL DISTRICT, Nev.—BOND ELECTION—It is learned that on May 18 the voters will pass on a proposal to issue \$61,000 high school building bonds.

CEDAR CREEK DRAINAGE DISTRICT NO. 6 (P. O. Fairfield), owa—BOND ISSUANCE CONTEMPLATED—The County Supervisor of outstanding

CHICAGO, Ill.—MAY OFFER REFUNDING ISSUE—Local municipal dealers are discussing the possibility of a new bond issue by the city to refund outstanding 5½% bonds due Jan. 1 1940. Of the original issue of \$15,000,000 sold in Dec. 1933, and Jan. 1934, most of which were purchased by holders of bonds maturing Jan. 1 1934, there are now outstanding \$8,903,000. The city has retired \$6,097,000 through two previous calls, the first for \$3,297,000 and the second for \$2,800,000. The bonds are optional at any time, subject to 30 days notice prior to any interest date. If the redemption were to be effective on July 1, notice would have to be given by June 1.

City officials recently stated that preliminary consideration has been given to the matter of refunding the issue but that no final decision has been reached. It as indicated that it might be taken up at the meeting of the city council on May 22 when it is expected that Mayor Kelly will have

the city council on May 22 when it is expected that Mayor Kelly will have returned from his vacation.

Although the bonds have been callable, the city previously was lacking in authority to issue refunding bonds for the purpose of retiring the issue. That obstacle was removed, however, when the new refunding bill was signed by Governor Horner a few days ago.

That the city can effect substantial interest savings through refunding of the bonds is apparent from the present price level of the city's obligations. Some dealers have expressed the opinion that the present 5½% issue could be replaced by one bearing interest at the rate of 4% or less. Fifteen-year 4% bonds of the city are quoted off a 3.50% basis.

The present price of the 5½s in itself indicates the anticipation of redemption of the bonds. The issue is quoted slightly above par, whereas non-callable obligations command substantial premiums.

CHINOOK. Mant.—BOND SALE—The \$24.000 water plant improve-

CHINOOK, Mont.—BOND SALE—The \$24,000 water plant improve-ent bonds, for which bids were asked on April 27, as stated in V. 140, 2736, have been purchased by the State Land Board.

p. 2730, have been purchased by the state Land Board.

CINCINNATI, Ohio—BOND SALE—It is reported that \$94,500 3% bonds will be taken by the City Sinking Fund.

The issues dated July 1 are:
\$60,000 in five-year bonds for highway equipment.

7,500 in 10-year bonds for boulevard and traffic lights.
12,000 in 10-year bonds for fire hydrants.
10,000 in five-year bonds for fire hose.

5,000 in 10-year bonds for fire alarm cable.

CLARK COUNTY (P. O. Jeffersonville), Ind.—BOND SALE—The \$80,000 "advancement fund" poor relief bonds offered on May 10—V. 140, p. 3081—were awarded to the City Securities Corp. of Indianapolis as 3 ¼s, for a premium of \$208, equal to 100.26, a basis of about 3.20%. Dated May 1 1935 and due as follows: \$3,000 June 1 and \$4,000 Dec. 1 from 1936 to 1946 incl. and \$3,000, June 1 1947. Marcus Warrender of Indianapolis, second high bidder, offered a premium of \$46 for 3 ½s.

CLARK COUNTY (P. O. Neillsville), Wis.—BONDS AUTHORIZED—According to news reports, a resolution authorizing the issuance of \$242,-000 road improvement bonds has been passed by the Board of County Supervisors.

CLARKSVILLE, Iowa—BOND SALE—The two issues of bonds, aggregating \$12,499.38, offered for sale on May 13—V. 140, p. 3252—were sold as follows:

\$6,299.38 street improvement, special assessment bonds to the Carleton D. Beh Co. of Des Moines.
6,200.00 improvement fund, general obligation bonds to locak banks.

CLAYTON, N. Mex.—BONDS NOT SOLD—The \$45,000 issue of not to exceed 4% semi-ann. water works refunding bonds offered on May 13—V. 140, p. 3252—was not sold, according to the Town Treasurer. Due from March 1 1936 to 1941, inclusive.

CLAYTON (P. O. Soldiers Grove), Wis.—BOND ELECTION—An election has been ordered for May 28 for the purpose of voting on a proposed bond issue of \$72,000 for road improvements.

CLEAR LAKE, Iowa—BOND SALE DETAILS—It is reported by the City Clerk that the \$45,500 refunding bonds purchased by the Carleton D. Beb Co. of Des Moines—V. 140, p. 3252—are more fully described as follows: Denom. \$500. Dated June 1 1935. Due on June and Dec. 1, from 1938 to 1949. He states that the bonds were sold as 3½s.

CLEARWATER COUNTY (P. O. Bagley), Minn.—PRICE PAID— It is stated by the County Auditor that the \$15,000 drainage funding bonds purchased by the First National Bank of Bagley on May 7—V. 140, p. 3252—were sold as 4s at par. Due \$1,000 from May 1 1940 to 1954, inclusive.

CLEVELAND, Miss.—BOND SALE—The \$30,000 Issue of bridge construction bonds offered for sale on May 15—V. 140, p. 3082—was awarded to the Cleveland State Bank, as 4½s, paying a premium of \$50, equal to 100.16, according to the City Clerk.

equal to 100.16, according to the City Clerk.

CLEVELAND, Ohio—BOND OFFERING—Louis C. West, Director of Finance, will receive bids until noon June 7 for the purchase of \$300,000 6% coupon or registered .ity's portion paving and sewer bonds. Denom. \$1,000. Dated June 1 1935. Interest payable semi-annually on March 1 and Sept. 1. Due yearly on Sept. 1 as follows: \$27,000 1936 to 1943, incl.; and \$28,000, 1944 to 1946, incl. A certified check for 3% of amount of bonds bid for, payable to the City Treasurer, required. Principal and interest payable at the Irving Trust Co., New York. Favorable opinion of Squire, Sanders & Dempsey of Cleveland will be furnished to the successful bidder. No bids will be entertained unless on form supplied by the city.

CLEVELAND. Ohio—BONDS, SOLD, TO, UNITED, STATES—It, is

CLEVELAND, Ohio—BONDS SOLD TO UNITED STATES—It is reported that the United States Government has taken \$2,000,000 of the city's bonds for the financing of construction of a sewage disposal plant. The bonds bear 4% interest.

CLEVELAND, Ohio—FEDERAL FUND ALLOTMENT—The following press release (No. 1364) was made public recently by the Public Works Administration:

Administration:

"An allotment of \$125,000 to the Corps of Engineers, War Department, for dredging the Cuyahoga River at Cleveland, Ohio, was announced today by Public Works Administrator Harold L. Ickes.

"The allotment was made from old PWA funds and is subject to the City of Cleveland contributing \$50,000 toward the work and to the further condition that the City Council authorize an agreement with the Federal Government to protect the United States and the contractor against any damages to private property which may result.

"The dredging of the Cuyahoga River is necessary to enable ore carriers to reach plants located five miles up the river. The Corps of Engineers recommended that this work be undertaken immediately in the interests of navigation."

CLIFFSIDE PARK, N. J.—REFUNDING PLAN—The refunding plan sponsored by Borough Auditor Carl W. Wright, has been brought before the Borough Council. The proposal involves the issuance of \$132,000 funding bonds of 1935, \$495,000 improvement refunding bonds and \$497,000 funding bonds. The interest rate is 4%.

The first group will mature in 1945 and are for tax revenue notes of 1933, improvement bonds of 1929, work relief notes and dependency notes. The latter lots will mature in 1952, and '53 and are for assessment bonds and for title obligations, county taxes and unpaid school notes and road construction.

CLOVIS MUNICIPAL SCHOOL DISTRICT NO. 1 (P. O. Clovis), N. Mex.—CORRECTION—We are now informed by R. B. Worthington, County Treasurer, that the above is the correct name of this school district, not Curry County School District No. 1, as reported in these columns recently when giving the details on the \$65,000 not to exceed 5% semi-ann. school bonds, scheduled for sale on June 10—V. 140, p. 3252.

COAL CREEK, Tenn.—BONDS AUTHORIZED—It is reported that \$90,000 issue of school and sewer bonds has been authorized recently.

COLDWATER, Ohio—BONDS AUTHORIZED—The Village Council on May 6 passed an ordinance which authorizes the issuance of \$24,000 4½% town hall bonds. Denom. \$600. Dated Apr. 1 1935. Prin. and semi-ann. int. (Apr. 1 & Oct.1) payable at the Peoples Bank Co., of Coldwater. Due \$600 each six months from Apr. 1 1936 to Oct. 1 1955, incl.

CONWAY SCHOOL DISTRICT, Pa.—BOND SALE—Floyd D. Rose, District Secretary, advises us that the \$14,000 coupon bonds originally offered on April 18—V. 140, p. 2576—were sold on May 10 to 8. K. Cunningham & Co. of Pittsburgh as 4s, at a price of par. Dated May 1 1935 and due May 1 as follows: \$1,000 from 1944 to 1951, incl., and \$2,000 from 1952 to 1954, inclusive.

COOK COUNTY (P. O. Chicago), Ill.—CALL FOR 1933 CORPORATE TAX WARRANTS—Robert M. Sweitzer, County Treasurer, announces that all 1933 corporate tax warrants with datings up to and including Sept. 30 1933 are called for payment. Interest accrual will terminate on May 15 1935, if the warrants are not presented for collection on or before that date. They will be paid on presentation through any bank or to the County Treasurer.

COOK COUNTY (P. O. Chicago), Ill.—REFUNDING PROGRAM EXPECTED SOON—Early announcement of a plan for the refunding of \$46,486,310 bonds, including \$39,591,500 unmatured and outstanding issues and \$6,894,810 in default, of which \$380,000 represents 1935 maturities, is expected to be made by the county soon as a result of the signing

of an enabling bill by Governor Horner on May 6. Preliminary discussions have been held among county officials, local bankers and civic groups sponsoring the program and definite action in the matter awaits settlement of the current poor relief impasse, according to a comprehensive survey of the subject by William H. Bromage in a recent issue of the Chicago "Journal of Commerce." The refinancing, it is pointed out, would permit adjustment of present defaults and minimize the possibility of further difficulties by leveling out future maturities. If a plan is placed in operation, it is expected that holders of past-due bonds will be offered new issues of extended maturity in exchange, bearing interest at the same rates carried on the old debts. As to unmatured obligations, it is believed that the refundings to replace them will be made optional on dates corresponding to present maturities. That the county has made streneous efforts to clear up its defaults is seen in the fact that the amount of bond interest in arrears has been reduced from \$2,128,910 on Dec. 1 1934 to \$48,500 as of May 1 1935.

The article by Mr. Bromage included the following compilation showing the status of each series of county bonds as of May 1 1935:

		Principal	Amount	Outstand.	Interest
Series	Maturity	Not Due	In Default	Total i	n Default
M	1932-33		\$47.500	\$47,500

CORTLAND, N. Y.—BONDS CALLED FOR PAYMENT—C. M. DeVaney, City Clerk, announces that the 4% water bonds of April 1 1910, due April 1 1940, have been called for payment at the Chase National Bank of New York, at par and accrued interest, on July 1, after which date interest accrual shall cease. Coupons should be detached and sent through for collection in the usual way.

BONDS TO BE SOLD—City Council has authorized the issuance of

BONDS TO BE SOLD—City Council has authorized the issuance of \$150,000 not to exceed 3% interest water bonds, to mature \$10,000 annually.

\$150,000 not to exceed 3% interest water bonds, to mature \$10,000 annually.

COVENTRY, R. I.—BONDS DEFEATED—At a recent town meeting a proposal that the issuance of \$75,000 bonds be undertaken to fund the town's indebtedness was rejected, according to report.

CRANSTON, R. I.—NO BOND FINANCING CONTEMPLATED—William M. Lee, City Treasurer, reports that the city does not contemplate public sale of any new bond issues at this time, although there are several projects under consideration which are contingent upon receipt of Federal funds from the Public Works Administration. Gross bonded debt on May 1 1935 was \$3,987,500, including \$3,260,500 reported exempt by State law from debt limitation for future borrowing. Net bonded debt is placed at \$3,634,593 and, in addition, there are \$700,000 notes outstanding. Uncolected 1934 taxes, of a total levy of \$1,494,248, amounted to \$244,875, or 16 38%, as of May 1. On the same day a year ago, 13% of the 1933 levy was still unpaid.

CUMBERLAND COUNTY (P. O. Portland), Me.—BONDS RETIRED
—A bond issue of \$200,000 was paid off on May 1, according to news
reports. The bonds were floated in 1915 to finance construction of the
Portland-South Portland bridge.

CYPRESS SCHOOL DISTRICT (P. O. Santa Ana), Calif.—BONDS DEFEATED—At an election held recently, the voters are said to have defeated a proposal to issue \$58,000 in school building bonds.

DALHART, Tex.—BOND REFUNDING CONTRACT MADE—The City Council has entered into a refunding deal with the Dunne-Davidson-Ranson Co. of Wichita, Kan., which will result in the refinancing of its \$410,500 indebtedness at lower interest rates. The deal is dependent, however, upon the approval of the Bankers Life Co. of Des Moines, Iowa, holders of \$231,000 of the bonds and upon the State's acceptance of the refunding, since the permanent school fund owns \$25,000 of the securities. The Wichita firm owns \$99,000 of the city's bonds. It agrees to bear all expenses of the refunding for \$1,000. Under the terms of the proposed financing, new bonds would be issued, par for par, dated March 1 1935. They would bear 3% interest the first two years; 4% the next three years; 5% thereafter. The first principal payment would be due March 1 1941 and equal installments of principal would be due annually thereafter for 40 years.

DALLAS COUNTY (P. O. Adel), Iowa—BONDS AUTHORIZED—The County Supervisors on April 27 passed a resolution providing for the issuance of \$22.381.43 4% coupon judgment funding bonds. Denom. one for \$381.43 and 22 for \$1.000. Dated April 15 1935. Principal and semi-annual interest (May 1 and Nov. 1) payable at the County Treasurer's office. Due \$2,381.43 Nov. 1 1936 and \$5,000 yearly on Nov. 1 from 1937 to 1940 incl.

DALLAS TOWNSHIP (P. O. Dallas City), Ill.—BONDS PROPOSED
—A meeting will be held to consider a proposal to submit a Dallas Township bond issue for graveling country roads.

DALY CITY, Calif.—BONDS CONSIDERED—It is reported that the City Council is progressing with plans to call an election to vote on a bond issue of \$60,000 for various improvements.

DASSEL, Minn.—BOND ELECTION—An election will be held on May 20 to vote upon the proposition of issuing \$10,000 refunding bonds. C. M. Anderson is Village Clerk.

DAYTON, Ohio—BOND OFFERING—Director of Finance Earl Hagerman is receiving bids until noon May 17 for the purchase of \$102,000 4% % sewage plant bonds, now held in the city treasury investment fund. Due \$9,000 each year from Jan. 1 1943 to Jan. 1 1948; \$8,000 Jan. 1 1948; and \$6,000 each year on July 1 from 1943 to 1946 and \$7,000 July 1 1947.

and \$6,000 each year on July 1 from 1943 to 1946 and \$7,000 July 1 1947.

DELAWARE (State of)—BOND SALE—A group composed of the First Boston Corp., Brown Harriman & Co., both of New York and Dougherty, Corkran & Co. of Philadelphia was awarded the \$2,840,000 coupon or registered highway refunding bonds offered on May 13—V. 140, p. 2576. The bankers paid a price of 103.829 for the bonds, which bear interest rates of 2½, 2½ and 2½%. Dated April 1 1935 and due April as follows: \$100,000 from 1938 to 1965, incl. and \$40,000 in 1966. Callable at 102.50 on or after April 1 1936. The issue is divided as follows: \$1,000,000 2½%. Due \$100,000 each year from 1938 to 1947, incl. 1,000,000 2½%. Due \$100,000 each year from 1948 to 1957, incl. 840,000 2¾%. Due \$100,000 each year from 1948 to 1957, incl. and \$40,000 in 1966.

Edward B. Smith & Co. and associates bid 103.809 for the bonds; Halsey,

Edward B. Smith & Co. and associates bid 103.809 for the bonds; Halsey, Stuart & Co., Inc., 103.185; Kidder, Peabody & Co., 101.94 and Lehman Bros. 101.90.

The purchasers made public re-offering of the obligations, which are to be approved as to legality by Thomson, Wood & Hoffman of New York, at prices to yield as follows:

DENVER, Colo.—OLD-AGE PENSION PLAN TO BE VOTED UPON—The following report on a proposal to pay old-age pensions in this city amounting to \$200 a month for citizens who have reached the age of 60 years, to be passed on by the voters at the municipal election on May 21, is taken from a Denver dispatch to the New York "Herald Tribune" of May 16:

"Denver may be the first city in the country to pay old-age pensions amounting to \$200 a month to citizens who have reached the age of 60 years. Plans to adopt the Townsend old-age pension scheme are under way here with a fair chance of receiving approval. In fact, Denver may be paying old-age pensions of \$200 a month by June 1, next.

"Denver citizens will vote at the municipal election next Tuesday on an amendment to the city charter providing for collection of a 2% sales tax to pay the old-age pensions. Many observers believe the amendment will be adopted. Denver has more members of the Townsend old-age pension clubs than any city of its size in the nation, and while bankers and business and professional men have been fighting the provision many political experts believe it has a chance to become a law.

"Persons who receive the pension must agree to refrain from working and to spend the \$200 allotment in full within 30 days.

"To be eligible for a pension citizens must have lived in Denver for five years, must not have been convicted of a felony, and must abide by the charter provisions concerning the Pension Act.

The new sales taxes—which supplement the State tax passed by the last Colorado Legislature and which are being collected on all sales of more than 10 cents—will be collected on all sales, including professional services.

"The charter amendment to be voted on also provides for the selection of a board of three to administer the Pension Act. The members of the first board are elected. Each member would receive \$300 a month salary.

"Funds from the sales tax would be handled exclus

the pensioners at the rate of \$200 a month, the new charter amendment provides that the money shall be pro-rated."

DENVER, Colo.—BOND ELECTION—In connection with the report carried in these columns recently to the effect that a vote would be held May 21 on the issuance of a total of \$3.250.000 in bonds we quote in part as follows from a Denver report to the "Wall Street Journal" of May 15:

"Total bonded indebtedness of the City and County of Denver on Dec. 31 1934, after deducting sinking funds and including the city's portion of the Moffat Tunnel Improvement District bonds, was \$53.866.234. Of these, \$3.712.072 are general obligation bonds; \$20,253.161 are water bonds; \$7.572.400 local improvements; \$8.715.000 are school bonds, and \$13.613.600 are Denver's proportion of Moffat Tunnel bonds.

"The electorate will vote on May 21 on proposals to issue \$3.250.000 general obligation bonds. The largest of these is for \$2.000.000 for the construction of a sewage disposal plant and the others are \$750,000 for the purchase of a site for a technical flying school for the War Department and \$500,000 for materials and supplies as the city's part of the Federal work-relief program. The issuance of these bonds, if authorized, is contingent upon a Federal grant to aid in the construction of the sewage disposal plant, approval of the War Department's plan for the removal of the Rantoul., Ill., flying school to Denver, and the Federal relief program.

"Denver's financial condition has been maintained on a satisfactory basis during the past four years, having maintained a balanced budget and shown a surplus at the end of each year."

DENVIELE TOWNSHIP (P. O. Denville), N. J.—BOND REFUND-

DENVIELE TOWNSHIP (P. O. Denville), N. J.—BOND REFUND-ING BY H. L. ALLEN & CO.—The entire indebtedness of the township will be refinanced according to a resolution passed by the Township Committee on May 1. The operation will be placed with H. L. Allen & Co. of New York, will amount to \$600,000, and will take care of all indebtedness, including water bonds. Under this system, past indebtedness to the schools, the county, and the State will be cleared up.

The rate of interest is 4 ½ % in place of the 6% that outstanding bonds require.

Retirement will cover a period of 30 years, starting 1937.

Retirement will cover a period of 30 years, starting 1957.

DESCHUTES COUNTY SCHOOL DISTRICT NO. 1 (P. O. Bend),
Ore.—PRICE PAID—It is stated by I. Gillean, District Clerk, that the
\$35.000 issue of notes sold on May 1 to the Lumbermen's National Bank
of Bend—V. 140, p. 3082—was sold as 3¾% notes, at par. The only other
bid received was an offer of par on 4s, tendered by the State of Oregon.

bid received was an offer of par on 4s, tendered by the State of Oregon.

DETROIT, Mich.—IMPROVEMENTS IN FINANCIAL CONDITION SUMMARIZED—In connection with the recent completion of the 1935-1936 balanced budget, City Treasurer Albert E. Cobo, recounting the progress that has been made in restoring the finances of the city on a sound basis, attributed the success achieved to adoption of a practical financial program two years ago and detailed the benefits which have resulted from application of the plan as follows:

"1. It has lowered the tax burden on property, causing taxpayers to have renewed interest in their homes and property, and stimulated the building and real estate business.

"2. It has permitted the city to have sufficient cash to pay interest on its debt in accordance with the refunding program, with the result that City of Detroit bonds have climbed from \$36 to \$98.

"3. It has permitted the removal of scrip as a medium of financing, saving \$200,000 per year in costs of printing, handling and interest.

"4. It has enabled the city to borrow from banks at a 1½% rate, the lowest in the city's history.

"5. It has permitted the restoration of 10% salary cuts to municipal employees.

"6. It has enabled the city to save considerable supps through cach discussed in the city to save considerable supps through cach discussed the city to save considerable supps through cach discussed the city to save considerable supps through cach discussed the city to save considerable supps through cach discussed the city to save considerable supps through cach discussed the city to save considerable supps through cach discussed the city to save considerable supps through cach discussed the city to save considerable supps through cach discussed the city to save considerable supps through cach discussed the city to save considerable supps through cach discussed the city to save considerable supps through cach discussed the city to save considerable supps through cach discussed the city to save considerable supps through ca

"5. It has permitted the city to save considerable sums through cash discounts for prompt payment of its bills, and enabled the Purchasing Department to buy at better prices because of the knowledge that prompt payment would be made.

"7. Finally, it has resulted in the reduction of \$49,000,000 of delinquent taxes outstanding in 1932, to \$9,500,000 at the present time."

DODGE CENTER SCHOOL DISTRICT, Dodge County, Minn.—BONDS APPROVED—We are informal that a \$60,000 addition to the Dodge Center High School is scheduled to be built this summer as the result of financing plans approved recently by the board of education.

The plan includes a public works administration grant of \$15,000, a \$30,000 bond issue and use of a surplus in the school district treasury, which has been set aside for the purpose.

DORCHESTER COUNTY PUBLIC SCHOOL DISTRICT NO. 1 (P. O. C.)

DOUGLAS COUNTY PUBLIC SCHOOL DISTRICT NO. 1 (P. O. Lithia Springs), Ga.—BOND ELECTION—An election will be held June 5 for the purpose of submitting to the qualified voters, question of whether or not the school district shall issue bonds for purpose of building a school house.

DRY CREEK JOINT ELEMENTARY SCHOOL DISTRICT (P. O. Auburn), Calif.—BOND SALE—The \$6,500 5% semi-ann. school bonds offered for sale on May 7—V. 140, p. 2905—was purchased by William Cavalier & Co. of San Francisco, paying a premium of \$11, equal to 100.16. No other bids were received, according to the Clerk of the Board of Supervisions.

DUBUQUE, la.—BONDS PROPOSED—It is reported that plans are nder way for the issuance of bonds to finance the construction of a vitrified under way for the l

DULUTH INDEPENDENT SCHOOL DISTRICT (P. O. Duluth), Minn.—BOND OFFERING—Sealed bids will be received until 7:30 p. m. on May 24 by H. J. Forsberg, Clerk of the Board of Education, for the

purchase of a \$200,000 issue of refunding bonds. Interest rate is not to exceed 4%, payable J. & J. Denom. \$1,000. Dated July 1 1935. Due on July 1 as follows: \$10,000, 1938 to 1941, and \$20,000, 1942 to 1949, all incl. Prin. and int. payable at the Bankers Trust Co. in New York City. No bid will be considered at less than par and accrued interest. The approving opinion of Thomson, Wood & Hoffman of New York will be furnished. A \$5,000 certified check, payable to the Treasurer of the Board of Education, is required. \$5,000 cert. is required.

DULUTH, Minn.—BONDS AUTHORIZED—We are informed that the City Council has authorized the issuance of \$100,000 refunding bonds to retire an equal amount of bonds which had been issued in 1920.

city Council has authorized the issuance of \$100.000 refunding bonds to retire an equal amount of bonds which had been issued in 1920.

DUNSMUIR, Calif.—DEBT REORGANIZATION PLANS—According to the Dunsmuir "News" of May 3 plans to reduce the heavy burden of special assessment indebtedness against Dunsmuir property and give the delinquent property owners of the city a chance to save their homes from confiscation were revealed to a group of property owners in the City Hall Council Chamber at a recent meeting by Attorney H. A. Postlethwaite of San Francisco, engaged by the City Council to work out a settlement with the bondholders.

Street improvement and sewer bonds in the amount of \$305,000, plus interest at 7% are outstanding against Dunsmuir property for the street paving and sewer system. It is hoped to reduce this indebtedness by paying it off on the basis of 50 cents on the dollar, plus interest charges. Through voluntary arrangement with the majority of the bondholders, it is expected to accomplish the desired results.

T consummate the plan, it will be necessary for the city to call a bond election and the proposition of issuing bonds in the amount of \$152,500 submitted to the voters.

If the voters approve the proposition the city will exchange the issue for the \$305,000 worth of bonds now outstanding. Bondholders are being contacted to secure their consent to the proposition and obtain a pledge of as many bonds as possible. The bonds proposed to be issued by the city will be general obligation bonds which will be exchanged for the improvement bonds now outstanding.

The present bonds draw interest at the rate of 7%. The new bonds would pay interest at the rate of 3% the first five years, 4% the second five years, and 5% the last 10 years.

Conservatively estimated, the proposed refunding plan should save Dunsmuir not less than \$185,000.

DURHAM, N. C.—NOTE SALE—A \$50,000 issue of bond anticipation notes is reported to have been purchased by the Security Bank of Durham, at 1 ½ %, plus a premium of \$31.25.

DUVAL COUNTY (P. O. Jacksonville), Fla.—TEMPORARY BOR-ROWING—Arrangements are said to have been made by the County Board of Public Instruction to borrow \$93,000 from local banks for operating expenses.

EAGLE COUNTY SCHOOL DISTRICT NO. 1 (P. O. Red Cliff), Colo.—TO ASK PWA FUNDS—The district will apply to the Public Works Administration for a loan and grant of about \$50,000 to finance a new school building. William Hill is Secretary.

EAST CARROLL TOWNSHIP (P. O. Carrolltown), Pa.—BOND OFFERING—John S. Springer, Secretary of the Board of Supervisors, will receive sealed bids at the office of Shettig & Nelson of Ebensburg until 11 a m. (Eastern Standard Time) on June 1 for the purchase of \$3,000 5% coupon refunding bonds. Dated June 1 1935. Denom. \$500. Due June 1 1952. Interest payable J. & D. A certified check for \$60, payable to the order of the Township Treasurer, must accompany each proposal. This issue has been approved by the Pennsylvania Department of Internal Affairs.

EAST ST. LOUIS, 111.—BOND ISSUANCE PROPOSED—It is reported that the Park Board recently decided to issue \$60,000 bonds, which had been tied up in litigation.

EAST TUPELO CONSOLIDATED SCHOOL DISTRICT (P. Tupelo) Miss.—BOND OFFERING—Sealed bids will be received Byron Long, Clerk of the Board of Supervisors, until June 3, for the purch of a \$25,000 issue of 6% semi-ann. school bonds. These bonds were a proved at an election held on April 9—V. 140, p. 2738.

EDGERTON, Wis.—BONDS PROPOSED—The City Council is giving attention to a proposal to issue \$12,000 refunding bonds.

ELBERT COUNTY SCHOOL DISTRICT NO. 46 (P. O. Matheson), Colo.—BOND SALE—O. F. Benwell of Denver has purchased and is now offering to the public an issue of \$10,500 5% refunding bonds. Denom. \$1,000 and \$500. Dated June 1 1935. Principal and semi-annual interest (June 1 and Dec. 1) payable at the County Treasurer's office in Kiowa. Due yearly on Dec. 1 as follows: \$500, 1936 to 1946, incl., and \$1,000, 1947 to 1951, incl.

ELKHART COUNTY (P. O. Goshen), Ind.—BOND SALE—The \$24,700 refunding bonds offered on May 14—V. 140, p. 2905—were awarded to the Indianapolis Bond & Share Corp. of Indianapolis as 3s, at par plus a premium of \$155.61, equal to 100.63, a basis of about 2.88%. Dated May 15 1935 and due \$2,470 on May 15 from 1936 to 1945 incl. Other hidders were:

		-
Bidder—	Int. Rate	Premium
Fletcher Trust Co	3%	\$141.41
Burr & Co., Inc.	3%	120.00

Margie Warrander	21/01	24 72

ELWOOD SCHOOL CITY, Ind.—BOND SALE—An issue of \$10,000 2%% coupon refunding bonds was awarded on May 7 to the Fletcher Trust Co., of Indianapolis, for a premium of \$17.79, equal to 100.1779, a basis of about 2.82%. Denom. \$500. Dated Feb. 1 1935. Interest payable Jan. & July. Due \$5,000 Feb. 1 in 1938 and 1939.

EMMITSBURG, Md.—BONDS VOTED—The \$10,000 improvement bond issue submitted to the voters on May 6, notice of election appearing V. 140, p. 3083, was approved.

ERIE COUNTY (P. O. Erie), Pa.—BORROWS \$50.000—County Commissioners on May 14 borrowed \$50.000 from a Philadelphia banking house for use of the poor directors. They gave a four-months' note with the understanding that the directors will pay the interest charge at the rate of 1¾4%. The directors earlier attempted to borrow the money on their own note but were refused on a law technicality. The Commissioners were forced to negotiate the loan because, according to law, they are bound to turn over sufficient money for the operation of poor board affairs.

ESSEX COUNTY (P. O. Newark), N. J.—DISCUSS PARK BOND ISSUE—President Robert S. Sinclair of the Park Commission on May 6 demanded that the Board of Freeholders undertake the sale of \$200,000 bonds to complete work on Brookdale Park and finance the cost of extending Branch Brook Park. He declared that of the \$5,000,000 park bonds authorized by referendum in 1926, all but \$900,000 have been issued. The request was laid over for two weeks to permit the freeholders to inspect the parks.

parks.

EUGENE, Ore.—BOND SALE—The Baker, Fordyce, Harpham Co., of Portland, offering to pay 100.27 for the two issues of refunding bonds offered on May 13, as stated in V. 140, p. 3083, was awarded the bonds, which are described as follows:
\$137,000.00 assessment C bonds. Due yearly on July 1 as follows: \$15,000, 1937 to 1945, inclusive, and \$2.000 in 1946. Interest at 4%.

55,479.16 assessment D bonds. \$24,000 maturing \$6,000 yearly on July 1 from 1937 to 1940, incl., bear 33% interest, and \$31,479.16 maturing \$6,000 yearly on July 1 from 1941 to 1945, and July 1 1946 bear 4% interest.

Dated July 1 1935. Interest rates were named by the successful bidder, and at the price of 100.27, bonds are costing the city 3.91% average annual interest to maturity.

EUREKA. Calif.—BOND ELECTION—Date of the contemplated of the

EUREKA, Calif.—BOND ELECTION—Date of the contemplated election to vote on \$65,000 auditorium bonds referred to in V. 140, p. 3253 has been set for June 17, it is reported.

FAIRFIELD COUNTY (P. O. Bridgeport), Conn.—BONDS PRODSED—We are informed that a bill which would grant the county

authority to issue \$15,000,000 Merritt Highway completion bonds is to be introduced in the State Legislature.

FAIR LAWN, N. J.—BOND SALE—A group composed of J. S. Rippel & Co of Newark; Paine, Webber & Co. and Ewing & Co. of New York, purchased and are re-offering for public investment, at prices to yield from 3.50 to 4.60%, according to maturity. \$631,000 4½% bonds, dated June 1 1935 and due serially from 1936 to 1955 incl. They are part of a total of \$1,291,000 bonds authorized in accordance with the provisions of Chapters 60 and 233 of the Pamphlet Laws of New Jersey of 1934.

FARMVILLE, Va.—BOND SALE—The \$28,000 3½% semi-ann. refunding bonds offered for sale on May 14—V. 140, p. 3083—were awarded to Frederick E. Nolting, Inc., of Richmond, paying a premium of \$915.60, equal to 103.27, a basis of about 2.80%. Due_on Oct. 1 1948, optional after five years from date of issuance.

FARMVILLE, Va.—BOND CALL—Mayor W. C. Fitzpatrick announces that \$35,000 5% refunding series E bonds, dated Oct. 1 1918 and payable Oct. 1 1948, are called for payment on June 1 1935. Bonds are to be presented at the First and Merchants National Bank, Richmond.

FAUQUIER COUNTY (P. O. Warrenton), Va.—TEMPORARY LOAN AUTHORIZED—The Board of Supervisors is said to have authorized a \$17,000 temporary loan to care for county school expenses.

FERGUS COUNTY HIGH SCHOOL DISTRICT (P. O. Lewistown), Mont.—BONDS VOTED—The proposed \$37,000 school bonds submitted to the voters at an election on May 11, reported in V. 140, p. 2906, were approved by a vote of 363 to 169. Bonds will bear interest at 4%, and will be amortized in 20 years, but subject to call after 5 years. Offering date has not been set as yet.

FLINT, Mich.—OFFERING DATE NOT DEFINITELY SET—Director of Finance Olney J. L. Craft informs us that no definite date has been set for offering of the \$1,636,000 not to exceed 4% refunding bonds referred to in the report of a contemplated bond offering given in V. 140, p. 3083. The bonds are described as follows: Denom. \$1,000. Dated July 15 1935. Coupon bonds, may be registered as to interest. Principal and semi-annual interest (Jan. and July) payable at the Chase National Bank, of New York. Due serially on Jan. 15 from 1938 to 1948, incl. A certified check for 2% will be required with each bid. Legal opinion by Chapman & Cutler of Chicago as to validity of the general obligation bonds and by Miller, Canfield, Paddock & Stone of Detroit, as to legality of special bonds.

Canfield, Paddock & Stone of Detroit, as to legality of special bonds. FLINT SCHOOL DISTRICT, Mich.—BONDSALE—Ann MacPherson, Assistant Secretary and Treasurer of the Board of Education, informs us that the \$170,000 4% coupon refunding bonds offered on May 13—V. 140, p. 3253—were sold at public auction to the district sinking fund, following rejection of the joint sealed bid offer of the Citizens Commercial & Saving Bank and the Genesee County Savings Bank of Flint. The district purchased the issue at par plus a premium of \$700, equal to 100.41, a basis of about 3,92%. Dated March 1 1935 and due \$17,000 on March 1 from 1936 to 1945 incl. Stranahan, Harris & Co. of Toledo also bid for the bonds.

FLORENCE, Ore.—BONDS NOT SOLD—The \$8,000 issue of not to exceed 5% semi-ann. water bonds offered on April 26—V. 140, p. 2397—was not sold.

was not sold.

BONDS RE-OFFERED—Sealed bids for the purchase of the above bonds will be received until June 1, by the City Clerk, We have not been informed of any change in the particulars of the issue. Due on April 1 as follows: \$500, 1937 to 1942, and \$1,000, 1943 to 1947. Prin. and int. (A. & O.) payable at the First National Bank of Eugene. The bonds will not be sold for less than 95% of par and accrued interest. A certified check for 2% must accompany the bid. It is said that these bonds are general city obligations and carry the net earnings of the water plant and general tax levies for the retirement of principal and interest.

retirement of principal and interest.

FLORIDA, State of—LIMITATION ON GASOLINE TAX PAY—MENTS FOR ROAD BONDS PROPOSED—We are advised by Harrison, McCready & Co. of Miami that a bill (Senate Bill No. 156) is now up for consideration by the State Legislature, regulating and limiting the use of all moneys derived from gasoline taxes and credited to the account of Road and Road and Bridge Districts, of which Section I reads as follows: "Section I—Provides that no moneys derived from gasoline taxes and credited to the account of any county or road district in Florida shall be used for the payment of any interest on any bonds where interest rate exceeds 5% per annum, and that no moneys from gasoline taxes shall hereafter be applied to the payment of interest on any refunding bonds hereafter issued carrying a rate in excess of 5%."

FLORIDA. State of—REPORT ON LEGISLATIVE ACTIVITIES—

hereafter be applied to the payment of interest on any refunding bonds hereafter issued carrying a rate in excess of 5%."

FLORIDA, State of—REPORT ON LEGISLATIVE ACTIVITIES—We are informed by Samuel Brothers, an investment security firm of New York and Orlando, Fla., that due to the balance of power in the State Legislature, which has been in session since April 2, being held by the smaller counties, which are heavily over bonded and use gas tax moneys to retire their bonds at large discounts, they have been predicting right along that there would be no serious change in the present 3-cent allocation of the gas tax which now goes toward retirement of road and road district bonds and the purchase of defaulted road and road district bonds under the terms of the Kanner Act.

Our informant goes on to say that it seems fairly certain now that the Senate Taxation and Finance Committee has arrived at a definite plan whereby the schools can obtain the necessary revenue without disturbing, or in other words, taking away from the road bonds any portion of their present share of this gas tax. It is said that everything now points towards the schools being allocated the license tax revenue and constitutional one-mill ad valorem levy, interest on school funds, revenue from a tax on the finance companies, a 2% increase in the tax on insurance premiums, and a graduated occupational license and privilege tax on chain stores. These collections are reported as being estimated to yield the necessary \$10,500,000 budget de nanded by the schools.

The letter goes on to state that if this plan goes through, and they believe that everything points toward it being carried out, they expect an appreciable improvement in the market for general road and road district bonds, which market is said to have started to react about a month ago due to fears on the part of prospective bond buyers of the possible meddling with the present allocation of the gas tax.

BILL RESTRICTING BONDHOLDERS' SUITS SIGNED—Governor Shoetz has signed recently a bi

meet interest payments on bonded indebtedness, according to report.

It is stated that an agreement has been made by a legislative conference committee at Tallahassee to eliminate Federal bonds or other obligations from the debt relief bill in order to produce a bill satisfactory to both

FORDYCE SCHOOL DISTRICT, Ark.—BOND EXCHANGE—The \$208,000 3% refunding bond issue recently authorized by the State Board of Education, as stated in V. 140, p. 3252, is to be issued to present holders of outstanding bonds to effect a reduction in interest rates, we are informed by J. D. Clary, Secretary of the Board.

FOREST GROVE, Ore.—PRICE PAID—We are now informed by H. G. Bond, City Recorder, that the \$57,000 refunding bonds of 1935 sold on April 29 to E. M. Adams & Co. of Portland, as 4/5s—V. 140, p. 3083—were awarded at a price of 190.38, (not 190.176), thereby given a basis of about 4.37%. Dated May 5 1935. Due from May 5 1936 to 1955, callable on any interest payment date after May 5 1938.4

FREDERICKSBURG, Va.—BONDS SOLD—It is reported by the City Manager that the \$50,000 school bonds were approved by the voters at the election held on May 7—V. 140, p. 2577. He goes on to state that these bonds have been sold as 2s at par. Due \$10,000 from 1936 to 1940 incl. The purchaser is required to pay the cost of printing the bonds and the city will pay the cost of legal opinion.

GADSDEN, Ala.—BOND SALE—It is stated by H. C. Thomas, City Clerk, that a \$50,000 issue of $5\frac{1}{2}\%$ refunding bonds was sold recently to Milhous, Gains & Mayes of Birmingham at a price of 98.55, a basis of about 5.70%. Denom. \$1.000. Dated June 1 1935. Due on June 1 as follows: \$2,000, 1936 to 1940; \$3,000, 1941 to 1945; \$4,000, 1946 to 1950, and \$5,000 in 1951.

and \$5,000 in 1951.

GARDEN CITY, N. Y.—BOND OFFERING—Eugene R. Courtney, Village Clerk, will receive sealed bids until 4.45 p. m. (Daylight Saving Time) on May 27 for the purchase of \$50,000 3% coupon or registered paving bonds. Dated June 15 1935. Denom. \$1,000. Due June 15 as follows: \$7,000, 1936 and 1937: \$8,000, 1938, and \$7,000 from 1939 to 1942 incl. Bids may also be made for the issue to bear a higher interest rate, of not more than 6% and expressed in a multiple of ½ of 1%. All of the bonds must bear the same interest coupon. Prin. and int. (J. & D. 15) payable at the Garden City Bank & Trust Co., Garden City, or at the Irving Trust Co., New York. Bonds are general obligations of the village, payable from unlimited taxes. A certified check for 2% of the issue bid for, payable to the order of the Village Treasurer, must accompany each proposal. Legal opinion of Thomson, Wood & Hoffman of New York will be furnished the successful bidder.

GLOUCESTER, Mass.—BONDS DISAPPROVED BY ATTORNEYS—The \$70,000 1¾ % highway improvement bonds sold to Tyler, Buttrick & Co. of Boston on April 26, as stated in V. 140, p. 3084, have been disapproved by the attorneys, Ropes, Gray, Boyden & Perkins of Boston, it is stated.

GOWRIE, Iowa—BONDS SOLD—Town Clerk J. E. T. Johnson informs us that the \$80,000 6% electric light and power plant revenue bonds referred to in V. 140, p. 3254, have been sold. Dated Dec. 1 1934. Due yearly on Dec. 1 as follows: \$500, 1935; \$3,000, 1936; \$4,000, 1937 and 1938; \$5,000, 1939; \$5,500, 1940; \$6,000, 1941; \$7,000, 1942 and 1943; \$8,500, 1944; \$9,000, 1945; \$9,500, 1946, and \$11,000, 1947.

GRAFTON COUNTY (P. O. Woodsville), N. H.—NOTE SALE—\$100,000 revenue anticipation notes, maturing \$25,000 on Nov. 27 and Dec. 31 1935 and \$50,000 April 24 1936, were awarded to the Manufacturers National Bank of Detroit, on a 0.53% discount basis. Whiting, Weeks & Knowles of Boston, and the National Shawmut Bank of Boston each submitted a bid of 0.57% discount.

HOUSTON, Tex.—HOSPITAL BOND ELECTION CONTEMPLATED

An agreement is said to have been reached between the city and Harris
County on the holding of an election to vote on the proposed approval of a
\$2,000.000 city-county hospital project. It is understood that both the
city and county will make a joint application to the Public Works administration for a grant of \$1,000.000, the city to furnish two-thirds of the remaining \$1,000,000 and the county one-third.

HOWARD COUNTY (P. O. Kokomo), Ind.—WARRANTS AUTH-ORIZED—It is reported that the county authorities plan to issue \$150,000

or of the warrants.

INDIANAPOLIS UTILITIES DISTRICT (P. O. Indianapolis), Ind.—FORMAL CALL FOR BIDS ON \$8,000.000 BONDS—Formal notice has been made of the call for scaled bids until noon on May 28 for the purchase of \$8,000.000 not to exceed 5½% interest coupon (registerable as to principal) gas plant revenue bonds. The bonds were originally offered on May 4, at which time all bids were rejected, as stated in V. 140, p. 3254. As in the first instance, tenders on the loan will be received by Walter C. Boetcher, City Comptroller. Proceeds of the issue will be used to finance the acquisition of the plant and properties of the Citizens Gas Co. of Indianapolis and to provide for improvements and extensions to the system. The bonds are to be payable solely from the income and revenues of the utility and are not to be an indebtedness of the city payable out of taxes. They will be issued in denoms. of \$1,000 and mature in not less than two nor more than 40 years from date of issuance, as specified by the terms of the accepted bid. Bonds are not to be sold at a discount in excess of 5%. Principal and semi-amnual interest payable at the office of the Treasurer of Marion County or at such bank, trust company or other source in Indianapolis, Chicago, New York City, or elsewhere as may be agreed upon between the Utilities Board and the successful bidder or specified by the Board. Bids must be for all of the \$8,000,000 bonds and accompanied by a certified check for \$100,000, payable to the order of the City Comptroller. The alternative, maturities named in the offering, together with other features of the sale notice were given in full in V. 140, p. 2740. Thompson, Rabb & Stevenson of Indianapolis are counsel to the Board of Directors of the district.

INMAN SCHOOL DISTRICT, Neb.—BONDS VOTED—We learn that an \$18,000 school building bond issue was approved by the voters at an election held on May 4.

of \$26,000 bonds issued for the purpose of completing the erection of a new school building, the erection of which has been begun by the Board of School Trustees of the School City of Jasper. Denomination \$650.

JEFFERSON COUNTY (P. O. Braiffield), Iowa—BONDS PLANNED—Plans are said to be under way for the issuance of \$25,000 refunding bonds. Sigurd Jorgenson is County Auditor.

Plans are said to be under way for the issuance of \$25,000 refunding bonds. Sigurd Jorgenson is County Auditor.

JERSEY CITY, N. J.—\$5,000,000 30NDS AUTHORIZED—TO BE OFFERED IN JUNE—The Board of Commissioners of Jersey City on May 16 passed an ordinance to fund \$5,000,000 of floating debt into serial funding bonds, a preliminary report concerning which appeared in V. 140, p. 3255. Of these bonds, \$1,800,000 will be issued under the provisions of Chapter 60 of the New Jersey Pamphlet Laws of 1934, as supplemented by recently enacted legislation. The remaining \$3,200,000 will be issued under authority of Chapter 233 of the 1934 Pamphlet Laws. The issuance of bonds under Chapter 60 will automatically commit the city to operate on a cash-budget basis as defined in the recent supplement. Arthur Potterton, Director of Revenue and Finance, states that the \$5,000,000 of serial funding bonds will be offered publicly early in June. According to Norman S. Taber, financial adviser to Jersey City, the city's financial program as contemplated by the ordinance passed to-day does not differ greatly from those so successfully followed by Newark, Paterson and other New Jersey cities which have funded \$30,715,000 of floating indebtedness under the provisions of Chapter 60.

"The Act supplementing Chapter 60," said Mr. Taber, "simply means that Jersey City may borrow annually an amount which, together with the collections of second-class railroad taxes, will produce a sum equal to 80% of the second-class railroad taxes evied. This borrowing will be considered as a means of financing under Chapter 60 of this supplement, and because the delinquent railroad taxes will be pledged to secure such borrowing in any future budgets as long as the railroad taxes are in litigation.

"For 1935, this means that Jersey City may borrow about \$1,000.000. Total cash receipts, exclusive of this borrowing, are estimated at about \$25,000,000 for 1935. The current second-class railroad taxes lavy is approximately \$5,300,000 for 1935. The current second

permanent serial form of temporary indebtedness now outstanding."

JEWETT CITY, Conn.—BONDS PROPOSED—Plans are under way for the issuance of \$43,500 funding and refunding bonds, it is said.

JOHNSTOWN, Pa.—BOND OFFERING—James N. McKee, City Treasurer, will receive sealed bids until 9 a. m. (Eastern Standard Time) on June 4 for the purchase of \$198,000 coupon refunding bonds to bear interest at one of the following rates, as named by the successful bidder: 2½,2½,3,3½,3½,3½ or 4%. Dated June 15 1935. Denom. \$1,000. Due June 15 as follows: \$18,000, 1940; \$7,000, 1941; \$12,000. 1942; \$18,000, 1943; \$13,000, 1944; \$20,000 in 1945 and \$11,000 from 1946 to 1955 incl. Bonds to be refunded include those already due or to mature on or before Jan. 6 1936. Interest payable J. & D. Sale of the issue depends on approval of the bonds by the Pennsylvania Department of Internal Affairs.

JOHNSTOWN SCHOOL DISTRICT, Pa.—BOND ISSUE DETAILS—

bonds by the Pennsylvania Department of Internal Affairs.

JOHNSTOWN SCHOOL DISTRICT, Pa.—BOND ISSUE DETAILS—The district has announced the complete particulars regarding the issue of \$300.000 refunding and improvement bonds being offered for sale on June 3—as previously reported in V. 140, p. 2907. Sealed bids will be received until noon (Eastern Standard Time) on that day by George B. Hunter, Secretary of the Board of School Directors. Issue is dated June 15 1935. Denom. \$1,000. Due \$50,000 on June 15 from 1950 to 1955 incl. All of the bonds will bear one of the following interest rates, as named in the successful bid; 3, 3¼, 3¼, 3¾, 4, 4¼ or 4¼%. Bonds are registerable as to principal only. Interest payable J. & D. 15. A certified check for 2%, payable to the order of the District Treasurer, must accompany each proposal. The bonds and the interest thereon will be payable without deduction for any tax or taxes except succession or inheritance taxes, now or hereafter levied or assessed thereon under any present or future law of the Commonwealth of Pennsylvania, all of which taxes the favorable opinion of Townsend, Elliott & Munson, of Philadelphia.

All bond and interest requirements of the district have been met to date and sufficient money is available to meet any requirements for the remainder of the fiscal year. Enclose a certified check for 2%, payable to the District Treasurer.

JONESBORO SCHOOL DISTRICT, Ark.—BOND REFINANCING— In an effort to refinance the \$400,000 indebtedness which faces this district, members of the School Board have voted to enter into a contract with the Arkansas Municipal Bond Bureau.

JORDAN, N. Y.—BOND OFFERING DETAILS—Sealed bids will be received until 2 p. m. (Eastern Standard Time) on May 22 by Hugh M. Wyckoff, Village Clerk, for the purchase of \$28,000 coupon or registered improvement of 1935 bonds. They are to bear interest at a rate of not more than 6%, to be expressed by the bidder in a multiple of ½ or 1-10th of 1% and apply to the entire issue. Dated June 1 1935. Denom. \$1,000. Due \$2,000 on June 1 from 1940 to 1953, incl. Principal and interest J & D.) payable in lawful money of the United States at the Jordan National Bank, Jordan, or at the Central Hanover Bank & Trust Co., New York, at holder's option. Bonds are general obligations of the village, payable from unlimited ad valorem taxes. A certified check for \$580, payable to the order of the village, must accompany each proposal. The approving opinion of Hawkins, Delafield & Longfellow of New York will be furnished the successful bidder.

KALAMAZOO CITY SCHOOL DISTRICT (P. O. Kalamazoo), Mich.—BOND OFFERING—H. W. Anderson, Secretary of the Board of Education, will receive sealed bids until 7 30 p. m. (Eastern Standard Time) on June 3 for the purchase of \$160,000 series No. 26R refunding bonds. Dated June 15 1935. Denom. \$1,000. Due \$10,000 on June 15 from 1939 to 1954 incl. Rate of interest to be named by the bidder. Principal and interest (J. & D. 15) payable at the First National Bank & Trust Co., Kalamazoo. A certified check for 2% of the bonds bid for, payable to the order of the Treasurer of the Board of Education, must accompany each proposal. Legal opinion of Chapman & Cutler of Chicago will be furnished the successful bidder. Bonds will be furnished, printed and delivered at the expense of the district.

and delivered at the expense of the district.

Financial Statement (May 15 1935)

The School District of the City of Kalamazo, Mich., comprises the entire City of Kalamazo and a portion of the Township of Kalamazo adjacent to the city. The estimated population of the school district is 65,000. The total bonded debt of the school district, as of May 15 1935, amounts to \$1,978,000. There are no outstanding loans, scrip, or other unpaid obligations as of May 15 1935. This district has never defaulted in the payment of any due item, bonds, interest or otherwise, except for two months' salary in 1933, caused by the bank moratorium; these are now paid in full. The taxable valuation of the school district is \$78,-062,955. The school tax rate for 1934-35 is: Operation, 7.90 per \$1,000 valuation; debt service, 3.30 per \$1,000 valuation. There is no litigation or controversy pending or threatened concerning this issue of bonds, the corporate existence of boundaries of the school district, or the title of the present offices. This district operates under the General School Laws of Michigan as a city of the third class, Act 319 of the Public Acts of 1927. The proceeds from this bond sale will be used directly to pay a like amount of bonds to be refunded by this issue.

The budget for next year, 1935-36, will contain \$106,000 for the payment of serial bonds falling due during that fiscal year, and an amount to pay interest, when due, on all outstanding bonds. Interest coupons on the proposed refunding bond issue will be paid semi-annually at the First National Bank & Trust Co., Kalamazoo, Mich., on June 15 and Dec. 15 of each year.

KAMIAH HIGHWAY DISTRICT (P. O. Kamiah), Ida.—BOND CALL—Notice is given that the following bonds were called for payment on May 1: Bonds Nos. 21-50 incl., dated July 1 1922, of denomination of \$1,000 each, bearing interest of 6%, payable semi-annually on Jan. and July 1 of each year, and aggregating in all \$30,000, bonds maturing on July 1 1942. Holders are notified to present these bonds for redemption at office of Highway District Treasurer.

KANSAS CITY, Mo.—TEMPORARY BORROWING—It is reported that the city will borrow \$600,000 at 1 ½ % to operate on a cash basis from May 1 until tax returns are gathered.

* KANSAS CITY, Kan.—BOND ORDINANCE—An ordinance was passed recently providing for the issuance of bridge bonds in the sum of \$8,118 for the purpose of constructing a bridge over Jersey Creek on Third Street in the City of Kansas City. Howard Payne is City Clerk.

KEOTA, Iowa—BONDS SOLD—It is reported by the Town Clerk that the \$8,000 water works refunding bonds mentioned in these columns recently—V. 140, p. 2228—have been purchased by the White-Phillips Co. of Davenport.

the \$3,000 water works refunding bonds mentioned in these columns recently—V. 140, p. 2228—have been purchased by the White-Phillips Co. of Davenport.

KETCHIKAN, Alaska—BOND SALE—B. J. Van Ingen & Co., Inc., and James H. Causey & Co., Inc., both of New York, have purchased and are reoffering for public investment, at prices to yield from 4 to 4.50%, according to maturity, a new issue of \$960.000 5½% public improvement bonds. Dated March 1 1935. Due March 1 as follows: \$60.000, 1940; \$50.000, 1941 to 1946, incl.; \$60.000, 1947 to 1951, incl.; \$75.000 from 1952 to 1955, incl. Prin. and semi-ann. int. payable at the Marine Midland Trust Co., New York. Legality to be approved by Thomson, Wood & Hoffman of New York. Legality to be approved by Thomson, Wood & Hoffman of New York. The bonds, according to the bankers, are fully tax exempt throughout the United States to the same extent as the United States Liberty 3½% bonds and are self-liquidating. Authority for the issue, proceeds of which will be used to finance the acquisition by the city of the local electric light plant, is contained in an Act passed recently by the United States Senate, following similar approval in the House.

The following additional information has been taken from a statement prepared by the bankers:

These bonds have been authorized by an Act of Congress of the United States, are exempt as to both principal and interest from all taxation imposed by authority of the United States or any local taxing authority of any State, except estate, inheritance and gift taxes. The proceeds of the sale of this issue of bonds will be used for acquiring the electric light, power, water and telephone properties of the Citizens Light Power & Water Co. of Ketchikan, Alaska. These bonds are a direct charge on the net revenues derived from the operation of the electric light, power, water and telephone properties. The City of Ketchikan binds itself to establish and maintain such rates as will always provide a sufficient amount to pay principal and interest on t

KIDDER-HARRIS HIGHWAY DISTRICT (P. O. Grangeville), Idaho—BOND OFFERING—Sealed bids will be received until 7 30 p.m. on May 18 by Charles L. George, District Secretary, for the purchase of a \$19,000 issue of refunding bonds. Interest rate is not to exceed 6%, payable semi-annually. Denom. to be any multiple of \$100, but not in excess of \$1,000. Dated May 1 1935. Due \$2,000 in 1937 and 1938 and \$3,000 in 1939 to 1943. The district reserves the right to redeem any or all bonds of the last maturity on or after one year from date on any interest payment date. Prin. and int. payable at the office of the District Treasurer or at the State Treasurer's office, or at some bank or trust company in New York or in the State of idaho. A certified check for 2% of the amount bid, payable to the District Treasurer, is required.

KINGSTON, N. Y.—BOND OFFERING DETAILS—Official announce-

kingston, N. Y.—Bond offering details of the amount ment has been made of the intention of the city to sell the issue of \$150.000 work and home relief bonds previously referred to in V. 140, p. 3085. Sealed bids will be received by City Treasurer C. Ray Everett until 1 p.m. (Eastern Standard Time) on May 27. Bonds will be issued in coupon or registered form at an interest rate of not more than 5%. Bidder to name a single interest rate on the loan, expressed in a multiple of ½ or 1-10th of 1. Bonds bear date of June 1 1935. They are designated general bonds of 1935. of \$1,000 denom., and will mature \$15,000 each year on June 1 from 1936 to 1945, incl. Prin. and int. (J. & D.) payable in lawful money of the United States at the City Treasurer's office. Bids must be for the entire issue and accompanied by a certified check for \$3,000, payable to the order of the city. The opinion of Hawkins, Delafield & Longfellow of New York to the effect that the bonds are valid and legally binding obligations of the city, payable from unlimited ad valorem taxation, will be furnished the successful bidder.

KIOWA COUNTY SCHOOL DISTRICT NO. 8 (P. O. Chivington) Colo.—BONDS VOTED—A proposal to issue \$17,000 4½% refunding bonds, to retire from 1937 to 1956, was approved by the voters at an election on May 6. Dated June 1 1935.

KLAMATH FALLS, Ore.—BONDS DEFEATED—By a vote of 2,119 "against" to 1,422 "for," the people on May 7 defeated the proposal to issue \$1,500,000 municipal water system bonds.—V. 140, p. 2908.

KLEMME, Iowa—BOND SALE—The \$10,500 3½% coupon waterworks bonds offered for sale on May 10, notice of the offering appearing in V. 140, p. 3085, were awarded to the First National Bank of Klemme for a premium of \$237, equal to 102.257, a basis of about 3.25%. Denom. \$500. Dated May 1 1935. Interest payable May and Nov. Due serially in 20 years: subject to call at any time.

KUTZTOWN, Pa.—BOND OFFERING—W. J. Frey, Borough Secretary, will receive sealed bids until June 15 for the purchase of \$16,000 park bonds. Dated June 15 1935. Due in 1940: optional in 1937. The issue was approved at an election held April 30.

LAERMA TOWNSHIP (P. O. Mt. Pulaski), III.—BCND ELECTION PETITIONED—Petitions asking for a special election to vote on a proposed bond issue with which to gravel the remaining dirt roads of the township have been filed with L. E. Hunt, Township Clerk.

LA GRANGE COUNTY (P. O. La Grange), Ind.—BONDS AU-THORIZED—The County Council recently authorized an issue of \$40,000 poor fund bonds, it is stated.

LAKE COUNTY (P. O. Crown Point), Ind.—\$600,000 RELIEF BONDS SOLD AT 3 % INTEREST—Although the county announced an award on April 27 of \$600,000 relief bonds to John Nuveen & Co. of Chicago, on a bid of 10.1.13 for \$300,000 as 2 \(\frac{1}{2} \) s and \$300,000 as 3.10s—V. 140, p. 3085—it was subsequently arranged to accept an alternative bid of par for all of the bonds as 3s and the sale was then made on that basis.

LARIMER COUNTY SCHOOL DISTRICT NO. 30 (P. O. Estes Park), Colo.—BONDS VOTED—On May 6 the residents of the district gave their approval to a proposed bond issue of \$55,000 for refunding of school bonds outstanding. The new bonds will bear 4% interest and will mature \$5,000 yearly from 1936 to 1946. Dated Nov. I 1935.

**LAWRENCE, N. Y.—OFFERING DATE NOT DETERMINED—Edward R. Jeal, Village Clerk, informs us that the date of the offering of the \$30,000 sewer bonds referred to in —V. 140, p. 3256—is undetermined.

LEBANON, Va.—BONDS VOTED—It is stated by the Town Clerk that a recent election the voters approved the issuance of \$15,000 in 4%

water system bonds by a count of 95 to 1. Dated July 1 1935. Due as follows: \$500. 1936 to 1943, and \$1,000,1944 to 1954. It is said that the date of sale has not been set.

LENAWEE COUNTY (P. O. Adrian), Mich.—PAYMENT OF COVERT ROAD BONDS—County Road Commission is completing payment of \$30.712.50 in Covert road bonds and interest due May 1, which wipes out the county's Covert obligations on bonds sold for county roads. The county still has over \$24,494.28 on bonds sold by the State for a road on the Lenawee-Monroe County line and \$106,043.50 in township road bond obligations.

LEWISTON, Pa.—BONDS AUTHORIZED—It is reported that the Borough Council has decided to erect a new borough hall, having recently passed a resolution to that effect, and authorizing the issuance of bonds to finance the project.

**LEXINGTON, Mass.—NOTE SALE—The issue of \$20,000 water construction notes offered on May 14—V. 140, p. 3256—was awarded to Tyler, Buttrick & Co. of Boston, as 1¼s, at a price of 100.03, a basis of about 1.24%. Dated May 1 1935 and due \$4,000 each year from 1936 to 1940 incl. The Lexington Trust Co. bid par for 1¼s, while bids for 1½s included offers of 100.062 and 100.06 by Blyth & Co. and Faxon, Gade & Co., respectively.

Other hidders were as follows:

Other bidders were as follows: Bidder—	Int. Rate	Rate Bid
Bond, Judge & Co	1.25%	100.23
Newton, Abbe & Co	1.50%	100.016
Merchants National Bank	1.50%	100.01
Estabrook & Co	1 750%	100 436

LIBERTY, Richland County, Wis.—BOND ELECTION—The town is to hold a special election on May 28 to vote on the question of bonding the town for the purpose of putting gravel on the town and part of the county roads in the town.

LITTLE FALLS, N. J.—BONDS APPROVED ON FIRST READING—An ordinance which would authorize the issuance of \$136,000 bonds to refund outstanding indebtedness was recently passed on first reading in the Township Committee.

LITTLE ROCK, Ark.—BONDS AUTHORIZED—At an election held on May 13 the issuance of \$50,000 in bonds was authorized to refund outstanding warrants under the provisions of Amendment No. 10, which authorizes municipalities and counties to issue bonds to cover outstanding indebtedness.

In a suit involving Prairie County the validity of the said amendment was upheld recently by the State Supreme Court. The City Council is said to have authorized the City Clerk to proceed with the issuance of these

LONE PINE UNION HIGH SCHOOL DISTRICT (P. O. Independence), Calif.—BOND ELECTION NOT SCHEDULED—It is reported by the County Clerk that it is possible no election will be held this year to have the voters pass on the school bonds mentioned recently.—V. 140 p. 2908.

LOS ANGELES METROPOLITAN WATER DISTRICT, Calif.—BOND SALE—The \$11,164,000 Colorado River waterworks bonds offered on May 10, as stated in V. 140, p. 2742, and 2908, were awarded to the Reconstruction Finance Corporation, the only bidder, at par for 5% bonds. Due yearly on June 1 as follows: \$310,000, 1950 to 1981, incl., and \$311,000 1982 to 1985, inclusive.

Valuation, \$4,227.525.00. Population 1910, 3,340; 1920, 4,418; 1930, 8,316. Bonded indebtedness, \$58,000. Serial bonds, latest date of maturity, 1945. Balance bond retirement fund, \$9,572.31. Balance replacement, \$10,000. Balance general fund, \$8,974.20.

MAHANOY TOWNSHIP SCHOOL DISTRICT (P. O. Mahanoy City), Pa.—BONLS APPROVED—The Bureau of Municipal Affairs on May 7 approved the issue of \$65,000 5% school bonds which had been awarded a few days previously to M. M. Freeman & Co. of Philadelphia at 106.51, a basis of about 4.56%. Dated April 15 1935 and due in 25 years.

MARENGO, III.—BONDS PROPOSED—A bond issue to "green" the city out of debt" has been presented to the Common Council. It would take approximately \$55,000 bonds to pay off all obligations of the city now outstanding.

MARIPOSA COUNTY HIGH SCHOOL DISTRICT (P. O. Mariposa), Calif.—BOND ELECTION NOT HELD—It is stated by the County Clerk that no election has been held as yet to vote on he proposed issuance of \$120,000 in high school building bonds. It has previously been reported that an election on this matter would be held March 29—V. 140, p. 1341.

MARLBORO, Mass.—BONDS CONSIDERED—The City Council is reported to be giving its attention to an order calling for the issuance of \$40.000 in obligations to provide for the purchase of materials to be used in work relief projects.

MARTINS FERRY, Ohio—BONDS AUTHORIZED—An ordinance has been passed by the City Council which authorizes the issuance of \$12,000 fire apparatus purchase bonds. Dated July 1 1935. Due \$1,200 yearly on Sept. 1 from 1936 to 1945, inclusive.

MARTINSVILLE, Ind.—BONDS PROPOSED—An ordinance which would permit the city to issue \$12,500 bonds to cover floating debt which the budget cannot provide for was recently passed by the City Council on first reading, it is reported.

MASSACHUSETTS (State of)—MUNICIPAL UTILITY OWNER-SHIP BILLS DISAPPROVED—The Legislative Power and Light Committee has reported adversely 19 bills seeking to make more easy the establishment of municipal lighting plants in Massachusetts. At the same time the Committee reported adversely two temporary rate bills which would permit the Department of Public Utilities to establish lower temporary rates pending the taking over of plants by municipalities.

MASSACHUSETTS (State Of)—INCREASE IN COLLECTION OF LOCAL TAXES—The following report on continuation of the trend toward higher collection of taxes by cities in the State appeared in a recent issue of the Boston News Bureau:

During the first quarter of this year there was seen a continuation of the improvement in tax collections by Massachusetts cities first significantly in evidence at the beginning of this year. As of April 1, last, the 39 cities of the State had failed to collect \$38,377.161, of 23.43% of the 1934 levy of \$163,775.857, whereas on April 1 1934 they had failed to collect \$40,371.149, or 25.4% of the 1933 levy of \$159,110.654. On April 1 1933, there was outstanding 25.8% of the total 1932 levy.

In the first three months of this year the cities collected \$15,704.038 or 9.59% of last year's levy, while in the first quarter of 1934 they collected \$14.157.875 or 8.9% of the 1933 total.

Boston was one of the few large cities to show a less satisfactory ratio of collections on April 1 than one and two years ago. It had failed to collect 23.74% of the 1934 total, against 22.3% one year and 21.4% two years ago. Most of the large cities improved their showing, some of them substantially. Fall River's ratio of uncollected taxes was down to 9.83% from 17.9%, Lynn's to 16.31% from 22.6%, Newton's to 14.43% from 22.3%, Springfield's to 14.68% from 27.8% and Worcester's to 21.71% from 30.5%.

In the following table are given amounts of taxes not collected by the 11 largest Massachusetts cities on April 1 of this year, 1934 and 1933, together with percentages of respective levies thus represented (000 omitted):

	1934 Taxes Uncollected	%	1933 Taxes Uncollected	%	1932 Taxes Uncollected	%
	Apr. 1 '35	Uncol.	Apr. 1 '34	Uncol.	Apr. 1 '33	Uncol.
Boston	\$14.969	23.74	\$13,222	22.3	\$14.454	21.4
Cambridge	1.537	21.80	1.426	22.8	1.640	22.8
Fall River	452	9.83	791	17.9	1.293	27.9
Lawrence	873	22.11	839	23.6	1.001	24.6
Lowell	1.309	30.17	1.293	30.5	1.406	28.3
Lynn	783	16.31	1.053	22.6	1.328	26.8
New Bedford	756	16.24	880	19.2	1.287	24.2
Newton	635	14.43	903	22.3	921	22.1
Sommerville	1.314	29.66	1.194	30.6	1.503	30.0
Springfield	1.257	14.68	2.394	27.8	2.707	27.9
Worcester	2.129	21.71	2.148	30.5	3.781	32.7

MATAMORAS, Pa.—Public Service Commission recently authorized the borough to purchase and operate the water works of the Matamoras Citizens Water Co. The borough's petition placed the purchase price at \$77,500 to be financed by bond issue.

MAYBEE, Mich.—BOND ELECTION—A special election has been called for May 18, at which the voters will consider an issue of \$5,000 street improvement bonds.

MECHANICVILLE, N. Y.—BOND SALE—The \$40,000 coupon or registered public welfare bonds offered on May 14—V. 140, p. 3256—were awarded to the Manufacturers & Traders Trust Co. of Buffalo as 2.40s, at 100.147, a basis of about 2.37%. Dated May 1 1935 and due on Nov. 1 as follows: \$4,000 from 1936 to 1940, incl., and \$5,000 from 1941 to 1944, incl. Second high bidder was the New York State National Bank of Albany at 100.035 for 2.75s.

▶ MEMPHIS, Tenn.—BOND OFFERING—Sealed bids will be received until 2:30 p.m. on June 11 by D. C. Miller, City Clerk, for the purchase of \$648,000 in coupon bonds, described as follows: \$250,000 improvement bonds. Due \$10,000 from June 1 1938 to 1962,

inclusive.

209,000 improvement bonds. Due on June 1 as follows: \$9,000, 1938 to 1946, and \$8,000, 1947 to 1962, all inclusive.

125,000 airport bonds. Due on June 1 as follows: \$4,000, 1936 to 1960, and \$5,000, 1961 to 1965, all inclusive.

64,000 refunding bonds. Due on June 1 as follows: \$12,000, 1938, and \$13,000, 1939 to 1942.

Bidder will name integer to the content of the product of the

\$13,000, 1939 to 1942.

Bidder will name interest rate in a multiple of ½ or 1-10th of 1%. No higher rate of interest shall be chosen than shall be required to insure a sale at par and all bonds of each issue shall bear the same rate of interest. This is to be construed as prohibiting a split rate on any single issue, all issues, however, are not required to bear the same rate of interest. Bidders may bid for any one issue or all of the issues, but no bid for any issue will be considered unless it is a bid for all of the bonds of such issue. Comparison of bids will be by taking the aggregate of interest on all issues at the rates named in the respective bids and deducting therefrom the premiums to determine the net interest cost to the city. Denom. \$1.000. Dated June 1 1935. Prin. and int. (J. & D.) payable at the City Hall, or at the Chemical Bank & Trust Co. in N. Y. City, or at the office of the fiscal agent of the city in New York. The approving opinion of Thomson, Wood & Hoffman of New York will be furnished the bidder. The city will have all bonds prepared without cost to the purchaser. A certified check for 1% of the amount of bonds bid for must accompany each bid, payable to the city.

MENA, Ark.—PROPOSED BOND ISSUANCE ENJOINED—A recent

MENA, Ark.—PROPOSED BOND ISSUANCE ENJOINED—A recent Supreme Court decision is said to have restrained the city from proceeding with the issuance of \$35,000 in hospital bonds that were approved by the voters on Dec. 22 1934. The Court ruled that the constitutional debt limit of 5 mills may be exceeded by a municipality only for water works and electric plant purposes.

METHUEN, Mass.—BOND SALE—Faxon, Gade & Co. of Boston were awarded on May 15 an issue of \$45,000 municipal relief bonds as 2½s at 100.13, a basis of about 2.475. Dated May 1 1935 and due serially from 1936 to 1944, inclusive. Other bidder was Tyler, Buttrick & Co. of Boston, offering 100.13 for 2½s.

MEXICO, Mo.—BONDS VOTED—It is reported that the voters have given their approval to the issuance of \$88,000 in sewage disposal plant bonds, authorized recently by the City Council—V. 140, p. 2742.

MIDDLESBORO, Ky.—COURT UPHOLDS ISSUANCE OF MUNIC-IPAL PLANT BONDS—The State Court of Appeals on May 7, upheld the right of the City Commissioners to issue \$326,000 in electric light and power plant bonds, according to report. The right of the city to issue these bonds had been challenged some time ago by the Kentucky Utilities Co. The company obtained an injunction which prevented the city from proceeding with the said project.

MIDLAND, Mich.—BONDS VOTED—It is reported that on May 6 the voters gave their approval to a proposed bond issue in the amount of \$282,-000 to finance the construction of a high school building. A favorable vote of 531, against a negative ballot of 260 gave four votes in excess of the two-thirds required for approval.

MIDLAND SCHOOL DISTRICT, Mich.—BONDS VOTED—At an election held recently an issue of \$282,000 school building construction bonds was authorized by a vote of about 4 to 1.

BOND OFFERING—The Board of Education will receive sealed bids until 2 p. m. (Eastern Standard Time) on May 28 for the purchase of the above issue. Bonds will bear interest at not more than $4\frac{1}{2}\%_{\star}$ and mature on June 15 from 1936 to 1940 incl.

MILLVILLE, N. J.—DESCRIPTION OF BONDS—The \$230,000 refunding bonds which are to be exchanged for bonds now outstanding will bear interest at a rate not to exceed 5% and are being issued to retire the following bonds:

Assessment Paving Bonds— Due Curbs (Ordinance 355) 1936 Broad Street curbs 1940 1924 Paving 1936 1925 Paving 1935 1926 Paving 1937 1927 Paving 1937	Assessment Sewer Bonds— Due West Side Sewer — 1935 Sewer Extension No. 14 — 1936 Sewer Extension No. 23 — 1937
West Millville paying 1936	

The new bonds will mature yearly on July 1 as follows: \$15,000 from 1936 to 1947, incl.; \$16,000, 1948, and \$17,000, 1949 and 1950.

The new bonds will mature yearly on July 1 as follows: \$10,000 from 1950 to 1947, incl.; \$16,000, 1948, and \$17,000, 1949 and 1950. ■

MINNESOTA, State of—CERTIFICATE OFFERING—Sealed bids will be received until 10 a. m. on May 27, by Theodore H. Arens, Conservator of Rural Credit, for the purchase of a \$500,000 issue of certificates of indebtedness. Denom. \$1,000 each, unless larger denominations are specified in the bid of the successful bidder. Dated June 1 1935. Due on June 1 1936. The certificates will be issued by authority granted to the Conservator under Section 10, Chapter 429, Sessions Laws, 1933. All bids shall be subject to accrued interest to date of delivery. An opinion regarding the legality of this issue by the Attorney-General, will be furnished the purchaser. The certificates will be sold at face value at the lowest interest rate obtainable. A certified check for \$5,000, payable to the State Treasurer, must accompany the bid.

ADDITIONAL OFFERING—Sealed bids will also be received at the same time by the Conservator of Rural Credit certificates of indebtedness, award to be made at face value at the lowest interest rate obtainable. Denom. \$1,000. Dated June 1 1935. Due June 1 1936. Certified check for \$3,000 payable to the State Treasurer, required.

MONTGOMERY, Ala.—BOND SALE DETAILS—The \$79,000 refund-

MONTGOMERY, Ala.—BOND SALE DETAILS—The \$79.000 refunds bonds that were purchased at par by Watking Morrow & Co. of Picture 19 and Picture 19 ing bonds that were purchased at par by Watkins, Morrow & Co. of Birmingham on May 7—V. 140, p. 3257—are dated May 1 1935 and bear interest at 5%. Coupon bonds in the denomination of \$1,000. Due on May 1 1965. Interest payable M. & N.

MORGAN COUNTY SCHOOL DISTRICT NO. 4 (P. O. Weldona), Colo.—BONDS VOTED—The issuance of \$15,000 4 \(\frac{1}{2} \) % school refunding bonds was voted by the electors at an election held on May 6. Dated June 1 1935. Due \$1,000 yearly from 1936 to 1950, inclusive.

MORRIS, Minn.—BOND ELECTION—At an election to be held on June 18 a proposed bond issue for \$150,000 to finance a municipal light and power plant is to be submitted to the voters for approval.

MOUNTAIN IRON, Minn.—BOND OFFERING—The \$70,000 heat, water and light system bonds recently voted, as stated in—V. 140, p. 3257—are being offered for sale on June 1, on which date bids will be received by Steven Bianchi, Village Clerk, until 7.30 p. m. Interest rate is not to exceed 6%, and sale will not be made at less than par and accrued interest. Certified check for 10% of amount of bid required.

CERTIFICATE OFFERING—The Village Clerk will also receive bids until 7.30 p. m. May 27 for the purchase of \$6,300 certificates of indebtedness, which are to mature on or before Dec. 31 1935.

ness, which are to mature on or before Dec. 31 1935.

MT. UNION CONSOLIDATED SCHOOL DISTRICT (P. O. Mt. Union), Iowa—BONDS SOLD—It is reported by the Secretary of the Board of Education that the \$16,000 refunding bonds mentioned in these columns recently—V. 140, p. 2400—were sold on May 1. Denom. \$1,000. Dated May 1 1935. Due serially. Prin. and int. payable at a local bank.

MOUNT VERNON, N. Y.—BONDS PROPOSED—We are informed that the Common Council has engaged Caldwell & Raymond of New York to draw up an ordinance which would permit the issuance of \$23,000 Department of Public Works equipment bonds.

MUSCODA TOWNSHIP, Wis.—BONDS VOTED—It is reported that

ment of Public Works equipment bonds.

MUSCODA TOWNSHIP, Wis.—BONDS VOTED—It is reported that an issue of \$30,000 road bonds was recently approved by the voters.

NANTICOKE, Pa.—BONDS PROPOSED—Permission has been granted by State officials to float a \$60,000 bond issue. It is expected that about two months will elapse before the issue is floated, but the ordinance providing for it will be presented before Council at its next meeting on May 21. The city's present bonded indebtedness is \$199,500. About \$35,000 of the issue will be used to cancel the 1927 bond issue, which originally totaled \$70,000, paying interest at the rate of 5%. The new issue will be a saving to the city inasmuch as the bonds will bear between 2 and 3% interest. The balance of the money will be used for street repairs.

NASHVILLE. Mich.—RONDS AUTHORIZED—We learn that an

NASHVILLE, Mich.—BONDS AUTHORIZED—We learn that an ordinance was passed recently to authorize the issuance of \$20,000 water system improvement bonds.

NAVAJO COUNTY (P. O. Holbrook), Ariz.—BOND SALE—A block of \$124,000 4½% road refunding bonds has been sold to Beetcher & Co. and others. Denom. \$1,000. Dated June 1 1935. Due yearly on June 1 as follows: \$4,000, 1942; and \$5,000, 1943 to 1966, inclusive.

as follows: \$4,000, 1942; and \$5,000, 1943 to 1966, inclusive.

NEBRASKA CITY, Neb.—BOND CALL.—Ethel Gaskill, City Clerk, is calling for payment either at the office of Ware Hall and Co., Omaha, or at the office of county treasurer of Otoe County, Nebraska City, as of June 1 1935, on which date interest ceases, the following bonds: \$273,000 refund. 4½% bonds, dated June 1 1930, due June 1 1950, and optional June 1 1935, bond Nos. 1 to 273 incl.; \$45,000 refund. 4% bonds dated Dec. 15 1930, due Dec. 15 1950 and optional any time, bonds Nos. 3 to 47 incl.; \$14,000 Sewer District No. 9, 4½% bonds dated Sept. 1 1932, due Sept. 1 1937, optional any time, bonds Nos. 7 to 20 incl.; \$4,000 Paving Dist. No. 30, 4½% bonds, dated Mar. 1 1929, due Mar. 1 1939, and optional any time, bonds Nos. 4 to 7 incl.; \$3,000 paving district No. 33, 4½% bonds, dated Nov. 1 1930, due Nov. 1 1940 and optional any time, bonds Nos. 3 to 5 incl.

NEBRASKA CITY SCHOOL DISTRICT (P. O. Nebraska City), Neb.—BOND REFUNDING AUTHORIZED—The Board of Education at a recent meeting authorized the issuance of \$60,000 bonds for the purpose of refunding a like amount of 4½% bonds now outstanding, and which were issued Oct. 1 1930 and became subject to call Oct. 1 next. It is said that bids are being asked on the bonds for award on May 13.

BONDS SOLD—It is stated by the Secretary of the Board of Education that the above bonds were sold on May 13 to the Farmers Bank of Nebraska City as 2½s, paying a premium of \$500. equal to 100.83.

NEW BEDFORD, Mass.—BOND SALE—A group composed of Newton, Abos & Co., Brown Harriman & Co. and Arthur Perry & Co., Inc., all of Boston, purchased on May 15 an issue of \$400,000 poor relief bonds as 3s, at a price of 100.10.

NEWBURYPORT, Mass.—TAX RATE AT NEW HIGH—The city's tax rate for 1935 was announced recently as \$43.60, the highest in its history. It is an increase of \$3.60 over 1934. The previous high was \$41.60 in 1932. Chief reason for the jump are larger appropriations, the replacement of the burned shellfish treatment plant, decrease in State tax receipts, and increase in the county tax.

Some surprise was occasioned when the assessors announced that the conflagration of last May did not affect the city's valuation as new property has made up the loss in valuation.

NEW PHILADELPHIA, Ohio—BOND OFFERING—The \$10,500 bonds which we reported in—V. 140, p. 3086—would be offered for sale about May 10, are being offered on May 28. Roy L. Swinderman, City Auditor will receive bids until noon on that date for the purchase at not less than par and interest of \$10,500 5% coupon refunding bonds. Denoms. 1 for \$500 and 10 for \$1,000. Dated April 1 1935. Int. payable semi-ann. on April 1 and Oct. 1. Due yearly on Oct. 1 as follows: \$500, 1936, and \$1,000. 1937 to 1946, incl. Bids may be submitted for bonds bearing less than 5%, but rate must be expressed in a multiple of ¼%. Certified check for \$105, payable to the city, required.

\$1,000, 1937 to 1946, incl. Bids may be submitted for bonds bearing less than 5%, but rate must be expressed in a multiple of ¼%. Certified check for \$105, payable to the city, required.

NEW LONDON, Conn.—DEBT REPORT—A recent statement of the financial condition of the city fixes the gross bonded debt at \$3,073,000 and net debt at \$1,888,697, while the legal limit for additional debt exceeds \$1,000,000. Unfunded obligations total \$925,000. The city closed the fiscal year ended Sept. 30 1934 with a surplus of \$66,334, while the excess of receipts over appropriations in the previous fiscal period amounted to \$100,615, it is said. Tax collections 1934 were 75% of the total levy, compared with 73% the previous year.

NEW YORK, N. Y.—SELLS \$11,100,000 TEMPORARY ISSUES—A syndicate composed of the National City Bank, P. W Pressprich & Co., Lazard Freres, F. S. Moseley & Co., Baker, Weeks & Harden and Dominick & Dominick, all of New York, was awarded on May 17 a total of \$11,100,000 temporary obligations of the city, paying par plus a premium of \$300 for 1.35s. The sale consisted of \$9,100,000 special corporate stock notes, dated May 20 1935 and payable April 10 1936. The \$2,000,000 issue has been placed privately; while the remaining \$9,100,000 are being re-offered to yield 1%. No public advertising for bids was made, tenders on the obligations having been solicited by Comptroller Frank J. Taylor from a selected list of banks and investment banking houses. Two other bids were received in response to the invitation, aside from that of the National City Bank, which bid, incidentally, for all or none. These included an all or none offer by the Chase National Bank, Salomon Bros. & Hutzler and Brown Harriman & Co. to purchase the loans at 1¼% Interest, at par plus a premium of \$555. The final tender was that of the Marine Midland Trust Co. of New York, which agreed to pay a premium of \$25 for the \$2,000,000 special revenue bonds to bear 1% interest. The processed of the sale will be used by the city for the following purp

NEW YORK, N. Y.—BILL PROVIDES FOR SALE OF BONDS TO PWA—Under the provisions of the Devany bill, signed recently by Governor Lehman as Chapter 784, Laws of 1935, the city is authorized to issue and sell serial and (or) assessment bonds to the Public Works Administration or any other similar agency of the Federal Government for the purpose of financing those public improvements authorized by the Board of Estimate and Apportionment between April 1 1935 and July 1 1937, which are to be financed in whole or part by local assessments upon the property improved thereby.

NEWTON COUNTY (P. O. Kentland), Ind.—BOND OFFERING—W. Emory Towers, County Auditor, will receive sealed bids until 10 a. m. on June 1 for the purchase of \$5,152 6% ditch construction bonds. Dated June 1 1935. Denom. \$103.04. Due \$515.20 on Jan. 1 from 1937 to 1946 inclusive. Interest payable J. & J.

NIAGARA FALLS, N. Y.—DEBT REPORT—The budget for 1935 amounts to \$2,784,406, of which \$2,455,681 is to be raised by direct taxation. Bonded debt on Jan. 1 1935 totaled \$13,525,309, while certificates of indebtedness were outstanding in the amount of \$302,900 and notes payable at \$145,000. Assessed valuation for 1934 was \$147,119,282. Tax levy for that year amounted to \$3,136,374, of which \$295,617 was uncollected in December 1934.

NINETY SIX, S. C.—BOND ELECTION CONTEMPLATED—It is ated that an election will be held in the near future to vote on the proposed suance of \$35,000 in grammar school construction bonds.

NORFOLK, Neb.— $BOND\ SALE$ —It is reported that an issue of \$50,000 refunding bonds has been disposed of at a $3\frac{1}{2}\%$ coupon rate, bringing a price of 101. The bonds mature in from 1 to 17 years.

NORTH BALTIMORE, Ohio—BONDS CONSIDERED—The Village Council has passed on first reading an ordinance which provides for the issuance of \$100,000 waterworks bonds, according to report.

NORTH-BEND, Ore.—BONDS NOT SOLD—The \$24,000 issue of 6% semi-ann. refunding bonds offered on May 14—V. 140, p. 3087—was not sold as no bids were received, according to the City Recorder. Dated May 1 1935. Due \$2,000 from May 1 1940 to 1951 incl.

NORTH CAROLINA, State of—BONDS AUTHORIZED—The Legislature is said to have passed the bill authorizing the issuance of \$250,000 in State sanatorium construction bonds—V. 140, p. 2056. It is also reported that the Legislature passed on second reading the bill authorizing a \$750.000 issue of State institution bonds, to erect buildings for the mentally deficient—V. 140, p. 3258. It has been reported that this bond issue was to be \$1,000,000.

NORTH CAROLINA, State of—HOUSE APPROVES TEXT BOOK BOND BILL—The House is said to have passed and forwarded to the Senate the bill providing for the issuance of \$1,500,000 in bonds for the purchase of text books to be used in State schools.

NORTH MUSKEGON, Mich.—VONSIDERS BOND REFUNDING— The city is considering a proposal to refund part of the total of \$72.600 bonds currently outstanding. All of the debt, except an amount of \$1,200, has been incurred for water system improvements. Harry S. Stanton is City

NORTH PROVIDENCE, R. 1.—BILLS PAYABLE HEAVY—William L. Clark, Town Treasurer, informed the Council on May 6 that the \$100,000 borrowed a short time previously is all gone and that unpaid bills amounting to \$30,000 have accumulated in addition to those incurred by the legislative body. He added that no additional funds will be borrowed this summer because it will be impossible to make another loan in anticipation of taxes which are not due until Oct. 1. Most of the \$30,000 owed is for tuition bills to the City of Providence and other schools, he pointed out, adding that he believed sufficient funds would be available to pay the major portion of teachers' salaries due currently. It is expected that a tax sale which is scheduled for June 14 will produce enough revenue to help carry on the town's business possibly to July.

NORWOOD, N. J.—BOND REFUNDING PROPOSED—We are in receipt of a report that the Borough Council is considering passage of an ordinance which would permit the borough to issue \$103,000 4½% refunding bonds to retire presently outstanding 5¾% bonds.

OAKLAND, Md.—BOND ELECTION—At an election called for June 3 are voters will consider a proposal providing for the 'ssuance of \$25,000 servoir construction bonds.

OAK PARK, III.—BOND SALE—Harris Trust & Savings Bank of Chicago purchased on May 6 an issue of \$50,000 3% coupon branch library and site bonds at par plus a premium of \$588.50. equal to 101.177, a basis of about 2.82%. Dated May 1 1935. Denom. \$1.000. Due \$5,000 on May 1 from 1938 to 1947 incl. Interest payable M. & N.

OGDEN CITY SCHOOL DISTRICT, Utah—BOND ELECTION— The \$580,000 issue of school bonds awarded to the First Security Bank of Ogden, as reported in V. 140, p. 3087—will be submitted to a vote of the people for approval at an election to be held on May 21.

people for approval at an election to be held on May 21.

OLEAN (CITY AND TOWN) UNION FREE SCHOOL DISTRICT NO. 1, N. Y.—BONDS OFFERED FOR INVESTMENT—UNSUCCESS-FUL BIDS—The Manufacturers & Traders Trust Co. of Buffalo was head of the banking group which was awarded recently an issue of \$619,000 bonds as 2.70s at 100.299, a basis of about 2.67%, as reported in V. 140, p. 3258. The bankers are re-offering the bonds for public investment at prices to yield, according to maturity, as follows: 1937, 1.40%; 1938, 1.70%; 1939, 1.90%; 1940, 2.10%; 1941, 2.20%; 1942 and 1943, 2.25%; 1944 and 1945, 2.30%; 1946 and 1947, 2.40%; 1948 to 1950, 2.50%; 1951 to 1955, 2.65%; 1956 to 1961, 2.70%. Other members of the account are Kean, Taylor & Co., Granbery, Safford & Co. and Sage, Rutty & Steele of Rochester. In addition to the accepted bid, the following other offers were received by the district:

Guth, County Auditor, will receive bids until noon June 3 for the purchase of the \$16,300 4½% coupon water line bonds mentioned in V. 140, p. 3258. Denom. \$800 and \$900. Dated Feb. 13 1935. Prin. and semi-annual int. (A. & O.) payable at the County Treasurer's office. Due serially for 10 years. Certified check for \$500 required. Legal opinion by Squires, Sanders & Dempsey.

OXNARD GRAMMAR SCHOOL DISTRICT, Calif.—BONDS DE-FEATED—The proposed bond issue of \$55,000 for school building re-modeling submitted at the election on April 30, referred to in V. 140, p. 2911, was defeated, it is reported.

PALMER, Mass.—NOTE OFFERING—Sealed bids will be received until noon on May 21 for the purchase of \$100,000 notes, dated May 24 1935 and due \$50,000 each on Dec. 14 and Dec. 21 1935.

PANAMA CITY, Fla.—BOND BILL PROPOSED IN LEGISLATURE— The issuance of \$150,000 in public improvement bonds would be authorized under the terms of a bill introduced recently in the Legislature.

PASCO COUNTY (P. O. Dade City), Fla.—BOND OFFERINGS REQUESTED—It is stated by A. J. Burnside, Clerk of the Board of County Commissioners, that he will on June 3, at 10 a. m., open and consider sealed offerings of refunding bonds, dated Oct. 1 1932, of the following issues: Road and bridge refunding, series A and B; Highlands Special Road and Bridge District, road refunding, series A and B; Special Road and Bridge District No. 1, road refunding, series A and B.

PATERSON, N. J.—BOND OFFERING—The Board of Finance has set June 5 as the date for offering \$1,380,000 water bonds.

PATRICK COUNTY, Va.—BOND SALE—The \$5,000 issue of 6% semi-ann. school bonds offered for sale on May 14—V. 140. p. 2744—was awarded to the First National Bank of Stuart, paying a premium of \$125, equal to 102.50, according to the Superintendent of the County School Board.

PEABODY, Mass.—BOND ISSUE URGED—Mayor McVann has recommended that the city sell \$75,000 10-year bonds under the emergency relief law as a means of keeping down the 1935 tax rate.

PENDER COUNTY (P. O. Burgaw), N. C.—BOND SALE—A \$57.000 issue of 4% semi-ann. court house bonds is reported to have been purchased at par by the Public Works Administration.

PENNSYLVANIA (Commonwealth of)—BONDS OFFERED FOR INVESTMENT—Moncure Biddle & Co. of Philadelphia are offering for public investment a total of \$395,000 bonds, due at various dates from 1933 to 1955, at prices to yield from 1.20% to 2.15%. The offering consists of \$340,000 3½s, \$54,000 4s and \$1,000 at 3¾% interest.

PERU, Neb.—BONDS PROPOSED—It is reported that the Town Council is giving consideration to a proposal that the town build a sewer system at a cost of about \$36,000 to be financed by the issuance of bonds to the Federal Government.

PETOSKEY, Mich.—BONDED DEBT—A recent report on the in-ancial condition of the city shows that there were \$103,000 bonds outstand-ing as of Jan. 8 1935. Retirements in 1934 totaled \$24,300.

PHILADELPHIA, Pa.—SEEKS TO INCREASE BORROWING CA-PACITY—A petition to deduct \$6.400,000 in water loans from the city's debt will be filed in Common Pleas Court this week by City Controller \$6.400,000 in water loans from the city's debt will be filed in Common Pleas Court this week by City Controller \$6.400,000 in water improvements up to \$32.530,000. The Court previously ordered \$26,130,000 deducted as the income from the water works is more than sufficient to pay interest and sinking fund charges. This, Mr. Wilson said, would increase the city's borrowing capacity by more than \$36,000,000.

PISCATAWAY TOWNSHIP (P. O. Piscataway), N. J.—BONDS NOT SOLD—The issue of \$98,000 not to exceed 6% interest coupon or registered refunding bonds offered on May 10—V. 140, p. 3087—was not sold, as the two bids submitted were not opened. In addition to the formal tenders, it is reported that several inquiries were received by the township regarding the loan. The bonds are dated May 1 1935 and mature May 1 as follows: \$2,000 from 1940 to 1949 incl. and \$3,000 from 1950 to 1957 incl.

BOND ISSUE REOFFERED—Anton Bert Krug, Township Treasurer, has announced that new bids will be received until 8.30 p.m. on May 28 for purchase of the above issue.

PLATTSMOUTH, Neb.—BOND AWARD DEFERRED—It is stated to the City Clerk that the only bid received for the \$45,000 funding bonds

offered for sale on May 13—V. 140, p. 2911—was an offer of par on 41/s, tendered by the Plattsmouth State Bank. Action on this bid is said to have been postponed until May 27. Due in 20 years, optional in 5 years.

PORTAGE SCHOOL DISTRICT, Pa.—BONDS NOT SOLD—S. D. Boucher, Secretary of the Board of Education, informs us that the \$29,000 4% refunding bonds offered on April 30—V. 140, p. 2403—have not been sold. Rollins & Sons; Graham, Parsons & Co., and Burr & Co., all of Boston, which paid a price of 100.156 for the \$300,000 high school issue, due \$15,000 each year from 1936 to 1955 incl., as 2½s, and 100.457 for the \$100,000 street construction loan, due \$10,000 each year on May 1 from 1936 to 1945 incl., as 2½s.

Other bidders were: Whiting, Weeks & Knowles and Harris Trust & Savings, 100.91 for all as 2½s; Halsey, Stuart & Co., 100 plus \$105 premium, for 1 to 15 year bonds as 2½s, and 16 to 20-year bonds as 2½s; Brown Harriman & Co. and F. S. Moseley & Co., 101.2199 for 3s; Estabrook & Co., R. L. Day & Co. and Newton, Abbe & Co., 101.06 for 3s and Faxon, Gade & Co., 100.59 for 3s.

OUINCY, Mass.—BOND, SALE—The \$300,000 North Ouincy, high

QUINCY, Mass.—BOND SALE—The \$300,000 North Quincy high school bonds, payable from 1936 to 1955 incl., and \$100,000 street construction bonds, due from 1936 to 1945 incl., all dated May 1 1935, offered on May 14 were awarded to a syndicate composed of Blyth & Co., Burr & Co., Inc., Graham, Parsons & Co. and E. H. Rollins & Sons on their bld of 100.155 for the \$300,000 issue as 2½s and the \$100,000 loan as 2½s. An offer of 100.91 for the entire \$400,000 bonds as 2¾s was submitted jointly by Whiting, Weeks & Knowles and the Harris Trust & Savings Bank. Bid of 100.026 for the bonds of each issue due from 1936 to 1950 incl. as 2¾s and the remaining maturities as 2¾s was tendered by Halsey, Stuart & Co., Inc.

RANDOLPH, Mass.—BONDS PROPOSED—News reports state that a proposed bond issue of \$12,000 to finance the instalation of a ventilating and sanitary sewer system in school buildings is being considered.

RANSOM COUNTY (P. O. Lisbon), No. Dak.—BOND ELECTION CONTEMPLATED—A special election may be held in June to vote upon the proposition of issuing County Court House Building bonds. The court house would cost \$100,000.

RARITAN TOWNSHIP, Middlesex County, N. J.—REFUNDING BONDS AUTHORIZED—A resolution authorizing the issuing of \$63,000 of 4% refunding bonds to replace a like amount of outstanding tax title and tax revenue bonds was passed at a meeting of the Raritan Township Commission recently. The refunding bonds will replace bonds now bearing interest rates of from 5% to 6% and will mean a considerable saving to the township. Commissioner of Finance Walter C. Christensen said that he believed the saving would be approximately \$1,200.

READING, Mass.—BONDS VOTED—According to news reports, a bond issue of \$33,000 to relieve deficit in current revenues has been authorzed under the terms of the new Halliwell bill.

RED BANK SCHOOL DISTRICT, N. J.—BOND OFFERING—Japhia Clayton, District Clerk, will receive sealed bids until 8 p.m. on May 28 for the purchase of \$35,000 4% coupon or registered school bonds. Dated Jan. 1 1935. Denom. \$1,000. Due Jan. 1 as follows: \$3,000 from 1936 to 1946, incl., and \$2,000 in 1947. Prin. and in . (J. & J.) payable at the Merchants Trust Co., Red Bank. A certified check for 2% of the bonds bid for, payable to the order of the Custodian of School Moneys, must accompany each proposal. Bonds will be delivered to the purchaser at the Senior High School building or at any other place within the State, as may be mutually agreed to on June 4 or as soon as thereafter as possible.

REINBECK, Iowa—CONFIRMATION OF REFUNDING AGREE-MENT—The recent report to the effect that the Town Council has entered into an agreement with the Carleton D. Beh Co. of Des Moines for the refunding of \$28.000 5% and 6% bonds for 3½ % judgment funding bonds—V. 140, p. 3088—is confirmed by the said company. It is said that the new bonds will mature on May 1 as follows: \$2,000, 1936 to 1944, and \$3,000, 1945 to 1948. It is understood that the contract will not become effective for some time.

RICHLAND COUNTY (P. O. Mansfield), Ohio—BONDS PROPOSED—Permission to issue \$143,256 in county bonds to retire short-term notes issued for relief purposes, was requested by county commissioners recently in a communication to the Ohio Tax Commission.

Resolutions for issuing the bonds have already been passed but are being held in abeyance pending receipt of official authority from the Tax Commission.

RICHLAND COUNTY (P. O. Richland Center), Wis.—BOND SALE—The \$84,000 5% highway improvement bonds maturing in from 3 to 5 years, which were offered for sale on May 15, as stated in V. 140, p. 3088, were awarded to the Harris Trust & Saving Bank, of Chicago for a premium of \$10,300, equal to 112.26. Harley, Hayden & Co. of Madison offered a premium of \$10,290.

RIDGEWOOD, N. J.—BONDS PROPOSED—The Borough Council is said to have under consideration a proposed ordinance which authorizes the issuance of \$30,000 bonds.

RIO BLANCO COUNTY SCHOOL DISTRICT NO. 1 (P. O. Meeker), Colo.—BONDS VOTED—The residents of the district on May 6 voted to issue \$32,000 4\%% refunding bonds. Dated June 1 1935. Due \$2,000 yearly from 1940 to 1955, incl.

RIPLEY, Miss.—LEGALITY OF REVENUE BOND AUTHORIZATION ACT TO BE TESTED IN COURT—The State Supreme Court is said to have accepted for decision a suit of a local taxpayer against the city, involving the constitutionality of a 1934 legislative act which authorizes municipalities to issue revenue bonds for improvements. The city was contemplating issuing \$52,000 water works improvement bonds to the Public Works Administration under the terms of the Act, and thereby obtain a grant of about \$13,000 for the project. The Supreme Court held the said Act unconstitutional it is probable that PWA projects would be greatly curtailed.

**RIVER ROUGE, Mich.—NOTE SALE—City Clerk R. J. Peters informs us that the \$40,000 tax anticipation notes recently authorized as reported in V. 140, p. 3260, have been sold to Shannon, Kenower & Co. of Detroit. Two notes were issued, one for \$15,000, bearing 24 % interest and maturing Aug. 21 1935, and the other for \$25,000, bearing 2% interest and maturing July 23 1935.

ROARING SPRINGS INDEPENDENT SCHOOL DISTRICT, Tex. BONDS TO BE OFFERED SOON—J. D. Mitchell, Secretary of the Board of Trustees, informs us that the \$36,000 bonds mentioned in V. 140, p. 3088, will be offered for sale in the near future. The bonds will bear 4% interest, payable semi-annually Feb. 1 and Aug. 1. Denom. \$500 and \$1,000. Due in 30 years. Dated Feb. 1 1935. Bonds will be either coupon or registered, at holder's option. Principal and interest payable at the First State Bank, of Matador. A certified check for 5% will be required.

ROCHESTER, Minn.—BOND SALE—The \$90,000 refunding bonds offered on May 13 were awarded to Thrall, West & Co., of Minneapolis, for a premium of \$14,417. The bonds were held in the sinking fund as investments, and bear various rates of interest. Justus F. Lowe Co., of Minneapolis, the next best bidder, offered a premium of \$14,113.70.

ROCK HILL, S. C.—CITY DECLINES BIDS ON BONDS—SALE TO FEDERAL GOVERNMENT PROBABLE—The following report on the proposed disposition of \$204,000 in 4% sewer revenue bonds is taken from the Rock Hill "Evening Herald" of May 6:

"City Council in special session this morning with Mayor Pro Tem J. C. Hardin presiding and Councilmen J. J. Rauch and James P. Poag present, decided not to sell the remaining \$104,000 in 4% city sewer revenue bonds on the open market, preferring to sell them to the Federal Government, which has the first \$100,000 of the bonds, which were issued in a total amount of \$204,000.

"Council had sought, if possible, to dispose of the entire \$204,000 on the open bond market, but the city was advised by the Government that it was unable to release the first \$100,000 which had already been sold to the Government. Because of this situation and because the city fathers felt that some benefit might accrue from selling the entire amount of bonds to the Government, the bids on the open market were declined.

"Bids had been submitted by G. H. Crawford & Co., Inc., of Columbia, and Smith, McAlister & Pate, Greenville, bond brokers. Both submitted bids of \$100.25, which would amount to a premium of \$260 net on the \$104,000."

ROCKLAND-WESTCHESTER CAUSEWAY AND TUNNEL AUTHORITY, N. Y.—CREATED BY GOVERNOR.—Under the provisions of the Garrity bill, signed recently by Governor Lehman as Chapter 896, Laws of 1935, the above Authority is created and authorized to undertake the construction of a causeway and tunnel with termini at or near Nyack in Rockland County and Tarrytown in Westchester County. The measure empowers the authority to issue bonds to pay the cost of the project and to levy such tolls and charges as may be necessary to service the debt incurred.

ROSEBURG, Ore.—FEDERAL FUND ALLOTMENT—The following release (No. 1363) was made public recently by the Public Works Administration:

"An allotment of \$35,000 to the Veterans' Administration to furnish sewage disposal for the Veterans' Facility at Roseburg, Ore., was announced to-day by Public Works Administrator Harold L. Ickes.

"The allotment, which was made from old PWA funds, is a contribution to the City of Roseburg as the Government's share of the cost of constructing connecting sewers and a sewage disposal plant to serve the Veterans' Facility at that place.

"The allotment is made subject to a satisfactory agreement between the Federal Government and the City of Roseburg, which alreday has received a loan and grant of \$72,000 for the construction of a sewage disposal plant."

POWAN COUNTY (P. O. Salishury), No. C.—ROND OFFERING—

ROWAN COUNTY (P. O. Salisbury), No. C.—BOND OFFERING—The \$147,500 bonds recently authorized, as stated in V. 140, p. 2912, are being offered for sale on May 21. Bids will be received until 10 a. m. May 21 by W. E. Easterling, Secretary of the Local Government Commission at Raleigh for the purchase of the bonds, to bear interest at a rate named by the successful bidder but not to exceed 6%. The bonds comprise two issues, described as follows:

\$100.000 school funding bonds. Denom \$1,000. Due yearly on May 1

\$100,000 school funding bonds. Denom. \$1,000. Due yearly on May 1 as follows: \$7,000 1944 to 1953, incl.; and \$15,000, 1954 and 1955. 47,500 general funding bonds. Denom. \$1,000 and \$500. Due yearly on May 1 as follows \$3,000, 1944 to 1953 incl.; \$7,500, 1954; and \$10,000, 1955.

Dated May 1 1935. Interest payable semi-annually on May 1 and Nov.1. Certified check for \$2,950, payable to the State Treasurer, required. Approving opinion of Reed, Hoyt & Washburn, New York, will be furnished to the purchaser.

ROXBURY, Vt.—BOND OFFERING—Phil S. Flint, Town Clerk, will receive sealed bids until 2 p. m. on May 25 for the purchase of \$20.000 3\(\preceq\) % coupon refunding bonds. Dated May 15 1935. Denom. \$1,000. Due \$1,000 on Jan. 1 from 1936 to 1955 incl. Interest payable semi-annually. Peter Giuliani, 52 State Street, Montpelier, is handling the legal details in connection with the issue.

RUPERT, Ida.—BONDS SOLD—It is reported by the City Clerk that the \$17,000 septic tank construction bonds approved by the voters at an election held on March 11—V. 140, p. 2232—have been purchased by the First National Bank of Idaho, of Rupert.

RUSK COUNTY COMMISSIONER'S PRECINCT NO. 1 (P. O. enderson), Tex.—BONDS DEFEATED—The proposed \$1,000,000 road mind issue which was submitted to a vote on May 4, report on the election bing given in V. 140, p. 2912, failed to receive a favorable two-thirds vote, required for approval, 497 favorable votes being recorded against 267 favorable votes.

RUSHFORD INDEPENDENT SCHOOL DISTRICT (P. O. Rushford), Minn.—PRICE PAID—It is stated by the District Clerk that the \$30,000 school bonds sold on April 23 to the First National Bank of Rushford, at a price of 100.50, a report on which appeared in these columns recently—V. 140, p. 3260—were sold as 3¼% bonds, giving a basis of about 3.21%. Dated May 1 1935. Due on May 1 1964.

4RUSHVILLE, Ind.—BORROWING AUTHORIZED—Authorization of the borrowing of \$60,000 by revenue bonds to meet expenses of the city for the remainder of the year was recently authorized by an ordinance passed by the city council, it is stated.

RUSSELL, Kans.—BOND SALE—The \$120,000 waterworks bonds offered on May 15, as reported in V. 140, p. 3260, were awarded to the Russell Farmers State and the Home State banks, of Russell on a bid of 100.10 for 2¾ % bonds, a basis of about 2.73 %. Dated May 1 1935. Due \$4,000 each six months from Feb. 1 1936 to Aug. 1 1950, incl.

SACO, Me.—BONDS AUTHORIZED—The City Council is reported to have given its approval to the issuance of \$50,000 refunding bonds which would mature \$10,000 yearly for five years, with interest at 3%.

SABULA SCHOOL DISTRICT, lowa—BONDS SOLD—At a recent meeting of the school board a contract was entered into with the Carleton D. Beh Co. of Des Moines, to issue \$7,500 in refunding bonds to replace a similar amount that are callable at any time. The present interest rate is 4¼% and the new bonds will only bear 3½% interest. By making this exchange the school district will be saved something like \$435 in interest over a period of about 15 years.

SAGUACHE COUNTY SCHOOL DISTRICT NO. 31 (P. O. Saguache), Colo.—BONDS VOTED—At an election held on May 6 the voters gave their approval to a proposal to issue \$29,000 4½% refunding bonds. Dated June 1 1935. Due \$1,000 yearly from 1936 to 1949, and \$1,500 yearly from 1950 to 1959; all bonds due after 1945 optional at any time after 1945.

ST. CLAIR COUNTY (P. O. Port Huron), Mich.—To RETIRE RE-FUNDING ROAD BONDS—The Board of County Road Commissioners announces that funds will be on deposit with the St. Clair County Treasurer, Port Huron, Mich., June 15 1935, to retire all refunding bonds issued on Road Districts Nos. 30 to 89, inclusive, due May 1 1938. Interest will be paid on these bonds up to and including June 15 1935. The calling in or redemption of these bonds is in accordance with the option reserved in the issuance of said bonds. Same will mature and no interest oe paid after June 15 1935. All bonds of like numbers of the original issue on Road Districts Nos. 30 to 89, incl., which were due May 1 1934, not having been exchanged, are hereby called on the same basis.

exchanged, are hereby called on the same basis.

ST. FRANCIS LEVEE IMPROVEMENT DISTRICT (P. O. West Memphis) Ark.—BOND CALL—The following report is taken from the Chicago "Journal of Commerce" of May 11:

"With another 1935 call anticipated before Jan. 1, the St. Francis Levee Improvement District of eastern Arkansas July 1 will redeem \$133,000 of its bonds, including 1943, 1945 and 1949 maturities. Its cash on hand is approximately \$700,000 and is being increased by more rapid collection of taxes. Two other developments have assisted the district in reaching its present position. In 1934, it won a suit involving back taxes charged against rallroad property and settled its \$400,000 claim for \$345,000 cash. This is regarded as an admission by the railroads that the tax is legal and that it will be paid in the future. The second development was the reduction to \$440,000 in amounts expended for rights-of-way, damages and other costs, for which a \$552,000 loan was obtained from the Public Works Administration. After the July 1 redemption, the district's obligations will include \$1,179,000 of 6% bonds, \$937,000 of 5% bonds and \$8,421,000 at 5½%. Those are in addition to the 4% loan obtained from the PWA."

ST. JOSEPH. Mo.—BONDS SOLD—The \$136,000 2½% coupon re-

ST. JOSEPH, Mo.—BONDS SOLD—The \$136,000 2½% coupon refunding bonds recently authorized, as reported in V. 140, p. 3260, have been sold. Dated May 1 1935. Due yearly on March 1 as follows: \$8,000, 1940 to 1947 incl., and \$9,000, 1948 to 1955 incl.

\$8,000, 1940 to 1947 incl., and \$9,000, 1948 to 1955 incl.

ST. LOUIS, Mo.—BOND OFFERING—Sealed bids will be received until 10 a. m. (Central Standard Time) on May 28, by Louis Notte, City Comptroller, for the purchase of an issue of \$1,800,000 relief bonds. Interest rate to be specified by the bidder. These bonds are coupon bonds, registerable as to principal, or as to principal and interest, and are exchangeable for fully registered bonds in the denominations of \$10,000, \$50,000 and \$100,000. Fully registered bonds may again be exchanged for coupon bonds in the denomination of \$10,000, on the payment of \$2 per thousand. Dated June 1 1935. Due on June 1 as follows: \$350,000, 1941 to 1943, and \$375,000 in 1944 and 1945. All bonds are optional for prior payment on any interest paying date on or after June 1 1940. Prin. and int. (J. & D.) payable at the Guaranty Trust Co. of New York in lawful money of the United States. No bid at less than par and accrued interest will be considered. Legal approving opinion of Benj. H. Charles of St. Louis, will be furnished the purchasers. Delivery of the bonds will be made at the Comptroller's office on or about June 5. Each bid must be submitted on a form furnished by the Comptroller. A certified check for 1% of the par amount of the bonds bid for, payable to the above Comptroller, is required.

The following information is furnished with the official offering notice on the bonds:

ST. MARTIN PARISH (P. O. St. Martinville), La.—REPORT ON BOND REFUNDING PLAN—The following statement was sent to us on May 8 by Sutherlin & Scranton, Inc., dealers in investment securities, from New Orleans:

"To holders of 5% Public Impt. bonds dated Nov. 1 1917; 5% Road and Bridge bonds of Road Dist. No. 1, dated July 1 1919; 6% bonds of Sub-Road Dist. No. 2 of Road Dist. No. 1, dated March 1 1927, and 6% certificates of indebtedness dated Mar. 1 1930, all of St. Martin Parish, La.:

"By reason of general economic conditions and circumstances over which the Parish of St. Martin has had no control, it is impossible for it to continue the present rate of burdensome taxation with which to meet the principal and interest payments on its several outstanding issues of bonds as above enumerated. The disastrous flood which the Parish suffered in 1927, with consequent accumulation of delinquent taxes, and other causes beyond its control have caused a substantial amount of the former taxable property of the Parish to be adjudicated to the State, leaving an assessed valuation at this time of only \$4,670,000 as compared with an assessed valuation of a decade ago of \$9,400,000.

"In order to effect a necessary reduction in the present rate of taxation and yet maintain proper security for its creditors, the Police Jury finds it necessary to avail itself (with the consent of the various bondholders) of the provisions of Act No. 85, Regular Session 1934, which authorizes the 'readjustment, unifying and refunding, the whole or any part, of its outstanding bonds and certificates of indebtedness.

"The Parish of St. Martin is now in the process of issuing refunding bonds to refund each of the issues of bonds outstanding. It simply requests that the owners of its bonds exchange them for a like principal amount at the same rate of interest for new refunding bonds to be issued over an extended period of time, as is indicated thus: Public improvement bonds of 1

No. 1 6% bonds, which presently mature from March 1 1935 to 1952, inclusive, be extended so as to mature March 1 1938 to 1963, inclusive, that the 6% certificates of indebtedness presently maturing 1934 to 1950, inclusive, be extended so as to mature March 1 1938 to 1959, inclusive. "The exchange of bonds will be accomplished without expense to the holders of the old bonds and the new bonds will carry the approving opinion as to their validity by a nationally recognized bond attorney. In making such an exchange the owner sacrifices none of his original security, rights and privileges. It is earnestly hoped that you will promptly indicate your willingness to exchange bonds or certificates which you own by sending a description of such securities by date of issue, purpose of issue, interest rate and exact date of maturity, to Mr. John E. Sutherlin, care of Sutherlin & Scranton, Inc., Investment Securities, RA 3119 Carondelet Bldg., New Orleans.

"Ad adjustment of the interest accrued will be wedget the time of the

Orleans.

"Ad adjustment of the interest accrued will be made at the time of the exchange of your bonds for new refunding bonds. Your prompt co-operation in this matter will facilitate our efforts and will be greatly appreciated.

"Very truly yours,

"R. L. THOMAS,

"Secretary, Police Jury."

"Secretary, Police Jury."

ST. PAUL, Minn.—MAYOR VETOES ORDINANCE FOR MUNICIPAL POWER PLANT—In connection with the report given in these columns recently that the City Council had approved a resolution calling for the issuance of \$16,965,000 in municipal power plant bonds—V. 140, p. 3260—we quote as follows from the May 11 issue of the "Commercial West" "Propopents of a municipal state of the "Commercial Commercial Commercial

of Minneapolis:

"Proponents of a municipal electric light and power plant in St. Paul got a real setback this week when Mayor Gehan vetoed an ordinance proposing a bond issue of \$17,000,000 for the purpose of constructing such a plant.

"In his veto message Mayor Gehan characterized the municipal power plant program as 'hazardous and unplanned,' and said 'In all probability such an undertaking would bankrupt our city.' He said further, 'it is the height of folly."

"Continuing, the St. Paul Mayor said the light and power problem the city now is more nearly solved than at any time in recent years.

"Both electric power and gas are provided St. Paul by the Northern States Power Co."

ST. PAUL, Minn.—BOND RESOLUTION VETOED—Mayor Gehan has vetoed the resolution recently passed by the City Council as reported in V. 140, p. 3260, which would have provided for the calling of an election to vote the issuance of \$16,965,000 municipal power plant bonds. City Council has sustained the veto.

SALEM, N. J.—BOND SALE—Arthur S. Taylor, City Treasurer, reports that the \$9,000 coupon or registered fire department equipment bonds offered on May 13—V. 140, p. 3260—were awarded as 4s to J. B. Hanauer & Co. of Newark at par plus a premium of \$59.94, equal to 100.66, a basis of about 3.87%. Dated June 1 1935 and due \$1,000 on June 1 from 1937 to 1945 incl.

SALEM, Ore.—BOND SALE—The \$30,000 issue of refunding, series 1935, B bonds offered for sale on May 6—V. 140, p. 2912—was awarded to E. M. Adams & Co. of Portland as 3 4s at a price of 100.09, a basis of about 3.21% to optional date. Dated May 15 1935. Due from May 15 1936 to 1945, optional on or after three years.

SALEM SCHOOL DISTRICT NO. 24, Ore.—NOTE SALE—The issue of \$100,000 l-year notes offered for sale on May 14, as reported in V. 140, p. 3260, was awarded to the First National Bank of Portland on a bid of 1½%. The next bid was submitted by Jaxtheimer & Co., who offered to take the notes on a 1¾% interest basis, plus a premium of \$150.

SALINA, Kan.—CORRECTION—It is now stated by the City Clerk that the \$18,340.53 issue of 2½% semi-annual improvement bonds were purchased by Estes, Payne & Co. of Topeka, not by Small, Milburn & Co. of Wichita, as previously reported—V. 140, p. 3260. The bonds are said to have been sold for a premium of \$234.75, equal to 101.27, a basis of about 2.25%. Due from Dec. 1 1935 to 1944 incl.

SALINAS, Calif.—BONDS VOTED—At the May 10 election the voters we their approval to a proposed bond issue of \$140,000 for construction an underpass.

SALUDA COUNTY (P. O. Saluda), S. C.—BOND SALE CORRECTION—In connection with the report that the county had sold \$40,000 of 5% bonds to local banks, as noted in these columns recently—V. 140, p. 3260—it is stated by the County Supervisor that the real amount of bonds sold was \$45,000, of which \$37,000 was for past due claims and notes, and \$8,000 was for past due bonds. He states that the issue was purchased by the Saluda County Bank of Saluda, and the Bank of Ward, of Ward.

SAN DIEGO (City and County), Calif.—FEDERAL FUNDS SOUGHT—Proposal that the city and county hold an election in November to secure necessary Federal aid, gift and loan, to make possible a new civic center was made to the Board of Supervisors recently by the County Planning Commission, it is stated.

The program of the Commission is somewhat in the nature of a compromise proposal. It would install administrative departments of the city and county in a central civic center building on the city-county waterfront site of 18 acres and would house the courts, jails and law enforcement offices in remodeled quarters on the site of the present courthouse.

Such a project, the Commission estimates would cost \$1,200,000, of which \$900,000 would be used on the harbor front building and the remaining \$300,000 on the rebuilding of the present court house into a hall of justice.

SAN MIGUEL COUNTY SCHOOL DISTRICTS (P. O. Las Vegas), N. M.—BOND CALL—Alfredo R. Martinez, Treasurer of San Miguel County, publishes notice that the following bonds are called for payment on June 1 1935: \$8,500 School Dist. No. 21 bonds dated June 1 1920; \$2,500 School Dist. No. 27 bonds dated June 1 1920; \$4,000 School Dist. No. 40 bonds dated June 1 1920.

SANPETE IRRIGATION DISTRICT (P. O. Sanpete), Utah—FEDERAL FUND ALLOTMENT—The following press release (No. 1367) was made public by the Public Works Administration recently:

"An additional allotment of \$75,000 to the Bureau of Reclamation, Department of the Interior, for the construction of the Ephraim and Spring City units of the Sanpete Irrigation Project at Sanpete, Utah, was announced to-day by the PWA. The allotment was made from old PWA funds."

SANTA FE IRRIGATION DISTRICT*(P. O. Encinitas), Calif.—BOND ISSUANCE ON RFC LOAN CONTEMPLATED—It is stated by the District Secretary-Manager that the \$394,000 refunding bonds approved by the voters at the election held recently—V. 140, p. 3088—are to be issued to secure a loan from the Reconstruction Finance Corporation.

SANTA MONICA, Calif.—BOND REFUNDING NOT CONTEMPLATED—It is stated by the Commissioner of Finance that we were incorrect in reporting that the city was planning to effect the refunding of about \$600,000 in special assessment bonds—V. 140, p. 2912.

SCHENECTADY, N. Y.—BONDS AUTHORIZED—Common Council has authorized a bond issue of \$25,000 to provide a loan to the Schenectady Housing Authority for administrative work and to repay loans of \$12,000 made to the Authority last year by a group of business men.

SCHUYLKILL COUNTY (P. O. Pottsville), Pa.—BONDS APPROVED
-The \$1,123,000 2½% refunding bonds due from 1937 to 1955, incl.,
warded on April 29 to Brown Harriman & Co. and associates at 100.56,
basis of about 2.44%, were approved on May 8 by the Pennsylvania
department of Internal Affairs.

SCOTTSBURG, Inc.—BOND OFFERING—On June 1 at 10 a.m. at the Town Hall the Board of Trustees of the Department of Waterworks will offer for sale an issue of \$23,000 of 5% waterworks revenue bonds.

SEDGWICK COUNTY SCHOOL DISTRICT NO. 46 (P. O. Sedgwick), Colo.—BOND SALE—The J. K. Mullen Investment Co. of Denver has purchased an issue of \$7,400 3¾% refunding bonds recently voted. Denom. \$400 and \$500. Dated May 15 1935. Due \$400 May 15 1936 and \$500 yearly May 15 from 1937 to 1950 incl.

SENECA, S. C.—BOND CALL—The town is reported to be calling for payment all outstanding electric power plant and transmission system bonds issued on Dec. 1 1908, due on Dec. 1 1948, redeemable on any int.-bearing date.

SHAWNEE COUNTY (P. O. Topeka), Kan.—BOND SALE DETAILS—It is reported by the County Clerk that the \$21,000 internal impt. bonds purchased recently by the Columbian Securities Corp. of Topeka, at a price of 101.569—V. 140, p. 2232—were sold as 2 ½s, giving a basis of about 2.58%. Dated Jan. I 1935. Due on Jan. I 1945.

SHERIDAN, Wyo.—PWA LOAN REQUESTED—Application for a \$122,750 Federal loan and grant for a paving project has been received from the City of Sheridan by F. C. Williams, State PWA Engineer, according to report.

SHOREWOOD SCHOOL DISTRICT NO. 4 (P. O. Milwaukee), Wis.—BOND ELECTION—An election is reported to be scheduled for May 21 to vote on the issuance of \$45,000 in school auditorium bonds.

SILVER CREEK SCHOOL DISTRICT NO. 6, Neb.—BOND OFFER-ING—The \$12,000 school building addition bonds voted on April 2, as reported in V. 140, p. 2912, are being offered for sale on May 27, on which date bids will be received until 8 p. m. Bonds are coupon in form, and are to bear no more than 6% interest. Denom. \$1,000. Interest payable annually. Principal and interest payable at the County Treasurer's office in Central City. Due in 1947.

SIOUX RAPIDS CONSOLIDATED SCHOOL DISTRICT, Iowa—BONDS PROPOSED—It is reported that the directors of the District will meet on May 20 to take steps to issue \$39,000 school refunding bonds.

SKIATOOK, Okla.—BONDS VOTED—It is reported that the voters cently approved the issuance of \$93,000 in water line and pumping station

SOLOMON, Kan.—BOND REFUNDING INDEFINITE—In connection with the report given in these columns recently—V. 140, p. 2232—that the city officials intended to refund a total of \$68,000 water works bonds now held by the State School Commission, it is stated by the City Clerk that no action has been taken as yet.

SOUTH BEND, Ind.—BONDS STILL UNSOLD—Fred Woodward, City Comptroller, informs us that the \$50,000 4% right-of-way bonds offered on April 26, bids for which were unopened due to court litigation—V. 140, p. 3088—remain unsold. Dated May 1 1935 and due in 10 years.

—V. 140, p. 3088—remain unsold. Dated May 1 1935 and due in 10 years. SOUTH DAKOTA (State of)—BOND SALE—The \$3,000,000 issue of Rural Credit, series A, 1935 bonds offered for sale on May 15—V. 140, p. 3089—was awarded to a syndicate composed of Edward B. Smith & Co. of New York: the Wells-Dickey Co., the First National Bank & Trust Co., both of Minneapolis; the First National Bank of St. Paul; the Northwestern National Bank & Trust Co. and Thrall, West & Co., both of Minneapolis; Kalman & Co. of St. Paul; the Allison-Williams Co., Piper, Jaffray & Hopwood, Bigelow, Webb & Co., Justus F. Lowe Co., all of Minneapolis; Harold E. Wood & Co. of St. Paul; the First National Bank & Trust Co., the Security National Bank & Trust Co., both of Sloux Falls, and the Illinois Co. of Chicago, as 4½s, paying a premium of \$3,000, equal to 100.10, a basis of about 4.49%. Dated May 1 1935. Due from May 1 1943 to 1950. PUBLIC RE-OFFERING—It was reported by the bankers that the bonds were all sold on May 16, at prices yielding from 4.10% to 4.30%, according to maturity.

SOUTH NORWALK, Conn.—LOAN PROPOSED—It is said that the Common Council is planning to borrow \$400,000 on short-term notes in anticipation of taxes.

SPENCER COUNTY (P. O. Rockport), Ind.—BOND OFFERING—W. P. Jolly, County Aiudtor, will receive sealed bids until 9 a. m. on June 3 for the purchase of \$35,000 4% coupon poor relief bonds. Dated April 1 1935. Denom. \$500. Due \$1,500 June 1 and \$2,000 Dec. 1 from 1936 to 1945 incl. Interest payable J. & D. A certified check for 3% of the bonds bid for, payable to the order of the Board of County Commissioners, must accompany each proposal. The indebtedness of the county, including the proposed issue, is less than 2% of the liable present assessed value of the taxable property therein.

SPOKANE, Wash.—LIST OF BIDS—The following is an official list of the bids received on May 9 for the \$500,000 water revenue of 1935 bonds, the sale of which was reported in V. 140, p. 3261:

the said of which was reported in v. 110, p. 0201.

STAMFORD, Conn.—CHARTER AMENDMENT PROPOSED—We learn that the State Legislature has under consideration a proposed amendment to the City Charter which would allow the city to issue \$1,500,000 to finance current expenses.

STANLEY, Va.—DETAILS ON FEDERAL FUND ALLOTMENT—
The report that a loan and grant of \$23,000 for water works system construction had been approved by the Public Works Administration—V. 140, p. 2899—is confirmed by Mayor J. S. Biedler, and he states that the loan portion will be \$18,000, to be secured by bonds dated June 1 1935, and maturing on June 1 as follows: \$500, 1937 to 1950, and \$1,000, 1951 to 1961, all incl. It is said that an election will be held soon to vote on the issuance of these bonds.

SUTTON, Neb.—BOND ELECTION—An election is to be held on May 18 for the purpose of voting on two bond issues, one of \$36,000 for lighting purposes and the other of \$17,000 for warrant funding.

TAUNTON, Mass.—BONDS PROPOSED—Councilmen are reported to have passed on first reading an order calling for the issuance of \$167.000 relief bonds under the terms of the recently enacted Halliwell Bill, which permits municipalities to borrow on bonds to finance deficits in current revenues.

TERRE HAUTE, Ind.—BOND SALE—An issue of \$100,000 refunding bonds was purchased by Brown Harriman & Co. of New York on May 6 as 2½s, at a price of 100.056, a basis of about 2.49%. Dated May 1 1935. Due \$5,000 Jan. 1 and July 1 from 1938 to 1947 incl. Interest payable J. & J. Legality approved by Smith, Remster, Hornbrook & Smith of Indianapolis.

THOMPSON, Iowa—BOND SALE—The Polk-Peterson Corp. of Des Moines recently purchased \$8,000 3 $\frac{1}{2}$ % refunding bonds, paying a premium of \$67.50, equal to 100.843, a basis of about 3.33%. Due \$1,000 yearly for 4 years and \$500 yearly for eight years following.

THOR, Iowa—BONDS VOTED—Voters at a special election favored a bond issue for the erection of a town hall and community building and plans are under way for its construction at a cost of \$10,000.

are under way for its construction at a cost of \$10.000.

THURSTON COUNTY (P. O. Olympia), Wash.—CONFIRMATION OF BOND OPINION—It is stated by the Deputy County Auditor that the report to the effect that the State Supreme Court upheld the right of the County to proceed with the issuance of \$50.000 in not to exceed 6% relief bonds, carried in these columns recently—V. 140, p. 3089—is correct, but she observes that the Court stressed the fact that its decision could not be construed as upholding the imposition of bond payment levies in excess of the legal limit, set by the last Legislature. The County does not contemplate offering these bonds for some time, according to report.

TOLEDO, Ohio—DEBT SERVICE NEEDS SHOW INCREASE—Provision for payment of prin. and int. charges represented 49% of the city's tax dollar in 1934, compared with 41% in 1933 and 32% in 1932, according to report. Appropriations for other operating purposes have been lowered proportionately, it is said.

TOMBALL INDEPENDENT SCHOOL DISTRICT, Texas—BONDS VOTED—On May 4 the voters by a ballot of 90 to 32 voted approval of a \$25,000 bond issue for the erection of a new school, it is reported. The bonds will bear 6% interest and mature in 25 years.

TORRINGTON, Conn.—BOND ISSUANCE CONSIDERED—The city authorities are said to be planning to authorize the issuance of \$100,000 relief bonds which the State Legislature approved in a recent enactment.

TROY, N. Y.—NOTE SALE—In connection with the report which appeared in V. 140, p. 3262, that the city Board of Aldermen had authorized a loan of \$98,000 against anticipated tax collections, City Comptroller John J. Mulcahy informs us that a block of \$97,000 1932 tax-anticipation certificates of indebtedness had been sold to local banks.

TROY, Ohio—BOND SALE—City Auditor Geo. L. Dalton informs us at the \$10,000 street surfacing bonds recently authorized, as reported V. 140, p. 3262, will be taken by the sinking fund.

TUSCALOOSA COUNTY (P. O. Tuscaloosa), Ala.—FINANCIAL STATEMENT—The following information is furnished to us in connection with the offering scheduled for June 1, of the \$25,000 issue of not to exceed 5% semi-ann. refunding bonds, report on which was given in these columns recently.—V. 140, p. 3263:

Financial Statement

\$860.855.84

TUTTLE, Okla.—BOND SALE DETAILS—In connection with the report that \$12,000 sewer bonds had been sold recently—V. 140, p. 2913—we are now informed that the bonds were purchased by Mr. R. L. McGee of Shawnee, as 6s at par. Due \$1,000 from April 15 1938 to 1949 incl.

UPPER COLORADO RIVER AUTHORITY (P. O. Austin), Tex.—
CREATION OF DISTRICT APPROVED—A bill creating this district is reported to have been signed by Governor Alired. It is planned to remit about \$65,000 in State taxes annually over a period of 20 years, in Coke County and Tom Green County, in order to guarantee Federal funds for the construction of dams and reservoirs for irrigation purposes. The district is said to be expecting a total of approximately \$4,000,000 in funds from the Federal Government. is said to be expecting Federal Government.

UNITED STATES—REPORT ON EXPENDITURES PER CAPITA FOR 13 LARGEST CITIES FOR 1932—The Boston "News-Bureau" of May 16 carried the following report on a survey made of the expenditures per capital of the 13 largest cities in the United States for 1932: "The Boston Municipal Research Bureau, of which A. Lawrence Lowell is Chairman, presents the following tabulation giving the expenditures per capita of the 13 largest cities in the United States for 1932, the latest year for which comparable statistics are available:

PWA ALLOTMENT—The following press release was made available recently by the above Federal agency:

"An allotment of \$25,000 of PWA funds for the purchase of materials to be used in repair work at the Watertown Arsenal, Watertown, Mass., was announced to-day by Public Works Administrator Harold L. Ickes.

"This allotment, made from old PWA funds, will result in continuing work for approximately 2,200 FERA skilled workmen from Boston and nearby cities. The repair work consists of plumbing, interior painting, removal of an old chimney, remodeling of the armor plate heating room, pointing up brick work, repairs to electrical equipment, roof repairs, &c."

WAYAHACHIE Tay ROND REFUNDING REPORT—It is stated

WAXAHACHIE, Tex.—BOND REFUNDING REPORT—It is stated by the City Secretary that the refunding of the \$68.500 4½% semi-ann. water works and street impt. bonds, authorized recently by the City Council—V. 140, p. 2234—was handled by Donald O'Neil & Co. of Dallas. Denom. \$1.000. Due serially in 15 years. Prin. and int. (M. & N.) payable at the Chase National Bank in New York.

WELD COUNTY SCHOOL DISTRICT NO. 60 (P. O. Lucerne), Colo.—BONDS VOTED—The issuance of \$11,000 4% refunding bonds was authorized by the voters at an election held on May 6. Dated June 15 1935. Due \$1,000 yearly from 1936 to 1946, incl.

WELD COUNTY SCHOOL DISTRICT NO. 60 (P. O. Greeley) Colo.—BOND SALE—An \$11,000 issue of 4% refunding bonds was purchased recently by Bosworth, Chanute, Loughridge & Co. of Denver. Denom, \$1.000. Dated June 15 1935. Due \$1,000 from June 15 1936 to 1946 incl. Prin. and int. (J. & D. 15) payable at the County Treasurer's office. Legality to be approved by Pershing, Nye, Bosworth & Dick of Denver.

WELD COUNTY SCHOOL DISTRICT NO. 18 (P. O. Plateville), Colo.—BOND SALE—An issue of \$24,000 4½% refunding bonds was recently voted and sold to O. F. Benwell of Denver. Dated June 15 1935. Due \$1,000 yearly from 1937 to 1950, and \$2,000 1951 to 1955.

WELLINGTON, Ohio—BONDS PROPOSED—It is reported that the Village Council is considering an ordinance to authorize the issuance of \$7.500 swimming pool bonds.

WESTFIELD, Mass.—BORROWING AUTHORITED—Final passage to an order authorizing the city to borrow \$50,000 was approved at an adjourned meeting of the City Council on May 15. This sum is to be borrowed under a recent legislative enactment that allows cities or towns to borrow not more than 1% of the assessed valuation of the city or town for the past three years. Under the act the city could borrow a slightly larger sum, but it elected to authorized the borrowing of a smaller amount. The money if borrowed will be used to keep down the 1935 tax rate that has not as yet been estimated by the board of assessors and it will not be until the budget is approved.

WEST POINT HIGHWAY DISTRICT (P. O. Wendell), Ida.—BOND SALE—The \$21,000 coupon general obligation refunding bonds offered for sale on May 11—V. 140, p. 3090—were purchased jointly by Sudler, Wegner & Co., Inc. of Boise, and Murphey, Favre & Co. of Spokane, as 4s. Denom. \$1,000. Dated May 1 1935. Due from 1937 to 1942. Interest payable M. & N.

WESTPORT, Conn.—BOND REFUNDING CONSIDERED—It is reported that the Board of Finance is considering their refunding of all bonds of the town now outstanding, except for the \$360,000 issue floated

WEST SPRINGFIELD, Mass.—BONDS CONSIDERED—The town authorities are giving their attention to a plan to issue \$50,000 revenue deficit relief bonds under the terms of the Halliwell bill.

WEST VIRGINIA (State of)—BOND SALE—The \$1,000.000 issue of coupon or registered road bonds offered for sale on May 16—V. 140, p. 3263—was awarded to a syndicate composed of Halsey, Stuart & Co., the Bancamerica-Blair Corp., Geo. B. Gibbons & Co. and Burr & Co., Inc., all of New York, paying a premium of \$150, equal to 100.015, a net interest cost of 2.804%, on the bonds divided as follows:
\$480,000 bonds, maturing \$40,000 from July 1 1935 to 1946 incl., as 38.
\$520,000 bonds, maturing \$40,000 from July 1 1947 to 1959 incl., as 234s.

BONDS OFFERED FOR INVESTMENT—The successful syndicate reoffered the above bonds for public subscription at prices yielding from 0.75%
to 2.85%, according to maturity.

The award of the above issue carried with it an option to purchase an
additional \$750,000 of bonds on the same terms.

(The official advertisement of this offering appeared on page iv of this

WEST VIRGINIA, State of—SINKING FUND BOND CALL—It is reported by Mrs. J. Beverly Dooley, Assistant Secretary of the State Sinking Fund Commission, that she is calling for payment on June 1, on which date interest shall cease, various 5% bonds in the amount of \$162 400

WESTWOOD, N. J.—BOND REFUNDING PROPOSED—The Borough Council is reported to be giving consideration to a proposed refunding program which would involve the issuance of about \$200,000 bonds to retire present outstanding indebtedness. The new bonds would bear 4½% or 5%, as compared with 6% interest being paid on the present debt.

WEYMOUTH, Mass.—TEMPORARY LOAN—The Second National Bank of Boston was awarded on May 14 a \$100.000 revenue anticipation loan at 0.54% discount basis. Due May 8 1936. Other bidders were:

Bidder—
Merchants National Bank of Boston 0.58%
National Shawmut Bank 0.61%

Merchants National Bank of Boston
National Shawmut Bank
Faxon, Wade & Co

WHITEHALL, Mont.—MATURITY—It is reported by the Town Clerk that the \$5,900 refunding bonds awarded on May 6 to the Whitehall State Bank, as 5s at par, as reported recently in these columns—V. 140, p. 3264—are due in 10 years.

3264—are due in 10 years.

WICHITA, Kans.—BOND OFFERING—The \$103,266.79 2½% coupon refunding bonds recently authorized, as reported in V. 140, p. 3264, are being offered for sale on June 24, until which date bids will be received by the City Clerk. Denom. \$266.79 and \$1,000. Dated June 1 1935. Principal and semi-annual interest (June and December) payable at the office of the fiscal agent in Topeka. Kans. Due yearly on June 1 as follows: \$11.266.79 in 1936; \$10,000 in 1937 and 1938; \$11,000 in 1939. 1940 and 1941, and \$10,000 in 1942, 1943 and 1944. Certified check for 2% required. Legal opinion of Bowersock, Fizzell & Rhodes, Kansas City, Mo. supplied at city's expense.

Two other issues of bonds, details of which are not complete, will be offered for sale at the same time.

WICHITA FALLS, Tex.—BONDHOLDERS DENIED INJUNCTION—Plea for an injunction restraining the City of Wichita Falls and its officials from transferring a large sum of money from a special sinking fund to its general fund is reported to have been refused by Federal Judge W. H. Atwell.

Atwell.

The action was brought by a group owning \$300,000 of the city's bonds and followed a suit filed by the city in the State court seeking to force the city depositary to make the transfer.

WINDHAM, Me.-LOAN VOTEDgave their approval to a plan to borrow \$20,000 in anticipation of taxes, according to report.

WINNEBAGO COUNTY (P. O. Rockford), Ill.—PROPOSED BOND 58UE—The county is expected to sponsor a measure in the State Legislare empowering it to issue \$250,000 bonds.

WISCONSIN (State of)—BOND REFERENDUM APPROVAL BY MAJORITY OF TOTAL VOTE PROPOSED—The Senate recently passed a joint resolution which would require, when a popular vote is taken on proposed State bond issues, a majority of all the votes cast at the electivould be necessary for approval of the bonds.

WOBURN, Mass.—TEMPORARY LOAN—Michael J. Curran, City Treasurer, informs us that the \$300,000 revenue anticipation loan offered on April 26 has been sold to the First National Bank of Boston at 2.47% discount basis. Dated April 26 1935. Issue was offered to mature \$100,000 each on Feb. 5, March 5 and April 6, all in 1936.

WOOD COUNTY (P. O. Wisconsin Rapids), Wis.—BOND OFFER-ING—It is stated that sealed bids will be received until 9 p.m. on May 23 by J. A. Schindler, County Clerk, for the purchase of \$105,000 of county bonds maturing as follows; Corporate purpose, series of 1933, \$28,000 from 1936 to 1938, and highway improvement, series A, due \$21,000 in 1936. (This report supplements the tentative offering notice given recently—V. 140, p. 3264.)

WORCESTER, Mass.—BONDS PROPOSED—It is reported that Mayor John C. Mahoney is urging the Common Council to authorize the issuance of \$800,000 bonds to relieve the deficit in current revenues.

WORCESTER, Mass.—TEMPORARY LOAN—The Day Trust Co. of Boston was awarded on May 16 a \$400,000 issue of notes at 0.24% discount. Due Nov. 27 1935. Several other bids were submitted at the sale.

WORLAND, Wyo.—BOND*ELECTION—The Town Council is said to have voted to submit to the voters at an election on June 11 a proposal to issue \$20,000 bonds for construction of a community building.

WORLEY, Ida.—BONDS NOT SOLD—The \$11,000 issue of not to exceed 6% semi-annual water bonds offered on May 11—V. 140, p. 2586—was not sold, according to the Village Clerk. It is said that arrangements are being made for the Public Works Administration to purchase these bonds. Dated March 1 1935. Due in not to exceed 20 years.

WYANDOTTE, Mich.—BOND OFFERING—Lawrence J. LaCourse, City Clerk, will receive sealed bids until 4 p. m. on May 24 for the purchase of \$615,000 refunding bonds, divided as follows:

of \$615,000 refunding bonds, divided as follows:
\$526,000 series A not to exceed 3½s. Due Oct. 1 as follows \$56,000. 1935; \$75,000, 1936; \$90,000, 1937 and 1938; \$100,000 in 1939 and \$115,000 in 1940. Bonds will be ready for delivery on June 1 1935, but the city may, at its option, defer delivery of not more than \$23,000 until July 1 1935. Legal opinion of Miller, Canfield, Paddock & Stone of Detroit approving the bonds as general obligations of the city, will be furnished to the purchaser at the expense of the city. Bids for the loan must be accompanied by a certified check for \$5,000.

89,000 series B bearing 4% interest. Due Oct. 1 as follows \$3,000, 1935; \$11,000, 1936 and 1937; \$13,000, 1938; \$14,000, 1939; \$15,000 in 1940 and \$22,000 in 1941. Bids must be unconditional, provide for delivery and payment of the bonds on or before June 1 and be accompanied by a certified check for \$1,000.

YAKIMA COUNTY (P. O. Yakima), Wash.—WARRANTS CALLED—It is reported that the County Treasurer called for payment on April 24 various school district, old age pension, indigent blind relief, irrigation, drainage and diking district warrants.

YUMA COUNTY SCHOOL DISTRICT NO. 1 (P. O. Yuma), Colo.—CORRECTION—BONDS VOTED—It is stated by the Superintendent of Schools that the \$98,000 4½% refunding bonds reported to have been sold recently—V. 140, p. 3264—were purchased by Benwell & Co. of Denver at par, not by the group previously mentioned. He also states that at the election on May 6 the voters approved the issuance of these bonds by a count of 101 to 8.

ZION-BENTON TOWNSHIP HIGH SCHOOL DISTRICT, III.— BONDS PROPOSED—Leading business men of Zion are making an effor-to swing enough votes in the special school election to have bonds issued to buy a site and erect a high school bullding.

CANADA, Its Provinces and Municipalities.

BELLEVILLE, Ont.—UNCOLLECTED TAXES—The city's total tax arrears at Dec. 31 1934 were \$259,616, including \$143,224 of the 1934 levy of \$578,769 not collected within the year.

CALGARY, Alta.—Loses Assessment Case—The city has lost its appeal to the Alberta Public Utilities Commission for reduction of its \$32,000,000 assessment for Provincial supplementary revenue. The city applied for reduction to its own assessment total of about \$25,000,000.

CANADA (Dominion of)—CONTINUANCE OF LOW INTEREST RATES ON BONDS SEEN—Bond firms look for a continuation of low interest rates in Canada, according to a survey of current offering circulars by the "Financial Post" of recent date.

The fact that the Government was willing to issue short and middle term securities for the recent financing of \$48.4 millions of C. N. R. debt "may be taken as an indication that the authorities anticipate low interest rates will continue for a long period," according to Harrison & Co., Toronto bond firm.

be taken as an indication that the authorities anticaped be taken as an indication that the authorities anticaped be taken as an indication that the authorities anticaped be will continue for a long period," according to Harrison & Co., Toronto bond firm.

The reason for this statement is that the recently-issued securities will mature in 1938 and 1944. The new financing has resulted in a substantial saving of interest, and has removed the hazard entailed by the former obligations to pay optionally in any of three currencies. But the long-term advantages will depend upon the ability of the C. N. R. to refinance the new maturities at favorable rates in 1938 and 1944.

The volume of funds seeking employment is continuing to direct the trend of interest rates downward and provide strength in the Canadian bond market, according to the monthly bulletin of Wood, Gundy & Co. This firm sees the movement toward conversion of outstanding bonds into issues bearing lower interest rates as the outstanding feature of the present market.

This firm sees the movement to the same state of the consideration is being given to the advisability market.

"We understand that consideration is being given to the advisability of a further reduction of interest rates on savings deposits," states the bond letter of McLeod, Young, Weir & Co. This will possibly be on a basis whereby the present rate will be maintained for small deposits but reduced on larger deposits, states the letter. Such action, it is claimed, should result in highr prices for short and medium dated high-grade bonds, and the firm therefore holds the opinion that bonds of this type are a purchase.

**Power of the control o

the firm therefore holds the opinion that bonds of this type are a purchase.

CANADA (Dominion of)—BONDS PUBLICLY OFFERED—Public offering of a new issue of \$60.000.000 Dominion bonds was made on May 15 by Finance Minister E. N. Rhodes. The issue, proceeds of which will be used for general purposes, will be in two series, eight and twenty years, and will bear coupons at the rate of 2½ and 3%, respectively.

The eight-year bonds will mature June 1 1943, and will sell at 99.50, giving a yield of 2.57%. The 20-year series will mature June 1 1955, and will sell at 98.50, yielding 3.10%. The shorter term issue will be non-callable, but the 20-year maturities will be callable at par on June 1 1950, or on any interest payment date thereafter.

The bonds were entirely taken up by investors the same day, according to announcement by officials of the Bank of Canada. This institution acted as agent for the Dominion in receiving applications for the offering. All of the bonds are dated June 1 1935 and the proceeds will be used by the Government for general purposes. Principal and interest (J. & D.) payable in lawful money of the Dominion at any branch in Canada of any chartered bank. The financing was negotiated by the Government at record low interest cost.

GUELPH, Ont.—TAX ARREARS—The city's 1934 tax levy was \$808,259, of which \$254,182 was not collected within the year, leaving total arrears of \$577,066. Deducting reserve for uncollectibles of \$80,608, net arrears were \$496,458.

HAMILTON, Ont.—TAX COLLECTIONS—Tax levy for 1934 was \$6,914,222, of which \$1,600,492 was uncollected within the year. Total arrears were \$2,964,343 at Dec. 31 1934, compared with \$2,751,345 at the end of 1933.

KITCHENER, Ont.—DEBT REPORT—Funded debt at Dec. 31 1934 was \$3,949,800, compared with \$4,213,215 in 1933. Bank loans were \$707,317, against \$608,917, and other liabilities \$73,804, against \$92,785. Net total tax arrears in 1934 were \$364,624, against \$343,736 in 1933.

MANITOBA (Province of)—TO ISSUE \$600,000 BONDS—The Province will pay its share of the Winnipeg 4,000,000 sewage disposal development in 20-year, 4% bonds. The securities, amounting to \$600,000, will be paid, in lieu of cash, to successful tenderers.

MONTREAL, Que.—CALLABLE FEATURE IN BONDS ADVOCATED City bonds in future will be callable or issued in series so that the city

may profit by periods of lower interest rates, if the administration puts into effect the recommendation contained in a motion submitted by Aldermen Seigler and Biggar at the City Council meeting on May 13.

Ald. Francois J. Leduc, of Ahuntsic ward, affirmed—and not for the first time—that the city's credit now is so good that it could get \$30,000,000 "at 3% or lower" and pay off the banks charging 4½%. Whereupon Mayor Camillien Houde, C.B.E., plainly incensed, called upon the alderman to give up his secret and, from his seat on the floor of the Council to tell the City Hall where all this cheap money lurks. Ald. Leduc sat mum. But a few moments later he referred to last year's London loan of \$6,000,000 obtained through the personal intervention of Fremier Bennett, and hinted that the city might reach out more in that direction.

The motion: "That the Executive Committee be requested to consider the advisability of providing that bonds hereafter issued by the city be serial or, if otherwise, that the said city may, after a certain delay, redeem the same, with or without premium, at a price to be determined at the time of issue, in order to allow the said city, by replacing them, to benefit, if possible, by the reduction in the rates of interest."

The average of our interest now is 4.80 or 4.85, said Ald. Seigler, supporting his motion. "If we were to issue our bonds in series, maturing at different periods, or say on the face of each bond that it can be redeemed when the city thinks fit, we might buy it at 103 or 104 at the time we see it and make money. We pay \$13,000,000 in interest, and if we could do this now I say we could save \$3,000,000 in interest, and if the could do this now I say we could save \$3,000,000 in interest, and if the could do this now I say we could save \$3,000,000 in interest, and if the could do this now I say we could save \$3,000,000 in interest, and if the could do the said debenture.

NANAIMO, B. C.—DEBT REPORT—The city had a total debenture debt of \$907,872 at the end of 1934, compared with \$930,660 at the end of 1933. Sinking fund amounted to \$301,325 in 1934, compared with \$327,226 in 1934, compared with \$327,226. Other liabilities amounted to \$88,288 in 1934, compared with \$82,115 in 1932.

NEWFOUNDLAND (Government of)—FUNDED DEBT REPORT—Public debt of Newfoundland at June 31 1934 was £19,719,226, plus \$625,000. according to the "Financial Post" of May 11, which added:
Advances made by the United Kingdom, \$625,000 in December 1932 and \$1.850,000 in June 1933, have been made free grants, and are therefore wiped off the debt. The debt of \$625,000 represents a 3% loan from a syndicate of Canadian banks, guaranteed by the Dominion of Canada. This represents the Canadian share of the funds obtained in December 1932, and remains as part of the debt. In addition to the outstanding debt, there is \$4,100 of matured bonds not yet presented for payment.
A number of items of dollar debt are included in the total debt given in sterling in the recently issued revenue and appropriation accounts. These are converted into sterling at the rate of \$4.8665. The debt figures reflect the results of the recent conversion of most of the island's bonds into 3% sterling stock guaranteed by the United Kingdom. Bonds were still being received for conversion into the guaranteed securities in June 1934, but a complete list of unconverted securities is to be presented when the conversion operations are complete. Unconverted bonds are lumped in the statement below:

Newfoundland Debt, June 30 1934

Newfoundland Debt, June 30 1934 3% U. K. guaranteed stock Trustee stocks, not convertible Unconverted securities Bank syndicate loan U. K. loan	*£17,638,609 £1,516,882 £163,735 \$625,000 x£400,000
Total	£19,719,226 \$625,000

*£15,619,608 due to conversion of former debt; rest for funding and penses. x Interest on this not being paid.

OTTAWA, Ont.—OTHER BIDS—The \$1,008,225 3½% various issues of bonds awarded to A. E. Ames & Co. of Toronto and associates at a price of 101.794, as reported in V. 140, p. 3090, were also bid for as follows: Bidder— Bank of Montreal.

Bank of Montreal. 101.617
Dominion Securities Corp. 101.539
Bank of Toronto. 101.36
Gairdner & Co., J. L. Graham & Co. and C. H. Burgess & Co. 101.2567
Wood, Gundy & Co., Royal Bank of Canada, Dominion Bank and Nesbitt, Thomson & Co. 101.147
W. C. Pitfield & Co. 101.2567
Bank of Nova Scotia, R. A. Daly & Co., Hanson Bros., Inc., Matthews & Co., Cochran, Murray & Co., Griffis, Fairclough & Norsworthy, Ltd., Dyment, Anderson & Co. and Midland Securities Corp. 100.7093
Bell, Gouinlock & Co., McLeod, Young, Weir & Co. and Fry, Mills, Spence & Co. 100.55
PETERBOROUGH, Ont.—TAX REPORT—Tax collections in 1934 showed \$145.750 of the year's levy of \$909.544 uncollected within 1934 and total tax arrears of \$261.948 at the end of the year.

SASKATCHEWAN (Province of)—\$3,000,000 DEFICIT FORECAST—The Province's deficit for the year ended April 30 1935 will be about \$3,000,000, according to a recent statement by Premier J. G. Gardiner. This would be the third largest deficit in the Province's history. Budget experience in Saskatchewan has been as follows:

 Year
 Revenue

 1933-34
 \$14,253,000

 1932-33
 14,835,000

 1931-32
 11,903,000

 1930-31

VANCOUVER, B. C.—IMPROVEMENT IN FINANCIAL CONDITION NOTED—A report on the financial condition of the city at Dec. 31 1934, prepared by City Comptroller W. Wardhaugh, indicates some improvement compared with its status a year previously and discloses a better standing than that enjoyed by many other Canadian municipalities, according to an analysis of the report in the "Financial Post" of May 11. In connection with the demands of Mayor McGeer that creditors agree to a reduction in the rates of interest carried on bonds and other debts, first made some months ago, it is stated that the Mayor has shown no disposition to abandon the proposal, notwithstanding the fact that the difficulties cited by him as necessitating the relief sought were not sustained in the independent report on the city's finances prepared some time ago by Thomas Bradshaw, municipal finance expert of Toronto. The Mayor's latest proposal, it is said, is to ask Federal and Provincial Governments to agree to sanction a long-term refunding of the city's debt at 3% interest. In connection with the City Comptroller's reports to the Post, 'Vancouver appears to be about \$1,000,000 better off in its debt position than it was at the end of 1933. Its tax arrears have grown to a total of more than 50% of the tax levy, but substantial arrears are apparently being collected. The budget bas been reduced. The sinking fund, Vancouver's debt, including bank loans, was approximately \$59,500,000 at the end of 1934, compared with \$60,400,000 at the end of 1933.

"Here are the civic figures as condensed by the 'Financial Post' from Mr. Wardhaugh's statements:

Vancouver Statistics

Vancouver Statistic	8	
Budget: Revenue Expenditure	\$14,360,379 14,525,019	\$15,078,183 15,020,862
